The purpose of this catalog is to provide information about the university and existing resources and services and current curriculum programs, rules, regulations and policies, Catalog information is thus to be used as an informational guide and practical resource. The university, however, in its discretion and from time to time, may amend the information contained in this catalog by modification, deletions or additions to it. Accordingly, the catalog and information it contains do not constitute a contract.

EMERGENCY CLOSING POLICY

Announcements about schedule changes or cancellations will be broadcast over the following major radio and TV stations: WBAL AMP1090), WCAO (AM/600), WMZQ (EM/98.7), WTH (EM/101.9), WTOP (EM/107.7), WBAL-TV (11), WJZ-TV (13), WMAR-TV (2) and WRC-TV (4). Information will also be available by calling 410-704-XEWS or 410-704-2000.

Dear Student:

Welcome to another year of learning and discovery, both in the classroom and beyond. Whether it is your first or last term at Towson University, I urge you to embrace the many opportunities on and off campus for intellectual and personal development.

Your college years are a time to explore the many different ways of learning that can shape and enrich your life and career. Towson University faculty and staff are here to help every student who joins the university community expand their choices.

During your time here, seize every opportunity to learn and to grow. Talk with your professors outside the classroom; engage in conversations with people of different backgrounds; attend arts performances, athletic events, and lectures by visiting scholars; and become active in at least one student organization. Retain a sharp focus on your academic subjects, but also remember that an important part of education and learning occurs beyond the classroom and computer screen. You should become part of the broader communities both on- and off-campus.

I once saw this quote in a classroom: "Grasp even one small idea for the first time, and you have found a whole new world." Keep this in mind as you navigate your way through your college years. Make the most of what we have to offer at Towson University and you will be able to offer your best to the world.

Sincerely,

President

Robert L. Caret

Rhoth, Court

The University

Towson University, Maryland's Metropolitan University, is nationally recognized for its excellent programs in the arts and sciences, communications, business, health professions, education, fine arts and computer science. The university is located in the suburban community of Towson, Maryland, just eight miles north of downtown Baltimore,

Its beautifully landscaped 328-acre setting provides a pleasant environment for study and a diverse campus life, as well as easy access to a wealth of university and community resources. Towson University enrolls and graduates more undergraduate students from the region than any other institution.

HISTORY

The institution known today as Towson University opened its doors in 1866 in downtown Baltimore as the Maryland State Normal School—the only institution devoted exclusively to the preparation of teachers for the public schools of Maryland. The first class consisted of 11 students.

In 1915 the school moved to Towson. By 1935, it established the Bachelor of Science degree in education and changed its name to Maryland State Teachers College at Towson. In 1946 it introduced an arts and sciences program, and in 1963 the institution expanded its offerings in the arts and sciences and became Towson. State College.

Towson was granted university status on July 1, 1976, in recognition of its development into a comprehensive university. In 1988 Towson State University joined the University System of Maryland. On July 1, 1997, Towson State University became Towson University, a change that reflects its evolution from a state-supported to a state-assisted institution. As of May 2004, the university has graduated 100,692 students, 13,223 of them having received advanced degrees.

Enrollment for the 2004 fall term was 12,405 full-time undergraduates, 1,906 part-time undergraduates, and 3,356 graduate students.

PHILOSOPHY OF LIBERAL ARTS EDUCATION AT TOWSON UNIVERSITY

Excellence at Towson University begins with its commitment to a sound liberal arts education for every student. All students explore the historical development and interrelationships among the four central areas of knowledge (fine arts, humanities, science and mathematics, and social and behavioral sciences), and how each of them addresses the world, investigates, reaches conclusions, and presents findings—extending the reaches of human knowledge. The university helps all students develop a range of intellectual skills that will continue to enrich and shape their lives long after their formal education has ended.

COLLEGES

Students choose their programs of study from the university's academic colleges: the College of Business and Economics, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, and the College of Science and Mathematics. All undergraduate programs within each college are fully described in the *Undergraduate Catalog*. For information on the College of Graduate Studies and Research, see the description in this catalog.

FACULTY

Towson University offers many opportunities for close student-faculty contact and promotes a supportive environment that encourages exploration and personal growth. A student-faculty ratio of approximately 18:1 allows students to interact frequently with their professors. More than 85 percent of the 525 full-time permanent faculty have earned the highest degree of academic preparation in their fields from some of the finest colleges and universities in the world. Many faculty are recognized nationally and internationally for their published works and honors. Small classes and the tradition that all instructors—including most full professors—teach introductory courses helps to enhance the strength of Towson's faculty—their dedication to excellent teaching.

GOVERNANCE

Towson University is a member of the University System of Maryland (USM), which comprises 11 campuses, about 70 centers and institutes and three research and public service institutes.

A Board of Regents, consisting of 17 regents appointed by the governor, has oversight over the USM campuses and institutes.

The president and his or her designees are responsible for the day-to-day governance of the university. The University Senate and its committees develop university policies and procedures, with the senate also serving in an advisory capacity to the university president.

STUDENT GOVERNMENT ASSOCIATION

The Student Government Association (SGA) is the student governmental body authorized by the administration of the university. The SGA consists of an executive branch, composed of a president, vice president, attorney general, and treasurer, and a legislative body called the Senate, composed of 18 students elected at large and two students appointed from the freshman class. The SGA Senate and its committees develop policies and procedures affecting students and student-run organizations.

ACCREDITATION/AFFILIATION

The Middle States Association of Colleges and Schools, the Maryland State Department of Education, The National Council for the Accreditation of Teacher Education (NCATE), the National Association of Schools of Music, the National Association of Schools of Dance, the National Association of Schools of Theatre, the Maryland State Board of Nursing, the National League for Nursing, the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), Council on Academic Accreditation of the American Speech-Language-Hearing Association, AACSB International—The Association to Advance Collegiate Schools of Business for both business and accounting programs, the American Chemical Society, the American Association for Health Education/National Council for the Accreditation of Teacher Education (AAHE/NCATE), the Commission on Accreditation of Allied Health Education Programs (CAAHEP), the Association of University Programs in Health Administration (AUPHA), and the Computing Accreditation Commission of ABET.

The university is a member of the American Council on Education, the American Association of State Colleges and Universities, and the Association of American Colleges.

ASSESSMENT

Assessment is the ongoing process of establishing clear, measurable expected outcomes of student learning; systematically gathering, analyzing and interpreting evidence to determine how well student performance matches those expectations, and using the resulting information to understand and improve student learning throughout Towson University. All Towson University activities that aim to deepen student learning—undergraduate and graduate courses and programs, co-curricular activities, student life programs, and the General Education curriculum—systematically assess learning outcomes. Because assessment is an integral part of the teaching-learning process, Towson students participate in a variety of assessments as part of their education experience.

The University Assessment Council works closely with the Associate Vice President for Assessment and Institutional Research to oversee Towson University's assessment efforts. For more information on Towson's assessment program, contact the Associate Vice President for Assessment and Institutional Research, 410-704-2620. Information is also available online at www.towson.edu/assessment.

PRIVACY RIGHTS OF STUDENTS

Towson University is in compliance with the Family Educational Rights and Privacy Act of 1974, as amended (aka Buckley Amendment). As such, it is the policy of the university (1) to permit students to inspect their academic records; (2) to limit disclosure to others of personally identifiable information from education records without students' prior written consent; and (3) to provide students the opportunity to seek correction of their education records where appropriate.

A more complete description of the policy and the records considered confidential may be found in Appendix D.

NON-DISCRIMINATION IN EDUCATION AND EMPLOYMENT

Towson University's policies, programs and activities comply with federal and state laws and regulations prohibiting discrimination on the basis of race, color, religion, age, national origin, sex, disability and sexual orientation. For further information, contact the Towson University Office of Diversity and Equal Opportunity, 410-704-2360, http://www.towson.edu/aa.

NOTICE OF THE ANNUAL CLERY CAMPUS SECURITY REPORT

In accordance with the guidelines established by Towson University, and pursuant to federal law, identified as the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act of 1998," all currently enrolled students, campus employees and all prospective students and prospective employees are entitled to request and receive a copy of the Towson University Annual Campus Security Report known as the Clery Report. The report contains crime statistics about certain specified crimes/incidents that have been reported to the Towson University Police Department and/or campus security authorities over the past three years and which have occurred either on-campus, in off-campus buildings or property owned or controlled by the university, or on public property adjacent to campus. The report also contains policies and practices pertaining to campus security, crime reporting, alcohol and drugs, victims' assistance programs, student discipline, campus resources, community safety alerts, crime prevention, access to campus facilities/properties as well as personal safety tips. The report encourages the reporting of all crime occurrences. The report describes how and to whom to report crimes.

Copies of this report may be obtained from the Towson University Police by visiting the department in person, calling 410-704-2505, or by requesting the report online at www.towson.edu/police.

University Curriculum

CURRICULUM

Towson University takes pride in the breadth and depth of its undergraduate academic programs. Students acquire a broad background in the liberal arts and sciences based on the General Education (GenEd) requirements, upon which they build concentrated study in one subject, their major field of study. They may select courses ranging from the traditional to the contemporary. This undergraduate foundation prepares them to take their place in the professional world or in graduate studies.

The university's six undergraduate colleges—the College of Business and Economics, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, and the College of Science and Mathematics—offer more than 60 undergraduate majors leading to the baccalaureate degree. The university also offers specialized programs, including minors, concentrations, tracks, and double majors.

DESIGNING YOUR COURSE OF STUDY

Although many students enter the university fully aware of their academic and occupational goals, others have yet to select a field or program of specialization. Frequently, students change their majors several times over the course of their college careers. Students may explore the range of programs that interest them in several ways:

- consulting with an adviser at the Academic Advising Center, Lecture Hall, 410-704-2472
- meeting with their assigned faculty adviser or with a faculty member whose field of study interests them
- exploring career opportunities and vocational interests through the Counseling Center, Glen Esk, 410-704-2512
- investigating career opportunities at the Career Center, 410-704-2233

DEGREE REQUIREMENTS

Student Responsibility

Students are expected to familiarize themselves with the *Undergraduate Catalog* and to satisfy all published degree requirements. Failure to do so does *not* provide a basis for exceptions to academic requirements or policies. It is expected that students will receive assistance from general academic and faculty advisers, but students must assume responsibility for completing published degree requirements.

Students are also expected to be familiar with regulations pertaining to campus life and deportment, and to conduct themselves in a way that reflects well upon themselves and Towson University.

Finally, students are expected to maintain communication with the university and to assure that their current addresses and telephone numbers are on file in the Office of the Registrar.

Changes in Terminology

Students use Towson Online Services to register for classes and track their academic progress. Please note that some academic terms used online and in the catalog are interchangeable. For example: majors and minors are referred to as Academic Plans; concentrations and tracks are referred to as Academic Sub-Plans.

Bachelor of Science

Students must fulfill the following requirements to graduate with a Bachelor of Science degree:

- Completion of the online graduation application (http://onestop.towson.edu) according to the following deadlines:
 - June graduates file by September 30 of the year prior to graduation.
 - August graduates file by March 30 of the year of graduation.
 - December graduates file by May 30 of the year of graduation.
- 2. At least 120 earned units
- 3. A minimum of 43 units of General Education (GenEd) requirements (see below).
- 4. At least 32 units (part of the 120 total units required) of upper-level work (courses numbered 300+ and 400+); courses taken at two-year institutions *cannot* count as part of the 32 upper-level units required. Courses from four-year institutions will transfer at the numerical level as they were taken at the transfer institution and may *not* be converted to an equivalent TU number or level.
- 5. Completion of Writing for a Liberal Education (ENGL 102) or its equivalent with a grade equivalent of 2.00 or higher
- Completion of a major (a grade equivalent of 2.00 or higher must be earned in all courses applied toward the major and, if applicable, minor)
- 7. A cumulative GPA of at least 2.00
- 8. Completion of at least 15 units *after* formal matriculation as a degree candidate
- Completion of at least 30 units in residence at Towson unless permission is granted in advance by the Academic Standards Committee to earn the units at another institution

The undergraduate records of all persons receiving a bachelor's degree are CLOSED 180 days following graduation. Any changes to the permanent record MUST be made within this period of time.

Bachelor of Arts

The requirements for the Bachelor of Arts degree mirror those for the Bachelor of Science degree, but Bachelor of Arts candidates must also complete a foreign language through the intermediate (200) level (or the equivalent). See the Department of Modern Languages section in this catalog.

Bachelor of Fine Arts

The Bachelor of Fine Arts degree is available only to students who complete the major in Dance. The requirements for the Bachelor of Fine Arts degree are identical to those for a Bachelor of Science degree, but Bachelor of Fine Arts candidates must also fulfill the performance and studio requirements specified by the Department of Dance.

Bachelor of Music

The Bachelor of Music degree is available only to students who complete the major in Music. The requirements for the Bachelor of Music degree are identical to those for a Bachelor of Science degree, but Bachelor of Music candidates must also fulfill the performance and studio requirements specified by the Department of Music.

Bachelor of Technical and Professional Studies

The Bachelor of Technical and Professional Studies (BTPS) is available only to students in specifically articulated programs between Towson University and area community colleges. For example, the Chemical Dependency Counseling and Education major within the Health Science curriculum is a BTPS program.

Concurrent Degrees

Students simultaneously pursuing course work in two programs of study may wish to earn two degrees concurrently and receive two diplomas. In such cases, the Academic Standards Committee will consider requests from students wishing to receive two degrees provided they:

- 1. Complete a minimum of 150 units.
- 2. Complete both programs of study.
- Complete a minimum of 60 units in residence at Towson University.
- 4. Complete at least half of the units required in each major in residence at Towson University.
- 5. Have no more than 12 units overlap between each major, including program core and program electives.
- Complete an appropriate advanced writing course for each of the majors, where required.
- 7. Submit a letter of request to the Secretary of the Academic Standards Committee, with a copy to each department chairperson, fully explaining how he or she will satisfy the requirements for the concurrent degrees. This request must be made at least one year before the expected date of graduation.

CATALOG SELECTION

Students must fulfill all degree requirements from a single catalog. They will be assigned the catalog in effect at the time of their formal admission to Towson University and will have 10 years to complete the requirements of that catalog in order to graduate.

Students may request an alternate catalog under the following conditions:

1. They may select the catalog in effect at the time of formal admission at their initial transferring institution, provided 10 years have not elapsed. Students may elect this option by completing the Catalog Selection Petition and submitting the form to the Academic Standards Committee for final approval.

2. They may select a later catalog than the one assigned to them at the time of formal admission to Towson provided that the chosen catalog has not expired. The student will be required to complete the general degree requirements in effect for the selected catalog year. This will not alter the original transfer package/option received at the time of formal admission to Towson University. Students may elect this option with the signed approval of their major department chairperson on the Catalog Selection Petition. This form must be submitted to the Academic Standards Committee for final approval.

These forms are available in the Registrar's Customer Service Center, Enrollment Services, room 223. Students must see an academic adviser before submitting this form in order to determine the impact their catalog selection may have on their degree requirements. Please note that any change in catalog may affect degree requirements and may negate previous advising.

CATALOG EXTENSION

The Academic Standards Committee authorizes the Office of the Registrar to grant a one-year extension to degree candidates who have been unable to meet the major or general degree requirements in effect at the time of their formal admission to Towson University. Students should use the Catalog Selection Petition to request an extension.

GENERAL EDUCATION REQUIREMENTS

Higher education serves a higher purpose than simply providing basic occupational training. The General Education requirements are designed to help students gain essential intellectual skills and knowledge that will be important throughout their lives.

These skills include successful speaking and writing, the gathering and evaluation of information, the appreciation of diverse points of view, and the ability to understand and formulate ideas and values. These skills will provide students with: 1) the flexibility and resourcefulness required to adapt successfully to rapid social, economic and technological change, 2) the understanding and tolerance necessary for informed citizenship and social action, and 3) the interest and curiosity essential to the pursuit of learning throughout the whole of life.

The requirements are grouped in two basic categories: 1. Skills for Liberal Learning, and II. Contexts for Liberal Learning. Category I emphasizes useful tools for gathering, evaluating, valuing and shaping information and ideas. Category II identifies social, historical, cultural and scientific contexts wherein knowledge finds active meaning, and emphasizes the need for understanding interdisciplinary relationships among the different ways of knowing.

THEA 126

I. Skills for Liberal Learning

Writing for a Liberal Education Category I.A.

These courses explore ways of writing and thinking in the branches of knowledge and of developing rhetorical strategies

for successful college-level expository writing.

One course is required in this category. A grade equivalent of 2.00 or higher is required to fulfill the requirement. A grade of PS is acceptable provided the course is not required for the major or minor. Courses in italics are honors courses.

II. Contexts for Liberal Learning

| Category | Scientific | |
|----------|------------|--|
| | | |
| | | |
| | | |

These courses help students understand the quantitative and predictive nature of the natural sciences as well as the nature of the scientific method. In addition, they explore the historical development and the structural nature of the subject.

Two courses, one of which must include a lab, are required in two separate disciplines or two sequential courses in one discipline (sequential courses are distinguished by 1 and 11 in the title and are marked in the following list with a superscript 1 or 2); in all Category II requirements, no more than three courses in one discipline may be taken for GenEd credit. Courses in italics are honors courses

Category II.A.2. Science, Technology and Modern Society
These courses develop one or more issues of current importance
to society and place them in broad scientific, technological, and
societal contexts. They are designed to help students understand
bow to approach a problem and develop a sense of social
responsibility and ethics as they pertain to science. Students will
analyze and evaluate the advantages and disadvantages of scientific and technological decisions that have been considered by

society.

One course is required in this category IF the two courses in II.A.1. equal 7 or fewer units; in all Category II requirements, no more than three courses in one discipline may be taken for GenEd credit.

GRADUATION REQUIREMENTS

All students must complete:

- a minimum of 120 earned degree counting units including 32 upper-level units (300 level or above)
- a cumulative GPA of 2.00 or higher
- · all departmental requirements from an officially declared major
- all General Education requirements (GenEds) as outlined above

TRANSFER PACKAGES

Towson University offers Transfer Packages to newly enrolled transfer students. The packages vary according to the General Education (GenEd) requirements completed at the sending institution.

A Transfer Package A, B, or C will be awarded to students meeting the following criteria prior to matriculation at Towson University: 40 transferable credits of liberal arts course work comparable to courses that native Towson University students may use to satisfy GenEd and, as part of the 40 credits, the completion of the minimum MHEC (Maryland Higher Education Commission) General Education requirements.

Minimum Requirements for GenEd Transfer Packages

Transfer packages will be awarded provided the following requirements are completed *prior* to matriculation at Towson University:

- Minimum MHEC requirements:
 - One college-level freshman composition course (Towson graduation requirement: a grade equivalent of a 2.00 or higher must be earned)
 - One college-level mathematics course (Prerequisite: two years of high school algebra)
 - Two science courses (one must be a lab)
 - Two arts/humanities courses (must be different disciplines)
- Two social science courses (must be different disciplines)
- Additional liberal arts requirements:
 - Emerging issues course (must include information technology)
 - One cultural diversity course
 - One global awareness course

Package A

- 40 units toward GenEd completed at sending institution
- 6 units of GenEd courses required at Towson
- I.D. Advanced Composition (Upper-Level)
- II.A.2. Science, Technology and Modern Society (Upper-Level)

Package B

- 40+ units toward GenEd completed at sending institution
- 7.5+ science units toward GenEd completed at sending institution
 - II.A.2. Science, Technology and Modern Society WAIVED
- 3 units of GenEd required at Towson
 - I.D. Advanced Composition (Upper-Level)

Package C Baccalaureate Institution Transfers Only

- 44-46 units of GenEd required and completed at sending institution
- GenEd SATISFIED IN TRANSFER

Course work for transfer students not awarded a GenEd package will be applied toward Towson's GenEd requirements on a course-by-course basis.

AAT Elementary Education Articulation

Maryland public community college students who have earned AAT degrees (Associate of Arts Degree in Teaching) will be awarded 64 credits in transfer "without further review," in accordance with MHEC policy, toward the elementary education major at Towson. Students are encouraged to contact the elementary education department chairperson at their institutions for specific details and program deadlines.

Course work for students who do not complete all requirements of the AAT degree, will be applied toward Towson's GenEd and major requirements on a course-by-course basis.

CHOOSING A MAJOR

The General Education (GenEd) requirements allow students to explore a broad range of subjects, while the major and minor provide in-depth study of one or more fields. A major may require as few as 30 hours or as many as 70 hours. The exact number varies and is set by the academic department.

All students are asked to declare a major during their initial registration. Those who are not sure which major they wish to pursue will be designated as "undecided." In order to add or change a major or minor, students must complete a Declaration of Major/Minor Form in the Registrar's Customer Service Center, Enrollment Services, room 223.

Changes in Terminology

Students use Towson Online Services to register for classes and track their academic progress. Please note that some academic terms used online and in the catalog are interchangeable. For example: majors and minors are referred to as Academic Plans; concentrations and tracks are referred to as Academic Sub-Plans.

Major

A major consists of courses required of a particular discipline that may include both lower-level (100-200) and upper-level (300-400) courses within and outside the discipline. A grade equivalent of 2.00 or higher is required in all courses completed toward the major, and a minimum cumulative Grade Point Averate (GPA) of 2.00 must be earned in the major.

Double Major

A double major combines the requirements of two majors, allowing students to complete both majors by taking fewer units than if each major were completed separately.

Minor

An institutionally approved set of courses within a major area of study, or a separate, distinct thematic area of study consisting of at least 18, or no more than 30 units. A minimum of 12 units must be upper-level courses (300-400 numbered courses) and no more than 12 units can be taken outside of the minor or thematic discipline.

Concentration

In some departments the major is further divided into concentrations. A concentration is a focused area of study involving approximately 15 to 24 units. Because the university formally recognizes concentrations, they will appear on students' academic records. Students interested in a particular concentration within a major should contact the department for details.

Track

A track is a university-approved area of focus within a larger area of study, but, unlike a concentration, it has not been formally approved by the Maryland Higher Education Commission (MHEC). Because it does not carry formal recognition, it may not appear on the academic record.

Screened/Competitive Majors

Some programs of study are screened. Students must meet certain academic and/or curricular criteria, such as completing prerequisite courses or attaining a specific average, before they are admitted to these programs.

Other programs of study, while not officially approved screened majors, are competitive. Students must either submit a portfolio of work or audition before they are admitted to these programs. Examples of competitive majors include Art, Music and Dance.

The criteria are published in the applicable sections of this catalog. Admission to the university does *not* guarantee admission to screened or competitive programs.

Out-of-State Students

Recognizing the advantage of a diverse student body, the university welcomes out-of-state applicants to its screened programs. However, because the university is partially supported by Maryland taxpayers, the proportion of out-of-state students admitted to its screened programs must be limited. Therefore, no more than 25 percent of each class of new students admitted to screened programs will be out-of-state residents unless qualified in-state students are unavailable.

COLLEGES

The university comprises seven colleges: the College of Business and Economics, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, the College of Science and Mathematics and the College of Graduate Studies and Research.

Once students have determined a program of study, they become a member of, and graduate from, the academic college administering the program.

College of Business and Economics

The mission of the College of Business and Economics (CBE) is to provide successful graduates with Knowledge, Skills, and Attitudes (KSAs) that employers want. Dynamic partnerships with business, government, and nonprofit organizations enhance the academic program. The Accounting and Business Administration programs are accredited by AACSB International: The Association to Advance Collegiate Schools of Business. Students earn degrees in accounting, business administration, electronic business and economics. Within the business administration major, students choose among concentrations in international business, finance, management or marketing, or tracks in economics, human resource management or legal studies. Courses toward finance planning certification are also offered.

College of Education

The mission of teacher education at Towson University is to inspire, educate, and prepare educators as facilitators of active learning for diverse and inclusive populations in environments that are technologically advanced. The teacher education unit is accredited by the National Council for Accreditation of Teacher Education.

As the first teacher-training institution in Maryland, Towson University has been preparing men and women for teaching careers for more than 139 years. Today, the College of Education has a nationwide reputation as a leader in teacher education. Programs of study lead to the baccalaureate degree in education with certification to teach Early Childhood Education, Elementary Education, and Special Education. In addition, the college offers programs that lead to teacher certification in secondary education and K-12 education for students enrolled in other colleges of the university.

College of Fine Arts and Communication

Recognized as a fine arts center for Maryland, the College of Fine Arts and Communication trains talented men and women to pursue careers in the arts and communication. Additionally, the college offers all TU students the opportunity to participate in both academic and artistic experiences in these areas.

Because the creative process involves close dialogue between teacher and student, programs are structured to allow for individual attention. All programs provide a broad liberal education as well as specialized professional training.

College of Health Professions

The departments of the College of Health Professions have the common goal of preparing students to provide human services designed to improve the quality of life. The college is composed of the departments of Audiology, Speech-Language Pathology and

Deaf Studies, Health Science, Kinesiology, Nursing, and Occupational Therapy and Occupational Science, and college-based programs in Allied Health and Physicians Assistant Studies. Graduates of the baccalaureate programs in Nursing and Occupational Therapy are eligible to sit for their respective certification examinations.

A major in the College of Health Professions can prepare students for one of many health care and sport-related careers. Some examples include community health education, speech and language pathology, hospital management, medical technology, athletic training, teaching physical education, coaching, sports information, recreation leadership, research, government service and health education.

College of Liberal Arts

A liberal arts education provides students with the opportunity to explore the world of ideas and values, to appreciate cultural diversity, and to deepen their understanding of human nature and society, locally, nationally and globally. The liberal arts major prepares students for today's job market by teaching the skills and competencies employers are seeking: the ability to think critically; communicate effectively; research, organize and analyze data; work as a member of a team; and problem solve.

The College of Liberal Arts offers a student-centered learning experience that emphasizes teaching excellence, scholarship and creativity through internships, research opportunities, community service and study abroad. More than 2,500 undergraduates major in liberal arts programs and 500 graduate students pursue master's degrees.

The liberal arts are ideas at work. Upon graduation, students pursue graduate programs or careers in areas as diverse as urban planning, teaching, law, journalism, publishing, counseling, business and public service.

College of Science and Mathematics

The College of Science and Mathematics provides students with the science, mathematics and technology dimension of their liberal education. Courses are offered in all of the traditional physical, mathematical and life sciences disciplines. Programs are vigorous, yet highly flexible. Students may choose a traditional science major or may elect cross-disciplinary majors, such as Environmental Science and Studies; Molecular Biology; Biochemistry, and Bioinformatics; or Forensic Chemistry. A Dual-Degree Engineering program; pre-professional preparation in pharmacy, medicine, dentistry, veterinary medicine and physical therapy; and international studies programs leading to a Master of Science are also available. Students who major in Mathematics or in one of the sciences may also pursue certification to teach at the secondary or elementary level.

College of Graduate Studies and Research

The College of Graduate Studies and Research has expanded programs and streamlined administrative processes to accommodate a graduate student population which has grown to more than 3,400 students. The mission of the Graduate School at Towson University is to provide programs of study that will allow individuals to advance their knowledge, increase their practical skills, and develop leadership abilities in a broad spectrum of professions. The College of Graduate Studies and Research also aims to help students enhance knowledge of their disciplines through collaboration on research projects with faculty; to be actively engaged in the process of improving the quality of life for others and themselves; and to develop the desire in each individual to become a continuous lifelong learner. The college currently administers four doctoral, 36 master's and 22 certificate programs.

A hallmark of graduate education at Towson is the emphasis on applied programs that—provide the skills and knowledge needed by career professionals. Faculty and student research is closely related to graduate education and advances the college's mission as well as

that of Towson University. The Office of University Research Services (OURS) was established to assist faculty and staff in obtaining external support for research and scholarly activity. It serves the dual function of protecting the university's interests in matters relating to external funding, while providing a high level of service to university faculty and staff members in identifying funding opportunities, and submitting complete and competitive proposals for research and scholarly projects. In fiscal year 2004, Towson University received more than \$8.4 million in external funding for research and other scholarly projects.

HONORS COLLEGE

Cook Library 524, 410-704-4677 E-mail: honors@towson.edu www.towson.edu/honors

Towson University Honors is designed for students who have demonstrated superior academic performance in high school, and who wish to pursue unique academic and social opportunities while attending the university. Students may major in any field at Towson University and be part of the Honors College. At Towson, the Honors College is a true community of scholars. Honors students are encouraged to seek intellectual excellence and leadership through opportunities that go beyond the routine college experience.

Curriculum

Students graduating from the Honors College must complete I8 to 24 units of required Honors course work with a grade of C or better. The following distinctions are made at graduation:

Honors

- Minimum of 3.50 GPA
- Completion of 18 units in honors courses

Honors with Distinction

- Minimum of 3.50 GPA
- Completion of 18 units in honors courses
- Completion of 6-9 units in Honors Thesis or Departmental Honors

Many of the courses are honors sections of General Education (GenEd) courses, but some courses are unique to the Honors College. There are Honors College courses in a wide range of academic disciplines; for example, anthropology, art history, biology, chemistry, mass communication and communication studies, economics, English, history, philosophy, political science, psychology, sociology, and women's studies. Honors College courses, taught by outstanding faculty committed to excellence in undergraduate education, are designed to facilitate discussion and collaborative learning.

Admission Requirements

Students are considered for admission to the Honors College based on several indicators of academic excellence: high SAT scores; class rank; performance in high school; and a well-written application essay. The Honors College has historically admitted the top 10 percent of the entering freshman class.

Students transferring from another college or university must have a 3.50 minimum GPA to be considered for participation in the Honors College. Transfer students may use a maximum of two honors-designated courses from another institution in completing degree requirements.

Benefits

TU students in the Honors College can take advantage of the following benefits:

 They may attend small, informal discussion sessions with faculty.

- They have priority scheduling for course registration.
- They may take classes not offered to the rest of the university, including seminars, special focus courses, and study abroad programs.
- They have access to special campus facilities including honors housing and an honors computer/study lounge.
- They are eligible for special scholarship support.
- They may participate in special service initiatives or peer mentoring.

Special Scholarship Opportunities

Honors College scholarships are available only to incoming freshmen in amounts from \$500 to \$3,000 as a one-time offer. The scholarships are awarded on a competitive basis to students admitted to the Honors College. The Honors College Selection Committee chooses the scholarship recipients. The recipients are required to remain in good standing in the Honors College each year to continue to receive the scholarship.

DEPARTMENTAL HONORS

The Departmental Honors Program represents intensive and individualized but directed education beyond the normal course of instruction. This program includes 6 to 9 units in seminars, directed readings (tutorials), and research projects in the major. A senior thesis is required, as is an oral defense of the thesis.

and additional Honors special topics courses

To be admitted to the program, students must present a cumulative GPA of 3.25 and a 3.50 average in their discipline, or have the permission of their faculty adviser. These minimum averages must be maintained for graduation as a Departmental Honors Program participant. Students who complete an approved program will receive a diploma and transcript with the designation, Bachelor of Science or Bachelor of Arts with Honors, in the appropriate discipline. Currently, the departments of Art; Biological Sciences; Computer and Information Sciences; Economics; Electronic Media and Film; English; History; Kinesiology: Mass Communication and Communication Studies; Mathematics; Modern Languages; Physics, Astronomy and Geosciences; Political Science; Psychology; Sociology, Anthropology and Criminal Justice; and Women's Studies offer departmental honors programs. Details of each department's honors requirements may be obtained from the appropriate chairperson.

DEAN'S LIST

Office of the Provost, 410-704-2125

Full-time degree candidates are eligible for Dean's List recognition each fall and spring term provided they complete a minimum of 12 calculable units and attain a 3.50 or higher GPA.

Part-time degree candidates are eligible for Dean's List recognition each academic year provided they complete a minimum of 12 calculable units and attain a 3.50 or higher GPA during that academic year. An academic year is designated as fall through summer and includes the January Minimester.

Applicable course work is only that in which calculable grades (A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, FX) are earned. Pass (PS), Audit (AU), and Satisfactory/Unsatisfactory (S/U) grades do not apply toward the 12-unit minimum.

Additionally, students who receive Incomplete (I) grades for the term are not eligible for Dean's List honors in that term, nor may they retroactively receive those honors once the work is made up and a letter grade is earned.

GRADUATION WITH LATIN HONORS

Graduation Office, Enrollment Services Center 225 410-704-2095

To receive a bachelor's degree with honors, students must first have completed 60 units of undergraduate work at Towson University with the following cumulative GPA:

| 3.75 to 4.00 | Summa Cum Laude |
|--------------|-----------------|
| 3.55 to 3.74 | Magna Cum Laude |
| 3.40 to 3.54 | Cum Laude |

In addition, transfer students must have a cumulative 3.40 or better average for all work completed at other institutions.

Students who do not qualify for honors because their TU or transfer GPA is not a 3.40 or higher will be evaulated based on their last 60 units at Towson. These students must have a cumulative average of 3.55 or higher in their last 60 units and will only be eligible for Cum Laude honors. Latin honors are evaluated automatically according to both the regular and alternate honors policies.

OPPORTUNITIES FOR OFF-CAMPUS STUDY

Students at Towson may expand their educational opportunities by studying in universities throughout Maryland, the United States, and in countries around the world. In some programs, students are able to pay tuition approximately equal to that at Towson (plus transportation), while others will require additional funds. Students considering one of the off-campus study options will want to plan ahead for their experience.

Inter-Institutional/BSEP Registration Program Enrollment Services Center 235, 410-704-2007

The Inter-Institutional Registration Program at Towson University is designed to foster an interchange of students between Towson and other University System of Maryland institutions. Certain private colleges, such as Goucher, Loyola, Johns Hopkins, College of Notre Dame and Morgan State University, also participate in a similar program called the Baltimore Student Exchange Program (BSEP), with no additional tuition costs to students.

Interested students should contact the coordinator at Towson. Students must maintain a combined full load (12 or more units) with a minimum of 6 units at TU. With approval of the coordinator, students may register for one or two courses at the host institution. Enrollment is on a space-available basis. Students must obtain special permits or instructor consent to register for courses that require them at the host institution. Students participating in the Inter-Institutional Registration Program must follow the withdrawal deadlines at the host institutions.

At the end of the term, the host institution's registrar will send an official transcript to Towson, and the courses completed and grades earned will be posted to the Towson record and calculated into the Towson cumulative average. Additionally, a notation will be made that the course work was completed through the program, indicating the name of the host institution.

National Student Exchange (NSE) Lecture Hall, 410-704-3583

This program allows full-time degree candidates an opportunity to become acquainted with social and educational patterns in other areas of the United States. Through Towson's membership in the NSE, students may attend one of the 140 participating schools for a term or a full year. Schools participating in the program include ones in Puerto Rico, Guam, the Virgin Islands, and in 47 states. For more information, contact Tracy Miller, 410-704-3583, or Susan Hyman, 410-704-2007.

Consortia Agreements

Enrollment Services Center 233, 410-704-3104

Students at TU may participate in consortia agreements between accredited two- and four-year colleges and universities. Consortia agreements are useful for students who wish to use part of their financial aid to pay for all or part of the tuition and fees at the participating institution.

Students wishing to participate in a consortia agreement must:

- 1. Be in good academic standing at TU. Students for whom an exception to suspension, dismissal or disenrollment has been made or who have been readmitted on probation are
- 2. Not have completed more than 64 credits at community colleges or more than 90 total units at all schools attended, including TU;
- 3. Be enrolled for a minimum of 3 units at TU, and must have financial aid for the specific period;
- 4. Obtain from the appropriate TU academic department(s) verification that the courses selected are transferable in accordance with current transfer credit policies and procedures;
- 5. Not attempt to repeat courses at the participating institution if they have been attempted at TU with an earned grade of C, D+, D, F or FX.

Note: Students do not need a consortia agreement if they register through either the Inter-Institutional Registration or Baltimore Student Exchange Programs (see section describing requirements).

Students should also be aware that grades and units earned through a consortia agreement are posted to the TU record and calculated in the academic totals. Accordingly, the Academic Standards Committee reserves the right of approval in some cases if the Pass grading option is elected on courses taken as part of a consortia agreement.

For more information, contact Marilyn Leuthold, Office of the Registrar, 410-704-3104.

STUDY ABROAD

Administration Building 7720 York Road, Second Floor, 410-704-2451 Fax: 410-704-4703 E-mail: studyabroad@towson.edu www.towson.edu/studyabroad Adam Grotsky, Director Tina Cavaluzzi, Assistant Director Liz Shearer, Adviser Claudia Jenkins, Programs Assistant

The Study Abroad Office provides a wide range of overseas academic experiences for Towson students. It plays an important role in the university's mission to internationalize the campus community and to provide all of its students with a broad knowledge and understanding of the global society. Currently, more than 300 students per year from a variety of disciplines participate in TU's study abroad and exchange programs.

The Study Abroad Office provides the following services: coordinates and manages study abroad and exchange programs; advises interested and eligible students on incorporating an overseas experience in their undergraduate degree program; acts as a liaison for the student, academic departments and various administrative offices on campus, and foreign universities; and provides support services to students prior to, during, and following a study abroad experience.

The university maintains relationships with various institutions abroad and U.S.-based organizations providing overseas study opportunities in Europe, the Americas, Africa, Asia, Mexico, the Caribbean, New Zealand, Canada and Australia. For an up-todate list of exchange partners and affiliates, please visit the Web site at www.towson.edu/studyabroad.

The length of programs varies from one term to a year, Minimester or during the summer. Many programs focus on specific academic disciplines, while others emphasize language study, independent study or an internship combined with traditional course work. Academic credit can be applied toward fulfilling requirements and electives for degree programs.

Financial aid and scholarships may be applied toward all study abroad exchanges and programs. Special scholarships for study abroad are also available. Contact the Study Abroad Office for more information.

Weekly information sessions are conducted by the Study Abroad Office to provide students with preliminary information about overseas study opportunities and procedures. Call the office at 410-704-2451, or visit our Web site for the current schedule of sessions. Students should attend an information session approximately one year prior to their intended study abroad experience. Study abroad advisers are available by appointment to meet with students who have attended a preliminary information session. During an advising appointment, students can expect to receive information and advice on study abroad program options and how to choose an appropriate program, as well as financial aid and scholarship information, specific course information, transferring credit, registration, housing, etc. Students are also advised on how to obtain passports, visas and other necessary travel documents.

Pre-departure orientation sessions are conducted each term for students who have been accepted to a study abroad program. Students are required to attend these informative sessions which address many critical issues such as health, safety, travel and culture shock. The office maintains a resource area for students with program/course catalogs, videos, scholarship and financial aid resources, travel guides, and miscellaneous international publica-

For further information, contact a study abroad adviser at 410-704-2451, or visit the office to pick up an information packet.

NON-TRADITIONAL UNDERGRADUATE **PROGRAMS**

Registrar's Customer Service Center, Enrollment Services 223, 410-704-2471

The Office for Non-Traditional Undergraduate Programs oversees the following programs and services: Non-Degree Student En rollment, Teacher Certification, Second Bachelor's Degree, College in Escrow, Golden I.D. (senior citizen tuition waiver), and Credit for Prior Learning.

The academic policies described in the Admissions, University Curriculum, and Academic Regulations sections of this catalog apply to students in the above programs unless otherwise specified.

Admission

Admission is the official acceptance of a student as a degree candidate by the TU Office of Admissions or the Second Bachelor's Degree Office. Registration is the enrollment in courses for a particular term. Persons who meet the criteria for non-degree enrollment (outlined below) may register for courses without formal admission to the university. Eligibility requirements for formal admission and deadlines are detailed in the Admissions section of this catalog.

Non-Degree Students

Students who wish to enroll as non-degree students (not formally admitted by the university) must complete and submit an Enrollment Form to the Office for Non-Traditional Undergraduate Programs before registering. Persons who have been denied admission to TU because of academic ineligibility are not permitted to attend as non-degree students. They may, however, transfer to Towson University after attending another college or university if they meet TU's transfer admission requirements (see Guidelines for Transfer Admission in this catalog). Persons who have graduated from high school within the last two years are not eligible to attend TU as a non-degree student during the fall or spring terms. They must formally apply for admission through the Office of

Non-degree students are expected to maintain the following cumulative GPA based on calculable grades at Towson University as indicated below:

| Units | |
|------------------------------|-------------|
| (includes Towson units only) | Minimum GPA |
| 9-29.5 | 1.50 |
| 30-59.5 | 1.75 |
| 60 and above | 2.00 |

Students who fail to meet the criteria for good academic standing outlined above will be sent letters of warning. After being warned, if students do not maintain good academic standing in any subsequent term, their enrollment will be permanently discontinued.

Non-degree students may apply for formal admission as degree candidates according to published deadlines, and admission will be based on a competitive GPA and space availability. Advising is available through the Office for Non-Traditional Undergraduate Programs, the Academic Advising Center, and the Office of Admissions.

The following policies apply for non-degree students who wish to earn a degree at TU:

- 1. No catalog will be assigned until you are formally admitted as a degree candidate. You must complete the requirements listed in your assigned catalog. Please note: It is to your benefit to be formally admitted as soon as you are eligible.
- 2. You must complete the final 30 units of your degree in residence at TU.
- 3. You must complete the final 15 units of your degree at TU as a degree candidate.
- 4. Transfer credits earned at another institution will not be evaluated until you are formally admitted as a degree candidate. Academic advising received prior to formal admission will not be considered binding by Towson University.

International students who are on a visa of any type may not enroll as non-degree students without written permission from the International Student and Scholar Office. Non-native English speakers will be tested in English and placed in remedial English courses if needed.

Teacher Certification

Students who already hold a baccalaureate degree and wish to take courses (including student teaching) to become certified to teach in the state of Maryland should contact the Center for Professional Practice, located in Hawkins Hall, room 302B, 410-704-2567. Students must complete a Teacher Certification Enrollment Form in order to register. The form is available in the Center for Professional Practice and should be submitted to the Office of Non-Traditional Undergraduate Programs. Certification students will be advised by the appropriate department in the College of Education.

Students taking courses for recertification do not need to file an application with the Center for Professional Practice. They only need to file the Non-Degree Enrollment Form with the Office of Non-Traditional Undergraduate Programs (see section above on Non-Degree Students).

Non-Degree Immunization

All non-degree students enrolled in 6 or more units will be required to submit immunization records. For more information, contact the Dowell Health Center at 410-704-2466.

Second Bachelor's Degree

The Second Bachelor's Degree Program is designed to meet the needs of college graduates who wish to attain proficiency in a different major field. To be eligible for admission, applicants must hold a baccalaureate degree from a regionally accredited institution and must have a 2.00 cumulative GPA from all previously attended institutions.

A maximum of 90 transferable credits of undergraduate course work will be applied toward the second bachelor's degree. In addition, students must complete a minimum of 30 units in residence at TU and meet all the requirements of the "new" major. At least one-half of the "new" major units must be completed at Towson since the completion of the first degree. Each student must complete an advanced writing course. All other General Education requirements are considered to have been met through the first degree.

For more information or to apply, visit our Web site: http://onestop.towson.edu/2nd-bachelors. Deadlines for fall and spring admission are June 15 and November 15, respectively. Some screened/competitive majors have earlier deadlines and separate applications.

Second bachelor's degree candidates may qualify for departmental honors, the Dean's List, and/or graduation with honors (60 units at TU in the second degree required). Please refer to the Academic Regulations section of this catalog for criteria.

College in Escrow

The College in Escrow Program is designed for high school students who want to take courses at Towson for college credit. Students must have a B average and approximately 1100 on SATs (or 110 on PSATs).

The program allows students to:

• Experience college first-hand.

Take courses not offered at the high school level.

· Earn college credit.

College in Escrow students enroll in regular courses at Towson during the summer sessions or the fall and spring terms and attend class right along with other college students. They may take any TU course, provided the prerequisites have been met.

Golden I.D. Program: Senior Citizens

Retired Maryland residents, 60 years of age or older, are eligible for the Golden I.D. senior citizen tuition waiver program. Golden I.D. students may entoll for up to 11 units in the fall and spring terms (and 8 units in the summer session) and pay a discounted fee rate. Participants may take courses for audit or credit on a space-available basis (special format courses and CEP programs are excluded). To apply for a Golden I.D. card and find out the current fee rates, stop by the Office of Non-Traditional Undergraduate Programs.

Credit for Prior Learning

TU recognizes that some students may have acquired abilities through life experience, personal study, and/or military course work. The Credit for Prior Learning (CPL) Program offers an opportunity for students to receive college credit by taking "challenge" tests in the area of their proficiency, presenting portfolios, and providing documentation of military course work/experiences.

A maximum of 45 units for "non-traditional learning" may be granted with a grade of PE through the Credit for Prior Learning Program (this includes any CLEP credit granted in transfer). CPL units can be used to fulfill GenEds, electives, and/or major requirements. Students must be degree candidates with at least a 2.00 cumulative GPA to have CPL units recorded on the TU transcript. Please note that some academic departments may accept a lower maximum number of CPL units toward the major. Please check with the major department first to find out if such restrictions exist.

Different ways to earn CPL units at Towson University are described below:

Departmental Exams

TU offers departmental "challenge" exams in Biology, Chemistry, Economics, Health Science, Mathematics, Modern Languages and Psychology. Students' achievement in a particular test must be equal or superior to that of students having earned a grade equivalent of 2.00. Although departmental standards for granting credit may exceed this minimum, credit may not be granted when achievement is below 2.00 level work. Departments may also offer advanced placement with no credit given based on an individualized assessment.

CLEP (College Level Examination Program)

TU offers, and grants units for, the following computerized CLEP tests: Humanities, Mathematics, Natural Science, and Social Science/History. Tests are also offered in Accounting (ACCT 201, 202), Business Law (LEGL 226), Economics (ECON 201, 202), Marketing (MKTG 341), Management (MNGT 361), Computer Science (COSC 111), Freshman Composition (ENGL 102), American Literature (ENGL 230), English Literature (ENGL 221, 222), Educational Psychology (PSYC 201), and Sociology (SOCI 101). For information about the minimum passing scores for CLEP tests, call 410-704-2471.

Individualized Assessments

Students who wish to earn credit for courses which do not have standard departmental or CLEP exams may contact the academic department to determine if individualized assessment is possible. This type of assessment may include portfolio review, oral or written examination, demonstration (e.g., dance or music), or written report/paper.

Military Course Work/Experience

TU is a member of Servicemembers Opportunity Colleges (SOC). Students who have served or are currently serving in the United States military may receive college credit for basic training, military occupational specialties, and other military course work. Official documentation must be submitted. Work will be evaluated per the Guide to the Evaluation of Educational Experiences in the Armed Services by the American Council on Education (ACE).

For further information on the Credit for Prior Learning Program, call the Office of Non-Traditional Undergraduate Programs, 410-704-2471.

MILITARY SCIENCE PROGRAMS

Towson offers students who are interested in officer training for the military several opportunities to pursue that training.

Reserve Officers' Training Corps (ROTC) Credit

TU will accept transfer credit hours earned from a recognized ROTC Program sponsored by an accredited college or university. Such credits will be considered upper- or lower-level credits as defined by the transferring school, and are applicable as elective units toward a TU degree. ROTC units are considered to be non-traditional units and are part of a maximum of 45 non-traditional units allowed by academic policy.

U.S. Army Reserve Officers' Training Corps (ROTC)

Towson University offers Army ROTC to its students through a cooperative agreement among Loyola College, TU, and the U.S. Army.

The primary objective of the ROTC Program is to prepare selected students with potential to serve as commissioned officers in one of the three components of the U.S. Army—Active Army, National Guard and Army Reserve. The program is totally voluntary and is conducted in two phases—the basic course and the advanced course.

The basic course is taken in the freshman and sophomore years. No military commitment is incurred during this time, and students may withdraw, as with any other course, through the end of the second year. The basic course is available as an elective to all qualified students.

TU students who decide after either their freshman or sophomore years that they are interested in the ROTC Program may attend a special ROTC Basic Camp. This camp will fully substitute for the first two years of on-campus study. This camp is held for six weeks during the summer, and all participants receive pay and allowances.

Normally, students must have a minimum of two years of college remaining before graduation in order to join ROTC. However, on a case-by-case basis, students who will commit themselves to attending graduate school in order to meet the two-year requirement may be permitted to enroll.

Except for veterans, the basic course or a basic camp must be successfully completed prior to entering the advanced course.

The advanced course is normally taken in the final two years of college. A paid, six-week advanced camp is held during the summer between the junior and senior years.

Army ROTC graduates may serve three or four years, or an entire career on active duty, or request Reserve Forces Duty (RFD)

and serve as little duty as three months on active duty. The remainder of their obligation is spent in the Army Reserve or the Army National Guard where they assume roles equally important to those of their active duty counterparts.

Specialized branch assignments are made in the students' senior year which will determine the nature of their duties once they are commissioned. These specialized assignments are based largely

upon students' majors and personal preferences.

Prior to graduation and commissioning, the senior student will make known personal preferences regarding the geographical area of the world in which he or she desires to serve his or her first tour upon entering the active Army.

The Army awards scholarships on a comperitive basis to outstanding young men and women who are interested in serving in the active or reserve components of the U.S. Army. Details of the ROTC scholarship program are available from the Office of

Financial Aid. All TU students are eligible to apply. Enrollment for ROTC is done through the Military Science Department at Lovola College. Contact the Military Science Department at 410-617-2387 or 410-617-2276 for class days and

times. Generally, freshmen and sophomores have classes on Monday and Wednesday afternoons at Towson. Juniors and seniors attend classes at Lovola on Tuesday and Thursday afternoons.

Air Force ROTC

Air Force ROTC is available to students at Towson University through an agreement with the University of Maryland, College Park. Air Force courses are scheduled so that students from Towson University may complete most AFROTC requirements during one morning per week at the College Park campus. In addition, students at Towson are eligible to compete for all AFROTC scholarships; 4-, 3-, and 2-year scholarships pay for total tuition and fees at both the University of Maryland and Towson University, for all required books, and provide a \$100 per month subsidy for both pilot and navigator training programs. Upon graduation from Towson University and completion of the AFROTC curriculum at the University of Maryland, students will be commissioned second lieutenants in the Air Force. Students who are interested in the Air Force ROTC can contact: Air Force ROTC, Det. 330, Cole Field House, Room 2126, University of Maryland, College Park, MD 20742; telephone: 301-314-3242/7649/7644.

Academic Regulations

An education from Towson University includes a broad liberal arts base and a strong knowledge of one or more major fields of study. To ensure that the Towson degree continues to have weight and meaning, and that it signifies student work meeting or exceeding a particular level of excellence, the university insists that certain standards and policies apply to all undergraduate students. These policies are published every year in this catalog, and any revisions are effective as of the date of the catalog's publication (unless otherwise

The Academic Standards Committee, comprising faculty, administrators and students, meets regularly to formulate policy and to review appeals from students asking for exceptions to policies.

Students who wish an exception must appeal in writing to the Academic Standards Committee, c/o the Registrar's Office. Appeals must be written by students. Letters received from third parties will be considered only as support of students' appeals. Letters of appeal should be as brief as possible, concise, and must include all pertinent academic information, including, when appropriate, supporting documentation. All appeals receive a written response from

This section will explain the policies and regulations that govern academic standards at Towson.

DEFINITIONS OF TERMS

A unit is the value given generally to one 50-minute class (or its equivalent) meeting weekly for a term. This means that a class meeting Monday, Wednesday and Friday from 9 to 9:50 a.m. or Tuesday and Thursday from 8 to 9:15 a.m. will be a 3-unit course. Most classes fit this format. Classes that require laboratory or studio time in addition to lecture time will usually merit an extra credit, becoming 4-unit courses, just as those requiring less class time will merit fewer units. The course description section of the catalog lists the number of units each course carries. Faculty expect students to spend at least two hours reading, writing and doing research outside of class for each hour spent in class.

A term is 14 weeks of instruction, exclusive of final examinations. The work covered in one college term is approximately equal to that done in one year of high school.

Term of Study. Each term in which students register and do not cancel or withdraw during the change of schedule period counts as a term of study.

Minimester is an intensive condensed term in January that allows students to take courses that lend themselves to a highly focused format (15 hours of instruction each week) to discuss ideas that interest students or that may fill a gap in their requirements. Students may take a maximum of 6 units in this term.

The Summer Sessions are made up of four sessions of varying lengths, including an evening session, that allow students to complete regular course work in a shorter period of time and fulfill degree requirements sooner. Students may take a maximum of 9 units in any one session and a maximum of 15 units in all sessions combined.

Unit Load. In a regular fall or spring term students take about 15 units (five, 3-unit courses). In the Minimester, students may take a maximum of 6 units. Students may register for a maximum of 15 units during the summer, but they may not take more than 9 units during any one session.

To be considered full-time, undergraduate students must be enrolled in a minimum of 12 units each term. For graduate students, the minimum is 9 units each regular term.

Excessive Unit Loads. Degree candidates (formally admitted students) who have a 2.00 cumulative Grade Point Average (GPA) will be able to register for 19 units in a term, and students who have at least a 3.25 cumulative GPA based on at least 30 units taken at Towson are eligible to carry up to 20 units. Seniors in their last term who have at least a 2.50 cumulative GPA and need 20 units to graduate will be able to take that number. Students whose cumulative GPA is 3.50 or higher based on 30 units toward GPA are eligible to take 21 units.

Degree candidates who do not meet the criteria above but wish to carry over 19 units must obtain permission from the Registrar's Office before registering for the excess.

Prerequisites. Prerequisites are requirements imposed by an academic department for certain courses within its curriculum. Such requirements may include, but are not limited to, other courses, a specific GPA, or class standing, (e.g., junior, senior). Prerequisites may also include successful completion of screened requirements, where applicable, or successful completion of a specific test or examination, either departmental or standardized, where applicable. Prerequisites may also include department or instructor permission in addition to, or in lieu of, a specific course, testing, or class standing requirements.

Departments are responsible for enforcing prerequisites. Students are advised to read carefully course descriptions found in the Undergraduate Catalog and to make sure they have met any prerequisites before registering for courses. Students who remain in courses without having met prerequisites, with or without the permission of the instructor, do so at their own risk. Failure to meet prerequisites and withdraw from a course by the published deadline is not a basis for petitioning the Academic Standards Committee for an exception to academic policy.

ENROLLMENT AND REGISTRATION

Students who have applied for admission to degree candidacy and have been admitted must return their Enrollment Contract to acknowledge their acceptance of the university's offer of admission. After they do this, they will receive information about academic advising and course registration. Orientation is available to new freshmen and transfer students prior to the beginning of the term. The process in which students select courses and have those courses entered into the computer is called registration.

Each term students receive information regarding the number of units they have earned to establish their registration date. Students are encouraged to see their adviser before they register. Students who have no adviser may check with their major department or, if they have no major, with the Academic Advising Center (Lecture Hall, 410-704-2472).

After students have met with their advisers, they plan their schedules and register online at http://students.towson.edu. Students may also register in person at the Registrar's Customer Service Center, Enrollment Services, room 223. First-year students must meet with an adviser before they will be allowed to register. Non-degree students (those not formally admitted to the university) are encouraged to seek advising at least once each academic year.

Important. Students may not attend a class until they register for that class, and they must satisfy all financial obligations to the institution before they register.

Special Format Courses

Directed readings and independent studies are examples of special format courses. Students may not apply more than 12 units of special format courses toward graduation. Departments may set limits for fewer units, but they may not exceed the maximum of 12 units set by the University Curriculum Committee. Because of the concentrated nature of these courses, students are advised to take no more than 6 units of upper-level special format courses per term.

Pass Grading Option

Students may elect to be graded on a Pass basis for a maximum of 12 units toward their degree. If students register for more than 12 units under the Pass option, only 12 will apply toward graduation. This option is not available for courses required toward a major. minor, or for certification in teacher education unless special permission is obtained from the department chairperson. Students must make all changes to the option before the published withdrawal deadline each term. In order to elect this grading option, students must complete a Change of Schedule Form in the Registrar's Customer Service Center, Enrollment Services, room 223.

Students electing this option must earn a grade equivalent of 2.00 (C) or higher in order to receive the Pass (PS) grade, which is not calculated in the average. Students who earn below the grade equivalent of 2.00 (C-) will earn that grade, which will be calculated. Refer to Grades/Grading for more information.

Auditing Courses

Students may audit a course with the permission of the instructor. An audited course will be graded AU and will not apply toward the degree. Students may elect the audit option at any point up to the withdrawal deadline by presenting a completed Change of Schedule Form with the instructor's signature to the Registrar's Customer Service Center, Enrollment Services, room 223. If students then choose not to elect this option, they must follow the same procedure, including obtaining the instructor's signature, to remove the option up to the withdrawal deadline.

Students are advised that audited courses:

- · do not count as part of the term's unit load
- do not count as part of the term or cumulative totals
- do not apply toward graduation unless repeated later for credit
- will be graded AU
- will be graded AUX if the student registers for a course as an audit and fails to attend
- may not be used to repeat a course for which credit has already been earned
- are billed at the same rate as unit courses

CHANGING A SCHEDULE

All changes in students' schedules of classes (adding or dropping a course or change in sections, units or grading option) are valid only if students complete a Change of Schedule Form and file it with the Registrar's Office. Students who do not complete the Change Form and turn it in by the deadline (available online at http://students.towson.edu) will not receive credit for classes attended but not formally added. A grade of F or FX will be recorded in courses not formally dropped.

Information on making schedule changes is online at http://students.towson.edu.

Adding a Class. Students may add classes to their schedules during the first week of classes using a Change of Schedule Form (available in departmental offices or from the Registrar's Office). Because each department has different procedures for adding classes (some require faculty signature and departmental stamp; others only a stamp), students need to check the procedures each term online at http://students.towson.edu.

Students may not enter a class after the change of schedule period (first week of classes) ends. Exceptions are considered only with written authorization from the instructor and department chair.

Dropping a Class. Students may drop a class up to the deadline available online at http://students.towson.edu.

- If they drop during the change of schedule period (the first week of classes), no grade is recorded.
- If they drop courses after the change of schedule period but within the withdrawal period, a grade of W is recorded on the transcript. There is no academic penalty associated with the W.

Students who do not officially drop courses during the established time periods receive grades in the courses (A to F or FX) as determined by the instructors.

Withdrawal after the deadline. Students with documented medical problems or verified circumstances beyond their control may request to withdraw from one or more courses without academic penalty after the established deadline. Documentation must accompany the request. If the request is approved, a grade of W will be recorded. Requests must be submitted prior to the beginning of final examinations.

Sometimes new students who have not yet begun classes decide not to attend (cancellation), or continuing students need to withdraw completely from the university (withdrawal).

- A. Cancellation of Enrollment. Newly admitted undergraduate students who decide not to attend the university before or during the first week of classes of the term for which admission was approved *must* notify the Office of Admissions in writing. Their admission file will be canceled accordingly, and they will be required to submit an additional application for any future entrance date.
- B. Selective (Course) Withdrawals. Students may request selective withdrawals (while maintaining enrollment in other courses) after the withdrawal deadline by coming to the Registrar's Customer Service Center, Enrollment Services, room 223. All such requests, accompanied by appropriate documentation, must be received prior to the beginning of final examinations. Those received after this point must be appealed to the Academic Standards Committee. Appeals for retroactive selective withdrawals (i.e., received after final examinations begin) are rarely granted. For information on complete retroactive withdrawals, refer to item C below.
- C. Complete (University) Withdrawals. Complete withdrawals are more likely to be given consideration. Appropriate medical documentation must accompany all requests. Degree candidates who wish to withdraw from the university should obtain an Official Withdrawal Form from the Registrar's Customer Service Center, Enrollment Services, room 223, complete the necessary information, and submit it to that office. If a term is in progress, students who withdraw after the last date to drop a course with a grade of W will earn the grade of F or FX unless the withdrawal is for medical reasons or other extenuating circumstances.
- D.Re-enrollment. Previous degree candidates who have missed more than one term must apply for readmission through the Registrar's Office. Forms are available in the Registrar's Customer Service Center, Enrollment Services, room 223. The deadlines for readmission are August 1 for the fall term and December 1 for the spring term.

Readmitted students must comply with the GenEds that were published in the *Undergraduate Catalog* at the time they were originally admitted to Towson.

Students who withdraw from the university, enroll—elsewhere, and return to Towson after having completed transfer course work cannot qualify for a transfer package (1996 and later catalogs). This option is available only upon initial admission. (Refer to the Admissions section of this catalog.)

Students who officially withdraw must comply with the competency standards (required developmental courses) in effect at the time of readmission if the standards were not met prior to withdrawal.

CLASS STANDING

Students are classified according to the number of units earned:

| Freshman | | 0-29.5 units |
|-----------|------|-----------------|
| Sophomore | | 30-59.5 units |
| Junior | | 60-89.5 units |
| Senior | 90 τ | inits and above |

CLASS ATTENDANCE/ABSENCE POLICY

1. Students are expected to attend all classes. Consistent attendance offers the most effective opportunity for students to understand concepts, materials and expectations of those courses in which they are enrolled. Although some courses do not use attendance as a criterion for grading, there are others where in-class participation is an integral part of the course. Examples include, but are not limited to, seminars and courses that require public speaking, laboratories, language learning, group discussions or student teaching. Frequent absences from these types of courses, whether excused or unexcused, may affect the final grade.

Faculty who use absences as a factor in grading must explain in the course syllabus what effect even an excused absence might have on the evaluation of a student's work.

- 2. It is policy of the university to excuse the absences of students for the following reasons:
- illness or injury when the student is unable to attend class
- religious observance where the nature of the observance prevents the student from attending class
- participation in university activities at the request of university authorities (e.g., Intercollegiate Athletics, Forensics Team, Dance Company, etc.)
- compelling verifiable circumstances beyond the control of the student.

Students requesting an excused absence must provide documentation to the instructor two weeks prior to the scheduled absence when known in advance or as soon as possible when not known in advance.

- 3. Absences that do not fall into any of the categories outlined in item number two are unexcused. Faculty may set a limit on the number of unexcused absences.
- 4. Students who are absent from class are responsible for any missed work, assignments, or assessments (e.g., quizzes, tests, papers, etc.). Faculty members are required to allow students with documented excused absences to make up missed work or assignments when this is feasible. When the nature of the assignment makes this impossible, faculty members should attempt to make a reasonable adjustment of the assignment.

Students who will be representing TU at events, conferences, or other official activities should obtain a Notification of Absence from Class Form from the Office of Student Activities, University Union, room 217, to be given to their instructors to verify the excused absence. Students are encouraged to notify faculty of anticipated class absences as soon as they learn they will be missing class. Faculty should use their discretion regarding making up missed assignments and the ramifications of missing certain class periods.

Important! Students who fail to appear for the first two class sessions, or the first session of evening classes, may forfeit their space in class. Instructors have the right to release these spaces to other students wishing to add the class to their schedules. Students who lose their spaces MUST OFFICIALLY WITHDRAW FROM THE COURSE THROUGH THE REGISTRAR'S OFFICE TO AVOID EARNING AN FX GRADE FOR NON-ATTENDANCE. See the sections on Changing a Schedule and Grades/Grading for further information.

GRADES/GRADING

The Plus/Minus Grading System (4.00 scale, term system), implemented in fall 1998, applies to all undergraduate students and cannot be applied retroactively to grades earned or recorded, including incomplete (I) grades or contested grades, before fall 1998.

| | Grade Points |
|-------|--------------|
| Grade | Per Unit |
| A | 4.00 |
| A- | 3.67 |
| B+ | 3.33 |
| В | 3.00 |
| B- | 2.67 |
| C+ | 2.33 |
| C | 2.00 |
| C- | I.67 |
| D+ | 1.33 |
| D | 1.00 |
| F | 0.00 |
| FX | 0.00 |

Grade Point Averages

The Grade Point Average (GPA) is computed as follows: First, multiply the units for each course taken in a term by the grade points (values above) assigned to the grade earned. Second, total the units and grade points for the term. Third, divide the total number of grade points by the total number of units to find the Grade Point Average (GPA) for the term.

The grades of S and U (satisfactory and unsatisfactory) are used primarily in those courses offered for development and selected courses that have been recommended by the academic departments and approved by the Academic Standards and University Curriculum committees. The grade of S denotes that work of 2.00 level or higher has been completed and that students have attained a level of competence sufficient to advance to the next course. A grade of U is given to students whose work is below 2.00 level quality. S and U grades are not calculated in students' GPAs.

The grade of PS (Pass) is assigned to a course selected on the Pass grading option when students earn a C grade or higher. Students who elect the Pass grading option and earn a grade of C- or below will have that grade recorded on the permanent record and used in calculation of the GPA.

The grade of PE is assigned to those courses passed under the Credit for Prior Experience/Learning option. All grades are recorded on students' permanent records, but are not calculated in students' GPAs.

The grade of FX is calculated in students' GPAs. A grade of FX is given to students who never attend class or who stop attending during the term without officially withdrawing. (If students have officially withdrawn, a grade of W will appear on the final class roster.) A grade of FX is given to students who stop attending before they have completed more than half of the course work. Students who attend most classes but miss the final examination without a legitimate excuse, will receive a zero or F grade for the final examination and have that value or grade calculated with other grades earned during the term to determine the final grade.

The grade of W is administrative, nonpunitive, and is not calculated in students' GPAs. A grade of W is given to students who officially withdraw from a course by the published withdrawal deadline each term. It is also given to students who obtain authorization from the Academic Standards Committee to withdraw from a course or courses after the deadline. Such withdrawals must be based on documented medical difficulties or verifiable circumstances beyond students' control.

The grade of I is given to students by their instructors when verifiable circumstances prevent students from completing a course within the term. The I grade should be given only in cases where students have completed most of the term and have a reasonable

expectation of successfully completing the work required. It should not be given at a point earlier in the term when a withdrawal is appropriate. For more information on the Incomplete grade, see the section immediately following.

Changing Grades and Changing Incompletes

Incompletes may be granted toward the end of the term and only for verifiable medical reasons or for documented circumstances beyond the control of the student. Earlier in the term, a withdrawal may be more appropriate. The grade of I automatically becomes a grade of F 180 days from the end of the term following the granting of an I unless changed to another letter grade.

The grade of I may be extended by the instructor for a period not to exceed an additional regular term if the conditions for granting the original Incomplete still verifiably exist. To grant this extension, the Change of Grade/Incomplete Form must be used.

Although not part of the formal Incomplete grading option, as approved by the Academic Standards Committee, Incomplete Grade Agreement Forms may be used by faculty to establish a specific time by which students must complete the work for a particular course. This form may be used to supplement the issuance of the Incomplete grade on the Final Grade Roster. It allows faculty to designate a time prior to the end of the following term of study for the course work to be completed. These forms are available from each department's administrative assistant and are to be retained by the faculty member with a copy being issued to the student. Faculty members using the Incomplete Grade Agreement Form should also note on the Final Grade Roster the actual date by which the work is due (e.g., work due on July 1).

It is the student's responsibility to complete the work required before 180 days has elapsed in order for the Incomplete to be converted to a regular grade. Students do not repeat the course in which the Incomplete was given. Instructors may specify an earlier time by which the work required is due in order to remove the Incomplete. An Incomplete grade that is not resolved by the end of the next full term of study, excluding summer and Minimester sessions, is converted to an F grade and is calculated in students'

Grade changes, excluding I grades and repeated courses, must be submitted by the faculty member within one year. After one year, requests for grade changes may be made only for verifiable medical reasons and by petition to the Academic Standards

Graduating seniors must resolve any outstanding Incomplete grades within 180 days following graduation. Specific dates for each graduating class are included in the correspondence from the Graduation Office.

Unsuccessful Term/Academic Clemency. The following guidelines determine approval of the declaration of an Unsuccessful Term:

- Five full academic years must have elapsed since the term in question and graduation has not occurred.
- Students must have completed at least 24 units of 2.00 level work at Towson University since the term in question.
- Only one Unsuccessful Term can be granted in a student's academic career.

Disagreements Related to Grading. Students who feel an earned grade is unjust must address their disagreements first to their instructor, who is primarily responsible for assigning grades. If the matter is not satisfactorily resolved through this approach and the issue warrants further consideration, students may then direct an appeal through the following channels: department chair/program coordinator, college dean, Division for Student Affairs.

REPEATING COURSES

When courses are repeated, students will receive credit for the course only once. Only the higher of the two grades will be calculated in the GPA. The lower grade will remain on the record with the letter R preceding (e.g., RF, RX, RD, etc.) to indicate the course has been repeated.

Effective fall 2003, the lower grade will remain on the record with a repeat included or excluded message, whichever is appropriate.

Students may not make a third attempt of a course except with prior approval. Students must complete a Petition for a Third Attempt Form and submit it to the Registrar's Customer Service Center, Enrollment Services, room 223, before registering for the course. Grades of W are administrative and are not considered as part of the repeated course procedure. Courses that have been accepted previously for transfer credit by TU or have been attempted or completed for units at TU may not be repeated at

Courses in which low or failing grades were earned at Towson MUST be repeated at Towson in order for the record to be adjusted and the GPA to be recalculated.

GOOD STANDING AND SATISFACTORY ACADEMIC PROGRESS

Students are considered to be in good academic standing and making satisfactory academic progress toward the degree if they are permitted to continue enrollment at the university. Students who have been academically suspended and are later readmitted on probation are not considered to be in good academic standing and might not be eligible for participation in intercollegiate athletics, financial aid, housing or certain extracurricular activities.

To remain in good academic standing, students must possess a minimum cumulative GPA based on the calculable grades at Towson University and accepted transfer credits as indicated below:

MINIMUM GRADE POINT AVERAGE REQUIRED

| Units (includes Towson units and | Minimum |
|----------------------------------|----------------|
| accepted transfer credits) | Cumulative GPA |
| 1-29.5 | 1.50 |
| 30-59.5 | 1.75 |
| 60 and above | 2.00 |

FAILURE TO REMAIN IN GOOD STANDING

Students who fall below the level required for good academic standing are subject to the following actions:

1. Academic Warning. The first time degree candidates fail to attain the minimum cumulative GPA required, according to the above table, they receive an academic warning and should receive additional academic advising. They must attain the minimum GPA required by the end of the next spring term of attendance or be academically suspended. If no further action is taken, the notice of academic warning will be removed from students' academic records upon graduation. Eligibility for housing, financial aid, and participation in intercollegiate athletics will be determined by the appropriate departments according to their established criteria. In accordance with policy, students who are readmitted on warning must also attain the minimum required GPA by the end of the spring term following readmission or be academically suspended.

Regardless of cumulative GPA, freshmen and sophomores on academic warning who earn at least a 2.00 term average based on at least 12 units toward GPA will be automatically continued on warning for one term.

2. Academic Suspension. Students failing to attain good standing in any spring term following academic warning are academically suspended and may not attend the university for one term and the intervening Summer/Minimester sessions.

If students complete course work elsewhere while on suspension, Towson will NOT accept that work. If students complete course work elsewhere while academically suspended, they must be in good standing at the school(s) attended and must provide official transcripts from the schools to the Readmission Office at Towson University if they plan to return to Towson. Work remaining to resolve any Incomplete grades may be completed during suspension. Academic suspension is noted permanently on students' academic records.

Students who fail to attain good academic standing at the end of any fall term following academic warning will be allowed to continue their enrollment for one additional term. This Mid-Year Extended Warning will be permanently noted on the student's academic record. Failure to attain good academic standing at the end of the following spring term will result in academic suspen-

3. Academic Probation. After the suspension ends, students may be readmitted on academic probation, during which time they may enroll for a maximum of 13 units per term. They must also receive additional advising and may not register without written clearance from the Academic Advising Center. Academic probation is noted permanently on students' academic records.

Students on academic probation have three academic years or 24 earned units toward GPA, whichever comes first, to attain good academic standing. If students attain good academic standing during probation but subsequently fall below the minimum requirements for good academic standing, they will be given a one-term exception during which good academic standing must be attained. If they do not, they will be academically dismissed. Otherwise, they are considered to be on academic probation until they have either graduated or are academically dismissed (see

While on academic probation (not in good academic standing), students may not complete course work elsewhere for transfer to Towson.

4. Academic Dismissal. Students failing to attain good academic standing after the period of academic probation will be academically dismissed. Academic dismissal is a final action and is noted permanently on students' academic records. Students who are academically dismissed cannot be readmitted to the university in any capacity.

TRANSFERRING WORK TO TOWSON

The following regulations pertain to current TU students wishing to transfer course work from other institutions to Towson University. Only currently enrolled degree candidates in good academic standing are eligible to transfer course work.

Regulations Pertaining to Transfer Credit

- 1. Towson students who wish to take courses at other accredited institutions with the intent of applying those credits toward a degree at Towson must complete a Petition to Transfer Credit Form, available in the Registrar's Customer Service Center, Enrollment Services, room 223. The petition may require the signature of the chair of the department in which the equivalent course is offered at Towson. Petitions must be completed and returned to the Registrar's Office and approved by the Academic Standards Committee before registration for the course(s) at another institution.
- 2. Credit is accepted by Towson for courses completed at regionally accredited colleges or universities. Only the courses and credits

completed at other institutions are transferable to Towson. Grades and GPAs earned at other institutions are not transferable. Credit will count toward graduation but will not be used in calculating the academic average required for graduation.

3. Courses transfer to Towson as they were taken at the host institution. For example, if a student completes a 200-level course at the host institution and transfers it to TU, the course will transfer as 200-level, even if the course's equivalent at TU is 300- or 400-level.

4. Courses transferred from two-year institutions cannot be used to satisfy the Advanced Composition degree requirement. Writing courses taken at four-year accredited institutions may be considered as meeting this requirement upon request by students for evaluation by the appropriate academic department or, where

necessary, by TU's Department of English.

5. Transfer students. Courses that have been accepted previously for transfer credit by TU or have been attempted or completed for credit at TU may not be repeated at other institutions with the purpose of transferring them to TU. Courses in which a grade equivalent of 1.00 or higher has been earned at accredited Maryland institutions are transferable. However, courses in which a grade equivalent of 1.00 was earned and transferred to Towson cannot be applied toward a major or minor program. A grade equivalent of 2.00 or higher is required for major credit. Students must repeat at Towson any course previously transferred with a grade below the 2.00 level in order to meet major requirements.

6. Native students. Courses attempted at Towson may not be repeated at other institutions for the purpose of receiving credit at TU or adjusting the Towson record. (See Repeating Courses.) Students may not fail a course at TU, repeat it at another college,

and expect the course to transfer to the university.

With prior permission, students may take courses for transfer to Towson University until they have attained 90 units. However, no more than 64 units may be transferred from an accredited two-year institution.

8. Students are expected to complete the final 30 units toward their degrees at Towson. Exceptions may be granted in cases of documented extraordinary circumstances. Students must perition the Academic Standards Committee to transfer work after having earned 90 units. Petitions must be presented before students register for courses at other institutions.

Students with 90 or more units seeking to transfer courses required toward the major or minor program must include with the petition a brief note from the department chair or program coordinator supporting the request and accepting the course and

units toward the major or minor.

TRANSCRIPTS OF ACADEMIC RECORDS

The Records Office can normally process a transcript request within three to five working days, except during periods of increased demand at the end of each term, when transcript requests may take longer to process. Regular transcript requests will be processed without charge. Rush transcripts, mailed within 24 hours of the request, require a \$10 service fee. Towson requires a written request. Requests must include dates of enrollment, full name at the time of enrollment, Social Security number or TU ID, and current address. All requests must have the signature of the requestor. Transcript Request Forms are available in the Registrar's Customer Service Center, Enrollment Services, room 223 or students may send a letter to the Records Office, Towson University, 8000 York Road, Towson, MD 21252-0001. A fax is also acceptable: The fax number is 410-704-3443. Current students may request transcripts online at http://students.towson.edu. Click on Online Services and Official Transcript.

GRADUATION

Students who have successfully completed all requirements for a Bachelor of Arts, Bachelor of Science, Bachelor of Fine Arts, Bachelor of Music or Bachelor of Technical and Professional Studies degree are eligible for graduation.

There are three graduation evaluation periods: December, May and August. Ceremonies are held in May and January. Note, however, that attending the ceremony does not automatically denote graduation, since evaluation of records cannot be completed until all grades are available. You must apply for graduation in order to receive ceremony information.

Applications for graduation must be completed online at http://students.towson.edu. This site provides a description of the graduation process and links directly to the new computer system's application. Applicants need to be sure that their name for their diploma is correctly listed.

Deadlines for applying are five to eight months prior to the

expected graduation date:

May graduation — apply by September 30 of year prior to graduation year

August graduation — apply by March 30 of graduation year December graduation — apply by May 30 of graduation year When students have earned approximately 75 units, the Academic Advising Center (Lecture Hall, 410-704-2472) prepares a Junior Audit of their progress toward fulfilling GenEd requirements. Students usually have at least a year following the audit to meet any outstanding requirements. Some academic departments will do an audit of major requirements at the same time.

Important! Students must apply for graduation to begin the graduation clearance process. Refer to the University Curriculum and Academic Regulations sections of this catalog for additional graduation information.

CLASS RANK

Towson University calculates class rank for three set percentiles: the top 10th, 20th and 25th percentiles of the graduating class. The top 10th percentile is automatically posted to the transcript of these qualified graduates three months after the graduation date. This calculation is based on the whole Towson University record. Students in the top 20th or 25th percentile who would like the designation posted on the record must request this by notifying the Graduation Office in writing at 8000 York Road, Enrollment Services Center, room 225, Towson, MD 21252-0001.

Undergraduate Planning Guide

To help you think about the many wonderful opportunities available to you at Towson University, here is a simple planning guide.

YEAR 1

Career Choices (see the Career Action Plan in this section)

Explore off-campus part-time and summer jobs at the Career Center.

Begin to build a career network: seek faculty, staff, alumni and peers to discuss major/career choices.

Study Abroad

There are many exciting opportunities to discover around the world while you continue to earn credit at Towson. Towson students may choose to study abroad in almost any country, and in almost any subject area. Experiences that you have while overseas will give you new perspectives and will be valuable to future employers.

You can study abroad in any year after your freshman year, but it pays to start planning one year ahead.

Think about these questions:

Do you want to perfect a language you have already acquired or learn a new one?

Do you have a preference for certain countries? Will your preference mean you should take that language at Towson before you study abroad? Plan accordingly!

How long would you like to stay? Programs are available for an academic year, a term, a summer or a Minimester.

Will you want to take courses in your major or minor, or study something completely different?

Attend a group advising session with the staff of the Study Abroad Office to see if this could be a good fit for you.

Apply for study abroad scholarships during the year before you go abroad. See your financial aid adviser early in the year before you are thinking of going abroad.

YEAR 2

Career Choices (see the Career Action Plan in this section)

Whether you seek a job after you finish college or attend graduate school, you will need references from your professors. Develop relationships with faculty who teach subjects that interest you.

Explore requirements for a related internship in your junior year.

Study Abroad

Attend a group advising session with the staff of the Study Abroad Office to see if this could be a good fit for you.

Apply for study abroad scholarships during the year before you go abroad. See your financial aid adviser early in the year before you are thinking of going abroad.

Graduate School

Whether you plan to go on for graduate study or not, talk to your adviser or a faculty member you know about what graduate school is like and what might be the benefits of earning a master's degree or doctorate in any of the fields that interest you.

YEAR 3

Career Choices (see the Career Action Plan in this section)

Participate in campus leadership activities and career-related organizations.

Seek major-related part-time, summer or on-campus employ-

Study Abroad

There's still time to plan for study abroad in your senior year.

Graduate School

Fall term: Browse through a college guide, such as Peterson's Guide, to get a feel for the admissions requirements, curriculum, and expectations of several schools that offer graduate programs in your field of interest.

Spring term: Meet with your adviser in your major department to explore which schools offer the best graduate programs in your field of interest. Request admissions materials and catalogs from the three or four schools you might like to attend.

Talk to your adviser about what, if any, graduate school exams you should take for entry into a program. Once the exams are decided upon, you should take them as early as possible because several of the exams can be retaken.

YEAR 4

Career Choices (see the Career Action Plan in this section)

Identify and research potential employers.

Plan job search strategy.

Investigate and pursue job openings. Use the resources available in the Career Center.

Career Action Plan

A satisfying and rewarding career doesn't happen overnight and is not necessarily the automatic outcome of a college education. Career development occurs gradually, throughout a person's lifetime. It is the product of decisions made, knowledge acquired, experiences gained, and actions taken. The years associated with college are ones in which great strides in an individual's career development usually take place.

| Use your time at TU to shape the future YOU desire. | Freshmen Assessment and Awareness | Sophomores Inquiry and Exploration | Juniors Gaining Career Experiences | Seniors Job Search and Transition to World of Work |
|---|---|---|---|--|
| Choose Major and Career | Consult with FYE adviser about major options. Meet with career counselor at COC to explore major and appropriate career paths. Use Discover. a comprehensive career computer program available through COC and CC. Register for GENL 121 Personal Life and Career Planning course. Read through the TU Undergraduate Catalog. | Meet with faculty advisers about major/career interests. If unsure about major or unclear about GenEd requirements, see UAAC. Meet again with career counselor at COC about major/career choices. Begin to build career network. Finalize declaration of major. | Expand knowledge of major and its relationship to possible careers. Consider options for graduate or professional school. Focus on career network. Set up informational interviews with TU alumnt, professionals in an area of interest, and internship employers. Obtain information at AR, CC, COC. | Meet with career counselor at COC to discuss transition from school to work. Identify and research potential employers. Use TU Alumni Career Network. Plan job search strategy at CC. Learn to market yourself effectively. Attend seminars sponsored by CC. |
| Supplement Academic Studies | Attend events related to major/career interests, e.g., Career Awareness Week. Visit career libraries in CC, COC, CL, public libraries; browse WWW. Visit AAC to improve study skills. Visit OSA for information of campus activities. | Participate in campus leadership activities. Contact OSA for information. Continue to visit career libraries in CC, COC, CL, public libraries; browse WWW. Attend career-related events sponsored by CC, COC, UAAC. Consider a job shadow through CC. | Continue to attend career-related events: job fairs, seminars, open houses, etc. Assume an active role in clubs or organizations to develop or enhance leadership and other transferable skills. Get involved in career-related professional organizations. | Attend conferences or meetings of career-related and professional organizations to build network of contacts in chosen field. Continue to attend career-related events sponsored by CC, COC, UAAC. |
| Develop Portfolio | Collect outstanding course work, projects, writing sam- ples, accomplishments, letters of recommendation, photo- graphs of activities, evalua- tions, erc. | Continue collection of portfolio materials. Include work-in-progress to show ability to edit, revise and improve. | Organize for presentation to employers. Solicit feedback on contents from adviser, department chair, and professionals in chosen field. | Submit completed port- folio to adviser, depart- ment chair, and other professionals for critique. |
| Build Work Experience and Values | Identify life and work values with COC/CC inventories. Explore on-campus, off-campus, part-time and summer jobs at CC. Consider an FWS/CS experience. Check out volunteer opportunities at OSA. | Increase marketability; build transferable skills through part-time and summer jobs, FWS/CS, and volunteer work experiences. Determine and test work values in part-time and summer jobs. Explore requirements for major-related internship in junior year. | Seek and apply for an internship at CC. Look for major-related part-time, summer and/ or FWS/CS positions at CC. | • Participate in the On- Campus Recruiting Program via CC: job fairs, on-campus inter- viewing, mock inter- views, information ses- sions and employer days. Consider a second internship to increase marketability. |
| Create Résumé | Sign up for Hire@TU, a FREE Web-based job search database offered by CC. | Add new volunteer and work experiences and indicate newly developed skills. Visit CC for résumé critique. | Use Hire@TU to update résumé. Continue to meet with CC staff for additional résumé reviews. | Use Hire@TUand the employment services at CC. Continue to update resumé. Prepare a list of references. |

WHEN TO APPLY

The application deadlines below are for first-time, degree-seeking students. Application deadlines and policies for Second Bachelor's and non-degree students are listed under Non-Traditional Undergraduate Programs in this catalog.

Freshmen: First term of senior year of high school for the fall term. Transfer Students: By November 15 for the spring term; by February 15 for the fall term.

International Students: By November 15 for the spring term; by June 1 for the fall term.

Scholarship Candidates: By December 1 for the fall term.

Admission to Towson University is granted to applicants whose academic and personal qualifications give promise of academic success. The university reserves the right to close admissions when no space remains available.

Students seeking freshman admission for the fall should file an application during the first term of the senior year of high school. Students seeking transfer admission may file as early as October 1 for the following fall term. Full-time applicants for the fall term who would like to be considered for an Admissions scholarship should submit an application, high school or college transcript(s) and SAT I/ACT results no later than December 1.

Applications for fall received after the February 15 deadline are processed provided space is available in the entering class. Students who fail to enroll for at least one course during the term for which they have been admitted as a degree candidate will have the offer of admission revoked because of nonmatriculation. To enroll as a degree candidate for any subsequent term, students must reapply and submit new application materials and pay all appropriate fees.

Persons who have been denied admission to Towson University will not be permitted to attend as non-degree students. They may, however, transfer to the university if they meet transfer admission requirements after attending another college or university. Persons who have graduated from high school within the last two years must formally apply for degree-seeking status in order to attend the university.

ADMISSIONS PROCEDURE

1. An applicant for full-time admission may receive application materials from the guidance office of the secondary school, the counseling office of the junior/community college, or from the Office of Admissions of the university. Electronic, online applications are also available through the Towson University Web site at www.discover.towson.edu.

2. The applicant should complete the application and return it to the Office of Admissions with the appropriate application fee. The application fee is neither deferrable nor refundable. Each applicant is responsible for the office's receipt of his or her official high school transcript, including final grades with verification of graduation, as it becomes available, and a completed transcript supplement (Guidance Counselor's Recommendation). The transfer applicant must forward official transcripts of all college work attempted or completed, whether or not credit was earned, from all institutions attended.

3. The standardized test required for admission is the SAT I of the College Entrance Examination Board. All freshman applicants and transfer students with fewer than 30 transferable college-level credit hours must submit the results of this test sent to the director of Admissions. Students should take the test in the junior and/or senior year of high school. Students entering TU beginning fall 2006 must submit SAT scores that include the new writing score. Students who completed high school prior to 2006 may submit prior SAT test scores. Towson University's College Board identification code number is 5404. ACT results may be substituted for SAT 1, but must include the writing portion of the ACT.

4. Incomplete applications will be canceled. Approved applications which remain incomplete for lack of final high school or college transcripts will also be canceled. The applications of admitted students who do not enroll for the given term will be canceled.

5. All entering degree-seeking students born after December 31, 1956, including new graduate students and transfers, will be required to demonstrate physician-documented proof of immunity to the following diseases: Diphtheria-Pertussis-Tetanus, Polio, Measles, Mumps, and Rubella.

An Immunization Record Form is sent to every admitted student. The completed form, signed by a physician, must be returned to the Dowell Health Center by the time of orientation and registration. Students who fail to return the form or to correct any inadequacies in immunity status in a timely fashion will be blocked from the following spring term registration. (For those students entering in the spring term, noncompliance will result in blocked registration for the following fall term.) The block will be lifted by Dowell Health Center as soon as the requirements are filled.

The specific vaccine requirements are listed on the Immunization Record Form. Students are responsible for obtaining any immunizations needed to satisfy university requirements from their regular source of medical care prior to arriving on campus.

GUIDELINES FOR FRESHMAN ADMISSION

Admission to Towson University is competitive based on the applicant pool and available space in the freshman class. Priority for admission is based on high school performance (in grades 9-11) as demonstrated by the grades earned. Strength and rigor of the curricula are considered. Many applicants exceed minimum required course work and level of work in their high school curriculum. In some cases, senior mid-year grades are requested and considered in the review of an application. Performance on the SAT I or ACT is also evaluated.

Freshman candidates will be expected to have completed four (Carnegic) units of English (including one each of composition, English literature and American literature), three units of social sciences, three units of science (2 with labs), three units of mathematics (Algebra I, Algebra II and Geometry), two units of a foreign language (some technology, computer science and sign language courses may be substituted) and six elective units. Any applicant

whose high school transcript does not include this combination of curriculum requirements may be admitted with the understanding that select deficiencies must be completed during the first term of the freshman year at Towson. Students who are admitted under this condition and who fail to complete the stipulated courses within the first term will have their degree candidacy withdrawn. High school-level reading, writing and mathematics courses taken at Towson will not carry graduation credit.

GUIDELINES FOR TRANSFER ADMISSION

To be considered for transfer, students must have completed a minimum of 30 semester hours of transferable college-level work and be in good academic standing; this cannot include remedial or preparatory courses or nontraditional course work, such as Credit for Prior Experience/Learning, Military Science, the College Level Examination Program (CLEP), DANTES, USAFI, ACE evaluations, etc. Students with fewer than 30 transferable semester hours must comply with the requirements for incoming freshmen and possess the minimum transfer GPA.

The requirements for transfer admission vary, depending on the total number of transferable credit hours completed and the cumu-

lative combined GPA from all institutions attended.

Priority admission is reserved for transfer students from a Maryland community college who have earned at least 56 transferable credits, are in good academic standing, and have maintained a GPA that meets the policies set by the Maryland Higher Education Commission and University System of Maryland policies. Students who have earned fewer than 56 transferable credits or who are transferring from an institution other than a Maryland community college, will be admitted based upon combined cumulative GPA of transferable credits and space availability.

Upon official acceptance to the university, students must maintain the established cumulative GPA required for admission (inclusive of current course work) and remain in good academic standing; otherwise, the university's offer of admission will be with-

drawn.

Any transfer applicant who has attended Towson as a non-degree student must possess at least a 2.00 GPA for all course work attempted through the university, even if the applicant is admissible based on course work subsequently completed at other institutions. Students who apply for transfer admission based on their non-degree status must meet the admissions requirements listed above.

Waiting List

Applicants who are currently enrolled in course work that may qualify them for admission will have their applications reviewed after official transcripts, including grades for that work, are received. These students are encouraged to make alternative plans for admission to other colleges in the event that the university is not able to extend an offer of admission because of lack of space at the end of that particular term. Refer to the current undergraduate admission application or transfer guide for specific details.

TRANSFER POLICY

(Also see the Academic Regulations section and Appendix B of this catalog.)

1. Transfer of course credit.

The Office of Admissions at Towson University assists transfer students with a variety of services, from personal interviews to the ARTSYS on the Web, http://artweb.usmd.edu. These services are designed to guide students in judicious course selections while they are still enrolled at their transfer institutions. Through a well planned selection of courses prior to transfer, students can often complete some major requirements and some TU General Education (GenEd) requirements upon official matriculation.

Transfer course work is evaluated by the Office of Admissions on a form known as the Evaluation of Transfer Credit. Transfer credit will be allowed for most academic courses completed at any regionally accredited two- or four-year college or university; this credit will transfer into TU as either GenEd or free elective/potential major credit. Some restrictions do apply, however; courses that are not parallel or discipline-compatible with TU courses may not transfer; development/remedial, personal development, college orientation, technical/occupational, and selected business courses do not transfer; finally, any course transferred as equivalent to TU ENGL 102, Writing for a Liberal Education, must carry a grade equivalent of 2.00 or higher to meet graduation requirements.

2. Maximum number of transfer credits accepted.

The maximum number of credits allowed in transfer from a two-year institution (community/junior college) is 64. The maximum number of credits allowed in transfer from a four-year institution or from a combination of two- and four-year institutions is 90. The standard measure of credit at TU is the unit; quarter-hour credits are converted into units by a two-thirds ratio.

 Maximum number of units allowed for non-traditional learning. CLEP credit is selectively transferred. Credit will be awarded for the following exams if the minimum score of 50 is earned:

Humanities6 unitsMath6 unitsNatural Sciences6 unitsSocial Sciences and History6 units

A total of 24 units (6 units for each successfully completed section) will be awarded in transfer. Credit for other CLEP tests is evaluated after admission by the Office for Non-Traditional Undergraduate Programs. The maximum number of units allowed for non-traditional learning is 45.

AP credit is usually awarded on the basis of scores of 3 or above. A detailed description of Advanced Placement credit follows under the appropriate heading. There is no limit to the number of units that can be earned through AP.

In order for any CLEP or AP credit to be reviewed and/or awarded, students must provide the Office of Admissions with

an official report from Educational Testing Service.

Credit for military training is reviewed and awarded or denied by the Office for Non-Traditional Undergraduate Programs. Before credit can be posted, students must have attended TU for one term as degree candidates with a 2.00 cumulative GPA and have submitted all of the necessary official military documents to the Office for Non-Traditional Undergraduate Programs.

4. Minimum number of units required through classroom instruc-

tion in the major field and for the degree.

Towson University requires that students earn a minimum of 120 units toward a degree. Of these 120 units, 32 must be upper-level, that is, junior/senior (300-400) level courses. Students *must* complete a minimum of 30 units in residence at TU; at least 15 units must be completed in degree candidate status.

The number of units required for the completion of a single major at TU varies from 30 to over 70 units, depending on the intended major.

Grades of D will transfer into the university as GenEd/elective credit; however, in order to satisfy TU's ENGL 102 Writing for a Liberal Education graduation requirement, a grade equivalent of 2.00 or higher must be earned. Grades of C- or lower will not qualify for major credit.

5. Transfer of General Education (GenEd) requirements.

Transfer students who have satisfied the GenEd requirements at a Maryland public postsecondary institution will only be required to complete 10-16 additional units of General Education and specific courses required of all students at TU, with the total number of GenEd units not to exceed 46 units.

(For information regarding specific GenEd requirements refer to General Education Requirements under the University Curriculum section of this catalog.)

6. Transferability of credit for non-traditional learning.

Evaluation of Transfer Credits

The letter of admission for a transfer applicant includes the estimated number of credits transferable to Towson. After the student accepts the university's offer of admission (by returning the Enrollment Contract and fee), he or she will receive an official evaluation of transferable credits from the Office of Admissions. This evaluation is usually (but not always) preliminary in nature, as the student is usually taking additional courses at the time of admission. A final evaluation of credit will be prepared after the final grades for the most current term are received in official transcript form from the student's former college or university. All final transcripts are due in the admissions office prior to the student's Orientation date. The appropriate cumulative average, as determined by the number of credits completed and good academic standing must be maintained, however, or the university's offer of admission will be withdrawn. See Guidelines for Transfer Admission Policy for the appropriate cumulative GPA necessary for maintaining admission eligibility. Failure to meet this requirement will result in the cancellation of the university's original offer of admission and in the forfeiture of all related fees and privileges. Additionally, failure to forward an official final transcript before enrollment at the university or the first day of classes will prohibit future registration and the release of official TU transcripts.

Upon receipt of a final evaluation, the transfer student should review its contents carefully. If the student has any questions or feels there is an error, the Office of Admissions *must be advised within 30 days*. In no case will changes, additions, or corrections be made to the evaluation after the student has completed the first

term in residence at Towson University.

Transfer students are subject to the GenEd and major requirements that are currently in effect for the class (that is, the catalog year) in which they are admitted. These students have the option, however, of following the GenEd and major requirements that were in effect at the time they were initially admitted as degree candidates at their original institution, provided that continuous enrollment has been maintained. Continuous enrollment has been defined as follows: must be, or have been, enrolled at an institution of higher education; must have had no more than two sequential years of non-enrollment; and must complete the baccalaureate degree in no more than 10 years from initial enrollment as a degreeseeking student at an institution of higher education. Students who have not completed graduation requirements within 10 years should meet with an academic adviser to determine the most appropriate set of requirements. If a change of catalog is desired, students should submit a Catalog Selection Petition form to the Registrar's Customer Service Center, Enrollment Services, room 223 (prior to the completion of their first term at TU).

Maryland community college transfer students whose first attendance at any institution of higher education occurred in the fall of 1990 or later will fall under the guidelines set forth by the Maryland Higher Education Commission on March 21, 1990. (See

Appendix B for details.)

Placement Testing for Entering Students

The Academic Achievement Center administers the competency testing program. This program requires all entering students to demonstrate competence in the basic skills of reading, writing and mathematics.

All matriculating freshmen and all transfer students with fewer than 30 credits will be administered diagnostic placement tests. Students not attaining the required minimum scores on the standardized tests will be enrolled in developmental studies courses in the basic skills. These courses will not count toward the 120 units required for graduation. Students who do not complete their developmental requirements by the end of their fourth term will be subject to a review of their academic records and mandatory advising.

The following students are exempt from the competency testing program:

- 1. Transfer students with 30 or more credits.
- 2a. Transfer students with fewer than 30 credits who transfer a course equivalent to ENGL102 with a grade equivalent of 2.00 or higher will be exempt from the reading and writing tests.
- Transfer students with fewer than 30 credits who transfer a college-level mathematics course will be exempt from the mathematics tests.
- 3a. Freshmen with SAT I verbal scores of 500 or above, or ACT English scores of 21 or above, will be exempt from the reading and writing tests.

b. Freshmen with SAT I mathematics scores of 500 or above, or ACT Math scores of 21 or above, will be exempt from the mathematics tests.

U.S. PERMANENT RESIDENT APPLICANTS

Applicants who hold permanent resident or parole visa status must submit a regular application and list their alien registration number in the space indicated. They are processed for fee purposes as state residents if they have established legal domicile in Maryland for one year. Presentation of an applicant's alien registration card for verification may be requested. Foreign academic records must be translated by an official, recognized evaluation service such as the World Education Service, and submitted to the Office of Admissions as part of the academic record. An application and all documentation must be submitted by November 15 for the spring term or February 15 for the fall term. If a permanent resident is a nonnative English speaker and has resided in the United States for less than five years, a TOEFL result is required.

SPECIAL ADMISSION PROGRAMS

Early Admission

Early admission enables a limited number of students to be admitted and to matriculate immediately following the completion of their junior year in high school. Students interested in early admission should apply through the normal application process. Their applications, however, must be accompanied by a letter of recommendation from either the high school counselor or principal. Additionally, a letter of recommendation from the student's parent(s) should be included. An official high school transcript should be submitted along with the results of the SAT I. An interview with the director of Admissions is also suggested.

On-Campus Interviews

Personal interviews are not required and are not used as a criterion for admission. Prospective transfer students may request an interview to discuss questions or concerns they may have. Students are encouraged to call three weeks in advance of their visit to schedule an appointment with an admissions counselor.

NON-TRADITIONAL ADMISSION POLICIES

Veterans and G.E.D. Recipients

Some high school graduates may qualify for special admission consideration under the provisions of non-traditional admissions. In order to be considered under this policy, students must be classified into one of the categories described below. Once classified as non-traditional applicants, prospective students must apply and submit all credentials no later than November 15 for the spring term and no later than February 15 for the fall. Admission will be based upon basic skills testing in several areas: writing, reading and mathematics. These students can be admitted into degree candidacy only if their test results indicate no more than one developmental placement. In cases where an applicant places into a developmental course, any prior college credit earned in these subjects will not be transferred to Towson University. Students are encouraged to submit their applications as early as possible to ensure adequate

processing time for the evaluation of the placement tests. In addition, it should be understood that referrals for such testing cannot be made until a formal application is filed, and completed with all appropriate academic credentials in transcript form.

Veterans: For admission purposes, a veteran may be defined as a current or former member of any branch of the U.S. Army Services with 12 months (one year) or more of active duty served, and with no intervening college or university attendance since discharge from the service. In addition to the application form and academic credentials, veterans must also provide the Office of Admissions and the Veterans Office with a copy of the DD form 214 verifying military service.

G.E.D. Recipients: For admission purposes, the high school equivalence (General Education Development) examination standards established by the Maryland State Department of Education (or other similar agencies in other states) will be used as an alternative to high school graduation. Unless accompanied by acceptable SAT I results and a partial high school transcript with which to render an admission decision, a G.E.D. recipient will be referred for placement testing before an admissions decision is rendered.

ADVANCED PLACEMENT

Freshmen who have had the opportunity for advanced-level work and would like academic credit as well as advanced placement are encouraged to take the Advanced Placement Tests of the College Entrance Examination Board in May of their senior year of secondary school. Arrangements to take the tests are made through the high school counselor or the College Entrance Examination Board, P.O. Box 592, Princeton, NJ 08540. The results of these tests are received by the university in mid-July. The following standards are used for determining advanced placement credit:

Advanced Placement Credit for Entering Students

| Examination | A.P. Score | Policy |
|------------------------------------|---------------------|--|
| American History | 1, 2, 3 | No credit |
| Art History Art Studio: Drawing | 4, 5 All 1-5 | 6 units, HIST 145-146 No credit Review of portfolio by Art Department |

†Élementary and Early Childhood Education majors should consult the policy on AP in the Department of Mathematics section.

Prior to the change of schedule period, students are notified about Advanced Placement and credit. Additional information may be obtained by contacting the director of Admissions or the appropriate departmental chair.

A bulletin of information about Advanced Placement Tests may be secured from the College Entrance Examination Board, P.O. Box 592, Princeton, N.J. 08540.

INTERNATIONAL BACCALAUREATE

Towson University recognizes that the International Baccalaureate (IB) program represents achievement beyond the standard American high school program and regularly awards advanced standing to students who successfully complete IB course work.

Diploma Holders

Students who earn an IB Diploma will be awarded 30 units toward the bachelor's degree and receive sophomore standing. Some of these units may be applied toward Towson's General Education requirements; each student's IB units will be individually evaluated for General Education applicability.

Certificate Holders

Students who earn an IB Certificate will be eligible to receive units based on the results of their higher level exams only. At least 6 and as many as 8 units will be awarded for each higher level exam completed with a score of 4 or above. A score of 5 or above is required to receive credit for the physics higher level exam.

Higher Level IB Course Equivalency

International Undergraduate Admissions

OFFICE Administration Building 218-A 410-704-6069 Fax: 410-704-6070 www.towson.edu/intladm Jeffrey M. Haas, Director Stanton E. Cheah, Assistant Director Laura A. Anderson, Counselor Katherine F. McDonald, Administrative Assistant

Requests for information or admission materials should be made far enough in advance to allow processing before deadline dates set by Towson University.

International applicants who are accepted for admission usually begin studies in the fall term (early September) or the spring term (late January). The deadline for submitting an application and all documentation is June 1 for the fall term and December 1 for the spring term. Early application is strongly encouraged.

Applicants who are accepted for admission will receive the Certificate of Eligibility (Form 1-20). This document is used to apply for a student (F-1) visa at a U.S. Embassy or consulate overseas. It is also used for transferring from one institution in the United States to another. F-1 students are required to enroll each term as full-time degree candidates and take a minimum of 12 units.

The following procedure should be followed by students applying for their first American bachelor's degree (students applying for a second bachelor's degree should refer to the University Curriculum section of this catalog):

1. Obtain an international student packet.

Address:

Office of International Admissions Towson University 8000 York Road Towson, MD 21252-0001, U.S.A. Telephone: 410-704-6069 E-mail: intladm@towson.edu

2. To be considered for admission, applicants are required to complete the official international undergraduate application. A nonrefundable, U.S. \$30 application fee (personal check drawn at a U.S. bank or money order drafted in U.S. dollars) must accompany all applications.

3. All international applicants must complete an admissions file,

including:

a. official or notarized secondary school academic records, showing grades received, annual mark sheets, examination certificates and leaving certificates, as they apply to the educational system in the student's home country. Records must be received for the last three years of secondary school;

b. official or notarized records (transcripts) of all colleges, universities, post-secondary, or professional schools attended;

c. a notarized English translation of all documents. Translations must be as literal as possible with no attempt to translate information into the United States system of education. To evaluate postsecondary course work, it is sometimes necessary for the universiry to use a professional evaluation service at the applicant's expense (approximately U.S. \$125). The university will notify an applicant if this service is required;

d. proof of English language proficiency by non-native English speakers by submitting either:

i. an official Test of English as a Foreign Language (TOEFL) results. All international students who do not speak English as their native language are required to take the TOEFL. A minimum score of 500 (paper-based) or 173 (computerbased) is required. TOEFL examination dates and information may be obtained through the U.S. Embassy/Consulate or by writing to: TOEFL/TSE Services, Box 6151, Princeton, NJ 08561-6151, U.S.A., The TOEFL Web site is www.toefl.org. The results will be reported to Towson if the university is indicated on the TOEFL application. The TU code number is 5404.

ii. an SAT verbal score of at least 470; or

- iii.an International English Language Testing System (IELTS) minimum score of 5.5.
- e. financial certification. Applicants are required to provide official financial statements verifying that U.S. \$27,000 is available annually to cover their tuition, fees and living expenses. Acceptable methods of financial verification are described in the international student packet.

4. International students are required to pay out-of-state tuition.

5. Most non-native speakers of English admitted to the university are required to take Towson's English placement test to determine if preparatory college writing courses are needed.

6. Applicants holding other types of visas may also apply to Towson and should contact the Office of International Admissions for more information.

Student Life and **Campus Services**

Whether you live on campus, near campus or commute from home, Towson offers many activities and services that will add to your enjoyment, increase your opportunities to meet other students, and maximize your chances for a successful Towson career. We encourage you to explore the listings below and take advantage of some of these excellent resources.

This section is arranged alphabetically. Detailed descriptions for each department below can be found following this list.

ATHLETICS

Towson Center, 410-704-2759

Towson University is committed to a comprehensive intercollegiate athletics program as an integral part of the student's total educational experience. The program is a member of the National Collegiate Athletic Association's (NCAA) top level - Division I. In addition, TU enjoys membership in the Atlantic 10 Football League, Eastern College Athletic Conference for Gymnastics, and the Colonial Athletic Association. The Tigers field men's varsity teams in baseball, basketball, football, lacrosse, golf, soccer, and swimming and diving. Women's teams are fielded in basketball, cross country, field hockey, gymnastics, indoor track, lacrosse, soccer, softball, swimming and diving, tennis, outdoor track, and volleyball.

Student-athletes compete for conference, regional and national honors under the guidance of an excellent coaching staff. Towson's

outstanding athletic facilities include Towson Center Sports Complex, Johnny Unitas® Stadium, Burdick Hall pool and John B. Schuerholz Baseball Park, all of which make the home of the Tigers a showcase facility within the metropolitan Baltimore area.

The Department of Athletics is proud that its athletes are students first and foremost. This emphasis on academics is reflected in the excellent graduation rate of the TU student-athlete population. In fact, Towson University was recognized in the March 2002 U.S. News & World Report issue on America's Best College Sports Programs for the outstanding graduation rate of its student-athletes.

Athletic scholarships are available for gifted student-athletes in all sports. Students are encouraged to participate according to their interests and abilities. Prospective student-athletes interested in competing on a varsity team should contact the head coach of that sport. Students are also encouraged to support TU teams as spectators.

Students receive one free admission to all home Tiger athletic events upon presentation of a valid I.D. card.

For the latest news on Tiger athletics and schedules, visit www.TowsonTigers.com online.

AUXILIARY SERVICES BUSINESS OFFICE

University Union 118, 410-704-2284

This is a one-stop business transactions office for OneCard Dining Points and Retail/Vending accounts, OneCard ID cards, parking permit purchases and parking citation payments, and MVA nonresident permits and vending refunds.

CAMPUS LIFE

University Union 217, 410-704-2332

Fax: 410-704-2219

E-mail: parent@Towson.edu

http://www.new.Towson.edu/campuslife

Campus Life oversees two offices: Student Activities and New Student Programs as well as the fundamental areas of the Parents Association, Off-Campus Student Services, and Campus Ministries. Staff members in the Office of Student Activities advise the Student Government Association, the Campus Activities Board, and assist all campus student organizations. Staff members and students plan daytime activities, concerts, trips, movies, leadership development opportunities, and promote community service.

The Orientation staff develops programming for all new students entering Towson University. The staff plans activities for Move-In Weekend and Orientation, as well as ongoing transitional programs for transfer students during the fall and spring terms.

Campus Life is also home to Off-Campus Student Services. Commuter Services seeks to build connections between the university and its commuter populations by offering a variety of commuter-targeted programs. Understanding the demands of commuting, the office seeks to create resources and programs to assist with the areas of off-campus housing, transportation and socialization.

CAMPUS MINISTRIES

University Union, 410-704-2268

A variety of faith communities are represented on campus through the support staff assigned to the university. Most advise student religious organizations as well as provide a personal ministry in counseling, theological discussions, and other supportive areas. In addition, most cooperate in sponsoring special programs of speakers, discussions, films, contemporary issues studies and social events.

CAMPUS RECREATION SERVICES

Burdick Hall 151, 410-704-2367

www.towson.edu/campusrec

Campus Recreation Services (CRS) is made up of five programs: Adventure Pursuits, Fitness & Wellness, Informal Recreation,

Student Life and Campus Services

Intramural Sports, and Sport Clubs. The programs utilize the new C.R.i.B fitness center and indoor climbing gym, three gymnasiums, Burdick field, beach volleyball court and the pool. CRS supports the mission of a healthy campus and encourages students, faculty and staff to use the facilities and participate in CRS programs.

- The Adventure Pursuits program allows students to explore the world's wilderness as well as climb a 33-foot indoor wall and kayak in the pool.
- The Fitness & Wellness program allows students to take advantage of group exercise classes, fitness assessments and instructional wellness clinics free of charge.
- Informal Recreation includes facilities that are open to TU students, faculty and staff when they are not in use or reserved for academic classes, Athletics or CRS programming, Facilities include Burdick gyms and pool.
- The Intramural Sports program allows students, faculty and staff to form their own sports teams to compete against other teams on campus. Team sports such as flag football, soccer and baskethall are offered along with individual and dual sports such as tennis, racquetball and whiffleball. It is a great way for people of all skill levels to compete in an organized, recreational atmos-
- The Sport Clubs program offers students the opportunity to play socially on campus and compete against other schools.

The Student Handbook contains more information about the programs. You can also research CRS on the Web at www.towson.edu/campusrec.

CAREER CENTER AT TOWSON UNIVERSITY 7800 York Rd., Suite 315, 410-704-2233

www.towson.edu/careercenter

The Career Center at Towson University helps students prepare and search for meaningful and satisfying careers. The center also provides services and information leading to academic internship opportunities and on- and off-campus full-time and part-time employment. To learn more about the programs and services offered by The Career Center, visit www.towson.edu/careercenter, or call the center for a schedule of information seminars.

Career Center Services for Students

- On-campus Interviewing
- Student Employment (on- and off-campus)
- Professional Development Seminars (Resume Writing, Interview Skills Training, Networking)

All employment opportunities are posted on the Web site.

COUNSELING CENTER

Gleu Esk, 410-704-2512

College life presents many stresses, life changes, and opportunities for personal growth. To meet these challenges, it is often necessary to resolve emotional problems, learn new personal and social skills, and work toward developing well-chosen career and personal goals. The Counseling Center provides a variety of professional services for students who are experiencing personal difficulty or who are seeking help toward a greater level of personal effectiveness or satisfaction,

Some of the areas which may be addressed by the Counseling Center include:

- · Eliminating blocks to educational or career achievement
- Career development and decision-making

- Relationships with friends, roommates, parents, romantic partner or spouse
- Family problems
- Grief and loss
- Sexual matters
- Self-esteem and self-confidence
- Anxiety, depression and anger
- Physical stress and tension
- Eating disorders
- Physical or sexual mistreatment or abuse
- Alcohol and drug-related problems
- Suicidal or self-destructive behavior or thoughts
- Problems encountered in the university environment

Most services at the Counseling Center are provided free of charge.

The Counseling Center is staffed by psychologists, substance abuse counselors, consulting psychiatrists, and psychologists working under supervision. All services at the Counseling Center are confidential. For more information or to make an appointment, call or drop by Glen Esk, the big white house on the northeast corner of the campus.

Group, Individual and Couples Counseling

Several kinds of personal counseling are available at the Counseling Center. Your initial session can be of immediate assistance as your counselor offers a listening ear, helps you to resolve problems and informs you about what kinds of further help might be appropriate. A series of individual counseling sessions offers a private setting for resolving personal difficulty and achieving personal growth. Counseling groups are particularly helpful for many concerns, giving members an opportunity to share experiences, solve problems and practice new skills. Couples counseling provides a safe atmosphere for couples to examine and improve their relationships. Psychiatric evaluation and medication are also available when needed.

Alcohol and Drug Abuse Program

The Counseling Center offers state-certified alcohol and other drug treatment programs (both individual and group services) intended to meet various personal needs. Services can assist in achieving a greater awareness of a problem or correcting a problem through education and recovery.

Life Planning and Career Development

The Counseling Center assists students in personal life planning and career development in a variety of ways. A career library houses the computer-assisted career development program, DISCOV-ER. This program focuses on the world of work, personal assessment, occupational planning, and making transitions. Several other forms of assessment and information are also provided. Professional staff are available by appointment for individual career counseling. Students interested in an intensive, systematic approach to career development may register for a Counseling Center-sponsored elective 2-unit course titled Personal Life and Career Planning (GENL 121).

Outreach and Consultation

The Counseling Center staff provides workshops and programs to the Towson University community on various topics, including time management, assertiveness training, stress management and communication skills. We can also work with you to help you develop programs to meet your needs. Staff are also available to consult with students, faculty and staff on various topics, including improving the campus environment, diversity issues or other issues relating to the quality of life at Towson University.

Student Life and Campus Services 39

Web Resources

Further information about the Counseling Center, self-help resources, Web-based mental health self-assessments (for Anxiety and Depression, Alcohol, and Eating Disorders), a Wellness Assessment, and DISCOVER (a computer-assisted career guidance program) can be found at www.towson.edu/counseling.

Referral

Students sometimes need services that are available only outside the Counseling Center, whether on campus or in the surrounding community. Counselors can advise students about a variety of resources and services that may be useful to students. In addition, a referrals assistance specialist is available to assist students in identifying quality mental health providers in the outside community, and in understanding and using their health insurance for these services.

Hours

The Counseling Center is open Monday through Friday, from 8 a.m. to 5 p.m.

Your Initial Contact

Call 410-704-2512 or stop by the Counseling Center to arrange your first appointment with a counselor. Initial appointments are usually available on the same day you contact us or very soon thereafter. If you wish, you may schedule an appointment in advance to fit your schedule more conveniently. Emergency appointments are also available. Your counselor will help you resolve your immediate concerns and determine what kinds of help will be the most useful.

Confidentiality

Counseling often deals with very personal and highly private issues. Successful outcome depends on a feeling of freedom on the part of clients to express feelings, attitudes and thoughts with people who respect them and their right to privacy. Interviews conducted are confidential and information is not released except with the client's written permission or as may be required by law. The importance of confidentiality is reflected in the Counseling Center's adherence to the Code of Ethics of the American Psychological Association.

DINING SERVICES

University Union, 410-704-2302 http://dining.towson.edu

MEAL PLANS

No matter where you go on campus, you can find something good to eat! We have 13 dining locations and offer a variety of meal plans (including vegetarian and kosher cuisine) as well as a-la-carte dining.

All students who live on campus must purchase a meal plan (except those who live in the Towson Run Apartments or Millennium Hall). Additional meals and snacks can be purchased through a Dining Points debit account. Dining points can be used at any Dining Services outlet on campus. Dining Points carry over from term to term as long as you are a registered student. Dining Points are non-transferable, non-refundable. Students access their meal plan and Dining Points through their OneCard ID. For more information, visit our Web site http://dining.towson.edu or call Auxiliary Services, 410-704-2530. A student's meal plan status can be viewed at the OneCard Web site: http://onecard.towson.edu

Choosing a Meal Plan

Choosing a meal plan that works with your schedule and eating habits is easy. When you make the decision, consider these questions: How many times a day do you eat? Will you be on campus most weekends? The majority of resident students – 85 percent – choose the Unrestricted meal plan. Fifty percent of resident students on the Unrestricted plan choose 14 meals a week.

Your Choice: Unrestricted or Traditional Meal Plans Advantages of Unrestricted Meal Plans:

• The Unrestricted meal plans are extremely flexible. These plans allow you to eat more than one meal per meal period.

- For example, eating lunch at 11:05 a.m. and a second meal at 3:30 p.m., would place both meals in the lunch meal period.

 If you have an Unrestricted meal plan, you can swap unused meals for cash allowances towards a-la-carte purchases at
- It you have an Unrestricted meal plan, you can swap unused meals for cash allowances towards a-la-carte purchases at numerous locations around campus including PAWS, The Den, Susquehanna Food Court and many other locations. Customers with an Unrestricted meal plan have fewer missed meals than customers that have a Traditional meal plan.

Advantages of Traditional Meal Plans:

 A Traditional meal plan costs less than a corresponding Unrestricted meal plan. Please note: Traditional meal plans limit participants to one meal per meal period.

What These Meal Plans Have in Common

Both Unrestricted and Traditional meal plans are for a specific number of all-you-can-eat meals per week. All meals must be used before the end of the meal plan week or you will lose them. The meal plan week begins Friday with breakfast and ends Thursday evening. Unrestricted and Traditional meal plans are priced per term. You will have the opportunity to change your meal plan until the last day of the drop/add week each term.

| Your Options* | Unrestricted | Traditional |
|---|--------------|-------------|
| 19 meals per week with \$50 Dining Points | \$1,731 | \$1,515 |
| 14 meals per week with \$50 Dining Points | \$1,619** | \$1,430 |
| 10 meals per week with \$50 Dining Points | \$1,425 | \$1,290 |
| 5 meals per week with \$200 Dining Points | \$747seniors | only\$ 760 |

^{*}These costs represent 2004-2005 prices. A price increase should be anticipated for the 2005-2006 academic year.

The most up-to-date meal plan information is available from our Web site.

Towson Run, Millennium Hall and commuter students are also eligible to purchase any meal plan, including Block plans. Please review the Block meal plan option on the dining Web site.

Meal Plans for Students with Apartments

Students with their own apartments usually choose one of the Block meal plans. Eating with a Block meal plan is easier than shopping for food, fixing it, and cleaning up afterwards. When students use up one block, they can purchase another. Block plans are good until the end of the term.

DISABILITY SUPPORT SERVICES

Administration Building 232 410-704-2638 (Voice or TDD)

www.towson.edu/tu/dss/

Disability Support Services (DSS) is the office designated to provide reasonable accommodations to students with disabilities. Students seeking accommodations must identify themselves to DSS, request an appointment to discuss their needs, and provide DSS with up-to-date and complete documentation of their disabilities by a qualified professional. DSS determines what accommodations are reasonable on a case-by-case basis, taking into account the student's disability and needs, nature of the learning task, course standards and essential requirements of the program of study, and educational environment.

The type of documentation needed varies with the disability. Generally, a psycho-educational evalution is required for learning and cognitive disabilities, a psychiatrist's or psychologist's report is required for ADHD and psychological disabilities, while a typed letter or report is required from a physician for medical and physical disabilities.

^{**}most popular selection

Some of the services and accommodations provided by DSS are: pre-admission advisement for prospective students regarding services; priority registration for course scheduling; disability consultation and referral; evaluation and maintenance of all disability records for students registered with DSS; preparation of individualized memos to instructors certifying that the student has a disability and stating the determined reasonable accommodations; guidance to students, faculty and staff with implementing accommodations; arrangements for classroom accommodations (such as note-takers and sign language interpreters); provision of enlarged and taped texts; use of the Testing Services Center for testing accommodations (such as extended time and minimal distraction testing space); access to assistive technology and software for reading and writing; campus orientation and mobility services; and help with student advocacy skills.

Students are encouraged to register with DSS as soon as possible after admission to the university to ensure timely provision of services. Students who suspect they have a disability but do not have documentation are encouraged to contact DSS for advice on how to obtain an appropriate evaluation. Further information is available on the DSS Web site or by calling the office.

Testing Services Center Administration Building 232B 410-704-2304 Fax: 410-704-4699

The Testing Services Center provides proctored testing accommodations (extended time, minimal distraction space, readers, scribes, computer access) for Towson University students registered with the Disability Support Services Office. Contact the Testing Services Center for additional information.

DIVERSITY

Office of Diversity Resources University Union 232, 410-704-2051

To facilitate the access and success of students of color and other diverse populations, the Office of Diversity Resources (ODR) provides educational programs, financial assistance, cultural celebrations, climate assessment and monitoring, and advocacy and advising. Additionally, ODR supports student cultural organizations. Programs include Diversity Retreats, Distinguished Black Marylanders Awards, Heritage Celebrations, and Cultural

The ODR offers Community Enrichment and Enhancement Program (CEEP) grants for undergraduates. The CEEP award ties financial assistance to involvement in campus activities. One of the activities must contribute to the multicultural environment of the campus. For graduate students, the Graduate Diversity Grant is available.

The Office of Diversity Resources is a significant resource for diversity information, diversity training, and career and graduate school opportunities. For students, faculty and staff with concerns related to any form of diversity, the ODR is an excellent place to start.

African American Cultural Center University Union 317, 410-704-2641

The African American Cultural Center (AACC) sponsors programs and activities that reflect the lifestyles, history and culture of people of African descent. The center also seeks to stimulate scholarship at Towson in the areas of African American, African-Caribbean and African studies. The center sponsors the Towson University Gospel Choir, hosts lectures and discussion groups, provides information and referrals, showcases amateur and professional artists, and sponsors the Distinguished Black Scholar Lecture Series.

The center, which houses an ever-growing collection of art, music, and popular and scholarly literature, provides a comfortable setting in which to study, relax and socialize. Student, faculty or staff groups may reserve the center for meetings and informal gatherings.

The center houses a wealth of information concerning graduate schools, fellowships, scholarships, employment opportunities, and other news relevant to minority students, faculty and staff. The information is updated regularly. Students are invited to stop by often; no appointment is necessary.

Fostering A Welcoming Campus Climate

Towson University is dedicated to a vigorous intellectual life based on scholarship and learning. A fundamental premise of the academy is respect for each individual's right to participate and learn in a climate free from racism, prejudice and biased practices. Racism and other forms of discrimination may be observed as explicit abuse, threatening or directly harmful actions, or subtle devaluation of an individual based on race, ethnicity or religion. Such behaviors demean the entire academic community and will not be tolerated by the university.

The university community, faculty, administrators, staff and students are expected to demonstrate respect for all of that community's members and to actively facilitate the creation and maintenance of a positive and constructive milieu. For example, it is the responsibility of administrators to formulate and implement fair and effective practices to prevent discrimination and to respond promptly and consistently to complaints. It is the responsibility of faculty to provide a classroom environment which discourages discriminatory behavior and to deal constructively with such behavior should it occur. Evaluations of performance and merit for faculty, staff and students should not be based on assumptions, expectations or attitudes related to race, color, religion, age, sex, national origin, sexual orientation and disability. Additionally, all administrators, faculty and staff are responsible for nondiscriminatory behavior in their interpersonal communications with colleagues, staff and students. In all interactions, a model of acceptance of cultural diversity should be fostered by the university community, faculty, administrators, staff and students.

SAGE Program

University Union 317, 410-704-3830

www.towson.edu/sage

The SAGE (Students Achieve Goals through Education) Program is part of the Office of Diversity Resources. It supports Towson University's multicultural enrichment and student retention efforts. New students participating in the program are encouraged to excel academically and involve themselves in the extracurricular life of the university during their first year at Towson. Any new student can participate in the SAGE Program. Each registered student is assigned to a support team consisting of other new students, a cultural organization representative and a SAGE Program peer mentor. Through workshops and social networking experiences the SAGE Program's ultimate goal is to assist students in making a successful transition to the university.

HEALTH SERVICES

Dowell Health Center, 410-704-2466

The Student Health Service, located in Dowell Health Center, offers primary care services to any registered student. The Health Center is open Monday-Friday throughout the year, with the exception of university holidays. Hours during the regular term are 8:30 a.m. to 4:40 p.m. with limited evening hours by appointment only. Call for more information and for January and summer hours.

The Dowell Health Center has an experienced staff of physicians, nurse practitioners, physician assistants and health educators. Services include treatment of common illness and injuries, a full range of sexual health services, therapeutic massage, acupuncture, nutrition counseling, anonymous HIV testing, office lab tests, health education, prescription birth control and medications. Charges for services can be paid by check, TU OneCard or billed to the student's financial account. Students do not need insurance to use the Health Center.

The Health Center operates by appointment. For non-emergencies, students should call 410-704-2466 between the hours of 8:30 a.m. and 4:30 p.m. to make an appointment or to speak with a nurse. Patients who walk in without an appointment will be evaluated by a trained nurse and may be treated or given a provider appointment based on the urgency and nature of the problem.

For after-hours emergencies, students should call the University Police, 410-704-2133, who will arrange transportation to a local emergency room. For nonemergencies after hours, urgent care is available at both St. Joseph Medical Center and Greater Baltimore Medical Center at the student's own expense. Call 410-704-2466 for these numbers.

Health insurance is strongly recommended for all students. The university sponsors a plan at reasonable cost which covers most services provided at the Dowell Health Center, as well as X-rays, outside lab tests and other diagnostic tests, after-hours care, and physician or hospital referrals.

Immunization Requirements

The university has a mandatory immunization policy. All degree candidates (regardless of units); all international students; and all non-degree students (if taking 6 or more units) must comply with the immunization requirements to attend class. Documentation should be sent or faxed to the Health Center before arrival on campus, or during TU CARES, to minimize delays in registration for subsequent terms. Immunizations are available at the Dowell Health Center for a fee. Maryland law now requires all students living in on-campus housing to be immunized against meningococcal disease (meningitis) or to sign a waiver stating they understand the risks of the disease and choose not to be immunized. Immunization/waiver forms for this vaccine will be sent with the Housing Contract and must be returned in order to move into residence halls.

The Health Center will provide physical education exemptions and special residence arrangements only with adequate medical documentation from the student's personal physician. Please call for information and special forms. Medical parking permits are issued by the Auxiliary Services Business Office. Students must present documentation from the treating physician indicating the reason and estimated duration of the condition for which parking is being requested.

Towson University Medical Excuse Policy

The Health Center does not give medical excuses for short-term absence (less than five days) due to illness or injury. Verification of care will be given for people treated at the Health Center which does not constitute a medical excuse. For students whose medical condition results in longer-term absence, the Health Center notifies the vice president of Student Affairs, who then notifies the student's professors. However, this notification does not excuse the absence. Students must also contact their professors and make arrangements for makeup work. Letters of support for students requesting a medical withdrawal from all classes or a selective medical withdrawal from a single class are given at the discretion of the treating provider, and only if the student was treated at the Health Center for the condition. No medical information will be given to any professor or administrative office without written consent of the

Treatment of athletic injuries is provided to intercollegiate athletes at the Towson Center Training Room by a staff of athletic trainers under the supervision of a board-certified orthopedic surgeon or sports medicine physician. General medical care is provided by the Dowell Health Center.

Health Insurance

Dowell Health Center, 410-704-2466

Although the Dowell Health Center offers high quality primary health care to any registered student, regardless of insurance status, there are times when students need medical services not available at the Health Center. For this reason, all students are strongly encouraged to have health insurance coverage. International students, intercollegiate athletes and health professional students in the Nursing, Occupational Therapy and Physician Assistant programs are required to have insurance.

The university offers students an excellent 12-month health insurance policy at a very reasonable cost for the coverage. (See the current brochure on out Web site: www.towson.edu/dowellhealth-center for up-to-date premium information.) The plan uses the Dowell Health Center as the primary care provider while school is in session and covers services such as specialty referrals, diagnostic tests, surgical procedures, and hospital care not available at the Health Center. It will cover urgent care and emergency services at other facilities when the Health Center is closed or the student is away from school. Coverage for spouses and children of enrolled students is available. Policies can be purchased for the entire year (August 15 through August 14) for one term, or for summer only.

International Student Insurance Requirement

All international students on F and J visa status are required to have health insurance that meets the university's minimum standards. These students are automatically enrolled in the university-sponsored insurance plan and the cost is billed to their financial account. Students with their own comparable insurance may submit a waiver application, along with their plan benefits in English and proof of payment. If the waiver is approved, the insurance charge will be refunded.

NOTE: Waiver deadlines for international students are September 15 (fall term), February 15 (spring term), and June 15 (summer sessions). Waiver applications submitted after the deadline will not be considered and no refunds of insurance premiums will be possible. Waiver applications must be re-submitted every fall term. See the Health Center Web site for waiver standards and application forms: www.towson.edu/dowellhealthcenter. For additional information, contact the Dowell Health Center.

HOUSING AND RESIDENCE LIFE

Newell Hall, Lower Level, 410-704-2516

The Residence Life program provides living facilities for students and promotes educational programs and activities which support the academic mission of the university. The Residence Life staff and the University Residence Government strive to maintain an environment conducive to the individual's achievement of academic goals and development of life skills.

Housing and Residence Life offers a variety of living options to accommodate the diverse needs and interests of students.

INTERNATIONAL STUDENT AND SCHOLAR OFFICE

Administration Building 246, 410-704-2421

Fax: 410-704-6040

e-mail: isso@towson.edu

www.towson.edu/isso

The ISSO provides services to the approximately 800 international students at Towson. These students represent about 100 different nations. Approximately 75 percent of international students are here for two to five years, working on an undergraduate or graduate degree. The ISSO also provides services for about 25 foreign faculty, exchange scholars, and visiting faculty each year.

42 Student Life and Campus Services

The International Student and Scholar Office (ISSO) provides the following:

- Documents and legal expertise that make possible the enrollment of nonimmigrant students
- Advising services necessary for those international students to maintain legal status while in the United States, and to understand applicable federal government regulations and university
- Programs that assist international students in their transition to life in the United States and provides them with tools for success in the American academic environment
- Advising to students regarding personal, academic, legal, career, intercultural communication, and cross-cultural adjustment
- Liaison to and advocacy for students with government agencies and university offices
- Programs and ongoing services aimed at enhancing international students' social life here, encouraging their interaction with American students and community members, and promoting ways that they can become involved and appreciated for their unique cultural perspectives
- Coordination of appropriate services for international students in legal, medical and family emergency situations
- At the beginning of each term, the ISSO holds a two-day orientation program designed to assist new students by:
- · describing typical difficulties in the cross-cultural adjustment cycle (including culture shock)
- · suggesting tips for successful cross-cultural adjustment and effective intercultural communication
- offering information about the university and the community
- introducing key university service-providing offices
- · answering questions about settling into accommodations
- suggesting preparations for success in the new academic envi-
- helping in the transition through the creation of a support net-
- offering opportunities to build friendships in the first week on campus

The ISSO International Ambassador Program invites students to (I) volunteer their time at the beginning of each term to assist new students, (2) help the ISSO facilitate orientation programs, and (3) mentor new international students throughout their first year at TU. International and American students who are interested are encouraged to contact the office for an application.

The ISSO coordinates other activities for international students throughout the year:

- educational, cultural and social activities to foster interaction and improved appreciation among national/cultural groups and the Americans on campus
- trips to the Baltimore Inner Harbor, MVA, and the Social Security Administration (for the new arrivals)
- trips to Washington, New York, Philadelphia and/or Lancaster during term breaks
- an International Festival and other culture-sharing programs each year, in cooperation with the student-led International Student Association

International students are welcome to provide input on the activities offered.

The office publishes ISSO News, a quarterly newsletter, and maintains an e-mail distribution list for all international students. We use these means to communicate pertinent immigration information, recreational offerings, job and travel opportunities, ISSO events and services, and other news for or about the international population on campus. Students who are not receiving ISSO News should submit an up-to-date local address through the university's

Most of the staff are available Monday through Friday from 9 a.m. to 5:30 p.m. Some scheduled in-person and phone appointments are available after 5 p.m. to students with urgent needs. Any student who has an emergency outside of normal business hours may contact the University Police at 410-704-2133. The police may assist or may contact an ISSO staff member at home.

JUDICIAL AFFAIRS

410-704-2057

When a student is alleged to have violated the Code of Student Conduct (see Appendix F), this office interviews and counsels students in the discipline process and facilitates the student appeal process. The office also serves as a resource to faculty and administrators.

NATIONAL TESTING OFFICE

Administration Building 232B

410-704-3023

Fax: 410-704-4699

The National Testing Office provides a convenient testing site for Towson University students and individuals in the community who are required to take standardized exams. Examples of tests offered on an ongoing basis are:

- AMP TESTS Various certification programs • GRE Graduate Record Examination LSAT Law School Admission Test MCAT Medical College Admission Test
- PRAXIS Professional assessment for beginning teachers

Special test administrations are also provided, upon request, to accommodate individuals with documented disabilities.

Publications provided by the national testing companies listed above are available at the National Testing Office. This information includes test registration materials.

NON-NATIVE SPEAKERS OF ENGLISH

English Language Center

7800 York Road, Room 206, 410-704-2552

Fax: 410-704-2090

The English Language Center offers intensive English instruction to students who are preparing for admission to the university or for international and permanent resident students who are admitted to the university and want to further develop their English skills. Courses are designed to develop a student's speaking, listening, reading and writing skills. A TOEFL preparation course and additional courses on pronunciation, vocabulary development and American culture are also offered. A computer resource laboratory and a listening area are available for students who want to work on specific language areas, such as grammar, listening, reading or vocabulary development. The center also welcomes individuals who are not preparing for university study but who wish to improve their language skills for employment purposes.

English for Speakers of Other Languages (ESOL) English Department, Linthicum Hall 218H, 410-704-2944

The English for Speakers of Other Languages (ESOL) testing coordinator tests and places non-native speakers of English admitted to the university in preparatory college writing courses. When necessary, students are placed in ESOL classes or special sections of Writing for a Liberal Education.

OneCard - TU I.D. CARD University Union 118, 410-704-2284

http://onecard.towson.edu

The university issues a photo I.D. card to students, faculty and staff called the OneCard. The initial OneCard is free and does not have to be renewed. Students should keep the OneCard with them since it is necessary for using services at Cook Library, the Burdick Fitness Center and athletic facilities. The OneCard can also be used as a debit card. A Retail Points account, accessed through the OneCard can be used to purchase books, supplies and gift items at the University Store. A student can use the same Retail Points account on select vending machines, washers and drivers, Copies Plus, Health Center, and the Auxiliary Services Business Office. Additionally, the OneCard can be used for discount food purchases through use of a Dining Points account. Students save 5 percent on food purchased using Dining Points at all Dining Services locations including Paws. Students with a meal plan will use the card for access to the dining halls. A student's Meal Plan account information can be accessed through the OneCard Web site. The OneCard provides access to some residence halls and academic labs. Students may also use the OneCard for complimentary access to many athletic and entertainment events. Manage your OneCard account online at http://onecard.towson.edu.

ORIENTATION AND NEW STUDENT PROGRAMS University Union 325, 410-704-2309

All new first-year and transfer students attend an Orientation. The Office of Orientation and New Student Programs provides programming throughout the first term to help make your transition to Towson a smooth one. The program is specifically designed to meet the needs of newly admitted students from an academic and co-curricular perspective.

College brings many new academic expectations. Orientation allows you to meet with faculty and staff to help ensure your academic success. Your student Orientation leader will be a valuable resource during the program and throughout your first term, A strong co-curricular experience is key to your overall success at Towson. Orientation connects you with services and programs that can help you succeed.

Orientation for all newly admitted freshmen takes place in late August just before the start of classes and leads directly into September Celebration. Each student is part of a First-Year Experience group that includes an academic adviser and an Orientation leader. Before attending Orientation, all freshmen are scheduled for one day in July for the TU CARES (Campus Advising and Registration for Entering Students) program. This is a brief program that allows you to meet with an adviser to confirm your fall schedule and helps you take care of various forms of business, such as obtaining your TU OneCard (student I.D.), updating your health immunization records, etc. You will receive information about your Orientation program at that time.

New transfer students attend a one-day comprehensive Orientation in July. This program includes informational sessions about academic and student life, campus resources, academic advising and registration.

PARKING

Auxiliary Services Business Office University Union 118, 410-704-2284

http://parking.towson.edu

The university offers student parking on 13 lots and in three parking garages. The policy in effect when this catalog was published is that freshman-resident students are not eligible to park on campus. There are a limited number of exceptions to this policy. View the parking Web site for more information on Resident-Freshman Student Exceptions.

Additional information will be provided on the parking Web site by July. All other resident students may apply for a permit in one of three ways: online, by mail, or in person. We recommend purchasing parking permits online through the parking Web site or by mail to avoid waiting in line. Permits are also sold in person at the Auxiliary Services Business Office in the University Union, Room 118.

Free shuttle buses are available for on-campus transportation from parking lots to all university buildings during the fall and spring terms. An escort service is provided from sunset to sunrise during the fall and spring terms.

The university provides special parking areas for motorcycles, which are subject to the same rules and regulations as other vehicles.

For security purposes, owners of soft-top vehicles are urged to purchase a window-sticker type permit in place of the hangtag.

For additional information on parking, including a campus map, or to purchase a parking permit, visit the Web site.

POST OFFICE

University Union Ground Floor, 410-704-2260

The Post Office provides window service from 9 a.m. until 4 p.m. Monday through Friday. Resident students' mailboxes are at the Post Office, so they should make it a habit to stop by often. New resident students need to visit the Post Office soon after they move in to receive their mailbox combination.

SHUTTLE BUS SERVICE

Towson offers an on-campus shuttle service during the fall and spring terms. The on-campus bus circles the campus, taking students between the classroom buildings and the parking lots. Visit our Web site: http://parking.towson.edu and click on the "on-campus transportation services" link for current shuttle bus and mobility van information, including maps and hours of operation.

SPEECH-LANGUAGE-HEARING CLINIC

Van Bokkelen Hall 001, 410-704-3095

Diagnostic and therapeutic services of the Speech-Language-Hearing Clinic are available, without charge, to all members of the Towson faculty, staff and student body. Speech, hearing, and language evaluations for all ages and all types of communicative disorders and differences are available. Audiological services include complete hearing testing, central auditory processing testing, hearing aid evaluations and hearing aid dispensing. Audiologists evaluate and fit conventional, programmable, and digital hearing aids and assistive listening devices, which can be purchased from the clinic. Appointments can be made by phoning 410-704-3095.

Therapeutic services are provided for children and adults experiencing difficulty in comprehending and using oral communication. Treatment is provided for the following types of communication disorders and differences: language, articulation, cleft palate, stuttering, hard of hearing, auditory processing, voice and aphasia. Services are also available to improve comprehension and use of Standard American English.

STUDENT GOVERNMENT ASSOCIATION

University Union 226, 410-704-2711

The Student Government Association (SGA) recognizes more than 100 clubs and organizations. These groups provide students with a variety of leadership opportunities and experiences, including academic groups, recreational sports, Greek organizations, honor societies, and cultural, ethnic and religious groups. SGA is the advocate of students, providing educational activities, social awareness and entertainment.

Clubs and Organizations

A complete list of Student Government Association clubs and organizations is available in the Office of Student Activities and also appears in the Student Handbook. For more information about involvement in clubs and organizations, contact the SGA or the Office of Student Activities.

Students representing TU at events, conferences, or other official activities should obtain a Notification of Absence from Class Form from the Office of Campus Life, University Union, room 217, to be given to their instructors to verify the excused absence. Students are encouraged to notify faculty of anticipated class absences as soon as they learn they will be missing class.

STUDENT DAY CARE CENTER

Lida Lee Tall, 410-704-2652

E-mail: studentswithchildren@towson.edu

The Student Day Care Center was established, and continues to be assisted financially, by the Student Government Association. The

44 Student Life and Campus Services

center provides developmental programming as well as good care for children ages 2 through 5. The center is open in conjunction with the university's academic calendar from 7:30 a.m. to 5:30 p.m. and offers children opportunities for physical, emotional and cognitive growth.

Due to licensing restrictions, space is limited. The center accepts applications to its waiting list whenever parents are ready to submit them, accepting children on a first-come, first-served basis, giving priority to the children of full-time university students. Contact the center for further information.

Students with Children

The Students with Children organization was founded by students and parents at the Student Day Care Center to involve other student families on campus in events and activities, such as parenting discussions, used seasonal clothing sales, and the Scarecrow Party. The goal of the group is to expand the reach of the Student Day Care Center beyond the confines of the space available and the ages for which it is licensed. For more information, call Harriet Douthirt, 410-704-2652.

TICKET OFFICE

University Union, Ground Floor, 410-704-2244

The Ticket Office provides the university community with a variety of ticket services for both on-campus and area events. Tickets for student-sponsored events, including those offered by the Campus Activities Board (CAB) and Student Government Association (SGA), are sold through the Ticket Office, which is located on the first floor of the University Union. The Ticket Office is an outlet for Ticketmaster, selling tickets for attractions at the Baltimore Arena, Oriole Park at Camden Yards, and other venues. The Ticket Office also sells discounted movie passes and Mass Transit (bus and Light Rail) passes.

UNIVERSITY STORE

University Union, Ground Floor, 410-704-BOOK (2665) http://store.towson.edu

The University Store carries all required and recommended textbooks as well as a selection of general reading material including reference/study aids, current fiction and nonfiction, children's books, newspapers and magazines. Other products sold in the University Store include basic school/art supplies, computer supplies and software, film and film processing, health and beauty aids, snacks and beverages, gifts and greering cards, music CDs, DVD movies and dry cleaning services. Official Towson University emblematic merchandise such as imprinted adult and children's apparel, stationery and giftware distinguish the University Store from other general retail outlets. The approved Towson University class ring is also available through the University Store. The store accepts VISA, MasterCard, Discover, OneCard Retail/Vending Points, personal checks with appropriate picture I.D., and cash. Visit the University Store Web site at http://store.towson.edu for information about textbooks, the Used Book Buy-back, refund policy, hours, caps and gowns, to order textbooks and TU merchandise, and to order textbooks online.

UNIVERSITY UNION

Information Desk, 410-704-4636

The University Union is the hub of co-curricular activities and programs for the campus, as well as home to a multitude of student services. Generally, the educational, cultural and social programs held in the Union are intended for the entire academic community. The Union is a place where students, faculty, staff and alumni can relax, interact, and share common interests and experiences. The following offices and services are located in the University Union:

First floor—A full-service post office; a full-service Chevy Chase bank branch; the University Store; Paws, student center with billiards, food, entertainment and music, and a cyber café with madeto-order deli and grill items, gourmet coffee and pastries; the Auxiliary Services Business Office and the Auxiliary Services Administration suite; Art Services; the Ticket Office; and the financial operations office of Event and Conference Services.

Second floor — The University Union Information Desk; the Susquehanna Food Court, a mall style eatery; the Patuxent Grill, which offers high-quality dining at reasonable prices; the Auxiliary Services program suite; the offices of the Student Government Association (SGA); the Office of Student Activities, which includes Commuter Affairs, Greek Life (fraternities and sororities), the Student Leadership Programs, and Off-Campus Housing Programs; the office of the Black Student Union; the Campus Ministries Office; the Office of Diversity Resources; the Potomac Lounge, a comfortable study and lounging spot; the Art Gallery; the offices of Event and Conference Services, where reservations for rooms and other campus facilities may be made and audiovisual/technical services requested; and the University Union

Third floor — Orientation and New Student Programs; The Towerlight, Towson University's student newspaper; the African American Cultural Center; the Women's Center; the offices of the Students Achieve Goals through Education (SAGE) Program; the Queer Student Union; several multipurpose conference rooms; and a number of nooks and crannies for contemplation and conversation.

VETERANS OFFICE

Enrollment Services Center 233, 410-704-3094

The office provides coordination between veteran/dependent students and the regional office of the Department of Veterans Affairs. The coordinator establishes procedures and prepares forms and correspondence for eligible students to receive educational benefits. Additionally, the officer monitors class attendance and evaluates academic progress to ensure that those receiving benefits maintain satisfactory progress. This officer also supervises the employment of VA work/study students.

Students taking courses at other institutions concurrently with courses at Towson University may be certified for both institutions by the TU coordinator.

Students may visit the office daily from 8:30 a.m. to 4 p.m. but may wish to call for an appointment.

The normal time for the Regional Office of the Vererans Administration to process an enrollment certification is six weeks. Certification is not automatic. The proper VA forms must be completed each term.

NOTE: Students cannot be certified for courses until they register.

Withdrawals

When students decrease unit load during the course of the term, they must notify the TU Veterans Office. Failure to do so could result in termination of benefits and a financial debt to the U.S. Department of Veterans Affairs.

FX Grades

Students who receive an FX at the end of a term should contact the university office immediately.

Change of Program

Veterans may change their academic program once without VA approval. For more than one change of program, however, veterans are required to undergo counseling by the Veterans Administration. A Change of Program Form must be filed whenever veterans make a curriculum change in which any of the courses for which VA benefits were previously received do not transfer into the new program or whenever students declare a new major or matriculate at a different institution.

Independent Study

Payment for independent study courses will generally be made on a tuition and fees basis only. Monthly rates may be paid for such courses, provided that more than half of the total number of units for that term are in courses requiring class attendance. Check with the office to determine eligibility to pay for independent study courses.

Advance Payment

Advance payment is the allowance for the first two months of an enrollment period. All tuition and fees are due according to regular university deadlines and cannot be deferred pending receipt of advance payment. Students may apply for advance pay only if they will be enrolling at the university on at least a half-time basis and meet established deadlines. There must be one full calendar month break between terms to apply for the advance.

Students may request advance pay for the regular academic terms in writing on the Declaration of Intent Form. The student must be registered one month before the term commences to qualify for advance payment.

Approved Program

The VA will pay veterans only for the courses listed in the Undergraduate Catalog that are required for a degree and for programs that have been approved for study by the Veterans Administration. If students take courses in addition to those listed for their approved program, they will not be entitled to receive VA benefits for them.

VICE PRESIDENT FOR STUDENT AFFAIRS 410-704-2055

The administrative responsibility for the supervision of the co-curricular life of the university rests with the vice president for Student Affairs and staff. The university provides a wide range of support services and programs designed specifically to meet the outside-ofclass and co-curricular needs of its students. Student Affairs directly supports the total educational experience of students. The operating philosophy of Student Affairs rests upon the belief that outside-of-class activities and co-curricular learning complement the formal learning that takes place in the classroom and are part of the student's total education immersion. Efforts are made to ensure that services and programs are planned in such a way so as to be student centered and educational in nature.

Student Affairs offers the student LIFE Line designed to assist students with any question they may have about the university. The LIFE Line is staffed and ready to assist callers Monday through Friday, 8:30 a.m. until 5 p.m. After these hours, a voice-mail message can be left and will be responded to the next business day. Should students need to call, the number is 410-704-LIFE (x45433). In addition to the LIFE Line, Student Affairs has a general e-mail account where any question about the university can be directed. The e-mail address is: studentaffairs@towson.edu. All

inquiries will be responded to promptly.

WOMEN'S CENTER

University Union 311, 410-704-2666

The Women's Center is located on the third floor of the University Union and consists of a lounge, browsing library and office. The drop-in lounge is available to all for study, conversation or a moment of relaxation.

A wide-ranging referral system offers information about campus and community groups and organizations, individuals with skills and expertise in specific areas, and individual professionals in the fields of medicine, law, mental health, etc. The center provides a bulletin board where job notices, conferences, and newsletters relating to women from all over the country are posted.

Throughout the academic year, a variety of programs will be offered free of charge to the public. The center serves as an advocate and liaison for women students, staff and faculty.

Academic Resources

Towson offers its students many opportunities to enhance their lives with academic support and extracurricular activities. Some of these programs will help students with their studies, while others will provide cultural enrichment.

ACADEMIC ACHIEVEMENT CENTER

Administration Building 234-235

Phone: 410-704-2291 Fax: 410-704-3216

Terri Massie-Burrell, Director

The Academic Achievement Center (AAC) coordinates tutorial services, placement testing and study skills at Towson University. The AAC is a comprehensive undergraduate academic support program and university-wide resource serving the entire student population. Its mission is to teach the necessary skills and strategies to help students become successful and independent learners. We provide student-centered tutoring services, placement testing for mathematics, reading and writing, and supplemental educational opportunities such as study skills workshops.

Tutoring Services

Peer tutoring support and strategic study skills are provided for Towson undergraduates. Tutoring is available mainly in small group sessions, for most lower-division and a select number of upper-division courses. Services are free of charge, available on a first-come, first-served basis and depend upon the availability of a qualified tutor. Students can request up to one hour of tutoring weekly per course. The tutor training program is internationally certified by the College Reading and Learning Association (CRLA) through level-3/Master tutor.

Tutorial Support Network Services

Tutoring at the AAC, Administration Building 235B Coordinator: Alicia Medina, 410-704-2291 Provides drop-in and appointment-based tutoring to students enrolled in lower-division business, economics, modern language, and behavioral and social science courses.

Computer Science Lab, 7800 York Road, Room 307 Coordinator: Richard Webster, 410-704-2424 Utilizes drop-in tutoring to assist students enrolled in computer science courses.

Mathematics Lab, Stephens Hall 306 Coordinator: Stefanie Hunt, 410-704-2418 Assists students who are enrolled in lower-division and some upper-division mathematics courses via drop-in tutoring.

Natural Sciences Lab, Smith Hall 538 Coordinator: Liina Ladon, 410-704-3054 Assists students who are enrolled in biology, chemistry, physical sci-

ence and physics courses through drop-in tutoring, as well as computer-assisted instruction.

Music Tutoring Lab, Center for the Arts 384 Coordinator: Jonathan Leshnoff, 410-704-2845

Provides tutoring for students enrolled in undergraduate music literature, theory and musicianship courses. Tutors are matched with students to work individually on select, pre-determined topics.

Study Skills Assistance

Academic Success Strategies Workshops are offered each term and address the following topics: learning style preferences, goal setting, time management, listening, note-taking, textbook skills, memorization, testing skills, math anxiety, assessment of academic performance and preparation for finals. Individual appointments may be scheduled if necessary. Informal diagnostic academic support is also available to any student who wishes to achieve a level of proficiency in fundamental knowledge and acquire necessary strategies for success in college.

The AAC also provides supplemental computer-assisted instruction in study skills. CASSI, a study strategies inventory, allows students to evaluate their study habits and attitudes in several areas including motivation, anxiety, information processing, selecting main ideas and test-taking. Enrichment strategies are recommend-

ed after students complete CASSI.

Placement Testing

The AAC administers the competency testing. All entering freshmen, both first-year and transfer, are required to demonstrate competence in the basic skills of reading, writing and mathematics.

Minimum scores of 500 on the Math and/or Verbal sections of the SAT-I, minimum scores of 21 on the Math and/or Verbal sections of the ACT, and some transfer courses may verify student competence in these skills. If students do not meet these requirements, the appropriate sections of the Accuplacer test, published by The College Board, will be administered. The SAT-1 and ACT scores must be officially submitted to Towson University's Admissions Office.

Only those who need to be tested are contacted. For those students who are not exempt based on the above criteria, placement testing must be completed before the student attends TU CARES. Based on test results, the student may be placed into developmental courses. Students who do not achieve minimum proficiency (i.e., fail to achieve a minimum grade of S or C) in any developmental course requirement are subject to a review of academic records and mandatory advising.

If you have not received notification of testing and are not exempt based on the above criteria, or if you have questions concerning the placement testing program, please contact the AAC at the number above.

OTHER TUTORING SERVICES

Writing Lab Lida Lee Tall 308 410-704-3426

Provides tutoring for writers at all stages of the writing process and in all courses within the university.

Writing Support Program Linthicum 201B 410-704-2857

Assists students with sentence-level and grammar skills (ENGL 251/ENGL350). This service is for native English speakers.

Computer Lab Linthicum Hall, room 207 410-704-3834

Provides computer software for writing skills analysis/improvement. This service is for native English speakers.

ESOL Writing Services Administration Building 216F 410-704-5016

Assists students, for whom English is a second language, with sentence-level and paragraph/essay-level skills.

Online Writing Support www.towson.edu/ows Linthicum 201B 410-704-2857

Provides online assistance and interactive exercises for grammar and punctuation skills.

ACADEMIC ADVISING Lecture Hall, 410-704-2472

This office coordinates all undergraduate academic advising, including services offered by the Academic Advising Center and the Department of New Student Registration, Towson University is committed to providing comprehensive advising designed to enrich the educational experiences of every student. Towson offers a unique advising program for freshmen called the First Year Experience, and a similar program for newly admitted transfer students called the TRANS-AM Program. Both of these programs are coordinated through the Academic Advising Center. All students are encouraged to seek advising at any time during the academic year. Students who have chosen a major should go to the appropriate academic department to be assigned a faculty adviser,

Academic Advising Center Lecture Hall, 410-704-2472

Lynne Dowell, Director

The Academic Advising Center supports the advising needs of the university's students and faculty. This center serves as a clearinghouse for information about the university's policies, procedures and requirements. Its advisers help students review rheir progress toward the fulfillment of GenEd requirements and advise students about developing academic goals, planning programs, selecting courses, investigating majors and minors, clarifying catalog year choices, and meeting standards. Students who have completed 75 units receive an audit of their progress toward graduation. In addition, the center advisers conduct special advising for students who have received academic warnings or who are on academic probation. Students who have questions or concerns prior to meeting with their faculty adviser can meet with trained peers through the Student Academic Advising Program, Lecture Hall, 410-704-3497.

New Student Registration Lecture Hall, 410-704-2472

As new freshmen matriculate at Towson University, they work with the Office of New Student Registration to select courses to meet their goals and interests. Professional advisers coordinate the first term's course schedules with information supplied to New Student Registration by the student. New students meet with professional and faculty advisers during TU CARES, a one-day summer advising program, to confirm their schedules.

The First-Year Experience is a unique advising program for freshmen which pairs incoming students with a faculty member or professional adviser who has received special training in the Faculty Institute. Together, advisers and students work throughout the first year to orient the new college student to the university and to identify and use resources that will enhance the student's educational experience. The relationship between the FYE adviser and the new student helps develop successful, active members of the university community who are able to make effective educational decisions.

Following the First-Year Experience, students who have chosen a major will be advised by faculty advisers within the major departmenr. Students who are still exploring their choice of major will be re-assigned to the professional advisers within the Academic Advising Center.

Transfer students are assigned to professional advisers or faculty members for the one-term TRANS-AM (Transfer Advising and Mentoring) Program specially designed to meet the needs of experienced students in a new environment.

CENTER FOR INSTRUCTIONAL ADVANCEMENT AND TECHNOLOGY (CIAT)

Cook Library 405, 410-704-2005

The Center for Instructional Advancement and Technology (CIAT) supports excellence in teaching and learning by providing Towson University faculty the opportunity to investigate and apply sound learning theory and technology to instruction. The CIAT staff works with faculty to design curriculum and courses; develop course materials; implement teaching and learning strategies; and to identify and use appropriate technology applications that apply to teaching and learning. The three supporting functions of CIAT are: instructional design, technology support and multimedia applications.

OFFICE OF TECHNOLOGY SERVICES

Help Center, Cook Library 5, 410-704-5151

E-mail: helpcenter@towson.edu

www.towson.edu/ots

Through the cooperative efforts of several campus technology service departments, Towson University provides computing support for all university students, faculty and staff. The Help Center is the best source of information on available campus computing resources and a single point of contact for questions relating to e-mail, Web access, computing labs, networked classrooms, training and telecommunications. Help Center hours of operation are Monday through Thursday, 8 a.m. – 7 p.m.; Friday, 8 a.m. – 5 p.m.; Saturday, 10 a.m. – 6 p.m.; and Sunday, noon – 8 p.m.

If the best solution to a problem involves training or consulting, the Help Center may refer students to Student Computing Services (SCS), which operates the General PC Lab and the Student Computing Learning Center in Cook Library, room 35. SCS provides access to the Web and standard Microsoft applications (PowerPoint, FrontPage, Word, Excel, Access, etc.) as well as training and collaborative workspaces. For more information, visit www.towson.edu/scs.

FINE ARTS

Towson University, a center for the fine and performing arts in the Baltimore area, offers students a host of programs and concerts, many free of charge. In addition, Towson is home to the Maryland Arts Festival, an array of live theater, concerts, films, lectures and musicals.

Art Galleries

Asian Arts & Culture Center, Center for the Arts 2038 410-704-2807

www.towson.edu/asianarts

The Asian Arts & Culture Center at Towson University promotes the art and culture of Asia through outstanding programming designed to benefit students, faculty, artists, the local community, and the state of Maryland.

To make art an integral part of every student's education, the Asian Arts & Culture Center's activities include art exhibitions, concerts, lectures, films, workshops and demonstrations that are available to students and the public throughout the year.

The Asian Arts Gallery exhibits are used by many faculty members as part of their teaching programs. To students of Asian art history, philosophy, history and language, a visit to the gallery provides an opportunity to gain direct contact with art objects and a deeper understanding of the culture they are studying. For those taking studio art courses, the gallery is a place to explore different techniques and develop esthetic sensibilities. Local schools, libraries and service organizations may borrow selected items from the collections for their educational programs.

Holtzman Art Gallery, Center for the Arts M.F.A. Project Space, Center for the Arts Towson Commons Gallery, York Rd.

University Union Art Gallery, University Union, Second Floor The galleries present a variety of exhibitions to the Towson community and metropolitan region, including student and faculty exhibitions as well as national and international exhibitions. The Holtzman Art Gallery emphasizes contemporary art by national and international artists; the new M.F.A. Project Space will focus on thesis exhibitions and exhibitions that pertain to the M.F.A. program; the Towson Commons Gallery hosts student and faculty exhibitions; while the University Union Gallery features works by regional and national artists.

Lieberman Collection, Honors College Lecture Hall, Lieberman Room

The Lieberman Collection of 40 oil paintings, sculptures, ink drawings, lithographs, photographs and art books was donated to Towson University by Dr. and Mrs. Sidney Lieberman in memory of their sons. The collection is on display in the Lieberman Room, located in the Lecture Hall. Used primarily by students in the Honors College as a quiet place to read or study, the room is open to the public during the university's normal hours.

Dance

The TU Dance Company is considered one of the premier university dance companies in the mid-Atlantic region. The company presents annual concerts and regularly performs works by internationally and nationally recognized choreographers, as well as classical ballets. The Department of Dance produces the faculty-alumni concert, dance majors performance project, and Sigma Rho annual dance showcase.

Film

The TU Film and Video Society offers a free film series during the fall and spring terms. Sponsored by the Department of Electronic Media and Film, the films are screened in Van Bokkelen Auditorium.

Music

The Department of Music's instrumental and vocal ensembles—including University Chorale, Vocal Jazz Ensemble, Choral Society, Orchestra, Symphonic Band, Percussion Ensemble, Woodwind Ensemble, Brass Ensemble, Guitar Ensemble, Jazz Ensembles (large and small), Commercial Ensemble, Chamber Ensembles and Early Music Ensemble—present more than 50 concerts each year in the Harold J. Kaplan Concert Hall at Towson's Center for the Arts. Many concerts are free of charge; others offer discounts to students and faculty.

Theatre

Towson presents many productions each year in one of four campus theatres and other local venues. Occasionally our M.E.A. program performs at the Baltimore Theatre Project. The productions range from Shakespeare to musicals to new experimental performances, featuring Towson theatre majors, and talented students from other disciplines. The price for each production varies, but students pay a discount rate.

INTERNATIONAL EDUCATION

Office of International Programs Administration Building, Second Floor 410-704-2919

Fax: 410-704-4646

E-Mail: internationaleducation@towson.edu

www.towson.edu/intledu

Dean Esslinger, Associate Vice President, International Programs Elizabeth T. Lambert, Director, International Financial Services G. Frank Mullen, Director of Special Projects

International Programs is the central academic office for the coordination and supervision of the university's international programs and activities. It plays an important role in the university's mission to internationalize the campus community. The office coordinates faculty and student exchange programs with numerous partner institutions in a variety of foreign countries. It oversees the functions and policies of the International Student and Scholar Office, the International Undergraduate Admissions Office, the English Language Center, the Summer in Maryland Program for international students and the Study Abroad Office. It seeks to promote better understanding of international and cross-cultural issues within the context of education to the university and external community, including schools, businesses, local government and the University System of Maryland.

One such initiative is the Maryland International Education Association (MIEA). MIEA membership comprises two-year and four-year higher education institutions across the state of Maryland. It provides a statewide platform for networking between Maryland faculty and university administrators concerned with international issues. The mission of MIEA is to serve as a forum to discuss and plan modes of cooperation and to provide opportunities for sharing resources and organizing activities throughout the state. MIEA organizes a broad range of programs serving the goal of coordinating the response of higher education to the global challenges of the 21st century.

In its commitment to internationalization, the International Programs Office provides a variety of services to international students and scholars, to the university student body, faculty and staff, and to the community. It also provides consultation and referral support to other academic departments, local government offices, and businesses.

To obtain specific information about any of the international programs and services available through Towson University, contact the International Programs Office or one of the offices listed below. For the names and locations of TU's international exchange partner institutions, refer to the Study Abroad section in this catalog, under University Curriculum.

LIBRARY/MEDIA SERVICES

Albert S. Cook Library 410-704-2461

The Albert S. Cook Library, located near the center of Towson University's campus, serves as the university's hub of information resources. The library's collection of nearly 574,096 volumes, 868,000 microforms, and more than 4,000 print and electronic periodicals has been selected to support Towson's academic curriculum. More than 80 online databases offer students and faculty members access (from on-campus and remote locations) to journal article citations, statistics, business data, news, legal information and increasingly, full-text articles.

The Media Resources Services Lab, complete with listening and viewing stations, offers approximately 15,870 films, videos, DVDs, recorded satellite resources, video conferences, cassettes, compact disks, and CD-ROMs. Cook Library is a depository for Maryland state documents, owns a notable collection in education and has special holdings in early English Literature, early American periodicals, and in the field of women's studies.

The online catalog accesses Cook Library's entire collection as well as the collections of the other University System of Maryland libraries. Cooperative borrowing and document delivery agreements among USM schools ensure that materials can be shared. Reference librarians help patrons navigate the extensive array of information resources.

Whether at the reference desk, in the classroom, or by appointment, Cook Library reference service is tailored to meet the needs of individual library users and is aimed at enabling them to locate, evaluate, and use print and electronic information resources effectively.

Housing and Residence Life

Newell Hall, 410-704-2516 Jerry Dieringer, Director

HOUSING AND RESIDENCE LIFE

Housing and Residence Life provides living facilities for full-time degree candidates and promotes educational programs and activities that support the university's academic mission. The Housing and Residence Life staff and the University Residence Government strive to maintain an environment that encourages academic excellence, community responsibility and individual development.

Towson University offers on-campus housing for approximately 3,800 students.

- Resident students must sign a contract for university housing, renewable at the option of the university, and must carry a minimum of 12 units. Priority is given to undergraduate stu-
- Residents must vacate the residence halls after they complete their final term examination.
- Housing facilities are available to students only when classes are in session. Some special interest programs are open year-
- The Housing and Residence Life staff offers assistance and programs for resident students.
- A number of special living options are available, including alcohol-free areas, special quiet options, honors housing and the International House. All buildings are non-smoking.

University Housing

Glen Complex

Connected to the rest of the campus by a bridge that crosses over the Glen, this complex includes four high-rise buildings housing about 425 students each. All student accommodations are suites, with two rooms sharing a bath. There is a lounge area on each floor and a centrally located dining hall in the complex.

Newell Hall

Completely renovated in 1997, Newell was the first residence hall built on campus. It houses 211 students with a number of honors students.

Prettyman and Scarborough Halls

These low-rise residence halls enclose a garden courtyard and house approximately 160 students each.

Residence Tower

This 13-story, high-rise residence hall accommodates approximately 455 students in double and single rooms. There is a lounge area, study room and kitchen on each floor, and a recreation room and laundry facility on the lower level of the building. The Residence Tower accommodates students requesting the International House. Both nine- and 12-month housing options are available for international students.

Richmond Hall

Designated as the university's honors residence hall, Richmond houses 107 students. Richmond was one of the first residence halls built on campus. It was completely renovated in 1998.

Towson Run Apartments

These one-, two-, and four-bedroom apartments for upper-level undergraduate students are fully furnished. In addition to double bedrooms, each apartment has a full kitchen and living/dining room. Approximately 420 students are housed at Towson Run. Nine-month housing is available. For students electing this option, the apartments are open during term breaks.

Ward and West Halls

These twin low-rise residence halls for men and women accommodate about 60 students each. A large study area is located on the lower level of each building.

On-Campus Apartments

Burkshire at Towson University 10 W. Burke Avenue 410-324-8108

University-owned and located on campus at the corner of York Road and Burke Avenue, the Burkshire offers one bedroom, one bedroom with den, and two bedroom with den apartments featuring a full kitchen, washer and dryer, air conditioning, cable TV, and free storage locker. The Burkshire's apartments are available to students who are juniors with a 2.85 GPA or above, seniors, graduate students, married students, students 23 years or older, and faculty and staff. The Burkshire is a good choice for students interested in a quiet nontraditional housing alternative.

Millennium Hall Capstone Properties 8000 York Road 443-275-4000

Millennium Hall, Towson University's five-story residence building, offers housing for 408 sophomores, juniors and seniors in four-bedroom furnished apartments. Owned and managed by Capstone Properties, the building is Towson's first privatized residence hall. Each four-bedroom apartment accommodates four students and is fully furnished, with a living/dining room and full kitchen. Each bedroom has a telephone jack, cable TV, and computer connection. The building is air-conditioned and has a laundry room on the first floor. All inquiries should be directed to Millennium Hall.

Expenses

Expenses are estimates at the time of printing this catalog and are subject to revision. NOTE: Notwithstanding any other provision of this or any other university publication, the university reserves the right to make changes in tuition, fees, housing and boarding costs, and other charges at any time such changes are deemed necessary by the university and the University System of Maryland Board of Regents.

APPLICATION AND ENROLLMENT FEES

Each applicant must pay a nonrefundable application fee of \$45 for fall 2005. No application will be processed without this fee or a valid waiver.

Once students are admitted for fall 2005, a nonrefundable \$300 enrollment fee must be forwarded to the Office of Admissions to reserve a place in the class.

TUITION

The University System of Maryland Tuition Policy, approved by the Board of Regents on June 11, 1993, established non-resident tuition at the calculated actual educational cost at each institution within the system and based the increase in the non-resident tuition and fees on that cost. Additionally, the policy recommends each institution to provide a four-year plan of tuition and fees for both resident and non-Maryland resident students. The two charges — Maryland resident and non-Maryland resident — shown below, provide the projected, per term rates for fall 2005 through fall 2008.

The tuition and fee increases for the next three years are based on fall 2005 rates. They do not include increases related to inflation and other cost factors not known at this time.

The tuition policy is available for review in the following offices:

- All academic departments
- Office of the Bursar
- English Language Center
- College of Graduate Studies and Research
- International Student and Scholar Office
- Office of the Registrar

MANDATORY UNIVERSITY FEES

A comprehensive Mandatory University Fee is charged to each student each term. This fee varies based on a student's tuition classification as indicated on the chart below. The fee supports student activities, athletics, university-funded construction and transportation.

TECHNOLOGY FEE

It is the university's goal to create a student-centered learning infrastructure that recognizes how technology is changing the methods for organizing and disseminating information, delivering student services and administering the educational enterprise. The Technology Fee is charged to each student each term and varies based on a student's tuition classification as indicated on the chart below. The fee is assessed as a \$72 flat fee for 12 or more units and \$6 up to 12 units.

OVERLOAD SURCHARGE FEE

A \$40 Overload Sucharge Fee will be assessed per unit for all units over 15 per term.

STUDENT CLASSIFICATION FEE

The \$200 Student Classification Fee is assessed one time to all degree candidates who have attained junior standing. The revenues from this fee are generally returned to the student's major department to enhance instructional equipment and facilities.

TUITION AND FEES PER TERM

NOTE: Notwithstanding any other provision of this or any other university publication, the university reserves the right to make changes in tuition, fees, and other charges at any time such changes are deemed necessary by the university and the University System of Maryland Board of Regents.

| Registration | Residence Status | Tuition* | Mandatory University Fee | Technology Fee** | Surcharge Overload Fee*** |

* Refer to Appendix C for tuition residency qualifications.

*** An Overload Surcharge Fee is assessed per unit for units over 15.

^{**} A Technology Fee is assessed at \$6 per unit for less than 10 units, and a \$72 flat fee for 12 or more units.

OTHER FEES AND EXPENSES

TEXTBOOKS

Students are expected to buy the textbooks for their courses. The average cost for textbooks is \$400 per term. Books and other supplies may be purchased at the University Store.

CENTER FOR APPLIED INFORMATION TECHNOLOGY (AIT COURSES)

AIT rates differ from university rates. For details see the CAIT Web site, www.towson.edu/cait.

PDS/STUDENT TEACHING/CLINICAL PRACTICUM FEES

Students enrolled in PDS internship, student teaching or a clinical practicum are charged a fee ranging from \$300 to \$700 per experience. Students must confer with their department chair or with the director of the CPP office in the College of Education to determine the exact fee. These courses are designated PRC, STT and CIN.

PRIVATE MUSIC LESSON FEES

Students enrolled in private music lessons are charged a fee of \$100 or \$260 per unit, depending upon course registration.

STUDY ABROAD FEES

Fees for the academic year 2005-2006 have not yet been approved. For your budgeting purposes only, the following are last year's rates. Please anticipate that the fees will be higher this academic year.

A fee of \$120 for the fall and spring terms, \$60 for summer, and \$50 for Minimester is assessed for Study Abroad programs.

PARKING FEES

All students are required to register their automobiles with the university in order to obtain a parking permit. Parking permits do not guarantee a space on campus; however, permits are required to park at any university parking lot or garage. Resident-freshmen are not permitted to purchase parking permits. There are limited exceptions to this policy. Information about parking policies is available on the parking Web site and at TU CARES, the university's advising and registration program for new first-year and transfer students.

Parking permits are available on a first-come, first-served basis and may be purchased over the Towson University Web page, http://parking.towson.edu. Campus maps and other parking-related information are also available at this Web site. In addition, parking permits may be purchased from the Auxiliary Services Business Office, University Union, room 118. Student parking permits go on sale in early August 2005 and in early December 2005 for spring term permits. For questions or additional information, please view the Web page listed above.

Parking Fee Schedule for Academic Year 2005-2006

- Evening permit (after 3 p.m., only M-F)
 - Annual \$75
 - Term (fall/minimester or spring/summer) \$48
- · All-day permit
 - Annual \$212
 - Term (fall/minimester or spring/summer) \$122
 - Summer 2005 \$433
 - Day passes \$4/day

HOUSING AND DINING FEES

Students interested in living on campus must make a \$225 non-refundable housing deposit by the established procedures and meet all deadlines. Failure to pay all room and board charges may result in forfeiture of residence hall space.

Depending upon the room and meal plan selected, students living on campus pay approximately \$3,560 per term for room and meal plan.

For those students who enter university housing after the beginning of a term, the charge will be prorated for the remainder of the term. (For exact rates, contact Housing and Residence Life.)

For the 2005-2006 academic year, resident students can choose from traditional all-you-can-eat weekly meal plans. Plans will range in size from 19 to 10 meals per week. Estimated cost will range from approximately \$1,785 to \$1,330 per term. All plans offer a choice of both kosher and standard menu items. An additional choice is the Unrestricted Meal Plan, which offers students the option of eating at any time and as often as they desire. Pricing is a little higher on this option, but it gives students complete flexibility to use meals at any time during the week.

Students living off-campus and at the Burkshire, Millennium Hall or Towson Run Apartments are not required to have a meal plan but may select any of the plans listed above, or may choose one of the Block Meal Plans which offer a specific number of meals per week each term at a fixed price.

Prices are subject to change.

HEALTH INSURANCE PLAN FOR U.S. CITIZENS

A voluntary health insurance plan designed especially for Towson University students is offered at a very reasonable cost. All students on intercollegiate athletic teams and health professions students (nursing, occupational therapy and physician assistant programs) are required to have health insurance. However, we strongly recommend that all students have health insurance to avoid the expense of large, unexpected medical bills. The school-sponsored plan is an excellent value that should be considered by any student needing insurance. It provides primary care services through the university's Dowell Health Center as well as coverage for hospitalization, emergency care, diagnostic tests and referrals to a large network of participating specialists. Billing statements will not reflect the cost of the insurance. Enrollment is handled directly through the insurance company. Should a student withdraw from the university after 31 days or more of active class attendance, coverage will remain intact for the policy year. Any questions regarding coverage should be directed to the Dowell Health Center, 410-704-4011. See Insurance under Health Services, Student Life and Campus Services or visit the Health Center Web site, www.towson.edu/dowellhealthcenter.

MANDATORY HEALTH INSURANCE POLICY FOR INTERNATIONAL STUDENTS

International students with an F or J visa type are automatically enrolled in the university-sponsored health insurance plan. The insurance charge will be reflected on your financial account. Although this insurance is mandatory, students with their own insurance who want an exemption (waiver) from the school plan must submit a waiver application as soon as they arrive at Towson with proof of insurance coverage that meets the university's minimum standards. Applications for a waiver must be submitted to the Dowell Health Center by the waiver deadline of the student's first term at Towson and each fall term thereafter. For information about the school-sponsored insurance, Towson's mandatory insurance policy for international students, or waiver applications, call Dowell Health Center, 410-704-2466 or visit the Web site, www.towson.edu/dowellhealthcenter.

BURSAR FEES

A \$75 late fee is assessed to any student who pays after published bill deadlines. Payment of term bill secures your class schedule for a term; otherwise, cancellation of your class schedule may occur. You may pay by either returning the top portion of your billing statement to the Bursar's Office, Enrollment Services Center, room 336, with payment or verification of funds to cover all charges or through Towson University's Web application http://students.towson.edu, click on Online Services. To use: click Online Services; click SA Self-Service; click Learner Services; click Finances; click Make a Payment. Your TU username and password

are required to make a payment on the Web. Note: Bank check card or debit card payments cannot be processed through the Web payment site. If the Web payment option is selected, full payment is required.

If your term bill reflects a credit or zero balance and you choose <u>NOT</u> to attend the upcoming term, you <u>must</u> notify the Registrar's Office on or before the hill payment due date to have your class schedule cancelled. If you fail to do this, you will be financially responsible for all term charges.

À \$10 Archived Records Research Fee will be assessed when financial detail involving archived records is requested.

A \$50 penalty fee is assessed when a check given in payment of fees, fines or services is returned unpaid by the bank for any reason. Failure to reimburse the university for an uncollectable check may result in class schedules being cancelled.

A \$25 late collection fee will be assessed should an account become delinquent and deemed uncollectable, thus requiring referral to the Central Collection Unit of the state of Maryland. This fee is in addition to the collection fee assessed by the Central Collection Unit of the state of Maryland. See Payment of Fees, below.

GRADUATE CHARGES

The following policies apply to graduate students taking a mix of undergraduate and graduate courses and TU seniors taking a graduate course (with special permission).

If a graduate student takes a mix of graduate and undergraduate courses and the undergraduate unit load is fewer than 12 units, the individual is to be billed per unit in each category and part-time university fees. If the undergraduate unit load is 12 or more units, the flat undergraduate tuition rate and full-time university fees are billed with the graduate units billed at the per unit graduate tuition rate.

This policy applies to graduate students taking all undergraduate courses. If the unit load of undergraduate courses is 12 units or more, the individual is to be billed the flat undergraduate tuition and the flat full-time university fees.

PAYMENT OF FEES

All checks or money orders should be made payable to Towson University for the exact amount of the charges. The student's name and Student ID number must appear on all checks submitted to the university. The university offers a payment plan administered through Academic Management Services (AMS). The AMS payment plan extends to students a monthly budget plan for meeting the cost for tuition, university fees, and on-campus housing and meals for either the academic year or term. Students who choose such a payment plan may arrange payment through AMS, 800-635-0120, AMS Web site www.salliemae.com. AMS is not, however, affiliated with the university and does not act as the university's agent; accordingly, the university bears no responsibility for the acts or omissions of AMS. Moreover, a student's liability for tuition and fees is not discharged until payment is made in full. The Discover, MasterCard and Visa credit cards can be used for tuition, fees, room, meal plan, and other charges. Web credit card payments can be made on http://students.towson.edu/. To use: click Online Services; click SA Self-Service; click Learner Services; click Finances; click Make a Payment. Your TU username and password are required to make payment on the Web. Full payment is required. Note: Bank check card or debit card payments cannot be processed through the Web payment site. If the Web payment option is selected, full payment is required. It is imperative that students adhere to processing deadlines. To avoid the cancellation of your class schedule, payment must be received by your bill payment due date found on the term bill or at www.towson.edu/butsar. You must make payment in full on the Web, or by returning the top portion of your billing statement along with payment in full or verification of financial aid or thirdparty funds to cover all charges to the Bursar's Office, Enrollment Services Center, room 336. Completing the bill payment requirement may secure your class schedule for the term. If your account reflects a credit or zero balance and you choose NOT to attend the upcoming term, you MUST notify the Registrar's Office on or before the bill payment due date to have your class schedule cancelled. If you fail to do this, you will be financially responsible for all term charges. A \$75 late fee is assessed to any student whose current due term charges are paid after the bill payment due date, which appears on the bill.

WARNING: Processing of financial billing statements is the responsibility of the student and is due to the university each term as outlined at www.towson.edu/bursar. Nondelivery of the billing statement does not release you from the payment or late payment assessments.

Financial policy set by the Board of Regents and supported by the legislative auditors of the state of Maryland states that all previous balances must be paid prior to registration for the following academic term. The university employs a "first in/first out" technique when applying payments to accounts. Therefore, payments are used to satisfy the oldest outstanding charge prior to applying any portion of a payment to current or more recent charges. Should the account of any student become delinquent and sent to the Central Collection Unit of the state of Maryland, it is deemed delinquent, and a collection fee not to exceed 20 percent will be charged to the student by the Central Collection Unit of the state of Maryland. In accordance with COMAR Title 17, Subtitle 01, Chapter 02, Section 01 through 05, the Central Collection Unit of the state of Maryland may report debt to a credit bureau and begin intercepting Maryland income tax refunds of individuals indebted to the state colleges and universities for tuition, fees and other costs. Students with outstanding balances should contact the Office of the Bursar. Transcript and diploma requests will not be honored if a student has a financial obligation to the university. Payments made by check will be subjected to a waiting period of 10 to 30 working days prior to transcripts or diplomas being released or refunds being processed.

PLEASE NOTE: The university will retroactively bill when coding errors are identified.

REFUND POLICIES

Students withdrawing from the university must complete an Official Withdrawal Form before they are entitled to any refund. Withdrawal Forms must be processed by the Registrar's Office. The date of withdrawal will be the date on which written notice of withdrawal is received.

For additional information regarding withdrawal, see the Academic Regulations section of this catalog.

Fall/Spring Withdrawal Refund Policy

Notification to the instructor does not constitute proper withdrawal. Withdrawal Forms must be processed by the Registrar's Office. The date on which written notice of withdrawal is received determines the percentage of refund. All refund percentages are based on the official start of the term. The timing for effecting refunds is as follows:

- 1. Through the end of each Change of Schedule period, 100 percent of tuition and fees is refunded to the student.
- 2. Beginning with the first day after the end of the Change of Schedule period through the 21st calendar day after the official start of the term, 50 percent of tuttion only is refunded to the student who fully withdraws from the university.
- 3. Beginning with the 22nd calendar day after the official start of the term, no tuition and fees are refunded to the student.

NOTE: Based on documentation of extraordinary circumstances, including medical, exceptions may be made to this policy. Requests for refunds for extraordinary circumstances should be submitted

immediately; however, no requests will be considered 30 days beyond the term in question. Undergraduate students should contact the director of the Bursar's Office, Enrollment Services Center, room 315. Graduate students should contact the director of Graduate School Operations, 7800 York Rd., room 218.

Any impaid charges on a student's financial account with the university will be subtracted from the refund due prior to processing the refund request. For payments made by credit card, refunds will be credited to the original credit card account and will be reflected on the credit card monthly statement. Credit card payments made for term charges are refunded using the following practice. For each term, credit card refunds will be processed after the term Drop/Add period. However, students may ask for a credit card refund prior to this period by contacting the Bursar's Office. Credit card owners are responsible for paying any and all interest charges accrued on the credit card. All questions regarding tuition and fees should be referred to the Office of the Bursar, Enrollment Services Center, 410-704-2100 or 1-888-5BURSAR.

Second Seven-Week Fall/Spring Withdrawal Refund Policy

Notification to the instructor does not constitute proper withdrawal. Wirhdrawal Forms must be processed by the Registrar's Office. The date on which written notice of withdrawal is received determines the percentage of refund. All refund percentages are based on the official start of the session.

Students are considered full-time when carrying 12 units or greater; therefore, refunds apply only to unit loads under 12. The timing for effecting refunds is as follows:

- Through the first day of classes after the official start of the second seven-week session, 100 percent of tuition and fees is refunded to the student.
- 2. During the second and third days of classes after the official start of the second seven-week session, 50 percent of *tuition* only is refunded to the student.
- 3. Beginning the fourth day of classes after the official start of the second seven-week session, no refund is issued.

NOTE: Based on documentation of extraordinary circumstances, including medical, exceptions may be made to this policy. Requests for refunds for extraordinary circumstances should be submitted immediately; however, no requests will be considered 30 days beyond the session in question. Undergraduate students should contact the director of the Bursar's Office, Enrollment Services Center, room 315. Graduate students should contact the director of Graduate School Operations, 7800 York Rd., room 218.

Any unpaid charges on a student's financial account with the university will be subtracted from the refund due prior to processing the refund request. For payments made by credit card, refunds will be credited to the original credit card account and will be reflected on the credit card monthly statement. Credit card payments made for term charges are refunded using the following practice. For each term, credit card refunds will be processed after the term Drop/Add period. However, students may ask for a credit card refund prior to this period by contacting the Bursar's Office. Credit card owners are responsible for paying any and all interest charges accrued on the credit card. All questions regarding tutton and fees should be referred to the Office of the Bursar, Enrollment Services Center, 410-704-2100 or 1-888-5BURSAR.

Fees

The following fees are nonrefundable:

- 1. late payment fee
- 2. room deposit fee
- 3. enrollment contract fee
- 4. application fee
- 5. closed contract fee

The following fees are nonrefundable after the official start of classes for the term:

- 1. housing fee
- applied fee (private instruction, student teaching, clinical practicum, etc.)
- 3. parking permit fee

The Board Plan Fee is prorated weekly.

The following fees are nonrefundable after the official Change of Schedule period:

- 1. mandatory university fees
- 2. surcharge/overload fee
- 3. course-based fees
- 4. technology fee
- 5. student classification fee

Financial Aid

LOCATION

Enrollment Services Center 339 410-704-4236 Fax: 410-704-2584 http://onestop.rowson.edu/finaid/

Towson University offers scholarships, grants, loans, and work programs funded by the U.S. Department of Education, the state of Maryland, and Towson University. Scholarships generally use merit or academic achievement as the main criterion, while most grant and loan programs are need-based. Need-based programs help students pay the difference between the cost of education and the amount that they (and their families, if they are dependent students) can contribute. Need is determined by the following formula:

Cost of Education

-Expected Family Contribution (EFC)

-Outside Resources (state/private scholarships, etc.)

Need for Title IV and university funds

The U.S. Department of Education calculates the EFC from the completed Free Application for Federal Student Aid (FAFSA), using a formula that considers factors such as income, certain assets, family size, and number of family members in college.

The cost of education includes direct costs such as tuition and fees and room and board as well as indirect costs including transportation and personal expenses.

ESTIMATED COSTS FOR UNDERGRADUATE STUDENTS*

| | COMMUTER | RESIDENT | OUT OF STATE |
|----------------|----------------|--------------|--------------|
| Tuition/Fees | \$7,096 | \$7,096 | \$16,030 |
| Room/Board | 1,500 | 7,112 | 7,112 |
| Books | 912 | 912 | 912 |
| Personal | 988 | 1,596 | 1,596 |
| Transportation | n <u>2,040</u> | <u>1,798</u> | <u>1,798</u> |
| Total | \$12,536 | \$18,514 | \$27,448 |

^{*}Figures shown are for full-time enrollment for an academic year and are subject to revision. Students receive a bill each term for tuition/fees, and room and board charges (if the student lives on campus). All other costs shown above (including books) are estimates of out of pocket costs.

DEADLINES AND APPLICATION PROCEDURES

All students must reapply for financial aid annually, and should do so as soon as possible after January 1 at the U.S. Department of Education's www.fafsa.ed.gov Web site.

Students should complete the FAFSA by February 10 each year to meet the annual deadline of March 1. This date is the priority deadline for federal and university need-based aid for the academic year beginning the following September, and the deadline for many Maryland state scholarship and grant programs. All students must list Towson University (code #002099) in Step 6 of the FAFSA. This allows the federal processor to transmit the application results electronically to the Towson University Financial Aid Office.

The Financial Aid Office offers aid first to students whose applications are completed and received from the U.S. Department of Education by the March 1 deadline. Applications received after the March 1 deadline are processed on a rolling basis, but students who apply late for aid should not expect consideration for limited campus-based funds.

Students should take the following steps toward ensuring that funds are available in time to pay term charges:

- complete the FAFSA on or before February 10 to meet the March 1 deadline
- complete the admissions requirements early
- register for classes at the earliest opportunity

STUDENT ELIGIBILITY

Factors that determine eligibility for Federal Title IV and needbased university aid include:

- financial need (except for unsubsidized and parent loans)
- degree candidacy or formal admission as a regular student making satisfactory academic progress toward a degree or certificate
- U.S. citizen or eligible non-citizen status
- possession of a valid Social Security number
- certification that the applicant is not in default on a student loan and does not owe a repayment of a Federal Title IV grant
- registration for the Selective Service

FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS (SAP)

Federal and state regulations require the Financial Aid Office to monitor the academic progress of students who apply for aid or receive aid. The Financial Aid Office checks the progress of aid recipients at least once per year and more frequently when deemed necessary. The Satisfactory Academic Progress Policy for financial aid purposes appears in Appendix E.

VERIFICATION

Either the U.S. Department of Education or the university can select an application for verification. If selected, students must provide signed copies of federal income tax returns. They must also provide documentation to verify information such as the value of assets, household size, number in college, etc. The Financial Aid Office encourages students to respond promptly and completely to any request for additional information. Failure to complete the verification process will result in cancellation of any financial aid offer.

IMPORTANT: Aid May Change

Federal Title IV regulations will not permit students to receive aid totaling more than the cost of education. The Financial Aid Office may revise or cancel an aid offer if the student:

- receives additional aid at any time from another source (such as a state or private scholarship)
- provides the university with information that changes the eligibility for financial aid
- changes enrollment level, for example, from full- to part-time

TRANSFER STUDENTS

Financial aid, including most federal grants and loans, will not transfer from one institution to another. Eligibility for the Federal Pell Grant, and some state grants may transfer.

Students must apply for financial aid using the instructions stated in the "DEADLINE AND APPLICATION PROCEDURES" section. Mid-year transfer students who have already processed a FAFSA to attend a school during the fall term must request that the U.S. Department of Education send a copy of the application results to Towson University's Financial Aid Office. Students can contact the federal processor at 1-800-4-FEDAID.

CAMPUS-BASED FINANCIAL AID

Towson University receives a limited amount of money each year for the campus-based programs. Campus-based funds go to the earliest completed applications from eligible students whose applications demonstrate the greatest need. The Financial Aid Office

^{**}Students may incur additional academic fees, depending on courses taken. Please refer to the "Expenses" section of the Towson University Undergraduate Catalog.

processes applications in the order of EFC, starting with the lowest EFC and continuing through the highest EFC. Students whose applications have the lowest EFCs may receive aid from the programs requiring exceptional need.

The Financial Aid Office continues to process applications after the March 1 deadline, but late applicants cannot expect consideration for limited campus-based funds.

Federal Supplemental Educational Opportunity Grant

This federal grant is for exceptionally needy students pursuing a first bachelor's degree. Towson University may offer up to \$4,000 to an eligible applicant.

Institutional Grant

Towson University may offer up to \$4,000 to first bachelor's degree candidates who have financial need.

Federal Perkins Loan

Towson University may offer Perkins Loans to undergraduate and graduate degree candidates. The university offers loans from this program first to students with exceptional financial need. Undergraduate students may receive up to \$4,000 per year. The statutory limit is \$8,000 for a student who has not reached junior standing, and \$20,000 for all undergraduate borrowing from this program.

This federal loan has an annual interest of 5 percent. Interest does not begin to accrue, and no payment of principal is due, until nine months after the borrower leaves school or drops below enrollment for at least 6 units. Payments depend on the total amount borrowed, but will never be less than \$40 per month, plus interest.

Federal Work Study

This Federal Title IV program allows undergraduate and graduate degree candidates to work and earn money for educational expenses. The university pays aid from this program through paychecks every two weeks. The eligibility does not offset direct university charges such as tuition and fees.

Students can find jobs on campus or in approved off-campus organizations and agencies. The university encourages students to consider off-campus jobs in community service organizations. Towson University's Career Center maintains a list of available Federal Work-Study positions.

DIRECT FEDERAL AID

Unlike the campus-based programs, the university has no limit on the total number of eligible students who can receive aid from the direct aid programs. However, federal regulations limit the amount any student can receive from each program.

Federal Pell Grant

This federal grant is for first bachelor's degree candidates who have exceptional financial need. Pell Grants range from \$400 to \$4,050.

Federal Direct Student Loan Program

These long-term loans are for first and second bachelor's degree students, as well as certificate and graduate students. The application requirements for these loans are the same as for other federal grant and loan programs. Borrowers must carry at least 6 units per term.

Depending on the amount of need, an aid offer may include an interest-subsidized loan or an unsubsidized loan. Some students receive both subsidized and unsubsidized loans.

The main difference between a subsidized loan and an unsubsidized loan is the point at which interest begins to accrue. No interest accrues on a subsidized loan until the end of a six-month grace period which begins when the borrower graduates, withdraws, or

drops below enrollment for at least 6 units. Interest on an unsubsidized loan accrues during enrollment, and throughout the grace period. The interest rate for Direct Loans is variable, and capped at 8.25 percent.

All borrowers pay interest while in repayment. The repayment period begins at the end of the grace period.

All borrowers pay a loan origination fee of 3 percent to the U.S. Department of Education. The university must deduct this fee from the loan proceeds.

Direct loans have annual limits: freshmen, \$2,625; sophomores, \$3,500; juniors and seniors, \$5,500. Students who meet the Federal Title IV definition of self-supporting may borrow additional unsubsidized funds of up to \$4,000 for freshman and sophomore standing and up to \$5,000 for junior and senior standing.

Aggregate loan limits are \$46,000 for undergraduate borrowing, of which no more than \$23,000 may be subsidized.

Federal Direct Parent Loans for Undergraduate Students (PLUS)

Parents of dependent students can borrow up to the cost of education minus all other aid received. Applicants do not have to demonstrate need. However, the U.S. Department of Education approves a loan from this federal program only after an evaluation of the parent borrower's credit history.

Interest begins to accrue at the time of disbursement. The interest rate is variable, and capped at 9 percent. All borrowers pay a loan origination fee of 4 percent to the U.S. Department of Education. The university must deduct this fee from the loan proceeds.

A new PLUS borrower must complete an electronic Master Promissory note before receiving any disbutsement of loan proceeds to the student's university account.

LOAN COUNSELING AND PROMISSORY NOTE REQUIREMENTS FOR BORROWERS

New loan borrowers at Towson University of Federal Perkins Loans or Federal Direct Student Loans must complete entrance loan counseling. Borrowers who graduate or leave school must complete exit loan counseling sessions. These sessions provide borrowers with information on their rights and responsibilities.

New borrowers will find entrance and exit loan counseling for Direct Loans, as well as entrance counseling for the Federal Perkins Loan Program at http://onestop.towson.edu/finaid/. The university's Office of Financial Services provides exit loan counseling for Perkins Loan borrowers.

New borrowers must complete an electronic Master Promissory note before receiving any disbursement of loan proceeds to their university accounts.

STATE SCHOLARSHIPS

The state of Maryland offers scholarships and grants based on financial need or merit, or a combination of both. Legal residents of Maryland apply using the FAFSA or the Renewal FAFSA. The deadline is March 1.

Some state scholarships, such as teaching and child care scholarships, require special applications and have different deadlines. For more information about state scholarships, students can call the Maryland State Office of Student Financial Assistance at 410-260-4565, or visit the www.mhec.state.md.us Web site.

ADDITIONAL INFORMATION

Financial Aid Disbursements

Generally, students receive one-half of academic year financial aid funds (except Federal Work-Study) each term. The university will credit aid toward term charges for tuition and fees and other direct university charges. First-time Federal Direct Student Loan borrowers who have freshman standing (fewer than 30 earned units) cannot receive the first disbursement of loan proceeds to their university accounts until they have been enrolled for 30 days. This federal requirement only affects the first disbursement of the freshman's first loan.

Students who borrow for a single term, (i.e. fall only, spring only or summer only), will receive two disbursements to their university accounts: one at the beginning of the loan period (or 30 days into the term if the borrower is a freshman), and one at the mid-point of the term.

Whenever the amount of term aid credited to a student's account exceeds the term charges, the student has a credit balance and will receive a rebate check to use for books and day-to-day expenses.

The Office of the Bursar will disburse rebate checks for credit balances no earlier than one week before the first day of the fall and spring terms and no earlier than the first day of a student aid recipient's summer session. Students may have a delay in receiving rebate checks if they have received a late or revised aid offer, or if they are subject to the Direct Loan 30-day hold or two-disbursement requirement. A student can ask the Office of the Bursar to convert a portion of the student's credit balance for retail points on the student's Towson University OneCard for the purchase of books, or for use at any campus food location.

Minimester

Students cannot receive Federal Title IV or university aid financial aid for Minimester.

Summer

A supplemental application is required for summer aid and is available from the Financial Aid Office and online at http://onestop.towson.edu/finaid/. Summer aid is usually limited to loans from the Federal Direct Loan Program, and available only if the student did not borrow the maximum for his or her grade level for the academic year immediately preceding the summer term.

Financial Aid Advising

Students and parents can schedule appointments to speak with Towson University financial aid advisers in person or by telephone. To schedule an appointment, call 410-704-4236.

Refund Policy

When a student withdraws from all courses during a term when the student is receiving Federal Title IV student aid, the Financial Aid Office must determine what portion of the student's term aid (not including Federal Work-Study funds) will revert to the federal programs. The Financial Aid Office must use a statutory federal refund formula required by the U.S. Department of Education to determine what portion of aid paid to university charges has been "earned" and what portion must be considered "unearned."

The percentage of assistance earned is equal to the percentage of the term completed as of the day the student withdraws. (If the withdrawal occurs after the 60 percent point, the percentage of aid earned is 100 percent.) The amount of aid not earned by the student is calculated by determining the complement of the percentage of assistance the student earned. That percentage is then applied to the total amount of grant and loan assistance disbursed for the term.

If the student received more grant or loan assistance than the amount earned, the university or the student (or both) must return the unearned funds to the Federal Title IV programs.

Towson University returns the lesser of the unearned amount of Title IV assistance; or the institutional charges incurred for the term, multiplied by the unearned percentage of Title IV grant and loan assistance. Institutional charges are limited to tuition, fees, and room and board, (if the student paid these charges to the university).

The student returns unearned Title IV assistance minus the amount the university returns. The U.S. Department of Education does not allow discretion on the part of the university for non-institutional costs. In most cases, when a student receives Title IV assistance greater than the amount of institutional charges and completely withdraws from the university, the student will have to return some of those federal funds.

Academic Dismissal or Suspension

Academic dismissal or suspension will always result in cancellation of financial aid for future terms. A student who receives formal readmission to the university as a degree candidate may request consideration for financial aid.

Internet Services

The Financial Aid Office has a comprehensive, interactive Web page. This Web site, at http://onestop.towson.edu/finaid/ allows students to use many financial aid services electronically. Students can apply for financial aid online and link to other recommended Web sites.

Other Resources

Regular Student Employment

Various departments on campus hire students. Students will find a list of current job openings at the www.towson.edu/careercenter Web site of the Career Center.

Student Employment Program

This office helps students find part-time jobs off-campus in the Baltimore metropolitan area. For additional information, visit the www.towson.edu/careercenter Web site of the Career Center.

Private Scholarships

Various businesses, foundations and civic organizations offer scholarships. Students should check directly with groups in their local communities. The www.fastWEB.com Web site is another source for private scholarship information.

Veteran's Benefits

Veterans or eligible dependents should contact the Baltimore Regional Office of the Veterans Administration (1-800-827-1000) with questions regarding eligibility. Towson University's Veterans Office (410-704-3094) certifies applications.

Alternative Loans

Students may borrow alternative loans from private lenders outside the university. These non-federal loans can supplement other sources of student financial aid. Students and parents can find links to alternative loan lenders at the: http://onestop.towson.edu/finaid/ Web site of the Financial Aid Office.

Alternate Payment Plan

The Bursar's Office accepts the TuitionPay payment plan from Academic Management Services. Instead of paying the balance of term charges in a lump sum, students and families can spread interest-free monthly payments over a period of months. TuitionPay program participants pay a modest annual application fee to Academic Management Services. To learn more about the TuitionPay program, students and parents can call AMS at 1-800-635-0120, or visit the TuitionPay Web site at www.tuitionpay.com.

58 Financial Aid

SCHOLARSHIP OFFICE

Enrollment Services Center 30⁻ 410-⁻04-2647

E-mail: Scholarship@towson.edu http://onestop.towson.edu/finaid/

The Towson University Scholarship Office is a unit of the Financial Aid Office, and serves as a clearinghouse for information on merit scholarships. In addition to serving as an information center, this office handles the applications for several university-wide scholarships.

Scholarship Seeker

The Scholarship Seeker allows a student to search for Towson University and state of Maryland scholarships. Students can view lists of potential scholarships, and link to detailed information about scholarship requirements and application procedures. The Scholarship Seeker is a part of the Financial Aid Office Web site at http://onestop.towson.edu/finaid/.

Over-Award Policy

Towson University will not award or disburse a combined total of federal, state, institutional and/or private scholarships that exceeds a student's cost of education unless all of the funding comes from a private external source. The cost of education is a standardized budget including tuition, fees, room, board and allowances for indirect costs such as transportation and personal expenses. Whenever a student's total aid package exceeds the cost of education, the Financial Aid Office will reduce aid offered by the university.

Private Scholarships

Students who receive scholarships from private organizations outside the university (not including Maryland state scholarships) should contact the Office of the Bursar to arrange for payment of scholarship funds. The Office of the Bursar will disburse scholarship proceeds in accordance with procedures and policies set by the private scholarship donors and Towson University. Students may defer partial payment of university charges before receipt of scholarship proceeds by forwarding a copy of the scholarship award letter to the Office of the Bursar. Any outstanding balance created when a student or donor fails to provide the university with adequate, timely information will become a financial obligation of the student.

Office of Admissions Scholarships

Towson University awards a limited number of academic scholarships each fall to qualified, full-time incoming freshmen and transfer students. The Office of Admissions awards these merit-based scholarships without regard to financial need. The earliest applicants for admission receive priority consideration. Although students do not need a separate application for these scholarships, they must complete their admission applications, and provide transcripts and test results by December 1.

The following list of scholarships includes information on the minimum qualifications required for consideration. Scholarships go to students with the best qualifications. The required GPAs and test scores will change from year to year, and may change for the upcoming year after publication.

Commonwealth Award

- 3.00+ GPA
- Must apply directly from a Baltimore City Public School
- Designation as a Commonwealth or Commonwealth Plus Student

Cultural Diversity Scholarship

- Maryland resident
- Freshmen: 3.30+ GPA, 1000+ SAT I
- Community college transfers: 3.00+ GPA with 56 transferable credits
- Essay required on involvement with diversity enhancement

Honors College Scholarship

• Competitive award for Honors College freshmen

Helen Aletta Linthicum Scholarship

- Maryland high school valedictorians
- Academic credentials and class rank considered
- · Presidential, University and Provost's scholars are not eligible

Phi Theta Kappa Transfer Scholarship

- Community college transfers
- 3.50+ college GPA and 56+ units by time of transfer
- Member of Phi Theta Kappa

Provost's Scholarship

- Freshmen: 3.80 GPA, 1190+ SAT 1
- Community college transfers: 3.50 GPA and 56+ transferable credits

Top Ten Scholars Program

- Baltimore City and Baltimore County public school students graduating in the top 10 percent of their senior classes
- Completion of college prep curriculum
- Interested students must obtain a Towson University Application for Admission and a Top 10% Scholar Certification form from their high school guidance counselors
- Deadline: January 31, 2006 for freshman class entering September 2006
- Applicants must complete a Free Application for Federal Student Aid (FAFSA) but do not have to demonstrate financial need
- Recipients receive renewable scholarships and opportunities for special services

The College of Business and Economics

The College of Business and Economics (CBE)

VISION

CBE's vision is to be widely recognized as an Outstanding College of Applied Business Studies.

MISSION

CBE's mission is to provide:

- a strong undergraduate business education for high-achieving students and selected graduate programs based upon specific CBE strengths and needs
- a good balance of theory, application and personal development activities that creates a challenging environment of integrated learning
- each student with the opportunity to meet the required "Profile of a CBE Graduate" through faculty members who consistently demonstrate quality teaching, advising and important scholarly contributions in their fields of expertise
- a nurturing culture of high expectations that properly prepares each student for life beyond college
- a strong outreach program to create dynamic partnerships beyond the university for economic and societal development, academic linkages that enhance the teaching/learning environment throughout our college, and CBE's inclusion in the fabric of the community.

The College of Business and Economics

PROFILE OF A COLLEGE OF BUSINESS AND ECONOMICS GRADUATE

The College of Business and Economics (CBE) understands the need for its graduates to be broad-based and ready to perform immediately upon entering the job market, both as individuals and in teams. Therefore, its curriculum contains concrete, measurable and attainable objectives throughout. As a result, each CBE graduate is expected to perform successfully, as both an individual and a team member, in the following areas of Knowledge, Skills and Attitudes (KSAs):

1. COMMUNICATION — WRITTEN, SPOKEN, GRAPHIC AND ELECTRONIC

- Write articulate, persuasive and influential business reports, proposals and letters
- Make articulate, persuasive and influential individual and team presentations
- Develop graphic, spreadsheet and financial analysis support for positions taken
- Display presentation skills
- Generate appropriate visual aids
- Use correct written structure, spelling, grammar and organization
- Articulate another's viewpoint through verbal and nonverbal interpretation
- Resolve interpersonal and team conflicts
- Negotiate effectively

2. THINKING — CRITICAL, CREATIVE AND INTEGRATED

- Use problem-solving techniques
- Use adaptable, flexible thinking
- Use critical thinking to produce comprehensive, supported, integrated conclusions
- Use creative thinking methods to produce ideas
- Distinguish (1) fact from opinion and (2) critical from noncritical information
- Develop several workable solutions to a problem
- Show common sense
- Demonstrate continuous learning (learning to learn)

3. TECHNOLOGY

- Use software for writing, spreadsheets, databases, presentations and decision support
- Demonstrate self-taught use of a second software package
- Use e-mail, World Wide Web, Internet and other contemporary electronic services

4. ETHICS AND VALUES

- Consistently accept responsibility for one's own actions
- Display ethical conduct and honor-system behavior
- Apply ethics in teaching business recommendations
- Promote benefits of good ethical behavior while recognizing practical ethical challenges
- Display a "win-win" attitude

5. ACCREDITED BUSINESS CONTENT

- Know, apply and integrate the content in one's major
- Apply and integrate accumulated cross-discipline concepts
- Value the relevance of each business discipline in today's business world

6. DIVERSITY — INTERNATIONAL AND DEMOGRAPHIC

- Apply international concepts and contemporary issues to business situations
- Apply domestic diversity concepts and contemporary issues to business situations
- Show sensitivity to others' views, values and business customs
- Discuss relevant global business developments
- Interact as a business professional with people of other cultures and subcultures

7. PRACTICAL EXCELLENCE

- Demonstrate effective team skills
- Display professional business behavior and appearance
- Network with professionals
- Manage time and tasks
- Use estimates, analogies and examples
- Demonstrate development of one's self-esteem and "can do" attitude

8. LEADERSHIP, ENTREPRENEURSHIP AND COMMUNITY SERVICE

- Demonstrate group leadership
- Describe one's own risk-taking profile
- Differentiate between a leader, a manager and an entrepreneur
- Perform community service
- Foster leadership potential in self and others

9. JOB EXPERIENCE AND CAREER DEVELOPMENT

- Show evidence of a quality, mentored, reflective professional experience
- Organize a persuasive, informative resume
- Create a portfolio that displays evidence of employability
- Demonstrate effective job search and interview skills
- Assume responsibility for one's own career goal-setting and lifelong learning

College of Business and **Economics**

Towson University is the only University System of Maryland (USM) state university with both its Business and Accounting programs accredited by AACSB International - the Association to Advance Collegiate Schools of Business.

TRANSFER CREDIT POLICIES

In order to graduate from Towson University with a major from the CBE, students must complete at least 50 percent of the units required in their major at Towson University.

Lower-Level Courses: Students planning to transfer into the Business Administration, Electronic Business or Accounting majors at Towson University are encouraged to take the lowerlevel core courses: Principles of Accounting I and II, Microeconomics and Macroeconomics, Statistics, Legal Environment of Business, and Computer Science (COSC 111/112 equivalent). Students transferring from a Maryland community college should inquire at that institution's transfer office regarding the Recommended Transfer Program (RTP) for the Business

Administration, Electronic Business or Accounting majors at TU. Students may verify whether a course will be accepted in transfer for a CBE major or minor by referring to ARTSYS, the articulation system of Maryland, available at http://artweb.usmd.edu/ or by contacting Towson University's CBE Student Academic Services, 410-704-3496.

After transferring to Towson University, students are encouraged to take such courses as finance, marketing, management and e-Business because these are upper-level courses at the university. Courses completed at a community college or a four-year college that are offered at TU as upper-level courses do not need to be repeated but must be validated in order to be recognized as meeting upper-level requirements. Validation generally requires that another specified course in the same discipline be completed at Towson University with a grade equivalent of 2.00 or higher.

Upper-Level Courses: A four-year college's transferred course that possesses "level and content equivalency" of a TU course may be used to satisfy a core/elective requirement with the approval of the major department. Only one transferred course will be accepted in fulfillment of a concentration/track requirement. A student intending to transfer a course must provide a course description from the other college's catalog. Contact CBE Student Academic Services, 410-704-3496, for policy and procedures regarding transfer of units for upper-level accounting, business, e-Business and/or economics courses.

NOTE: Courses taken at a community college or other two-year school cannot transfer as upper-level units.

CBE STUDENT ACADEMIC SERVICES

Stephens Hall 104, 410-704-3496

The College of Business and Economics (CBE) Student Academic Services is the first place a student contacts for information or assistance concerning a major or minor program in the College of Business and Economics. We encourage students to *invest* in themselves by taking advantage of the wealth of resources provided by Towson University and the CBE such as student clubs and organizations, study abroad programs, career exploration services, career fairs and networking events, tutoring and faculty advising. Our team of professional staff, student aides and CBE student consultants are available to provide information and assistance to both current and prospective CBE students, and in particular to those students seeking admission to the Business Administration major.

MISSION STATEMENT

To be widely recognized as a model program that enhances lifelong professional performance and ethical decision-making in our metropolitan community.

DISTINCTIVE FEATURES

Towson University's College of Business and Economics is one of the few business schools in the nation with a separate unit specifically designed to enhance business performance in the college and in the workplace. Working with the rest of the CBE faculty, these professors teach essential knowledge, skills and attitudes (KSAs) in business writing, professional presentations, problem solving, teamwork and self-assessment.

BUSX COURSES

BUSX 301 Business Cornerstone

This course provides essential knowledge, skills, and attitudes (KSAs) that serve as the foundation for the rest of the CBE coursework. BUSX 301 should be completed as soon as possible after the Lower-Level Core courses.

BUSX 460 Professional Experience

This course focuses on a successful transition between the last college term and the first day of professional work. Students take an internship as part of the course. Through self-assessment, students develop a portfolio that demonstrates their knowledge, skills and attitudes (KSAs) and their commitment to lifelong career development. A special permit is required.

ENGL 317 Writing for Business and Industry

Seats in selected sections of this Advanced Writing course are available only to CBE students. Special permits are available in Stephens Hall 104.

Department of Accounting

Professors: Lamont Steedle (Chair), Martin Freedman, Norma Holter, Man C. Maloo, Charles Martin, Donald Rosenberg, Barbara Stewart

Associate Professors: Raymond Castaldi, Kang Cheng, Seth Hammer, Benjamin Neil, Andrew Schiff, Michael Seganish Assistant Professors: Barry Buchoff

Part-Time Faculty: Theresa Akerman, Alan Alper, Teresa Beck, Michael Broache, Robert Campbell, Francis Czosnowski, Quincey Johnson, Dennis Kreiner, Brian Lazarus, Frank Meyer, Robert Miller, Patrick Motsay, Robert Scott, Frank Segel, Mark Shaughness, Charles Tiedebohl, William Tignanelli, Tammy Turner, Richard Winelander

PROGRAMS AVAILABLE

- Major in Accounting
- Financial Planning Track

WHY STUDY ACCOUNTING?

- To prepare for college-graduate, entry-level jobs such as cost accountant, staff accountant and tax preparer
- To prepare for specialized master's programs in Accounting and the CPA Exam in order to hold jobs such as auditor, tax adviser, system analyst, business and personal accountant, and business and personal financial adviser. (Note: The state of Maryland requires 30 units beyond the B.S. to qualify to sit for the CPA exam. Students who are not Maryland residents should check their own state's requirements.)

In business and society, accountants make a difference. They prepare and review the financial information that is relied upon by investors, lenders, businesses and other organizations throughout the world. Accountants also provide expert advice on taxes, financial planning, information systems and a wealth of other business matters. In today's fast-paced, rapidly changing world, few careers offer as many advantages and rewards as a career in accounting. These include:

- a high level of job security
- competitive starting salaries
- a wide range of career options
- top-tier income potential
- a path to senior management
- the option to create your own business
- an opportunity to travel
- a respected, established profession
- the knowledge that you are an expert, trusted adviser
- the satisfaction of helping others

At Towson University, you will join one of only two accounting programs among Mayland's public colleges and universities accredited by the Association to Advance Collegiate Schools of Business (AACSB International). Of all the accounting programs in the United States, only about one in three have achieved this distinction.

If you are interested in becoming a Certified Public Accountant (CPA), you will be well prepared for the CPA examination. Our pass rates are consistently number one or two among all higher education institutions in Maryland. In fact, Towson University recently ranked number one in the United States on two of the four CPA exam parts, and number seven in the United States and number one in the East overall.

A wealth of additional information about accounting is available on the Internet. A few of the Web sites that you may want to visit include the Department of Labor Occupational Outlook Handbook (www.bls.gov/oco/ocos001.htm), the American Institute of CPAs (www.StartHereGoPlaces.com), and the Maryland Association of CPAs (www.tomorrowscpa.org).

MISSION AND CORE VALUES

Our mission is:

- to provide students with a high-quality graduate and undergraduate accounting education built on a comprehensive foundation in the liberal arts and sciences;
- to provide students with the knowledge, skills and attitudes necessary to assume positions of responsibility and leadership in business and society; and,
- to provide students and faculty with learning experiences through a combination of scholarly activities and partnerships with the accounting profession and the business community.
 We are committed:
- to honoring and rewarding excellence in teaching and scholarship;
- to promoting and fostering professionalism and ethical behavior among our faculty and our students; and,
- to fostering a climate that is conducive to collegiality, civility and openness to diverse ideas and views.

DISTINCTIVE FEATURES

- Student Chapter of Beta Alpha Psi
- Accounting Advisory Board (of business professionals)
- Annual Accounting Open House
- Annual Department of Accounting Awards Banquet
- Annual Accounting Alumni Reunion
- Student Awards for Academic Achievement:
 - CPA Review Scholarships
 - MACPA Outstanding Achievement in Accounting Award
 - Association of Government Accountants Award
 - Financial Executives Institute Academic Honors
 - Sylvia Bernstein Prize for Excellence in Accounting
 - Russell E. Denison Annual Award for Excellence in Accounting
 - Outstanding Accounting Student Achievement Award
 - Institute of Internal Auditors Award

ACCOUNTING PROGRAM

The undergraduate Accounting major is a I20-unit program. The program provides the necessary transition to specialized master's programs in accounting. It is also designed for students who wish to prepare for the CPA examination and enter the public accounting profession by completing the 15-unit Financial Planning Track, an additional 30 units of undergraduate elective courses, or by completing the requirements for a second major or minor.

The lower-level core, upper-level business core and upper-level accounting core courses required of all Accounting majors are set forth below.

All major course requirements must be completed with a grade equivalent of 2.00 or higher. Majors must score in the 50th percentile or above on the ATAG (Achievement Test for Accounting Graduates) in order to graduate.

Requirements for the Major

Application Procedure for Continuation in the Accounting Major Students complete the Accounting Application, available in the department office, Stephens Hall 102, after completing 6 units of upper-level accounting courses at Towson University and attaining a:

- 2.70 GPA or higher in all courses completed when applying
- 2,70 GPA or higher in all accounting courses completed when applying, and
- Completion of
 - 1. ECON 205 or MATH 231 (Statistics) with a grade equivalent of 2.00 or higher
 - 2. an ANTH or PSYC or SOCI course
 - 3. a POSC course

Suggested but not required: If you do not have accounting or business experience, consider adding ACCT 497 Accounting Internship or BUSX 460 Professional Experience. These units may be counted toward the 150-unit CPA requirement.

The College of Business and Economics

SUGGESTED COURSE SEQUENCE FOR ACCOUNTING MAIORS

Before advancing into upper-level courses, students need to complete specific prerequisite courses with a minimum grade equivalent of 2.00 or higher. See your adviser for information. Students must also have earned a minimum cumulative GPA of 2.70 and a minimum GPA of 2.70 in Accounting.

While completing the freshman and sophomore sequences, students also need to complete one Political Science course, usually taken as either GenEd II.B.2 or GenEd II.D, and one Anthropology, Psychology or Sociology course, usually taken as GenEd I1.B.2 or GenEd II.D. After completing these sequences, students will still need to fulfill GenEd I.D., II.A.2, II.C.I and II.C.3 in the junior or senior year. Students should consult with their adviser to make the most appropriate elective choices.

Based on course availability and student needs and preferences, the selected sequences will probably vary from those presented

Economics

Finance

Human Resource Management

International Business

Legal Studies

Management

Marketing

- Double Major in Business Administration and Computer Information Systems
- Double Major in Electronic Business and Computer Information Systems
- Double Major in Electronic Business and Business Administration (Marketing)
- B.A. Degree Option
- Minor in Business Administration
- Financial Planning Certification Preparation

MAJOR IN BUSINESS ADMINISTRATION

The major in Business Administration (BUAD) requires 21 units in lower-level core courses, 33 units of upper-level Business core courses, and 21 units in one of the following concentrations or tracks: Economics, Finance, Human Resource Management, International Business, Management, Marketing, or Legal Studies. (Requirements for the Legal Studies Track and the Financial Planning Certification Preparation program are listed below. Requirements for the other concentrations and tracks are listed in their separate departments in the College of Business and Economics.) All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above, and non-CBE electives. The non-CBE electives may include the units required for a minor or specialization program, or in a foreign language for the B.A. degree. See the complete Degree Requirements in the

University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level core courses and most of the General Education (GenEd) requirements. Students who enroll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the

degree.

Requirements for Admission to the Business Administration Major Students are admitted to the major in Business Administration (BUAD) on a competitive basis after first being admitted to the university. Admission to the university does not guarantee admis-

sion to the major. Each term, the College of Business and Economics (CBE) Admissions Committee considers applications for admission to the major in the following term. In order to be admitted, students must satisfy the following requirements:

- 1. Formal admission to TU as a degree candidate
- 2. Minimum cumulative GPA of 2.00 or higher for all course
- 3. Completion of most of the lower-level General Education requirements (GenEds)
- 4. Grade equivalent of 2.00 or higher in each lower-level core
- 5. Minimum average GPA of 2.70 for ALL seven lower-level core

The minimum GPA will be reviewed each year and may be adjusted as space availability dictates. Candidates for the major must fulfill the requirements in effect at the time of application.

Pre-Business students with less than a 2.70 GPA in the seven lower-level CBE core courses will be subject to competitive admis-

sion depending on space availability.

Degree candidates intending to major in Business Administration are designated as "pre-Business Administration" (PBUA) until admitted into the BUAD major. Students are encouraged to meet each term with their assigned faculty adviser to evalnate their progress in completing the requirements for admission to the major and the degree.

Students who take upper-level business courses before being admitted to the Business Administration major do so at their own risk, since these courses will not automatically fulfill requirements of other TU majors and will only be extra on the transcript.

Application Procedure

Students who will meet the admission requirements at the end of the term must complete an Application for Admission to the BUAD Major and a Change of Major Declaration Form before registering for upper-level "majors only" CBE courses (ACCT, BUSX, EBUS, ECON, FIN, FPLN, LEGL, MKTG, and MNGT). The forms are available at CBE Student Academic Services, Stephens Hall 104. Deadline for spring admission is October 15; summer and fall deadline is March 15.

B.A. DEGREE OPTION

A student must complete all the courses required for the major and a modern foreign language's intermediate courses (or equivalent). Students electing the Financial Planning Track within the Business Administration major must also complete a concentration or another track to meet major requirements.

LEGAL STUDIES TRACK

Coordinator: Benjamin Neil

Stephens Hall 102, 410-704-2227

To complete the major in Business Administration with the Legal Studies Track, students must be admitted to the Business Administration major (See requirements for Admission to the Business Administration major) before taking 21 units in Legal Studies and 33 units in upper-level Business core courses. All requirements for the major must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level core courses and most of the General Education (GenEd) requirements. Students who enroll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

68 The College of Business and Economics

Department of **Economics**

Professors: James Dorn, John Egger, J. Van Fenstermaker, George Georgiou (Chair), Chang Kong, Louise Laurence, Kangoh Lee, Harvey Paul, Tamara Woroby

Associate Professor: Timothy Sullivan

Professors Emeriti: Bong Shin, Jeremiah German, Henry Sanborn, Irvin Weintraub

Assistant Professors: Matthew Chambers, Melissa Groves, Jeong-Joon Lee, Jeffrey Michael, Thomas Rhoads Administrative Assistant: C.F. Eifert

OFFICE

Stephens Hall 103, 410-704-2959 Fax: 410-704-3424 http://www.towson.edu/econ

WHY STUDY ECONOMICS?

• To prepare for jobs in:

Government, such as research assistant, program analyst, and budget analyst. Government economists analyze economic conditions and estimate the economic impact of public policy.

Business and Consulting, such as financial analyst, longrange planner, and stockbroker. Business economists provide information on market conditions, forecasting, government regulations, facilities planning, product planning and pricing.

• To prepare for graduate school in such programs as Law, Economics, Public Policy, or Business Journalism

 To earn a double major in Geography and Environmental Planning, Mathematics or Political Science

 To blend business and economics by taking either an Economics major with a Business Administration minor or a Business Administration major with a track in Economics

To have the ability to analyze the American economic system and international and domestic economic forces that determine production, prices, profits and incomes.

MISSION STATEMENT

The department is committed to an excellent economics education built on a comprehensive liberal arts foundation to enable graduates to excel as leaders in a dynamic business environment and/or a career in public service by means of individualized student advising, professional work experience, teaching excellence, and commitment to the highest academic and ethical standards.

DISTINCTIVE FEATURES

- MARYLAND COUNCIL ON ECONOMIC EDUCATION
 - responsible for increasing the quality and quantity of economics taught in Maryland schools, colleges and the general community
 - Institutional Advancement Division affiliate
 - Council President: Michael Molloy, principal, Deutsche Banc Alex. Brown, Inc.
 - Council Executive Director: Carol Jarvis, Ph.D.

• CENTER FOR ECONOMIC EDUCATION

- One of nine Maryland college- or university-based centers responsible for
 - consulting with educational and community
 - developing economic education materials
 - improving economics instructional programs
 - conducting research in economic education

- Director: Melissa Groves, Ph.D.
- Student Recognition Awards
 - Federal Reserve Bank Excellence Award
 - The Wall Street Journal Award
 - J.J. German Scholarship
 - Catherine Britt Memorial Scholarship
 - Economics Club
 - Omicron Delta Epsilon, Economics Honor Society

PROGRAMS OF THE DEPARTMENT

Major in Economics

Major in Business Administration: Economics Track

Double Major in Economics and Geography and Environmental

Double Major in Economics and Mathematics Double Major in Economics and Political Science Minor in Economics

MAJOR IN ECONOMICS

The major in Economics requires 33 units in Economics, completed with a grade equivalent of 2.00 or higher. (See the Suggested Course Sequence for Economics Majors.)

Transfer students must take a minimum of 15 units in economics at Towson University to qualify for an Economics major.

Core Courses (33 units)

ECON 201 Microeconomic Principles (or Honors ECON 203) (3) **ECON 202** Macroeconomic Principles (or Honors ECON 204) (3)

ECON 205 Statistics for Business and Economics (3)

ECON 306 Statistics for Business and Economics II (3) **ECON 309**

fntermediate Price Theory (3) ECON 310 Macroeconomic Theory (3)

One 400-level economics course (excluding ECON 495 and ECON 497)

Elective Courses (12 units)

Four upper-level economics electives (ECON 305 cannot count as an elec-

Only one Internship in Economics (ECON 497) will count toward the

The department allows any one of the following courses outside the department to count toward the major in satisfying electives:

Advanced Financial Management (3) FIN 332

MATH 377 Mathematical Models (3)

POSC 459 Simulation and Games in Political Science (3)

Recommended Courses for Graduate School

The following courses are recommended for students considering graduate school in Economics: ECON 401, ECON 451, MATH 273, MATH 274, MATH 275 and MATH 463.

MAJOR IN BUSINESS ADMINISTRATION — **ECONOMICS TRACK**

Students in this track complete the major in Business Administration and 21 units in Economics, listed below. The Business Administration requirements include 21 units in lowerlevel core courses and 33 units in upper-level Business core courses. All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above, and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level BUAD core courses and most of the General Education (GenEd) requirements. Students who enroll in upper-level CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

Requirements for Admission to the Business

Administration Major

Students must be eligible for admission to the Business Administration major to enroll in upper-level Business core and concentration/track courses. To be eligible, students must complete the seven specific lower-level core courses with a grade equivalent of 2.00 or higher and a minimum GPA of 2.70 for ALL seven lower-level core courses. (See admission requirements in the Business Administration major section of this catalog.)

Economics Track Required Courses (21 units)

| ECON 309 | Intermediate Price Theory (3) |
|----------|---------------------------------------|
| ECON 310 | Macroeconomic Theory (3) |
| ECON 313 | Money and Banking (3) |
| ECON xxx | Upper-level Electives (9) |
| | Recommended as one elective: ECON 409 |
| MNCT 492 | Rusiness Ethics and Cosions (2) |

NOTE: ECON 306 and ECON 497 cannot count as electives.

DOUBLE MAIORS

The Department of Economics offers three double major programs: (1) Economics and Mathematics, (2) Economics and Geography and Environmental Planning, and (3) Economics and Political Science. A student majoring in economics may declare a second major and obtain a degree certifying that both majors have been completed.

DOUBLE MAJOR IN ECONOMICS AND MATHEMATICS

The Economics major with a second major in Mathematics requires 70-72 units completed with a grade equivalent of 2.00 or higher in all major courses.

Introduction to Computer Science I (4)

Core Courses (55 units)

COSC 236

And one course from the following: MATH 367 Theory of Numbers (3) **MATH 451** Graph Theory (3) MATH 467 Algebraic Structures (4) MATH 473 Introduction to Real Analysis (4) MATH 475 Complex Analysis (3)

MATH 477 Topology (3)

DOUBLE MAJOR IN ECONOMICS AND GEOGRAPHY AND ENVIRONMENTAL PLANNING

Completion of individual majors in Geography and Environmental Planning and Economics requires the successful completion of 72 units (39 geography and environmental planning and 33 in economics). However, by electing the double major in Geography and Environmental Planning and Economics, students will be able to complete both majors with a total of 60 units.

In Economics, students must complete all requirements for the major. However, for the first statistics requirement, they may choose either:

```
ECON 205
               Statistics for Business and Economics 1 (3)
GEOG 375
               Quantitative Methods in Geography (3)
```

In addition, they may substitute two of the following upper-level courses in geography and environmental planning toward fulfillment of the required four courses of upper-level economic electives:

| GEOG 355 | Historical Geography of Urbanization (3) |
|----------|--|
| GEOG 381 | Political Geography (3) |
| GEOG 385 | Population Geography (3) |
| GEOG 391 | Urban Systems (3) |
| GEOG 393 | Transportation and Infrastructure Planning (3) |
| GEOG 405 | Comprehensive Planning |
| GEOG 427 | The Global Economy (3) |

The College of Business and Economics

GEOG470-479 Seminar: Selected Topics in Geography* (3) **GEOG 481** Environmental Impact Analysis (3)

GEOG 484 Land Use Planning (3)

* Requires approval from Department of Economics depending on course

In Geography and Environmental Planning, students must complete all requirements for the major noting the option of either ECON 205 or GEOG 375 for their first statistics requirement. In addition, they may substitute two of the following upper-level courses in economics toward fulfillment of the required upper-level elective courses in geography and environmental planning:

| ECON 323 | Comparative Economic Systems (3) |
|-------------------------------------|---|
| ECON 325 | Economic Development (3) |
| ECON 333 | Poverty and Discrimination (3) |
| ECON 351 | Urban Economics (3) |
| ECON 421 | International Economics (3) |
| ECON 423 | International Monetary Theory and Policy (3) |
| ECON 470-479 | Topics in Economics* (3) |
| *Requires approv | al from the Department of Geography and Environmental |
| Planning depending on course topic. | |

DOUBLE MAJOR IN ECONOMICS AND POLITICAL SCIENCE

Completion of individual majors in Political Science and Economics requires the successful completion of 69 units (36 in political science and 33 in economics). However, by electing the double major in Political Science and Economics, students will be able to complete both majors with a total of 57 units.

In Economics, students must complete all core courses for the major. However, they may substitute two of the following upperlevel courses in political science toward fulfillment of the required four courses of upper-level economic electives:

| POSC 305 | Urban Government and Politics (3) |
|-------------|---|
| POSC 375 | Public Administration (3) |
| POSC 421 | Politics and Environmental Policy (3) |
| POSC 459 | Simulation and Games in Political Science (3) |
| POSC 467 | Politics and the Budgeting Process (3) |
| POSC470-479 | Special Topics* (3) |
| POSC 482 | Seminar in Political Science (3) |
| * D | 16 1 5 6 7 1 |

* Requires approval from the Department of Economics depending on course topic.

In Political Science, students must complete all requirements for the major. However, they may substitute two of the following upper-level courses in economics toward fulfillment of the required eight upper-level courses in political science:

| ECON 323 | Comparative Economic Systems (3) |
|-----------------|--|
| ECON 325 | Economic Development (3) |
| ECON 331 | Government and Economic Life (3) |
| ECON 337 | Public Finance (3) |
| ECON 339 | Health Economics (3) |
| ECON 351 | Urban Economics (3) |
| ECON 375 | Environmental Economics (3) |
| ECON 421 | International Economics (3) |
| ECON 423 | International Monetary Theory and Policy (3) |
| ECON 470-479 | Topics in Economics* (3) |
| * Requires appi | oval from the Department of Political Science depending on |
| course topic. | |

MINOR IN ECONOMICS (18 units)

The Economics minor may be taken with any other major. All Economics courses must be completed with a grade equivalent of 2.00 or higher.

Core Courses (6 units)

FCON 201 Microeconomic Principles (3) ECON 202 Macroeconomic Principles (3)

Elective Courses (12 units)

ECON xxx Upper-level Electives (12) NOTE: ECON 305 cannot count as an elective.

DEPARTMENTAL HONORS IN ECONOMICS

Students majoring in Economics are eligible to apply to the Departmental Honors Program if they have a 3.25 cumulative GPA, a 3.50 GPA in Economics classes, and the consent of a faculty thesis adviser. Students interested in Departmental Honors should obtain the application form from the department chair or honors coordinator before the end of their junior year. Honors in Economics requires 36 units in Economics (18 core units, 9 units of ECON electives, and 9 units required for Honors). The 9 unit requirement for Departmental Honors includes: a) one of the following: ECON 321 (History of Economic Thought), ECON 401 (Econometrics), or ECON 451 (Mathematical Economics); b) 3 units of ECON 495 (Independent Study); and c) ECON 499 (Honors Thesis). ECON 495 and ECON 499 must be taken sequentially. The thesis must be presented orally to the Thesis Committee at a public colloquium. Honors are designated on the graduate's transcript and diploma.

SUGGESTED COURSE SEQUENCE FOR ECONOMICS MAJORS

Students should consult with their advisers to make the most appropriate elective choices. Based on course availability and student needs and preferences, the selected sequences may vary from those presented below.

FRESHMAN YEAR

First Term (15 units)

ECON 201 Microeconomic Principles (Honors ECON 203) (3) GenEd (12)

Second Term (15 units)

ECON 202 Macroeconomic Principles (Honors ECON 204) (3) GenEd (12)

SOPHOMORE YEAR

First Term (15 units)

ECON 205 Statistics for Business and Economics 1 (3)

ECON 309 Intermediate Price Theory (3)

GenEd (9)

Second Term (15 units)

ECON 306 Statistics for Business and Economics II (3)

ECON 310 Macroeconomic Theory (3)

Electives (9)

JUNIOR YEAR

First Term (15 units)

WHY STUDY FINANCE.

- To prepare for positions in managerial finance, banking, insurance, and securities industries
- To become proficient in applying financial tools to investment and financing decisions
- To develop analytical skills that can be used throughout a busi-
- To build a solid foundation for making personal financial deci-

MISSION STATEMENT

The mission of the Department of Finance is to produce finance graduates who possess the knowledge, skills and abilities necessary to function effectively in the financial community. The department's aim is to develop students who are competent, ethical, and capable of meeting the challenges of an increasingly complex, global environment.

The goals of the department are: (1) to achieve excellence in teaching while offering students a curriculum based on leading-edge financial skills and techniques, (2) to increase the body of knowledge in the finance professions through applied scholarship activities, and (3) to provide applied research, consulting and advisory services to the business and professional community.

MAJOR IN BUSINESS ADMINISTRATION — **FINANCE CONCENTRATION**

Students in the Finance Concentration complete the major in Business Administration and 21 units in Finance. The Business Administration requirements include 21 units in lower-level core courses and 33 units in upper-level Business core courses, as listed below. All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed below and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level core courses and most of the General Education (GenEd) requirements. Students who enroll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

Requirements for Admission to the Business Administration Major Students must be eligible for admission to the Business Administration major to enroll in upper-level Business core and concentration/track courses. To be eligible, students must complete the seven specific lower-level core courses with a grade equivalent of 2.00 or higher and a minimum GPA of 2.70 for ALL seven lower-level core courses. (See admission requirements in the Business Administration major section of this catalog.)

MISSION STATEMENT

The mission of the Department of Management is to provide graduates with the knowledge, skills and attitudes to be successful managers in a variety of organizational settings. We seek to develop graduates with global perspectives, ethical grounding, technological competency and a desire for life-long learning.

PROGRAMS OF THE DEPARTMENT

The Department of Management offers the following programs: The major in Business Administration with

- Management Concentration
- Human Resource Management Track
- International Business Concentration

WHY STUDY MANAGEMENT?

The rapid and continuous changes taking place in our global economy require skilled managers and leaders to ensure not only effective performance but survival. Organizations of all sizes in all sectors of our economy face unprecedented challenges that require informed, strategic decision-making and principled leadership.

The programs of study in management are designed to allow students to develop the critical marketable skills that employers seek. Courses and programs of study within the department emphasize the development of global awareness, ethical decision-making, technological competency and ongoing personal and professional development. Ongoing curricula development ensures that course offerings and content reflect the current practices used and challenges faced by organizations. Because management is a broad field of study, the concentration in human resource management, international business and general management offer students a flexible course of study that can be individualized to meet their specific career objectives.

Regardless of concentration area, all students who major in management will find several recurring themes in their course work:

- the impact of technology on management practices
- an awareness and understanding of the global environment in which organizations operate and managers make decisions
- legal and ethical dilemmas faced by managers in carrying out their responsibilities

MAJOR IN BUSINESS ADMINISTRATION — MANAGEMENT CONCENTRATION

Students in the Management Concentration complete the major in Business Administration and 21 units in Management.

The Business Administration requirements include 21 units in lower-level core courses, and 33 units in upper-level Business core courses, as listed below. All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above, and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level BUAD core courses and most of the General Education (GenEd) requirements. Students who enroll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

MAJOR IN BUSINESS ADMINISTRATION — HUMAN RESOURCE MANAGEMENT TRACK

The Human Resource Management Track is designed to prepare students to apply their knowledge and skills for managerial positions in a human resource department. Students in the Human Resource Management Track complete the major in Business Administration and 21 units in Human Resource Management. The Business Administration requirements include 21 units in lower-level core courses, and 33 units in upper-level Business core courses, as listed below. All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above, and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level core courses and most of the General Education (GenEd) requirements. Students who entoll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

Requirements for Admission to the Business Administration Major

Students must be eligible for admission to the Business Administration major to enroll in upper-level Business core and concentration/track courses. To be eligible, students must complete the seven specific lower-level core courses with a grade equivalent of 2.00 or higher and a minimum GPA of 2.70 for ALL seven lower-level core courses. (See admission requirements in the Business Administration major section of this catalog.)

MAJOR IN BUSINESS ADMINISTRATION— INTERNATIONAL BUSINESS CONCENTRATION

The International Business Concentration is an interdisciplinary program comprising courses drawn from disciplines within the CBE. Students complete the major in Business Administration and 21 units in the International Business Concentration requirements.

The Business Administration requirements include 21 units in lower-level core courses and 33 units in upper-level Business core courses, as listed below. All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above, and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes both lower-level core courses and most of the General Education (GenEd) requirements. Students who enroll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

Department of Marketing and e-Business

Chair: Rodney Stump

Professors: William Grazer, Garland Keesling, Thomas

Maronick, Louise Smith

Associate Professors: Allan Miller, Richard Rosecky

Assistant Professor: Gewei Ye Lecturer: Laleh Malek

Administrative Assistant: Diane Hornbuckle

OFFICE

Stephens Hall 123, 410-704-3351

Fax: 410-704-3772

E-mail: dhornbuckle@towson.edu http://www.rowson.edu/marketing/

MISSION STATEMENT

The Department of Marketing and e-Business is committed to an excellent broad-based education in marketing and e-business that enables students to excel in positions of responsibility and leadership in a dynamic business environment by means of:

- Dedication to students and personalized service
- Teaching excellence
- Involvement with businesses, nonprofit organizations, and gov-
- Commitment to the highest ethical standards

PROGRAMS OF THE DEPARTMENT

The Department of Marketing and e-Business offers the following programs:

- The major in Business Administration with a Marketing Concentration
- The major in Business Administration with a Marketing Concentration and Mass Communication Interdisciplinary Specialization
- The major in Electronic Business
- The major in e-Business with the Financial Planning Track
- The double major in e-Business and Computer Information
- The double major in e-Business and Business Administration (Markering)

WHY STUDY MARKETING?

To prepare for jobs that comprise 25 to 33 percent of all civilian jobs. Entry-level jobs for college graduates include assistant product manager, sales representative, assistant store manager, research trainee, retail management trainee, customer service representative, assistant media buyer, assistant merchandiser, promotion and public relations assistant, and marketing trainee.

To understand the essential element that links all businesses with their customers. All people have needs. All companies want to satisfy those needs. Marketers are customer-driven business persons.

To help generate company profits while holding a fast-paced, visible, dynamic, desirable and well-paid position. All business planning starts and ends with marketing.

DISTINCTIVE FEATURES

- American Marketing Association Student Chapter
- The James Dunbar Jr. Endowment Memorial Scholarship
- Outstanding Marketing Graduate Award
- Marketing internships with prestigious organizations
- Electronic Business Association Student Organization

MAJOR IN BUSINESS ADMINISTRATION — MARKETING CONCENTRATION

Students in the Marketing Concentration complete the major in Business Administration and 21 units in Marketing.

The Business Administration requirements include 21 units in lower-level core courses and 33 units in upper-level Business core courses, as listed below. All major requirements must be completed with a grade equivalent of 2.00 or higher. See the Suggested Course Sequence for Business Administration Majors.

The Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree in Business Administration (BUAD) requires a minimum of 120 earned units, which must include successful completion of the General Education (GenEd) requirements, the Business Administration major requirements listed above, and electives. See the complete Degree Requirements in the University Curriculum section in this catalog.

During the freshman and sophomore years, pre-business administration (PBUA) students must concentrate on building an academic foundation as a base for the in-depth, upper-level courses. This foundation includes borh lower-level core courses and most of the General Education (GenEd) requirements. Students who enroll in CBE courses without having fulfilled the prerequisites risk losing their place in those courses.

Students are responsible for monitoring their own progress toward graduation. Students should consult with their assigned advisers to ensure that prerequisite courses are taken in proper sequence to meet the student's target completion date for the degree.

Requirements for Admission to the Business

Administration Major

Students must be eligible for admission to the Business Administration major to enroll in upper-level Business core and concentration/track courses. To be eligible, students must complete the seven specific lower-level core courses with a grade equivalent of 2.00 or higher and a minimum GPA of 2.70 for ALL seven lower-level core courses. (See admission requirements in the Business Administration major section of this catalog.)

WHY STUDY ELECTRONIC BUSINESS?

The e-Business Program is designed for individuals who aspire to work in technologically oriented companies and/or assist small businesses and developing companies to keep up with changes in the business world. Students will be able to develop, host and maintain online businesses in terms of applications of both Web-based and business strategies.

MAJOR IN ELECTRONIC BUSINESS

All major requirements must be completed with a grade equivalent of 2.00 or higher. The program consists of 21 units in lower-level core courses, 27 units of upper-level Business core courses, and 24 units of e-Business courses.

There is a two-tiered screening process required for admission to the e-Business major. Prior to admission, students must complete the seven (7) lower-level core courses with a minimum 2.70 cumulative GPA. They must also earn a 3.00 or better in the following courses: COSC111 Information and Technology for Business, MNGT337 Information Technology, and EBUS311 Principles of e-Business.

Admission Requirements

Candidates for the e-Business major must satisfy the following requirements:

- 1. Formally admitted to TU as a degree candidate.
- 2. Minimum cumulative GPA of 2.00 or higher for all course
- 3. Completion of most of the lower-level General Education requirements (GenEds).
- 4. Grade equivalent of 2.00 (grade of C) or higher in each lowerlevel core course.
- 5. Minimum GPA average of 2.70 for ALL seven lower-level core courses
- 6. Completion of Information and Technology for Business (COSC 111/112), Information Technology MNGT 337), and Principles of e-Business (EBUS 311) with a minimum GPA of 3.00 (grade of B) or higher for each of the three courses.

The minimum GPA will be reviewed each term and may be adjusted as space availability dictates. Candidates for the major must fulfill the requirements in effect at the time of application.

Lower-Level Core Courses (21 units)

| LOWEL LECTER | Gore Godrses (21 dilits) |
|--------------|---|
| ACCT 201 | Principles of Accounting I (or ACCT 211) (3) |
| ACCT 202 | Principles of Accounting II (or ACCT 212) (3) |
| COSC 111 | Information and Technology for Business |
| | (or COSC 112) (3) |
| ECON 201 | Microeconomics (or ECON 203) (3) |

| ECON 205 | Statistics for Business and Economics 1 (3) |
| | or |
| MATH 231 | Basic Statistics (or MATH 233) (3) |

Degree candidates intending to major in Electronic Business are designated as "pre-e-Business" (PEBU) until admitted into the EBUS major. Students are encouraged to meet each term with their assigned faculty adviser to evaluate their progress in completing the requirements for admission to major and the degree.

Application Procedure

Students who will meet the admission requirements at the end of the term must complete an Application for Admission to the EBUS Major and a Change of Major Declaration Form before registering for upper-level "majors only" CBE courses (BUSX, EBUS, ECON, FIN, MKTG, and MNGT). The forms are available in the Department of Marketing and e-Business, Stephens Hall, room 121 or CBE Student Academic Services, Stephens Hall 104.

Three courses selected from:

DOUBLE MAJOR IN ELECTRONIC BUSINESS AND **COMPUTER INFORMATION SYSTEMS**

The Electronic Business major with a second major in Computer Information Systems requires a minimum of 133 units to be earned with a grade equivalent of 2.00 or higher. The program consists of 21 units of lower-level core courses, 6 or 7 units of required mathematics, 24 units of upper-level BUAD core courses, 12 units of e-Business courses, and 32 units of computer information systems requirements as well as the General Education requirements.

Admission to the Double Major in Electronic Business and **Computer Information Systems**

Students are admitted to the double major in Electronic Business and Computer Information Systems on a competitive basis after first being admitted to the university. Admission to the university does not guarantee admission to the major. Each term, the Department of Marketing and e-Business considers applications for admission to the major in the following term. In order to be admitted to the major, students must satisfy specific screening requirements and complete an application form for admission. Degree candidates intending to pursue the double major in Electronic Business and Computer Information Systems are designated as "pre-e-Business" (PEBU) until admitted into the major. Students are encouraged to meet each term with their assigned faculty adviser to evaluate their progress in completing the requirements for admission to the EBUS major and the degree.

Admission Requirements

Candidates for the double major in e-Business and Computer Information Systems must satisfy the requirements for the e-Business major.

Application Procedure

If you meet the admission requirements by the end of the term, you must complete an "Application for Admission to the Double Major in Electronic Business and Computer Information Systems" and a change of major declaration form before registering for upper-level "majors only" CBE courses (ACCT, BUSX, EBUS, ECON, F1N, FPLN, LEGL, MKTG, and MNGT).

The forms are available in the Department of Marketing and e-Business, Stephens Hall, room 121, or the CBE Student Academic Services, Stephens Hall 104.

The College of Education

Towson University has a distinguished history in the preparation of classroom teachers and education specialists. As the first teacher-training institution in Maryland, Towson University has been preparing men and women for teaching careers for over 139 years. Programs of study within the College of Education lead to the baccalaureate degree in education with certification in Early Childhood Education, Elementary Education and Special Education. In addition, the college offers programs that lead to certification in Secondary Education and K-12 education for those students envolled in other colleges of the university. Programs of study within the college are constantly assessed and reorganized in order to provide students with three essentials for professional success: 1) a challenging general education in a variety of disciplines; 2) in-depth content knowledge in the field of teaching specialization; 3) and a professional education based upon current research and models of best practice.

The teaching faculty in the College of Education is dedicated to providing a background in research an learning and methods of instruction which prepares teachers and education specialists as facilitators of active learning for diverse and inclusive communities of learners in environments that are technologically advanced. To promote this goal, faculty members are committed to active participation in the academic community as teachers, scholars and advisers. They use methods of instruction which emphasize active student learning through the integration of content knowledge with the study and practice of effective pedagogy.

CERTIFICATION AND ACCREDITATION

The College of Education offers programs of study leading to the baccalaureate degree in education with certification to teach early childhood, elementary, and special education. In addition, the college offers programs that lead to teacher certification in secondary education and K-I2 education.

Teacher Education programs are approved by the National Council for the Accreditation of Teacher Education and the Maryland State Department of Education, which use state and nationally recognized standards. Completion of an approved program qualifies graduates for certification in all states that are members of the Interstate Reciprocity Contract. Applicants for Maryland teaching certificates are required to achieve qualifying scores on the Praxis I and II examinations, as determined by the Maryland State Board of Education.

TITLE II — HIGHER EDUCATION ACT

Required Program Information Report

I. Students

Total number of students enrolled in 2002-2003 — 2,521

2. Teacher Candidates

Total number of student teachers in 2002-2003 — 483

3. Faculty Supervising Interns

Appointed full-time faculty in professional education — 47 Appointed part-time faculty in professional education, but fulltime in the institution — 34

Appointed part-time in professional education — 2I

4. Ratio of Interns to Faculty Supervisors

Number of student teachers per faculty supervisor — 4.7

5. Length of Internship

7.5 hours per day; 5 days per week; 20 weeks 760 total hours of supervised internship

MISSION STATEMENT

The mission of teacher education at Towson University is to inspire, educate and prepare educators as facilitators of active learning for diverse and inclusive populations in environments that are technologically advanced. In this process, faculty members assume the responsibility for designing, developing, implementing and assessing academic programs for:

- 1. entering College of Education freshmen
- 2. community college transfer students
- 3. post-baccalaureate degree students seeking certification (MAT; approved programs)
- 4. master's degree students
- 5. post-master's degree students seeking continuous professional development

VISION STATEMENT

The vision of teacher education at Towson University is to build upon its rich heritage and excellent reputation and to position itself to maintain a leadership role in academic program planning and public policy formulation. By maintaining this leadership role, teacher education can ensure that active learning occurs in diverse and inclusive educational environments where contemporary information resources are available. Thus, teacher education, in collaboration with other public/private agencies, can assist in the readiness of all learners to succeed in a rapidly changing, diverse and highly technical world. In order to achieve this vision, Teacher Education programs at Towson University are committed to:

- ensuring the mastery of appropriate content in general studies in the liberal arts and sciences as well as in the specific acadenue discipline
- reflecting upon and refining best practices—professional knowledge and skills—to develop a repertoire of instructional and assessment strategies
- preparing students for diverse and inclusive communities of learners through systematic exposure to heterogeneous populations

- utilizing appropriate technologies which reflect best practices in education
- 5. helping develop, internalize and display professional conscience (a commitment to ethical practice, inquiry, knowledge, competence, caring and social justice in a democratic society)
- developing collaborative partnerships with the public/private sector
- 7. playing a leadership role in teacher education through scholarly endeavors

PROGRAM OUTCOMES

All Teacher Education programs utilize Maryland's Essential Dimensions of Teaching or the Interstate New Teacher Assessment and Support Consortium Principles as performance-based outcomes for teacher candidates.

ADMISSION TO TEACHER EDUCATION

The College of Education admits students either as freshmen or as undergraduate transfer students from accredited, post-secondary institutions. During the freshman and sophomore years, students are generally engaged in pre-professional courses or courses that fulfill General Education requirements.

Advising and Screening

Students who plan to enter Teacher Education programs must visit the Center for Professional Practice, Hawkins Hall, room 302, early in their first term in order to:

1. declare their major or concentration

2. complete a Criminal Background Disclosure Form

3. be assigned an adviser according to their chosen major

- 4. obtain information about the required speech and hearing screening
- 5. obtain information about the required Praxis I tests

Admission to Professional Education Programs

Admission to the professional program requires the following:

I. completion of a written application for formal admission to the program

minimum overall GPA of 2.50 in Secondary Education; minimum overall GPA of 2.75 in Early Childhood, Elementary Education and Special Education; (Students in Art Education, Dance Education, Health Education, Music Education and Physical Education should contact their department chairperson for procedures and requirements for admission to these programs.)

3. completion of speech and hearing screening

- 4. completion of English 102/190 or equivalent course with grade equivalent of 2.00 or higher; Secondary Education also requires an admission essay
- successful completion of Praxis I Academic Skills Assessments; qualifying scores must be submitted to the Center for Professional Practice for admission to College of Education programs. Information on the Praxis tests is available in the Center for Professional Practice, Hawkins Hall, room 302.
- 6. All students applying for admission to a Teacher Education program at Towson University are required to complete a Criminal Background Disclosure Form. This form may be obtained from the department for K-12 programs or from the Center for Professional Practice for College of Education programs. The form is to be notarized and sent to Karen Schafer, the director of the Center for Professional Practice, to be kept on file. Janet Martin of the Center for Professional Practice is a notary with posted office hours.

In addition to the undergraduate program, the College of Education offers approved, post-baccalaureate "certification only" programs for baccalaureate graduates seeking Maryland state certification. "Certification only" students must document a passing score (as determined by the Maryland State Department of Education) on Praxis I and attain the required GPA prior to admission

The Teacher Education Executive Board (TEEB) reserves the right to refuse, deny or revoke the application for admission to professional education programs or entry into the teaching internship (student teaching) of any student whose observed conduct is deemed incongruent with established guidelines of student demeanor for those planning to enter the teaching profession.

Admission to the Professional Year of Teaching

Students apply for student teaching over the Internet (http://bacost.towson.edu) through the Center for Professional Practice by the mid-term date of the term prior to the beginning of the Professional Year. All Teacher Education students must successfully complete the Praxis I tests and a speech and hearing screening. All preservice students in Teacher Education programs at Towson University whose programs of study require an intensive/extensive internship or student teaching experience in a public or private school setting (pre-K through 12) are required to complete a criminal background check before beginning this experience. The criminal background check must be filed with Karen Schafer, the director of the Center for Professional Practice. Forms are available in the Center for Professional Practice only.

Because some of Towson's Teacher Education programs have selected additional requirements for admission to the teaching internship (student teaching), students should refer to the section of this catalog related to their specific majors.

FIELD EXPERIENCE PLACEMENTS

Each Teacher Education student who has reached the appropriate level of competency will have a series of progressively responsible field experiences. Towson University is implementing a network of Professional Development Schools to provide all students with an intensive and extensive internship, including on-site course work integrated with pre-student teaching and student teaching experiences.

Differentiated student teaching (an additional and/or special teaching experience) may be taken by students with the permission of their adviser.

Students enrolled in the teaching internship (student teaching) are charged a lab fee. This fee is used for remuneration to mentor teachers in schools where field experiences are completed.

CENTER FOR PROFESSIONAL PRACTICE

OFFICE

Hawkins Hall 302, 410-704-2567

Director: Karen Schafer

Assistant Director: Carolan Stewart

The Center for Professional Practice is a service office working jointly with the College of Education at Towson University. The major purpose of the center is to assist students and instructors in placing students in a variety of field settings for internship experiences and developing and supporting Professional Development Schools. More specific operations include:

- facilitating field experiences—preservice and student teaching/internship, and Professional Development Schools
- 2. counseling students regarding field work
- 3. maintaining liaison between schools/agencies and university departments
- coordinating student advising (orientation, declaration of major, assignment of advisers, etc.)
- providing information to Education majors on Praxis and speech and hearing test administrations

- tracking Education majors and maintaining Education student records
- 7. evaluating requests for credit for prior teaching experience
- 8. coordinating the Student Teaching Abroad Program
- 9. collecting data that analyzes program strengths and needs

MARYLAND WRITING PROJECT

OFFICE

Hawkins Hall 403C, 410-704-3593 Director: Barbara Bass, 410-704-4573

Co-director: Linda De La Ysla, 410-704-4094

The Maryland Writing Project (MWP), a site of the National Writing Project, is housed in Towson University's College of Education. It is supported by the colleges of Education and Liberal Arts. Established in Baltimore in 1981, the MWP is a teacher-driven professional development organization for teachers across the content areas in grades pre-K through university. Its mission is to identify, train and support excellent teachers so that they can share with others their knowledge and experience in teaching writing and in using writing as a learning tool. Teachers participate in an invitational Summer Institute to become Teacher-Consultants. They research, develop and share best writing practices to effect change in their classrooms, schools and school systems.

The MWP offers both undergraduate and graduate courses. Maryland Writing Project Teacher-Consultants serve as instructors for EDUC 301 Writing and Communication Skills for Teachers. They also teach SCED 399 Differentiated Student Teaching, which is offered during the summer in conjunction with a camp for young writers called the Student Writers' Workshop. At the graduate level, MWP-trained Teacher-Consultants teach SCED 605, the 6-unit Summer Teacher Institute; EDUC 734, the Teacher Inquiry Institute; EDUC 667 Writing as Thinking; and EDUC 661 Responding to and Evaluating Writing. They also teach special topics courses at the graduate level throughout the year.

Finally, the MWP offers Maryland State Department of Education-approved, in-service professional development workshops in school systems across the state. The courses range in scope from daylong to yearlong classes.

Department of **Early Childhood Education**

MISSION STATEMENT

The mission of the Teacher Education Unit is to inspire, educate and prepare facilitators of active learning for diverse and inclusive communities of learners in environments that are technologically advanced.

PROGRAMS OF THE DEPARTMENT

The Department of Early Childhood Education offers the following programs of study: the major in Early Childhood Education, the major in Elementary Education with eligibility for Early Childhood Education certification, a Post-Baccalaureate Certification-Only Option, the Master of Arts in Teaching in Early Childhood Education, and the Master of Education in Early Childhood Education. For more information about the graduate program, consult the Graduate Catalog.

The Towson University Department of Early Childhood Education faculty prepares teachers to act as advocates for young children and their families, and to create and facilitate developmentally appropriate environments for them. The guiding principles that follow are the philosophical and practical basis for departmental programs.

Students entering the Early Childhood Education program are made aware of the sophisticated and demanding work that teachers of young children perform, and they are screened accordingly for admission into the program. Developing teachers are enabled to recognize teaching as one of the highest and most dynamic professional callings to which one can aspire. Faculty members facilitate the developing teacher's respect for, pride in, and commitment to the teaching profession. Faculty members motivate and inspire developing teachers in the most positive of ways, to have a sense of their ability to exert positive power in learning scenarios as well as exerting a firm sense of professional self-direction and decisionmaking skills. Faculty members assist developing teachers to become reflective and ever-growing practitioners. From the outset, developing teachers are taught and provided models that only the very best is good enough for young children and their families.

Faculty members work to awaken and support the developing teacher's ability to value and approach children from broad intellectual, academic and social foundations. Developing teachers are prepared to rely upon those foundations in order to support the development of relevant and challenging curricula and to learn to respond to young children's immediate and long-term needs.

Content-appropriate and developmentally appropriate pedagogy facilitates integrated learning experiences and environments for young children. The faculty understands how young children develop and learn, thus, they facilitate in developing teachers content-appropriate pedagogy. The faculty also provides a wealth of experiences, strategies, creativity and resources to enable developing teachers to draw in and inspire young children in content areas.

The Early Childhood Education faculty members help developing teachers understand how their personal and professional philosophies prompt them to facilitate the development of the "whole child." Integrated knowledge about child development is crucial to understanding children's play, learning and socialization. Faculty members make it apparent to developing teachers that assessing and responding to children's individual differences and developmental needs requires resourcefulness, responsibility and responsiveness. Developing teachers are encouraged to respond to the individual child while recognizing that their responses occur incrementally within the context of meeting the needs of a total group

Faculty members in Early Childhood Education are committed to enabling developing teachers to meet the diverse learning needs of all young children, particularly in terms of their creative and aesthetic development, their learning modalities or styles (visual, auditory, kinesthetic and tactile), and their myriad intelligences (spatial, musical, mathematical, linguistic, kinesthetic and personal). Moreover, the faculty encourages students to become teachers who value the significance of human diversity and the richness, beauty and power that human diversity offers to classrooms and other places where learning takes place. Faculty and developing teachers, therefore, are committed to designing diversity-rich environments that encourage respect for the individuality of teachers and young children. Additionally, faculty members promote respect for families and the importance of family in the lives of children. All of this serves as the ethical foundation of practice, providing a basis for developing teachers to move toward high ideals in their work with young children and their families.

Major in Elementary Education/Early Childhood Certification In cooperation with Elementary Education, students can select courses that will enable them to become certified in Early Childhood Education and Elementary Education. Graduates of this program are eligible to teach children from birth through age 13. Interested students should contact the chairs of both departments to plan their program.

Post-baccalaureate Certification-Only Option

For bachelor's degree holders in disciplines related to children and families as well as other fields of study, the Department of Early Childhood Education offers a post-baccalaureate program leading to Maryland certification in Early Childhood Education (birth-8). Prospective students interested in this option need to contact the department chairperson to set up an appointment to have their transcript(s) analyzed and a program of study developed based upon state certification and departmental requirements. The department will send to prospective students an application and packet of information and forms regarding post-baccalaureate study. Entry into and completion of this program includes a minimum GPA of 2.60 in previous academic work and passing the Praxis I and Praxis II examinations and attaining Maryland required scores. [Note: This is a non-degree program.]

Alternate Early Childhood Education Program

As a service to teachers who wish to pursue a degree in Early Childhood Education while they are on their teaching assignments and to other workers in programs for young children, the university offers an alternate program during evenings and summers for the preparation of nursery school, kindergarten, day care center and primary teachers which will enable them to major in Early Childhood Education. There is a requirement to student teach and to participate in the student teaching seminar during daytime hours. See the department chairperson for information.

Special Education Certification

Courses leading to Maryland State Department of Education certification in Special Education are available through the Department of Reading, Special Education and Instructional Technology. State certification is generic but age specific and requires 39 units, many of which are required for Early Childhood Education majors.

School Library Media

Coordinator: Cellestine Cheeks Hawkins Hall 204A, 410-704-2135

Early Childhood Education students may acquire an additional state certification endorsement for school librarian or media center positions (Educational Media Associate, Level I). Interested students should contact the Department of Reading, Special Education and Instructional Technology, or the coordinator.

MAJOR IN EARLY CHILDHOOD EDUCATION

To meet university, college and Maryland State Department of Education certification requirements in general education and professional education courses, students must complete a 128-unit program for graduation. Students must have a grade equivalent average of 3.00 or higher in all courses in the major; this includes interdisciplinary courses taken during the final four terms of the program. Students must maintain an overall GPA of 2.75 or higher in all courses from all institutions of higher education in which the student has been enrolled.

All students, beginning with their enrollment in ECED 103, Introduction to Early Childhood Education, will be responsible for compiling and refining a Professional Portfolio. Student portfolios

will be assessed and evaluated throughout the program.

Early Childhood Education majors need to confer with an adviser from the department each term to ensure that their planned program of study meets college, university and state requirements. This is particularly important if students are pursuing minors or if they are planning for additional certifications. Students also need to check with their departmental adviser prior to taking a course on a Pass grading option as courses in the major and courses required for certification cannot be taken using the Pass/Fail grading option.

Early Childhood Education Screening Criteria

Early Childhood Education is a screened major. Students apply for the major during their fifth term to begin in their sixth term. Students must complete 65 units of courses in the program, have a cumulative 2.75 GPA and 3.00 GPA in professional courses from the time they enter the program until the time of graduation. The number of students admitted into the program each term is determined by the number of seats available. Typically there are 40 seats open per term for students meeting all requirements to enter the major.

The following requirements must be met for entry into the

1. completion of 65 or more units including ECED 103, ECED 201, ENGL102/190, MATH 204, MATH 205, MATH 251, and SPED 301 with a grade equivalent of 2.00 or higher.

- 2. achievement of a cumulative GPA of 2.75; this includes all grades earned in transfer courses and grades earned at Towson University. (A failed course that has been repeated satisfactorily at another institution will be eliminated only from the computation for admission into the Early Childhood Education program. Courses taken at Towson University and repeated at another college or university do not apply to Towson's repeated course policy. See "Transferring Work to Towson" under the Academic Regulations section of this catalog.)
- 3. completion of the Speech and Hearing screening. This screening is offered free at the beginning of each term for two days only. Call the Speech-Language-Hearing Clinic in Van Bokkelen Hall or the Department of Early Childhood Education for dares.

- 4. a score at or above the level established in March 1999 by the Maryland State Board of Education on the Praxis 1 - Academic Skills Assessments Examination: Pre-Professional Skills Tests (written and computer versions) (PPST) - Math: 177; Reading: 177, Writing: 173. A composite score is now being accepted by the Maryland State Department of Education for any student who did not pass the Praxis I. For more information on the passing composite scores contact the Department of Early Childhood Education.
- 5. application, including official transcripts from all post-highschool institutions, submitted to the Center for Professional Practice by the announced closing date sent to eligible students each term. (Note: Students are required to submit a "Blue Card" to the department office, Hawkins Hall 014, and to update the information on the card each term. The Blue Card is completed with the assistance of the student's adviser.)
- 6. meet with the student's Early Childhood Education adviser during the current term and provide an updated Checklist of Degree Requirements including the courses being taken in the current term.

ECED Student Teaching Internship Criteria

Admission into the Student Teaching Internship requires a cumulative GPA of 2.75 or higher and a 3.00 or higher in the

All students in Teacher Education programs at Towson University are required to undergo a Criminal Background Check before entering the Student Teaching Internship. The Criminal Background Check shall be filed with the director of the Center for

Professional Practice, where it is kept on file.

All students need to complete two of the Praxis II-Subject Assessments/Specialty Area Tests. The tests are Early Childhood Education #10020 and Education of the Young Child #10021. Both tests are required for Early Childhood Education students under "No Child Left Behind" to become certified and highly qualified in the state of Maryland. Test #10021 Education of the Young Child has not yet been approved by the Maryland State Board of Education. Until the test is approved, the Maryland State Board of Education will accept the test #10014 Elementary Education: Content Knowledge. Praxis II tests must be taken no later than during the student teaching internship if students expect to attain certification upon graduation. The tests are offered in written form only and must be taken on two different test dates. Check with the Department of Early Childhood Education for updated information and passing scores for each test.

ECED FIELD PLACEMENTS

Each Teacher Education student who has reached the appropriate level of competence will have a series of progressively responsible field experiences. Towson University is implementing a network of Professional Development Schools to provide all students with intensive and extensive internships, including on-site course work and integrated pre-student teaching and student teaching internship

As part of the three-term professional program in Early Childhood Education, students enrolled in either Primary or the Student Teaching Internship for the fall term will begin their work in August on the same date that teachers start the new school year. This date varies by school system, and candidates must plan appropriately to fulfill their program requirements.

STUDENT TEACHING TERM

A maximum of 18 units may be taken during the student teaching internship term.

TRANSFER STUDENT POLICIES

A minimum of 30 units in the major must be completed at TU. SPED 301 Introduction to Special Education, is transferable from certain institutions only. Students should contact their adviser for more information. Students are required to take the final 30 units in residence at Towson University. An application process is required to apply to this major, in addition to acceptance to Towson University (September for spring registration; February for fall registration).

OUTCOMES

Students are required to compile and present a Professional Portfolio in order to graduate. The Early Childhood Teacher Education Program utilizes the Interstate New Teachers Assessment and Support Consortium (INTASC) standards, Maryland's Essential Dimensions of Teaching (EDoTs), and the Standards of the National Association on the Education of Young Children as the performance-based outcomes for all teacher candidates and the foundation framework for the Portfolio.

MASTER OF ARTS IN TEACHING — EARLY CHILDHOOD EDUCATION

Director: Edyth Wheeler E-mail: ejwheeler@towson.edu Hawkins Hall 107-O, 410-704-2460

A Master of Arts in Teaching program is designed to prepare especially qualified students for teaching certifications in Pre-kindergarten through grade 3. For more information, see the Graduate Catalog.

Department of **Elementary Education**

Professors: Bess Altwerger, Karen Robertson Associate Professors: Gregory Bryant (Chair), Lynn Cole, Roxanna Dellavecchia (Assistant Dean), Linda Emerick (Graduate Director), Lijun Jin, Nechie King, Prisca Martens (Assistant Chair), Jane Neapolitan,

Assistant Professors: Robert Blake, Shelly Huggins, Nancy Jordan, Morna McDermott, Kate Power, Nancy Shelton

Visiting Assistant Professor: Pamela Morgan

Lecturers: Paula Bauer, Donna Copenhaver, James Cowan, Donna Culan, Barbara Ann Ellis, Debora Lang, Barbara Maestas, Richard Metzgar, Sue Rathbone, Carol Slizys

OFFICE

Hawkins Hall 100A, 410-704-2176 Undergraduate Information: 410-704-2565 Graduate Information: 410-704-4251 E-mail: sgrey@towson.edu

PROGRAMS OF THE DEPARTMENT

The Department of Elementary Education offers the following programs of study: the major in Elementary Education, the major in Elementary Education with eligibility for Early Childhood certification, the Integrated Elementary Education—Special Education major, the Elementary Education major with a minor in selected disciplines, the Master of Arts in Teaching, and the Master of Education in Elementary Education. For more information about the master's programs, consult the Graduate Catalog.

The Elementary Education faculty believes that well-prepared elementary school teachers are facilitators of active learning. As reflective practitioners, teachers engage students in the learning process by utilizing research findings and experience-based strategies and practices to make sound, educational decisions. These decisions should be based upon an articulated education philosophy, a thorough knowledge of students' strengths and needs, and an analysis of various learning environments. The Elementary Education program fulfills the goal of preparing such teachers through a program based on a broad liberal arts background and professional preparation, including a planned sequence of courses and field experiences in the Baltimore metropolitan area.

The major in Elementary Education leads to certification to teach grades 1 through 6 and middle school (7-8). The program provides classroom and laboratory experiences that prepare students for beginning teaching in elementary or middle schools. Candidates who desire a middle school placement must pass the Praxis II subject matter test in the content discipline.

The Department of Elementary Education has adopted the Interstate New Teacher Assessment and Support Consortium (INTASC) principles as its performance-based outcomes for its programs. Candidates are required to demonstrate mastery of outcomes in a summative portfolio.

Major in Elementary/Early Childhood Education Certification In addition to the major in Elementary Education, students can select courses that will enable them to become certified in both Elementary and Early Childhood Education. Graduates of this program are eligible to teach children from birth through grade 8. Interested students should contact the chairs of both departments to plan their programs.

Integrated Elementary Education-Special Education Major Elementary Education majors may elect to become certified in both Elementary and Special Education by selecting the integrated approach. This program, specially designed to integrate both majors, prepares students as elementary classroom teachers and as special education teachers.

Elementary Education Major with a Minor

Elementary Education majors may complete programs with minors in other selected disciplines by arrangement with the chair of Elementary Education and the chair of the other department.

Elementary Education Major/Mathematics Minor

Through a cooperative program between the departments of Elementary Education and Mathematics, students can use a middle school student teaching experience as a route to elementary certification with a mathematics minor. Interested students should consult with the chairs of both departments as early in their college program as possible.

DECLARING THE ELEMENTARY **EDUCATION MAJOR**

Students interested in becoming Elementary Education majors must first gain admission to Towson University. Admission to the university does not guarantee admission to the Elementary Education program. During the first two weeks of the term, all students should report to the Center for Professional Practice, Hawkins Hall, room 302, to be assigned to an adviser and to complete the following forms:

• Declaration of Major/Minor

Criminal Background Disclosure

All students enrolled in a Teacher Education program are required to undergo a criminal background check before participating in any internship placement.

APPLYING FOR THE PROFESSIONAL INTERNSHIPS

The Elementary Education program is divided into a Pre-Professional Program (65 units) and courses in a sequence of Professional Internships (61-62 units) for a total of 126-127 units. Acceptance into the Professional Internships is a competitive process and enrollment is limited by course availability and faculty resources. To submit an Application for the Professional Internships to the Department of Elementary Education, Elementary Education majors must meet the criteria listed below.

Native Towson University students:

- Complete a minimum of 58 units of the Pre-Professional Program with a minimum 2.75 GPA at Towson University.
- Pass the Praxis I test.
- Take a Speech and Hearing Screening (any time prior to applying).
- · Attend a mandatory orientation meeting (dates, times, locations posted outside of Hawkins Hall 100).

Transfer students with a Maryland-approved Associate of Arts in Teaching (AAT) degree:

- Complete a minimum of 58 units of the Pre-Professional Program with a minimum 2.75 GPA at Towson University.
- Pass the Praxis I test.
- Take a Speech and Hearing Screening (within the first two weeks of Level I Internship).
- Attend a mandatory orientation meeting on the Towson University campus (dates, times and location on campus are listed in the Application for the Professional Internships available through the community college teacher education coordi-

AAT degree candidates must submit an Application for the Professional Internships in the term prior to their anticipated enrollment.

86 The College of Education

Transfer students with an Associate of Arts degree:

- Complete a minimum of 58 units of the Pre-Professional Program with equivalent courses, and a minimum 2.75 transfer GPA.
- Pass the Praxis I test.
- Take a Speech and Hearing Screening (within the first two weeks of Level I Internship).

A.A. degree students may submit an Application for the Professional Internships during their first term of enrollment.

Elementary Education majors must have a minimum 2.75 GPA to apply for the Professional Internships. However, applicants may be ranked according to cumulative GPA if the number of applicants exceeds course availability. Therefore, the GPA necessary for admission may exceed the minimum 2.75. Elementary Education majors must maintain a minimum 3.00 GPA to remain enrolled in the Professional Internships and must earn a 2.00 or C grade in all courses in the Professional Internships.

Students must submit their Application for the Professional Internships to the Department of Elementary Education, Hawkins Hall, room 100A, by the deadline established by the department. Transfer students who are pursuing an Associate of Arts in Teaching degree from a Maryland community college should obtain the Application for the Professional Internships from their community college teacher education coordinator and must attend a mandatory orientation meeting on the Towson University campus. Dates, times and locations of the orientation meetings are listed in the Application for the Professional Internships.

DEGREE REQUIREMENTS FOR ELEMENTARY **EDUCATION MAJORS**

PRE-PROFESSIONAL PROGRAM (65 units)

English (6 units)

Department of Reading, Special Education and Instructional Technology

Professors: Karen Blair, Deborah Gartland, Michael Hickey, Paul Jones (Chair), Barbara Laster, Jane Williams

Associate Professors: Cellestine Cheeks, Darlene Fewster, Maya Kalyanpur, Amy Pleet, Roberta Strosnider, David Wizer

Assistant Professors: Poonam Arya, Heather Fox, Mark Hofer, Jeff Kenton, Davenia Lea, Frances Luther, Stephen Mogge, Sharon Pitcher, William Sadera, Livan Song,

Sharon Pitcher, William Sadera, Liyan Song

Lecturers: Steve Boone, Suzanne Bourdess, Sharon Brown, Claudia Carlson, Elizabeth Dicembre, Barbara Ellis, Beverly German, Olga Kritskaya, Jon-David Knode, Joan McCarthy, Charles Meyer, Deborah Piper, Cinda Raley, Patricia Ryan, Terry Sulliyan, Ronald Thomas, Cheryl Wood

Visiting Instructors: Rosemary Rappa

Director of the Educational Technology Center: Deborah Fuller

OFFICE

Hawkins Hall 207, 410-704-4384, or 410-704-2576

PROGRAMS OF THE DEPARTMENT

The Department of Reading, Special Education and Instructional Technology is responsible for courses that are not limited to a single teacher education program. The education course listings include core education courses that provide knowledge and skills for general application in teaching and training areas. The instructional technology and special education offerings also have K-12 applications.

The department coordinates the reading programs and the Reading Center, Developmental Reading courses, Special Education, and Instructional Technology. Graduate programs include the Master of Arts in Teaching and the master's programs in Reading, Instructional Technology and Special Education.

MAJOR IN SPECIAL EDUCATION

Infant/Primary Track

Director: Maya Kalyanpur

Hawkins Hall 409, 410-704-3122

Students majoring in Special Education complete the Infant/Primary Track (birth-grade 3). To meet the requirements of the College of Education and the Maryland State Department of Education, students must complete all required General Education and professional education courses for the Infant/Primary Track to earn a total of 131 units. Students must maintain an overall cumulative GPA of 2.75 or higher and a 3.00 GPA or higher in courses for the major.

Elementary/Middle Track

Director: Darlene Fewster

Hawkins Hall 103A, 410-704-2459

Students majoring in Elementary Special Education complete the Elementary Track (grades 1-8). To meet the requirements of the College of Education and the Maryland State Department of Education, students must complete all required General Education and professional education courses required for the Elementary/Middle Track to earn a total of 128 units. Students must maintain an overall cumulative GPA of 2.75 or higher and a 3.00 GPA or higher in courses for the major.

Secondary/Adult Track

Director: Charles Meyer

Hawkins Hall 305, 410-704-4915

Students majoring in Secondary Special Education complete the Secondary/Adult Track (grade 6-adult). To meet the requirements of the College of Education and the Maryland State Department of Education, students must complete all required General Education and professional education courses for their concentration to earn a total of 134-135 units. Students must maintain an overall cumulative GPA of 2.75 or higher and a 3.00 GPA or higher in courses for their major.

Special Education majors should meet with their advisers every term to ensure that their planned programs of study meet university, major and Maryland State Department of Education certification requirements. Students must consult with their advisers prior to taking courses on a Pass grading option. Courses in the major and courses required for Maryland State Department of Education certification must not be taken with this option.

Exceptions, changes, waivers, and/or substitutions from the program pattern for Special Education majors in content or sequence are permitted only with the written consent of the director of the Special Education Program.

MAJOR IN INTEGRATED ELEMENTARY EDUCATION-SPECIAL EDUCATION

Director: Debi Gartland

Elementary Education majors may elect to become certified in both Elementary and Special Education by selecting the integrated approach. This program, specially designed to integrate both majors, prepares students as elementary classroom teachers and as special education teachers.

PRE-ADMISSION REQUIREMENTS FOR ALL CANDIDATES

Students interested in majoring in Special Education must first gain admission to Towson University. Admission to the university, however, does not guarantee admission to the Special Education major. Students must then complete a Declaration of Intended Major Form available through the Center for Professional Practice (CPP), Hawkins Hall, room 302, at which time they will be assigned a Special Education adviser. All students applying for admission to a Teacher Education program at Towson University are required to complete a Criminal Background Disclosure Form. This form is to be notarized and sent to the director of the Center for Professional Practice to be kept on file.

Screening

Special Education is a screened major. All candidates for the Special Education major may be ranked according to cumulative GPA in all college or university courses (transfer GPA and/or TU GPA). The number of students admitted during any given term is determined by the number of seats available in courses which, in turn, is determined by available faculty resources.

To receive approval for admission, students are required to:

- 1. take a speech and hearing screening
- 2. have a cumulative GPA of 2.75 or higher (which includes grades transferred to and grades earned at TU)
- 3. have completed ENGL 102 with a grade of C or higher
- 4. have completed 60 or more units
- have scores on the Praxis I at or above the level of standards established by the Maryland State Department of Education. (Information on the Praxis tests is available in the Center for Professional Practice, Hawkins Hall, room 302.)

Screening occurs again for admission into student teaching. Students are required to have a cumulative GPA of 2.75 or higher and a GPA of 3.00 or higher in the major and must have completed a minimum of 90 units. All preservice students in Teacher

Education programs at Towson University whose program of study requires an intensive and extensive internship or student teaching experience in a public or private school setting (pre-K through 12), are required to undergo a criminal background check before beginning this experience. The criminal background check must be filed with the director of the Center for Professional Practice.

Transfer Students

The Special Education Program personnel are responsive to the transfer student and will accept those credits which are compatible with the General Education (GenEd) requirements, Special Education major and state certification requirements. Please note, although credits might qualify toward graduation, only an evaluation conducted by the Special Education director will determine which credits will also apply toward the major. Students must first have their transcripts evaluated by the Office of Admissions before requesting a special education transcript evaluation.

The Professional Year

Special Education majors follow the school system calendar for the Professional Development School to which they are assigned as interns or student teachers. The professional year starts in August when the teachers begin the school year and follows the school system spring break schedule.

GRADUATE PROGRAM IN SPECIAL EDUCATION

Director: Amy Pleet

Hawkins Hall, 402A, 410-704-6001

This Master of Education program prepares currently certified teachers for careers as special educators and special education specialist/leaders. The Certification Track meets the requirements for MSDE generic special education certification at early childhood, elementary or secondary levels. The Teacher as Leader Track satisfies 12 of the 18 units of the Maryland Administrator I Certificate and offers a choice of three focus areas for further study in technology, inclusion or transition to adulthood. The Master of Arts in teaching offers certification in special education for individuals who hold an undergraduate degree outside of education. See the Graduate Catalog for details

GRADUATE STUDY IN READING

Director: Barbara Laster

Hawkins Hall 107-G, 410-704-2556

A graduate program specifically designed to improve the teaching of reading at all age levels is available for qualified students seeking Maryland State Certification as Reading Specialist K-12. See the Graduate Catalog for details.

DEVELOPMENTAL READING

Director: L. Steven Boone

Hawkins Hall 206, 410-704-3697

Remediation in reading skills is provided for Towson students through the developmental studies courses in reading scheduled by the Department of Reading, Special Education and Instructional Technology. See competency requirements for entering students under the Academic Achievement Center section in Academic Resources. Informational sessions for the Praxis are also conducted.

GRADUATE STUDY IN INSTRUCTIONAL

TECHNOLOGY

Director: David Wizer

Hawkins Hall 402D, 410-704-6268

The Department of Reading, Special Education and Instructional Technology offers a comprehensive graduate program which prepares professionals for careers in the instructional media field. The Instructional Development Concentration is intended for those who wish to prepare for training and media positions in business, community and governmental settings. The School Library Media Concentration is intended for the person who plans to direct a School Library Media Center. Persons holding this degree are eligible for certification by the Maryland State Department of Education as an Educational Media Generalist (Level II). The Educational Technology Track is designed for those who wish to integrate technology into classroom teaching, or to coordinate the planning and integration of educational technologies at the school, district or state level. See the Graduate Catalog for details.

Department of **Secondary Education**

Professors: David Vocke (Chair), James Lawlor, Gloria Neubert,

Thomas Proffitt

Associate Professor: Cynthia Hartzler-Miller Assistant Professors: Todd Kenreich, Barri Tinkler Lecturers: Nancy Boyd, Jack Cole, Susan Hanson, David

Lovewell, Allan Starkey

OFFICE

Hawkins Hall 405K, 410-704-2562

MISSION STATEMENT

The mission of the Teacher Education Unit is to inspire, educate and prepare facilitators of active learning for diverse and inclusive communities of learners in environments that are technologically advanced.

PROGRAMS OF THE DEPARTMENT

The Department of Secondary Education offers 13 certification programs in the secondary subject areas of biology, chemistry, earth-space science, English, French, geography, German, history, mathematics, physics, school health, social science and Spanish.

Programs for teaching kindergarten through grade 12 in Art, Dance, Library/Media, Music and Physical Education are offered

by these academic departments.

All Teacher Education programs are approved by the Maryland State Department of Education and the National Council for the Accreditation of Teacher Education (NCATE). Upon graduation in one of these programs, students are eligible for certification to teach in Maryland.

The programs of education for junior, middle and high school teachers are designed to bring about close integration between teaching methods and the practical experience of observation and student teaching. Students are required to file a Declaration of Intention Form. A Secondary Education adviser is required in addition to an adviser in the major for the following majors: English Education, Geography Education, History Education, Mathematics Education, Modern Language Education, Science (Biology, Chemistry, Earth-Space Science and Physics) Education or Social Science Education. For information, go to Hawkins Hall, room 405K.

FORMAL ADMISSION TO THE PROGRAM

Formal admission into the Secondary Education Program occurs when students have met the following criteria:

1. completion of at least 45 college units

2. completion of a written application, including an essay

3. a 2.50 cumulative GPA for all postsecondary institutions

attended (submit original transcripts)

- 4. presentation of Score Reporting Form for passing scores on Praxis I—Academic Skills Assessment: Reading, Writing and Mathematics to the Center for Professional Practice for admission to the program. Information on the Praxis tests is available in the Center for Professional Practice, Hawkins Hall, room 302.)
- 5. All students applying for admission to a Teacher Education program at Towson University are required to complete a Criminal Background Disclosure Form. This form is to be notarized and sent to the director of the Center for Professional Practice to be kept on file.

Once passing scores for Praxis I are received, students are permitted to enroll in Principles of Secondary Education and Using Reading and Writing in the Secondary School. Prior to program admission,

The College of Education

students are permitted to take only Educational Psychology, Introduction to Special Education, K-12, Foundations of Education, and Utilization of Instructional Media from the education program.

Information on Praxis testing is available in the Center for Professional Practice (Hawkins Hall, room 302). Students must secure approval for student teaching from the department; it is contingent upon successful completion of the required courses, demonstration of acceptable competencies in the tested areas, and meeting GPA requirements (see GPA Requirement for Student Teaching).

After introductory courses in the nature of today's schools and their students and appropriate field experiences, the prospective secondary teacher enters the student teaching term which begins prior to the start of the TU term. Methods, philosophy, techniques and practice are combined to provide a thorough preparation for teaching, and such preparation must be demonstrated prior to student teaching.

SECONDARY TEACHER EDUCATION PROGRAM

In addition to majoring in one of the 13 subject area certification programs and satisfying the university General Education (GenEd) requirements, students must complete the professional education courses listed below.

Outcomes

The Department of Secondary Education utilizes the *Interstate New Teacher Assessment and Support Consortium (INTASC)* Principles as the performance-based outcomes for teacher candidates.

Required Professional Education Courses

A minimum grade equivalent of 2.00 or higher is required for all

| courses. | |

Fulfillment of the GenI d Category II.C.3. Western Heritage: Cultural Plurality and Diversity

07

GenEd II.D. Global Awareness: Non-Western Cultures, Traditions, Issues

Note: Some methods courses are offered spring or fall only. Check with your adviser.

Subject Major

Refer to the department under which a specific major is discussed. For instance, those interested in teaching history at the secondary level should refer to the Secondary Education program of the Department of History for specific requirements.

The Professional Year

As part of their year-long professional internship, all teacher candidates begin their Professional Development School internship prior to the start of the regular Towson University term. This date varies by school system, and candidates must plan appropriately to fulfill their program requirements.

REQUIREMENTS FOR STUDENT TEACHING

- 1. All students must meet the following GPA requirements to be admitted to student teaching: 2.75 GPA in major field and in professional education courses and 2.50 overall GPA, based on transcripts from all institutions of higher learning attended. (Consult with SCED adviser.)
- 2. All preservice students in Teacher Education programs at Towson University whose program of study requires an intensive and extensive internship or student teaching experience in a public or private school setting (pre-K through 12) are required to undergo a criminal background check before entering this experience. The criminal background check must be filed with Karen Schafer, the director of the Center for Professional Practice.

KINDERGARTEN-12th GRADE TEACHER EDUCATION PROGRAMS

Students may obtain certification to teach the following subjects at both the elementary and secondary levels: art, dance, library media, music and physical education.

Teacher Education programs exist in the following areas:

- Art Education
- Dance Education
- Library Media
- Music Education
- Physical Education

For required courses and special program information, consult the section of this catalog dealing with each particular major.

SPECIAL EDUCATION PROGRAM

Students wishing to major in Secondary Special Education should contact Patricia Mandell, Hawkins Hall 305, 410-704-4915.

MASTER OF ARTS IN TEACHING—SECONDARY

Director: Debbie Piper

Hawkins Hall 209, 410-704-4935

The Master of Arts in Teaching program is designed to prepare especially qualified post-baccalaureate students for teaching certifications in grades 5 through 12. Consult the *Graduate Catalog* for more information.

The College of Fine Arts and Communication

The College of Fine Arts and Communication (COFAC) comprises the departments of Art, Dance, Electronic Media and Film, Mass Communication and Communication Studies, Music, and Theatre Arts. Through classroom and experiential preparation, COFAC's programs prepare graduates for exciting careers and/or graduate study. The broad liberal education we offer, along with specialized professional training in their respective fields, enables students to develop creative and analytical abilities tailored to their future aspirations. In fact, we not only provide intensive study for our majors and minors, we also offer all TU students the opportunity to participate in an exciting variety of academic and artistic experiences.

In fall 2005, the renovation and addition of the Center for the Arts, the home of the departments of Art, Dance, Music and Theatre Arts will be completed. The building project doubles the size of the facilities available to students, adds a music recital hall, an MFA art gallery, an intimate lab theatre, and four state-of-the-art dance studios, including a studio-theatre space. The Center for the Arts will also house the Asian Arts & Culture Center gallery and garden, and the Maryland Arts Festival headquarters. The College of Fine Arts and Communication also maintains several additional spaces that assist students and faculty in activities supporting curricular offerings. These include Van Bokkelen Hall and the Media Center-housing journalism laboratories, the debate and speech facility, XTSR-AM, radio-television-film laboratories, the television station and WMJF-TV-and Stephens Hall Theatre, which provides performance space for dance, opera and musicals.

Recognized as a fine arts center for Maryland, the college continues to pursue its mission to enhance communication and the fine and performing arts, and contribute to the cultural life of Towson and Greater Baltimore through an annual program of events that includes more than 90 music performances; at least 26 student films: 17 dance events; numerous debates, lectures and workshops; no fewer than four mainstage plays; a daily campus television show; and eight to 10 art exhibits.

The college also sponsors international exchange programs with schools in China, Germany, Ireland, Korea, Russia, Italy and the United Kingdom. Please visit our Web site for more information.

PROGRAMS OF THE DEPARTMENT

The Department of Art offers a comprehensive program comprising the following areas of concentration: Art History, Crafts, Industrial Design, Painting, Printmaking, Sculpture, Graphic Design, Illustration and Photography. Associated with these concentrations, four degree programs are offered: the major in Art, the major in Art Education, the Master of Education in Art Education and the Master of Fine Arts. Minors are offered in Art History and Studio Art.

The Department of Art offers a comprehensive, full-term travelstudy abroad program as an integral part of the curriculum. Students register on campus but pursue art courses in a foreign locale under University System of Maryland faculty direction.

The Department of Art offers non-credit art instruction throughout the year for children and adults through the Community Art Center.

FACILITIES

The facilities available to undergraduate and graduate students are extensive. They are designed to encourage and fully support the creative endeavors of students. Each area of concentration has the equipment necessary to assure that students reach their potential.

MAJOR IN ART

Art majors must complete 66 to 72 units in art, depending on concentration and program option. As part of the total number of units, 36 units are taken in foundations. The First Level Foundation core (18 units) is identical for all majors. The Second Level Foundation core (18 units) is specific to the program option. (See Second Level Foundation courses listed under separate concentrations/options.) All Art majors must successfully complete all of the first-year foundation courses listed below with a grade of at least a C before enrolling in any other art courses.

First Level Foundation (18 units)

| ART 103 | Design I (3) |

INDUSTRIAL DESIGN SCREENED CONCENTRATION (72 units)

*Not admitting new students fall 2005-spring 2007

Prerequisites and procedures for Industrial Design screening:

1. GPA of 3.00 in the major and 2.67 overall.

2. The following courses must be completed by the end of the term in which the student applies to the Industrial Design Concentration: ART 103, ART 104, ART 111, ART 217, ART 229, ARTH 221, ARTH 222. Students must complete the above courses, or equivalent transferred courses, with at least a B- (2.67) before taking further courses in the Industrial Design Concentration.

3. At least a B (3.00) in ART 211 (Drawing II), ART 368 (Industrial Design I), and ARTH 327 (History of Modern Design).

4. Submit a portfolio the second year of the four-year concentration to the Industrial Design faculty committee. To be considered in the screening process, students must submit the following by the last day of finals in a given term: an official transcript, an Industrial Design Screening Form and a sealed 18"x24" portfolio. The portfolio must include two pieces of work from ART 103, ART 211, ART 217, ART 229 and ART 468 (a total of 10 pieces). Students who do not submit a portfolio or who submit an incomplete portfolio will NOT be considered for the Industrial Design Concentration at that time. Late applications will not be considered

5. Students not accepted into the concentration may reapply twice. If the student's GPA in the major falls below 3.00 and 2.67 overall, he or she may have one probationary term to get the GPA in the major back to 3.00 and 2.67 overall. Students would not be eligible to take further classes in the Industrial Design Concentration until they have been screened into the concentration. If the student does not raise his or her GPA in the major back to at least a 3.00 and 2.67 overall by the end of the probationary term, then the student must leave the Industrial Design Concentration but can con-

tinue in another area of the Art major.

VISUAL COMMUNICATION CONCENTRATION

Students may select one of five program options within the Visual Communication Concentration: 1) Graphic Design Screened Option, 2) Illustration: Studio Media Option, 3) Illustration: Digital Option, 4) Photography: Fine and Applied Arts Option, or 5) Photography: Photographic Imaging Interdisciplinary Option.

Graphic Design: Screened Option (72 units)

Student prerequisites and procedures for Graphic Design screening:

1. A GPA of 2.67 overall.

2. The following courses must be completed by the end of the term in which the student applies to the Graphic Design Option: ART 103, ART 104, ART 111, ART 211, ART 217, ART 229, ARTH 221, ARTH 222. Students must complete these courses, or equivalent transferred courses before taking further courses in the Graphic Design Option.

3. A grade lower than B- (2.67) in any studio art course will eliminate the student from consideration for the Graphic Design

Option.

4. Declared Art majors may apply to the Graphic Design Option at the end of their third term of study. At the time of application, a minimum of 45 units must have been completed, including courses from that term. Students may apply who have earned an A.A. degree in a related major.

5. To be considered in the screening process, students must submit the following by the last day of finals in a given term: an official transcript, a Graphic Design Screening Form and a sealed 18"x 24" portfolio. The portfolio must include two pieces of work from ART 103, ART 211, ART 217 and ART 229 (a total of eight pieces). Students who do not submit a portfolio or submit an incomplete portfolio will not be considered for the Graphic Design Option at that time. Late applications will not be considered. Students with an overall GPA of 3.50 or greater, having completed other prerequisites, and having completed a minimum of 45 units at Towson University, are accepted on confirmation of their overall GPA and do not need to submit portfolios.

6. Students not accepted may reapply twice. If the student's GPA falls below a 3.00 in the major or 2.67 overall, the student may have a probationary term to get the major GPA to 3.00 and GPA to 2.67 overall.

ART HISTORY CONCENTRATION

Students may select one of two program options in Art History: 1) Research or 2) Research/Studio.

Research Option

This option is for those students who want to work in the curatorial, educational, public relations or registration areas of a museum or gallery or who wish to go on to graduate school in the art history field. This program option has no studio requirements.

To complete the research option, students must take a total of 45 upper-division units. Of the 45 upper-division units, a minimum of 27 units, but not more than 36 must be taken in art history. If students choose to take the minimum 27 units, the difference between the 27 minimum and the 36 maximum must be taken in allied disciplines such as Anthropology, English, History, and Philosophy, subject to the approval of the faculty advisor. The remaining units to reach the 45 upper-division total are elective, but they must also be taken in academic disciplines related to the student's interests in art history. Once the 45 upper division requirements have been fulfilled as described above, students may take additional elective art history courses.

Required Courses (12 units)

| ARTH 221 | Survey of Western Art I (3) |
|----------|---|
| ARTH 222 | Survey of Western Art II (3) |
| ARTH 391 | Research Methods in Art History (3) |
| ARTH 485 | Seminar in Art History (repeatable) (3) |

MAJOR IN ART EDUCATION (SCREENED MAJOR)

Students in the Art Education program receive dual certification enabling them to teach art in Maryland in grades K-12. In addition to meeting the General Education requirements (45 units), students complete art education and professional education requirements for 97 units. The entire program is approximately 142 units and takes five years to complete. The art education block is taken in the last three terms of the program.

Requirements for admission are as follows:

- 1. Junior standing
- 2. An overall GPA of 2.75
- 3. A GPA of 3.00 in the major
- 4. An interview and portfolio review with the art education faculty
- 5. Permission of the education department

To continue within the professional sequences and be eligible to student teach, students must fulfill the following requirements:

- 1. Receive a grade of B or better in all art education courses
- 2. Maintain a 2.75 average in the professional course sequence
- 3. Pass the Praxis I (reading, writing and math) and the speech and hearing tests prior to student teaching
- 4. Undergo a criminal background check prior to student teaching

TRANSFER CREDIT POLICY

The Department of Art accepts art credits from other accredited colleges and universities. Portfolio evaluation and transfer credit sheets form a basis for course evaluation.

ART DEPARTMENT HONORS PROGRAMS

The Department of Art grants honors in Art Education, Art History and Studio Art. Admission is granted at the end of the sophomore or beginning of the junior year to students who have the following qualifications: overall cumulative GPA of 3.25, major GPA of 3.25, recommendation by adviser to departmental honors coordinator. The minimum requirements for graduation with honors in Art are an overall cumulative GPA of 3.25 and 3.50 in major field and completion of the honors program of study.

Students accepted into the university honors program may take the following: ARTH 207 Honors: Seminar in Art History (repeatable) and ARTH 208 Honors: Seminar in Non-Western Art History (repeatable).

CAREER OPPORTUNITIES

Towson University's Department of Art has a long tradition of preparing students as highly qualified teachers. To prepare students for other careers in art, the department, in conjunction with the Career Center, has developed internships with various studios, schools, colleges, design firms and museums. These internships provide students with the experience necessary for achieving success in their fields, including Web page design, graphic design, illustration and advertising.

STUDENT WORK POLICY

Material submitted by students to satisfy requirements in any course automatically becomes the property of the Department of Art. This material may be returned to students at the discretion of the faculty member.

Department of Dance

Associate Professors: Dennis Price (Chair), Jaye Knutson, Susan Mann

Assistant Professors: Catherine Horta-Hayden, Vincent Thomas

Performance Coordinator: Heather Sorensen

Lecturer: Nancy Wanich-Romita

Part-time Faculty: Jayne Bernasconi, Lester Holmes, Dana Martin, Stephanie Powell, Paul Shapanus, Heather Sorensen Recent Guest Artist Faculty: Anjali Austin, Michael Bjerkness, Sheena Black, Leslie Bradley, Suzanne Bryant, Adrienne Clancy, Trudy Cobb Dennard, Mindy Cooper-Grenke, Alison Crosby, Dianna Cuatto, Kristin Degnan, Linda Denise Fisher-Harrell, Alexander Gish, Stephen Greenston, Doug Hamby, Sandra Lacey, Naoko Maeshiha, Pene McConrty, Chandra Moss, Cathy Paine, Miriam Whiteaker, Helanius Wilkins, Kristina Windom

PROGRAMS OF THE DEPARTMENT

The Department of Dance offers a Bachelor of Fine Arts degree in Dance Performance. For students who are interested in teaching, there is an optional teacher certification program available. Dance majors may elect to take courses that will enable them to meet university, college and Maryland teacher certification requirements in K-12 education. The department offers courses that fulfill various General Education (GenEd) requirements, including (DANC 220) 1.B), 1.D (DANC 321), 1.E (DANC 235), 11.B.1 (DANC 127), 11.B.3 (DANC 101, DANC 106), and II.C.1 (DANC 123, DANC 125, DANC 133).

The B.F.A. Program promotes excellence in the process of becoming a dance professional and/or pursuing graduate studies. The experience of moving is the most potent way of understanding dance in this program. Our dual emphasis in ballet and modern dance involves cognitive, affective and physical ways of doing and knowing. The curriculum promotes dance as a primary vehicle for communication and expression that unifies diverse populations and has innate cultural value. An active professional faculty provides intensive studio, production and theoretical exposure that supports dancing for a lifetime.

Towson University is the only institution of higher education in Maryland to offer the Bachelor of Fine Arts degree in Dance. All students major in Dance Performance. Students may elect to add the education component. Towson University is an accredited institutional charter member of the National Association of Schools of Dance. The Dance major program is also accredited by the National Council for Accreditation of Teacher Education and the National Association of State Directors of Teacher Education and Certification.

ADMISSION TO THE MAJOR

Students must first submit a written application to the Office of Admissions. Pending acceptance into the university, students must audition for the Dance major. Auditions are held at the beginning of each spring term. Prospective majors should contact the department for specific dates and an audition application form.

The auditions determine the following:

- 1. acceptance into the Dance major
- 2. technical level for class placement

3. scholarship awards

Students may only audition twice for the major. If students are accepted into the Dance major and do not attend the following fall, they must petition the faculty for later acceptance.

TRANSFER CREDIT POLICY

Students transferring from other institutions must complete a minimum of 20 credits of their dance course requirements at Towson

MAJOR IN DANCE PERFORMANCE

The major in Dance Performance leads to the Bachelor of Fine Arts degree. Students in the major must complete 65 units of required dance courses, 6 units of required interdisciplinary courses, 15 units of dance electives, 3 units of other electives, GenEd requirements (DANC 125, DANC 220, DANC 235 and DANC 321: specified components of the Dance Performance major), and the performance requirements outlined below. A grade equivalent of 2.00 or higher is required for all courses in the major. All majors are required to be enrolled in a ballet and modern class each term prior to their scheduled jury.

Requirements for the Major

Please note: asterisked courses indicate specific General Education courses required by the dance department.

Dance Courses (65 units)

| DANC 125 | Introduction to Dance: Overview (3) |
|------------|---|
| DANC 216 | Sophomore Crew (1) |
| DANC 220* | Using Information Effectively in Dance (3) LB |
| DANC 223-4 | Level 1 Ballet (4) (2 per term) |
| DANC 227-8 | Level I Modern (4) (2 per term) |

DANC 495 Independent Study in Dance (1-3) Technique classes taken after completing major requirements. At least 6 units of electives must be in Modern Repertory, Ballet Repertory or Dance Company.

Other Electives (3 units)

Performance Requirements for Majors

To fulfill performance requirements for graduation, Dance majors must audition for the TU Dance Company a minimum of two times during their tenure at Towson and must fulfill one of the fol-

1. Perform with the TU Dance Company (3 units-audition required) or Ballet or Modern Repertory (3 units each) for a minimum total of 6 units, and 9 additional units of works in sections of Dance Composition III and IV for a total of 15 performance units.

2. Transfer students must consult with the chairperson of the Department of Dance to arrange equivalent performing experiences.

As a mechanism for assessing progress toward the degree, all Dance majors will be evaluated by a jury of faculty members at the end of the spring term of the sophomore year. The jury will consider a video portfolio of selections from the audition, movement exams and performances of each student. In addition, each student will perform a combination of movement material at the time of the jury meeting. Written and verbal assessment will be given to each student in relation to the expected student outcomes of the program. Should the jury find a student to be in difficulty from a technical or academic standpoint, he or she may be placed on probation or advised to consider an alternative program of study. Special note: All majors are required to be enrolled in a ballet and modern class each term prior to their scheduled jury.

Crews

All Dance majors are required to register for and complete both a Sophomore Crew (DANC 216) and Junior Crew (DANC 316). These assignments are made annually by the department. Successful completion of each crew course is a requirement prior to registering for DANC 480 and for graduation with the B.F.A. degree in Dance Performance or the B.F.A. degree in Dance Performance with K-12 Certification in Dance Education.

MAJOR IN DANCE PERFORMANCE WITH K-12 CERTIFICATION OPTION

Dance majors may elect to obtain State Teacher Certification to teach dance at the elementary and secondary levels. Students in this program receive certification to teach dance in grades K-12 in the public schools in Maryland and reciprocal states. The program leads to the Bachelor of Fine Arts degree in Dance Performance and K-12 Certification in Dance Education.

Admission to the K-12 Certification Option and student teaching requires: 1) admission to the university; 2) admission to the major; 3) a personal interview; 4) completion of a Criminal Background Disclosure Form that must be notarized and kept on file in the Center for Professional Practice (CPP); 5) completion of a criminal background check that must be kept on file in the CPP before the student enters into an intensive/extensive internship or student teaching experience in a public or private school setting (pre-K through 12); 6) passing score on the Praxis I examination, and 7) successful completion of the speech and hearing test. All seven items listed above are prerequisites for the internship application. Continuance in the program requires the maintenance of an overall GPA of 2.50 and a GPA of 2.75 in major classes each term, the

maintenance of a current membership in the National Dance Education Organization, and maintenance of behaviors and attitudes set forth by Towson University's Conceptual Framework for Professional Education.

Students whose GPA falls below the minimum requirement will automatically be placed on departmental probation and given one term to improve their GPA. Failure to do so may result in suspension from the program.

The Teacher Education Executive Board (TEEB) reserves the tight to refuse, deny or revoke the application for admission to professional education programs or entry into student teaching of any student whose observed conduct is deemed incongruent with established guidelines of student demeanor for those planning to enter the teaching profession as excerpted from the "Statement of Professional Behavior for Undergraduate and Graduate Teacher Education Students," in the Towson State University Compass (1987 Student Handbook), and "NEA Code of Ethics" (1975), adopted by the College of Education Council in September 1988, and reaffirmed by TEEB in November 1990, October 1995, February 1996 and February 2000.

Students must complete the required Dance and Interdisciplinary courses set forth for the major, the Performance Requirements for Majors listed below, jury and crew requirements, and an additional 33 units of professional education components listed below. Students must also be placed by the faculty in both Level III Modern and Level III Ballet.

| DANC 201 | Developmental Movement (3) |
|----------|---|
| DANC 251 | Methods of Teaching Dance (3) |
| DANC 391 | Student Teaching in Elementary School (6) |

| DANC 493 | Pro-Seminar in the Teaching of Dance (1) |
| | (to be taken concurrently with DANC 391 and DANC 392) |

Performance Requirements for Majors

To fulfill performance requirements for graduation, K-12 Certification Dance majors who choose the Education Certification Option must audition for the TU Dance Company a minimum of two times during their tenure at Towson and must fulfill one of the following:

1. Perform with the TU Dance Company (3 units—audition required) or Ballet or Modern Repertory (3 units each) for a minimum total of 3 units, and 12 additional units of works in sections of Dance Composition III and IV for a total of 15 performance units.

2. Transfer students must consult with the chairperson of the department to arrange equivalent performing experiences.

Post-baccalaureate Certification Option

For students who have completed a bachelor's degree in dance, the Department of Dance offers a post-baccalaureate program leading to Maryland K-12 certification in dance. Prospective students interested in this option need to contact the department to set up an appointment with the program coordinator to have their transcript(s) analyzed and a program of study developed based upon state certification and departmental requirements.

DANC 391 Student Teaching in Elementary School (6)
DANC 392 Student Teaching in Secondary School (6)
DANC 493 Pro-Seminar in the Teaching of Dance (1)

SCHOLARSHIPS

To qualify for a dance recruitment scholarship, or for a COFAC Dean's scholarship, students must audition, be accepted into the major, and be full-time Dance majors.

The terms/criteria for automatic renewal of Dance Recruitment and COFAC Dean's scholarships offered to Dance majors at

Towson University are as follows:

- 1) An overall GPA of 2.75 and a GPA of 3.00 in the major. Students whose GPA falls below this minimum requirement will automatically lose all scholarship awards. Once students have re-established an overall GPA of 2.75 and a GPA of 3.00 in the major, the remainder of their scholarships from that date forward to graduation will be reinstated.
- 2) Perform a minimum of once per year and be registered in DANC 481, The Towson University Dance Company.
- 3) Demonstrate and exemplify a behavioral understanding of the relationship between rights and responsibilities within the classroom, rehearsal, and all other aspects of the profession as outlined in the Professional Standards section of the Towson University Department of Dance Student Handbook.
- 4) Participate fully in all aspects of the major.
- Annual scholarship renewal evaluation by the Department of Dance faculty.

www.towson.edu/emf

PROGRAMS OF THE DEPARTMENT

The Electronic Media and Film major focuses upon the study of the aesthetics and production of film, television and radio. The major is divided into four tracks in Television/Video, Film, Radio/Audio, and Film and Media Studies. Within the tracks, students are encouraged to develop skills in writing, media history and criticism, and professional media production.

The Electronic Media and Film major is an undergraduate degree program leading either to the Bachelor of Arts or Bachelor of

Science degree.

The Department of Electronic Media and Film is committed to the liberal arts and professional education. Students are encouraged to develop and refine visual, written and technical skills and to cultivate critical thinking abilities in all courses. The program is designed to prepare students for careers in electronic media and film as well as to prepare them for graduate study in related fields.

Students selecting the major should contact the department to be assigned an adviser to assist them in designing a program to meet their special needs. Students will meet with their adviser each term to discuss their progress and to facilitate necessary changes in their course of study.

Screening Requirements

- Students should file a Declaration of Major Form with the department and list themselves as a pre-EMF major (PEMF).
- There are two tiers of screening:
- 1. All students, before being considered for admission to the major, must attain a 3.00 GPA in the following three courses:

EMF 140 Introduction to Electronic Media

EMF 221 Principles of Film and Media Production

And one course chosen from the following: (Students should choose the screening course that most closely fits their preferred EMF track). No more than one of the screening courses can be repeated for eligibility.

EMF 267 Filmmaking I: Basic 16mm Production

EMF 265 Audio 1

EMF 271 Television I Studio Production

EMF 364 Aesthetics of Film and Electronic Media

Transfer students may complete the equivalent courses at their previous college or university, but they must attain the overall 3.00 GPA in the equivalent courses.

- 2. Students who have completed the required screening courses with a 3.00 GPA must complete and submit a Declaration of Eligibility Form in the EMF office to become part of the student major pool. Successful completion of the EMF screening courses does not guarantee admission to the EMF major. Admission to the EMF major is competitive and is determined by the satisfactory completion of the screening courses, the cumulative GPA, and consideration of a submitted creative essay. This policy will apply to native and transfer students.
- 3. Admission to the EMF major is based on:
- · The number of majors that the department can reasonably accept without compromising the quality of its educational expe-
- The satisfactory completion of the screening courses, the student's cumulative GPA, and submitted creative essay. The candidates with the highest ranking GPA from the pool of applicants will be selected, but no fewer than 75 students will be admitted to the EMF major. For transfer students, the cumulative GPA will be calculated using grades from all colleges and universities attended. All transfer students will be required to submit a creative essay.
- · Creative Essay: As part of the screening process, you will be required to write a creative essay. Please tell us why you want to pursue a course of study in Electronic Media and Film. How have your life experiences, creative interests and professional goals influenced your choice of this major?

Compose and attach on separate pages the essay (no more than 500 words or approximately two pages double spaced, printed with 12-point font). The Screening Committee will use your essay to determine your ability to organize your thoughts and express yourself clearly. The faculty panel evaluates applications for originality, clarity, personal insight and creativity. The essay will be used to make decisions in cases where the applicant's cumulative GPA is marginal. In such cases, it will be used to provide an additional means of evaluation for those who might not otherwise be admitted to the major. This policy is in effect for students entering Towson University as of July 1, 2004.

Graduation Requirements

All major requirements must be completed with a grade equivalent of 2.00 or higher. The Pass grading option is not available for courses applicable toward the major.

Bachelor of Arts Degree Option

Students may earn a Bachelor of Arts degree in Electronic Media and Film by completing the intermediate (200) level of a foreign language.

MAJOR IN ELECTRONIC MEDIA AND FILM

The Electronic Media and Film major requires the student to choose a track, after taking two introductory courses. The Electronic Media and Film major requires 42-45 units. Twenty-one units must be upper-division courses. Students cannot have more than one track in the EMF major. Depending upon the track, the major requires nine units of common introductory courses and 33-36 units of courses distributed between required courses and elec-

Students are reminded that it is their responsibility to check all prerequisites before registering for any course.

Required Core Courses for All Majors (9 units):

EMF 100 Using Information Effectively in Electronic Media and

EMF 140 Introduction to Electronic Media (3) EMF 221 Principles of Film and Media Production (3)

The College of Fine Arts and Communication

Upon completion of the required core, students must fulfill the requirements in one of the four tracks outlined below:

| EMF 373 | Electronic Field Production (3) |

Electives (15 units)

Choose 9 units from the following, 6 units of which must be upper division. Options not taken in Film and Media Studies electives and production requirements (above) may also be taken.

| COMM 3/9 | Intercultural Communication (3) |
|----------|--|
| EMF 205 | Women and Gender in Film (3) |
| EMF 355 | Electronic Media and Film Law and Regulation (3) |
| EMF 377 | Broadcast/Film Writing (3)** |
| EMF 485 | Seminar in Digital Studies (3) |
| MCOM 352 | Media Criticism (3) |
| MCOM 385 | Mass Media and Society (3) |
| MCOM 433 | Media Ethics (3) |
| | |

Choose 6 additional units in Electronic Media and Film courses.

*No more than 6 units of independent study and/or internships can be applied to the Electronic Media and Film major.

** This course fulfills the GenEd requirement of category I.D-Advanced Composition.

DEPARTMENTAL HONORS

The department participates in the honors program and sponsors departmental honors where students pursue independent study leading to the completion of a thesis. Students interested in departmental honors should consult the chair of the department no later than the first term of their junior year. Honors are designated on the graduate's transcript and diploma.

TRANSFER CREDIT POLICY

Transfer students are required to complete 21 units in residence toward the Electronic Media and Film major. The department will accept up to 15 credits of compatible transfer courses.

MINOR IN ELECTRONIC MEDIA AND FILM

The Electronic Media and Film minor requires a total of 24 units, 6 units in approved introductory courses, 3 units in media writing, 3 units in production and 12 units in selected elective courses. Nine of these units must be upper division.

Core Requirements (6 units)

EMF 140 Introduction to Electronic Media (3) EMF 221 Principles of Film and Media Production (3)

Writing Requirement (3 units)

Choose one from following:

EMF 311 History of Electronic Media (3) EMF 363 History of Film (3) ** EMF 377 Broadcast/Film Writing (3) **

Production Requirements (3 units)

Choose one from the following:

EMF 265 Radio/Audio Production I (3) EMF 267 Filmmaking I: Basic 16mm Production (3) EMF 271 Television Studio Production (3)

Electives (12 units)

Choose 12 units from the following, plus any courses not taken in the requirements listed above.

EMF 331 Broadcast/Cable Programming (3)

EMF 355 Electronic Media and Film Law and Regulation (3) EMF 364 Aesthetics of Film and Electronic Media (3)

EMF 368 Genre Theory and Criticism (3) EMF 375 Broadcast Performance (3)

EMF 373 Broadcast Performance (3) EMF 379 Seminar in Television (3) EMF 430 The Media Producer (3)

EMF 460 Internship in Electronic Media and Film (1-6)

EMF 475 Film Analysis (3)

EMF 495 Independent Study in Electronic Media and Film (1-6)

- 1) The Pass grading option is not available for these courses.
- 2)* No more than 3 units of independent study/internships can be applied to the Electronic Media and Film minor.
- The department will transfer into the minor up to 9 units of compatible courses.
- 4) Students who wish to minor in Electronic Media and Film and major in either Mass Communication or Communication Studies may apply up to 6 units simultaneously for satisfaction of major and minor.
- 5)**This course fulfills the GenEd requirement of category 1.D—Advanced Composition.

DOUBLE MAJOR IN MASS COMMUNICATION OR COMMUNICATION STUDIES AND ELECTRONIC MEDIA AND FILM

Students who wish to double major in Mass Communication or Communication Studies and Electronic Media and Film may apply up to 9 units simultaneously for satisfaction of both majors.

CERTIFICATE IN BROADCAST JOURNALISM

Students completing the Electronic Media and Film major in the Radio/Audio or Television/Video Track are eligible for a departmental Certificate in Broadcast Journalism if they complete the following five courses as specified below:

| MCOM 255 | Newswriting (3) |
|----------|---------------------------|
| MCOM 358 | News Editing (3) |
| MCOM 381 | Broadcast Journalism (3) |
| MCOM 407 | Writing for New Media (3) |
| | and |
| MCOM 356 | Feature Writing (3) |
| | or |
| MCOM 383 | News Reporting (3) |

Students must earn a grade equivalent of 3.00 or higher in each of the above courses to receive the certificate. Students need to apply for the certificate with documentation of eligibility at least 90 days before graduation.

INTERNSHIPS

Internship eligibility requirements for Electronic Media and Film are as follows:

1. Junior or senior status

2. Admitted to the EMF major

- 3. Completion of courses related to the area of internship concentration, specifically:
 - EMF 140 and EMF 271 prior to any television or television broadcast journalism-related placement
 - EMF 221 and EMF 267 prior to any film placement
 - EMF 140 and EMF 265 prior to any radio or radio broadcast journalism-related placement
 - Cumulative GPA requirement: 2.75 overall; 3.00 in the major.
 Waivers are considered by the department.

For additional information, contact the Career Center, or the Electronic Media and Film department.

SCHOLARSHIPS

The Department of Electronic Media and Film offers several scholarships for majors. For more information, contact the department, 410-704-3184.

DEPARTMENTAL ACTIVITIES

Department activities include support for the following active student organizations: National Broadcasting Society and the Film and Video Society. Students are also encouraged to participate in activities such as the Visual Media Laboratory, the campus radio stations, XTSR-AM and WTMD-FM, and the campus television station, WMJF-TV.

PROGRAMS OF THE DEPARTMENT

The Department of Mass Communication and Communication Studies offers the following programs of study: the Communication Studies major, the Mass Communication major, minors in both Communication Studies and Communication, double majors in Political Science and Communication Studies and Political Science and Mass Communication, an interdisciplinary cooperative program with the departments of Marketing and Management, a certificate in Broadcast Journalism, a certificate in Sports Communication, a Master of Science in Communications Management, and a graduate certificate in Strategic Public Relations and Integrated Communications. In addition, the department participates in a multidisciplinary program offering a Master of Science in Human Resource Development.

The department focuses on the study of the structure, processes, aesthetics, functions and effects of human communication and mass media. In this, one of the most broad-based programs in Maryland and the region, students have the opportunity and flexibility to gain knowledge and skills in a wide array of communication fields. In addition, the study of human communication and mass media involves strong practical content.

At the undergraduate level, the department seeks to contribute to a broad, liberal education for majors and non-majors by raising their level of oral, visual and written communication literacy, as well as their critical thinking abilities, by developing their understanding and appreciation of human message exchanges, and by recognizing how mass media and speech influence our social, political, artistic and cultural existence. In addition, the department seeks to provide knowledge as well as skill needed for future

employment in print and broadcast journalism, new media, advertising, and public relations and/or in business, law, government, education and consulting wherein communication skills are essential.

The faculty members of the department are committed to scholarly research and/or creative productions in the department's various areas of expertise. As part of a metropolitan university's role in serving the region, the department is pledged to provide service to the university and to a larger community in a variety of ways, such as through its speech and debate program, affiliation with Lambda Pi Eta, American Advertising Foundation, Public Relations Group, Society of Professional Journalists, as well as faculty and student presentations, workshops and professional networking.

MAJOR IN COMMUNICATION STUDIES

The general purpose for majoring in Communication Studies is to understand and apply the process and function of human communication, as well as the foundations of communication theory, to students' own discourse and to an evaluation of the discourse of others. The major allows students to develop skills in communication as a method of inquiry and advocacy.

Specifically, the major is intended to accomplish two objectives. First, students will be given several different opportunities to develop personal skills which enable them to secure public and private sector positions requiring communication competencies (i.e., speaking, writing, critical thinking, and advocacy skills for interpersonal, organizational and public settings). Second, students will become more liberally educated in personal and societal value structures, ethics, cultural heritage and the impact of messages upon the individual and society.

Graduates with majors in Communication Studies have gone on to graduate school or careers in the public sector, private industry, or education, and in areas such as personnel, sales, lobbying, internal (organizational) communication, conference and meeting management, training and development, public affairs, corporate relations, law, religion, teaching or communication consulting.

Graduation Requirements

All major requirements must be completed with a grade equivalent of 2.00 or higher. The Pass grading option is not available for courses applicable toward the major.

Bachelor of Arts Degree Option

Students may earn a Bachelor of Arts degree by completing the intermediate (200) level of a foreign language.

Requirements for the Major

The Communication Studies major requires a total of 36 units: 18 units in the core, 6 units of theory and criticism courses, 3 units of applied communication courses and 9 units of electives as listed

Required Courses (18 units)

COMM 115 Introduction to Interpersonal Communication (3) **COMM 131** Fundamentals of Speech Communication (3)

COMM 211 Rhetorical Theory and Criticism (3)

COMM 331 Advocacy and Argument (3)

COMM 419 Organizational Communication (3)

COMM 480 Communication Research (3)

Theory and Criticism Courses (6 units)

COMM 304 Persuasion (3)

Interpersonal Communication (3) **COMM 321**

COMM 378 Intercultural Communication (3)

MCOM 352 Media Criticism (3)

MCOM 411 Communication Process (3)

Department of Mass Communication and Communication Studies

Applied Communication Courses (3 units)

| COMM | 216 | Group Discussion (3) | |
|------|-----|----------------------|--|

COMM 303 Advanced Public Speaking (3)

COMM 315 Business and Professional Communication (3)

Electives (9 units)

| COMM 249 | Speech and Debate 1 (1.5) |
|----------|-----------------------------|
| COMM 250 | Speech and Debate II (1.5) |
| COMM 301 | Nonverbal Communication (3) |
| COMM 349 | Speech and Debate III (1.5) |
| COMM 350 | Speech and Debate IV (1.5) |

COMM 418 Communication Training and Development (3) **COMM 420** Communication in the Legal Process (3) **COMM 422** Conference and Meeting Management (3) **COMM 470** Special Topics in Communication (3) **COMM 490** Internship in Communication Studies (1-6)*

COMM 495 Independent Study in Communication Studies (1-6)* MCOM 214 Principles of Advertising (3)

MCOM 253 Principles of Strategic Public Relations and Integrated Communications (3)

Or any of the courses listed above under Theory and Criticism or Applied Communication.

No more than 3 units of independent study and/or internships can be applied toward the Communication Studies major.

TRANSFER CREDIT POLICY

Transfer students are required to complete 21 units in residence toward the Communication Studies major. The department will accept up to 15 credits of compatible transfer courses.

DOUBLE MAJOR IN COMMUNICATION STUDIES AND MASS COMMUNICATION

Students who wish to complete a double major in Communication Studies and Mass Communication may apply up to 12 units simultaneously toward fulfillment of both majors.

MAJOR/MINOR IN COMMUNICATION STUDIES AND MASS COMMUNICATION

Students who wish to major in Communication Studies and minor in Mass Communication may apply up to 6 units simultaneously toward fulfillment of both major and minor.

DOUBLE MAJOR IN COMMUNICATION STUDIES AND POLITICAL SCIENCE

Students electing to major in both Communication Studies and Political Science must complete the requirements for both majors. Following the outline below, students can complete the two majors with 60 units of Communication Studies and Political Science courses. Completing these two majors separately requires a minimum of 72 units (36 units in each major).

- I. Required Courses in Political Science (15 units see the Department of Political Science)
- Il. Elective Courses in Political Science (21 units)

Note: The Department of Political Science will accept two of the following communication studies courses (6 units) toward fulfillment of the electives in the Political Science major:

COMM 304 Persuasion (3)

COMM 331 Argument and Advocacy (3) **COMM 378** Intercultural Communication (3) **COMM 420**

Communication in the Legal Process (3) **COMM 470** Special Topics (3)*

- III. Required Courses in Communication Studies
- A. Required Courses (18 units see the Department of Mass Communication and Communication Studies)
- B. Theory and Criticism Courses (6 units)
- C. Applied Communication Courses (3 units)
- D. Electives (9 units)

Note: The Department of Mass Communication and Communication Studies will accept two of the following Political Science courses (6 umts) toward fulfillment of the electives in the Communication Studies major:

POSC 301 Political Research 1 (3) POSC 340 Comparative Public Policy (3) POSC 375 Public Administration (3) POSC 381 Presidency (3) POSC 383 Congress (3) POSC 417 Political Parties (3) POSC 459 Simulation and Games (3) POSC 470-479 Special Topics (3)*

MINOR IN COMMUNICATION STUDIES

The Communication Studies minor requires 24 units: 15 units in the core, 3 units of theory and criticism courses, 3 units of applied communication courses and 3 units of electives as listed below.

Graduation Requirements

All minor requirements must be completed with a grade equivalent of 2.00 or higher. The Pass grading option is not available for courses applicable toward the minor.

Combined Program with Mass Communication

Students who wish to minor in Communication Studies and major in Mass Communication may apply up to 6 units simultaneously toward fulfillment of both major and minor.

Required Core (15 units)

See list under major requirements. All courses which appear there are required for the minor with the exception of COMM 480.

Theory and Criticism Courses (3 units)

See list under the major requirements.

Applied Communication Courses (3 units)

See list under the major requirements.

Electives (3 units)

See list under the major requirements. COMM 480 may be added to this list.

Note: No more than 3 units of independent study and/or internships can be applied toward the Communication Studies minor.

TRANSFER CREDIT POLICY

The department will accept up to 9 credits of compatible transfer courses toward the minor.

^{*} Topic to be approved by the Department of Political Science

^{*} Topic to be approved by the Department of Mass Communication and Communication Studies

The College of Fine Arts and Communication

PRE-MASS COMMUNICATION MAJOR

Students interested in becoming undergraduate Mass Communication majors must become Pre-Mass Communication majors (PMCO) and enroll in three required screening courses as follows:

ENGL 102 Writing for a Liberal Education (3)

COMM 131 Fundamentals of Speech Communication (3) MCOM 101 Introduction to Mass Communication (3)

Students cannot apply for MCOM as a major until they have completed these courses.

Note: This requirement applies to incoming freshmen, transfer students, currently enrolled Towson University students and students working on a second bachelor's degree.

Students are eligible to apply for admission to the Mass Communication (MCOM) major after completing at least 30 units at Towson University or elsewhere, and upon completion of the three courses above earning a minimum GPA of B (3.00) in these courses. No more than one of the screening courses can be repeated for the purpose of determining eligibility. PMCO students interested in declaring MCOM as their major should submit applications to the department office to be considered for admission to the program. Attached to these applications should be official transcripts showing grades in the three courses identified above, including equivalent courses taken at other institutions. Several times a year, a group of eligible candidates, namely those who have completed the courses listed above and filed application forms with the department, will be selected to declare Mass Communication as a major.

Students are reminded that admission to the MCOM major is highly competitive and limited to students who complete the screening courses, and earn the highest GPA among applicants. The higher a student's cumulative GPA in at least 30 units, the higher the probability of a student being offered admission to the MCOM major. Successful completion of the screening courses does not, in itself, guarantee admission to the MCOM program. The number selected will be on a space-available basis. The criteria used for selection will be the cumulative GPA from the three courses noted above, regardless of where those courses were taken, and the overall GPA at the time of application. The top percentage of students in each grouping will be admitted to the major, the specific number being determined by the ability of the department to provide the needed courses/experiences for the majors. Students who are denied may re-apply for admission to the major. Appeals may be addressed to the department's Executive Committee. All appeals should be in the form of a letter accompanied by a transcript.

MAJOR IN MASS COMMUNICATION

The Mass Communication major enables students to learn the practical application, structure, processes, aesthetics, responsibilities and effects of the mass media. The objectives of the Mass Communication major are 1) to provide students with appropriate training for careers in mass communication and 2) to help students become more critical consumers of the media.

Mass Communication majors are expected to develop and refine their visual and written skills; to think critically about ways in which the mass media influence society; and, to recognize and appreciate the need for a broad and diverse liberal arts education.

Students who complete the Mass Communication major will have many career options, especially in the broadly defined fields of print and broadcast journalism, new media, advertising, strategic public relations and integrated communications. Majors are expected to learn how the various fields in mass communication are structured and function and to understand how the media are converging and the consequences of that convergence.

Students who complete the Mass Communication major are expected to:

- understand and apply relevant theories of mass communication
- understand and utilize research in mass communication
- understand legal issues, statutes and regulations affecting mass communication
- understand and apply ethical principles that can be used to prevent and resolve potential conflicts and dilemmas in the operation of the mass media
- · demonstrate proficiency in writing for the mass media
- demonstrate competence in the student's chosen track within the major

Bachelor of Arts Degree Option

Students may earn a Bachelor of Arts degree by completing the intermediate (200) level of a foreign language.

Requirements for the Mass Communication Major

The Mass Communication major requires 36 units: 9 units in core courses and 27 units in track courses. Students are required to fulfill the requirements of one track. All major requirements must be completed with a grade equivalent of 2.00 or higher. The Pass grading option is not available for courses applicable to the major. Students are reminded that it is their responsibility to check all prerequisites before registering for any course.

Required Core Courses for All Three Tracks in the Major

| (9 units) | |
|-----------|---------------------------------------|
| MCOM 101 | Introduction to Mass Communication (3 |
| COMM 480 | Communication Research (3) |
| | or |
| MCOM 490 | Mass Communication Research (3) |
| MCOM 350 | Media Law (3) |
| | or |
| MCOM 433 | Media Ethics (3) |

JOURNALISM AND NEW MEDIA TRACK (27 units)

Note: To begin this track, students should enroll in MCOM 255 News Writing (a special permit course).

Notes about the major:

- 1) Students must complete at least 18 units of upper-level course work in the major.
- 2) No more than 6 units of independent study and/or internships can be applied to the Mass Communication major.
- 3) The Pass grading option is not available for courses applied to the major.

- 4) Students who wish to double major in Mass Communication and Communication Studies may apply up to 12 units simultaneously for satisfaction of both majors. Students who wish to major in Mass Communication and minor in Communication Studies may apply 6 units simultaneously for satisfaction of both major and minor.
- 5) Students who wish to double major in Mass Communication and Electronic Media and Film may apply up to 9 units simultaneously for satisfaction of both majors. Students who wish to major in Mass Communication and minor in Electronic Media and Film may apply 6 units simultaneously for satisfaction of both major and minor.

6) Transfer students are required to take 21 units in residence in their major area. The department will transfer up to 15 units of compatible courses.

7) In fulfilling the requirements for the Mass Communication major, students may choose the option of satisfying requirements for both the Advertising and the Strategic Public Relations and Integrated Communications tracks.

DOUBLE MAJOR IN MASS COMMUNICATION AND POLITICAL SCIENCE

Students electing to major in both Mass Communication and Political Science must complete the requirements for both majors. Following the outline below, students can complete the two majors with 60 units of Mass Communication and Political Science courses. Completing these two majors separately requires a minimum of 72 units (36 units in each major).

I. Mass Communication

- A. Required Core Courses (9 units)
- B. Required Track Courses (12 units)
- C. Required Professional Skills Writing Courses (6 units)
- D. Electives (9 units)

Note: The department will accept two of the following political science courses (6 units) toward fulfillment of the electives in the Mass Communication major:

| POSC 301 | Political Research I (3) |
|--------------|-------------------------------|
| POSC 340 | Comparative Public Policy (3) |
| POSC 375 | Public Administration (3) |
| POSC 381 | Presidency (3) |
| POSC 383 | Congress (3) |
| POSC 417 | Political Parties (3) |
| POSC 459 | Simulation and Games (3) |
| POSC 470-479 | Special Topics (3)* |
| | • |

^{*} Topic to be approved by the Department of Mass Communication and Communication Studies

II. Political Science

A. Required Courses in Political Science (15 units - see the Department of Political Science)

B. Elective Courses in Political Science (21 units)

Note: The Department of Political Science will accept two of the following mass communication courses (6 units) toward fulfillment of the electives in the Political Science major:

| MCOM 350 | Media Law (3) |
|----------|----------------------------------|
| MCOM 352 | Media Criticism (3) |
| MCOM 385 | Mass Media and Society (3) |
| MCOM 431 | Public Opinion and the Press (3) |
| MCOM 433 | Media Ethics (3) |

Department of Mass Communication and Communication Studies

MARKETING INTERDISCIPLINARY SPECIALIZATION FOR MASS COMMUNICATION

The Marketing Interdisciplinary Specialization for Mass Communication requires completion of the Mass Communication major in the Public Relations or Advertising Track and 15 units as listed below. Students must earn a grade equivalent of 2.00 or higher in each required course below. Students completing this specialization will receive a departmental certificate. Students need to apply for the certificate in the Department of Marketing office with documentation of eligibility at least 90 days before graduation.

Marketing Specialization

MKTG 341 Principles of Marketing (3)
MKTG 345 Advertising Management (3)
MKTG 351 Sales Management (3)
MKTG 425 Buyer Behavior Analysis (3)
MKTG 445 International Marketing (3)

MINOR IN MASS COMMUNICATION

The Mass Communication minor requires a total of 24 units: 9 units in required core courses, 6 units of approved writing courses and 9 units of upper-division electives (see major listings).

Core Required Courses (9 units)

See list under the major requirements.

Writing Courses (6 units)

See list under the major requirements.

Electives (9 units)

Any upper-division courses listed under electives for the major.

Note: No more than 3 units of independent study and/or internships can be applied toward the Mass Communication minor.

GRADUATION REQUIREMENTS

All minor requirements must be completed with a grade equivalent of 2.00 or higher. The Pass grading option is not available for courses applicable toward the minor.

COMBINED PROGRAMS WITH ELECTRONIC MEDIA AND FILM AND COMMUNICATION STUDIES

Students who wish to minor in Mass Communication and major in either Electronic Media and Film or Communication Studies may apply up to 6 units simultaneously toward fulfillment of both major and minor.

TRANSFER CREDIT POLICY

The department will accept up to 9 credits of compatible transfer courses toward the minor.

INTERNSHIPS

Internship eligibility requirements for Communication Studies and Mass Communication are as follows:

- 1. Junior or senior status
- 2. Major must be declared
- 3. Completion of courses related to the area of internship concentration, specifically:
- MCOM 101 and 255 prior to any print journalism placement
- MCOM 101 and 253 prior to any public relations placement
- MCOM 101 and 214 prior to any advertising placement
- COMM 115 and 131 prior to any Communication Studies placement
- 4. GPA requirement: 2.75 overall; 3.00 in the major. Waivers are considered by the department.

DEPARTMENTAL SCHOLARSHIPS

The Patrick J. O'Connell Memorial Scholarship is available for Mass Communication students with a special interest in broadcast journalism, journalism, advertising or public relations. Other scholarships include the Eddie Ballard Award for Journalism, the O'Connor Radio Broadcasting Scholarship, the Sam Lacy Sports Communication Scholarship, the Jamie Parker Memorial Scholarship, the George Rogers Jr. Memorial Scholarship, the Murfin Scholarship, the Elizabeth Wainio Memorial Scholarship, the Public Relations Society of America Scholarship and speech and debate program scholarships. For scholarship information and deadlines, contact the department scholarship coordinator.

DEPARTMENTAL ACTIVITIES

Department activities include support for the following student organizations: Speech and Debate Team, Pi Kappa Delta (national honorary forensic society), Pi Lambda Eta (national honorary society in communication), the American Advertising Foundation Chapter, the Public Relations Student Group, and the Society for Professional Journalists.

HONORS PROGRAM

Through its departmental honors program, the mass communication faculty recognizes students for academic excellence. Mass Communication majors with an overall GPA of 3.25 and a 3.50 in their major are eligible to participate in the program. To graduate with honors in Mass Communication, students must complete 6 units in MCOM Independent Study and MCOM 499 Honors Thesis. In addition, the student is required to make an oral presentation to the Thesis Committee, which is open to the public. At graduation, students will be recognized for honors both on the diploma and permanent transcript. Students interested in departmental honors should consult with the department's honors coordinator no later than the first term of their junior year.

GRADUATE PROGRAM

Information regarding the various graduate programs is included in the *Graduate Catalog*. The department offers a master's degree in Communications Management, and a certificate in Strategic Public Relations and Integrated Communications.

14 The College of Fine Arts and Communication

Department of Music

Professors: Cecylia Barczyk, Terry B. Ewell (Chair), Michael Jothen, William Kleinsasser, Paul Rardin, Dale Rauschenberg, Reynaldo Reyes, Dana Rothlisberger, Carl B. Schmidt, Zoltan

Associate Professors: James Anthony, Leneida Crawford, Michael Decker, Luis Engelke, Diane Luchese, Cristina Magaldi, Ilva Mengekoch, Alicia Mueller, Gerald Phillips, Donald Watts

Assistant Professors: Marguerite Baker, David Ballou, Phillip Collister, Joshua Davis, Brenda Leach, Jonathan Leshnoff, Christine Limb

Part-time Faculty: Michael Bayes, Alan Blackman, Michael Bunn, Benjamin Chouinard, Lawrence E. Crawford, Rvan DeRvke, Victor Dvoskin, Laurie Flint, Joanna Greenwood, Harold E. Griswold, Ah Hong, Bernard Hynson, Mary Claire Ingalls, Naucy Larson, Niki Lee, Stephen Lilly, Henry Lowe, Martha McCoy, James McFalls, Philip Munds, Timothy Murphy, Sara Nichols, Sherrie Norwitz, Phil Snedecor, Leslie Starr, Granville

Assistant to the Chairperson: Mary Ann Criss Computer/Audio Manager: John Spivey

OFFICE

Center for the Arts 3095, 410-704-2839 Fax: 410-704-2841 www.towson.edu/music

ADMISSION TO THE DEPARTMENT

Degree programs in music are fully accredited with the National Association of Schools of Music and the National Council for Accreditation of Teacher Education.

The Music major is a screened major. Admission to the Music major is granted only by the department, contingent upon a performance audition. Admission to the university does not guarantee acceptance as a Music major or minor. Further, continuance in the major is contingent on a number of evaluative processes established by the department. Proper course planning and regular meetings with advisers are key to timely completion of the programs in four years. Students are responsible for determining the progress and completion of their degree programs.

PROGRAMS OF THE DEPARTMENT

The Department of Music offers two professional degree programs, the Bachelor of Music and Bachelor of Science in Music Education; and one liberal arts degree program, the Bachelor of Science in Music. The concentrations within the two professional degree programs are outlined on the following pages.

Although there are courses common to all degree programs and concentrations within those programs, each program is designed with its own special requirements, especially in the junior and senfor years. Those requirements are found on the following pages.

A Music minor is available for those students who desire to pursue music studies as a secondary field.

REQUIREMENTS OF THE DEPARTMENT

Private Vocal or Instrumental Lessons and Master Classes

Every Music major must enroll for private lessons on an instrument or in voice with an instructor provided by the university. All students enrolled for private vocal or instrumental lessons are required to attend a weekly master class. Activities in master classes range from topics concerning the instrument, prevention of pertormance injuries, pedagogy and performances by students, faculty and guest artists.

Evaluative Processes Comprising the Screened Major

The following items comprise the various evaluative processes students must successfully negotiate if they are to continue in and complete the Music major.

Juries and Upper-division Juries

All students must perform before a faculty jury at the end of each term in which they are enrolled in private vocal or instrumental lessons.

To enroll in 300-level private lessons, students must complete the upper-division, double-length jury examination.

Keyboard Proficiency

Music majors must reach the level of keyboard proficiency established for their specific degree and concentration. For Music Education majors, a keyboard proficiency exam is scheduled on the Friday of the first week of fall and spring term classes. Successful completion of Keyboard Proficiency is required for enrollment in Methods of Teaching Instrumental Music in the Elementary School (MUED 306) or Methods of Teaching Vocal-General Music in the Elementary School (MUED 307).

The Bachelor of Music degree allows students to satisfy the Keyboard Proficiency requirement by passing Piano Class I (MUSA 190), Piano Class II (MUSA 191), and Piano Class III (MUSA 290). Keyboard Performance majors, however, are exempt from Piano Class I, Piano Class II, and Piano Class III, but must satisfy the keyboard proficiency requirement by passing Keyboard Harmony and Sight Reading I (MUSC 313) and Keyboard Harmony and Sight Reading II (MUSC 314).

Recital Attendance

All Music majors are required to attend three faculty, guest artist or evening honors recitals; two ensemble and two student recitals during each term of their freshman, sophomore and junior enrollment (totaling 42 events over 6 terms). Convocation and daytime honors recitals are mandatory and do not count toward the total.

For transfer students, the numbers are pro-rated according to the number of terms they will attend Towson and after discussion with the department chairperson.

Students who do not meet attendance requirements are granted a one-term grace period. Otherwise, they may be denied permission to continue to register as Music majors. Appeals are heard by the department chairperson.

Recital requirements prior to fall 2004 will not be altered.

Degree Recitals

The Music Education Concentrations and the Composition Concentration require a senior recital. The Performance Concentrations require both junior and senior recitals. Students pursuing a Bachelor of Science in Music may choose to perform a recital as their capstone experience.

Students must enroll in private lessons the term they present a recital. Senior recital may not be taken during the same rerm as student teaching.

All Music majors are required to participate in ensembles. Ensembles will be varied in both size and nature. Each degree program and/or concentration has its own set of expectations. These are listed on the following pages.

Contact the Department of Music for information concerning times and requirements for ensemble auditions. Most auditions are scheduled during the first week of classes. If a student registers for an ensemble and is not selected, it is the student's responsibility to officially drop the ensemble from his or her schedule through the university's Office of the Registrar.

Graduation Requirements

Majors must earn a grade equivalent of 2.00 or higher in all Music major courses, ensembles and lessons. This includes foreign languages and Music Education core courses required of degree programs. The Pass grading option is not available for courses applied

In addition to the required Music major courses, students must fulfill the General Education requirements found in the University Curriculum section in this catalog. Notes: (1) GenEd If.B.1 is fulfilled by MUSC 201 and (2) GenEd 1.D is fulfilled by MUSC 302. University regulations require students to accrue no fewer than 32 upper-division (300-400) units for graduation.

The department also supports the Early Childhood and Elementary Education programs by offering individual Methods of Teaching Music for each instructional level. In addition, a specific section of Music Fundamentals is offered for majors in the Department of Dance.

TRANSFER CREDIT POLICY

Transfer of major credit is based upon an audition, a review of transcripts and an interview with the department chairperson. Transfer students must meet with the department chairperson immediately after matriculating.

All Music majors must complete a minimum of 24 major units at Towson University, all of which are upper-level (300-400) courses.

All Music minors must complete a minimum of 12 units at Towson University that meet the upper-division electives requirement in Section II of the Minor in Music section in this catalog.

MAJOR IN MUSIC EDUCATION -**BACHELOR OF SCIENCE DEGREE**

Students majoring in Music Education are required to complete the courses listed below, the Music Education Professional Core Courses and the GenEd requirements. Students choose either the Instrumental Music Education Concentration or the Vocal-General Music Education Concentration.

Successful completion of the program certifies students to teach music at the K-12 level in Maryland (and other states with which reciprocal agreements exist). Certification requires successful completion of courses and requirements in a selected degree program, a criminal background check, the Praxis Examination parts I and II, and the Towson University speech and hearing screenings.

Requirements for Admission to the Teacher Education Program All students applying for admission to a Teacher Education program are required to complete a Criminal Background Disclosure Form. This form is to be notarized and sent to the director of the Center for Professional Practice, Hawkins Hall, room 302, to be kept on file.

Requirements for Internship and/or Student Teaching

Effective fall 1999, all pre-service students in Teacher Education programs, whose program of study requires an intensive/extensive internship or student teaching experience in a public or private school setting (pre-K through 12), are required to complete and file a Criminal Background Disclosure Form (see above).

To register for student teaching, all pre-service students must complete and submit their scores on the Praxis I, Academic Skills Assessments, to the Center for Professional Practice (CPP). Information on the Praxis tests is available in the CPP Office. Hawkins Hall, room 302.

MAJOR IN MUSIC — BACHELOR OF SCIENCE DEGREE

The Bachelor of Science in Music is designed for students seeking a liberal arts degree in music. The curriculum of this program is designed to assure that students receive a solid grounding in the fundamentals of music theory and history, take individual instruction in applied music, and will participate in musical ensembles appropriate to their area of musical training. The Department of Music strongly recommends the completion of the intermediate level of a foreign language. Students are encouraged to pursue a minor in a related or complementary field of study.

All students pursuing the Bachelor of Science degree in Music must take one course in one of the arts outside of music (visual arts, theater, or dance) either within their General Education units or within their 30 elective units.

Students must also undertake one of the following 3-unit capstone experiences demonstrating mastery of some area of their study. Selection of this capstone experience will be made through the student's adviser and must be approved by the department chairperson.

Music Performance and Senior Recital

Students who choose music performance as their principal area of competency must complete at least 2 units of applied music at the upper-division level and complete the 1-unit course MUSA 497 (Senior Recital for Bachelor of Science in Music Degree). (Students must be enrolled for applied lessons concurrently with Senior Recital.)

Senior Thesis/Project

Students may choose to write a senior thesis under the direction of a faculty adviser. These candidates must successfully complete MUSC 493 Independent Research in Music.

Music Internship

Students who pursue training in a cognate area such as music business, arts administration, or some other appropriate professional field must demonstrate competence in that field through the successful completion of MUSC 497 Internship in Music.

DEGREE REQUIREMENTS

Total minimum units to complete the major in Music – Bachelor of Science degree are 120.

MINOR IN MUSIC

The Music minor, available for students who desire to pursue music studies as a secondary field, requires 24-25 units. Music minors are required to have a department adviser to assist with building meaningful schedules. The minor consists of two tracks: Music Performance and Music Literature. Students who intend to minor in Music are advised to so declare in their freshman year. Acceptance to the Performance Track is by prior audition only. Students accepted into this track must discuss with their applied teacher how they will logically progress to the final recital. Students in the Literature Track must apply to the department and complete all lower-division requirements before moving to upper-division courses. MUSC 131 and MUSC 133 must be taken concurrently.

Students must attain a grade equivalent of 2.00 or higher for courses applied to the minor. The Pass grading option is not available for courses applied to the minor.

| Performance | Track (24-25 units) |

| MUSC 205 | Women in Western Music (GenEd II.C.3) (3) |
| | |

PERFORMING ENSEMBLES

Non-Music majors/minors are encouraged to audition for performing ensembles at the beginning of each term. A complete list of ensemble offerings can be found under Course Descriptions for "Music Applied (MUSA) - Ensembles" in this catalog. (No audition is required for MUSA 150/350 Choral Society, MUSA 160/360 Marching Band or MUSA 170/370 World Music Ensemble.) For further information, contact the department at 410-704-2836.

GRADUATE PROGRAM

The Department of Music offers two graduate degrees: a Master of Science in Music Education and a Master of Music in either Performance or Composition. A Certificate of Music is also offered. A Certificate in Music: Dalcroze-Orff-Kodaly emphasis may be completed during summer sessions.

Other areas of emphasis may involve the fall, spring and Minimester terms. Entrance requirements and programs of study are available from the department's graduate program directors

and are outlined in the Graduate Catalog.

PROGRAMS OF THE DEPARTMENT

The guiding principle of the Department of Theatre Arts is that our energies and resources remain devoted to the development of our students as creative, cooperative and humanistically educated theatre practitioners. We strive to give our students maximum opportunity to use our theatres, shops and studios to develop their craft.

The undergraduate program is intentionally eclectic, including in its productions as many forms and styles of theatre as possible. The graduate program is specifically focused on the creation of original works that explore interdisciplinary and intercultural techniques.

During the academic year, the Department of Theatre Arts offers the campus and community a full season of plays in its three theatres. The department maintains a policy of casting only undergraduate student actors in undergraduate productions.

Specific goals of the undergraduate program are:

- to educate the whole person through the study of theatre as an academic and artistic discipline within the context of liberal
- to prepare students for the rigors and demands of professional theatre while also supporting theatre training for students with alternative career aspirations
- to provide an ongoing mentoring relationship between faculty and students designed to nurture a student's unique artistic voice and passionate point of view
- to foster an appreciation of social, cultural and aesthetic diversity via academic and artistic opportunities

Specific goals of the graduate program are:

- to prepare the artist as a producer of original works, either solo or in small ensembles, who will shape the theatre of the
- to explore the definition of theatre through interdisciplinary and intercultural studies and experimentation
- to maintain significant participation in the international discussion of new theatre forms and pedagogies

Both programs are committed to interdisciplinary collaborations within the university and in the community. Both strive to maintain and enhance their reputations through active participation in regional, national and international organizations.

Theatre majors receive either a Bachelor of Arts or a Bachelor of Science degree in Theatre. Majors must complete one of three tracks: Acting, Design and Production, or Theatre Studies. Students may also minor in Theatre, or double major in another field. All students are assigned advisers in the appropriate areas. The theatre program is time consuming and physically demanding, often requiring participation in evening and weekend activities. Students considering a career in the theatre should recognize that the field is extremely competitive. The Department of Theatre Arts strives to

120 The College of Fine Arts and Communication

prepare its students for the challenges of professional theatre and encourages versatility through a sound liberal arts education. All degree programs in Theatre are fully accredited by the National Association of Schools of Theatre.

MAJOR IN THEATRE

Theatre majors must complete: 46 units in theatre (at least 18 units at the 300-400 level), 31 units of required courses and 15 elective units in one of the three tracks.

Majors should work with a faculty adviser to select courses in their track. Students must attain a grade equivalent of 2.00 or higher in courses applied to the major. The Pass grading option is not available for courses applied to the major. Students are expected to take lower-division prerequisites before attempting the required upper-division electives.

TRANSFER CREDIT POLICY

Transfer students majoring in Theatre are required to complete a minimum of 20 credits of theatre courses at Towson University, with at least 12 credits at the upper (300-400) level. Majors need a total of 18 upper-level theatre credits, including transfer courses.

Transfer students minoring in Theatre must complete at least 12 credits of theatre courses at Towson University, with at least 6 at the upper level. Minors need a total of 12 upper-level theatre credits, including transfer courses.

Applicability of transfer work is determined by the department chair. Prospective transfer students should schedule an appointment with the chair at their earliest opportunity.

ACTING TRACK (15 units)

The Acting Track is for students who are seeking rigorous preparation for graduate study or for entry-level opportunities in the acting profession. Although a competitive audition is not required for admission, screening occurs within the first two years of the program. Students may be asked to repeat courses or to take acting elective courses before advancing to the next level. A minimum of 15 units is required to complete the track. Most students elect to take more than the minimum.

Credit for Performance

Students cast in theatre productions sponsored by the Department of Theatre Arts may earn up to 3 units per show by enrolling in THEA 490 Performance Practicum. The number of units allowed per role is determined by the director of the production. Eligible productions are determined by the department. Students may earn a maximum of 9 units of THEA 490.

DESIGN AND PRODUCTION TRACK (15 units)

The Design and Production Track also prepares students for graduate study and/or entry into the theatre professions. Faculty mentors guide qualified students through design and production projects of increasing responsibility, culminating in mainstage designs and leadership production positions for the most advanced students. The Design and Production Track has an excellent record of internship and career placements.

THEATRE STUDIES TRACK (15 units)

The Theatre Studies Track serves two types of Theatre majors: 1) those who wish to design their own programs of study within the department and 2) those who wish to specialize in areas of theatre studies that are not fully developed in the department (directing, movement theatre, musical theatre, stage management, theatre arts administration). In addition to the standard requirements for all Theatre majors, students in the Theatre Studies Track will select at least 15 elective units with the supervision of a theatre faculty adviser.

Directing

Students who have successfully completed Script Analysis and Directing I and who have stage-managed a faculty-directed production may propose to direct a Studio Project under the supervision of a faculty member.

Dramaturgy

The department provides students with the opportunity to serve as production dramaturgs on mainstage shows. Working individually or in teams, students help to analyze the script, provide research to the production team and create outreach projects for audience members.

Movement Theatre

There are opportunities for majors to explore movement theatre in

Stage Management

Students interested in stage management have excellent opportunities to stage-manage studio and then mainstage productions. The stage managing course is offered every fall.

Theatre Arts Administration

Students interested in box office, house managing, publicity and other aspects of theatre administration have the opportunity to gain work experience through independent study and paid positions in the College of Fine Arts and Communication. Internships with local theatres are available. Students with this interest often complete a Business Administration minor. There are no courses in theatre administration in the department.

Musical Theatre

The Department of Theatre Arts produces a mainstage musical once every two years. Some students may take private voice lessons with the Department of Music, and dance classes with the Department of Dance.

MINOR IN THEATRE

The Theatre minor requires students to take 26 units in theatre. At least 12 of these units must be at the upper division (300 and above).

Required Courses (8 units)

One Acring Course (3)

One Design and Production Course (3)

Two of the following courses:

THEA 494 Theatre Production: Scenic Elements (1): THEA 495 Theatre Production: Lighting or Sound (1); **THEA 496** Theatre Production: Costume (1)

THEA 497 Theatre Production: Running Crew (1).

Electives (18 units)

Students are encouraged to pursue an area of study within one of the department's tracks (Acting, Design and Production, or Theatre Studies) under the supervision of an adviser.

MEETING GENERAL EDUCATION REQUIREMENTS

The Department of Theatre Arts offers courses designed for students who are not majors or minors. These courses are primarily taken to satisfy General Education requirements. Please see the GenEd Requirements in the University Curriculum section of this

CAREER OPPORTUNITIES

Career opportunities in theatre include professional acting, directing, technical theatre, costume, makeup, light and set design, stage managing, theatre management and administration. Theatre alumni have also found careers in related areas such as clothing design. computer-aided design, casting agencies, business management, personnel work, promotional agencies, film and television. Many of our graduates go on to graduate school in theatre, either in preparation for professional theatre careers or college teaching. Towson University does not currently offer a program in theatre education. Students wishing to teach drama in high school should major in one of Towson's accredited secondary education subjects (such as English) and should pursue a minor in Theatre. It is also possible, with careful scheduling, to double major in Theatre and a secondary education program in another major.

SCHOLARSHIPS

A limited number of scholarships are available for continuing students. These include named scholarships such as the Askew, the Charles S. Dutton, the Gillespie/Loeschke, the John Glover, the Audrey Herman, the Nina Hughes, the Walter F. Kramme, the Christopher Legg, and the Steve Yeager scholarships.

GRADUATE PROGRAM

The Master of Fine Arts in Theatre at Towson University is an experimental, self-directed graduate program designed to challenge, expand and develop participants' artistic vision. Focusing on original solo and ensemble work, it aims to reconstruct a theatre suited to the challenges of the 21st century. Our curriculum includes residencies and workshops by nationally and internationally recognized guest artists and encourages its students to collaborate on interdisciplinary and cross-cultural projects. For more information, see the TU Graduate Catalog, call 410-704-3851 or visit www.towson.edu/theatre/grad.

The College of Health Professions

Allied Health

The College of Health Professions enrolls more bachelor's and master's health care and sport-related professional students than any other institution in the state of Maryland and has one of the largest enrollments in the mid-Atlantic region. Our mission is to provide the highest quality of undergraduate and graduate learning experiences in a wide range of health care and sport-related professions that promote and enhance health and human performance. Graduates exhibit the highest ethical principles and professional behaviors in the application of knowledge and critical thinking, the proficient use of skills, the effective use of communication and the meaningful use of technology.

As a college, we emphasize the key values of:

- Excellence
- Ethical and moral conduct
- Collaboration
- Promotion of wellness across the life span
- Worth and dignity of all people
- Lifelong learning

The programs in the college prepare graduates to assume roles in a variety of clinical. teaching, community and sport-related settings. Each program integrates this professional preparation with a rigorous grounding in the liberal arts and sciences. Faculty members support students' development to assure that graduates possess the knowledge, attitudes and skills necessary for career success. Internships and clinical experiences are an essential part of each student's education.

Programs in the college are accredited by appropriate professional and educational accrediting agencies. Graduates of the baccalaureate programs of Athletic Training, Nursing and Occupational Therapy are eligible to sit for their respective licensure or certification examinations. In addition to providing courses for students majoring in each of the departments, each department provides courses that are available to all Towson University students.

PROGRAM DESCRIPTION

The Bachelor of Technical/Professional Studies (B.T.P.S.) degree program in Allied Health at Towson University is designed for graduates of a variety of health-related associate degree programs at community colleges in Maryland. Appropriate disciplines include:

Cardiovascular technology

Clinical laboratory technician

Dental hygienist

Diagnostic medical sonographer

Dietetic technician

Emergency medical technician-paramedic

Health information technician

Massage therapist

Medical assistant

Nuclear medicine technologist

Occupational therapy assistant

Physician

Physical therapist assistant

Radiographer

Radiation therapy technician

Respiratory therapist

Surgical technologist

Veterinary technologist

The B.T.P.S. in Allied Health Program allows students to use credits earned in their A.A.S. programs toward a professionally relevant baccalaureate degree. The maximum number of community college credits that may be applied to the program is 64. Applicants must meet the admission requirements of Towson University.

Program Objectives

The B.T.P.S. in Allied Health degree program is designed to prepare students to:

- assume managerial, supervisory and/or clinical education roles within their respective areas of health practice
- enhance their use of ethically grounded and culturally sensitive practices in their administration and delivery of health services
- effectively use technology and scientific inquiry to support and guide their roles as health practitioners and administrators
- understand, evaluate and influence societal, economic and political forces that impact health practices at the individual, regional and national levels
- communicate effectively with clients, colleagues, agencies and the community in their roles as health practitioners and administrators

Program Requirements

The Bachelor of Technical/Professional Studies in Allied Health degree program requires the completion of a minimum of 120 units. Lower-division courses from associate degree programs will be applied, as appropriate, up to a maximum of 64 units. A minimum of 32 units must be in upper-division courses at Towson University. The overall program structure follows:

General Education Requirements

Students must complete Towson University's General Education requirements as specified in this catalog. In general, a graduate from one of the Maryland community college associate degree programs included in the B.T.P.S. in Allied Health Program will need

to complete 20 to 24 units of General Education courses in addition to those that are transferred. Some of the required General Education courses will be satisfied through program core and focus area requirements.

Core Requirements

All students are required to complete 18 units of core courses in the program.

One course (3 units) must be completed in each of the following areas:

Administration:

HCMN 305 Community Health Administration (3) MNGT 361 Principles of Management (3) MKTG 341 Principles of Marketing (3)

Ethics:

HCMN 417 Long-Term Care Ethical Problems (3)

HCMN 441 Legal and Ethical Issues in Health Administration (3)

PHIL 361 Ethics of Medicine and Life Sciences (3)

PHIL 371 Business Ethics (3)

Health Care Systems:

HLTH 207 Health Care in the U.S. (3) HLTH 217 Honors Health Care in the U.S. (3)

NURS 404 Health Care: An Interdisciplinary Approach (3)

Cultural Competency:

NURS 416 Multicultural Health Care (3) COMM 378 Intercultural Communication (3)

Research:

IDHP xxx

PSYC 314 Research Methods in Psychology (3) FMST 485 Research Methods in Family Studies (3)

Technology and Professional Issues:

IDHP 4xx.

Focus Area

Students choose one of five focus areas; a minimum of 15 units must be completed in a focus area. Prerequisite courses must be completed for courses chosen to be included in the focus area. Although a great deal of flexibility and a number of options are permitted within a focus area, the student must provide a rationale and take a cohesive set of courses related to that rationale for the focus area. All courses and each student's program of study must be approved by the B.T.P.S. in Allied Health program director. Below are descriptions and suggested courses for each focus area.

Administration

MKTG 341

Students may choose from a broad array of courses in the fields of healthcare management, accounting, management, marketing, finance and related areas.

Course possibilities include:

HCMN 305 Community Health Administration (3) HCMN 413 Services and Housing for the Long-Term Care Consumer (3) HCMN 415 Financing and Organization of Health Care Services in HCMN 417 Long-Term Care Ethical Problems (3) HCMN 419 Long-Term Care Administration (3) HCMN 441 Legal and Ethical Issues in Health Administration (3). ECON 339 Health Problems (3) Principles of Management (3) MNGT 361

Principles of Marketing (3)

Education

Courses in health education or other areas of education may be selected to focus on patient education or teaching.

Course possibilities include:
HITH 3.11 Chronic and Communicable Disease (3)

| HEITI SII | Chronic and Communicable Disease (5) |
|-----------|--|
| HLTH 315 | Curriculum and Planning in Health Education (3) |
| HLTH 425 | Instructional Methods in Health Education (3) |
| HITH 430 | Organization, Implementation and Management of |
| | Health Education Programs (3) |
| HLTH 432 | Measurement and Evaluation in Health Education (3) |

Wellness, Prevention and Community Health Education

Appropriate courses in health science, kinesiology, occupational therapy and other departments may be selected.

Course possibilities include:

| OCTH 205 | Alternative and Complimentary Health Care (3) |
|----------|---|
| OCTH 301 | Genetics, Health and Society (3) |
| HLTH 311 | Chronic and Communicable Disease (3) |
| HLTH 331 | Nutrition for Health Professionals (3) |
| HLTH 402 | Health and Social Welfare Promotion: Health |
| | Communication (3) |
| KNES 301 | Introduction to Recreation and Leisure (3) |
| KNES 455 | Physical Activity Programming for the Older Adult (3) |
| | |

Family Studies: Family studies is an interdisciplinary area that includes courses from the Family Studies (FMST) Program as well as a variety of courses from other departments in the university.

Course possibilities include:

| itionships (3) |
|------------------------------------|
| Family Functioning (3) |
| ontemporary Family Life (3) |
| (3) |
| Service for Families (3) |
| f Death, Dying and Bereavement (3) |
| logy of Aging (3) |
| n to the Exceptional Child (3) |
| |

Science and Professional Preparation: Students interested in pursuing graduate study in a health profession or science-related area may wish to use the focus area to complete additional course work in the natural sciences, mathematics and related areas that may be required for graduate school or professional school preparation.

Course possibilities include:

| BIOL 301 | Field Natural Science (4) |
|----------|-----------------------------------|
| BIOL 303 | Life Sciences (3) |
| BIOL 321 | Biology of Women (3) |
| BIOL 322 | Biotechnology and Society (3) |
| BIOL 323 | Genes, Evolution and Morality (3) |

Faculty

The B.T.P.S. in Allied Health Program draws on the expertise of faculty members from several departments within the university.

Further Information

For further information concerning the Bachelor of Technical/ Professional Studies in Allied Health Program, including specifics on how course work completed at community colleges will apply toward the program, please contact Marcie Weinstein at Towson University by phone, 410-704-4049, or e-mail, mweinstein@towson.edu.

Department of Audiology, Speech-Language Pathology and Deaf Studies

Professor: M. Barbara Laufer (Chair)

Associate Professors: Diana Emanuel, Sharon Glennen,

Eva Hester

Assistant Professors: Celia Bassich, Sheryl Cooper, Gerianne Gilligan, Peggy Korczak, Mark Pellowski

Clinical Assistant Professors: Iona Johnson, Stephen Pallett Clinical Administrators: Karen Pottash, Bette Stevens

Lecturers: Donna Coons, Karen Helmuth-Day, Kim Pudans-Smith

OFFICE

Van Bokkelen Hall 105, 410-704-3099

PROGRAMS OF THE DEPARTMENT

The Department of Audiology, Speech-Language Pathology and Deaf Studies offers a major in Speech-Language Pathology and Audiology and a major in Deaf Studies. These majors are broadly based in liberal arts and sciences with emphasis on information gathering, observation and the ability to evaluate information sources. At the undergraduate level, the programs emphasize information on the development and normal processes of communication, as well as communication disorders.

The undergraduate major in Speech-Language Pathology and Audiology prepares students for graduate study. The Master of Science degree program in Speech-Language Pathology and doctoral degree program in Audiology focus on specific communication disorders, their diagnoses and treatment. The graduate programs prepare students for national/state certification and state licensure, for clinical work in public and private schools, colleges and medical/paramedical institutions, and to pursue advanced degrees in the profession. For more information about the graduate programs, see the Graduate Catalog.

The Deaf Studies major offers students a broad-based liberal arts education and an opportunity for the holistic study of sign language and the people who use it. The program incorporates opportunities to interact with professionals in the field and consumers who are deaf, as well as unique internship experiences in the Baltimore-Washington area. The major prepares graduates for entry-level positions in human services professions involving people who are deaf. Graduates also pursue careers in counseling, deaf education and interpreting, or graduate study in education, counseling or rehabilitation.

In order to continue in and graduate with a department major, students are required to earn a grade equivalent of 2.00 or higher in all required pre-major or major courses, in addition to attaining the overall cumulative GPA required by the university. Any student earning a grade equivalent below a 2.00 in any one major required course must petition the department for a special permit to repeat the course on a space-available basis. Those who earn a grade equivalent below a 2.00 in more than one major course are not allowed to continue in the program.

The concept of "wellness" recognizes the importance of hearing, language and speech as core criteria for quality of life. The ability to communicate is primary to normal child development and to the maintenance of physical, social, mental and spiritual health of an individual. The Department of Audiology, Speech-Language Pathology and Deaf Studies prepares professionals to provide prevention, diagnostic treatment and other support services to people of all ages, with the goal of helping individuals maintain and enhance their communicative comperence throughout their life

SPEECH-LANGUAGE PATHOLOGY AND **AUDIOLOGY PRE-MAJOR REQUIREMENTS**

Enrollment in the Speech-Language Pathology and Audiology major is restricted as a function of the availability of clinical internship experiences, clinical supervisors, faculty and space. Each student must fulfill pre-major requirements before being considered for admission to the major. These requirements include declaration of major in the department as a pre-major, completion of five required pre-major courses, and a speech, language, hearing and voice screening.

Registration with the Department

After gaining admission to the university, students interested in either Deaf Studies or Speech-Language Pathology and Audiology must contact the department in order to declare their major and to be assigned an academic adviser.

Pre-Major Courses

The following required courses must be completed before the student can be considered for advancement to major status.

SPPA 101 Introduction to Human Communication and its

Variations (3)

SPPA 210 Phonetics of American English (3)

PSYC 101 Introduction to Psychology (or equivalent) (3)

Students are also required to complete two out of the three course categories listed below before consideration for admission to the major. The third category course must be completed as a graduation requirement.

Categories:

Biological Science (4): BIOL 110 or BIOL 201 Physical Science (4-5): CHEM 105, PHYS 202

or PHYS 211

SOCI 101, ANTH 207/208 Social/Behavioral Science (3):

or EDUC 203

The GPA of each pre-major will be reviewed upon completion of five pre-major courses. Each candidate must have a minimum cumulative GPA of 2.50 on a 4.00 scale for all course work, and a 2.80 in the five pre-major courses to be eligible for credentials evaluation. If students have completed all three pre-major lab science and social/behavioral science courses, the two courses with the highest GPA will be used for credentials evaluation. All eligible premajors are ranked by average of overall and pre-major GPA at the end of the spring term; a maximum of 50 are selected for fall admission to major status. Evaluation of credentials for advancement to major status occurs after spring term grades are posted, and students are notified of their status by certified mail no later than June 15. Once students are admitted to major status, the program will require a minimum of four terms to complete. The department maintains these high standards because students must obtain a graduate degree to practice speech-language pathology or audiology, and admission to graduate school is primarily dependent on academic excellence in undergraduate course work.

Speech, Language, Hearing and Voice Screening

Students majoring in Deaf Studies or Speech-Language Pathology and Audiology are expected to demonstrate proficiency in all areas of communication (reading, writing, oral and/or ASL) and in computational abilities. Students must have a hearing, language, speech and voice screening by clinically certified and licensed staff of the TU Speech-Language-Hearing Clinic. Students must arrange to be screened during their first year in the program. These screenings are offered by the department on specific, announced days during the first weeks of each term. Students exhibiting a communication disorder or a dialect of English that is not easily understood will be encouraged to seek treatment/training. It is expected that such students will show improved oral communication ability prior to enrolling in their first clinical internship course. If a pertinent medically based problem is suspected, a student may be required to obtain an otolaryngological examination and submit the written report to the department. Each student is given a copy of the department's screening policy upon declaration of pre-major or

TRANSFER STUDENT POLICIES

Transfer students who wish to major in Deaf Studies or Speech-Language Pathology and Audiology must declare their major with the department after they have been admitted to the university. Students should arrange for their speech, language, hearing and voice screening during their first year at Towson. Since screening for advancement to major status in Speech-Language Pathology and Audiology is only done at the end of the spring term, transfer students should be admitted to the university no later than that term. You may contact the department for additional information regarding the honors program for transfer students.

Students must submit to the department an official transcript of any academic work pursued at institutions of higher learning. All transfer credits to be applied to the major must be approved by the department. Skills assessment for placement in any American Sign Language (ASL) course is required. SPPA 210 Phonetics must have been completed within the previous 10 years and all five pre-major courses must have been completed by the time of admission to the

Transfer students are required to take 20 units in residence of department courses in their major area.

PREREQUISITE/SECOND BACHELOR'S PROGRAM

Admission to the graduate program in either Speech-Language Pathology or Audiology for those without an undergraduate degree in Speech-Language Pathology or Audiology, requires matriculation in either a 33-unit accelerated prerequisite program or a 49-unit Second Bachelor's Degree Program. The non-degree program is specific to application to our graduate program, whereas the Second Bachelor's Degree Program prepares students for application to any graduate program. Candidates for either option should contact the Office for Non-Traditional Undergraduate Programs, 410-704-2471. In order to register for classes you must first be officially admitted to the university, and then officially declare your major with the department. Failure to begin during a fall term will extend your program. For the Second Bachelor's Degree Program, course work cannot be completed in one year; only a limited number of students are selected from those who have applied by June 15 each year. The accelerated prerequisite program is an intensive one-year program for students having a GPA of 3.70 or higher. Students must apply to the Graduate School by January 15 and contact the graduate program director in Speech-Language Pathology, 410-704-2449.

MAJOR IN SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY

In addition to General Education (GenEd) requirements, Speech-Language Pathology and Audiology majors must complete 63 units in required speech-language pathology and audiology courses. However, 24 units of these 63 major required units are General Education (GenEd) Requirements*. A master's degree is the entry requirement for the professions of speech-language pathology and audiology at this time, and most graduate programs generally require a minimum GPA of 3.00 for admission consideration. As of 2012, the entry requirement for audiology will be a doctoral degree. The Pass/Fail grading option may not be applied to any SPPA course or required major course. A criminal background check must be completed and on file prior to beginning practicum.

MAJOR IN DEAF STUDIES

In addition to General Education (GenEd) requirements, Deaf Studies majors must complete 46-48 units in required program courses with a grade equivalent of 2.00 or higher, including 32 units of upper-level course work inclusive of an Advanced Composition course (GenEd LD). The major also requires a hearing, speech, language and voice screening and completion of a Criminal Background Disclosure Form. The Pass/Fail grading option may not be applied to any DFST/SPPA course or required major course. The maximum number of Credit for Prior Learning (CPL) units the department will accept is 15. The prerequisites for the capstone course DFST 410 Internship in Deaf Studies are: DFST 307, 310, 345; major GPA of 2.50 or higher; completed communication screening; and/or consent of the department. A criminal background check must be completed and on file prior to beginning internship.

SPPA/DFST DOUBLE MAJOR

SOCI 343

SPED 301

Entrance to the double major in Speech-Language Pathology and Audiology and Deaf Studies is restricted to those students who have been successfully advanced to major status from the pre-major sequence (PSPA). In addition to General Education requirements, students admitted to this option must complete 83-86 units with a grade equivalent of 2.00 or higher. However, 24-25 units of these double major units are General Education requirements.*

PROGRAMS OF THE DEPARTMENT

The field of health science bridges the gap between scientific discoveries and the application of this knowledge to improve the quality of service and life. The Department of Health Science offers the following areas of study: Health Science with concentrations in Community Health and/or School Health; Health Care Management; and the community college partnership program leading to the Bachelor's of Technical/Professional Studies in Chemical Dependency Counseling and Education with tracks in Chemical Dependency Counseling and Rehabilitation and Chemical Dependency Prevention and Education.

Students interested in Health Education, Health Care Management, or Chemical Dependency Counseling and Education should contact the department chair to receive both information about these programs and forms needed for the selected programs in completing a course of study. All students should meet with their assigned adviser each term. In addition to completing major requirements, students must complete the General Education requirements. A minimum grade equivalent of 2.00 or higher is necessary for all required courses in the major and minor.

TRANSFER CREDIT POLICY

All Health Science majors must complete a minimum of 30 units toward the major at Towson University, with at least 15 units at the upper level (300-400), including the advanced writing course (GenEd I.D).

MAJOR IN HEALTH SCIENCE -**HEALTH EDUCATION PROGRAMS**

Health education is both a science and an art that deals with the complexities of human behavior with the expressed purpose of promoting healthy behaviors. In order to develop the competencies necessary to be an effective health educator, students need a foundation built on principles derived from behavioral, biomedical and social sciences, as well as education. The expertise common to all health education specialists, regardless of the setting in which they practice, is the ability to apply teaching/learning principles to health/illness issues.

The Department of Health Science offers two Health Education Programs: the School Health—Teacher Education Concentration and the Community Health Concentration. The first three terms of course work provide the foundation for both the Community Health Concentration and the School Health Concentration. In the fourth term of study, students opting for the Community Health Concentrations must select a Community Health focus area (15 units) from the following: Community Health Leadership, Environment, Gerontology, Health Communication, Health Promotions and Wellness, Maternal and Child Health, Pre-Physicians Assistant, Sexuality, or an individual focus area with consultation from an adviser. Students must complete these 15 units with a GPA of 2.00 or higher. The Pre-Physicians Assistant focus area must include the following courses: Microbiology (4 units), Biochemistry (preferred) or Organic Chemistry (4 units) and

Statistics (4 units). Students in the Community Health Concentration could also choose to minor in another discipline like Spanish in lieu of selecting a community health focus area. In the junior year of this program, students must decide if they want to participate in a community health internship or a student teaching experience. Students selecting the student teaching experience will receive certification to teach grades 5 through 12. The students who select School Health-Teacher Education must meet the requirements for admission to the professional education program and to student teaching. Prior to student teaching, individuals must pass the Praxis 1 test. Students should schedule this examination during their junior year. Transfer students should plan to take additional terms of study.

Curriculum and Planning (HLTH 315) fulfills the GenEd I.D advanced level writing course requirement.

GenEd requirements include ENGL 102, BIOL 110, SOCI 101, PSYC 101, CHEM 100 or 105, HLTH 101 and HLTH 315.

SCHOOL HEALTH — TEACHER EDUCATION CONCENTRATION

Requirement for Admission to Teacher Education Program

All students applying for admission to a Teacher Education program at Towson University are required to complete a Criminal Background Disclosure Form. This form is to be notarized and sent to the director of the Center for Professional Practice to be kept on file. Please read the section on Admission to Teacher Education Programs in the College of Education section.

Requirement for Student Teaching

All pre-service students in Teacher Education programs at Towson University whose program of study requires an intensive/extensive internship or student teaching experience in a public or private school setting (pre-K through 12) will be required to undergo a criminal background check before entering this experience. The criminal background check must be filed with the director of the Center for Professional Practice. Please read the section on Admission to Student Teaching in the College of Education section.

COMMUNITY HEALTH INTERNSHIP

The Community Health Internship serves as a capstone experience where students can apply the knowledge they have gained in a health setting. To be eligible for the internship, students must have senior status and must have successfully completed all required courses with a grade of C or better.

HONORARY SOCIETY

Eta Sigma Gamma, the national professional honorary society in health education, has established the Beta Zeta Chapter in the Department of Health Science. The purpose of the organization is to elevate standards, ideals and ethics of the profession. For information concerning Beta Zeta, contact the chair of Health Science, 410-704-2378.

MAJOR IN HEALTH CARE MANAGEMENT

The Health Care Management curriculum is designed to provide students with a comprehension of U.S. health care organizations, a public health orientation including epidemiological concepts and tools, and the math language and computer competencies for research development, organizational management and/or program evaluation. Depending on a student's interest, graduate training in health administration is recommended after completing this course of study.

Required Prerequisites (21 units)

| ACCT 201 | Accounting Principles 1 (3) |
|----------|-------------------------------|
| ACCT 202 | Accounting Principles II (3) |
| ECON 201 | Microeconomic Principles (3) |
| ECON 202 | Macroeconomic Principles (3) |

HLTH 411 Health and Later Maturity—The Aging Process (3)

Internship-HCMN 495 (12 units)

Students have the opportunity to gain hands-on, practical work experience in this required full term capstone course. Students will be able to apply the knowledge and skills they have acquired in managing and delivering health services.

Students must apply for the internship in the term prior to enrolling in HCMN 495. The internship coordinator will assign students to a placement site based on the acceptability of student to agency and the acceptability of agency to student.

MINOR IN HEALTH CARE MANAGEMENT

The minor in Health Care Management consists of 18 units. All required courses must be completed with a GPA of 2.00 or higher.

Required Courses

AMERICAN COLLEGE OF HEALTHCARE **EXECUTIVES**

The American College of Healthcare Executives (ACHE) has officially designated Towson University's undergraduate program in Health Care Management as a Student Chapter. ACHE is designed to provide networking and leadership opportunities for health care management students, to increase oral and written communication skills, to instill motivation for lifelong learning and application of that knowledge in the health services field, and to raise awareness of the Health Care Management major itself. For information conceming ACHE, contact the coordinator of the Health Care Management Program, 410-704-4219.

HEALTH SCIENCE DEPARTMENT RECOGNITION AWARDS

This award is presented in the spring commencement ceremony to outstanding undergraduate Health Education and Health Care Management majors.

MAJOR IN CHEMICAL DEPENDENCY **COUNSELING AND EDUCATION**

The Bachelor's of Technical/Professional Studies (B.T.P.S.) in Chemical Dependency Counseling and Education is an articulated program for students who have completed an Associate of Applied Sciences (A.A.S.) degree. This 2+2 program consists of training in the Chemical Dependency Counseling Program at the Community College of Baltimore County, Dundalk, followed by additional years of study at Towson University to complete the bachelor's degree in Chemical Dependency Counseling and Education.

The bachelor's degree program includes the following areas of curricular emphasis:

- Chemical dependency prevention at the primary, secondary and tertiary levels
- Fundamental tasks and responsibilities of the chemical dependency counselor
- Analysis and application of current research and outcome data in clinical practice
- Ethical and behavioral standards of conduct in helping relation-
- Diversity and its influence on educational strategies and clinical practice

The program offered by the Community College of Baltimore County, Dundalk, prepares students to be chemical dependency counselors. The Towson University program enhances the knowledge and skills gained through the community college program by focusing particularly on ethical and behavioral standards, cultural diversity and research applications as they relate to prevention and treatment of chemical dependency.

Admission Requirements

Applicants must meet the general requirements for undergraduate study outlined in the catalogs of the Community College of Baltimore County and Towson University. To enter the Towson University program, students must also have earned 62 to 64 credits from an institution's A.A.S. degree program in chemical dependency counseling or mental health/human services.

130 The College of Health Professions

Program Requirements

The Bachelor's of Technical/Professional Studies in Chemical Dependency Counseling and Education requires the completion of a minimum of 120 units, 62-64 of which are earned through the A.A.S. degree program. Of the 120 units, each student must complete 30 units in the arts and sciences, as follows:

• 6 units in communication (including an advanced writing

 6 units in mathematics/computer science (MATH 231 or other appropriate statistics course)

12 units in fine arts, social/behavioral sciences and humanities

 6 units in natural sciences (one of which must be a 4-unit lab science)

Lower-level courses from two-year institutions will be applied to this 30-unit requirement, as appropriate.

In addition, students must complete 36-39 upper-level units including 18-19 units in one of two tracks: Chemical Dependency Counseling and Rehabilitation or Chemical Dependency Prevention and Education, and 15 units in upper-level electives. An additional 6 upper-level units of internship/practicum experience are also required beyond the internship experience earned via the A.A.S. degree program.

CHEMICAL DEPENDENCY COUNSELING AND REHABILITATION TRACK

Students who wish to pursue this track must have completed at least 24 units in counseling or psychology, with course work in abnormal psychology; theories of addiction behavior and counseling; individual, family and group counseling; pharmacology; and delivery of services.

Required Courses (19 units)

| CDČE 405/505 | Professional Standards and Ethical Responsibilities (3) |
|--------------|---|
| CDCE xxx | Research Applications in Professional Practice (3) |
| CDCE 403/503 | Cognitive Behavioral Treatment of Addictions (3) |
| PSYC 314 | Research Methods in Psychology (4) |
| PSYC 429 | Multicultural Counseling (3) |
| NURS 404 | Health Care: An Interdisciplinary Approach (3) |
| | or |
| HCMN 415 | Financing and Organization of Health Care Services |
| | 131 |

Electives (15 units)

The track requires 15 units of upper-division electives. Students should consult with their adviser to develop a coherent course of study. Students may receive approval from their adviser to complete electives not listed here.

| not listed here. |
|--|
| Psychopharmacology (3) |
| Motivation (3) |
| Personality (3) |
| Abnormal Psychology (3) |
| Adolescent Psychology (3) |
| Group Dynamics (3) |
| Systems and Techniques of Psychotherapy (3) |
| Issues in Mental Health Intervention (3) |
| Teaching about Drugs and Sex (3) |
| Measurement and Evaluation (3) |
| Nutrition for Health Professionals (3) |
| Organization, Implementation and Management of |
| Health Education Programs (3) |
| Minority Groups (3) |
| Deviant Behavior (3) |
| Community Corrections (3) |
| Theories of Crime (3) |
| Introduction to Criminal Justice (3) |
| Delinquency and Juvenile Justice (3) |
| Crisis and Stress Management (3) |
| Cultural Diversity and Health Care (3) |
| |

Internship (12 units)

Students are required to complete at least 12 units of an internship/practicum experience, and 6 of the internship units must be upper-level units. Internships offer students the opportunity to gain practical work experience, learn new skills and develop professional contacts. These experiences are provided at a variety of treatment and prevention sites—statewide, such as inpatient facilities, outpatient clinics, public health agencies and private sector programs.

CHEMICAL DEPENDENCY PREVENTION AND EDUCATION TRACK

Internship (12 units)

Students are required to complete at least 12 units of an internship/practicum experience, and 6 of the internship units must be upper-level units. Internships offer students the opportunity to gain practical work experience, learn new skills and develop professional contacts. These experiences are provided at a variety of treatment and prevention sites—statewide, such as inpatient facilities, outpatient clinics, public health agencies and private sector programs.

GRADUATE PROGRAM

The department offers a Master of Science degree with concentrations in Health Administration, Community Health Education, and School Health Education. For more information, see the *Graduate Catalog*.

PRE-MEDICAL TECHNOLOGY PRE-PROFESSIONAL **PREPARATION**

A career in medical technology can be both stimulating and rewarding, since the field is rapidly growing with advances in medical science. The medical technologist works under the supervision of a pathologist in a laboratory and performs tests on which doctors rely for assistance in diagnosing or treating diseases.

Towson University's Pre-Medical Technology Program provides the liberal arts and science basis for continuation of the degree program at the University of Maryland at Baltimore (UMB) or Salisbury University. Pre-Medical Technology students are required to complete the GenEd requirements before transferring to another senior institution.

Students who intend to transfer to UMB to complete the Bachelor of Science degree in Medical Technology must complete the following during the first two years at Towson.

Biology

BIOL 110 Contemporary General Biology (4)

BIOL 213 Anatomy and Physiology I (4)

BIOL 214 Anatomy and Physiology II (4)

BIOL 315 Medical Microbiology (4)

Chemistry

CHEM 110 General Chemistry I (4)

CHEM 111 General Chemistry II (4)

CHEM 330 Organic Chemistry (5)

Computer Science

COSC 165 Visual Basic (3)

ENGL 102 Writing for a Liberal Education (3)

ENGL xxx English Elective (3)

Mathematics

MATH 111 Algebra for Applications (3)

MATH 237 Elementary Biostatistics (4)

Humanities Electives (3 units)

Select courses from history, literature, philosophy, art and music. In addition, credit for foreign language will be given only upon completion of either the first elementary year or an advanced

Behavior and Social Science Electives (6 units)

Select from economics, political science, urban studies, sociology, geography, anthropology, African-American studies or psychology.

Electives (8 units)

CHEM 331 Organic Chemistry II (5)

PHYS 100 Understanding Physics (3)

PHYS 102 Introduction to Physics (3)

BIOL 401

Students should make application to UMB upon completing 45 units at Towson. See the Pre-Medical Technology coordinator for application information, Burdick Hall, room 141.

Department of Kinesiology

Professors: Andrea Boucher, Raymond Stinar, David Zang (Chair) Associate Professors: Ned Britt, Margaret Faulkner, William Forbes, Karla Kubitz

Assistant Professors: Phil Albert, Vincent Angotti, Tammie Bories, Heather Crowe, Michael Higgins, Marianna Horea, Elin Lobel, Robert Martin, Gail Parr. Darcy Plymire, Carl Runk, Lisa

Instructors: Wendy Dean, Matt Rothbard, April Tripp, Susan Truitt, Tabatha Uhrich

Part-time Faculty: Kenneth Badders, Lisa Digiacinto, Susan Harnett, Terry O'Brien, Andrea Worthington

OFFICE

Towson Center 200, 410-704-23-6

PROGRAMS OF THE DEPARTMENT

The Department of Kinesiology offers five academic majors: Physical Education, Athletic Training, Sport Management, Exercise Science, and Sport Studies. The Sport Studies major provides a concentration in Psychology of Sport or a track in Sport and the Humanities.

In addition, the Department of Kinesiology offers KNES 235 Individualized Fitness, as an approved course for GenEd II.B.3 American Experience: Contemporary Issues.

The department also offers a series of 2-unit activity courses that emphasize the development of skills, knowledge and fitness necessary to lead an active life. Some of the courses offered in this series include:

PHEA 205 Self Defense, Protection and Personal Safety

PHEA 207 Rhythmic Aerobics

PHEA 209 Ballroom Dance

PHEA 211 Cardiovascular Movement: Jogging, Cycling and

In-Line Skating

PHEA 215 Recreational Sports: Bowling, Billiards and Golf PHEA 217 Invasion Sports: Basketball, Lacrosse and Soccer

PHEA 221 Net Games: Badminton, Tennis and Volleyball **PHEA 223** Wall Games: Handball, Racquetball and Squash

MAJOR IN PHYSICAL EDUCATION

This program prepares competent teachers in Physical Education for elementary and secondary schools. Graduates are certified to teach at the elementary and secondary levels. A planned sequence of courses is designed to provide the student with skills and leadership experience needed to direct a balanced program in class, intramural and extramural activities.

Students majoring in Physical Education must complete 35 units in KNES professional core courses, 13 units in KNES professional laboratory skill courses, 6 units in KNES elective courses, 28-29 units in lower-level courses, and 19 units in teacher education courses. Students must complete all required and prerequisite courses for the major with a grade equivalent of 2.00 or higher. In addition, the following professional education courses must be completed with a grade equivalent of 2.00 or higher and a cumulative GPA of 2.75: PSYC 201 Educational Psychology; ELED 324 Integrating Literacy in the K-12 Content Areas; KNES 324 Teaching PE in Elementary School; KNES 325 Teaching PE in Secondary School; EDUC 401 Foundations of Education; and KNES 423 Adaptive Physical Education.

All pre-service students in Teacher Education programs at Towson University whose program of study requires an intensive and extensive internship or student teaching experience in a public or private school setting (pre-K through 12) will be required to undergo a criminal background check before beginning this experience. The criminal background check must be filed with the director of the Center for Professional Practice. Students enrolled

The College of Health Professions

in the Physical Education major must complete the criminal background check prior to enrollment in any of the following courses: KNES 324 Teaching Physical Education in the Elementary School, KNES 325 Teaching Physical Education in the Secondary School, and KNES 423 Adaptive Physical Education.

A certification in Health Science is available for students who wish to be certified to teach in physical education and health education at the elementary and secondary levels. Students are advised that the Department of Health Science is responsible for establishing the health-education requirements for this program. As such, students interested in pursuing this option must contact the chair of Health Science for additional and current information.

Program Requirements

The requirements for the major in Physical Education include 35 units of KNES professional core courses, 13 units of KNES professional laboratory courses, 6 units of KNES electives, 19 units in teacher education courses, and 28-29 units in lower-level courses.

The specific requirements for the Physical Education major are

KNES Professional Core (35 units)

| KNES 290 | Introduction to Teaching in Physical Education (2) |
|-----------------|--|
| KNES 298 | History and Philosophy of Physical Education (3) |
| KNES 309 | Tests and Measurements (3) |
| KNES 311 | Biomechanics (3) |
| KNES 313 | Physiology of Exercise (3) |
| KNES 315 | Care and Prevention of Athletic Injuries (3) |

MAJOR IN ATHLETIC TRAINING

The program of study in Athletic Training is designed for students who are interested in a career in allied health care specializing in the care of athletes and physically active individuals. Athletic trainers function as integral members of the athletic health care team in secondary schools, colleges and universities, sports medicine clinics, professional sports organizations and other health care settings. The athletic trainer specializes in the prevention, assessment, management, rehabilitation and health care administration of athletic injuries and illnesses.

The Athletic Training Education Program (ATEP) is designed to provide an effective blend of theoretical and practical learning experiences in athletic training by incorporating extensive academic and clinical education experiences. The ATEP is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Successful completion of the Athletic Training Education Program prepares an individual as a candidate for the National Athletic Trainers' Board of Certification examination.

The goals of the ATEP are first and foremost to provide students with a quality, well-rounded education. Second, the ATEP seeks to provide all necessary cognitive, psychomotor and affective competencies and proficiencies in a formalized multidimensional academic and clinical setting for students to be successful in the field of athletic training. Last, the ATEP provides opportunities for students to participate in community events and professional activities that will instill a sense of active participation in their communities and chosen profession.

The ATEP is a capped major with a limited enrollment. As such, admission to the university does not guarantee admission to the program.

Screening Process for the Accredited Athletic Training **Education Program**

Students desiring to major in Athletic Training are admitted to the Pre-Athletic Training Program. Students seeking admission into the Athletic Training major are required to have completed the following courses: BIOL 110, PSYC 201, KNES 235, KNES 291, HLTH 101, HLTH 103.

Prospective students must submit the following materials as part of the secondary screening procedure: program application (including personal statement); signed technical standards verifying that, with appropriate accommodation, they meet the technical standards for an entry-level athletic trainer; and verification of health status form (signed by the applicant's health care provider).

Transfer Students

Transfer students must submit a copy of an official transcript to show completion of equivalent course work at their previous institutions. Students transferring to the ATEP need to provide documentation that they have satisfied the clinical competencies and proficiencies addressed in KNES 291. Students need to provide verification that they have satisfied these required skills at the sending institution under the direction of a Towson University-approved clinical instructor. If verification is not available, the student will meet with the coordinator of the ATEP and work through the checklist. If the student has not been exposed to, and evaluated in, these proficiencies, the student will need to complete KNES 291 at Towson University.

The Pre-AT student will make formal application, which includes all of the materials stated below, to the coordinator of the ATEP no later than the second Friday in May: official transcripts, directed observation hours, two letters of recommendation, essay and clinical skills worksheet.

Evaluative Criteria

Seven criteria are evaluated as part of the admission process in accepting students into the ATEP:

- 1. Overall GPA Students must have a minimum overall GPA of 2.00 in their college courses to be able to apply to the ATEP.
- 2. Prerequisite Courses GPA Six classes (KNES 291, KNES 235, BIOL 110, HLTH 103, HLTH 101 and PSYC 101) are used to calculate the prerequisite courses GPA.
- 3. Observation Hours Students are assigned by the ATEP coordinator or clinical coordinator of education to a variety of clinical settings at Towson University, which include athletic training rooms, athletic practices and competitive events, to gain valuable directed observation hours.
- 4. Letters of Recommendation Students seeking admission into the ATEP will be asked to secure two letters of recommendation from individuals who can attest to their personality, academic success, intellectual abilities and clinical abilities.
- 5. Interview Candidates seeking admission to the ATEP are given a formal interview conducted by the Athletic Training Admission Committee.
- 6. Essay Applicants will submit a one-page essay stating why they want to pursue the profession of athletic training.
- 7. Clinical Skills Worksheet Students are expected to complete the clinical skills worksheet during the course of the academic year (September - March). The worksheet will consist of skills that each student should be proficient in performing (i.e. making an ice bag, taping an ankle, wrapping a thigh).

Along with the above evaluation criteria the following must be completed and turned into the program coordinator to begin clinical hours: (1) program application, (2) acceptance of technical stan-

dards, and (3) verification of health status form.

Acceptance into the program is based upon the stated criteria and the number of available openings in the program. Meeting the minimum admission requirements does not guarantee acceptance into the program. Offers of admission into the ATEP are presented on a competitive basis to those individuals who are most qualified. Students must apply for admission to the program by the second Friday of May in the spring term. Candidates will be notified of acceptance/rejection in the first week of June by mail.

Appeal Procedures

Students who are not admitted into the program can re-apply three times, but it will still take six terms to complete the required class and clinical workload. If the student does not maintain an overall GPA of 2.00, a C or better in all didactic Athletic Training courses, and a grade of satisfactory in all clinical courses, the student will be placed on probation for one year. If the student does not rectify the stated deficiency within the one-year period the student will be dropped from the program.

For more detailed information regarding the ATEP at Towson University please refer to the Athletic Training Education section at: http://wwwnew.towson.edu/kinesiology.

Program Requirements

The requirements for the major in Athletic Training include 25-26 units of lower-level courses and 54 units of KNES courses. The specific requirements for the major in Athletic Training are as follows:

KNES Required Courses (54 units)

| KNES 235 | Individualized Fitness (3) | | |
|------------------|--|--|--|
| KNES 291 | Introduction to Athletic Training (1) | | |
| KNES 309 | Tests and Measurements (3) | | |
| KNES 311 | Biomechanics (3) | | |
| KNES 313 | Physiology of Exercise (3) | | |
| KNES 315 | Care and Prevention of Arhletic Injuries (3) | | |
| KNES 363 | Nutrition for Exercise and Sport (3) | | |

| PSYC 101 | Introduction to Psychology (3) |

MAJOR IN EXERCISE SCIENCE

The major in Exercise Science is intended to examine the relationship between exercise and human performance and the role of physical activity in the promotion of healthy lifestyles. Exercise science consists of several overlapping disciplines, including biomechanics, exercise physiology and biochemistry, growth and development, exercise nutrition, measurement and evaluation, and exercise psychology. The program of study is designed to provide an effective blend of classroom instruction and practical experience. The program is intended to prepare qualified individuals for careers in clinical, corporate, commercial, and/or community exercise/wellness settings as well as to prepare students for graduate study in related fields.

Program Requirements

The requirements for the major in Exercise Science include 27 units of lower-level courses and 45 units of KNES courses. The specific requirements for the major in Exercise Science are as follows:

KNES Required Courses (45 units)

| Individualized Fitness (3) |
|--|
| Tests and Measurements (3) |
| Biomechanics (3) |
| Physiology of Exercise (3) |
| Care and Prevention of Athletic Injuries (3) |
| Exercise Psychology (3) |
| Nutrition for Exercise and Sport (3) |
| Exercise Testing and Prescription (3) |
| Practicum in Exercise Science (3) |
| |

KNES 395 Kinesiology Internship (3) **KNES 469** Research Methods in Exercise Science (3)

Plus 12 units from a selected group of KNES upper-division courses

Required Lower-Level Courses (27 units)

| BIOL 110 | Contemporary General Biology (4) |
|--------------|--|
| BIOL 211-212 | Human Anatomy and Physiology (4) |
| BIOL 213-214 | Human Anatomy and Physiology (4) |
| CHEM 105 | Chemistry for Allied Health Professionals (4 |
| HLTH 101 | Wellness for a Diverse Society (3) |
| PHYS 202 | General Physics for the Health Sciences (5) |

PSYC 101 Introduction to Psychology (3)

MAJOR IN SPORT MANAGEMENT

The major in Sport Management is designed to address the unique position of sports in American business and to prepare students for careers in athletic and recreation administration, the fitness industry, college and professional sports, and retail marketing.

Program Requirements

The requirements for the major in Sport Management include 18 units of lower-level courses, 36 units of KNES courses and 12 units of BUAD courses. Students interested in Sport Management are strongly encouraged to pursue the minor in Business Administration (BUAD) as part of their program of study. The requirements for the major in Sport Management with a minor in BUAD include 24 units in lower-level courses, 36 units of KNES courses and 9 units of BUAD courses.

The specific requirements for the major in Sport Management are as follows:

Lower-Level Requirements (18 units)

| ACC1 201 | Accounting Principles 1 (3) |
|----------|---|
| ACCT 202 | Accounting Principles II (3) |
| COMM 131 | Fundamentals of Speech Communication (3) |
| COSC 111 | Information and Technology for Business (3) |
| ECON 201 | Microeconomic Principles (3) |
| PSYC 101 | Introduction to Psychology (3) |

| KNES Required Courses (36 units) | | |
|----------------------------------|------------------------------------|--|
| KNES 235 | Individualized Fitness (3) | |
| KNES 333 | Sport Management (3) | |
| KNES 353 | Sport and Society (3) | |
| KNES 355 | Psychology of Sport (3) | |
| KNES 393 | World History of Sport to 1900 (3) | |
| | or | |
| KNES 451 | History of American Sport (3) | |
| KNES 395 | Kinesiology Internship (3) | |
| KNES 453 | Sport Administration (3) | |

Plus 15 units of electives from selected KNES and BUAD courses

BUAD Required Courses (12 units)

| MKTG 341 | Principles of Marketing (3) |
|----------|-------------------------------|
| MKTG 345 | Advertising Management (3) |
| MNGT 361 | Principles of Management (3) |
| MNGT 381 | Human Resource Management (3) |

The specific requirements for the major in Sport Management with a minor in BUAD are as follows:

| Requirements (24 units) |
|---|
| Accounting Principles 1 (3) |
| Accounting Principles II (3) |
| Fundamentals of Speech Communication (3) |
| Information and Technology for Business (3) |
| Microeconomic Principles (3) |
| Macroeconomic Principles (3) |
| Statistics for Business and Economics (3) |
| or |
| Basic Statistics (3) |
| Introduction to Psychology (3) |
| |

KNES Requirements (36 units)

| KNES 235 | Individualized Fitness (3) |
|------------------|---|
| KNES 333 | Sport Management (3) |
| KNES 353 | Sport and Society (3) |
| KNES 355 | Psychology of Sport (3) |
| KNES 393 | World History of Sport to 1900 (3) |
| | or |
| KNES 451 | History of American Sport (3) |
| KNES 395 | Kinesiology Internship (3) |
| KNES 453 | Sport Administration (3) |
| Plus 15 units of | electives from selected KNES and BUAD courses |

at Towson University in order to earn a minor in BUAD.

BUAD Requirements (9 units)

| FIN 331 | Principles of Financial Management (3) |
|-----------------|---|
| MKTG 341 | Principles of Marketing (3) |
| MNGT 361 | Principles of Management (3) |
| *Note: Students | must complete a minimum of 12 units in BUAD courses |

MAJOR IN SPORT STUDIES

The Sport Studies program focuses on the current knowledge base and interpretations of human interaction in sport. The program provides a range of interdisciplinary study options leading to preparation for graduate study or employment in sport-related positions.

PSYCHOLOGY OF SPORT CONCENTRATION

The program in Psychology of Sport is designed to address aspects of psychological study related to athletic performance, exercise and physical activity. Students selecting this concentration must also declare a minor in Psychology.

Required KNES Courses (18 units)

| KNES 235 | Individualized Fitness (3) |
|-----------------|---|
| KNES 285 | Sport: A Cross-Cultural Perspective (3) |
| KNES 353 | Sport and Society (3) |
| KNES 355 | Psychology of Sport (3) |
| KNES 393 | World History of Sport to 1900 (3) |
| | or |
| KNES 451 | History of American Sport (3) |
| KNES 395 | Kinesiology Internship (3) |
| | |

Kinesiology Electives

Students must choose 15 units from KNES and selected psychology courses.

MINOR IN PSYCHOLOGY

Students are required to complete 26 units in psychology with a grade equivalent of 2.00 or higher in each course. Of these 26 units, 14 units are to be completed in the core courses (PSYC 101 or PSYC 102; PSYC 203 or PSYC 204; PSYC 212; PSYC 314). The remaining 12 units must be used to satisfy four of the six topic areas listed below. Minors must satisfy the relevant prerequisites for individual psychology courses taken.

Required Courses (26 units)

| required C | ourses (20 units) |
|------------|---------------------------------------|
| PSYC 101 | Introduction to Psychology (3) |
| | or |
| PSYC 102 | Honors Introduction to Psychology (3) |
| PSYC 203 | Human Development (3) |
| | or |
| PSYC 204 | Honors Human Development (3) |
| PSYC 212 | Behavioral Statistics (4) |
| PSYC 314 | Research Methods in Psychology (4) |
| | |

Additional Required Courses

| BIOL 110 | Contemporary General Biology (4) |
|----------|--|
| COMM 131 | Fundamentals of Speech Communication (3) |

Select from the following to complete 26 units. The elective courses must include at least one course from four of the following six areas: Human Development, Clinical, Social, Biopsychology, Learning-Cognition and Diversity.

Topical Areas

| PSYC 403 PSYC 404 | Adolescent Psychology (3) Psychology of Aging (3) | |
|-----------------------------|--|--|
| II. Clinical (3 | units) | |
| PSYC 350 | | |
| | Abnormal Psychology (3) | |
| | Tests and Measurements (3) | |
| | , , | |
| III. Social (3) | units) | |
| | Social Psychology (3) | |
| | Industrial Psychology (3) | |
| | Group Dynamics (3) | |
| IV. Biopsychology (3 units) | | |
| | Psychopharmacology (3) | |
| PSYC 317 | | |
| PSYC 460 | Ethology and Comparative Psychology (3) | |
| PSYC 465 | Physiological Psychology (3) | |
| | | |
| V. Learning- | Cognition (3 units) | |
| PSYC 305 | Psychology of Learning (3) | |
| PSYC 315 | Motivation (3) | |
| PSYC 461 | Cognitive Psychology (3) | |

VI. Diversity (3 units)

PSYC 432 Cross-Cultural Counseling (3) PSYC 447 Sex Differences: Psychological Perspectives (3)

PSYC 451 Introduction to the Exceptional Child (3)

Sport and Humanities Track

The program of study in Sport and Humanities is designed to address anthropological, historical, philosophical and sociological aspects of sport. Students selecting this track will be required to select 15 units of electives outside of Kinesiology in the humanities area.

Required Kinesiology Courses (18 units) KNES 235 Individualized Fitness (3)

| 141420 200 | matriadanzea i miess (5) |
|------------|---|
| KNES 285 | Sport: A Cross-Cultural Perspective (3) |
| KNES 353 | Sport and Society (3) |

PROFESSIONAL PREPARATION ELEMENTARY EDUCATION

The Department of Kinesiology offers three courses for students majoring in Early Childhood or Elementary Education. They are KNES 281-282 Physical Education for Elementary Education Students I, II; and KNES 324 Teaching Physical Education in the Elementary School. KNES 281-282 are prerequisites for KNES 324.

TRANSFER CREDIT POLICY

Kinesiology transfer credits will be evaluated by the department on an individual basis. A minimum of one-half of the units required in the major (KNES) must be completed at Towson University. A grade equivalent of 2.00 or higher must be earned in all required courses and all prerequisites for required courses.

Department of Nursing

Professor: Cynthia Kielinen

Associate Professors: Christina Barrick, Joanna Basuray, Sharon Eifried, Deborah Greener, Jacquelyn Jordan (Chair), Joan

Jordan, Mary Lashley, Dianne Taylor

Assistant Professors: Marilyn Halstead, Vicky Kent, Lena Lee,

Clinical Assistant Professors: Beverly Bye, Sheila Green, Kim McCarron

Visiting Instructors: Carol Gallo, Elizabeth Crusse

Lecturer: Michelle R, Lane

Part-time Faculty: Nancy Baldwin, Alice Behles, Suzanne Bonner, Diane Bradley, Loretta Dahlem, Joanne Dobry, Lori Geier, Patsie Griffin, Ruth Honnas, Elizabeth Rudolf, Jane Virden, Karen Williams-Cooper, Mary Wippel

Burdick Hall 137B, 410-704-2068 or 2069 Recorded Information: 410-704-2067 Admissions Coordinator: 410-704-4170

PROGRAMS OF THE DEPARTMENT

Nursing is both an art and a science with an evolving body of specialized knowledge derived from nursing research, as well as from the synthesis of knowledge from related disciplines. Nursing, independently or collaboratively, guides and influences the behavior of others in their efforts toward optimizing the health status of individuals, families, groups and communities.

Towson offers a program in professional nursing leading to the Bachelor of Science degree with a major in Nursing. The Nursing curriculum includes courses in the liberal arts, the sciences and nursing. The curriculum, designed for basic and registered nurse students, prepares the graduate to accept responsibility and accountability for the care of clients and families in a variety of health care settings, to function in beginning leadership roles, and to be consumers of and participants in nursing research. Students are also provided with the foundation for graduate study in nurs-

The Nursing Program is approved by the Maryland Board of Nursing, and accredited by the Commission on Collegiate Nursing Education. Basic students graduating from the Nursing major are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). The Department of Nursing holds membership in the American Association of Colleges of Nursing, the Council of Baccalaureate and Higher Degree Programs of the National League for Nursing, Commission on Collegiate Nursing Education, and the Council on Collegiate Education in Nursing of the Southern Regional Education Board.

MAJOR IN NURSING: BASIC STUDENTS

The university requires a minimum of 120 units for graduation. However, established departmental requirements must also be completed for graduation with a Nursing major. This necessitates completion of more than 120 units for most students enrolled in the department.

Students must complete all prerequisite courses prior to beginning the major. Proper course planning and good advising are key to timely admission to the major and completion of the program in four years. The departmental brochure contains a recommended course plan for students for the entire four-year degree. Pre-nursing majors may request a nursing adviser to help them plan their academic program prior to admission to the major. Students can contact the department for specific information and to be assigned to an adviser. Once the student is admitted to the Nursing major, the nursing courses must be completed in a sequential pattern, because each course is a foundation for the subsequent course. Part-time study options are available.

Pre-nursing students demonstrating competencies covered in MATH 115 (as determined by the Department of Mathematics) may enroll in an alternative offering of one of the following: MATH 116, MATH 119 or MATH 273, in order to meet the mathematics requirement. Placement in the particular course is determined by the Department of Mathematics.

Because requirements may be revised from time to time, it is the student's responsibility to make certain that he or she is working with the most current materials. Contact the department for assistance with program planning.

Requirements for the Major

First Term

In addition to the General Education (GenEd) requirements, Nursing majors must complete the following prerequisites prior to beginning major course work. Several of these courses can also meet GenEd requirements. (*GenEd)

| *ENGL 102 | Writing for a Liberal Education (3) |
|-----------|--|
| *BIOL 110 | Contemporary General Biology (4) |
| BIOL 213 | Human Anatomy and Physiology I (4) |
| BIOL 214 | Human Anatomy and Physiology II (4) |
| BIOL 215 | Fundamentals of Microbiology (4) |
| | or |

ADMISSION TO THE NURSING MAJOR

Before students can be considered for admission to the Nursing major, they must be admitted to or have applied for admission to the university. Transfer students must adhere to the university's transfer policies.

Admission to the Nursing major is granted only by the department. Admission to the university does not constitute or guarantee admission to the major. Students are admitted in both the fall and spring terms of each academic year. The application for admission to the Nursing major is available from the admissions coordinator. It is to be returned to the admissions coordinator, Department of Nursing, by January 15 for fall admission and August 15 for spring admission. Because the process requires official transcripts from all educational institutions that students have attended, students should allow sufficient time for receipt of transcripts in the department by the due date. Late applications are accepted on a space-available basis.

EARLY ADMISSION POLICY

Pre-nursing students who have completed their freshman year at Towson University, have an overall GPA of at least 3.30, and no more than one course grade less than a 2.00 may apply for early admission to the Nursing major. Early admission will give them "Guaranteed Admission Status," which will ensure them a place in the program in the term they are ready to enter. In order to maintain this status, the student must maintain a GPA of 3.30 and all course grades must be 2.00 or higher. Students who have "Guaranteed Admission Status" and have grades that fall below these criteria may still be accepted into the program, but need to be re-evaluated with the rest of the group applying for that term. Students interested in pursuing admission under this policy are urged to contact the admissions coordinator at 410-704-4170.

INDIVIDUAL ADMISSION POLICY

Applicants who do not meet the admission criteria may still be considered for admission under the individual admission policy. To be considered, the individual must demonstrate the ability to be successful in a rigorous academic curriculum through recent strong academic performance in relevant course work. Applicants who wish to be considered under this policy must submit, with the standard application, supporting materials making a specific, personalized case of why the applicant deserves acceptance into a rigorous academic program. Submitted materials should include a written request for consideration, two letters of recommendation from appropriate sources, such as professors or academic advisers, and a personal statement with supporting materials explaining why the applicant deserves special consideration and why his or her qualifications do not meet stated criteria. Materials submitted should contain very specific and compelling information to warrant special consideration.

BASIC PROGRAM

High school students are advised to take the following courses to provide the base necessary to complete the prerequisite courses for the Nursing major: mathematics – three units (two years of algebra and one year of geometry); chemistry – one unit; biology – one unit. Physics, although not required, is recommended.

Eligibility and Screening: Admission to the major is contingent upon the student being screened and admission being offered to the applicant by the department. The screening process takes place during the term prior to the student's anticipated enrollment in the first nursing course. Students are eligible to apply for admission after they have completed a minimum of 42 undergraduate units, including at least four laboratory sciences and ENGL 102. Only one grade below a grade equivalent of 2.00 is allowed in prerequisite or General Education courses, and no more than two courses may be

repeated. A minimum GPA of 2.50 on a 4.00 scale is required; however, students must note that achievement at the 2.50 level in itself does not guarantee admission to the program. The higher the applicant's GPA, the greater the possibility of being offered admission.

TRANSFER AND SECOND DEGREE STUDENTS

Transfer students and those seeking a second baccalaureate degree are admitted to the university according to university policies and procedures. Generally, transfer students must complete all required nursing courses of the department at Towson University. Nursing courses completed in another baccalaureate nursing program are evaluated individually for equivalence by the department.

REGISTERED NURSE PROGRAM

To be eligible for admission, students must have graduated from a state-approved diploma or associate degree nursing program and be licensed as a registered nurse in Maryland. Recent graduates may be admitted pending successful completion of the NCLEX-RN. Students applying for admission to the Nursing major must either have been admitted to the university or be currently seeking admission to the university.

Registered nurse students are advised to contact the department for advisement prior to completion and submission of the application for admission to the university.

Eligibility and screening: Admission to the Nursing Program is granted only by the department. Eligibility requirements are dependent upon the option chosen. In addition, RN students are required to have a minimum GPA of 2.50 on a 4.00 scale. Only one grade below a grade equivalent of 2.00 is allowed in the non-nursing courses required for the Nursing Program. Students validating their basic nursing education through the "transition course" option must have completed these courses prior to admission to the Nursing major.

RN ARTICULATION MODEL

Effective fall 2004, the department will participate in a revised statewide articulation model. No more than half of the baccalaureate degree, with a maximum of 60 non-nursing units, will be accepted at Towson from a community college. Nursing units will not be transferred. However, individuals with an active unencumbered Maryland or compact RN license articulating to the baccalaureate level are awarded a minimum of 30 upper-division nursing units in the program.

The total number of units to be completed is 30; however, to ensure successful progress through the Nursing major, students will need statistics, Chemistry for Allied Health Professions II and microbiology. If these courses were not part of the associate's degree, they must be completed prior to acceptance into the Nursing major—which could add an additional 12 units to the program.

The baccalaureate Nursing program builds upon the student's previous learning, ensures a broad base in the liberal arts, and offers nursing courses that are designed to enhance professional nursing practice. RNs are advised to contact the department for assistance with admission and program planning.

HEALTH ASSESSMENT CHALLENGE EXAMINATION

Registered nurses with an extensive background in health assessment may elect to challenge the course NURS 347 Health Assessment Across the Life Span. Students interested in challenging the course must first meet with the NURS 347 course coordinator to determine the extent of their health assessment background and receive specific information regarding the challenge option.

ACADEMIC STANDARDS

Students are required to maintain a GPA of 2.50 to enroll in clinical courses in the major. A grade of 2.00 or higher in both the theory and clinical component in each nursing course is required, in addition to maintaining a 2.00 overall GPA.

Effective fall 2003, new students entering or re-entering the program must earn the national average composite score on a national examination as specified by the Department of Nursing (currently the RN Assessment Test published by Education Resources, Inc.) during their senior year, second term, in order to be eligible to sit for the NCLEX-RN examination required for licensure.

The Nursing Student Handbook provides additional information concerning department policies and is distributed upon enrollment in the major.

SPECIAL FINANCIAL OBLIGATIONS

All students in the Nursing major are required to:

- · carry Nursing student liability insurance through the university
- carry hospitalization insurance including accident and/or emer-
- purchase departmental uniforms and supplies (approximately \$700 for basic students and \$200 for RN students)
- · have a valid driver's license and access to the independent use of a car in order to provide own travel to and from clinical
- · assume financial responsibility for expenses related to the required physical examination and laboratory/screening tests Information about financial assistance may be obtained from the university's Office of Financial Aid.

Information sessions are offered throughout the year. For additional information, contact the admissions coordinator.

Department of Occupational Therapy and Occupational Science

Professors: Karen Eskow, Charlotte Exner, Regena Stevens-Ratchford, S. Maggie Reitz (Chair)

Associate Professors: Janet DeLany, MaryBeth Merryman, Marcie Weinstein

Assistant Professors: Sonia Lawson, Jenna Yeager

Clinical Assistant Professors: Lynne Murphy, Marlene Riley

Part-time Faculty: Lisa Fagan Visiting Instructor: Kathy Murphy

Lecturers: Barbara Demchick, Macyanne Sacco-Peterson

OFFICE

Lida Lee Tall 305, 410-704-2762

PROGRAMS OF THE DEPARTMENT

Occupational therapy is the art and science of directing human participation in selected occupations to restore, reinforce and enhance performance, facilitate learning of skills and functions essential for adaptation and productivity, diminish or correct pathology, and promote and maintain health. Occupational therapists direct the use of self-care, work, homemaking, play, leisure, art and occupation. They use these activities to assist individuals or groups whose health is threatened or impaired by developmental deficits, aging, poverty, environmental conditions, physical injury, illness, or psychological and social disability.

The Department of Occupational Therapy and Occupational Science currently offers a Combined B.S./M.S. program designed to provide a liberal education and develop professional competence. The program of study leads to a Combined B.S./M.S. degree in Occupational Therapy. The Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. AOTA's phone number is 301-652-2682. Graduates of the program will be able to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT certification examination. (Persons convicted of felonies may be unable to sit for the certification examination and should inquire in advance of program entry regarding eligibility.)

Occupational therapy is a profession that demands its practitioners have clinical competencies as well as academic knowledge. In addition to satisfactory completion of course work, students must demonstrate appropriate professional behaviors and skills prior to beginning clinical/internship experiences. Students who have lower than a 3.00 GPA will not be permitted to enroll in OCTH 435/436. In the event that students lack appropriate professional behaviors and/or skills and/or do not have satisfactory academic performance in one or more required courses, recommendations for remedial courses of action will be made.

Students are expected to be aware of and adhere to the Code of Ethics established by the department. Violation of the standards set forth in this document is cause for disciplinary action which may include dismissal from the programs offered by the Department of Occupational Therapy and Occupational Science.

The department also offers a Master of Science degree in Occupational Therapy and a Doctor of Occupational Science (Sc.D.). For further information, consult the Graduate Catalog.

Department of Occupational Therapy and Occupational Science 139

PROGRAM AND FIELDWORK REQUIREMENTS

Health and Insurance Requirements

Contracts with fieldwork facilities require that students in placements show proof of current health insurance and documentation of current health status. The findings of the health examination will not necessarily exclude students from placement. Students must present evidence of current health insurance, a recent health examination, a speech and hearing screening and results of a P.P.D. test prior to enrollment in the first fieldwork experience. Speech and hearing screening is offered free of charge through the Towson University Speech and Hearing Clinic each term. Annual updates are required. Students must also complete the Hepatitis B vaccine series including the results of a titer or sign a declination form for the vaccine.

CPR Courses and First Aid

Certification for adult, infant and child CPR is required prior to beginning the program. Proof of current CPR certification is required during enrollment in the major. Online courses are not accepted. It is highly recommended that students complete a standard course in first aid.

Criminal Background Check

Students may be required to obtain a criminal background check if required by the fieldwork site. This can occur for any Level I or Level II fieldwork experience. The student is responsible for this expense.

PRE-ADMISSION REQUIREMENTS FOR ALL CANDIDATES

Admission to the university does not guarantee admission to the Occupational Therapy major. At students' request, occupational therapy and occupational science faculty and administrative staff will advise candidates about the nature of the profession, the national certification examination, and the occupational therapy curriculum prior to admission.

APPLICATION CRITERIA

Applicants are encouraged to contact the department to request a Pre-OT adviser. Application materials for the Occupational Therapy Program must be submitted to the College of Health Professions (CHP) admissions coordinator with a postmark no later than March 1. All students applying for admission to the Combined B.S./M.S. Occupational Therapy Program at Towson University must meet the following criteria:

1. Applicants must have applied to Towson University for fall

admission by February 1.

2. Applicants must have completed a minimum of 14 units in college courses, excluding developmental courses, by the end of the fall term preceding screening.

3. Applicants must have a grade equivalent of 2.67 or higher in the following courses or their equivalents completed by

a. BIOL 110 Contemporary General Biology (must be completed by end of fall term preceding screening). or BIOL 213 Anatomy and Physiology I (may be substituted for BIOL 110 for screening purposes).

b. Two of the following three courses: PSYC 101 Introduction to Psychology SOCI 101 Introduction to Sociology ENGL 102 Writing for a Liberal Education

All of these courses must be completed by the end of the term in which screening takes place with a grade equivalent of 2.67 or higher. CLEP tests and AP exam scores may be used in lieu of course grades. However, scores must be equivalent to the grade requirement of a 2.67 or higher, and the courses must be posted on the TU transcript. Applicants with lower test scores must take the

course and achieve a grade equivalent of 2.67 or higher to be considered for screening. Applicants with such test scores must contact the CHP admissions coordinator for specific information.

- 4. Applicants must have a minimum overall GPA of 2.70 by the end of the fall term preceding screening.
- 5. Applicants must submit the following documents in one packet postmarked by March 1:
 - a. Official transcripts that include course work taken through the fall term preceding application to the program at institutions other than Towson University.
 - b. A completed Human Service Activity Verification Form, which provides evidence of completion of at least 30 hours of work and/or volunteer experience in a human service activity. This work or volunteer experience must have involved direct contact with people with disabilities, illness or other disadvantages. Examples include work/volunteer experience with clients in hospitals, nursing homes, rehabilitation facilities, senior centers, drug rehabilitation programs, programs for the homeless, camps, etc.
 - c. A typewritten application essay following the guidelines provided by the department.
 - d. Three reference forms completed by appropriate individuals and submitted in accordance with application requirements.
- 6. Applicants must have a completed Prerequisite Course Form on file by March I. In addition, applicants who wish to have courses not listed on this form approved as equivalent to major courses in this program of study must submit a written request for approval of these courses.

7. A minimum of 23 units meeting General Education (GenEd) requirements must have been completed prior to beginning the first term of the Occupational Therapy Program.

Applicants with units more than 10 years old may petition (in writing by March 1) to have these units excluded from calculation of the GPA if they have successfully completed 14 or more units within the past two years. These 14 units must include either BIOL 110 Contemporary General Biology or BIOL 213 Anatomy and Physiology I (or their equivalent). When this option is approved, all units more than 10 years old are excluded from GPA computation, with the exception of grades for PSYC 101, SOCI 101, ENGL 102, and PHYS 202 or PHYS 211. If applicants wish old screening course grade(s) to be omitted, they must have retaken the screening course(s) within the past 10 years. If a petition regarding omission of these grades is not received by the application deadline, all courses more than 10 years old will be used in computation of the GPA.

APPLICATION PROCESS

Screening for admission is based on a review of student's GPA, admission essay, letters of recommendation and required volunteer experience.

Early Admission to the Major

High school seniors, current Towson University students, and transfer students with an overall GPA of 3.40 may be considered for early admission to the Combined B.S./M.S. Occupational Therapy Program. Early admission will result in Guaranteed Admission Status, which will ensure the student a place in the program with the next class admitted. In order to receive Guaranteed Admission Status, applicants need to complete the application process and be selected by the program's Admissions Committee. In order to enter the program, students must meet all application criteria, including prerequisite grade requirements and be admitted to

Early admission applicants will be admitted on a first-come, first-served rolling admission basis. Applications will continue to be accepted until all available spaces are filled. No more than 50 percent of the class will be filled with early admit students.

Applicants will be informed of the status of their application within 30 days. Students interested in pursuing early admission under this policy must contact the CHP admissions coordinator, 410-704-4170.

First Level of Screening

Initial screening, which is based on GPA, will occur immediately after March 1 for applicants who have complete files. Overall GPAs will be computed, and the top 60 applicants will be identified.

Second Level of Screening

The department's Admissions Committee will review documents of the top 60 applicants and evaluate these applicants based upon their GPAs, essays and references. The top candidates from this pool of applicants will be selected for admission.

A maximum of 25 percent of the group of applicants selected will be out-of-state students, unless qualified in-state students are unavailable.

Selection of the top candidates will be completed by April 15. After May 15 a waiting list will be developed consisting of other applicants from the original pool of 60 who were not accepted but wish to remain on the waiting list for classes beginning that fall term. The top candidate on that list is notified if a place becomes available in the class. If that candidate cannot accept the place, the next candidate is notified. The waiting list is maintained until the end of the drop-add period in the fall and does not carry over into the next year.

MAJOR IN OCCUPATIONAL THERAPY

In addition to the General Education requirements, Occupational Therapy majors must complete 70 units in occupational therapy courses, 22 units in other required courses and 21 units in clinicals and internships. Additional elective units may be required to earn the total of 120 units necessary for the B.S. degree and to meet the requirements of the M.S. degree. Courses applicable toward the major may not be taken under the Pass grading option.

Students must maintain a minimum cumulative GPA of 2.75 following admission into the Occupational Therapy major. By the end of the term preceding OCTH 435, students must achieve and maintain a cumulative GPA of 3.00, and consistently demonstrate professional behaviors and necessary competencies to enroll in OCTH 435. Students must then have a cumulative GPA of 3.00 to be admitted into the graduate portion of the occupational therapy program. A grade equivalent of 1.67 or lower in a required course will not count toward major unit. Students receiving a grade equivalent of 1.67 or lower in a major course or a U in OCTH 435/436 may retake the course once to improve their standing. Failure of OCTH 435 or 436 (U grade) may result in denial of readmission.

After advancement to graduate student status, Occupational Therapy Combined B.S./M.S. students must meet all department and Graduate School academic standards and policies.

Special Permits

Special permits are required for admission to all Occupational Therapy major courses.

*Graduate electives can be moved to an alternate term and/or taken during the winter or summer sessions.

All OT students must complete Level II Fieldwork within 24 months following completion of academic preparation.

In addition to the above courses, students are required to complete all GenEd requirements during regular terms or summer sessions. Students must complete all GenEds by the end of the fifth term of the program.

Students in this program may not take occupational therapy courses prior to the terms in which they are scheduled on this plan.

CERTIFIED OCCUPATIONAL THERAPY ASSISTANTS

Certified occupational therapy assistants may ask to have courses taken in fulfillment of their degree reviewed to determine if any of these courses may substitute for required 200-level courses in the Occupational Therapy Program of study at Towson University. Depending upon type and number of courses accepted as equivalent to TU courses, permission to complete the academic program in four terms of academic course work and six months of fieldwork may be granted. Students who wish to be considered for this option must notify the department in writing of their request and must provide course descriptions.

MASTER OF SCIENCE IN OCCUPATIONAL THERAPY

The Master of Science in Occupational Therapy is designed for individuals with bachelor's degrees who are interested in assuming leadership roles in the profession and obtaining advanced education with emphasis on teaching, research or clinical practice. Specialization in Administration, Education, Gerontology, Pediatrics or other approved specialty areas is also offered. Those individuals who are not occupational therapists must be screened for admission to the pre-occupational therapy component of the program and must successfully complete prerequisite courses prior to enrolling in graduate degree program occupational therapy courses. For further information, consult the Graduate Catalog.

DOCTOR OF SCIENCE IN OCCUPATIONAL SCIENCE (Sc.D.)

The applied doctoral degree in Occupational Science prepares certified occupational therapists to teach and influence policy, and engage in applied research. Occupational science is the scientific study of human occupation related to the purposeful and meaningful activities that comprise everyday life experiences. The study of occupation involves the investigation of the relationship between humans' occupations and their health. This unique social science examines the capacity of humans to engage in occupation and develop healthy adaptive skills. The main emphasis of this doctoral program is to enhance the health of society by applying knowledge gained through the advanced study of occupational science and human behavior. For more information, consult the Graduate Catalog.

The College of Liberal Arts

Cultural Studies

The liberal arts are the core disciplines of the university, those disciplines through which students explore and interpret what it means to be human, both as individuals and as members of groups. Study of the liberal arts frees us to think more clearly, to analyze and interpret information, to weigh points of view, to arrive at informed judgments about complex issues, and to appreciate the rich diversity of human culture.

The College of Liberal Arts is committed to providing a comprehensive opportunity for undergraduate and graduate instruction. The liberal arts curriculum helps students develop the ability to analyze and interpret information and opinions objectively, form and express conclusions creatively, express themselves clearly, appreciate the wide diversity of human culture, and move comfortably in the world of ideas and values. Degree programs in the College of Liberal Arts emphasize professional career opportunities and interdisciplinary study, as well as more traditional theoretical aspects of the disciplines.

Teaching

While using effective traditional teaching methods, Towson has also been in the forefront of innovation in instruction. The college supports small classes, an emphasis on writing and personal attention to students. College of Liberal Arts faculty are in the forefront of curriculum innovation in writing instruction, in infusion of material on cultural diversity, and in the use of technology to expand and enrich learning.

Scholarship

Commitment to undergraduate education is reflected not only in teaching excellence, but also in the faculty's active involvement in scholarly activity and professional growth, including publications, presentations at professional meetings, and participation in regional, national, and international conferences and workshops. Opportunities also exist for students to become involved in collaborative research with faculty, further developing students' academic and personal growth while providing new avenues for the College of Liberal Arts to meet the challenge of continued excellence in education.

Service

The College of Liberal Arts serves the metropolitan community in many ways, contributing to its cultural life and social progress. The departments, centers and institutes of the college develop creative partnerships with public and private enterprises that ensure the intellectual resources of the institution are fully engaged in ways that are mutually beneficial and serve the people of the Baltimore metropolitan area. Within the university, faculty of the college serve on the essential committees, governing bodies, and task forces that promote the educational missions of the university.

THE PROGRAM

Cultural Studies is a growing field of inquiry that explores cultural practices in relation to history, economics, society, and to other cultural productions. It examines everyday life in whatever form it finds: arts, media, texts, performances, institutions, communications, structures of power, and it looks at the ways we create, circulate and resist meanings. Cultural Studies programs cross disciplines in order to engage contexts like gender and sexuality, class, race and ethnicity, globalization and national identity.

MAJOR IN CULTURAL STUDIES

Majors in Cultural Studies must complete 42-45 units of course work drawn from throughout the curriculum of the university, including an introductory course (3 units) and core requirements (18 units), 18 units of elective courses distributed among four of the six focus areas for cultural study (Visual Culture, Performance Culture, Identity and Culture, Textuality and Culture, Science, Technology and Culture, and Perspectives in Cultural Studies) and a seminar and/or capstone experience.

I. Introductory Course (3 units)

CLST 201 Introduction to Cultural Studies (3)

II. Core Courses (18 units)

| CLST 301 | Perspectives in Global Culture (3) |
|----------|-------------------------------------|
| CLST 303 | Identity and Culture (3) |
| CLST 305 | Textuality and Culture (3) |

|----------|-------------------------------------|
| WMST 336 | Women and Medicine (3) |
| WRIT 335 | Ethics in the Physical Sciences (3) |

IV. Seminar and/or Capstone Experience (3-6 units)

Students have three options to choose from to fulfill this stage of the Cultural Studies Program. In all options, the student will research and write a major essay or report and exhibit an integrated knowledge of cultural studies. First, students may participate in an internship in the workplace approved and supervised by the director of the Cultural Studies Program. Second, the student may enroll in a senior seminar which will focus on an aspect of cultural studies. Third, the student may engage in independent study approved by the Cultural Studies director.

MINOR IN CULTURAL STUDIES

The minor in Cultural Studies is designed to enhance and supplement students' studies in a number of other areas, including anthropology, education, English, and mass communication. In these areas of study, the fundamental questions posed by cultural studies give students a broader, more critical look at the interactions between their fields of study and society as a whole. It may also provide a useful complement to any undergraduate program of study.

The Program

Students minoring in Cultural Studies must complete 18 units, including the introductory course (3 units) and three of the Electives — Group I (9 units), and two Electives — Group II, one of which must be upper-level. Students must earn a grade equivalent of 2.00 or higher in all courses in the minor.

PROGRAMS OF THE DEPARTMENT

English offers students pleasure and profit, wit and wisdom, a sense of history and a vision of the future. English students know the delight of reading the best of British and American literature authors as diverse as Shakespeare and Emily Dickinson, Edgar Allan Poe and Virginia Woolf, James Baldwin and John Donne. The Department of English provides several programs tailored to diverse needs. Students majoring in English can concentrate in Writing, Literature or Secondary Education. Students pursuing other majors can minor in English, Creative Writing or World

Each English major or minor chooses or is assigned a faculty adviser, who assists the student in creating an individual program of study best suited to the student's interest and abilities. The flexibility of all programs, including majors and minors, allows the student a wide choice of courses within the department and possibilities for coordinating a program with another academic department.

The Department of English oversees the master's in Professional Writing program, offering unique post-baccalaureate opportunities for English majors and minors interested in pursuing careers in creative writing, technical writing, editing, public relations and teaching writing at the community college level. Geoffrey Becker, 410-704-5196, coordinates the program.

MAIOR IN ENGLISH

English majors must complete 42 units, and each course must be completed with a grade equivalent of 2.00 or higher.

Core Requirements (21 units)

1. Foundation Courses (12 units)

| ENGL 200 | Introduction to Studying English (3) |
|----------|--------------------------------------|
| ENGL 221 | British Literature to 1798 (3) |

ENGL 222 British Literature since 1798 (3)

ENGL 300 Literary Research and Applied Criticism (3)

Students are to take ENGL 200 and ENGL 300 prior to taking upper-level courses in the major.

II. American Literature (3 units)

One of the following:

| ENGL 230 | Main | Currents in | American | Literature | (3) |
|----------|------|-------------|----------|------------|-----|

ENGL 232 American Literature since 1865 (3)

| ENGL 461 | History of Literary Criticism (3 | 3 |
|----------|----------------------------------|---|

ENGL 462 Modern Literary Theory (3)

ENGL 463 Semiotics (3)

III. Workshop or Studio Courses (3 units)

One of the following:

ENGL 310 Writing Argument (3)

ENGL 313 Academic Essay (3)

ENGL 315 Literary Essay (3)

ENGL 316 Writing about Literature (3)

WMST 333 Women's Words, Women's Lives (3)

IV. Electives (12 units)

Nine units must be at 300 or 400 level, and 6 units must be literature courses, not including ENGL 490. It is strongly recommended that majors fulfill the GenEd II.3.C requirement with an English course, i.e., one of the following: 233, 234, 235, 239, 247 or 253.

WRITING TRACK (21 units)

I. Language or Criticism (3 units)

ENGL 416 Editing

 $()_r$

one of the following:

ENGL 350 Comparative Grammar (3)

FNGL 351 Historical Linguistics (3)

ENGL 353 History of American English (3)

ENGL 451 History of the English Language (3)

ENGL 452 Structure of the English Language (3)

ENGL 461 History of Literary Criticism (3)

ENGL 462 Modern Literary Theory (3)

ENGL 475 Topics in Linguistics (3)

II. Workshop or Studio Courses (12 units)

A. At least one of the following:

ENGL 310 Writing Argument (3)

ENGL 313 Academic Essay (3)

ENGL 315 Literary Essay (3)

ENGL 316

Writing about Literature (3)

WMST 333 Women's Words, Women's Lives (3)

B. Up to three of the following:

ENGL 311 Writing Poetry (3)

ENGL 312 Writing Fiction (3)

Writing for Business and Industry (3) ENGL 317

ENGL 318 Advanced Informational Writing (3)

ENGL 411 Advanced Writing Poetry (3)

ENGL 412 Advanced Writing Fiction (3) ENGL 417-19 Topics in Writing (3)

III. Electives (6 units)

These must be 300 or 400 level, and at least 3 units must be a literature course, not including ENGL 490. It is strongly recommended that majors fulfill the GenEd II.3.C requirement with an English course, i.e. one of the following: 233, 234, 235, 239, 247 or 253.

SECONDARY EDUCATION TRACK (21 units)

I. Diversity in American Literature (3 units)

One of the following:

ENGL 233 African-American Literature (3)

ENGL 234 Major Writers in African-American Literature (3)

ENGL 235 Ethnic American Literature (3)

ENGL 236 American Indian Literature (3)

ENGL 239 Jewish Literature of the 19th and 20th Centuries (3)

ENGL 471-477 Topics in Literature (when appropriate) (3)

II. Linguistics and Grammar (6 units)

A. Grammar:

Applied Grammar (3)

Students who place out of this course through departmental examination are to take in its place an upper-division elective in literature.

B. One of the following:

ENGL 350 Comparative Grammar (3)

ENGL 351 Historical Linguistics (3)

ENGL 353 History of American English (3)

ENGL 451 History of the English Language (3)

ENGL 452 Structure of the English Language (3)

ENGL 475 Topics in Linguistics (3)

III. World Literature/Non-Western Literature (3 units)

ENGL 243 Introduction to Classical Mythology (3)

ENGL 244 World Folklore (3)

Literature of the Global Experience (3) ENGL 248

ENGL 341 History and Literature of the Old Testament (3)

Folklore and Literature (3) **ENGL 342** ENGL 343 Myth and Literature (3)

ENGL 347 World Literature Written in English (3)

IV. Advanced Writing (3 units)

One of the following:

| ENGL 310 | Writing Argument (3) |
|----------|----------------------------------|
| ENGL 313 | Academic Essay (3) |
| ENGL 315 | Literary Essay (3) |
| ENGL 316 | Writing about Literature (3) |
| WMST 333 | Women's Words, Women's Lives (3) |

V. Textual Analysis (3 units) ENGL 463 Semiotics (3)

VI. Electives (3 units, 300- or 400-level)

Students in the Secondary Education program should be aware of the formal admission requirements for Secondary Education, and should determine what courses are permitted before formal admission. (See the Department of Secondary Education section of this catalog.)

MINOR IN CREATIVE WRITING

Recognizing that all good writing is an act of imagination, ordering, and synthesis that transcends subject-matter boundaries, the Creative Writing minor is designed for students with academic concentrations outside the field of English who desire to develop their present writing skills beyond those specifically geared to their chosen disciplines, and to do this under the supervision of professional writers.

Students minoring in Creative Writing must complete 24 units with a grade equivalent of 2.00 or higher in each course. At least 15 units must be earned at the 300-400 level. Courses should be selected in consultation with the student's minor adviser in the Department of English. Students are encouraged to complete ENGL 102 as soon as possible.

Core Requirements (12-15 units)

| Select at least | four courses in creative writing from the following: |
|-----------------|---|
| ENGL 283 | Introduction to Creative Writing (3) |
| ENGL 311 | Writing Poetry (3) |
| ENGL 312 | Writing Fiction (3) |
| ENGL 315 | Literary Essay (3) |
| | recommended for students who do not fulfill the GenEe |
| | 1.D requirement with a course in their major) |
| ENGL 411 | Advanced Poetry Writing (3) |
| ENGL 412 | Advanced Fiction Writing (3) |
| ENG1 417 | Topics in Writing (3) |
| | may be selected only when the topic pertains to |
| | creative writing) |
| ENGL 490 | Independent Study (3) |
| | (may be selected only when the topic pertains to |
| | creative writing) |
| | * |

Formal Study of a Genre 13 units)

| | | tudi 0 | | | | |

|-----------------|------------------|---------|---------|-------------|
| FNGL 261 | Tradition and | Form in | Western | Poetry (3) |
| 1 NGL 263 | Tradition and | Form in | Western | Fiction (3) |
| FXGL 265 | Tradition and | Form in | Western | Drama (3) |

Literature Courses (6-9 units)

Select at least two courses in literature. One of these courses must be at the 300-400 level.

MINOR IN ENGLISH

Students must complete 24 units with a grade equivalent of 2.00 or higher in each course, including ENGL 102 Writing for a Liberal Education, 6 units of 200-level courses, 6 units of upper- or lowerlevel courses, and 9 units of upper-level courses. No specific courses or blocks of courses are stipulated for the minor; each student works with a departmental adviser to design a coherent and purposeful individual program.

MINOR IN WORLD LITERATURE

Students minoring in World Literature must complete 24 units with a grade equivalent of 2.00 or higher in each course. Twelve units must be taken at the 300-400 level. Courses should be selected in consultation with students' Department of English minor advisers.

Core Requirements (9 units)

| ENGL 102 | Writing for a Liberal Education (3) |
|----------|---|
| | or |
| ENGL 190 | Honors Writing Seminar (3) |
| ENGL 240 | Classics of the Western Heritage (3) |
| ENGL 248 | Literature of the Global Experience (3) |

Three of the following courses (9 units).

| THICE OF THE | tollowing courses (2 units) |
|--------------|--|
| ENGL 342 | Folklore and Literature (3) |
| ENGL 343 | Myth and Literature (3) |
| ENGL 344 | Continental Drama (3) |
| ENGL 347 | World Literature Written in English (3) |
| ENGL 348 | Post-Colonial Literature (3) |
| ENGL 373-9 | Themes in Literature (when the subject is appropriate) (3) |
| ENGL 439 | Modern World Poetry (3) |
| ENGL 441 | Modern Fiction to World War II (3) |
| ENGL 442 | Modern Fiction since World War II (3) |
| ENGL 443 | Short Fiction in World Literature (3) |
| ENGL 461 | History of Literary Criticism (3) |
| ENGL 462 | Modern Literary Theory (3) |
| ENGL 471 | Topics in World Literature (3) |

Electives

Electives may be chosen from the courses listed above or from other courses in British and American literature, folklore, mythology, ethnic literature or literary criticism selected in consultation with the student's minor adviser. With the permission of the minor adviser and the Department of English chairperson, up to 6 units may be taken in literature courses taught in a foreign language. These courses are offered through the Department of Modern Languages; course descriptions may be found under the listings for the specific language.

The Portfolio

Students may be asked in their senior year to submit portfolios of a few papers that cover their years in the major. These portfolios are used anonymously to learn how well the major is working for its students. Students themselves will not be assessed; their standing will not be affected in any way. The English program will be assessing itself through what it finds students are learning.

COURSE PREREQUISITES

Course prerequisites are noted in the course descriptions. The department strictly enforces prerequisites.

MEETING GENERAL EDUCATION REQUIREMENTS/COMPETENCY

Every student in the university must complete ENGL 102 or ENGL 190 with a grade equivalent of 2.00 or higher in each course to satisfy the GenEd I.A requirement.

Students may take additional courses to complete GenEd requirements. Many 200-level and some 300-level courses fulfill GenEd requirements.

Philosophy, art, history, speech and theatre GenEd courses provide especially effective background for an English major. Students are encouraged to select elective courses in these areas in addition to those which fulfill GenEd requirements.

Students may select any of the following advanced writing courses to fulfill GenEd I.D: ENGL 310; ENGL 313; ENGL 315; ENGL 316; ENGL 317; ENGL 318. Students may, of course, take additional elective units in English.

Some students will be required to complete special competency courses in language and writing in addition to meeting GenEd requirements in English. Students for whom English is not a native language may be required to complete courses in English as a Second Language as a prerequisite to enrollment in ENGL 102 Writing for a Liberal Education (see International Undergraduate Admissions). Students whose entering scores indicate they need additional preparation to meet the standards of college-level expository writing will be required to complete DVWR 101 Preparation for College Writing, as prerequisite to enrollment in ENGL 102. Students must earn a grade of S or a grade equivalent of 2.00 or higher in the Developmental Writing course they are required to take before they are eligible to enroll in ENGL 102. See the Academic Achievement Center section in Academic Resources.

TRANSFER CREDIT POLICY

The Department of English accepts English credits from accredited colleges and universities. However, to meet GenEd requirements, students must either present 3 transfer credits in a college-level composition course, with a grade equivalent of 2.00 or higher, or earn a grade equivalent of 2.00 or higher in ENGL 102 or ENGL 190 at Towson University. Students registering in the department's major and minor programs must complete a minimum of 12 units in Department of English offerings at Towson University.

ADVANCED PLACEMENT AND CREDIT FOR PRIOR LEARNING

The department awards units through the Advanced Placement Program of the university. Also, a selected number of entering freshmen are placed in ENGL 190 rather than ENGL 102. The department offers units for most courses, other than upper-level writing courses, through the Credit for Prior Learning Program. Students applying for credit under this program complete an examination, an interview and at least one paper in the area.

ENGLISH HONORS AND ACTIVITIES

The department participates in the Honors Program. As a member of the Honors College, the department offers a number of intensive introductory seminars for qualified students. It also sponsors departmental honors whereby students pursue independent study leading to the completion of a thesis. Students interested in departmental honors should consult the chair of the department no later than the first term of their junior year. Honors are designated on the graduate's transcript and diploma.

By a vote of the English faculty, the outstanding graduate in the department receives the Gerry Buettner Award at Commencement. By departmental vote, the Fil Dowling Award goes to the year's outstanding English Education major. By selection of the joint English/Women's Studies committee, the Frank W. Guess Award is given to the year's outstanding portfolio of student writing. By selection of the English department committee, the Margery W. Harriss "Great Starts" Award is presented to the year's outstanding portfolio of first-year writing (ENGL 102 or ENGL 190).

Lambda Iota Tau is the national literary honor society with a chapter in the department, and the English Club is an informal association of majors, minors and professors who meet to exchange ideas about literature.

Students may publish in the Towson University literary publication Grub Street.

DOUBLE MAJOR PROGRAM

Students who major in one of the other programs of the university but feel a strong interest in language, literature or writing are urged to explore the value of completing a double major with their adviser or with the chair of the Department of English.

Environmental Science and Studies Program

Director: Jane L. Wolfson

Affiliated Faculty, Environmental Studies: Daniel Agley (Health Science), Kent Barnes (Geography and Environmental Planning), Lillian Carter (Health Science), James Dorn (Economics), Kenneth Haddock (Geography and Environmental Planning), Toni Marzotto (Political Science), Jeffrey Michael (Economics), John Morgan (Geography and Environmental Planning), Dennis Muniak (Political Science), Harvey Paul (Economics), Paul Pojman (Philosophy and Religious Studies), Thomas Rhoads (Economics), Martin Roberge (Geography and Environmental Planning), Stephen Scales (Philosophy and Religious Studies), Ralph Scott (Geography and Environmental Planning), Timothy Sullivan (Economics)

Affiliated Faculty, Environmental Science: Rachel Burks (Physics, Astronomy and Geosciences), Ryan Casev (Chemistry), Nordulf Debve (Chemistry), Brian Fath (Biological Sciences), Jonathan Filer (Physics, Astronomy and Geosciences), Donald Forester (Biological Sciences), Susan Gresens (Biological Sciences), Sarah Haines (Biological Sciences), James Hull (Biological Sciences), Scott Johnson (Biological Sciences), David Larkin (Chemistry), Steven Lev (Physics, Astronomy and Geosciences), Jay Nelson (Biological Sciences), Roland Roberts (Biological Sciences), Gerald Robinson (Biological Sciences), Lev Ryzhkov (Chemistry), Aubrey Scarbrough (Biological Sciences), Erik Scully (Biological Sciences), Richard Seigel (Biological Sciences), Colleen Sinclair (Biological Sciences), Joel Snodgrass (Biological Sciences), Joseph Topping (Chemistry), David Vanko (Physics, Astronomy and Geosciences), Jane Wolfson (Biological Sciences)

OFFICE

Smith Hall 348, 410-704-4920 Fax: 410-704-2604 www.towson.edu/ess

THE PROGRAM

The Environmental Science and Studies Program has two primary educational objectives. One is to provide the fundamental scientific, technical and social knowledge that program graduates will need to assess, plan and evaluate environmental concerns, particularly those confronting metropolitan regions. The second is to instill the wide range of cognitive skills and content mastery which students will need to effectively analyze environmental issues and propose realistic plans for solving environmental problems at local, regional and national levels.

The core requirements of the program are structured to meet these two objectives and include mathematical and scientific foundations as well as extensive interdisciplinary study related to environmental issues. The required senior seminar integrates the student's program of study, and the internship/research requirement gives first-hand practice in an environmental field. The environmental problems addressed in many classes and seminars will focus on the adjacent urban/suburban region and its impact on the surrounding environment.

Most environmental problems resist solutions from any single discipline. To counter this dilemma, the program utilizes a rigorous interdisciplinary approach. The curriculum draws upon the expertise of faculty in the areas of biology, chemistry, geology, mathematics, environmental ethics and values, public policy, economics, geography, public health and social change.

MAJOR IN ENVIRONMENTAL SCIENCE AND STUDIES

The Environmental Science and Studies Program has two concentrations: Environmental Studies and Environmental Science. There is considerable overlap in the core courses between the two concentrations. As students progress though the program, they begin to specialize in their area of greatest interest. The senior year brings students from both concentrations together for a capstone course that emphasizes application of concepts to real-world problems. The Environmental Studies Concentration is described below. For information about the Environmental Science Concentration, see the College of Science and Mathematics.

ENVIRONMENTAL STUDIES CONCENTRATION

After completing 55-57 units in common core requirements, students in the Environmental Studies Concentration complete one of four tracks: Environmental Geographical Analysis, Environmental Policy/Management, Environmental Health, or Directed Environmental Studies. Each track requires 15 additional units.

All students in the program will complete a common core of course work establishing the scientific principles and mathematical skills needed as a foundation for more specialized study. They also will complete a core of courses in social sciences, a capstone course, and an upper-level internship or research course.

Of the total units in program requirements, a minimum of 23 may be used to fulfill GenEd requirements (identified by an asterisk following the course number), effectively reducing the number of units that apply solely to the Environmental Science and Studies

Common Core Requirements (55-57 units)

Natural Sciences (16 units)

| arana berenier | 5 (10 dilitis) |

| POSC 375 | Public Administration |
| PSYC 341 | Environmental Psychology (3) |

Demography (3)

MINOR IN ENVIRONMENTAL STUDIES

Students may minor in Environmental Studies by taking five key core courses and fulfilling an additional 6-8 unit requirement for the minor (21-23 units total).

All students minoring in Environmental Studies take the following five core courses for a total of 15 units. Some of these courses have General Education prerequisites.

ECON 375 Environmental Economics (3)

ECON 376 Natural Resource Economics (3) **GEOG 410** Environmental Geography (3) HLTH 451 Ecological Aspects of Health (3) Environmental Ethics (3) PHIL 255*

Politics and Environmental Policy (3) POSC 421

Science majors who minor in Environmental Studies take two additional 3-unit elective courses from the list of environmental studies electives. Total unit requirement for the minor for science majors is 21 units.

Non-science majors who minor in Environmental Studies take 8 units in the environmental sciences. A one-year sequence in a science with lab (8 units) selected from the environmental sciences (BIOL 201-202, CHEM 110-111, GEOL 121 and GEOL 305) satisfies this requirement. Total unit requirement for the minor for non-science majors is 23 units.

*Courses may be used to fulfill General Education requirements.

Department of Family Studies and **Human Services**

Professors: Karen Goldrich Eskow (Chair and Family Studies Program Director), Joan McMahon (Human Resource Development), Donna Wagner (Gerontology Program Director) Assistant Professors: Jodi Jacobson (Family Studies), Linda Oravecz (Family Studies), Shannon Mathews (Gerontology) Lecturer: Gina Costa (Family Studies) Affiliated Faculty: Patricia Alt (Health Science), Susan Bartels (School Psychology), Donna Cox (Health Science), Marion

Hughes (Sociology, Anthropology and Criminal Justice), Wayne Nelson (Health Science), Howard Nixon (Sociology, Anthropology and Criminal Justice), Michael Seganish (Accounting/Business Law), Kim Shiffren (Psychology), Jan Sinnott (Psychology), Edyth Wheeler (Early Childhood Education)

OFFICE

Linthicum Hall 002 and 016 Family Studies: 410-704-5851 http://pages.towson.edu/fmst Gerontology: 410-704-5154 www.towson.edu/gerontology

PROGRAMS OF THE DEPARTMENT

The Department of Family Studies and Human Services offers undergraduate programs in family studies and gerontology: a major in Family Studies with tracks in Family and Human Services, Services to Children, and Child Life; a major in Gerontology; a minor in Family Studies; and a minor in Gerontology.

The Family Studies Program provides students with academic and clinical experiences related to the study and application of individual and family development across the life span with an additional emphasis on human service education. Academic preparation includes family life methodology, theories of family functioning, dynamics within families and interaction between families and the larger social context. The curriculum emphasizes civic engagement through service learning. Service learning involves a process of preparation for community experiences, participation in the community and integration of the academic preparation and community participation. The integration process involves self-reflection as well as self-discovery, including understanding of values, skills and content. Community participation is required in several core courses throughout the curriculum.

The Gerontology Program is multidisciplinary and provides students with an understanding of the scope of gerontology, the issues that are central to the study of aging, and a perspective from which to understand the phenomenon of human aging and its implications on society. The program is designed to prepare students for entrylevel occupational positions within the field of aging and to provide the knowledge and skills necessary for acceptance by graduate and professional schools for additional gerontological education.

GRADUATE PROGRAMS

The department offers a Master of Science in Applied Gerontology, a Master of Science in Human Resource Development, a Postbaccalaureate Certificate in Applied Gerontology, and a Postbaccalaureate Certificate in Family Studies. See the Graduate Catalog for details.

FAMILY STUDIES PROGRAM

MAJOR IN FAMILY STUDIES

Majors in Family Studies complete 57-72 units of course work depending on the track of study the student selects. Students complete 39-40 units in the core curriculum. For each track, they complete additional track-specific courses and electives. Core requirements include a sequence of focused community courses including: FMST 201 Preparation; FMST 387 Preparation and Participation; FMST 397 Internship-Preparation, Participation and Integration; and FMST 490 Integration. The units of internship requirements are specified by each track. Students must maintain a 2.00 GPA or better in all courses required for the major and must meet Towson University requirements for the completion of a Bachelor of Arts or Bachelor of Science degree.

Prerequisites for Courses in the Major

The following courses are prerequisites for courses required in the major. The 100-level courses should be taken early in the student's academic studies, and PSYC 212 must be taken prior to FMST 485.

| ENGI 102 | Writing for a Liberal Education (3) (GenEd I.A) |
|----------|---|
| | or |
| ENGL 190 | Honors Writing Seminar (3) (GenEd LA) |
| PSYC 101 | Introduction to Psychology (3) (GenEd II.C.2) |
| SOCI 101 | Introduction to Sociology (3) (GenEd II.B.2) |
| PSYC 212 | Behavioral Statistics (3) (GenEd LC) |
| | or equivalent course approved by program director |

| Required Core Courses (39-40 units) | | |
|-------------------------------------|--|--|
| FMST 101 | Introduction to Family Studies (3) (GenEd II.B.2) | |
| FMST 201 | Family Resources (3) (GenEd II.B.3) | |
| FMST 301 | Family Relationships (3) | |
| FMST 302 | Theories of Family Functioning (3) | |
| FMST 303 | Trends in Contemporary Family Life (3) | |
| FMST 380 | Family Law (3) | |
| FMST 387 | Community Services for Families (3) | |
| FMST 485 | Writing and Research Methods in Family Studies (3) | |

| PSYC 403 | Infant and Child Development (3) |
| PSYC 404 | Adolescent Psychology (3) |

Internships (three required internships for a total of 9 units)

(360 hours)

FMST 397 Internship in Family Studies (3) repeated 3 times

The following courses are recommended for students completing academic preparation for Child Life Specialist:

OCTH 216 instead of PSYC 203 (core course for major) OCTH 213 although PSYC 431 will be accepted

Additional courses: OCTH 217 or OCTH 218 Analysis of Occupational Performance I or II as an additional elective to meet content areas specified by the Child Life Council.

MINOR IN FAMILY STUDIES (21 units)

The minor in Family Studies provides an opportunity for students who would like to study families along with their major focus of study. This program fits nicely for students studying in health professions, liberal arts and education. Knowledge about families and working with families has emerged as a critical area of concern for health, social service, and education professionals.

Core Required Courses (15 units)

| FMST 101 | Introduction to Family Studies (3) |
|---------------|--|
| FMST 301 | Family Relationships (3) |
| FMST 302 | Theories of Family Functioning (3) |
| FMST 303 | Trends in Contemporary Family Life (3) |
| FMST 490 | Capstone Experience (3)* |
| *or equivalen | t course approved by chairnerson |

Required Elective (3 units)

| | rse from the following: |
|----------|-------------------------------------|
| FMST 380 | Family Law (3) |
| FMST 387 | Community Services for Families (3) |
| FMST 397 | Internship in Family Studies (3) |

Additional Elective (3 units)

Students may choose the following content areas: education, health, psychology, sociology, gerontology, women's studies. Additional courses may be counted as electives at the discretion of the Family Studies program director.

Department of Family Studies and Human Services 15

COMMUNITY EXPERIENCE

Civic Engagement/Service Learning

Internships and service learning are critical components of the Family Studies major. A continuum of field experiences offered throughout the program provides opportunities for students to enhance their understanding of course content, develop professional skills and apply knowledge in the field. Students obtain their first field experience during the course FMST 201 Family Resources. This course explores the contemporary at-risk conditions that impact families and children. Additional field experience is obtained during the course FMST 387 Community Services for Families. This course focuses on service learning through program development. Students participate directly with community organizations and agencies. Internships are the culminating field experience for the Family Studies student. The internship experience offers students the opportunity to apply course content, learn new skills, and develop professional contacts.

Family Studies interns may work in a variety of settings depending on their interests. Internships may occur in off-campus public and private agencies, preschool settings, daycare centers for children or adults, child abuse and domestic violence centers and various health care facilities. Examples of recent student placements include: Johns Hopkins Hospital Child Life Center, Family Crisis Center of Baltimore County, Baltimore County Police Counseling Team, Baltimore County Department of Social Services, CASA of Baltimore County, Carl Gold Law Office, The Child Care Center of Catonsville Community College, Christiana Hospital Maternal/Child Social Work Team, Daisyfields Adoption Foundation, Department of Juvenile Justice, "Linkages to Learning" Program of Montgomery County, Greater Baltimore Crisis Pregnancy Center, House of Ruth, Ronald McDonald House, St. Joseph Medical Center, Sheppard Pratt, Stella Maris, The Wellness Community, Sykesville Group Shelter Home, and Adoptions Together, Inc.

TUSCFR

Towson University Student Council on Family Relations (TUSCFR) is affiliated with the National Council on Family Relations (NCFR). It was initiated and is maintained by students in the Family Studies Program with the guidance of faculty advisers.

ADVISING

Advising is an important component of the student experience. Family Studies majors meet regularly with department advisers who help them plan for the future. Please note the specific information about the advising process listed below.

- Family Studies majors must meet individually with an adviser at least once a semester.
- 2. The chairperson has times set aside each week to meet with students. Students are encouraged to sign up for one of these meetings to address questions, concerns or simply to check in and review progress and plans. Students may sign up for these meetings by stopping by or calling the office, 410-704-5851.
- 3. All new or potential majors must meet with the chairperson. (See #2 above for details).
- Special Permits are given out by the chairperson. Students must have an advising meeting with the chairperson to receive permits for these courses.

TRANSFER CREDIT POLICY

Students may transfer no more than 18 credits toward the major in Family Studies. Transfer credits must be approved by the department.

GERONTOLOGY PROGRAM

MAJOR IN GERONTOLOGY

Students pursuing a degree in Gerontology must complete a minimum of 45 units in the program as outlined below and maintain a 2.00 GPA or better in all required courses. Required elective courses must be approved by students' Gerontology adviser.

| Required Co | re Courses (18-21 units) |
|-------------|---------------------------------|
| GERO 101 | Introduction to Gerontology (3) |

| GERO 101 | introduction to Gerontology (5) |
|----------|--|
| PSYC 405 | Psychology of Aging (3) |

(Additional courses may be counted as Gerontology cognate electives at the discretion of the Gerontology program director.)

MINOR IN GERONTOLOGY

Students minoring in Gerontology must complete a minimum of 18 units of approved course work. When possible, it is recommended that a student take a gerontology course within his or her own major field of study. Students are required to take three courses (9 units) from the Gerontology core courses listing below:

GERO 101 Introduction to Gerontology (3)

or

SOCI 359 Social Gerontology (3)

HETH 411 Health and Later Maturity (3)

or

BIOL 313 Biology of Aging (3)

PSYC 405 Psychology of Aging (3)

GERO 485 Gerontology Senior Seminar (3)

GERO 397 Internship (3)

The remaining 9 units can be fulfilled by other core or elective offerings in consultation with the academic adviser.

TRANSFER CREDIT POLICY

Students may transfer no more than 18 credits toward the major in Gerontology. Transfer credits must be approved by the department.

Department of Geography and Environmental Planning

Professors: James Dilisio, Wayne McKim, John Morgan, Ralph Scott

Associate Professors: Kent Barnes (Chair), Virginia Thompson Assistant Professors: Douglas Herman, Martin Roberge, Charles Schmitz, Marshall Stevenson

Part-time Faculty: Doug Adams, Philip Canter, Karna Couch, Robert Cullison, Charles Goodman, Henry Schupple, Betty Shimshak

OFFICE

Linthicum Hall 20, 410-704-2973

PROGRAMS OF THE DEPARTMENT

The Department of Geography and Environmental Planning offers the following programs: the major in Geography and Environmental Planning, the major in Geography and Land Surveying, the minor in Geography, the minor in Geographic Information Sciences, and the Master of Arts in Geography and Environmental Planning, and participates in the Master of Education with an emphasis in Geography. For more information about the graduate programs, consult the *Graduate Catalog*.

The Geography and Environmental Planning major is designed as a liberal arts program that explores how geographers carefully observe and measure human uses of the earth under diverse combinations of natural and cultural environments. Such academic preparation facilitates understanding of the changing world and its past.

Students are prepared in the program for careers in business, management, governmental service, education, planning, public affairs and other professions, as well as graduate school.

The major in Geography and Land Surveying is designed to meet the requirements of professionals in the field of land surveying. Courses taken in geography at Towson University will both complement those taken in surveying at the Community College of Baltimore County-Catonsville as well as provide additional skills of value to the professional surveyor. Completion of the four-year degree will shorten the time necessary to achieve professional licensure.

DOUBLE MAJORS

The department has established cooperative programs with the departments of Economics, Political Science, and Sociology, Anthropology and Criminal Justice, which make it possible for students to attain majors in both Geography and one of these other disciplines. For further information, contact the Department of Geography and Environmental Planning or one of the cooperating departments listed above.

MAJOR IN GEOGRAPHY AND ENVIRONMENTAL PLANNING

Geography majors must complete a minimum of 39 units in geography courses with a grade equivalent of 2.00 or higher. Of these 39 units, 18 units of core courses are required plus 6 units of prescribed group courses. The remaining 15 units in the major are selected from 200-400 level geography electives reflecting the student's areas of interest. A maximum of 6 units of these electives may be taken at the 200 level.

Core Requirements (18 units)

| GEOG 101 | Physical Geography (3) |
|----------|---|
| GEOG 109 | Human Geography (3) or GEOG 102 (3) or 105 (3) or 110 (3) |
| GEOG 221 | Interpretation of Maps (3) |
| GEOG 223 | Physical Geography Applications (3) |
| GEOG 375 | Quantitative Methods in Geography (3) |

Growth of Geographic Thought (3)

Group Requirements (6 units)

Majors must select at least one techniques course and at least one regional course. These courses may be selected from the following:

Technical Courses

Select at least one:

GEOG 401

| GEOG 321 | Interpretation of Aerial Photographs (3) |
|----------|--|
| GEOG 323 | Carrography and Graphics I (3) |
| GEOG 412 | Introduction to Geographic Information Systems (3) |
| GEOG 416 | Principles of Remote Sensing and Digital Image |
| | Processing (3) |

GEOG 418 Computer Mapping (3)

Regional Courses

| - 6 | S | | | _ | | | | - | | |
|------|----|----|----|----|---|---|----|---|---|--|
| Sele | ct | at | le | as | t | o | 11 | e | · | |

| GEOG 420 | Geography of Anglo America (3) |
|----------|---|
| GEOG 423 | Geography of Maryland (3) |
| GEOG 431 | Geography of Africa (3) |
| GEOG 424 | Historical Geography of Atlantic Canada (3) |
| GEOG 443 | Geography of East Asia (3) |
| GEOG 445 | Geography of South and Southeast Asia (3) |
| GEOG 447 | Geography of the Middle East (3) |
| GEOG 448 | Conflict in Ireland (3) |
| GEOG 451 | Geography of Europe (3) |
| GEOG 453 | Geography of the former U.S.S.R. (3) |
| GEOG 461 | Geography of Latin America (3) |

Electives (15 units)

Majors must take 15 units of geography electives at the 200-400 level. A maximum of 6 units may be taken at the 200 level.

MAJOR IN GEOGRAPHY AND LAND SURVEYING

The major in Geography and Land Surveying is based on a transfer articulation agreement between the Community College of Baltimore County-Catonsville and Towson University. Most students electing to major in Geography and Land Surveying will complete the A.A.S. degree in Land Surveying at CCBC-Catonsville prior to enrollment at Towson University. All surveying courses will transfer. However, Towson University will only accept a maximum of 64 total credits in transfer. Any GenEd requirements not completed prior to enrollment will be completed at Towson University. Current Towson Geography majors interested in this program should see the department chair.

The program of study follows the guidelines for a major in Geography and Environmental Planning. A total of 39 units are required as indicated above. A total of 6 units can be met by transfer to satisfy the GEOG 101, GEOG 102, GEOG 105, and GEOG 109/110 requirements. The techniques requirement must be met by completing one of the following courses: GEOG 321, GEOG 412, GEOG 416, or GEOG 418. The preferred course for fulfilling the regional requirement is GEOG 423 The Geography of Maryland. Elective units (a minimum of 15) should be selected in consultation with the adviser, as some are more preferable than others. GEOG 491 Internship is strongly recommended for those with little or no work experience. Students may not substitute past work experience, nor use concurrent work to meet internship requirements, without permission of the department. A non-major requirement for this program is calculus, which may be taken at Catonsville or Towson, and which must be passed with a grade of C or higher.

For further information on this program, contact James E. Lobdell, coordinator of the Surveying Program at CCBC-Catonsville (410-455-4965), or the chair of the Department of Geography and Environmental Planning at Towson University (410-704-2973).

DOUBLE MAJOR IN GEOGRAPHY AND SOCIOLOGY-ANTHROPOLOGY

The departments of Geography and Environmental Planning and Sociology, Anthropology and Criminal Justice offer a program leading to a bachelor's degree with a double major in Geography and Environmental Planning and Sociology-Anthropology, with a concentration in Sociology or Anthropology. The Sociology Concentration course requirements are listed below. For information on the Anthropology Concentration double major option, see the department chair in Sociology, Anthropology and Criminal Justice.

I. The following lower-division courses must be taken:

| A. GEOG 101 | Physical Geography (3) |
|-------------|--|
| B. SOCI 101 | Introduction to Sociology (3) |
| | (Both A and B count toward General Education |
| | requirements.) |

II. One of the following statistics courses must be taken:

| A. GEOG 3/3 | Quantitative Methods in Geography (3) |
|-------------|---|
| | or |
| B. PSYC 212 | Behavioral Statistics (4) |
| | or |
| C. MATH 231 | Basic Statistics 1 (3) |
| | Any of these courses will count as 3 units in eit |

(Any of these courses will count as 3 units in either Geography or Sociology and satisfy the statistics requirement in both programs. Students cannot receive unit in both the first and second major for more than one of these courses.)

III. Two of the following sociology courses must be taken:

| SOCI 313 | Introduction to Social Psychology (3) |
|--------------|--|
| SOCI 320 | Military Sociology (3) |
| SOCI 323 | Social Change (3) |
| SOCI 327 | Urban Sociology (3) |
| SOC1 329 | Demography (3) |
| SOCI 331 | Deviance and Organizations (3) |
| SOCI 333 | Political Sociology (3) |
| SOCI 335 | Medical Sociology (3) |
| SOCI 341 | Class, Status and Power (3) |
| SOCI 359 | Social Gerontology (3) |
| SOCI 470-479 | Special Topics in Sociology (3) (Topics offered here |
| | may be accepted with approval of the Department of |
| | Geography and Environmental Planning adviser.) |
| | |

IV. Two of the following geography courses must be taken:

| GEOG 329 | Medical Geography (3) |
|-------------|---|
| GEOG 351 | Urban Design (3) |
| GEOG 355 | Historical Geography of Urbanization (3) |
| GEOG 357 | Cultural Geography (3) |
| GEOG 381 | Political Geography (3) |
| GEOG 383 | Natural Resources and Society (second writing course) |
| | (3) |
| GEOG 385 | Population Geography (3) |
| GEOG 391 | Urban Systems (3) |
| GEOG 405 | Comprehensive Planning (3) |
| GEOG 407 | Geography of the Aged (3) |
| GEOG 470-47 | 9Seminar: Selected Topics in Geography (3) (Topics |
| | offered here may be accepted with approval of the |
| | Department of Sociology, Anthropology and Criminal |
| | Justice adviser.) |
| GEOG 494 | Travel Study (3) |
| GEOG 495 | Directed Reading in Geography (with approval of |
| | Department of Sociology, Anthropology and Criminal |
| | |

GEOG 496 Justice adviser) (3)
Independent Study in Geography (with approval of the Department of Sociology, Anthropology and Criminal Justice adviser) (3)

V. The following courses are required to complete the Geography major portion of the double major:

| . Core Courses | |
|----------------|--|
| GEOG 102 | World Regional Geography (3) |
| | or |
| GEOG 105 | Geography of International Affairs (3) |
| | or |
| GEOG 109 | Human Geography (3) |
| GEOG 221 | Interpretation of Maps (3) |
| GEOG 223 | Physical Geography Applications (3) |
| GEOG 401 | Growth of Geographic Thought (3) |
| | - ' |

B. Techniques Course (only one of the following)

| GEOG 321 | Interpretation of Aerial Photographs (3) |
|-----------------|--|
| GEOG 323 | Cartography and Graphics I (3) |
| GEOG 47x | Computer Mapping (3) |
| GEOG 412 | Introduction to Geographic Information Systems (3) |
| GEOG 416 | Principles of Remote Sensing and Digital Image |
| | Processing (3) |

C. Regional Geography Course (one 400-level regional course)

D. Elective Geography Course (one upper-level course)

VI. The following courses are required to complete the Sociology Concentration in the double major:

A. Core Courses

| SOCI 381 | Sociological Theory (3) |
|----------|-------------------------|
| SOCI 391 | Research Methods (3) |

B. Electives

Students must complete 18 units of electives in sociology, at least 12 of which must be upper division. Two elective coures (6 units) may be in anthropology.

DOUBLE MAJOR IN GEOGRAPHY AND POLITICAL SCIENCE

See Department of Political Science for details.

DOUBLE MAJOR IN ECONOMICS AND GEOGRAPHY AND ENVIRONMENTAL PLANNING

Completion of individual majors in Geography and Environmental Planning and Economics requires the successful completion of 72 units (39 in geography and environmental planning and 33 in economics). However, by electing the double major in Geography and Environmental Planning and Economics, students will be able to complete both majors with a total of 60 units.

1. In economics, students must complete all requirements for the major.

II. One of the following statistics courses must be taken-

| ECON 205 | Statistics for Business and Economics (3) |
|----------|---|
| GEOG 375 | or Quantitative Methods in Geography (3) |

III. Students may substitute two of the following courses in geography and environmental planning toward fulfillment of the required 12 units of unper-level economics electives

| quired | 12 01111 | s or uppe | i-icver ccom | office ciccures. |
|--------|----------|------------|--------------|---------------------|
| GEOG | 355 | Historical | Geography of | of Urbanization (3) |
| | | | | |

| GEOG 355 | Historical Geography of Urbanization (3) |
|----------|--|
| GLOG 381 | Political Geography (3) |
| GEOG 385 | Population Geography (3) |

GEOG 391 Urban Systems (3)

IV. In geography and environmental planning, students must complete all requirements for the major. In addition, they may substitute two of the following upper-level courses in economics toward fulfillment of the required upper-level elective courses in geography and environmental planning:

| ay and chime | mientai piamingi |
|--------------|---------------------------------|
| ECON 323 | Comparative Economic Systems (3 |
| ECON 325 | Economic Development (3) |
| ECON 333 | Poverty and Discrimination (3) |
| ECON 351 | Urban Economics (3) |
| ECON 421 | International Economics (3) |

ECON 423 International Monetary Theory and Policy (3)

ECON 470-479 Topics in Economics* (3)

For further information on this program contact the chairperson of the Department of Economics, or Dr. James DiLisio of the Department of Geography and Environmental Planning.

MINOR IN GEOGRAPHY

Students minoring in Geography must complete a minimum of 21 units. Six units will be at the 100 level (physical geography and either GEOG 102, 105, or 109/110) with the remainder at the 200-400 level, including one techniques intensive course. A maximum of 6 units may be taken at the 200 level and all course selections must be made in consultation with a faculty adviser. A grade equivalent of 2.00 or higher is required in all courses in the minor.

MINOR IN GEOGRAPHIC INFORMATION SCIENCES

Geographic Information Sciences (GISciences) is an integrative, skills-based discipline that facilitates observation and analysis at global scales, employing a spatial perspective that is useful to many disciplines. The minor in GISciences provides students with basic professional skills for conducting spatial analysis, combining conceptual frameworks with technical proficiencies in tools such as geographic information systems, remote sensing, global positioning systems, cartography, and spatial statistics.

The minor works well with a variety of majors from the College of Business and Economics, the College of Health Professions, the College of Liberal Arts, and the College of Science and Mathematics. GISciences is a growing field and Towson University is recognized as a GISciences leader in Maryland. Students graduating with GISciences skills are in demand by employers, due to the large number of academic, private, government, and nonprofit organizations that are creating or expanding their GIS capabilities.

The minor is awarded upon completion of a minimum of 21 units of required and elective courses. A maximum of 6 units from other departments may be counted toward the minor, with the approval of the program director. Students are strongly encouraged to complete a GIS internship with a government agency or business.

Required Courses (12 units)

| Interpretation of Maps (3) |
|--|
| or |
| Understanding and Communicating through Maps (3) |
| Cartography and Graphics I (3) |
| or |
| Computer Mapping (3) |
| Quantitative Methods in Geography (3) or approved |
| statistics course |
| Introduction to Geographic Information Systems (3) |
| |

| Electives (9 u | inits) |
|----------------|---|
| GEOG 321 | Interpretation of Aerial Photographs (3) |
| GEOG 414 | GIS Applications (Spatial Analysis and Geographic |
| | Information Systems) (3) |
| GFOG 416 | Remote Sensing and Digital Image Processing (3) |
| CEOC. 470.9 | Seminary Selected Topics (in GIS) (3) |

GEOG 393 Transportation and Infrastructure Planning (3)

GFOG 405 Comprehensive Planning

GEOG 427 The Global Economy (3)

GEOG 470-479 Seminar: Selected Topics in Geography* (3)

GEOG 481 Environmental Impact Analysis (3)

GEOG 484 Land Use Planning (3)

^{*} Approval from Department of Fconomics depending on course topic.

^{*}Approval from Department of Geography and Environmental Planning depending on course topic.

Department of Geography and Environmental Planning 155

GEOG 491 Internship (1-6; 3 maximum toward minor) **GEOG 495** Directed Readings in Geography (GIS topics) (3) **GEOG 496** Independent Study in Geography (GIS topics) (3)

*Courses may be used to fulfill General Education requirements.

Other lower- and upper-division computer science courses, as well as GIS applications courses offered by other departments may be considered as electives, with the approval of the department chair.

GEOGRAPHY SECONDARY EDUCATION **PROGRAM**

Required in major (39 units): lower-division (100-200) courses (12-18); upper-division (300-400) courses (21-27), at least 12 units of which must be courses designated as systematic or technique

Required in related subjects (33 units); history courses: HIST 145, HIST 146, HIST 101, plus 6 units of history electives; political science: POSC 103: sociology: SOCI 101; economics: ECON 201 and ECON 202; anthropology: either ANTH 207, ANTH 208, or ANTH 209; and a specified topics in social science course.

Note: The standards for students enrolled in Teacher Education Programs require a GPA of 2.75 in academic majors prior to student teaching. Please be aware that this GPA is higher than that required by the department for its majors. Students must contact the Department of Secondary Education about admission to the Secondary Teacher Education Program.

TRANSFER CREDIT POLICY

Geography and Environmental Planning majors may transfer up to 12 credits toward a major, and Geography minors may transfer up to 6 credits. All transfer credits require department approval.

INTERNSHIPS

Majors have the opportunity to participate in the university's Internship/Cooperative Education Program. This valuable adjunct to the educational program provides qualifying students with both academic unit and work experience with participating government agencies (federal, state and local) and private businesses. The internship offers the student a way of trying out a potential career choice prior to actual entry into the job market. Because the benefits of this experience are so positive, majors are strongly urged to participate in this program.

SPECIAL DEPARTMENTAL PROGRAMS

The department sponsors the Beta Delta Chapter of Gamma Theta Upsilon, an international geography honorary society. GTU holds lectures and presents films and speakers on topics in geography and environmental planning. All Geography majors are welcome to

Travel studies are available during the summer within the United States and to foreign locations.

The National Council for Geographic Education awards are given to academically outstanding graduating majors.

DEPARTMENTAL HONORS IN GEOGRAPHY

The department offers an honors program in geography. To be admitted, students must have a cumulative GPA of 3.25, and a 3.50 in the major, or consent of their faculty adviser. Students may be admitted to the program no sooner than the spring of their sophomore year.

The honors program requires a minimum of 39 units, including 6 to 9 units in seminars, directed readings and research projects. A senior thesis and oral defense are also required. Students should consult their faculty adviser for more information.

CAREERS IN GEOGRAPHY AND ENVIRONMENTAL PLANNING

Faculty of the department are active in career advising. Occasional careers days are held, and the department participates in a regional network of career advising in geography. Graduates of the department are currently employed in a wide array of jobs such as teachers, professors, meteorologists, intelligence analysts with the Department of Defense, cartographers, planners, statisticians, travel agents, and environmental engineers.

GRADUATE PROGRAM

The Master of Arts degree program in Geography and Environmental Planning is designed to prepare students for doctoral programs as well as for career opportunities in private business and public agencies. The program is oriented toward applied geography and presents possibilities for an emphasis in the following areas: urban and regional planning, urban studies, public policy issues, physical geography, environmental assessment, energy resources, cultural and historical geography, medical geography, population, area studies, cartography and geographic information systems.

Graduate students in Geography and Environmental Planning are encouraged to take pertinent course work in other departments. Students may pursue either the thesis program (30 units and a 6-unit thesis) or the non-thesis program (36 units). Detailed information is given in the Graduate Catalog.

Department of History

Professors: Dean Esslinger, Cindy Gissendanner, Karl Larew, Ronn Pineo, Patricia Romero, Robert Rook (Chair), Mark Whitman

Associate Professors: Nicole Dombrowski, Steven Phillips Assistant Professors: Omar Ali, Laura Eldridge, Elizabeth Kelly Gray, Kımberly Katz, Wendy Lower, Akim Reinhardt, Allaire Stallsmith

Part-time Faculty: Patricia Anderson, Timothy Hanson, Michael Johnson, Tina Sheller, Jakub Zejmis

Lecturer: John Mancini

Emeritus: Herbert Andrews, Arnold Blumberg, Edwin Hirschmann, Jenny Jochens, Harry Piotrowski, Wayne McWilliams, Armin Mruck, Fred Rivers, Roderick Ryon, Myron Scholnick, John Van Osdell

OFFICE

Linthicum Hall 119F, 410-704-2923 www.towson.edu/history/

PROGRAMS OF THE DEPARTMENT

The Department of History offers the following programs: the major in History; the History Secondary Education major, for students planning to teach history at the secondary level; and the minor in History. Each of these programs encourages students to explore the study of history in depth. Such investigation leads to an appreciation of the structure and function of the discipline and prepares the student for teaching, for graduate work and for the study of law, theology, archival management, library science, historical preservation and museology.

Skills, as well as historical knowledge acquired through the study of the discipline, may also lead to career opportunities in public history, federal, state and local government, and in business and industry. Students may opt for more career flexibility by choosing double majors or by combining History with a minor: History and Art, History and English, History and Women's Studies, History and Business, History and Communication, for

example.

History majors and minors are also expected to take correlative courses that broaden their academic backgrounds and offer valuable insights into their subjects. The department also strongly recommends the completion of the intermediate level of a foreign language. The department offers courses in the fields of American, European, Asian, African and Latin American history. The offerings are varied. Some courses are chronological, topical or national in scope. Others are in women's, ethnic, business, social, cultural or political history.

All courses offered encourage an appreciation of the historical past through lecture/discussion, reading, analysis and writing. Because history explores all aspects of human endeavor, history courses touch upon the insights of all disciplines from the histori-

cal perspective.

An internship is a practical application of historical knowledge and skill. An internship may be taken at institutions such as the Maryland Historical Society, Baltimore City Archives, Baltimore Museum of Industry, Jewish Museum of Maryland, Inc. or Towson University Archives.

The department participates in interdisciplinary programs such as International Studies, Social Sciences, Women's Studies, the minors in African and African American Studies, Jewish Studies, Classical Studies, and Lesbian and Gay Studies, and in Interdisciplinary Studies, tracks in American Studies, African-American Studies, Comparative Ethnic Studies, Latin American Studies, Asian Studies, and Medieval and Renaissance Studies.

MAJOR IN HISTORY

In addition to the General Education (GenEd) requirements, History majors are required to complete 39 units with a grade equivalent of 2.00 or higher. The Bachelor of Arts degree may be earned by adding a foreign language to the major course requirements. The language requirement can be met by completing the intermediate courses (or their equivalent) of a modern foreign language.

Required Courses (18 units)

| xequirea C | ourses (18 units) |
|------------|---|
| HIST 101 | Introduction to Ancient Civilization (3) |
| HIST 102 | History of European Civilization through the 17th |
| | Century (3) |
| HIST 103 | History of European Civilization from the 17th Century (3) |
| | or |
| HIST 108 | Honors History of European Civilization from the 17th |
| | Century (3) |
| HIST 145 | History of the United States to the Mid-19th Century (3) |
| HIST 146 | History of the United States since the Mid-19th Century (3) |
| | or |
| HIST 148 | Honors History of the United States since the Mid-19th |
| | Century (3) |
| HIST 300 | Introduction to Historical Study (3) |
| | • • • |

Electives (21 units)

Students must complete 21 units of electives offered by the department, at least 15 of which must be in upper-division courses. Within the 21 units of electives, there must be at least one 3-unit upper-division course each in American and European history. Nine units must be taken in Asian, African, Latin American or world history. No more than two upper-division courses may be taken with the same instructor (seminar, HIST 300, directed reading, directed research, colloquium and travel study are excepted).

MINOR IN HISTORY

History minors are required to complete 24 units with a grade equivalent of 2.00 or higher in each course taken from among the following courses.

Required Courses (6 units)

HIST 300 Introduction to Historical Study (3)

One of the following:

| HIST 107 | Introduction to History of Islamic Civilization (3) |
|----------|---|
| HIST 109 | Introduction to the Civilization of India (3) |
| HIST 110 | East Asian Civilization to the 17th Century (3) |
| HIST 111 | Modern East Asia since the 17th Century (3) |
| HIST 121 | Latin America: Colonial Period (3) |
| HIST 122 | Latin America: National Period (3) |
| HIST 135 | African History and Culture (3) |

Lower-Division History Electives (9 units)

Upper-Division History Electives (9 units)

(Excluding HIST 300 Introduction to Historical Study)

No more than two upper-division courses may be taken with the same instructor. (HIST 300 is excepted.) Seminar, directed reading, directed research, colloquium and travel study may not be taken for History minor requirements.

HISTORY SECONDARY EDUCATION PROGRAM

History majors may wish to obtain certification to teach history at the secondary level. Students in this Secondary Education Program receive certification to teach in Maryland upon graduation. See Department of Secondary Education requirements. Students must contact the Department of Secondary Education about admission to the Secondary Teacher Education Program.

In addition to the GenEd requirements, and the requirements specified by the Department of Secondary Education, students must

complete 54 units with a grade equivalent of 2.00 or higher in each course taken from among the courses listed below. Of the 54 units, 21 must be completed in the required history courses, and 24 in social sciences courses and 9 units in history electives before student teaching.

Required History Courses (21 units)

| HIST 102 | History of European Civilization through the 17th |
|----------|---|
| | Century (3) |
| HIST 103 | History of European Civilization from the 17th Century (3) |
| | or |
| HIST 108 | Honors History of European Civilization from the 17th |
| | Century (3) |
| HIST 145 | History of the United States to the Mid-19th Century (3) |
| HIST 146 | History of the United States since the Mid-19th Century (3) |
| | or |
| HIST 148 | Honors History of the United States since the Mid-19th |
| | Century (3) |

HIST 300 Introduction to Historical Study (3)

Two of the following:

African History Course (3) Asian History Course (3) Latin American History Course (3) World History Course (3)

History Electives (9 units)

Students must complete 9 units of electives offered by the department, at least 6 of which must be in courses at the 300-400 level. Six units must be in lecture-type format.

Required Social Sciences Courses (24 units)

| ECON 201 | Microeconomic Principles (3) |
|----------|---------------------------------|
| ECON 202 | Macroeconomic Principles (3) |
| SOSC 401 | Topics in Social Science (3) |
| SOCI 101 | Introduction to Sociology (3) |

SPECIAL RECOMMENDATIONS FOR MAJORS AND MINORS

Students must declare their majors and minors in the department. The major or minor should be declared during the second term of the freshman year or at the beginning of the sophomore year. Students will be given major/minor forms listing additional rules for a History major/minor. They will also be required to select an academic adviser who will help in preparing a program of courses. Students should consult their advisers regularly. Students also must update their records each term. A History minor who wishes to student teach must have completed 15 units of the required courses in history.

TRANSFER CREDIT POLICY

No more than 18 credits in history will be accepted toward a major or a minor from a regionally accredited four-year college. No more than 12 lower-division credits in history will be accepted toward a major or a minor from a regionally accredited two-year college. The 12 credits must be in lower-division courses which have Towson University equivalents at the 100-200 level.

ADVANCED PLACEMENT AND CREDIT FOR PRIOR

The department awards units through the Advanced Placement Program of the university. The department also offers units for lower-division courses, and for upper-division courses upon appeal, through the Credit for Prior Learning Program. Students applying for credit under this program complete a departmental examination, an interview and a paper or book review in the field.

DEPARTMENTAL HONORS AND ACTIVITIES

The department offers an honors program in history. Eligibility requirements and rules governing the departmental honors programs are described elsewhere in this catalog. Students interested in the history honors program should consult their adviser and their department chair no later than the first term of their junior year.

The department sponsors the Theta Beta Chapter of the national history honor society, Phi Alpha Theta. The society presents lectures, films and other programs. Students may inquire about membership requirements at the department office.

The department awards at graduation each year the Medal of the Daughters of American Colonists, presented by the Cecilius Calvert Chapter of that organization, and the Disabled American Veterans Prize in History.

The Mary Catherine Kahl Prize is awarded annually to a History major or minor of outstanding promise who has not yet graduated. An essay in history written by the nominees is submitted as an integral part of the prize competition.

The Arnold Blumberg Ptize is awarded annually to the senior History major who has compiled the most outstanding record in the field of European History.

The Douglas D. Martin Sr. History Award provides scholarship support for undergraduate History majors with a minimum of 85 units who have demonstrated an interest in the study of Western U.S. history or native peoples.

Each year, under an endowment established to honor Professor Herbert Duane Andrews, an outstanding scholar will be invited to lecture at the university. The lecture will emphasize scholarly research which demonstrates the integration of history with other disciplines or which utilizes newer methodologies to enhance understanding of traditional areas of specialization.

The department also offers travel-study courses that in the past have introduced students to China, Japan, Mexico and several European countries.

Interdisciplinary Studies Program

Director: Colleen Ebacher

OFFICE

Linthicum Hall 108, 410-704-2128

THE PROGRAM

The Interdisciplinary Studies Program provides students with the opportunity to pursue a course of study unavailable through any single discipline at Towson University. The program offers students three alternatives: (1) the individually designed thematic option; (2) four formally designed major tracks and a pre-law program; and (3) 10 minors/tracks.

A major in Interdisciplinary Studies requires a minimum of 45 upper-division units (300-400 level) though the program director may approve substitutions of particularly significant lower-division courses. All 45 units must be completed with a grade equivalent of 2.00 or higher. Students pursuing a minor in Interdisciplinary Studies must likewise complete the requisite units with a grade equivalent of 2.00 or higher.

Interdisciplinary Studies majors may transfer up to 21 credits toward completion of the major. Interdisciplinary Studies minors may transfer up to 9 credits toward completion of the minor.

INDIVIDUALLY DESIGNED THEMATIC OPTION

The individually designed thematic option allows students to pursue a major that is not available at Towson University but that is offered at other colleges or universities. Because it is individually designed, this option places special responsibilities on the student.

First, the student must find the model for the major he or she wishes to pursue in the catalog of another university and determine that Towson University offers the courses necessary to complete the major. Second, the student must meet with the director of the Interdisciplinary Studies Program to ask for preliminary approval of the proposed major. Third, with the assistance of the program director, the student must identify a professor with the necessary expertise who is willing to serve as his or her major adviser. Fourth, under the guidance of the major adviser, the student must write a program of study that includes a name for the individually designed thematic option, a description of its goals, and a list of required and elective courses. After formal approval by the faculty adviser, the student, and the director of the Interdisciplinary Studies Program, this agreement will constitute the requirements of the student's major.

Students interested in the individually designed thematic option should declare their major as soon as possible, ideally no later than the first term of the junior year. Regardless of when the major is declared, students must enroll in a minimum of 21 units in the major following formal approval of the program of study. No unapproved program of study may be used for graduation.

Requirements

- 1. Å formally approved program of study consisting of a minimum of 45 units in the major.
- At least 21 of these units must be taken after formal approval of the program of study.
- 3. The required 45 units must incorporate courses from at least three departments or programs.
- 4. All course work must be upper-division unless the faculty adviser and the Interdisciplinary Studies Program director approve the inclusion of some particularly significant course work at the lower-division level. For example, a course important to the thematic option may exist only at the lower division.

FORMALLY DESIGNED MAJOR TRACKS

There are at present five formally designed major tracks and a prelaw program, each designed by an interdisciplinary faculty committee. Students interested in any of these programs should contact the coordinator of the track.

Major Tracks

American Studies Animal Behavior Asian Studies Latin American Studies

Pre-professional Preparation:

Pre-law

MINORS

Interdisciplinary minors offer an excellent complement to majors in traditional disciplines. Students in any major may elect to pursue one of these minors.

Minors/Tracks

African and African American Studies Minor
American Studies
Asian Studies
Business, Communication and the Liberal Arts Minor
Classical Studies Minor
Comparative Ethnic Studies Minor
Irish Studies Minor
Jewish Studies Minor
Latin American Studies
Lesbian, Gay, Bisexual and Transgender Studies Minor

The specific requirements for each of the formally designed major tracks and minors are described below.

AFRICAN AND AFRICAN AMERICAN STUDIES MINOR

Anthropology and Criminal Justice), Matthew Durington
(Sociology, Anthropology and Criminal Justice), John
Gissendanner (English), Wayne McKim (Geography and
Environmental Planning), John Murungi (Philosophy and
Religious Studies), Jo-Ann Pilardi (Philosophy and Religious
Studies), Katia Sainson (Modern Languages), Evangeline
Wheeler (Psychology), Donn Worgs (Political Science)

OFFICE

Linthicum 30IB, 410-704-5211

The Program

The African and African American Studies minor offers the student the opportunity to study in-depth the historical and social experiences and cultural contributions of Africans and peoples of African descent in a global perspective. It also provides a critical perspective on race in American society. An interdisciplinary program concentrating mainly in the humanities, the curriculum of the African and African American Studies minor offers students the opportunity to customize their course work by exploring a range of subjects in various disciplines. Students must complete 21 units for the minor.

Requirements for the Minor

The minor in African and African American Studies requires 21 units. To fulfill the requirements for the minor in African and African American Studies, students must take one required course. Students should choose the remaining 18 units from a list of elective courses approved by the advisory committee.

Required Core Course (3 units)

Main Themes in African American Studies (3) AFST 201

Electives (18 units)

Students should take courses in at least three different disciplines; 12 units must be in upper-level courses. Survey of African-American Literature (3)

AMERICAN STUDIES TRACK/MINOR

Coordinator: Paul Douglas (English)

OFFICE

HIST 382

Linthicum Hall 218G, 410-704-2943

The Program

The American Studies Track is an interdisciplinary program allowing students to take courses in different academic departments that focus on the concept of American culture. The American studies approach emphasizes the interrelatedness of history, literature, the arts and popular culture. Students examine American institutions, ideas and material forms in order to better understand their past and shape their futures. The track is designed for those students who may wish to have careers in fields such as teaching, law, museum work, and journalism where a broad knowledge of American history and culture is desirable.

A minor is available for those students with another major who want to learn more about American culture.

Students interested in material culture or museum work have the opportunity to receive unit for internships at a number of area museums or historical sites.

Requirements for the Track

MUSC 111

POSC 103

Students majoring in the American Studies Track must complete 45 units with a grade equivalent of 2.00 or higher in each course.

| | | |

Required Upper-Division Courses (12 units)

Students choose 12 units from the above list of upper-division courses for the major. No more than 6 units may be taken in any one department. Students should select courses in consultation with the American Studies coordinator.

ANIMAL BEHAVIOR TRACK

Advisory Committee: Michael Figler (Psychology), Donald Forester (Biological Sciences), Paz Galupo (Psychology, Co-Coordinator), Craig Johnson (Psychology), Scott Johnson (Biological Sciences), Jay Nelson (Biological Sciences), Herbert Petri (Psychology), Joan Rabin (Psychology), Gerald Robinson (Biological Sciences), Aubrey Scarbrough (Biological Sciences), Erik Scully (Biological Sciences), Joel Snodgrass (Biological Sciences)

OFFICE

Smith Hall 261, 410-704-3012

The Program

The study of animal behavior has received an increasing amount of attention from the public because of the emphasis placed by zoological parks on behavioral biology and the large number of presentations in the media regarding animal behavior and sociobiology.

The Animal Behavior Track is designed to offer a solid foundation in the diverse approaches used to study behavioral biology. The program uses a carefully selected combination of courses in biology and psychology to achieve this goal. In addition, students are required to complete either an independent research project or an internship in order to apply their knowledge in an intensive research experience.

Students who complete the program may be qualified for positions at zoological parks, aquariums and nature centers. In addition, they will have the necessary technical knowledge to pursue a career in freelance writing about animal behavior. However, students who are considering attending graduate school will need to complete additional courses in either biology or psychology. Most of the students currently enrolled in the program also are majoring in either Biology or Psychology.

Students who are considering the Animal Behavior Track must meet with one of the program coordinators before declaring Interdisciplinary Studies as a major.

Requirements for the Track

The Animal Behavior Track requires students to complete 45 units with a grade equivalent of 2.00 or higher. If 45 units have not been reached following completion of the required courses, the additional course or courses must be taken from the biology or psychology electives list (see below).

Contemporary General Biology (4)

ASIAN STUDIES TRACK/MINOR

Advisory Committee: Samuel Collins (Sociology, Anthropology and Criminal Justice), Steve Coutinho (Philosophy and Religious Studies), Karl Fugelso (Art), Douglas Herman (Geography and Environmental Planning), Jeong-Joon Lee (Economics), Jenny Li (Modern Languages), Junko Morishita (Modern Languages), Steven Phillips (History, Coordinator)

OFFICE

Linthicum Hall 119A, 410-704-2912

The Program

The Asian Studies Track within the Interdisciplinary Studies major is designed to offer students an interdisciplinary program of study of various dimensions of the Asian world. Students may plan a course of study that concentrates on a particular aspect of Asian civilization or on a particular sub-region of Asia. One might, for example, focus on the art and philosophy of various Asian peoples, or instead, one might choose to concentrate on Chinese, Indian or Japanese civilization, studying both the traditional and modern society, its physical setting, and its political and economic development. In order to build a sound program of study, which meets both the individual student's needs and the Interdisciplinary Studies requirements, it is essential that students work closely with an adviser in planning the program and selecting courses.

A second option open to students interested in specializing in Asian Studies is the International Studies major with a regional specialization.

Requirements for the Track

1. Twelve units of a foreign language appropriate to the student's designated area of interest in Asia. The Asian language courses presently offered at Towson are listed below. The Advisory Committee may waive the language requirement for native speakers of Japanese, Chinese or another language related to the student's course of study. In this case, students must earn a total of 45 units instead of the 33 detailed in point 2 below.

- 2. A minimum of 33 units selected from the following list of courses, but with courses from at least three departments (in addition to language) represented. Other courses not shown on the list, but which are relevant to Asia (such as directed readings courses and Minimester courses) may be accepted with the approval of the Advisory Committee. Excluding language courses, no more than four courses below the 300 level may be taken for unit in this program.
- 3. All courses must be completed with a grade equivalent of 2.00 or higher.
- Students may transfer up to 21 credits toward the completion of the major.

Minor in Asian Studies

The minor in Asian Studies is designed for students majoring in another discipline yet interested in acquiring knowledge of Asian nations and cultures without completing the major program above. Students minoring in Asian Studies must complete 21 units from the courses listed above with a grade equivalent of 2.00 or higher in each course. No more than three courses (9 units) may be lower-division. Students must select courses in at least three disciplines in consultation with the Asian Studies program coordinator.

^{*}Students should consult this catalog for course prerequisites and discuss all course selections with their advisers.

Asian Languages

There is no language requirement for the Asian Studies minor. However, students are encouraged to begin the study of an Asian language. One 3-unit, 100-level language course may be applied toward lower-division course unit.

BUSINESS, COMMUNICATION AND THE LIBERAL ARTS MINOR

Director: Linda Mahin (English)

OFFICE

Linthicum Hall 201 D, 410-704-5197

The Program

The interdisciplinary minor in Business, Communication and the Liberal Arts (BCLA) was developed in 1997 in response to needs expressed by national and local business executives. Students possessing this minor to complement their major will help meet the growing demand for graduates who have strong oral and written communication skills, the ability to think critically and creatively in solving problems, and a general knowledge of business culture and practices.

BUSINESS, COMMUNICATION AND THE LIBERAL ARTS MINOR

This rigorous minor for liberal arts majors and others consists of 24 units. The minor emphasizes the skills that are important for successful job performance over time and recognizes the business community's need for broadly educated, articulate college graduates. Completion of all required minor courses with a minimum 3.00 GPA is prerequisite to enrollment in BCLA 421 Integrating Management Skills. Application materials are available in the interdisciplinary studies office, the admissions office, the Academic Advising Center, or by calling Dr. Mahin, 410-704-5197. Applications can be made at any time, but please see the director, as well as including the minor on your declaration of major/minor form.

Required Courses (24 units)

| ACCT 201* | Accounting Principles I (3) |
|-----------|---|
| BCLA 421 | Integrating Management Skills (3) |
| BUSX 101 | Introduction to Business (3) |
| COMM 315 | Business and Professional Communication (3) |
| COSC 111* | Information Technology for Business (3) |
| ECON 201* | Mucroeconomic Principles (3) |

ENGL 317 Writing for Business and Industry (3)

PHIL 371 Business Ethics (3)

Completion of all other required minor courses with a minimum 3.00 GPA is prerequisite to enrollment in BCLA 421.

And one course selected from the following:

| ANTH 2091 | Anthropology of American Culture (3) |
|-----------|---|
| ENGL 263 | Tradition and Form in Western Fiction (3) |
| PHIL 101 | Introduction to Philosophy (3) |
| POSC 107 | Introduction to International Relations (3) |

Students in the BCLA minor are encouraged to enroll in some of the following courses to fulfill graduation requirements. Students should discuss these options with their advisers. These recommended courses may not be used to replace any of the minor requirements.

COMM 304 Persuasion (3)

Recommended Courses

| COMM 379 | Intercultural Communication (3) |
|-----------|---------------------------------|
| FCON 202* | Macroeconomic Principles (3) |
| IREN 331 | French for Business (3) |

| Geography of International Affairs (3) |
|--|
| German for Business (3) |
| History of the U.S. since the Mid-19th Century (3) |
| Internship in Interdisciplinary Studies (3) |
| Legal Environment of Business (3) |
| Mass Media and Society (3) |
| Principles of Marketing (3) |
| Management and Organization Theory (3) |
| Industrial Psychology (3) |
| Industrial Sociology (3) |
| Medical Sociology (3) |
| Spanish for Business (3) |
| |

* Honors College versions of these courses may be used to also fulfill Honors College requirements.

CLASSICAL STUDIES MINOR

Advisory Committee: Jennifer Ballengee (English), Rose Ann Christian (Philosophy and Religious Studies), Victor Fisher (Sociology, Anthropology and Criminal Justice), John McLucas (Modern Languages), Allaire Stallsmith (History, Coordinator), Sandra Tatman (Art History)

OFFICE

Linthicum Hall 119E, 410-704-2909 E-mail: astallsmith@towson.edu

The Program

Classical Studies includes the study of Greek and Latin and of ancient history and civilization, extending from the Paleolithic to the fall of the Roman Empire in the West in A.D. 476, which have formed the core of liberal arts learning in the West for centuries. The Classical Studies minor incorporates courses drawn from the language, literature, philosophy, history, archaeology, art, theatre, geography, religious studies and Jewish studies programs, offering students an opportunity to specialize in the disciplines of antiquity. The Classical Studies minor helps students majoring in various fields to focus their interests and gives coherence to their programs.

Trained to integrate the past with the present, classicists are found not only in their traditional havens-universities, museums, archaeological projects, and research centers-but also as valuable team members in such diverse fields as international business, public educational programs, documentary filmmaking, publishing, marketing, mass communications, medicine, and the law.

Students in the Baltimore-Washington area have unique opportunities for research and hands-on learning at the Walters Art Museum, the Center for Hellenic Studies, Dumbarton Oaks, the Library of Congress, the Smithsonian, and the libraries of Johns Hopkins University and the University of Maryland.

Minor in Classical Studies

The minor in Classical Studies consists of 24 units. It is designed for students who would like to take a specialized core of classical studies courses.

Required Courses (9 units)

| required Courses (> units) | | |
|----------------------------|---|--|
| HIST 101 | Introduction to Ancient Civilizations (3) | |
| LATN 101 | Latin Elements I (3) | |
| LATN 102 | Latin Elements II (3) | |
| | or | |
| GRK 103 | Ancient Greek Elements I (3) | |
| GRK 104 | Ancient Greek Elements II (3) | |
| | | |

NOTE: The language requirement may be waived by passing a proficiency exam; in that case, 6 units would be made up by choices from the recommended courses listed below.

Recommended Courses (15 units)

Five additional courses (15 units) should be chosen from the following list, with no more than two courses (6 units) in any one department.

| Ant | hro | pol | ogy |

COMPARATIVE ETHNIC STUDIES MINOR

Advisory Committee: Lena Ampadu (English), Evelyn Avery (English, Coordinator), Elizabeth Clifford (Sociology, Anthropology and Criminal Justice), John Gissendanner (English), Barbara Leons (Sociology, Anthropology and Criminal Justice), Frances Rothstein (Sociology, Anthropology and Criminal Justice)

OFFICE

Linthicum Hall 219D, 410-704-2865

The Program

More than 100 years ago Walt Whitman described America as a "nation of nations." Today, the United States remains a nation of many peoples who have blended their Old World traditions with their New World experiences. Ethnic diversity is especially evident in Baltimore where Black, Greek, Hispanic, Irish, Italian, Jewish, Polish, Ukrainian, and American Indian individuals and others retain distinctive identities and contribute to the vitality of the nation. The minor in Comparative Ethnic Studies is designed for students who wish to have a broader and deeper understanding of the variety of peoples who comprise American culture. It is a meaningful complement to any major. The minor offers an interdisciplinary approach and exposure to different cultures in America.

Minor in Comparative Ethnic Studies

The minor in Comparative Ethnic Studies consists of 18 units of required and elective courses. Each course must be completed with a grade equivalent of 2.00 or higher.

Required Courses (6 units)

| required co | discs (o diffes) |
|-------------|-------------------------------|
| ENGL 235 | Ethnic-American Literature (3 |
| SOCI 343 | Minority Groups (3) |

Electives (12 units)

*Topics in Multiethnic Literature (ENGL 476) may be taken only once for the minor in Comparative Ethnic Studies.

(The American Jewish Community, when offered)

IRISH STUDIES MINOR

Advisory Committee: Evelyn Avery (English), Thomas Casciero (Theatre Arts), John Connolly (English), James Coughlin (Mathematics), James DiLisio (Geography and Environmental Planning, Coordinator), K Edgington (English), Clarinda Harriss (English), Michael Keating (English), James Paulsen (Art), Joseph Rudolph (Political Science), Timothy Sullivan (Economics)

OFFICE

Linthicum Hall 26, 410-704-2971 Fax: 410-704-4702

E-mail: jdilisio@towson.edu

The Program

The Irish Studies minor draws on the resources of several different departments in various colleges of the university. The minor is designed for students whose intellectual interest is focused on another discipline, but who would like to enhance their knowledge of Irish culture under the scholarly guidance of faculty members in an organized program. The program offers an interdisciplinary approach to the study of the Irish experience by way of various viewpoints and methodologies. The Irish Studies minor complements major academic programs of study such as art, English, economics, geography, history, political science and theatre. This program provides an option for any student in the university interested in Irish culture.

The Irish Studies minor is constantly subject to revision and expansion as a result of regular evaluation and review by an advisory committee representing participating departments. New courses, special topics, Minimester courses, directed research and travel study may be accepted for this minor with the approval of the advisory committee. Units toward the minor may also be earned as part of a study abroad program in Ireland with the approval of the Irish Studies Advisory Committee prior to the experience. Application for study abroad must be made through the Towson University Study Abroad program director.

Minor in Irish Studies

A minimum of 21 units is required for the Irish Studies minor.

Required Courses (6 units)

HIST 201 A Survey of Irish History (3) ENGL 229 Modern Irish Literature (3)

Electives (15 units, 9 upper-level)

No more than two courses may be taken in any one discipline without permission.

JEWISH STUDIES MINOR

Advisory Committee: Evelyn Avery (English, Coordinator), Rose Ann Christian (Philosophy and Religious Studies), Howard Kaplon (Mathematics), Michael Lavine (Computer and Information Sciences), Nitza Nachmias (Political Science), Douglas Pryor (Sociology, Anthropology and Criminal Justice), Allaire Stallsmith (History), Lisa Ziv (Marketing and e-Business)

OFFICE

Linthicum Hall 219D, 410-704-2865 Fax: 410-704-3999

The Program

Drawing on the resources of six different departments, the Jewish Studies minor is designed for students whose vocational and/or intellectual interest centers on another discipline, but who would also like to deepen their knowledge of Jewish history, literature and religion in an organized, directed manner.

The Jewish Studies minor also provides students with not only a link to the past, but with a connection to the present and future. The minor also focuses on Jewish culture, education, politics, values and way of life, and how the Jewish community interacts with society as a whole. Although not as comprehensive as a concentration, the minor offers an interdisciplinary approach to the Jewish experience, set in the wider context of ancient and modern society. Knowledge of Judaism is essential to understanding Christianity and Islam, so a minor in Jewish Studies will appeal to those from different religious backgrounds.

A minor in Jewish Studies can provide students with many opportunities, including departmental internships and work in communal service or education. Students with a minor in Jewish Studies have gone on to pursue careers in education, social work, journalism, fund-raising, and counseling, as well as in Jewish organizations.

Students from throughout the university are welcome to undertake the minor, despite its course concentration in the College of Liberal Arts.

The Jewish Studies minor will be subject to revision and expansion in the future, as courses are evaluated by a permanent advisory committee which will monitor the program. New courses, special topics, or Minimester courses may be accepted for the minor, or counted toward it, with the approval of the advisory committee.

Minor in Jewish Studies

A minimum of 21 units is required for the minor in Jewish Studies.

LATIN AMERICAN STUDIES TRACK/MINOR

Advisory Committee: Colleen Ebacher (Modern Languages), José López-González (Philosophy and Religious Studies), Cristina Magaldi (Music), Ronn Pineo (History, Coordinator), Lea Ramsdell (Modern Languages), Frances Rothstein (Sociology, Anthropology and Criminal Justice), Sandra Tatman (Art)

OFFICE

Linthicum Hall 119N, 410-704-2918

The Program

The Latin American Studies Track within the Interdisciplinary Studies major allows students to approach the study of Latin America as an area from an interdisciplinary perspective. It is an appropriate track for those intending to pursue Latin American Studies or Spanish at the graduate level, for those anticipating living or working in Latin America, or for those wishing to acquire expertise in Latin America for a career in government or business.

The Latin American Studies Committee administers the program. Students should select one of the members of the committee as an advicer

Training in Latin American studies is an excellent preparation for careers in education, business and government. Graduates find employment with business such as export/import companies, international banks, tour and travel companies, and the international media. Government agencies, such as the State Department and the Department of Immigration seek individuals trained in Latin American studies. Employment opportunities exist for translators, researchers, and in other areas.

Requirements for the Track

Students in the Latin American Studies Track complete SPAN 301 or its equivalent, and a minimum of 36 units. The track requires 6 units in foundations courses, 6 units in advanced study courses, a 6-unit capstone experience, and 18 units of electives. Students must complete a minimum of 6 units in at least three of the following disciplines: anthropology, art history, history, geography, music, applied music, political science or Spanish.

Like all Interdisciplinary Studies majors, students choosing this track must complete a total of at least 45 units of upper-division course work from the departments of arts and sciences.

All course work must be completed with a grade equivalent of 2.00 or higher.

1. Foundations (6 units)

LAST 100* Latin America: Issues and Approaches (3) (Cornerstone)

GenEd LBi

HIST 122 Latin America: National Period (3)

*LAST 100 may be waived by the coordinator of Latin American Studies if the student has already completed the GenEd I.B requirement at the time the student enters the Latin American Studies Program. The student may select any 3-unit elective as a replacement.

2. Advanced Study (6 units)

Select two of the following:

ANTH 353 Latinas in the Americas (3)

HIST 324 Democratization in Latin America (3)

**open to honors program students only

4. Electives (9 units)

Select an additional 9 units from the list of approved courses in Latin American Studies.

Suggested Majors to Combine with Latin American Studies Minor

The minor in Latin American Studies provides an excellent complement to the following majors: Anthropology, Business Administration, International Business, International Studies, History, Political Science and Spanish. See the coordinator of Latin American Studies for details.

Guidelines for Study Abroad

Students may attend any Latin American study abroad program approved by the Towson University Study Abroad Office. Students studying abroad earn units toward fulfilling the Towson University Latin American Studies Program requirements only by completing courses in Latin American Studies-related disciplines (for Spanish grammar, composition, and conversation courses, only Spanish 301, Spanish 302, Spanish 331 or their equivalents may be counted), and are subject to the approval of the Latin American Studies coordinator. Units earned abroad may not be counted more than once toward fulfilling any Latin American Studies Program requirement.

Travel-study courses to Latin America may also count toward the Study Abroad Option of the Latin American Studies Capstone Experience requirement, subject to the approval of the Latin American Studies coordinator.

Internships

Internships may be taken with any department participating in the Latin American Studies Program. All internships must be concerned with Latin America, and are subject to the approval of the coordinator of Latin American Studies.

LESBIAN, GAY, BISEXUAL AND TRANSGENDER STUDIES MINOR

Advisory Committee: David Bergman (English), K Edgington (English), M. Paz Galupo (Psychology, Coordinator), Cindy Gissendanner (History), Doug Herman (Geography), Joan Rabin (Psychology), Steve Satta (Theatre Arts), Deborah Shaller (Writing Lab/English), John Tinkler (English)

OFFICE

Psychology Building 403, 410-704-3068

The Program

The Lesbian, Gay, Bisexual and Transgender (LGBT) Studies minor addresses issues of sexual orientation from interdisciplinary and multicultural perspectives. The growing public visibility and awareness of diverse sexualities and their cultural and political ramifications for individuals, social institutions and communities are evident in increased media coverage of political activism and debate related to issues of sexual orientation. LGBT Studies is a response to these forces in the contemporary world but also represents a growing field of scholarship which is in the forefront of developing theoretical and methodological innovations in interdisciplinary studies. The LGBT Studies minor aims to give students the critical skills to analyze a wide range of issues, including the historical evolution of sexual identities in different cultural settings, the relationship between gender systems and sexual orientation, the development of lesbian and gay cultural institutions, institutionalized forms of heterosexism and homophobia, and the social and political mobilization of LGBT individuals and their allies in efforts to eliminate discrimination on the basis of sexual orientation.

Educational Objectives

1. To familiarize students with major concepts, theories, substantive findings and works of fiction and nonfiction in the field of lesbian, gay, bisexual and transgender (LGBT) studies.

2. To make students aware of the diversity of the attitudes toward and the experiences of LGBT individuals in different cultures and

historical periods.

3. To examine institutionalized homophobia and heterosexism and their impact on the political, social and economic status of LGBT individuals.

4. To investigate the relations between prevailing gender norms and systems and the social construction of sexualities and the cultural images associated with them.

5. To examine differences within LGBT communities along lines of race, class, gender, ethnicity, age and region and the social and political ramifications of such differences for those communities.

6. To understand the wide range of political strategies used by LGBT individuals in the past and the present in their struggles against oppression.

7. To trace the historical evolution of sexual identities and the roles of LGBT individuals in reshaping them.

PRELAW

Coordinator: Jack Fruchtman (Political Science)

Linthicum Hall 118B, 410-704-3350

The Program

Students contemplating law school after graduation should make an appointment with the university's Prelaw adviser, Dr. Jack Fruchtman. He can provide prospective students with a copy of the Towson Prelaw Handbook, introduce them to the Prelaw Society, and offer advice concerning courses of study, preparation for the Law School Admission Test (LSAT) and other matters pertaining to what students need for their application to law school. In general, students should concentrate on improving their reading, writing and speaking skills.

Dual Law Program

Towson University offers to qualified students the opportunity to apply to the early admission program at the University of Baltimore School of Law, Admission is not automatic but is contingent upon acceptance by the University of Baltimore Law School (including review of LSAT scores). Transfer to the UB law program can only take place at the end of a spring term. To qualify for entrance to the dual-degree program, students must fulfill the first three of the standards listed below; to qualify for graduation from Towson University, they must also fulfill the fourth standard listed:

- 1. Completion of at least 91 units at TU with at least a 3.00 GPA.
- 2. Completion of all TU General Education requirements.
- 3. Completion of a major at TU with at least a 3.25 GPA in the major. No specific areas of study or disciplines are required for this program; accordingly, students may choose majors in which they are most interested.
- 4. Successful completion of 29 units at the University of Baltimore School of Law, and of all other TU graduation requirements as listed in the catalog under the heading Degree Requirements.

Subsequent completion of all requirements at the University of Baltimore Law School is necessary in order to earn the J.D. degree from the University of Baltimore. Students interested in this program should contact the TU Prelaw adviser, Dr. Jack Fruchtman, in the Department of Political Science.

International Studies Program

Director: Alison McCartney (Political Science)

Affiliated Faculty: Kangoh Lee (Economics), George McCool
(Modern Languages), Wayne McKim (Geography), Michael
O'Pecko (European Studies), Steven Phillips (Asian Studies),
Ronn Pineo (History), James Roberts (Political Science), Doug
Ross (Management), Fran Rothstein (Anthropology)

Ex-officio: Glenda Henkel (Career Center), Dean Esslinger
(Academic Affairs)

THE PROGRAM

The International Studies Program provides a rigorous interdisciplinary curriculum in international affairs that is designed to appeal to students interested in addressing international problems and issues through careers in public service, education, business, and nonprofit enterprises. The program also provides excellent preparation for students wishing to pursue graduate education in international studies, law, or international business. The program aims to achieve a global perspective through an interdisciplinary network of courses and experience that will lead to a Bachelor of Arts degree in International Studies. The program is administered by a committee of faculty members from the various departments and colleges from which the courses are taken.

BACHELOR OF ARTS IN INTERNATIONAL STUDIES

All students must complete 48 units (16 courses) in international studies to complete the major. Students must complete the core curriculum described below (27 units) and one of five tracks of courses (21 units). The five tracks are the General Track, International Development Track, Asia Track, Europe Track, and Latin America Track. The purpose of the tracks is to provide students an opportunity to apply what they learned in the core curriculum to an issue or region of their choice. All 16 courses must be completed with a grade of 2.00 or higher. It is recommended that students complete the foundation courses in the core curriculum before proceeding to the rest of the curriculum.

FOREIGN LANGUAGE REQUIREMENTS

Students must achieve a level of proficiency equivalent to four terms of college-level language training in a modern foreign language that is offered by or can be tested by the Department of Modern Languages. The language selected may depend upon the International Studies track the student chooses. For example, students in the Latin America Track must achieve proficiency in Spanish. Students can fulfill the language requirement for the International Studies major through any of the procedures outlined in the Meeting B.A. Requirements section of the Department of Modern Languages entry in this catalog. Lower-division courses taken in a modern language do not count toward the 48 units needed to complete the International Studies major.

INTERNATIONAL STUDIES CORE COURSES

The courses meet General Education requirements as noted. Courses used to fulfill a requirement in the core cannot also be used to fulfill a requirement in a track.

INTERNATIONAL STUDIES TRACKS (21 units)

The tracks are intended to provide students with flexibility in designing a curriculum in international studies that addresses their interests while maintaining academic rigor and focus. Students must complete the course requirements listed for one of the following tracks.

GENERAL TRACK (21 upper-division units)

The General Track is intended to give students a flexible approach to developing their skills and knowledge in international studies. Students may choose to focus their courses on a particular discipline (such as economics or geography), or to focus their courses on a particular topic (such as international development), or to select

^{*} Internships must be taken for 3 units and must be in work related to international studies and must be approved by the student's academic adviser or the director of International Studies.

a broad range of courses that provides them with a general understanding of international affairs. The student's academic adviser

must approve the entire track.

To complete the General Track, students must take at least 21 units (seven courses) from the courses listed below. Courses must be taken in at least three different departments. No more than two lower-division courses (6 units) may be counted toward the General Track. Other courses, not listed below, that are televant to international studies (such as special topics courses or directed readings courses) may be accepted with the approval of the student's academic adviser. Courses cannot be counted in both the International Studies core and the General Track.

Students must complete through the 202 level or equivalent in a foreign language that is offered by or can be tested by the Department of Modern Languages. Language units through the 202 level do not count toward the 21 units needed for the track or the 48 units needed for the International Studies major.

^{*} Special topics, seminars, and independent study and readings courses must be related to international topics to count toward the General Track in International Studies.

INTERNATIONAL DEVELOPMENT TRACK (21 units)

The International Development Track is intended to provide students with a thorough understanding of the causes and effects of the problems of persistent international underdevelopment. The track also provides skills that will prepare students to work in international development or to pursue development studies at the graduate level.

Requirements for the International Development Track

- 1. To complete the International Development Track, students must take at least 21 units from the courses listed below. Students must complete the three required courses. Students must take four elective courses covering at least three of the four areas listed below. Other courses, not listed below, that are relevant to international studies (such as special topics courses or directed readings courses) may be accepted as elective courses with the approval of the student's academic adviser. No more than 3 units of lower-division courses may be counted toward the International Development Track. Courses cannot be counted in both the International Studies core and the International Development Track.
- 2. Students must complete through the 202 level or equivalent in a foreign language that is offered by or can be tested by the Department of Modern Languages. Language units through the 202 level do not count toward the 21 units needed for the track or the 48 units needed for the International Studies major.

ASIA TRACK (21 upper-division units)

The Asia Track is designed to offer students an interdisciplinary program of study in various dimensions of the Asian world. Students may plan a course of study that concentrates on a particular aspect of Asian civilization or on a particular sub-region of Asia. One might, for example, focus on the art and philosophy of various Asian peoples or, instead, concentrate on Chinese, Indian or Japanese civilizations, studying both the traditional and modern society, its physical setting, its political and economic development, etc. Students interested in Asia should also see the Asian Studies Track offered under the Interdisciplinary Studies major. However, students may not pursue both the Asia Track in International Studies and the Asian Studies minor offered under the Interdisciplinary Studies Program.

To complete the Asia Track, students must take a total of 21 units (seven courses) from the courses in the categories listed below. Courses must be taken in at least three different departments. No more than two lower-division courses (6 units) may be counted toward the Asia Track. Other courses, not listed below, that are relevant to Asia (such as special topics courses or directed readings) may be accepted with the approval of the student's academic adviser. Courses may not be counted in both the Asia Track and the International Studies core.

Students must complete through the 202 level or equivalent in Chinese, Japanese or another language that can be tested by the Department of Modern Languages if it is appropriate to the student's interests in Asia. Language units through the 202 level do not count toward the 21 units needed for the track or the 48 units needed for the International Studies major.

^{*} Unit toward the track is only granted for these courses when the topic of the course is related to Latin America.

EUROPE TRACK (21 upper-division units)

The Europe Track permits students to apply what they have learned in the International Studies curriculum to European issues and problems. Students may choose courses that focus their studies on a specific issue, such as European integration, or they can choose courses that permit them to gain a broader perspective on European politics, economics and cultures. The entire track must be approved by either the student's academic adviser or the director of the International Studies Program.

To complete the Europe Track, students must take a total of 21 units (seven courses) from the courses listed in the categories below. No more than two lower-division courses (6 units) may be counted toward the Europe Track. Other courses, not listed below, that are relevant to Europe (such as special topics courses or directed readings) may be accepted with the approval of the student's academic adviser. Courses may not be counted in both the Europe Track and the International Studies core. Students may not pursue both the Europe Track in International Studies and a European Studies minor.

Students must complete through the 202 level or equivalent in any modern foreign language that is offered by or can be tested by the Department of Modern Languages. Language units through 202 do not count toward the 48 units needed for the International Studies major.

LATIN AMERICA TRACK (21 upper-division units)

The Latin America Track permits International Studies majors to apply what they learn about international affairs to the problems and cultures in Central America, South America and the Caribbean. Students can choose courses to focus their studies on specific countries or issues or they can choose courses that provide a broad overview of international affairs in the region. The entire track must be approved by either the student's academic adviser or the director of the International Studies Program. Students interested in Latin America should also see the Latin American Studies Track offered under the Interdisciplinary Studies major. However, students may not pursue both the Latin America Track in International Studies and a Latin American Studies minor offered under the Interdisciplinary Studies Program.

To complete the Latin America Track in International Studies, students must take a total of 21 units (seven courses) from the courses listed in the categories below. No more than two lowerdivision courses (6 units) may be counted toward the Latin America Track. Other courses, not listed below, that are relevant to Latin America (such as special topics courses or directed readings) may be accepted with the approval of the student's academic adviser. Courses may not be counted in both the Latin America Track and the International Studies core.

Students must complete through Spanish 202 or equivalent. Language units through 202 do not count toward the 48 units needed for the International Studies major or the 21 units needed to complete the Latin America Track.

Approved Courses for the Latin America Track in International Studies

Introductory Latin America Courses

Both of the following:

LAST 100 Latin America: Issues and Approaches* (3)

(Gen.Ed. I.B)

HIST 122 Latin America: National Period (3)

*LAST 100 may be waived by the director of International Studies if the student has already completed his or her GenEd 1.B requirement at the time the student enters the International Studies Program.

Advanced Latin America Courses

One of the following:

Tradition and Revolution in Latin America (3) ANTH 369

GEOG 461 Geography of Latin America (3)

POSC 351 Government and Politics of Latin America (3) **SPAN 312** Culture and Civilization of the Spanish-Speaking

Peoples II (3)

Latin America Electives

Students must take at least 12 units (four courses) selected from the following list of courses. Courses must be taken in at least three different departments.

TRANSFER CREDIT POLICY

Transfer students must take a minimum of 18 units of upper-division courses in international studies at Towson to fulfill the requirements for the major.

INTERNATIONAL STUDIES MINORS

In addition to the Bachelor of Arts major, the International Studies Program offers two minors for students majoring in other areas. The International Studies minor is not open to International Studies majors. The European Studies minor is not open to students who elect to pursue the Europe Track in the International Studies major.

INTERNATIONAL STUDIES MINOR (21 units)

1. Two of the following:

ANTH 207 Cultural Anthropology (3) (GenEd. II.D) **ECON 202** Macroeconomic Principles (3) (GenEd II.C.2) **GEOG 105** Geography of International Affairs (3) (GenEd II.D)

HIST 151 The World since 1945 (3)(GenEd II.D)

POSC 107 Introduction to International Relations (3) (GenEd II.D)

- 2. All students in the International Studies minor must complete 15 units (five courses) from the list of approved courses for the General Track of the International Studies major.
- 3. Language Requirement: Students in the International Studies minor must attain an intermediate level of proficiency (through 202) or equivalent in any modern foreign language that is offered by or can be tested by the Department of Modern Languages. Language units through 202 do not count toward the 21 units needed for the minor.

EUROPEAN STUDIES MINOR (21 units)

1. Two of the following:

HIST 150 Europe and the Non-European World (3)

HIST 102 History of European Civilization through the 17th

Century (3)

HIST 103 History of European Civilization since the 17th Century

- 2. All students in the European Studies minor must complete 15 units (five courses) from the list of approved courses for the Europe Track of the International Studies major.
- 3. Language Requirement: Students in the European Studies minor must attain an intermediate level of proficiency (through 202) or equivalent in any one of the following modern languages: French, German, Italian, Russian or Spanish.

Students can fulfill the language requirement for the European Studies minor through any of the procedures outlined in the Meeting B.A. Requirements section of the Department of Modern Languages entry in this catalog. Language units through 202 do not count toward the 21 units needed for the minor.

THE INTERNATIONAL CREDENTIAL

The International Credential provides students in any major with a structured curriculum to certify that they have integrated international study and experience with their major. Recognizing the global nature of work, study and practice enhances learning in nearly all majors. The Credential acknowledges those students who have actively and rigorously sought international experience related to their course of study. Evidence of the completion of the Credential will appear on the student's transcripts. To earn the International Credential, students must complete an approved study abroad program, international experiential learning program, or international internship program and complete the following courses with a grade equivalent of 2.00 or higher.

Intercultural Communications (3) **COMM 378 INST 494** International Studies Abroad (3) **INST 496** International Research (3)

Applications for the International Credential are available from the director of International Studies in Linthicum Hall, room 118L.

^{*} Special topics, seminar, independent study, and readings courses must be related to Latin American topics to count toward the Latin America Track in International Studies.

INTERNATIONAL STUDIES ACTIVITIES AND

The International Studies Program offers students the opportunity to participate in the following special programs and activities:

- internships for academic units in metropolitan Baltimore and Washington, D.C.
- participation in the Model Organization of American States
- annual foreign affairs conferences held at the U.S. Naval Academy, U.S. Air Force Academy, and U.S. Military Academy
- editing and managing the Towson Journal of International Affairs for academic unit
- travel study and opportunities to more than 15 universities around the world
- the annual Earle T. Hawkins Symposium on International Affairs

Law and American **Civilization Program**

Linthicum Hall 118B, 410-704-3350

THE PROGRAM

The Law and American Civilization Program introduces undergraduates to the American legal system. Students will learn the methodology and gain the knowledge necessary to participate as active citizens in a nation devoted to the rule of law and will receive intensive training in analytical reasoning and critical thinking. Students majoring in Law and American Civilization may wish to attend law school following college graduation; they may choose to apply to graduate school in one of the disciplines of the program; or they may enter the work force in government, business and industry, or politics. This course of study is not necessarily a preprofessional program. Students not contemplating law or graduate school are encouraged to major in the program if their primary academic interest in college is to learn more about the American legal

MAJOR IN LAW AND AMERICAN CIVILIZATION

Majors must complete 54 units. The program is divided into four parts, and writing skills are emphasized throughout. First, students must complete two introductory courses, one each in political science and philosophy, which acquaint students with the nature of law and its role in American society. Second, students will take four core courses, one at the lower-division, two at the upper-division level, and an advanced writing course. These courses further situate students in American culture, politics, judicial policymaking and logical thinking. Third, students will have several options in choosing electives, which will be offered by several departments: Accounting, Mass Communication and Communication Studies, English, History, Philosophy and Religious Studies, and Political Science. Fourth and finally, students will undertake a 6-unit capstone experience of their choice and, if possible, design. Advanced students may wish to undertake a project in the workplace and then write an analytical essay on that experience as it fits into the overall program. Other students will participate in a senior seminar, in which they will write a research paper on some aspect of the law, to be developed into a thesis supervised by the program director. Finally, qualified students may choose to write an honors thesis.

OFFICE

Linthicum Hall I18B, 410-704-5908 Program Director: Donn Worgs

THE PROGRAM

The Metropolitan Studies Program is designed as a liberal arts program that offers students the opportunity to explore the complexity of metropolitan regions in the United States as well as overseas. Classes place an emphasis on contemporary issues and problems and on innovative policy solutions. The Baltimore/Washington metropolitan area provides an ideal "laboratory" for classes in metropolitan studies. Students are prepared for a number of interesting careers in the public and private sectors in planning policy and community development. The major is also an excellent preparation for graduate study in these professional fields, all of which are rapidly growing.

MAJOR IN METROPOLITAN STUDIES

Students in the Metropolitan Studies major are required to complete 39 units with a grade equivalent of 2.00 or higher. Of the total units in program requirements, a maximum of 9 may also be used to fulfill General Education requirements.

Note: Courses designated with "xx" did not have numbers assigned in time for publication. Please see the program director for information.

Core Courses (9 units)

MTRO 101 Introduction to Metropolitan Studies (3)

GEOG 101 Physical Geography (3)

A. GEOG 391 Urban Systems (3)

POSC 207 State and Local Government (3)

Required Courses (27 units)

Majors must take two courses in each of the categories lettered A, B and F; and one course each in C, D and E.

| | And one of the | following: |

- 2. MTRO 4xx Honors Seminar: Metropolitan Leadership (3)
- 3. any course listed in A-E that coincides with the student's individual interests in metropolitan studies
- 4. an upper-level course that the student's adviser must approve as relevant to metropolitan studies (including approved study

Capstone Experience (3 units)

MTRO 4xx Capstone Seminar in Metropolitan Studies (3)

Department of Modern Languages

Professors: John McLucas, Michael O'Pecko,

Salvatore Zumbo (Chair)

Associate Professors: Thomas Evans, Beverly Leetch, George

Assistant Professors: Isabel Castro-Vazquez, Francis Guevremont, Lea Ramsdell, Katia Sainson

Lecturer: Enrique Venegas

Part-time Faculty: Vivian Braun, Kristen Freeman, Franca Gorraz, Junko Handa, Teresa Huidobro, Jane Li, James Medvitz, Sylvia Moore, Victoria Paetow, James M. Pickett, Celeste Riccio, Sophia Swope, Kanji Takeno, Eston Teter, Larissa Titkova, Theresa Alfano Vance

OFFICE

Linthicum Hall 319 F/G, 410-704-2883 Fax: 410-704-4290

PROGRAMS OF THE DEPARTMENT

The Department of Modern Languages offers the following programs: 1) the major in French, German and Spanish Secondary Education; 2) the major in French, German and Spanish Literature/Professional Program; 3) the minor in French, German, Italian and Spanish; 4) the proficiency in French, German and Spanish for non-language majors or minors planning for careers which require reasonable oral and written competency in a foreign language; and 5) language elective, for all students who wish to acquire a reading or conversational ability in one of the following languages: Russian, Chinese, Portuguese, Hebrew, Japanese, Greek, Latin or Hindi. Expansion of these non-major languages will be made in response to expressed student interest. Students majoring or minoring in French, German or Spanish must declare their major or minor in the department and are required to have academic advisers in their major and minor field and maintain close contacts with the faculty advisers in order to select and prepare their course of study. Majors should see their advisers at least once a term. It is recommended that the major be declared before or during the sophomore year.

Culture and Civilization Course Requirement

The requirement of 6 units of culture and civilization for Spanish majors is strongly felt by the Spanish faculty to be a necessity in their program. This is primarily because of the great diversity of Spanish-speaking countries in Europe, South America, Central America and the Caribbean, and the importance of the knowledge of this diversity for all who teach or otherwise use Spanish. The French faculty also feels that the study of French culture and civilization represents a necessary aspect of the program and believes that it cannot be separated from the study of the language and literature. The German culture and civilization course is required for the Teacher Education Program in German.

Double Majors

The department encourages its language majors in French, German or Spanish to carry an additional major in either another language or to combine their language with another field of study. Interested students should consult the department.

MAJOR IN FRENCH LITERATURE/PROFESSIONAL

In addition to the General Education (GenEd) requirements, French Literature/Professional Program majors must complete 30 units with a grade equivalent of 2.00 or higher in French beyond the intermediate level. Of the 30 units, at least 15 units must be taken at Towson University.

Required Courses (15 units)

FREN 301 Advanced Conversation (3) **FREN 302** Advanced Composition (3)

Students are required to take three courses in literature and civilization at the 300 level. All students must take either FREN 328 or FREN 329.

FREN 328 20th-Century French Literature and Civilization (3)

FREN 329 Contemporary French Literature and Civilization (3)

plus two of the following:

FREN 325 Early French Literature and Civilization (3) **FREN 326** 18th-Century French Literature and Civilization (3)

FREN 327 19th-Century French Literature and Civilization (3)

Electives

Fifteen units in the target language, including 9 units at the 400 level are required.

Students wishing to acquire Professional Program rather than Literature Study, with the permission of the department, can substitute the internship (497) for one 400-level elective course. The internship is generally completed in the junior or senior year, and students will need to complete 27 units beyond the intermediate level and have a GPA of at least 2.50 in the foreign language before applying for the internship.

FRENCH SECONDARY EDUCATION PROGRAM

French majors may wish to obtain certification to teach French at the secondary level. Students in this Secondary Teacher Education Program receive certification to teach in Maryland upon graduation. In addition to the GenEd requirements and the requirements specified by the Department of Secondary Education, students must complete 30 units with a grade equivalent of 2.00 or higher beyond the intermediate level from among the following courses. Students must contact the Department of Secondary Education about admission to the Secondary Education Program.

Majors who are in the Secondary Teacher Education Program are required to take Advanced Grammar and Method of Teaching

a Foreign Language before student teaching.

Required Courses (18 units)

FREN 301 Advanced Conversation (3) **FREN 302** Advanced Composition (3)

Students are required to take three courses in literature and civilization at the 300 level. All students must take either FREN 328 or FREN 329.

FREN 391 Advanced Grammar (3)

FREN 328 20th-Century Literature and Civilization (3)

FREN 329 Contemporary French Literature and Civilization (3) plus two of the following:

FREN 325 Early French Literature and Civilization (3)

FREN 326 18th-Century French Literature and Civilization (3)

FREN 327 19th-Century French Literature and Civilization (3)

Electives

Twelve units of electives, including 6 units at the 400 level. These courses must be taken in addition to the Department of Secondary Education requirements.

MINOR IN FRENCH

MAJOR IN GERMAN LITERATURE/PROFESSIONAL PROGRAM

In addition to the GenEd requirements, German Literature/ Professional Program majors must complete 30 units with a grade equivalent of 2.00 or higher in German beyond the intermediate level. Of the 30 units, at least 15 units must be taken at Towson University.

Required Courses (18 units)

| Composition and Conversation I, Il (3,3) |
|--|
| Culture and Civilization (3) |
| Readings in Contemporary German (3) |
| Advanced German Grammar (3) |
| Advanced German (3) |
| |

Electives

Twelve units in the target language, including 9 units of literature at the 400 level are required.

Students wishing to acquire Professional Program rather than Literature Study, with the permission of the department, can substitute the internship (497) for one 400-level elective course. The internship is generally completed in the junior or senior year, and students will need to complete 27 units beyond the intermediate level and have a GPA of at least 2.50 in the foreign language before applying for the internship.

GERMAN SECONDARY EDUCATION PROGRAM

German majors in the Secondary Teacher Education Program receive certification to teach in Maryland upon graduation. In addition to the GenEd requirements and the requirements specified by the Department of Secondary Education, students must complete 30 units with a grade equivalent of 2.00 or higher beyond the intermediate level from among the following courses. Stylistics is recommended as an elective.

Required Courses (21 units)

| GERM 301-302 | Composition and Conversation I, II (3,3) |
|--------------|--|
| GERM 303 | German Translation (3) |
| GERM 311 | Culture and Civilization (3) |
| GERM 341 | Readings in Contemporary German (3) |
| GERM 391 | Advanced German Grammar (3) |
| GERM 392 | Advanced German (3) |

Electives

Nine units in the target language, including 6 units of literature at the 400 level are required. These courses must be taken in addition to the Department of Secondary Education requirements. Students must contact the Department of Secondary Education about admission to the Secondary Teacher Education Program.

MINOR IN MODERN LANGUAGE

The minor program in French, German, Spanish and/or Italian provides majors in other disciplines with the educational language background necessary to enhance their career opportunities. The minor requirements include 12 units of 300-400 level courses in addition to the intermediate level course 1 and 11 to complete 18 units. Language minors may transfer up to 6 units toward a minor and must earn 6 upper-division units at Towson. The minor should be approved by the student's department adviser and cannot be taken concurrently with the proficiency in a modern foreign language. Minors in all languages need a C or higher in each completed course beyond the intermediate level.

PROFICIENCY IN A MODERN FOREIGN LANGUAGE

The department has designed a program of study that offers the non-language major or minor a recognition of Proficiency in Modern Languages with a focus in French, German or Spanish upon satisfactory completion of prescribed requirements.

The proficiency may be earned by a degree candidate at Towson University as well as any individual whose sole interest in attending the university is for the purpose of obtaining the proficiency of the language.

The program is designed for those individuals who are planning or practicing careers which require reasonable oral and written competence in a modern language. In the job market, national and international, a large number of opportunities await persons whose knowledge of one or more modern languages has been well established through intensive college/university study. The proficiency is quite advantageous for aspiring professionals in the fields of communications, public service, business and finance, agriculture, transportation, health services, education, energy, natural resonrces, journalism, law, foreign services, air traffic, management, import/export purchasing, sales, etc.

In order to complete the recognition of proficiency, students must complete all required courses with a grade equivalent of 2.00 or higher. Students who are prepared to begin at the advanced level will need to complete 12 units of study, whereas students who begin at the elementary level will have to earn 24 units in the particular language.

PROFICIENCY IN A MODERN LANGUAGE

MEETING B.A. REQUIREMENTS

SPAN xxx

Completion of the intermediate level of a foreign language or its equivalent is required of all Bachelor of Arts degree candidates. This requirement may be met by: a) completing two or more years of the language in high school plus intermediate levels I and II in college; b) completing the elementary- and intermediate-level courses of the language in college; c) successfully completing one term of any course beyond the intermediate level; or d) successfully completing a Unit for Prior Learning Exam in any language offered at the 301-302 level at Towson University administered each November by the Department of Modern Languages.

One elective course in SPAN (3)

CREDIT FOR PRIOR LEARNING EXAM

The examination will be given only in the languages offered by the Department of Modern Languages at the 301-302 level. The units for 201-202 may not be earned unless the student takes 301 as a course. An overall grade of A is required in order to receive 6 units; a grade of B entitles the student to 3 units. The student should contact the department for further information.

COMPETENCY UNITS IN MODERN FOREIGN LANGUAGES

Degree candidates successfully completing courses numbered 102, 201, 202 or 301 in any foreign language offered by the Department of Modern Languages at Towson University may earn a maximum of 6 units for the two preceding courses if the course in which they are enrolled is successfully completed with a grade equivalent of 2.00 or higher in the first attempt. Students may attempt to earn competency units by completing a higher level language course only once. Students who have earned units via the competency units or Credit for Prior Learning exam in a foreign language cannot enroll in any other lower-level courses in the same language for which they received the units. Students should consult the department for detailed information about the competency units in foreign languages.

PLACEMENT IN LANGUAGES

The department's policy regarding placement of entering students with high school language study follows:

- One year of high school language study, students may register for 101 or 102.
- Two years of high school language study, students may register for 102.
- Three years of high school language study, students may register for 102 or 201.
- Four years of high school language study, students may register for 201 or 202.
- Five years of high school language study, students may register for 202 or 301.

TRANSFER CREDIT POLICY

All foreign language majors must complete a minimum of 15 units toward the major at Towson University at the upper (300-

All foreign language minors must complete a minimum of 6 units toward the minor at Towson University at the upper level.

HONORS PROGRAM

The department participates in the university honors program. Students interested in completing a language major with honors should consult the department Honors Board representative no later than the first term of their junior year.

SPECIAL DEPARTMENTAL PROGRAMS

The department sponsors the Eta Gamma Chapter of the National Spanish Honor Society, Sigma Delta Pi, and encourages all Spanish students to participate in the activities of the society. The department also sponsors the Kappa Pi chapter of the National French Honor Society, Phi Delta Phi.

The department offers an internship program through the Career

Study abroad in France, Germany, Spain, Mexico or Italy is also available.

Note for foreign language students: Courses at the levels of 101. 102, 201 and 202 in any foreign language offered by the department are not open to students who have completed a higher level in the same language.

Department of Philosophy and **Religious Studies**

Professors: Wolfgang Fuchs, Christos Evangeliou, John Murungi (Chair), Jo-Ann Pilardi

Associate Professors: Rose Ann Christian, Stephen Scales Assistant Professors: Steven Coutinho, Paul Pojman

OFFICE

Linthicum Hall 219F, 410-704-2755

PROGRAMS OF THE DEPARTMENT

The Department of Philosophy and Religious Studies offers a major and minor in Philosophy, and a major and minor in Religious Studies.

Program in Philosophy

The examination of the nature of philosophy is an essential feature of the Philosophy Program. The program pays close attention to the history of philosophy, for it is in its history that the nature of philosophy is manifested. The program also attends to the diverse social and cultural settings out of which philosophy develops, to which it speaks, and with which it interacts. Philosophy cultivates and nourishes rigorous thinking; the development and the practice of analytic and dialectical skills are strongly emphasized. The program encourages students to take as great a diversity of courses as possible. It is flexible enough to ensure the incorporation of new interpretations and new schools of philosophy. It also enables the faculty to be innovative and to develop new courses.

The program prepares students for advanced work in philosophy, humanistic studies and various professions. The sound, clear and systematic thinking that philosophy emphasizes also makes philosophical education relevant to every other discipline. Hence, the program is designed to meet not only the needs of the majors and minors but also the needs of every other student in the university. Furthermore, it fosters reflection, a prerequisite for leading the good life.

Program in Religious Studies

Religious studies as an academic endeavor takes as its subject matter two distinct but related objects of investigation. On the one hand, it focuses on the varied religious traditions, both living and dead, that figure prominently in any adequate account of the development of human culture. On the other hand, it theorizes about the phenomenon of religion itself, abstracting from its concrete manifestations and subjecting it to explanation and evaluation. Both orientations reveal religion to be complex by nature. Any specific religious tradition is impressively multifaceted. Typically, it is the outgrowth of an intricate history and the embodiment of a distinctive program for communal existence. Its vision of the nature of the cosmos and its understanding of the meaning of human life may find expression through ritual, myth, doctrine, art or philosophy. When religion is treated in more general terms, investigation may explore its psychological, sociological, anthropological, artistic, ethical or metaphysical dimensions. These considerations make it apparent that religious studies is well conceived as a multidisciplinary enterprise whose subject matter is best understood through the employment of a variety of approaches.

MAJOR IN PHILOSOPHY (33 units)

In exceptional instances, students may, with the permission of the chair, make substitutions of courses within the department for required courses. Three units may, with the permission of the chair, be taken in an allied discipline.

MAJOR IN RELIGIOUS STUDIES (36 units)

Majors in Religious Studies must complete 36 units of course work, 15 from a set of core requirements designed to equip students with methodological tools critical to the study of religion and to acquaint them with a broad spectrum of religious traditions. The remaining 21 units are to be selected from elective courses organized along geographical and cultural lines into four areas of study and representing various academic disciplines. Elective courses are to be distributed over at least three of the four areas and are to be selected from at least two disciplines; 15 of the 21 units are to be at the 300-400 level. In selecting electives, students are strongly encouraged to meet with the program coordinator in order to be guided to courses that will address their distinctive interests and contribute to a balanced course of study.

| Core Courses | (15 units) |

PROGRAMS OF THE DEPARTMENT

The program of courses in political science aims to promote understanding of the nature of political relationships. The department offers a major and minor in Political Science. In addition, the Department of Political Science offers a double major with the Department of Economics, the Department of Mass Communication and Communication Studies, and with the Department of Geography and Environmental Planning. Students wishing to major in both Political Science and Economics, or Political Science and Geography and Environmental Planning, or Political Science and Mass Communication, or Political Science and Communication Studies can obtain a double major which certifies that the requirements of both departments have been completed. Students should refer to the section on double majors listed on the next page. The major prepares students for advanced study and provides the foundation for careers in public administration, law, public relations, business and research, and urban and regional planning.

MAJOR IN POLITICAL SCIENCE

Thirty-six units with a grade equivalent of 2.00 or higher are required for the major in Political Science. Students must complete the following requirements:

- At least 9 units at the lower-division, of which no more than 3 units may be at the 200 level
- POSC 301 Political Research 1
- At least 21 units at the upper-division, including courses in three
 of the four topical areas: Comparative Politics, International
 Politics, American Government and Public Administration, and
 Law and Political Theory

Note: Courses taught under Independent Study (POSC 490) or under Special Topics (POSC 470-479) will be assigned to one of the four areas by the department or students' advisers. This is to assure that courses taken under these two categories are not used in more than one area in order to meet the three area requirements.

Three units from among the approved seminar courses. (Note: Seminar unit will not be given for Independent Study POSC 490.) All courses must be completed with a grade equivalent of 2.00 or higher except POSC 465. "Pass" will count only for POSC 465.

Required Courses (36 units)

POSC 301 Political Research I (3)

At least three of the following, of which no more than one may be at the 200 level:

POSC 101 Introduction to Political Science (3)

POSC 102 Honors Introduction to Political Science (3)

POSC 103 American National Government (3)

POSC 105 Governments of the World (3)

POSC 107 Introduction to International Relations (3)

POSC 108 Honors International Relations (3)

POSC 207 State Government (3) POSC 209 Introduction to Law (3)

POSC 212 Honors in Political Science (3)

Approved Seminar Courses

All majors must take an approved seminar from the following list. POSC 301 Political Research 1 must be completed before registering for a seminar

| POSC 455 | Seminar: International Law and Organization I (3) |
|----------|--|
| POSC 456 | Seminar: International Law and Organization II (3) |
| POSC 457 | Seminar: Use of Force in International Law (3) |
| POSC 481 | Seminar: Public Policy Analysis (3) |

POSC 482 Seminar in Political Science (3) POSC 483 Seminar: Politics and the News Media (3)

POSC 485 Seminar: Democratic Theory Seminar (3)

POSC 486 Seminar: Justice and the Law (3) POSC 488 Seminar: Topics in Public Policy (3)

POSC 491 Seminar in Contemporary United States Foreign Policy (3)

Electives

Twenty-one units of electives, not counting the required seminar, must be taken at the upper division in three of the four topical areas of political science. No more than 9 units of special topics courses (470-479) may be united toward the major.

Topical Areas

The department offers courses in four topical areas: Comparative Politics, International Politics, American Government and Public Administration, and Law and Political Theory. The numbers indicate courses that are offered in each area.

Comparative Politics: 337, 339, 340, 351, 470, 471, 490, 498, 499 International Politics: 303, 307, 355, 385, 432, 437, 441, 465, 472, 473, 474, 490, 491, 498, 499

American Government and Public Administration: 305, 375, 381, 383, 384, 401, 417, 421, 450, 467, 475, 476, 477, 490, 493, 498, 499

Law and Political Theory: 418, 419, 422, 424, 427, 428, 478, 479, 490, 498, 499

MINOR IN POLITICAL SCIENCE

Twenty-one units with a grade equivalent of 2.00 or higher are required for the minor in Political Science to be completed as follows: at least 6 units at the lower division of which no more than 3 units may be at the 200 level; at least 15 units at the upper division.

Required Courses (21 units)

At least two of the following, of which no more than one may be at the 200 level:

POSC 101 Introduction to Political Science (3)
POSC 102 Honors Introduction to Political Science (3)
POSC 103 American National Government (3)
POSC 105 Governments of the World (3)

POSC 107 Introduction to International Relations (3)

POSC 108 Honors Introduction to International Relations (3)
POSC 207 State Government (3)
POSC 209 Introduction to Law (3)

POSC 212 Honors in Political Science (3)

Electives (15 units)

Select 15 upper-division elective units in political science.

DOUBLE MAJOR IN POLITICAL SCIENCE AND ECONOMICS

Completion of individual majors in Political Science and Economics requires the successful completion of 69 units (36 in political science and 33 in economics). However, by electing the double major in Political Science and Economics, students will be able to complete both majors with a total of 57 units. Students interested in either of the double majors should consult with an adviser in either department to review requirements.

In political science, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in economics toward fulfillment of the required seven upper-level courses (21 units) in political science:

| ECON 323 | Comparative Economic Systems (3) |
|--------------|--|
| ECON 325 | Economic Development (3) |
| ECON 331 | Government and Economic Life (3) |
| ECON 337 | Public Finance (3) |
| ECON 339 | Health Economics (3) |
| ECON 351 | Urban Economics (3) |
| ECON 375 | Environmental Economics (3) |
| ECON 421 | International Economics (3) |
| ECON 423 | International Monetary Theory and Policy (3) |
| ECON 470-479 | Topics in Economics* (3) |

^{*}Topic to be approved by the Department of Political Science

In economics, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in political science toward fulfillment of the required four courses (12 units) of upper-division economics electives:

| POSC 305 | Urban Government and Politics (3) |
|--------------|--|
| POSC 375 | Public Administration (3) |
| POSC 421 | Politics and Environmental Policy (3) |
| POSC 459 | Simulation and Games in Political Science (3) |
| POSC 470-479 | Special Topics* (3) |
| POSC 481 | Public Policy Analysis (seminar or lecture course) (3) |

^{*}Topic to be approved by the Department of Economics

DOUBLE MAJOR IN POLITICAL SCIENCE AND GEOGRAPHY AND ENVIRONMENTAL PLANNING

Completion of individual majors in Political Science and Geography requires the successful completion of 75 units (36 in political science, 39 in geography). However, by electing the double major in Political Science and Geography, students will be able to complete both majors with a total of 65 units. Students interested in this double major should consult with an adviser in either department to review requirements.

In political science, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in geography and environmental planning toward fulfillment of the required seven upper-level courses

(21 units) in political science:
GEOG 317 Energy Resources (3)
GEOG 355 Historic Geography of Urbanization (3)

GEOG 359 Economic Geography (3)

GEOG 381 Political Geography (3)
Population Geography (3)

GEOG 385 Population Geography (3) GEOG 391 Urban Systems (3)

GEOG 393 Transportation and Infrastructure Planning (3)

GEOG 405 Comprehensive Planning (3) GEOG 427 Global Economy (3) GEOG 431 Geography of Africa (3)

GEOG 461 Geography of Latin America (3) GEOG 470-79 Seminar in Geography* (3)

In geography and environmental planning, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in political science toward fulfillment of the required five courses (15 units) of lower/upper-division geography and environmental planning electives:

| VCS. | |
|----------|---|
| POSC 303 | Theory of International Politics (3) |
| POSC 305 | Urban Government and Politics (3) |
| POSC 307 | Contemporary International Politics (3) |
| POSC 337 | Comparative Government of Foreign Powers: The |
| | Western World (3) |
| POSC 340 | Comparative Public Policy (3) |
| | |

| POSC 351 | The Government and Politics of Latin America (3) |
|-------------|--|
| POSC 355 | The Latin American Policy of the U.S. (3) |
| POSC 385 | Model Organization of American States (3) |
| POSC 441 | Contemporary U.SEuropean Relations (3) |
| POSC 470-79 | Special Topics in Political Science* (3) |
| POSC 488 | Seminar: Topics in Public Policy (3) |

^{*} Topics to be approved by the Department of Geography and Environmental Planning

DOUBLE MAJOR PROGRAMS WITH MASS COMMUNICATION AND COMMUNICATION STUDIES

Completion of individual majors in Political Science and Communication Studies or Political Science and Mass Communication requires the successful completion of 72 units (36 in each major). However, by electing the double major in Political Science and Communication Studies or Political Science and Mass Communication, students will be able to complete both majors with a total of 60 units. Students interested in either of the double majors should consult with an adviser in either department to review requirements.

DOUBLE MAJOR IN POLITICAL SCIENCE AND COMMUNICATION STUDIES

In political science, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in communication studies toward fulfillment of the required seven upper-level courses (21 units) in political science:

| COMM 304 | Persuasion (3) |
|----------|--|
| COMM 331 | Argument and Advocacy (3) |
| COMM 379 | Intercultural Communication (3) |
| COMM 420 | Communication in the Legal Process (3) |
| COMM 470 | Special Topics* (3) |

^{*}Topic to be approved by the Department of Political Science

In communication studies, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in political science toward fulfillment of the required three courses (9 units) of communication studies electives:

POSC 301 Political Research I (3) POSC 340 Comparative Public Policy (3) POSC 375 Public Administration (3) POSC 381 Presidency (3) POSC 383 Congress (3) POSC 417 Political Parties (3) POSC 459 Simulation and Games (3) POSC 470-479 Special Topics* (3)

DOUBLE MAJOR IN POLITICAL SCIENCE AND MASS COMMUNICATION

In political science, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in mass communication toward fulfillment of the required seven upper-level courses (21 units) in political science:

MCOM 350
MCOM 352
MCOM 385
MCOM 431
MCOM 433
MCOM 433
MCOM 479
MCOM 479
Media Law (3)
Media Criticism (3)
Mass Media and Society (3)
Public Opinion and the Press (3)
Media Ethics (3)
Special Topics* (3)

^{*} Topic to be approved by the Department of Political Science

^{*}Topic to be approved by the Department of Mass Communication and Communication Studies

^{*}Topic to be approved by the Department of Political Science

In mass communication, students must complete all requirements for the major. However, they must substitute two of the following upper-level courses (6 units) in political science toward fulfillment of the required seven courses (21 units) of electives in mass communication:

| POSC 301 | Political Research I (3) |
|--------------|-----------------------------|
| POSC 340 | Comparative Public Policy (|
| POSC 375 | Public Administration (3) |
| POSC 381 | Presidency (3) |
| POSC 383 | Congress (3) |
| POSC 417 | Political Parties (3) |
| POSC 459 | Simulation and Games (3) |
| POSC 470-479 | Special Topics* (3) |

^{*}Topic to be approved by the Department of Mass Communication and Communication Studies

TRANSFER CREDIT POLICY

Students who transfer to Towson University in senior standing are expected to complete a minimum of 15 units of upper-division political science courses. Those who transfer below senior standing normally will be expected to complete 21 units of upper-division political science courses at Towson University.

CAREERS IN POLITICAL SCIENCE

Political Science majors generally prepare themselves, at the undergraduate level, for careers in law, government (federal, state and local), service in public and private interest groups, business, and journalism and the media, as well as research and teaching at various levels of the education system.

STUDENT OPPORTUNITIES

Activitie

In addition to its academic curriculum, the department offers opportunities providing a broad range of related experiences. Classes travel to Annapolis and Washington, D.C. to observe first-hand the political workings of government. The annual Earle T. Hawkins Symposium on International Affairs brings to campus noted scholars to lecture on topics of contemporary relevance. Political Science majors are given the opportunity to edit the *Towson Journal of International Affairs*, one of the few undergraduate academic journals in the United States.

Internships

An integral part of the Political Science curriculum is the opportunity for students to participate in an internship in their junior or senior year. Students are placed in all branches of government and at all levels of government. Placements with the Maryland General Assembly or a member of Congress are most common.

Department of Psychology

Professors: Barry Bass, James Brennan, Michael Figler, Maria Fracasso, Lawrence Froman, John Govern, Craig Johnson (Chair), Cynthia Kalodner, Frederick Parente, Herbert Petri, Jan Sinnott

Associate Professors: Jean Ayers, Susan Bartels, Bethany Brand, Alan Clardy, Margaret Faulkner, M. Paz Galupo, Thomas Kruggel, Jonathan Mattanah, Bruce Mortenson, Joan Rabin, Kim Shifren, John Webster, Evangeline Wheeler, Stanley Zweback

Assistant Professors: Larence Becker, Leonie Brooks, Justin Buckingham, Geoffrey Munro, Julie Quimby, Bina Raval Part-time Faculty: Patricia Alvey, Joella Anzelc, Majorie Ashcraft, Robert Bauserman, Philip Burge, Janelle Coughlin, Richard Craig, Jennifer Cuneo, Holly Davani, Joan Evensen, Lora Fisher, Julie Fulcher, James Furukawa, Maureen Gaffney, Kathleen Grau, John Harris, James Henschen, Shreya Hessler, John Hickey, Kim Houser, John Huete, Mark Jacobson, Bruce Jaschik-Herman, Mollie Jaschik-Herman, Edward Wai-Ming Lai, Christopher Magalis, Lloyd McCraney, Jeffrey Messing, Mary Ann Michaloski, Stuart Miller, Thomas Monahan, Arthur Mueller, Alan Nemerofsky, Mark Nolder, Juan Paz, Penelope Power, Valerie Pulbrook, Lawrence Raifman, Gregory Reising, Robert Rivera, Gary Rockwood, Barbara Shue, Barbara Slater, Jason Spiegelman, James Spivack, Justin Stapleton, Sharon Weiss, Geri Willen, Greg Williams, Barbara Wilson

PROGRAMS OF THE DEPARTMENT

The Department of Psychology offers the following programs: the major in Psychology, the minor in Psychology, and an honors program that includes three options, allowing honors students to specialize in clinical, developmental or research psychology.

The major in Psychology prepares students for graduate work in psychology, for training in special education and general education, for careers requiring a liberal arts background, and for work in clinical services.

MAJOR IN PSYCHOLOGY

Majors are required to complete 41 units in psychology and 13 units in prerequisite courses with a grade equivalent of 2.00 or higher. No "Pass" grades are accepted for the required 41 units in psychology (32 units of required psychology courses and 9 units of psychology electives). Of the 32 required units, 14 are to be completed in the core courses by taking PSYC 101 or PSYC 102, PSYC 203 or PSYC 204, PSYC 212, and PSYC 314. The remaining 18 required units are to be completed by taking one course in each of the six topical areas: Human Development, Clinical, Social, Biopsychology, Learning-Cognition, and Diversity. Majors must satisfy the relevant prerequisites for individual psychology courses taken.

Required Lower-Level Prerequisites (13 units)

Logic (3)

| NOL 110 | Contemporary General Biology (4) |

PSYC 204 Honors Human Development (3)

PSYC 212 Behavioral Statistics (4) (prerequisite: MATH 111 or

higher except MATH 204 or MATH 205) PSYC 314 Research Methods in Psychology (4) (formerly

Experimental Psychology) (prerequisites: ENGL 102 or

ENGL 190; PSYC 101 or PSYC 102, PSYC 212; PHIL

101 or PHIL 111)

Topical Areas (18 units)

f. Human Development (PSYC 203 is a required prerequisite)

One of the following is required:

PSYC 403 Infant and Child Development (3)

PSYC 404 Adolescent Psychology (3)

PSYC 405 Psychology of Aging (3)

PSYC 467 Midlife Development (3)

II. Clinical

One of the following is required:

PSYC 350 Personality (3)

PSYC 361 Abnormal Psychology* (3)

PSYC 411 Tests and Measurements (3)

III. Social

One of the following is required:

PSYC 325 Social Psychology* (3)

PSYC 327 Industrial Psychology (3)

PSYC 431 Group Dynamics (3)

IV. Biopsychology

One of the following is required:

PSYC 309 Psychopharmacology (3)

PSYC 317 Sensation and Perception (3)

PSYC 460 Ethology and Comparative Psychology (3)

PSYC 465 Physiological Psychology* (3)

V. Learning-Cognition

One of the following is required:

PSYC 305 Psychology of Learning (3)

PSYC 315 Motivation (3)

PSYC 461 Cognitive Psychology* (3)

VI. Diversity

One of the following is required:

PSYC 432 Cross-Cultural Counseling (3)

PSYC 447 Sex Differences: Psychological Perspectives (3)

PSYC 451 Introduction to the Exceptional Child (3)

*Recommended topical area course

Electives (9 units)

The elective units may be selected from any 200-, 300-, or 400-level psychology courses with a MINIMUM of 4 units (of the required 9 units) completed at the 300- or 400-level. Electives include (a) any other course(s) within a given topical area beyond the one required to fulfill the topical area requirements and (b) any other psychology courses listed in the catalog with the exception of PSYC 211 Child Psychology.

HONORS IN PSYCHOLOGY

The Department of Psychology honors program seeks to provide students with a specialized learning experience encompassing both scholarship and application. Honors students in the department take specialized courses and complete either a series of internships or an independent research project. The program includes three options, allowing honors students to specialize in clinical, developmental, or research psychology. In the senior year of the program, honors students from all three options together build a learning community and share the culmination of their honors experience in a symposium format. Students who successfully complete the program will receive a diploma with the designation Bachelor of Science or Bachelor of Arts with Honors in Psychology. Departmental Honors will also appear on the students' transcripts.

The program is developed for the junior and senior years of the major. Prerequisite course work is required for each option. Students transferring into their junior year at Towson University may complete remaining prerequisite courses in the summer prior to matriculation. In addition to the honors program requirements. students must complete the university's GenEd requirements and any additional requirements of the Psychology major. Application to the Honors Program must be made by March 1 of the student's sophomore year. To be admitted to the program students must present an overall GPA of 3.25 and a GPA of 3.50 in the major, or have consent of the departmental honors program coordinator.

HONORS CLINICAL OPTION (formerly the Clinical

Concentration Program)

The Honors Clinical Option offers training in clinical skills and leads to a bachelor's degree in Psychology (with Departmental Honors designation) and a certificate in Mental Health from the Education Center at Sheppard and Enoch Pratt Hospital. The option provides a four-term sequence of courses organized around practicum experience with intensive supervision so that there is unbroken continuity between theory and the development of clinical skills. Two prerequisite courses must be completed before entering the Honors Clinical Option: PSYC 205 Introduction to the Helping Relationship and PSYC 361 Abnormal Psychology.

TERM 1

Systems and Techniques of Psychotherapy (3) PSYC 430

PSYC 439 The Initial Interview (3)

TERM 2

Readings in Psychology (1) PSYC 381 PSYC 431 Group Dynamics (3)

PSYC 454 Internship in Psychotherapy (4)

TERM 3

PSYC 454 Internship in Psychotherapy (4) PSYC 497 Honors Seminar in Psychology (3)

TERM 4

PSYC 454 Internship in Psychotherapy (4)

PSYC 499 Senior Thesis (4)

HONORS DEVELOPMENTAL OPTION

The Honors Developmental Option provides a four-term sequence of courses for students whose future interests include graduate school or employment in a developmentally related area of psychology. Students in this option may choose to pursue either field placement experience or independent research in developmental psychology. One prerequisite course, PSYC 203 Human Development through the Life Span, must be completed before entering the Honors Developmental Option.

TERM 1

PSYC 381 Readings in Psychology (1-2) PSYC 403 Infant and Child Development (3)

PSYC 405 Psychology of Aging (3)

TERM 2

PSYC 381 Readings in Psychology (1-2) Adolescent Psychology (3) PSYC 404

PSYC 467 Midlife Development (3)

HONORS RESEARCH OPTION

TERM 1

The Honors Research Option prepares students for graduate study in any area of psychology or for employment in a research setting. The option provides a four-term sequence of courses organized around advanced methodology courses and independent research projects. Two prerequisite courses must be completed before entering the program: PSYC 212 Behavioral Statistics and PSYC 314 Research Methods in Psychology.

| PSYC 486 PSYC 461 | Advanced Experimental Design (3) Cognitive Psychology (3) |

MINOR IN PSYCHOLOGY

Minors are required to complete 26 units in psychology with a grade equivalent of 2.00 or higher in each course. Of these 26 units, 14 units are to be completed in the core courses (PSYC 101 or PSYC 102, PSYC 203 or PSYC 204, PSYC 212, PSYC 314). The remaining 12 units must be used to satisfy four of the six topic areas listed in the major. Minors must satisfy the relevant prerequisites for individual psychology courses taken.

TRANSFER CREDIT POLICY

All Psychology majors must complete a minimum of 23 units at Towson University, and all Psychology minors must complete a minimum of 16 units at Towson University, toward the major or minor.

MASTER OF ARTS IN PSYCHOLOGY

The Master of Arts in Psychology is designed for students who are primarily interested in an advanced degree in Clinical, Counseling, Experimental, or School Psychology. For detailed information, see the *Graduate Catalog*.

DEPARTMENT ANIMAL POLICY

In accordance with federal laws and regulation, Towson University, through its Institutional Animal Care and Use Committee, reviews the use of animals in teaching to assure compliance with the standards established by the USDA and NIH for the humane treatment of animals. The university makes every effort to minimize the use of animals and seeks alternatives wherever possible. Although Towson University recognizes that some students may believe the use of animals as teaching tools is inhumane, certain curricula require the use of animals as a necessary part of instruction. Accordingly, where the use of animals in class demonstrations or experiments is a requirement for successful completion of any course, as determined by the department, students will be obliged to comply with those requirements as set forth by the instructor in the course syllabus. The university will not provide optional procedures for students who do not comply with course requirements.

If a course requires the use of animals in class demonstrations or experiments, however, the syllabus must specifically state that animals will be used in class demonstration or experiments and that such use is a requirement for successful completion of the course. Notice of this requirement will be made a part of the course description and shall be placed in the catalog.

Social Sciences Program

Director: Colleen Ebacher

Advisory Committee: Samuel Collins (Sociology, Anthropology and Criminal Justice), Chang Kong (Economics), James Lawlor (Secondary Education), Toni Marzotto (Political Science), Ralph Scott (Geography and Environmental Planning)

OFFICE

Linthicum Hall 108, 410-704-2128

THE PROGRAM

The Social Sciences Program is an interdisciplinary major comprising courses from the departments of Economics, Geography and Environmental Planning, History, Political Science, and Sociology, Anthropology and Criminal Justice.

The program is designed for those students who do not wish to major in a single discipline but are interested in a broad education that transcends traditional department boundaries. It is useful for those students who plan to enter graduate school for an advanced degree in one of the disciplines of the program; for those students who plan to enter professional schools for a degree in law, social service, or a phase of law enforcement; or for those students who seek a broad background in preparation for employment in business, industry or a government agency. It is particularly designed for students planning to teach social studies at the secondary school level.

A director administers the program, and faculty from the departments of Economics, Geography and Environmental Planning, History, Political Science, and Sociology, Anthropology and Criminal Justice advise students majoring in the program. Policies and requirements for the majors in Social Sciences are established by an advisory committee composed of representatives from the various disciplines included in the program.

The major offers students the choice of two Social Sciences programs: a Social Sciences major in Liberal Arts or a Social Sciences major with a track in Secondary Education. The Bachelor of Arts degree may be earned in either Social Sciences major by adding a foreign language to the course requirements. The language requirement can be met by completing the intermediate courses of a modern foreign language or its equivalent.

SOCIAL SCIENCES MAJOR IN LIBERAL ARTS

Social Sciences majors must complete 60 units with a grade equivalent of 2.00 or higher from among the following courses. The General Education (GenEd) requirements must also be fulfilled. Students also complete a Social Sciences portfolio.

| Required Cour | rses (30 units) |

Introduction to Sociology (3)

Upper-Division Requirements (24 units)

Students must complete two courses in each of four disciplines of the six disciplines in the program at the upper-division level (300or 400-level). At least 12 units of upper-division courses must be taken at Towson University.

Electives (6 units)

Students must complete two upper- or lower-division courses in any of the six disciplines in the program.

SOCIAL SCIENCES MAJOR WITH A TRACK IN SECONDARY EDUCATION

Social Sciences majors with a track in Secondary Education receive certification to teach social science at the secondary level in Maryland upon graduation. Students must see the Department of Secondary Education about admission into that program. In addition to the GenEd requirements and the requirements specified by the Department of Secondary Education, students must complete 54 units with a grade equivalent of 2.00 or higher from among the following courses. They are also required to complete a Social Sciences portfolio.

Required Courses (45 units)

| ANTH 20~ | Cultural Anthropology (3) |
|-------------------|---|
| ECON 201 | Microeconomic Principles (3) |
| ECON 202 | Macroeconomic Principles 31 |
| SOSC 401 | Topics in Social Science (3) |

| | |

Electives (9 units)

POSC 207

Students must complete three upper-division courses (300- or 400level) from any of the disciplines in the program. The upper-division courses must be taken at Towson University.

State Government (3)

TRANSFER CREDIT POLICY

Transfer students in the Social Sciences Program are required to earn a minimum of one-half the total number of units required for the major at Towson University.

Department of Sociology, **Anthropology and Criminal Justice**

Professors: Howard Nixon, Frances Rothstein

Associate Professors: Victor Fisher, Douglas Pryor (Chair) Assistant Professors: Carol Caronna, Elizabeth Clifford, Marion

Cockey, Samuel Collins, Matthew Durington, Christine Eith, Marion Hughes, Michelle Manasse, Paul Munroe, Seth Ovadia, Miriam Sealock

Part-time Faculty: Scott Buresh, Philip Canter, Gregory Cole, Elaine Feder-Alford, Katharine Fernstrom, Sara Gallagher, Charles Hall, Stephen Hartmark, Charles Herring, Ericka Hill, Joseph W. Hopkins, Walter Jackson, Ingrid Johnson, Roland Knapp, Dana Kollmann, Robert McQuay, Richard Mitchell, Susan Newhouse, Boris Nikolov, Susan Pearce, Robert Wall, Antonio Williams

Senior Lecturer: Whitney Garcia

Lecturers: Meryl Cozart, Jennifer Langdon

Linthicum Hall 318E, 410-704-2852

MAJOR IN SOCIOLOGY-ANTHROPOLOGY

The Department of Sociology, Anthropology and Criminal Justice offers an undergraduate major degree in Sociology-Anthropology (SOAN), with a choice of three different concentrations for study: Sociology, Anthropology or Criminal Justice. Sociology consists of the scientific explanation and analysis of social processes and interaction, social structures and institutions, and social issues and problems. Anthropology examines the social and cultural patterns and the biological and cultural development of humans through time, Criminal Justice involves the theoretical and empirical study of crime and criminality, other forms of social deviance, and the official response to crime by law enforcement, the criminal courts and the corrections system. Students in each of the three concentrations offered under the SOAN major are exposed to social science methods and perspectives needed to understand culture and society. Students are prepared to live and work in an increasingly complex and changing world. In addition, study in the department encourages and empowers students to be informed, engaged and responsible citizens. Within each discipline, students learn valuable content knowledge and also develop important problem solving, critical thinking, and analytical skills. The major prepares students for entry into a variety of occupations and for further study in many types of professional and graduate education programs.

For all concentrations of study in the department, the Bachelor of Arts degree may be earned by adding a foreign language to the major requirements. The language requirements can be met by completing the intermediate courses of a modern language or the equivalent. The Bachelor of Science degree is earned by completing department major and university degree requirements without meeting the foreign language requirements.

Towson University does not offer an undergraduate program approved by the state of Maryland for certification in social work. However, many students graduate from Towson University and pursue the Master of Social Work degree at another university. Students who are interested in social work or who wish to gain practical, career-oriented experience in another field can select an internship option in sociology, anthropology or criminal justice. The internship applies academic learning to work settings related to the student's major and concentration area.

ANTHROPOLOGY AND SOCIOLOGY CONCENTRATIONS

Students in the Sociology Concentration and the Anthropology Concentration must complete four courses (12-13 units) in what is called the Common Core. These courses provide a general overview of culture and society, introduce the issue of diversity, and familiarize students with basic concepts in each discipline. In addition, a statistics course is required, which establishes a foundation for interpreting and analyzing data. Then students must complete other required and elective courses (at least 27 additional units) that specifically fulfill either the Sociology Concentration or the Anthropology Concentration.

In the Sociology Concentration, all students must take SOCI 381 Sociological Theory and SOCI 391 Research Methods. In the Anthropology Concentration, all students must take ANTH 401 Anthropological Theory. Students in the cultural anthropology focus areas (combined or general areas) also complete ANTH 380 Ethnographic Field Methods (or another methods course), while in the Archaeology Focus Area students take either ANTH 381 Archaeological Methods or ANTH 393, our Archaeological Field School course. The theories and methods central to each discipline are covered in-depth in these classes. To finish the remaining units in the major, students choose from a wide array of substantive and topical courses in one or the other discipline depending on their

Overall, a minimum of 39 total units are needed to complete the major in Sociology-Anthropology with a concentration in either Anthropology or Sociology (more units may accrue for students who select or need to take courses worth 4 rather than 3 units). A grade of C or better must be earned in all major courses (a grade of C- is insufficient). A minimum of 21 of the required total units must be taken or earned at Towson University (up to 18 units can be completed elsewhere and applied toward the Common Core or concentration in either discipline with the approval of a department adviser).

Students are reminded that an advanced writing course is required to fulfill the General Education (GenEd) requirements. ANTH 401 Anthropological Theory and SOCI 300 Sociological Analysis are advanced writing courses offered by the department that meet this requirement for students in either the Anthropology or the Sociology Concentration, respectively. Individual courses in the Sociology-Anthropology major cannot satisfy more than one requirement or count in more than one section of the curriculum, unless otherwise indicated.

Common Core (12-13 units)

One of the following courses (bonors students may take ANTH 210 instead of ANTH 207 but not both) (3):

ANTH 207 Cultural Anthropology (3)

ANTH 208 Human Evolution and Prehistory (3) ANTH 210 Honors Cultural Anthropology (3)

One of the following courses (honors students may take SOCI 102 instead of SOCI 101 but not both) (3):

SOCI 101 Introduction to Sociology (3)

SOCI 102 Honors Introduction to Sociology (3)

One of the following courses (honors students may take ANTH 211 instead of ANTH 209 but not both) (3):

ANTH 209 Anthropology of American Culture (3) ANTH 211 Honors Anthropology of American Culture (3) SOCI 241 Blacks in America: Myths and Reality (3) SOCI 243 Sociology of Race, Class and Gender (3) Social Problems (3) SOCI 249

One of the following courses (3-4):

MATH 231 Basic Statistics 1 (3) or equivalent PSYC 212 Behavioral Statistics (4) or equivalent

ANTHROPOLOGY CONCENTRATION

(27 additional units)

Select one of the following four Focus Areas (A, B, C or D) to complete the Anthropology Concentration. This concentration requires a minimum of 27 units plus the Common Core above. (Students should note that ANTH 401, ANTH 380, ANTH 381, and ANTH 393 are only offered once a year or once every three terms. Therefore, it is important for students to plan accordingly in their course selection and to meet with an adviser in anthropology for assistance).

A. Combined Anthropology-Sociology Focus Area

Requires more courses in anthropology than sociology, but a mix of both.

One of the following courses not taken in the Common Core (honors students may take ANTH 210 instead of ANTH 207 but not both) (3):

ANTH 207 Cultural Anthropology (3)

ANTH 208 Human Evolution and Prehistory (3) ANTH 210 Honors Cultural Anthropology (3)

Both of the following courses (6):

ANTH 380 Ethnographic Field Methods (3) **ANTH 401** Anthropological Theory (3)

One of the following courses (3):

SOCI 300 Sociological Analysis (3) **SOCI 391** Research Methods (3)

Plus five upper-level courses not taken in the Common Core: three in anthropology and two in sociology (15).

B. General Anthropology Focus Area

One of the following courses not taken in the Common Core (honors students may take ANTH 210 instead of ANTH 207 but not both) (3):

ANTH 207 Cultural Anthropology (3)

ANTH 208 Human Evolution and Prehistory (3) ANTH 210 Honors Cultural Anthropology (3)

Both of the following courses (6):

ANTH 380 Ethnographic Field Methods (3) ANTH 401 Anthropological Theory (3)

Plus six courses with the following stipulations (18):

(a) at least one must be an upper-level course in archaeology; (b) at least one must be from among area courses in anthropology, or ENGL 350, ENGL 452, SOCI 243, SOCI 300, SOCI 329, SOCI 381 or SOCI 391; (c) at least five of the total must be upper-level anthropology courses.

C. Archaeology Focus Area

One of the following courses (3):

ANTH 381 Archaeological Methods and Theory (3)

ANTH 393 Archaeological Field School (3)

The following course (3):

ANTH 401 Anthropological Theory (3)

Three of the following courses (can only select those courses not counted elsewhere) (9):

ANTH 311 Archaeology of Maryland (3)

ANTH 370-79 Topics in Anthropology (3) (must be an archaeology course approved by adviser)

ANTH 381 Archaeological Methods and Theory (3)

ANTH 383 North American Archaeology (3) ANTH 387 Native American Archaeoastronomy (3)

ANTH 391 Archaeological Lab Methods (3)

ANTH 393 Archaeological Field School (3)

ANTH 470-79 Special Topics in Anthropology (3) (must be an archaeology course approved by adviser)

Plus two additional upper-level courses in anthropology (6).

```
One of the following courses (4):
```

| GEOL 121 | Physical Geology (4) |
|----------|--|
| BIOL 201 | Biology I: Cellular Biology and Genetics (4) |

CRIMINAL JUSTICE CONCENTRATION

The Criminal Justice Concentration consists of a rigorous and separate course of study under the Sociology-Anthropology major. Courses in this curriculum are intended to enhance understanding of the relationship between liberty and order in a democracy, the processes and causes of crime and deviance that are part of society, and the ways society and the state exercise social control to maintain legal, moral and social order. The concentration is centered in the discipline of sociology, but includes exposure to other approaches informed by the liberal arts and behavioral sciences. Students who study in criminal justice receive a broad-based theoretical, analytical and applied foundation for careers across many

The criminal justice curriculum allows students to select courses in criminology, social control and topical crime and justice issues. The department offers numerous courses in the areas of violence, crime and inequality, forensic criminology, and youth crime, as well

as traditional courses on policing, community corrections and prisons, among others. In addition, there is a required course in criminological theory, other foundational courses in sociology and anthropology, and two courses with outside departments including computer science, psychology, political science, history, geography, and health science. As part of the concentration, students are required to choose between a second theory course or a research methods course, depending on their interests.

Completion of the Criminal Justice Concentration consists of a total of 42-44 units. All courses in the concentration must be completed with a grade of C or better (a grade of C- is not sufficient). A minimum of 24 of the required total units must be taken at Towson University (up to 18 units can be completed elsewhere and applied toward this concentration with the approval of a department adviser). Students interested in crime analysis or graduate study in criminal justice or sociology with a focus on crime should take additional courses that emphasize the development of computer and information processing skills, and/or statistical and research methods knowledge. Such students are also advised to consider completing one of the sociology advanced writing courses, either SOCI 300 Sociological Analysis or WRIT 354 Writing for Criminal Justice to meet the GenEd requirement in Category I.D. All students in Criminal Justice are encouraged to consider an internship and should talk to the department internship coordinators about this option.

Required Courses (15-17 units)

| All of the foll | owing must be completed: |
|-----------------|--|
| SOCI 101 | Introduction to Sociology (3) |
| | or |
| SOCI 102 | Honors Introduction to Sociology (3) |
| SOCI 254 | Introduction to Criminal Justice (3) |
| | or |
| WRIT 354 | Writing for Criminal Justice (GenEd I.D) (3) |
| SOCI 353 | Theories of Crime (3)* |
| PSYC 212 | Behavioral Statistics (4) |
| | or |
| MATH 231 | Basic Statistics (3) |

One theory or methods course must be completed from among the fol-

| ioning. | |
|----------|---|
| SOCI 300 | Sociological Analysis (GenEd I.D) (3) |
| SOCI 329 | Demography (3) |
| SOCI 381 | Sociological Theory (3) |
| SOCI 391 | Research Methods (3) |
| ANTH 380 | Ethnographic Field Methods (3) |
| PSYC 314 | Research Methods in Psychology (GenEd I.D - (4) |

(*Students must complete SOCI 353 Theories of Crime at Towson University even if they have completed Criminology elsewhere.)

Core Areas (15 units)**

Select and complete any two courses from the Social Control Core Area; any two courses from the Criminology Core Area; and one additional course from either the Topical Issues Area or any other core area as listed below (five courses total):

A. Social Control (at least two courses)

| SOCI 352 | Community Corrections (3) |
|----------|--------------------------------|
| SOCI 356 | Prisons in America (3) |
| SOCI 383 | Sociology of Law (3) |
| SOCI 385 | Police Administration (3) |
| SOCI 373 | Criminal Justice and Film (3) |
| SOCI 371 | Issues in Criminal Justice (3) |
| ANTH 371 | Introduction to Forensics (3) |

B. Criminology (at least two courses)

| SOCI 336 | Sociology of Mental Illness (3) |

** With the approval of a major adviser, the Criminal Justice Concentration director, or the department chair, other SOCI or ANTH 37x Topics courses or 47x Special Topics courses may be completed for credit under core areas A, B or C, or under the sociology/anthropology electives section. For credit under core areas, the department will designate whether such courses will count in the Social Control, Criminology, or Topical Issues categories at the time those courses are first offered.)

SOCIOLOGY-ANTHROPOLOGY AND PSYCHOLOGY DOUBLE MAJOR

Normally, completion of two separate dual majors in Psychology and Sociology-Anthropology with a concentration in Sociology requires 80-81 units (41 in psychology and 39-40 in sociology). However, students who are interested in both majors can now select the double major option in Sociology-Anthropology and Psychology, which consists of courses offered by both departments.

The double major option requires a total of 68 units. Core required courses in the double major (29 units) include: ANTH 207, PSYC 101 or PSYC 102, PSYC 203 or PSYC 204, PSYC 212, PSYC 314, SOCI 101, SOCI 381 and SOCI 391. Students must also complete an additional course in diversity offered in either the Department of Sociology, Anthropology and Criminal Justice (SOCI 241, SOCI 243, SOCI 343, SOCI 345, SOCI 348) or the Department of Psychology (PSYC 432, PSYC 447, PSYC 451). The double major requires seven additional courses in psychology (21 units) and six additional courses in sociology-anthropology (18 units) from a pre-set list of electives in a number of topical or content areas defined by each department.

In psychology, the double major requires electives (21 units) selected in the following manner: one 3-unit course must be chosen in each of the six topical areas for the Psychology major-Human Development; Clinical; Social; Biopsychology; Learning-Cognition; and Diversity. The remaining 3 elective units may include other courses from the topical areas not selected as requirements or any other psychology course listed in this catalog

with the exception of PSYC 211 (Child Psychology).

In sociology-anthropology, the electives must include six courses from at least three of the seven sociology content areas listed under the major in Sociology-Anthropology, Sociology Concentration, General Sociology Focus Area, described previously. Students interested in declaring the combined double major should consult an adviser in both departments to review the specific core requirements and the approved topical or content elective courses prior to taking any classes.

SOCIOLOGY-ANTHROPOLOGY AND GEOGRAPHY DOUBLE MAJOR

Students interested in combining a Sociology or Anthropology concentration with Geography in a double major should consult the Department of Sociology, Anthropology and Criminal Justice or the Department of Geography and Environmental Planning for more information about the value of the double major and its requirements. It is possible to choose a double major with a concentration in Anthropology or Sociology. The double major requires fewer units than are required when each major is pursued separately. The Geography and Sociology-Anthropology double major with a concentration in Anthropology requires 57-58 units, and the Geography and Sociology-Anthropology double major with a concentration in Sociology requires 66-67 units. More specific requirements for this double major option are listed under Geography in this catalog.

MINOR IN SOCIOLOGY

The minor in Sociology consists of 24-25 units of sociology courses (including Statistics), at least 12 of which must be upper level, and at least 15 of which must be taken at Towson University.

Required Courses (12-13 units)

Introduction to Sociology (3) SOCI 101 SOCI 381 Sociological Theory (3) SOCI 391 Research Methods (3) MATH 231 Basic Statistics (3) or equivalent PSYC 212 Behavioral Statistics (4) or equivalent

Electives (12 units)

Any four additional courses in sociology at least two of which must be upper level.

MINOR IN ANTHROPOLOGY

The minor in Anthropology consists of 24 units of anthropology courses; at least 12 of which must be upper level, and at least 15 of which must be taken at Towson University.

Required Courses (9 units)

ANTH 207 Cultural Anthropology (3) ANTH 208 Human Evolution and Prehistory (3) **ANTH 401** Anthropological Theory (3)

Electives (15 units)

Any five additional elective courses in anthropology at least three of which must be upper level.

INTERNSHIPS

Student internships can be pursued in each concentration offered by the department (SOCI 491, 492, or ANTH 491, 492). Internships provide students with opportunities to apply what they have learned in the classroom to real workplace settings, allowing them to explore possible career avenues while adding valuable practical experience to their resumes. Students in the department have completed internships in a variety of organizations and settings. Specific examples of recent internship locations include: Hickey School (Juvenile Services); Department of Juvenile Services (Uplift Program); Police Athletic League of Baltimore County; Immigration and Naturalization Service; Department of Alcohol, Tobacco and Firearms; Department of Natural Resources Police; Office of the Public Defender; Maryland Chapter of the National Association of Social Workers; Naval Intelligence; North Baltimore Center; Anna's House (Transitional Housing); Sheppard Pratt; American Civil Liberties Union; Maryland State Police; House of Ruth; United Nations High Commission on Refugees; Mayor's Office of Neighborhoods (The Believe Program); Social Security Administration; HIDTA; State's Attorney's Office; Neighborhood Design Center; Prisoner's Aid; Baltimore Center for Urban Archaeology; Baltimore Museum of Art; Walters Art Museum; Medbank; Latino Health Task Force; Baltimore City Police Department (Sex Offense Unit); ACTS (Shelter for Victims of Domestic Abuse); Baltimore County Police Department; CASA of Carroll County; Naval Criminal Investigative Service; Maryland Department of Public Safety and Correctional Services; Villa Maria; and the Immigration Outreach Service Center. Students are encouraged to consider internships related to areas of interest in their concentration. Students participating in an internship are assessed a fee. Interested students should contact either of our department coordinators for more information. There are different coordinators for students with concentrations in Criminal Justice or Sociology and Anthropology.

HONORS AND OTHER STUDENT RECOGNITIONS

Outstanding students are encouraged to consider taking the special set of courses that would qualify them for graduation with honors in the department. See the honors adviser or the department chair for more information. The department honors program is distinct from the university-sponsored honors program, which includes a number of honors courses in sociology and anthropology.

During the spring of each year, the department convenes an awards ceremony to recognize our most accomplished students. The Lieberman Awards are presented annually to the most distinguished student scholars in each of the three major concentrations in the department and to the outstanding student intern. The Irwin Goldberg Award for Outstanding Achievement in Sociological Research is given annually to the student who submits the paper best reflecting sociological research techniques. The paper may have been written for any sociology course or as an independent research project. In addition, there is the Social Responsibility/ Social Praxis (Action) Award and the Award for Special Contribution to the Environment of Learning given annually to students majoring in the department. A chapter of Alpha Kappa Delta, the national honor society in sociology, was established at the university in 1988.

INFORMATION FOR STUDENTS IN DISCONTINUED CONCENTRATIONS

The department recently discontinued its concentrations in Gerontology and Corrections, and the Law Enforcement Concentration that was administered by the department also has been discontinued. In addition, the Sociology and Anthropology concentrations were substantially revised in 1998. Students who declared one or more of these concentrations prior to their elimination will be permitted to select from the new or revised concentrations currently offered by the department or to complete their original concentration, provided their original catalogs have not expired. All students are encouraged to work closely with a departmental adviser to plan their curriculum. Students entering Towson University during or after fall 2005 will not be permitted to select department curriculum options from catalogs prior to the 2005-2006 Undergraduate Catalog.

Department of Women's Studies

Professors: Karen Dugger (Chair), Jo-Ann Pilardi

Associate Professor: Esther Wangari Assistant Professor: Cecilia Rio

Affiliated Faculty: Lena Ampadu (English), Frances Botkin (English), Rose Ann Christian (Philosophy and Religious Studies), Marion Cockey (Sociology, Anthropology and Criminal Justice), K Edgington (English), Paz Galupo (Psychology), Gail Gasparich (Biological Sciences), Cindy Gissendanner (History), John Gissendanner (English), Susan Isaacs (Art), Nancy Larson (Music), Louise Laurence (Economics), Luz Mangurian (Biological Sciences), Toni Marzotto (Political Science), Florence Newman (English), Melissa Osborne (Economics), Carol Pippen (English), Darcy Plymire (Kinesiology), Joan Rabin (Psychology), Lea Ramsdell (Modern Languages), Frances Rothstein (Sociology, Anthropology and Criminal Justice), Lev Ryzhkov (Chemistry), Allaire Stallsmith (History), Jacqueline Wilkotz (English), Sabrina Willis (Political Science)

Part-time Faculty: Susan Doering, Phyllis Freeman, Tina Kelleher, E. Christine Potts, Paula Rangel, Beverly Shuman Associate to Women's Studies Department: Phyllis Freeman (Director, Women's Center)

OFFICE

Lida Lee Tall 316, 410-704-2660

THE PROGRAM

The Women's Studies major is interdisciplinary; it offers students the opportunity to study the status and roles of women as individuals and as members of society. Courses emphasize both commonalities among women and differences according to race, ethnicity, class and sexual preference. The major requires successful completion of 39 total units; 6 units of required core courses (Section A), plus 33 units selected from sections B-E as shown below. Each program is individually tailored to the needs and interests of students. Students must consult with a Women's Studies faculty adviser to plan their programs. (See transfer unit policy.)

The following interdisciplinary (WMST) and departmental women's studies courses are currently in the curriculum. The departmental courses may be taken as electives for departmental unit and/or applied to the major or minor in Women's Studies. Some courses fulfill General Education (GenEd) requirements.

MAJOR IN WOMEN'S STUDIES

Women's Studies majors are required to complete 39 units with a grade equivalent of 2.00 or higher from among the following courses.

Section A: Required Core Courses (6 units)

WMST 231 Women in Perspective (3)

WMST 232 Honors Seminar: Women in Perspective (3)

W/MST 233 International Perspectives on Women (3)

WMST 234 Honors Seminar: International Perspectives on Women (3)

WMST 337 Feminist Theory (3)

Section E: Interdisciplinary Women's Studies (6 units)

*These courses are offered very infrequently. For information on these or any other courses, contact the chair of Women's Studies or the department offering the course.

TRANSFER CREDIT POLICY

All Women's Studies majors must complete a minimum of 18 units toward the major at Towson University, with at least 12 units at the upper (300-400) level.

All Women's Studies minors must complete a minimum of 12 units toward the minor at Towson University, with at least 9 units at the upper (300-400) level.

HONORS PROGRAM IN WOMEN'S STUDIES

Honors work is available to students with a Women's Studies major. Interested students may consult the chair of Women's Studies for information, preferably during their sophomore year. See information on the Honors College elsewhere in this catalog.

OTHER OPPORTUNITIES FOR STUDENTS

The Department of Women's Studies also provides a Women's Studies Colloquium series each term with speakers from the university or off campus.

Women's Studies students are also welcome to participate in the Feminist Collective, a student organization.

In alternate years, the Department of Women's Studies awards the Guess Scholarship for achievement in writing. Women's Studies students are also encouraged to take advantage of the Women's Center (University Union, room 311) and the Women in Science Center (Smith Hall).

A Women's Studies Club has been formed and is open to all interested students. In addition, a Women's Studies Alumnae organization also exists. Contact the Department of Women's Studies at 410-704-2660 for more information on either of these organizations.

Welcome to the College of Science and Mathematics at Towson University. Our college offers a wide variety of undergraduate and graduate majors, as well as interdisciplinary programs in which students work closely with faculty, receiving quality instruction in small classes.

Science and mathematics are becoming increasingly important as our world evolves and is challenged by rapid technological transformations. More and more, science will determine the road into the future. The College of Science and Mathematics at Towson University is helping to build that road through its educational programs and its cammitment to teaching, research and scholarship. The College of Science and Mathematics has a fourfold mission: to prepare students for careers and advanced professional training in the biological or physical sciences, mathematics, or computer science; to participate fully in the liberal education mission of the campus; to foster significant scholarly research; and to serve the well-being of the community, state and region. To accomplish its mission the college maintains high standards of performance for faculty and students. Each student is provided the opportunity to develop competence in a special field of knowledge by learning its principles and perspectives, mastering its methods, and acquiring much of its accumulated knowledge.

In addition to offering formal course work, the college is committed to providing students with opportunities to learn through participation in scientific research, independent study, internships and honors programs. Students gain experience in laboratories, interact with the environment through field studies, conduct student research, and receive training in technologically advanced instrumentation. We believe that there is no stronger means of learning than by active participation at the frontiers of scientific knowledge, and we encourage our entire faculty to leave open their doors so that students may embrace the discovery of the secrets in the world around us. A combination of student participation and rigorous classroom instruction gives majors in the college a competitive advantage in career advancement or in the selection of professional or graduate schools. The student majoring outside the college is assured of ample scientific knowledge to make informed decisions essential to citizens in a science-oriented, technological world.

Although we offer degrees in the sciences and mathematics, we recognize that the Towson experience encompasses so much more than a diploma. Each one of us strives daily to create enriching educational experiences for all of those around us. We recognize the importance of science and mathematics not merely as an aid to understanding the natural world, but also as an aid to understanding ourselves. Each person can benefit greatly from scientific experience, and it is this sort of experience that we seek to provide our students. Come and join us. Towson will enrich your life.

Center for Science and Mathematics Education (CSME)

OFFICE

Smith Hall 304, 410-704-2532

Fax: 410-704-3959

E-mail: kdenniston@towson.edu Director: Katherine J. Denniston

The Center for Science and Mathematics Education (CSME) is a focal point for research efforts, curriculum development, teacher education, and pedagogical reform designed to enhance the teaching and learning of mathematics, science and technology at all levels from pre-K through 16. Representatives of each of the departments of the College of Science and Mathematics and the College of Education serve as affiliate faculty. Advisory board members representing local schools, universities, agencies of informal education, business, and the Maryland State Department of Education provide counsel in guiding center activities.

CSME is the center of operations for the Master of Science in Science Education program, which is designed to enhance the content knowledge and teaching skills of Maryland high school teachers. The M.S. program has two tracks, Biological Sciences and Chemistry, and is designed to prepare teachers for national board certification through the National Board for Professional Teaching Standards (NBPTS). CSME is also the headquarters for the Maryland Educator's Summer Research Program (MESRP), a summer research internship program that offers authentic research experiences in science and mathematics for in-service teachers and teachers-in-training.

The primary goal of CSME is to promote excellent and effective science and mathematics teaching at all levels from pre-K through 16. To that end, the center is engaged in the following activities:

- 1. fostering initiatives for improvement of teacher education
- 2. initiating and establishing professional development schools to promote professional growth of in-service teachers
- 3. disseminating ideas on curriculum and instruction in science, mathematics and technology at all grade levels
- 4. assisting area schools, community agencies, and university departments in selection, implementation and assessment of innovative approaches to the teaching and learning of science, mathematics and technology
- 5. coordinating communication and collaboration among universities, community colleges and schools

Interdisciplinary Studies

ANIMAL BEHAVIOR TRACK

Advisory Committee: Michael Figler (Psychology), Donald Forester (Biological Sciences), Paz Galupo (Psychology, Co-Coordinator), Craig Johnson (Psychology), Scott Johnson (Biological Sciences), Jay Nelson (Biological Sciences), Herbert Petri (Psychology), Joan Rabin (Psychology), Gerald Robinson (Biological Sciences), Aubrey Scarbrough (Biological Sciences), Erik Scully (Biological Sciences, Co-Coordinator), Richard Seigel (Biological Sciences), Joel Snodgrass (Biological Sciences)

OFFICE

Smith Hall 261, 410-704-3012

The Program

Animal Behavior is offered as a track within the Interdisciplinary Studies major. For a complete description of course requirements, see the College of Liberal Arts.

The study of animal behavior has received an increasing amount of attention from the public because of the emphasis placed by zoological parks on behavioral biology and the large number of presentations in the media regarding animal behavior and sociobiology.

The Animal Behavior Track is designed to offer a solid foundation in the diverse approaches used to study behavioral biology. The program uses a carefully selected combination of courses in biology and psychology to achieve this goal. In addition, students are required to complete either an independent research project or an internship in order to apply their knowledge in an intensive research experience.

Students who complete the program may be qualified for positions at zoological parks, aquariums and nature centers. In addition, they will have the necessary technical knowledge to pursue a career in freelance writing about animal behavior. However, students who are considering attending graduate school will need to complete additional courses in either biology or psychology. Most of the students currently enrolled in the program also are majoring in either Biology or Psychology.

Students who are considering the Animal Behavior Track must meet with one of the program coordinators before declaring Interdisciplinary Studies as a major.

Department of **Biological Sciences**

Professors: Virginia Anderson, Katherine Denniston, Donald Forester, James Hull, Luz Mangurian, Gerald Robinson, Aubrey Scarbrough, Erik Scully, Richard Seigel (Chair)

Associate Professors: Gail Gasparich, Susan Gresens, L. Scott Johnson, Brian Masters, Jay Nelson, James Saunders, Erik Sildorff, Joel Snodgrass, Larry Wimmers, Jane Wolfson

Assistant Professors: Carol Berkower, Brian Fath, Sarah Haines, Barry Margulies, William Mechling, Roland Roberts, Vonnie Shields, Colleen Sinclair, Joy Watts, Laurie Williams-Hogarth

Adjunct Research Professors: Steven Baskin, Alan Brimfield, David Lenz, John McDonough, John Petrali, James Romano, Jr., John Schlager, Alfred Sciuto, Tsung-Ming Shih, William Smith, Jay Valdes

Lecturers: Sarah Bruce, Susannah Feldman, Cynthia Ghent Part-time Faculty: Linda Behrens, Pamela Healey, Brian Morrison,

Joann Pilachowski, Frank Russo, Elsie Shoemaker, Bernadette Stundick

Undergraduate Biology Student Coordinator: Mara Lauterbach

OFFICE

Smith Hall 341, 410-704-3042 Fax: 410-704-2405

PROGRAMS OF THE DEPARTMENT

The Department of Biological Sciences offers the following programs of study: the major in Biology, the minor in Biology, and the Master of Science in Biology. For more information about the master's program, consult the Graduate Catalog.

A major in Biology is recommended for students interested in pursuing general careers in botany, zoology, ecology, microbiology or molecular biology. It is also recommended for individuals preparing for graduate studies in biology, medicine, dentistry, or medically oriented fields; including optometry, pharmacy, podiatry or veterinary science; teacher education in secondary schools, i.e., teaching of biological or natural sciences; basic or applied research in the biological sciences; or environmental biology, including conservation, wildlife biology, forestry, fisheries, pollution control and marine biology.

Students selecting this major should contact the department to be assigned an adviser to assist them in designing a program to meet their special needs. Students will meet with their adviser each semester to discuss their progress and to facilitate necessary changes in their programs of study.

MAJOR IN BIOLOGY

The Biology major requires a minimum of 11 courses within the biological sciences with a range of 36 to 50 units, depending upon the concentration and configuration of electives selected. A typical student will complete a minimum of 38 to 40 units in biology. A core of four courses and seven elective courses are selected from within the department to complete a concentration. In addition, six to seven ancillary courses (24-30 units) must be completed in the disciplines of chemistry, mathematics and physics. The program must be completed with a grade equivalent of 2.00 or higher in all course work.

Selection of appropriate electives allows students to fulfill the requirements of any of four areas of concentration: Cell and Molecular Biology, Functional Biology of Animals, Organismal Biology and Ecology, or Secondary School Biology and General Science Teaching. Completion of one of these concentrations is required for a major in Biology. Students are strongly encouraged to plan their programs in consultation with an adviser who is a member of the biology faculty.

Core Courses (13 units)

| COLC COMINGS | 13 4111117 |
|--------------|--|
| BIOL 201 | Biology I: Cellular Biology and Genetics (4) |
| BIOI 202 | Biology II: Introduction to Ecology, Evolution and |
| | Behavior (4) |
| BIOI 309 | Principles of Genetics (4) |
| BIOL 486 | Biology Majors Seminar (1) |

Breadth Courses (10-20 units)

The following are required for all Biology majors unless indicated differently within the concentration.

| Choose one of the | following: |
|-------------------|---|
| BIOL 208 | Biodiversity (3) |
| | or |
| BIOL 205 | General Botany (4) and BIOL 207 General Zoology (4) |
| Choose one of the | e following: |
| BIOL 408 | Cell Biology (4) |
| | or |
| BIOL 409 | Molecular Biology (3) |
| Choose one of the | following: |
| BIOL 213-214 | Human Anatomy and Physiology I, II (4,4) |
| | or |
| BIOL 325 | Animal Physiology (4) |
| | or |
| BIOL 436 | Plant Physiology (4) |

Ancillary Courses (24-30 units)

The following courses are required for all Biology majors unless indicated differently within the concentration.

Chemistry (13-18 units)

| CHEM 110-111 | General Chemistry I, II (4,4) |
|--------------|-------------------------------------|
| CHEM 330 | Essentials of Organic Chemistry (5) |
| CHEM 331-332 | Organic Chemistry L. II (5.5) |

Physics (8 units)

One of the following: General Physics I, II (4,4) PHYS 211-212

PHYS 241-242 General Physics I, II Calculus-Based (4,4)

Mathematics (3-4 units)*

One of the following:

MATH 211 Calculus for Applications (3) MATH 237 Elementary Biostatistics (4) MATH 2⁻³ Calculus I (4) PSYC 212 Behavioral Statistics (4)

*Because material covered in Basic Mathematics for the Sciences (MATH 115) is a prerequisite for chemistry and physics, students who have not completed high school trigonometry and two years of high school algebra in good standing should take MATH 115 in addition to one of the options listed above.

Chemistry I and II should be taken during the freshman year, Organic Chemistry I and II during the sophomore year, and Physics as soon as possible.

Concentrations

Biology majors are required to complete one of four concentrations in biology by selecting a minimum of seven courses from among groups of electives within each concentration. One of these electives may be from outside the concentration. The declaration of concentration should be made by the beginning of the junior year of study. Within each concentration, options exist for fulfilling each of three areas of breadth and for fulfilling concentration electives. Each student is strongly encouraged to consult with a biology faculty adviser in selecting electives to satisfy his/her program of study in the concentration and to match the program of study with career objectives.

No more than 3 units combined from BIOL 491 Independent Research in Biology; BIOL 498 Honors Research; and BIOL 499 Senior Thesis in Biology, may count toward the Biology major. None of these courses may count toward the minor in Biology.

The following courses may not be used to fulfill Biology elective requirements: BIOL 100 Humanistic Botany; BIOL 103 Human Biology; BIOL 105 Environmental Biology; BIOL 110 Contemporary General Biology; BIOL 112 Honors Contemporary General Biology; BIOL 115 Biological Science I; BIOL 116 Biological Science II; BIOL 215 Foundations of Microbiology; BIOL 301 Field Natural Science; BIOL 303 Life Science for the Elementary Teacher; BIOL 304 Life Science Education in the Informal or Outdoor Setting; BIOL 306 Human Ecology and Sustainability; BIOL 313 Biology of Aging; BIOL 321 Biology of Women; BIOL 322 Biotechnology and Society; BIOL 323 Genes, Evolution and Morality; BIOL 327 Dangerous Diseases; BIOL 381 Biological Literature; BIOL 481 Directed Readings in Biology; BIOL 493 Internship in Biology; BIOL 494 Travel Study; BIOL 495 Course Research.

Before enrolling in any 300- or 400-level elective course, Biology majors are required to complete a minimum of eight units in lowerlevel biology courses with a grade equivalent of 2.00 or higher and to have an overall GPA of 2.00 or higher. Students who do not meet the above requirements may not be allowed to enroll in upper-level electives.

The Department of Biological Sciences makes every effort to offer elective courses in a systematic fashion. However, it assumes no responsibility for cases in which unforeseen scheduling conflicts, course cancellations, or staffing changes prevent students from taking a particular elective course during their residence at Towson University.

CELL AND MOLECULAR BIOLOGY CONCENTRATION

Completion of this concentration provides background for advanced studies in cell biology, molecular biology, genetics, microbiology, immunology, and diverse fields that involve molecular tools in research. In addition, students may select this concentration as preparation for professional degree programs in medicine, dentistry, or veterinary medicine or for a career in biology education, biomedical research, or fields that integrate biology with other disciplines such as business or law. Students completing this concentration are encouraged to take at least two upper-level labs among the elective courses within this concentration. Students are encouraged to participate in a research experience or as an intern (e.g., BIOL 491 Independent Research in Biology; BIOL 493 Internship in Biology; BIOL 498 Honors Research; or BIOL 499 Senior Thesis in Biology). They should consult with their adviser regarding these opportunities.

Core Courses (13 units)

Breadth Courses (14-23 units)

Same as required for Biology major with following provision:

Take both of the following: BIOL 408 Cell Biology (4) BIOL 409 Molecular Biology (3)

Elective Courses (11-14 units)

Choose one of the following:

Molecular Biology Lab (2) BIOL 410 BIOI 312 Generics Lab (2)

CHEM 356 Biochemistry Laboratory (2)

Choose two of the following:

BIOL 315 Medical Microbiology (4)

BIOL 360 Histology (4)

BIOL 367 Endocrinology (3) BIOL 403 Advanced Genetics (3)

BIOL 421 Immunology (4) BIOL 428 Virology (3)

CHEM 351 Biochemistry I (3)

Introduction to Bioinformatics (3) MBBB 301

Free Elective (3-4 units)

Select one biology elective from lists of electives in any Biology concentration. If Human Anatomy and Physiology I (BIOL 213) was selected for the physiology breadth, that may satisfy the Free Elective requirement after successfully completing BIOL 214.

Ancillary Courses (24-30 units) As required for Biology major.

Recommended Courses

MATH 273 Calculus 1 (4)

MATH 211 Calculus for Applications (3)

FUNCTIONAL BIOLOGY OF ANIMALS CONCENTRATION

This course of study is designed to provide students with an understanding of animal physiology consistent with the expectations of medical and dental education programs, veterinary medicine programs, anatomy and physiology graduate programs or a career in research (as a clinical or basic science research technician). Students taking this concentration have the option of completing the premed track, which will aid in course selection relative to the medical field. The Cellular and Molecular Concentration is also an option for students interested in medically related fields. Regardless of concentration choice, students preparing for medically related fields are strongly recommended to take both BIOL 213 and 214. Students in this concentration, especially those planning on a career in research or a research application field, are encouraged to participate in a research experience (e.g., BIOL 491 Independent Research in Biology; BIOL 498 Honors Research; or BIOL 499 Senior Thesis in Biology). Pre-clinical students are encouraged to participate in volunteer work or internships within a clinical setting. Consult with your adviser about these opportunities.

Core Courses (13 units)

Breadth Courses (10-20 units)

As required for Biology major with the exception that the following is required:

Choose one of the following:

BIOL 213-214 Human Anatomy and Physiology I, II (4,4)

BIOL 325 Animal Physiology (4)*

*If Animal Physiology (BIOL 325) is selected, two electives must be selected from among the list of Focused Electives.

Elective Courses (10-16 units)

Physiology Elective: Choose one of the following:

BIOL 465 Mammalian Physiology (4)

BIOL 469 Comparative Animal Physiology (4)

Focused Electives: Choose one of the following:

BIOL 305 Electron Microscopy (4) BIOL 315 Medical Microbiology (4)

BIOL 360 Histology (4)

BIOL 367 Endocrinology (3)

BIOL 421 Immunology (4)

BIOL 427 Neuromuscular Mechanisms of the Upper Body (2)

BIOL 428 Virology (3)

BIOL 463 Animal Embryology (4)

Free Electives (3-4 units)

Select one biology elective from lists of electives in any Biology concentration, or successfully complete BIOL 491 Independent Research in Biology (3 units) or both BIOL 498 Honors Research (2 units) and BIOL 499 Senior Thesis in Biology (2 units).

Ancillary Courses (29-30 units)

Chemistry and physics as required for Biology major including: CHEM 331-332 Organic Chemistry I, II (5,5)

Recommended Courses

| ecomment. | Courses |
|-----------|-------------------------------|
| CHEM 351 | Introductory Biochemistry (3) |
| CHEM 356 | Biochemistry Laboratory (2) |
| MATH 237 | Elementary Biostatistics (4) |
| MATH 273 | Calculus I (4) |

MATH 211 Calculus for Applications (4)

FUNCTIONAL BIOLOGY OF ANIMALS: PREPROFESSIONAL OPTION

This course of study is designed to provide students with an understanding of animal anatomy and physiology consistent with the expectations of medical, veterinary, dental, optometry, podiatry and osteopathy education programs.

Core Courses (13 units)

Breadth Courses (14-20 units)

As required for Biology major with the exception that the following is required:

BIOL 213-214 Human Anatomy and Physiology I and II (4,4)

Elective Courses (10-12 units)

| Physiology Elect | tive: Choose one of the following: |
|------------------|------------------------------------|
| BIOL 465 | Mammalian Physiology (4) |
| BIOL 469 | Comparative Animal Physiology (4) |

Focused Elective: Choose one of the following:

| BIOL 315 | Medical Microbiology (4) |
|----------|--------------------------|
| BIOL 360 | Histology (4) |
| BIOL 367 | Endocrinology (3) |
| BIOL 421 | Immunology (4) |
| BIOL 428 | Virology (3) |
| BIOL 463 | Animal Embryology (4) |

Free Electives (3-4 units)

Select one biology elective from lists of electives in any Biology concentration, or successfully complete BIOL 491 Independent Research in Biology (3 units) or both BIOL 498 Honors Research (2 units) and BIOL 499 Senior Thesis in Biology (2 units).

Ancillary Courses (29-30 units)

Chemistry and physics as required for Biology major including: CHEM 331-332 Organic Chemistry 1, 11 (5,5)

Recommended Courses

| CHEM 351 | Introductory Biochemistry (3) |
|----------|-------------------------------|
| CHEM 356 | Biochemistry Laboratory (2) |
| MATH 237 | Elementary Biostatistics (4) |
| MATH 273 | Calculus (4) |
| | or |
| MATH 211 | Calculus for Applications (4) |

ORGANISMAL BIOLOGY AND ECOLOGY CONCENTRATION

Completion of this concentration provides background for advanced studies in botany, zoology, conservation biology, or ecology and/or career opportunities in environmental education, in government environmental regulatory agencies and in the private sector. Students completing this concentration are encouraged to take both General Botany (BIOL 205) and General Zoology (BIOL 207). Those students taking Biodiversity (BIOL 208) are required to complete an additional elective. Students taking this concentration have the option of choosing to complete a track in either Botany or Zoology, but selection of a track is not required. Students in this concentration are strongly encouraged to partici-

pate in a research experience or as an intern (e.g., BIOL 491 Independent Research in Biology; BIOL 493 Internship in Biology; BIOL 498 Honors Research; or BIOL 499 Senior Thesis in Biology). They should consult with their adviser regarding these opportunities.

Core Courses (13 units)

Breadth Courses (10-20 units)

Same as required for Biology major.

If Biodiversity (BIOL 208) was selected to satisfy the Organismal Biology and Ecology Concentration, an additional elective must be selected from among the list of Principles of Ecology or Diversity.

Elective Courses (10-16 units)

Principles of Ecology Elective: Choose one of the following:

| BIOL 310 | Conservation Biology (4 |
|----------|---|
| BIOL 402 | General Ecology (4) |
| BIOL 406 | Limnology (4) |
| BIOE 435 | Plant Ecology (4) |

Diversity Flectives Chause one of the followings

Herpetology (4)

| Diversity Ele- | cuve: Choose one of the following: |
|----------------|---|
| BIOL 331 | Plant Morphology (4) |
| BIOL 347 | Marme Biology (3) |
| BIOL 351 | Field and Systematic Vertebrate Zoology (4) |
| BIOL 353 | Invertebrate Zoology (4) |
| BIOL 371 | Animal Behavior (4) |
| BIOL 413 | Evolution (3) |
| BIOL 432 | Vascular Plant Taxonomy (4) |
| BIOL 439 | Plant Anatomy (4) |
| BIOL 455 | Fish Biology (4) |
| BIOL 456 | Ornithology (4) |
| BIOL 458 | Mammalogy (4) |
| BIO1 461 | Entomology (4) |

Organismal Elective (3-4 units)

BIOL 467

Choose one elective from the list of Principles of Ecology Electives or Diversity Electives above, or successfully complete BIOL 491 Independent Research in Biology (3 units) or both BIOL 498 Honors Research (2 units) and BIOL 499 Senior Thesis in Biology (2 units). Students taking BIOL 208 Biodiversity are required to choose two biology electives from the above, or one biology elective from the list above and successfully complete BIOL 491 Independent Research in Biology (3 units) or both BIOL 498 Honors Research (2 units) and BIOL 499 Senior Thesis in Biology (2 units).

Ancillary Courses (25-30 units)

Chemistry and Physics as required for Biology major including one of the

| MATH 237 | Elementary Biostatistics (- |
|----------|-----------------------------|
| | or |
| PSYC 212 | Behavioral Statistics (4) |

Recommended Courses

| MATH 273 | Calculus 1 (4) |

| | or |
| MATH 211 | Calculus for Applications (3) |

ORGANISMAL BIOLOGY AND ECOLOGY CONCENTRATION: BOTANY OPTION

Background acquired in this track will train graduates for positions in botanically related industry or advanced study in botany, horticulture or forestry. Students in this track are encouraged to participate in a research experience or as an intern (e.g., BIOL 491 Independent Research in Biology; BIOL 493 Internship in Biology; BIOL 498 Honors Research; or BIOL 499 Senior Thesis in Biology). They should consult with their adviser regarding these opportunities.

Core Courses (13 units)

Breadth Courses (10-16 units)

As required for Biology major with the exception that the following is required:

BIOL 436 Plant Physiology (4)

General Botany (BIOL 205) and General Zoology (BIOL 207) are strongly recommended for this track. If Biodiversity (BIOL 208) was selected to satisfy the Breadth courses for the Organismal Biology and Ecology Concentration, an additional elective must be selected from among the Diversity Electives in botany.

Elective Courses (12 units)

Principles of Ecology Elective

BIOL 436 Plant Ecology (4)

Plant Structure

BIOL 439 Plant Anatomy (4)

Diversity Elective (4 units)

Choose one of the following:

BIOL 331

Plant Morphology (4) BIOL 432 Vascular Plant Taxonomy (4)

Ancillary Courses (25-30 units)

Chemistry and physics as required for Biology major including one of the following:

MATH 237 Elementary Biostatistics (4)

PSYC 212 Behavioral Statistics (4)

Recommended Courses

MATH 273 Calculus 1 (4)

MATH 211 Calculus for Applications (3)

CHEM 351 Biochemistry I (3)

CHEM 356 Biochemistry Laboratory (2)

ORGANISMAL BIOLOGY AND ECOLOGY CONCENTRATION: ZOOLOGY OPTION

This track is recommended for individuals preparing for careers and/or advanced study in vertebrate zoology, invertebrate zoology, entomology, wildlife biology or fisheries biology. Students in this track are encouraged to participate in a research experience or as an intern (e.g., BIOL 491 Independent Research in Biology; BIOL 493 Internship in Biology; BIOL 498 Honors Research; or BIOL 499 Senior Thesis in Biology). They should consult with their adviser regarding these opportunities.

Core Courses (13 units)

Breadth Courses (10-20 units)

As required for Biology major with the exception of the following:

Choose one of the following:

BIOL 213-214 Human Anatomy and Physiology I, II (4,4)

BIOL 325 Animal Physiology (4)

General Botany (BIOL 205) and General Zoology (BIOL 207) are strongly recommended for this track. If Biodiversity (BIOL 208) was selected to satisfy the Breadth courses for the Organismal Biology and Feology Concentration, an additional elective must be selected from among the Diversity Electives in zoology,

Elective Courses

Principles of Ecology Elective (4 units)

Choose one of the following:

BIOL 310 Conservation Biology (4)

General Ecology (4) **BIOL 402**

BIOL 406

Linnology (4)

Diversity Electives (7-8 units)

Choose one of the following:

BIOL 371 Animal Behavior (4)

BIOL 413 Evolution (3)

Choose one of the following:

BIOL 351 Field and Systematic Vertebrate Zoology (4)

BIOL 353 Invertebrate Zoology (4)

BIOL 455 Fish Biology (4)

BIOL 456 Ornithology (4)

BIOL 458 Mammalogy (4)

BIOL 461 Entomology (4)

BIOL 467 Herpetology (4)

Ancillary Courses (25-30 units)

Chemistry and physics as required for Biology major including one of the following:

MATH 237

Elementary Biostatistics (4)

PSYC 212 Behavioral Statistics (4)

Recommended Courses

MATH 273 Calculus I (4)

MATH 211 Calculus for Applications (3)

SECONDARY SCHOOL BIOLOGY

Students who complete this concentration and the required courses in the Department of Secondary Education will meet certification requirements to teach secondary school biology in at least 33 states, including Maryland. Students must register with the Department of Secondary Education and should have an adviser in that department in addition to their adviser in the Department of Biological Sciences. Students should consult the Department of Secondary Education regarding certification requirements.

Students with bachelor's degrees who desire to become certified to teach biology in Maryland or other states should contact the Department of Secondary Education for advising in a Professional Education Program and also contact the Department of Biological Sciences for an adviser.

Core Courses (13 units)

Breadth Courses (15-20 units)

BIOL 205 General Botany (4)

BIOI. 207 General Zoology (4)

Choose one of the following:

BIOL 408 Cell Biology (4)

BIOL 409 Molecular Biology (3)

Choose one of the following:

BIOL 213-214 Human Anatomy and Physiology I, II (4,4)

BIOL 325 Animal Physiology (4)

Elective Courses (8-12 units)

Biology electives selected from the other concentrations and approved by adviser to bring the total to 40 biology units.

Ancillary Courses (32-34 units)

Chemistry (18 units)

CHEM 110-111 General Chemistry I, II (4,4)

CHEM 331-332 Organic Chemistry I, II (5,5)

Physics (8 units)

As required for the Biology major.

Department of Biological Sciences

Mathematics (3-4 units)

Choose one of the following:

MATH 211 Calculus for Applications (3)

or

MATH 273 Calculus (4)

Physical Science Electives (3-4 units)

Choose one of the following:

GEOL 121 Physical Geology (4)
GEOI. 123 Historical Geology (4)
ASTR 161 General Astronomy I (4)
Physical Oceanography (3)

GEOG 373 Climatology (4)

GEOG 377 Descriptive Meteorology (4)

Recommended Courses

BIOL 315 Medical Microbiology (4) BIOL 318 Microbiology (4) BIOL 461 Entomology (4)

MINOR IN BIOLOGY

To fulfill the requirements for a Biology minor, students must complete the following courses with a GPA of 2.00 or higher. A minimum of 12 units of the biology units applied toward the minor must be earned at Towson University, with at least 6 of those units at the upper level.

Biology Requirements (24 units)

BiOL 201 Biology I: Cellular Biology and Genetics (4)
BiOL 202 Biology II: Introduction to Ecology, Evolution and Behavior (4)

Choose one of the following:

BfOL 208 Biodiversity (3)

or

BfOL 205 General Botany (4)

207

BIOL 207 General Zoology (4)

Electives

Biology electives approved for the Biology major to bring the total to 24 units.

Ancillary Courses

CHEM 110-111 General Chemistry f, II (4,4)

TRANSFER CREDIT POLICY

All Biology majors must complete a minimum of 19 biology units toward the major at Towson University, with at least 10 of these units at the upper (300-400) level.

All Biology minors must complete a minimum of 12 biology units toward the minor at Towson University, with at least 6 of these units at the upper level.

HONORS PROGRAM

To graduate with honors in Biology, students must complete BIOL 498 and BIOL 499 in consecutive terms of their senior year. The research thesis must be presented in an oral defense before the Honors Research Committee. An oral presentation open to the public is also required. In addition, a minimum of 3 units must be selected from BIOL 491 and/or BIOL 481 in the junior year. For eligibility and general information, consult the college honors program description.

INTERNSHIP/COOPERATIVE EDUCATION

The department participates in the university's cooperative education program, which provides junior- and senior-level students of high academic standing practical work experience while earning college credit. Students have served as interns at such facilities as the National Aquarium and the Smithsonian Institution. For further information, contact the Career Center.

STUDENT ORGANIZATIONS

The Biology Club, the Premed/Predent Club, the Animal Behavior Club, and the local chapter of Beta Beta Beta, the national honor society in biology, are active organizations composed of and led by students. Among the events organized by members of the Biology Club are field trips, which are designed to enhance participants' knowledge of the biological sciences, and athletic and social events, which provide opportunities for student and faculty interaction in an informal atmosphere. Tri Beta, whose members have achieved high scholarship, functions primarily to encourage and provide for the academic growth of its members.

GRADUATE PROGRAM

The course of study leading to the Master of Science in Biology is designed to provide greater knowledge and understanding of biology and to help students develop a proficiency in independent thought, inquiry and research. Students may pursue either the thesis program (30 units and a thesis) or the non-thesis program (36 units). Detailed information regarding both programs is given in the *Graduate Catalog*.

DEPARTMENT ANIMAL POLICY

In accordance with federal laws and regulations, Towson University, through its Institutional Animal Care and Use Committee, reviews the use of animals in teaching to assure compliance with the standards established by the U.S. Department of Agriculture and the National Institutes of Health for the humane treatment of animals. The university makes every effort to minimize the use of animals and seeks alternatives wherever possible. Although Towson University recognizes that some students may believe the use of animals as teaching tools is inhumane, certain curricula require the use of animals as a necessary part of instruction. Accordingly, where the use of animals in class demonstrations or experiments is a requirement for successful completion of any course, as determined by the department, students will be obliged to comply with those requirements as set forth by the instructor in the course syllabus. The university will not provide optional procedures for students who do not comply with course requirements.

If a course requires the use of animals in class demonstrations or experiments, however, the syllabus will specifically state that animals will be used in class demonstrations or experiments and that such use is a requirement for successful completion of the course. Notice of this requirement will be made a part of the course description and will be published in this catalog.

Department of Chemistry

Professors: Laurence Boucher, Nordulf Debye, David Larkin, Boon Loo (Chair), Frank Milio, J. David Rawn, Joseph Topping, Alan Wingrove

Associate Professors: Richard Preisler, Alan Pribula, Lev Ryzhkov

Assistant Professors: Ryan Casey, Timothy Dwyer, Clare Muhoro, Cynthia Zeller

OFFICE

Smith Hall 547, 410-704-3058 Fax: 410-704-4265 e-mail: vsmith@towson.edu www.towson.edu/chemistry

PROGRAMS OF THE DEPARTMENT

The Department of Chemistry offers the following curricular options:

- Major in Chemistry
- American Chemical Society accredited major in Chemistry
- Major in Forensic Chemistry
- Chemistry Secondary Education Program for students planning to teach chemistry at the secondary level
- Dual degree program with the University of Maryland School of Pharmacy
- Minor in Chemistry
- Biochemistry Concentration through Molecular Biology, Biochemistry and Bioinformatics Program
- Environmental Chemistry Track in Environmental Science and Studies Program

The Chemistry major provides a strong background in all major areas of chemistry: physical chemistry, inorganic chemistry, organic chemistry, biochemistry, analytical chemistry, and instrumental analysis. Students may concentrate in one or more of the above areas by taking advanced courses in areas of specific interest. Students are required to learn to use instruments commonly encountered in chemistry laboratories. Small classes are prevalent in all chemistry courses, and students are taught by faculty in both lecture and laboratory. Special topics courses are offered periodically to provide students the opportunity to broaden their background in chemistry.

Chemistry majors are prepared to pursue many different careers after graduation, including graduate study in chemistry and related areas, employment in government or industry, professional school (e.g., medicine, dentistry, pharmacy, law, library science), or secondary school teaching. Other employment opportunities are available to Chemistry majors, including those in water pollution, forensic chemistry, environmental chemistry, molecular biology, research and development, quality assurance and genetic engineer-

MAJOR IN CHEMISTRY

The major in Chemistry requires completion of the core courses and elective courses for one of the two tracks described below. A grade of C or higher must be earned in each required course.

Chemistry Major General Track

This track is recommended for students who intend to teach in secondary schools, or to work in hospital laboratories, technical libraries, chemical or instrument sales, or related professions. Students who plan to pursue chemically oriented careers in medicine, dentistry, pharmacy, veterinary medicine, environmental science, agriculture, or other allied fields should also consider this track. Students who wish to pursue graduate studies in chemistry, or to enter a career in the chemical industry should consider the Professional Track (described below). The Chemistry major General Track makes a good double major for students in the Molecular Biology, Biochemistry and Bioinformatics, or Environmental Science and Studies (Environmental Chemistry Track) programs, as well as majors in Biology, Geology, and Physics. Students electing this track should contact the Department of Chemistry and be assigned an adviser to assist them in designing programs to meet their career needs.

| | EOL 331 | Mineralogy (4)† |
| | EOL 415 | Hydrogeology (4) |
| | ATH 330 | Introduction to Statistical Methods (4) † |
| | ATH 374 | Differential Equations (3)† |
| | ATH 378 | Scientific Modeling and Simulation (3)† |
| | BBB 301 | Introduction to Bioinformatics (4) |
| | BBB 401 | Advanced Bioinformatics (3)† |
| | BBB 493 | Seminar in Bioethics (1)#† |
| | IYS 307 | Introductory Mathematical Physics (3)† |
| PΙ | IYS 311 | Modern Physics (3)† |

^{*}Course cannot be counted as both part of the core and part of the electives. #Only one of CHEM 401, BIOL 486, and MBBB 493 (Seminar in Bioethics) may be counted for elective credit. †Course has prerequisite(s) not listed among the core courses above.

CHEM 301 is suggested as a course to fulfill Category 1.D of the General Education requirements. Students may also wish to consider taking courses such as COSC 165 or 236, two terms of a foreign language, or courses in business or economics, depending on their interests and career goals.

Chemistry Major Professional Track

This track is recommended for those students who wish to obtain a more in-depth view of chemistry. This program is strongly recommended for those who intend to pursue graduate studies in chemistry or a closely related field, or who intend to work in basic or applied research in chemistry or as a chemist in industry. Students electing this track should contact the Department of Chemistry and be assigned an adviser to assist them in designing programs to meet their career needs.

Core Chemistry Courses (33 units)

The core chemistry courses for this track are the same as described above for the General Track, except that CHEM 323 and CHEM 351 must both be taken.

Additional Required Courses (24-26 units)

| CHEM 310 | Instrumentation in Analytical Chemistry (3) |
|--------------|---|
| CHEM 346 | Theoretical Foundations of Physical Chemistry (3) |
| CHEM 391 | Special Problems in Chemistry (1-3) |
| | or |
| CHEM 395 | Internship in Chemistry (1-3) |
| | or |
| CHEM 491 | Introduction to Research in Chemistry (1-3) |
| CHEM 401 | Seminar in Chemistry (1) |
| MATH 273-274 | Calculus I and II (4, 4) |
| PHYS 241-242 | General Physics I and II (calculus-based) (4, 4)* |

^{*}PHYS 211-212 may be taken in place of PHYS 241-242, but this is not recommended.

In addition to the required courses listed above, students electing this track must take a minimum of three additional courses (minimum of 9 additional units) from the list of electives given below. These 9 units must include at least one chemistry course, and must include at least one laboratory course or one course containing a laboratory component.

Elective Courses (9 units minimum)

| Elective Courses | (9 units minimum) |
|------------------|---|
| CHEM 356 | Biochemistry Laboratory (1) |
| CHEM 357 | Biochemistry II (3) |
| CHEM 361 | Chemical and Bacteriological Studies on Water |
| | Pollution (3) |
| CHEM 363 | Chemistry of Dangerous Drugs (3) |
| CHEM 367 | Forensic Chemistry (3) |
| CHEM 373 | Intermediate Laboratory II (1) |
| CHEM 461 | Advanced Lecture Topics (1-3) |
| CHEM 462 | Advanced Laboratory Techniques (1-2) |
| CHEM 480 | Chemical Toxicology (3) |
| BIOL 309 | Principles of Genetics (4)† |
| BIOL 408 | Cell Biology (4)† |
| B1OL 409 | Molecular Biology (3)† |
| BIOL 410 | Molecular Biology Laboratory (2)† |
| BIOL 421 | Immunology (4)† |
| BIOL 428 | Virology (3)† |
| COSC 336 | Data Structures and Algorithm Analysis (4)† |
| COSC 378 | Scientific Modeling and Simulation (3)† |
| CIS 458 | Organizational Database Analysis (3)† |
| GEOL 305 | Environmental Geology (4)† |
| GEOL 331 | Mineralogy (4)† |
| GEOL 415 | Hydrogeology (4) |
| MATH 330 | Introduction to Statistical Methods (4) |
| MATH 374 | Differential Equations (3) |
| MATH 378 | Scientific Modeling and Simulation (3)† |
| MBBB 301 | Introduction to Bioinformatics (3) |
| | |

| MBBB 401 | Advanced Bioinformatics (3)† |
|----------|---------------------------------------|
| PHYS 30" | Introductory Mathematical Physics (3) |
| PHYS 311 | Modern Physics (3) |
| PHYS 354 | Hectricity and Magnetism (4)* |

*Course has prerequisite(s) not listed among the core and required courses

CHEM 301 is suggested as a course to fulfill Category 1.D of the General Education requirements. Students may also wish to consider taking courses such as COSC 165 or 236, two terms of a foreign language, or courses in business or economics, depending on their interests and career goals.

Students selecting this track should plan their college careers carefully because not all the advanced chemistry courses are offered every term. A long-term schedule for these courses may be obtained from the Department of Chemistry. Advanced chemistry electives are offered periodically, subject to adequate enrollment.

ACS Certification

Certification of a student's Chemistry degree from the American Chemical Society (ACS) is widely recognized throughout industry, government and education as a standard of excellence. Students with a good academic record are encouraged to pursue this option. Students electing the Professional Track may obtain ACS certification of their degree provided that (1) they take CHEM 491 and (2) they take 12 units of electives (rather than 9), including at least three chemistry courses (one of which must be CHEM 461 or 462), and at least one laboratory course or course containing a laboratory component. Students who have taken PHYS 211-212 may count these courses for ACS certification provided that an additional advanced physics lecture course is taken, subject to prior approval by the Department of Chemistry.

MAJOR IN FORENSIC CHEMISTRY

Forensic chemistry is a field in which many opportunities exist within law enforcement agencies and private companies. There is a critical shortage of qualified professionals in the field. Graduates of this program will be well prepared for employment in the forensic field with minimal on-the-job training or to pursue a graduate degree.

The major in Forensic Chemistry requires the completion of all the core and ancillary courses that are listed below, as well as satisfying the university's General Education (GenEd) requirements. A grade of C or better must be earned in each of the required core and ancillary courses. Students must undergo and pass a background investigation prior to enrolling in CHEM 395 (Internship in Chemistry) for working in a crime lab, as mandated by all law enforcement labs as well as employment as a forensic chemist.

For further information, please contact one of the following: Frank Milio (Smith Hall 561, 410-704-3111, e-mail: fmilio@towson.edu) or Liina Ladon (Smith Hall 538, 410-704-3054, e-mail: lladon@towson.edu) or Timothy Dwyer (Smith Hall 514F, 410-704-3110, e-mail: tdwyer@towson.edu).

Core Courses (required of all majors in Forensic Chemistry)

| CHEM 110-111 | General Chemistry I, II (4, 4) |
|--------------|---|
| CHEM 210 | Introduction to Analytical Chemistry (4) |
| CHEM 301 | Professional Ethics for Scientists (3) |
| CHEM 310 | Instrumentation in Analytical Chemistry (3) |
| CHEM 323 | Inorganic Chemistry (4) |
| CHEM 331-332 | Organic Chemistry I, II (5, 5) |
| CHEM 345 | Principles of Physical Chemistry (3) |
| CHEM 351 | Biochemistry 1 (3) |
| CHEM 363 | Chemistry of Dangerous Drugs (3) |
| CHEM 367 | Forensic Chemistry (3) |
| CHEM 395 | Internship in Chemistry (2) |
| CHEM 480 | Chemical Toxicology (3) |
| | |

Ancillary Courses (required of all majors in Forensic

MATH 119 Pre-calculus (4) MATH 231 Basic Statistics (3)

MATH 211 Calculus for Applications (3)

MATH 273 Calculus I (4)

PHYS 211-212 General Physics I, II (non-calculus-based) (4, 4)

PHYS 241-242 General Physics I, II (calculus-based) (4, 4)

The following required ancillary courses may be taken at the University of Baltimore campus at no additional tuition cost as part of the student's regular TU schedule through the Inter-Institutional Program offered with other institutions in the state. These courses are not offered on a regular basis. Students should contact the University of Baltimore to determine the semester and times they are going to be offered in advance of planning to take them.

FRSC 400 Laboratory Safety and Quality Assurance (4)

ENVIRONMENTAL CHEMISTRY TRACK IN ENVIRONMENTAL SCIENCE AND STUDIES PROGRAM

Students may pursue the Environmental Chemistry Track of the Environmental Science and Studies Program that is described in a later section in the College of Science and Mathematics.

CHEMISTRY SECONDARY EDUCATION PROGRAM

Students in the Secondary Education Program should choose the Chemistry Major General Track as described in this section of the catalog. In addition to the required courses, students should choose from the following courses from the list of electives: CHEM 401 Seminar in Chemistry, and either CHEM 351 Biochemistry 1 or CHEM 323 Inorganic Chemistry (whichever one was not taken to meet the degree core requirements). The department recommends that students also choose from the list of electives an advanced chemistry laboratory course, CHEM 391 Special Problems in Chemistry or CHEM 491 Introduction to Research in Chemistry.

Students in the Secondary Education Program receive certification to teach in Maryland upon graduation. Chemistry majors seeking certification must complete BIOL 110 or BIOL 201 and GEOL 121 or ASTR 161. These students must also complete a total of 16 units in biology, physics, and earth/space science. The physics requirement for the core Chemistry major [PHYS 211-212 (recommended) or PHYS 241-242] fulfills 8 units of this requirement. Students must also meet the university General Education (GenEd) requirements and other courses required by the Department of Secondary Education as listed in this catalog under the College of Education.

Students must register with the Department of Secondary Education and should have an adviser in that department in addition to their Chemistry faculty adviser.

PREREQUISITE COURSE GRADES

The Department of Chemistry recommends that students achieve a grade of C or higher in all prerequisite courses listed for chemistry courses. A grade of C or higher must be obtained in each course required for the Chemistry major.

DUAL DEGREE MEDICINAL CHEMISTRY PROGRAM WITH UNIVERSITY OF MARYLAND SCHOOL OF **PHARMACY**

Refer to the College of Science and Mathematics Dual Degree Programs section in this catalog.

MINOR IN CHEMISTRY

Students whose major interest is in cell or molecular biology, physiology, physiological psychology, environmental studies, natural science or molecular physics, will find a good chemistry background to be a useful supplement to their major. The Chemistry minor provides this background and offers some flexibility in catering to the specific interest of students. Students should consult the Chemistry minor adviser as soon as possible after entering Towson to design programs to meet their needs.

The minor in Chemistry requires a minimum of 24 units in chemistry, 12 of which must be upper-division. At least 8 upperdivision units must be taken at Towson. A grade of C or higher must be earned in each course. Courses taken elsewhere and accepted for transfer to Towson University may be used for the Chemistry minor.

Required Courses (24 units)

CHEM 110 General Chemistry I (4) CHEM 111 General Chemistry II (4)

CHEM 210 Introduction to Analytical Chemistry (4) CHEM 330* Essentials of Organic Chemistry (5)

*CHEM 331 and CHEM 332 can be taken in place of CHEM 330

Upper-Division Chemistry Electives

In addition to the required courses, one or more upper-division chemistry courses may have to be taken for a total of 12 upper-division units.

TRANSFER CREDIT POLICY

Students who transfer to Towson University from a regionally accredited two-year college with an A.A. degree should have completed two terms of general chemistry, two terms of organic chemistry, two terms of calculus, and two terms of calculus-based physics. Students who transfer from a two-year college without an A.A. degree should complete as many of the above-mentioned chemistry, physics and mathematics courses as possible. Transfer students should consult the Department of Chemistry concerning the transferability of chemistry courses and this catalog for university transfer policies.

Transfer students must complete at least 12 upper-division units in chemistry at Towson to graduate with a degree in Chemistry.

ADVANCED PLACEMENT AND CREDIT FOR PRIOR LEARNING

The Department of Chemistry awards credit for General Chemistry through the Advanced Placement Examinations given by the Educational Testing Service.

Students may also receive credit for General Chemistry by taking the Credit for Prior Learning Examination, which is administered through the Office for Non-Traditional Undergraduate Programs. Students may also receive credit for other chemistry courses by passing the appropriate examinations. Further information may be obtained from the department.

ADVANCED COMPOSITION COURSE

The Department of Chemistry offers CHEM 301 Professional Ethics for Scientists, which is a course that deals with professional ethics in the physical sciences and fulfills the General Education requirements for the advanced composition course.

Department of Computer and Information Sciences 205

GENERAL EDUCATION COURSES

Category I.D. Advanced Composition CHEM 301 Professional Ethics for Scientists Category II.A.1 Scientific Inquiry **CHEM 100** Chemistry and Current Topics

Introduction to Environmental Chemistry **CHEM 104**

CHEM 110-111* General Chemistry I, II

CHEM 105-106* Chemistry for Allied Health Professions I, II

CHEM 112 Honors Chemistry for Non-scientists

CHEM 115 Honors Chemistry for Allied Health Professionals I

Category II.A.2 Science, Technology and Society **IDNM 305** Ethics, Science and Society

IDNM 309 Women, Society and Radiation Science

*These two-term lecture-laboratory sequences meet the General Education requirements for both Categories II.A.1 and II.A.2.

RESEARCH IN CHEMISTRY

Students interested in participating in research may enroll in CHEM 491 and should consult the undergraduate research coordinator, who will assist them in finding a research project of interest. Students must complete CHEM 491 before their final term at Towson University. In addition, undergraduate research participation grants are awarded by the university on a competitive basis to provide support for student research. The department offers competitive summer research stipends.

INTERNSHIPS

Chemistry majors are encouraged to participate in the internship program and receive academic credit for practical work experience in areas of special student interest. Academic credit can be acquired by taking CHEM 395 Internship in Chemistry. For further information, contact the Career Center, 410-704-2233, or the Department of Chemistry internship coordinator.

DEPARTMENTAL ACTIVITIES AND AWARDS

Many Chemistry majors actively participate in the Student Affiliates of the American Chemical Society (ACS), a student group supported by the department under the auspices of the ACS. This organization permits students to join the national organization and to obtain certain chemistry publications and services at reduced rates.

Student awards are given annually for outstanding work in chemistry courses. These include the CRC Press Freshman Chemistry Achievement Award, Merck Index Achievement Award in Organic Chemistry, ACS Achievement in Organic Chemistry Award (joint Polymer-Education Committee), Analytical Division (ACS) Award in Analytical Chemistry, Coblentz Society Award in Spectroscopy, Floyd A. Blankenship Award in Physical Chemistry, American Institute of Chemists Outstanding Senior Award, and the ACS Outstanding Student Award.

Department of Computer and Information Sciences

Professors: Ali Behforooz, James Clements, Darush Davani, John Grant, Ramesh Karne. Joyce Little, Chao Lu (Chair), Raieshwar Srivastava, Harry Zhou

Associate Professors: Shiva Azadegan, Charles Dierbach, Yanggon Kim, Jonathan Lazar, Alexander Wijesinha, Marius Zimand Assistant Professors: Robert Hammell II, Sungchul Hong,

Michael Lavine, Charles Schmitt, Yeong-Tae Song, Goran Trajkovski, Yuanqiong Wang

Visiting Assistant Professors: Scott Hilberg, Gabriele Meiselwitz Lecturers: Alfreda Dudlev-Sponaugle, Willard Graves, Mary Hackley, Dennis Hamilton, Chervl Schroeder-Thomas, Blair Taylor, Iliana Zimand

7800 York Road, Room 406, 410-704-2633

PROGRAMS OF THE DEPARTMENT

COMPUTER SCIENCE

The Department of Computer and Information Sciences offers several programs of study leading to baccalaureate and Master of Science degrees. The undergraduate programs in computer science include: a major in Computer Science, a major in Computer Science with a track in Computer Security, a major in Computer Science with a second major in Mathematics and a minor in Computer Science.

The major in Computer Science and the major in Computer Science with a second major in Mathematics are accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, 410-347-7700.

COMPUTER INFORMATION SYSTEMS

The undergraduate programs in computer information systems include: a major in Computer Information Systems, a major in Computer Information Systems with a second major in Business Administration, a major in Computer Information Systems with a second major in Electronic Business, a major in Technical/ Professional Studies in Information Technology in conjunction with the Community College of Baltimore County, and a minor in Computer Information Systems.

Students in any of the department's undergraduate programs are prepared with a broad foundation in the principles and concepts of computing, including problem solving, computer organization and architecture, data and file structures, and data database design and management. Elective courses may be selected from a variety of topic areas, including human computer interaction, information systems security, artificial intelligence, decision support systems and software engineering.

Degree requirements may be fulfilled by matriculated students attending classes either full-time or part-time. Students attending part-time in the evening are advised that not all required courses are available in the evening every term. CIS/COSC course cycle information is available in the department.

The department has 31 full-time faculty members and a number of part-time faculty. Research specialties include artificial intelligence, database languages, decision support systems, networks, numerical and linear analysis, operating systems, robotics, simulation, software engineering, and systems analysis and design.

Majors work with an assortment of computing machinery in a variety of computing laboratories to achieve their educational goals. Instructional facilities planned and provided by the department include an Undergraduate Majors Open Lab, a Graduate Open

Lab, three general classroom labs, an NSF-funded Collaborative Learning Lab, a Hardware/Real-Time Processing Lab, a Parallel Computing Lab, and a Faculty/Graduate Research Lab.

The computing needs of Computer and Information Science majors are also met by the facilities and services provided by the university's Office of Technology Services.

Students electing one of the majors should contact the Department of Computer and Information Sciences and be assigned a faculty adviser to assist them in planning their academic schedules, identifying educational goals and maintaining good academic progress.

MAJOR IN COMPUTER SCIENCE

CAC/ABET Accredited

The Computer Science major requires 74-76 units to be earned with a grade equivalent of 2.00 or higher. A minimum of 30 major units must be taken at Towson University. Students cannot major in Computer Science and Computer Information Systems.

Required COSC Courses (29 units)

| COSC 236 | Introduction to Computer Science I (4) |
|----------|--|
| COSC 237 | Introduction to Computer Science II (4) |
| COSC 280 | Assembly Language and Computer Architecture (3) |

COSC 480 Senior Seminar (1) (COSC 418 may be selected as a substitute for COSC 480.)

Software Project Management (3)

Required CIS Project Course (3 units)

| tudents must | select one of the following: |
|--------------|--|
| CIS 435 | Human-Computer Interaction (3) |
| | or |
| CIS 440 | Systems Development for E-commerce (3) |
| | or |
| CIS 475 | Analysis/Design for Web Sites (3) |

Required MATH Courses (9-11 units)

| MATH 211 | Calculus for Applications (3) |
|----------|---|
| | or |
| MATH 273 | Calculus I (4) |
| MATH 231 | Basic Statistics I (3) |
| | or |
| MATH 330 | Introduction to Statistical Methods (4) |
| MATH 263 | Discrete Mathematics (3) |

Additional CIS/COSC Courses (9 units)

Two courses must be upper-level; cannot count CIS Project course as both Project Course and a COSC/CIS elective

| CIS 212 | Introduction to Business Programming (3) |
|-------------------|--|
| COSC 265 | Advanced Visual Basic (3) |
| CIS 377 | Information Systems Security (3) |
| CIS 397 | Internship in CIS (3) |
| COSC 412 | Software Engineering (3) |
| CIS 425 | Decision Support Systems (3) |
| CIS 433 | Selected Topics in Information Systems (3) |
| CIS 435 | Human-Computer Interaction (3) |
| CIS 440 | Systems Development for E-Commerce (3) |
| COSC 459 | Computer Simulation and Modeling (3) |
| COSC 461 | Artificial Intelligence (3) |
| COSC 471 | Computer Graphics (3) |
| CIS 475 | Analysis/Design for Web Sites (3)* |
| COSC 484 | Web-Based Programming (3)* |
| CIS 495 | Independent Study in CIS (3) |
| *cannot apply bor | th CIS 475 and COSC 484 toward major |

Courses from the College of Business and Economics (12 units)

| COULTS TI OIII | the conege of Musiness and Beo |
|----------------|--------------------------------|
| ACCT 201 | Accounting Principles I (3) |
| ACCT 202 | Accounting Principles II (3) |
| | or |
| ECON 201 | Microeconomics Principles (3) |
| ECON 202 | Macroeconomics Principles (3) |
| | and |

Two additional upper-level courses from the College of Business and Economics (upper-level writing courses ECON 323, 325, 333 cannot be used in this category)

*COSC 111 Information and Technology for Business, is strongly recommended for GenEd Category I.B.

DOUBLE MAJOR IN COMPUTER INFORMATION SYSTEMS AND BUSINESS ADMINISTRATION

The Computer Information Systems major with a second major in Business Administration requires 89 units to be earned with a grade equivalent of 2.00 or higher. A minimum of 30 major units must be taken at Towson University.

| Lower-Level Prerequisite Courses (18 units) | | |
|---|---|--|
| ACCT 201/211 | Accounting Principles I (3) | |
| ACCT 202/212 | Accounting Principles II (3) | |

MAJOR IN INFORMATION TECHNOLOGY

Admission Requirements

The Bachelor's of Technical/Professional Studies (B.T.P.S.) in Information Technology is an articulated 2+2 program for students who have completed an A.A.S. or A.S. degree as below. Applicants must meet the general requirements for undergraduate study outlined in the catalogs of the Community College of Baltimore County, Essex, and Towson University. To enter the Towson University program, students must have earned an A.A.S. or A.S. degree from one of the following approved programs: Computer Information Systems/General Information Technology Degree Option; Computer Information Systems/Programming Degree Option; Computer Information Systems/Database Degree Option; Computer Science; Engineering or Internet Technology. The maximum number of transferable units from CCBC is 64.

Program Requirements

The Bachelor's of Technical/Professional Studies in Information Technology requires the completion of a minimum of 120 units. This program requires 51-52 units in the major completed at Towson University with a grade equivalent of 2.00 or higher. A minimum of 30 major units must be taken at Towson University. Lower-division courses from CCBC will be applied, as appropriate. A minimum of 32 units must be in upper-division courses at Towson University. The details of the specific program requirements are outlined below. Students must receive a minimum grade equivalent of 2.00 in all major courses.

Department of Computer and Information Sciences 2

209

General Education Requirements (44-46 units)

Six units in writing/composition, including an advanced composition course to be taken at Towson University.

- 3 units in speech communication
- 3-4 units in mathematics (may be fulfilled by one of the required MATH courses listed below)
- 3 units in information technology (COSC 111 or equivalent)
- 6 units in social and behavioral sciences
- 6 units in arts and humanities
- 8 units in biological and physical sciences (two 4-unit lab science courses)
- 9 units in global and diversity studies

Required MATH Courses (6-7 units)

| MATH 231 MATH 211 | Basic Statistics I (3) Calculus for Applications (3) |
|----------------------|--|
| MATH 273 | or Calculus I (4) |

Required CIS and COSC Courses (27 units)

| CIS 211 | Fundamentals of Information Systems and Technology (|
|----------|--|
| COSC 236 | Introduction to Computer Science I (4) |
| COSC 237 | Introduction to Computer Science II (4) |
| CIS 239 | Computer Systems Architecture (3) |
| CIS 334 | Data Organization (3) |
| | or |
| CIS 335 | Advanced Business Programming (3) |
| COSC 350 | Data Communications and Networking (3) |
| CIS 379 | Systems Analysis and Design (3) |
| CIS 397 | Internship in CIS (3) |
| COSC 480 | Senior Seminar (1) |
| | |

Elective Courses

Students are required to complete 9 units of upper-division electives in COSC and CIS courses and 9 units of upper-division electives in business courses. In choosing elective courses, students, in consultation with their advisers, should develop a coherent course of study. Students may receive approval from their advisers to complete electives not listed here.

COSC and CIS Electives (9 units)

| S Electives (> umts) |
|---|
| Software Engineering (3) |
| Decision Support Systems (3) |
| Selected Topics in Information Systems (3) |
| Human-Computer Interaction (3) |
| Systems Development for Electronic Commerce (3) |
| Organizational Database Management (3) |
| Computer Simulation and Modeling (3) |
| Artificial Intelligence (3) |
| Computer Graphics (3) |
| Analysis and Design for Web Sites (3) * |
| Software Project Management (3) |
| Web-Based Programming (3) * |
| Independent Study (3) |
| both CIS 475 and COSC 484 toward major |
| |

Business Electives (9 units)

Students may concentrate their electives around a common theme in one or two clusters or seek a broader curriculum by taking courses in all three clusters. Other electives not listed below may be taken with the permission of the adviser.

Financial Planning Cluster

| i manciai i ia | ining Cluster |
|----------------|--|
| FPLN 341 | Fundamentals of Financial Planning (3) |
| FPLN: 343 | Insurance and Rick Management (3) |

Management Cluster

| MNGT 337 | Information Technology (3) |
|-----------------|---|
| MNGT 361 | Principles of Management (3) |
| MNGT 365 | Principles of Operations Management (3) |

Marketing Cluster

| MKTG 341 | Principles of Marketing (3) |
|-----------|--|
| MKTG 345 | Advertising Management (3) |
| MKTG 441 | Marketing Research and Forecasting (3) |
| MKTG 445 | International Marketing (3) |
| ancio 113 | |
| | (with permission of the department) |

MINOR IN COMPUTER SCIENCE

This minor is available to students who have a major other than Computer Science, Computer Information Systems or Applied Mathematics and Computing Concentration. All Computer Science minors are required to take 21 units in Computer Science to be completed with a grade equivalent of 2.00 or higher. At least half must be taken at Towson University. Students cannot major in Computer Information Systems and minor in Computer Science.

| | manon of stems and minor in Complete |
|----------|--|
| COSC 236 | Introduction to Computer Science I (4) |
| COSC 237 | Introduction to Computer Science II (4) |
| COSC 336 | Data Structures and Algorithm Analysis (4) |

Elective COSC Courses (9 units)

| At least three c | ourses from the following: | |
|------------------|----------------------------|--------------------|
| COSC 350 | Data Communications | and Networking (3) |

| COSC 330 | Data Communications and Networking (5) |
|----------|---|
| COSC 412 | Software Engineering (3) |
| COSC 431 | Selected Topics in Computer Science (3) |
| COSC 436 | Object-Oriented Design and Programming (3) |
| COSC 439 | Operating Systems (3) |
| COSC 440 | Operating Systems Security (3) |
| COSC 441 | Computer Performance Evaluation (3) |
| COSC 450 | Network Security (3) |
| COSC 455 | Program Languages: Design and Implementation (3 |
| COSC 457 | Database Management Systems (3) |
| COSC 458 | Application Software Security (3) |
| COSC 459 | Computer Simulation and Modeling (3) |
| COSC 461 | Artificial Intelligence (3) |
| COSC 471 | Computer Graphics (3) |
| COSC 483 | Design and Analysis of Algorithms (3) |
| COSC 484 | Web-Based Programming (3) |
| COSC 495 | Independent Study in Computer Science (3) |
| | |

^{*} The 9 units of elective courses must be upper-division courses and may include one approved computer-related course from outside the department. COSC 109, 111, 115, 119, 165, 175, 211, 212, 265 or 335 cannot count as electives.

MINOR IN COMPUTER INFORMATION SYSTEMS

All Computer Information Systems minors are required to take 20 units in computer science and computer information systems to be completed with a grade equivalent of 2.00 or higher. At least half must be taken at Towson University. Students cannot major in Computer Science and minor in Computer Information Systems.

Required CIS/COSC Courses (11 units)

| ČIS 211 | Fundmentals of Information Systems and Technology (3) |
|----------|---|
| COSC 236 | Introduction to Computer Science I (4) |
| COSC 237 | Introduction to Computer Science II (4) |

Elective CIS/COSC Courses (9 units)

COSC 471

| Elective ClarCoac Courses (9 units) | |
|--|---|
| At least three courses from the following: | |
| CIS 334 | Data Organization (3) |
| | or |
| CIS 335 | Advanced Business Programming (3) |
| COSC 350 | Data Communications and Networking (3) |
| CIS 377 | Information Systems Security(3) |
| CIS 379 | Systems Analysis and Design (3) |
| CIS 397 | Internship (3) |
| COSC 412 | Software Engineering (3) |
| CIS 425 | Decision Support Systems (3) |
| CIS 433 | Special Topics in Information Systems (1-3) |
| CIS 435 | Human-Computer Interaction (3) |
| CIS 440 | Systems Development for E-Commerce (3) |
| CIS 458 | Organizational Database Management (3) |
| COSC 461 | Artificial Intelligence (3) |

Computer Graphics (3)

CIS 475 Analysis/Design for Web Sites (3)
CIS 479 Software Project Management (3)
COSC 484 Web-Based Programming (3)
CIS 495 Independent Study in CIS (3)

One course from outside CIS/COSC may be used if it is first approved by the Department of Computer and Information Sciences.

* Cannot apply both CIS 475 and COSC 484 toward minor.

MEETING GENERAL EDUCATION REQUIREMENTS

Since fall 1996, all students entering the university have been required to meet the General Education (GenEd) requirements described elsewhere in this catalog. Computer Science and Computer Information Systems majors in particular should note the following computer science courses which may be used to satisfy GenEd requirements in various categories. The categories are indicated in parentheses.

COSC 109 Computers and Creativity (I.E)

COSC 111 Information and Technology for Business (J.B)
COSC 119 Using Information Effectively in the Computing

Sciences (I.B)

COSC 311 Digital Technologies in Society (II.A.2) COSC 321 Computerization and Its Impacts (II.A.2)

COSC 418 Ethical and Societal Concerns of Computer Science (II.A.2)

(may be selected as a substitute for COSC 480)

TRANSFER CREDIT POLICY

Students intending to transfer into the Computer Science or Computer Information Systems program should provide course descriptions and supportive materials from their institution for review by a departmental adviser. Community college students from local public institutions should be aware that agreements on equivalency of courses are maintained; they should inquire about the current agreement either at their institution or at Towson University. They should also be aware that community college courses can only be counted as lower-division work. Transfer students are urged to gain a good background in mathematics.

SECOND BACHELOR'S PROGRAM

Baccalaureate degree holders may apply for enrollment in the Second Bachelor's Program through the Office for Non-Traditional Undergraduate Programs. Because of the high demand for computer personnel, the Computer Science or Computer Information Systems major is often of interest to persons who wish to change careers. Students in this program must satisfy the requirements for the major and earn at least the last 30 units in the CIS/COSC major at Towson University. Although there are computer science or computer information systems courses offered in the evening, students may find that some required courses must be taken during the day. Because of the sequence of prerequisites, a minimum of five terms is normally needed to complete the program.

DEPARTMENTAL ACTIVITIES

A student chapter of the Association for Computing Machinery (ACM) is the basis for the Computer Technology Club. Meetings are held during the term, with field trips and speakers featured. To recognize outstanding talent in the field of computer science, Towson University has a charter chapter of Upsilon Pi Epsilon (UPE), the first and only international honor society for the computing and information disciplines. Members of UPE are outstanding undergraduate and graduate students in Computer Science or Computer Information Systems.

DEPARTMENTAL AWARDS

The Mary Hudson Scarborough Award in Computer Science is given annually to the outstanding Computer Science graduate.

Scholarships

The COSC/NECC Scholarship Fund is awarded annually to two seniors majoring in COSC or CIS with a 3.50 overall GPA and with significant contribution to the Computer Technology Club or Upsilon Pi Epsilon (UPE) required.

The department also offers the Upsilon Pi Epsilon (UPE) Award for Excellence in CIS/COSC/AIT to two UPE members. One is awarded to the Outstanding Undergraduate CIS/COSC/UPE member with a 3.14+ GPA in the major and 3.00+ GPA overall; and one for the Outstanding Graduate CIS/COSC/AIT UPE member with a 3.50+ GPA in the major and 3.00+ GPA overall.

Environmental Science and Studies Program

Director: Jane L. Wolfson

Affiliated Faculty, Environmental Science: Rachel Burks (Physics, Astronomy and Geosciences), Ryan Casey (Chemistry), Nordulf Debye (Chemistry), Brian Fath (Biological Sciences), Jonathan Filer (Physics, Astronomy and Geosciences), Donald Forester (Biological Sciences), Susan Gresens (Biological Sciences), Sarah Haines (Biological Sciences), James Hull (Biological Sciences), Scott Johnson (Biological Sciences), David Larkin (Chemistry), Steven Lev (Physics, Astronomy and Geosciences), Jay Nelson (Biological Sciences), Roland Roberts (Biological Sciences), Gerald Robinson (Biological Sciences), Lev Ryzhkov (Chemistry), Aubrey Scarbrough (Biological Sciences), Erik Scully (Biological Sciences), Richard Seigel (Biological Sciences), Colleen Sinclair (Biological Sciences), Joel Snodgrass (Biological Sciences), Joseph Topping (Chemistry), David Vanko (Physics, Astronomy and Geosciences), Jane Wolfson (Biological Sciences)

Affiliated Faculty, Environmental Studies: Daniel Agley (Health Science), Kent Barnes (Geography and Environmental Planning) Lillian Carter (Health Science), James Dorn (Economics), Kenneth Haddock (Geography and Environmental Planning), Chang Kong (Economics), Toni Marzotto (Political Science), Jeffrey Michael (Economics), John Morgan (Geography and Environmental Planning), Dennis Muniak (Political Science), Harvey Paul (Economics), Paul Pojman (Philosophy and Religious Studies), Thomas Rhoads (Economics), Martin Roberge (Geography and Environmental Planning), Stephen Scales (Philosophy and Religious Studies), Ralph Scott (Geography and Environmental Planning),

Timothy Sullivan (Economics)

Smith Hall 348, 410-704-4920 Fax: 410-704-2604 www.towson.edu/ess

THE PROGRAM

The Environmental Science and Studies Program has two primary educational objectives. One is to provide the fundamental scientific, technical and social knowledge that program graduates will need to assess, plan and evaluate environmental concerns, particularly those confronting metropolitan regions. The second is to instill the wide range of cognitive skills and content mastery that students will need to effectively analyze environmental issues and propose realistic plans for solving environmental problems at local, regional and national levels.

The core requirements of the program are structured to meet these two objectives and include mathematical and scientific foundations as well as extensive interdisciplinary study related to environmental issues. The required senior seminar integrates the student's program of study, and the internship/research requirement gives first-hand practice in an environmental field. The environmental problems addressed in many classes and seminars will focus on the adjacent urban/suburban region and its impact on the surrounding environment.

Most environmental problems resist solutions from any single discipline. To counter this dilemma, the program utilizes a rigorous interdisciplinary approach. The curriculum draws upon the expertise of faculty in the areas of biology, chemistry, geology, mathematics, environmental ethics and values, public policy, economics, geography, public health and social change.

MAJOR IN ENVIRONMENTAL SCIENCE AND STUDIES

Students majoring in Environmental Science and Studies have a choice of two concentrations: Environmental Studies or Environmental Science. There is considerable overlap in the core courses between the two concentrations. As students progress through the program, they begin to specialize in their area of greatest interest. The senior year brings students from both concentrations together for a capstone course that emphasizes application of concepts to real-world problems. The Environmental Science Concentration is described below. For information on the Environmental Studies Concentration, see the College of Liberal Arts.

ENVIRONMENTAL SCIENCE CONCENTRATION

The Environmental Science Concentration has a core of required courses. Students then choose a track that provides advanced study in one of three different fields: biology, chemistry or geology, or for students who chose not to specialize, a more general Environmental Science Track is also available. Each track has its own required courses and electives. The Environmental Science Tracks require a total of 72-77 units. Up to 23 units of this required course work can also fulfill GenEd requirements.

All students in the program will complete a common core of course work establishing the scientific principles and mathematical skills needed as a foundation for more specialized study. They also will complete a core of courses in social sciences, a capstone course, and an upper-level internship or research course.

Of the total units in program requirements, up to 23 may be used to fulfill GenEd requirements (identified by an asterisk following the course number), effectively reducing the number of units that apply solely to the Environmental Science and Studies major.

Common Core Requirements (46-48 units)

Natural Sciences (16 units)

CHEM 110* General Chemistry I (4) CHEM 111* General Chemistry II (4)

BIOL 202* Biology II: Introduction to Ecology, Evolution and

Behavior (4)

GEOL 121* Physical Geology (4)

Mathematics and Statistics (6-8 units)

One of the following:

MATH 119* Pre-Calculus (4)

MATH 211* Calculus for Applications (3)

One of the following:

MATH 231* Basic Statistics (3)

MATH 237* Elementary Biostatistics (4)

GEOG 375 Quantitative Methods in Geography (3)

ECON 205* Statistics for Business and Economics (3)

Social Sciences/Humanities (18 units)

ENGL 318* Advanced Informational Writing (3)

One of the following:

PHIL 255* Environmental Ethics (3)

HLTH 451 Ecological Aspects of Health (3)

Two two-course sequences: (6 units from two disciplines including an upper-level and a lower-level course in the same discipline)

GEOG 101* Physical Geography (3)

GEOG 410 Environmental Geography (3)

ECON 201* Microeconomic Principles (3)

ECON 375 Environmental Economics (3)

Environmental Economies (.

ECON 376 Natural Resource Economics (3)

POSC 103* American National Government (3)

or

POSC 207* State Government (3)

POSC 421 Politics and Environmental Policy (3)

*Courses may be used to fulfill General Education requirements.

MINOR IN ENVIRONMENTAL STUDIES

Students may minor in Environmental Studies by taking five core courses and fulfilling an additional 6- to 8-unit requirement for the minor (21 to 23 units total).

All students minoring in Environmental Studies take the following five core courses for a total of 15 units. Some of these courses have General Education prerequisites.

| ECON 375 | Environmental Economics (3) |
|-----------|---------------------------------------|
| | or |
| ECON 376 | Natural Resource Economics (3) |
| GEOG 410 | Environmental Geography (3) |
| HLTH 451 | Ecological Aspects of Health (3) |
| PHIL 255* | Environmental Ethics (3) |
| POSC 421 | Politics and Environmental Policy (3) |

Science majors who minor in Environmental Studies take two additional 3-unit elective courses listed in the Environmental Studies description under the College of Liberal Arts. Total unit requirement for the minor for science majors is 21 units.

Non-science majors who minor in Environmental Studies take 8 units in the environmental sciences. A one-year sequence in a science with lab (8 units) selected from the environmental sciences (BIOL 201-202, CHEM 110-111, GEOL 121 and GEOL 305) satisfies this requirement. Total unit requirement for the minor for non-science majors is 23 units.

^{*}Courses may be used to fulfill General Education requirements.

Department of Mathematics

Professors: Mostafa Aminzadeh, Raouf Boules (Chair), John Chollet, James Coughlin, Geoffrey Goodson, John Grant, Ohoe Kim, Richard Krach, Coy May, Lawrence Shirley, Martha Siegel, Houshang Sohrab, Leonid Stern, Jay Zimmerman

Associate Professors: Honi Bamberger, Gail Kaplan, Howard Kaplon, Michael O'Leary, G. Reza Sarhangi, Wei Sun, Maureen Yarnevich

Assistant Professors: Andrew Engel, T. Elizabeth Goode, Ge Han, Xuezhang Hou, Todd Moyer, William Rose, Felice Shore,

Lecturers: Jerome Cohen, Froma Lustman, Judith Macks, James Plutschak

Stephens Hall 302, 410-704-3091

Fax: 410-704-4149 E-mail: math@towson.edu www.towson.edu/math/

PROGRAMS OF THE DEPARTMENT

The mathematics curriculum provides opportunities for students to do abstract reasoning applicable to many scientific or academic areas, to survey the field of mathematics, to study the applications of the discipline, and to prepare for additional study or for a career.

The Department of Mathematics offers the following programs: the major in Mathematics, in which there are four concentrations; the minor in Mathematics, designed to enhance major programs to which mathematics is readily applied; the minor in Mathematics with the Elementary Education major, for prospective elementary teachers who may wish to teach mathematics at the middle school or junior high school level; and the second major programs offered in conjunction with the departments of Economics, and Computer and Information Sciences.

The Mathematics major has four areas of concentration from which to choose. The Mathematics Secondary Education Concentration is designed for students who wish to become certified to teach mathematics in secondary schools. The Pure Mathematics Concentration emphasizes abstract mathematics. For students interested in the actuarial profession, there is an Actuarial Science and Risk Management Concentration that provides the necessary background required for entry-level positions in that field. The Applied Mathematics Concentration is designed for students who wish to apply mathematics to problems in business and industry.

The Bachelor of Arts degree may be earned by adding the intermediate level of a foreign language or its equivalent to the major course requirements.

MAJOR IN MATHEMATICS

Mathematics majors may choose from the following areas of concentration: Pure Mathematics, Applied Mathematics, Actuarial Science and Risk Management, and Mathematics Secondary Education. Students must complete the General Education requirements in addition to the requirements for a concentration.

PURE MATHEMATICS CONCENTRATION

The Pure Mathematics Concentration requires 62 units completed with a grade equivalent of 2.00 or higher.

Required Courses (47 units)

MATHEMATICS SECONDARY EDUCATION CONCENTRATION

Mathematics majors in the Secondary Education Concentration are eligible, upon graduation, to apply for certification to teach mathematics at both the middle and high school levels in the state of Maryland. Students in this concentration should be prepared to do their student teaching in their senior year. Students who wish to deviate from this policy must obtain permission from the Department of Mathematics prior to the beginning of their junior year. Consult the Department of Secondary Education section in this catalog for additional course and professional requirements for the preservice Secondary Education Program.

In addition to the university's GenEd requirements, students in this concentration must complete 63-64 units, earning a grade equivalent of 2.00 or higher. However, a minimum cumulative GPA of 2.75 is required for student teaching.

Requirement for Student Teaching/Internship

All preservice students in Teacher Education programs at Towson University whose program of study requires an intensive/extensive internship or student teaching experience in a public or private school setting (pre-K through 12) are required to undergo a criminal background check before entering this experience. The criminal background check must be filed with the director of the Center for Professional Practice.

All teacher candidates are required to submit qualifying scores on the Praxis I Academic Skills Assessment to the Center for Professional Practice for admission to programs and student teaching. Information on the Praxis tests is available in the Center for Professional Practice, Hawkins Hall 302.

Required Courses (57 units)

Upper-Division Mathematics Elective (3 units)

One course from the following:

MATH 465 Theory of Numbers (3) MATH 467 Algebraic Structures (3)

Additional Elective (3-4 units)

One course from the following:

PHYS 242 General Physics II (4) **MATH 331** Probability (4) MATH 374 Differential Equations (3) **MATH 473** Introductory Real Analysis (4) **MATH 475** Complex Analysis (3)

Note: Successful completion of PHYS 241 and PHYS 242 will satisfy the II.A.2 General Education requirements.

SECOND MAJOR PROGRAMS

Students may declare a second major and obtain a degree certifying that both majors have been completed. The Department of Mathematics encourages majors to pursue a second major or a minor in subjects in which mathematics is applied. In cooperation with the departments of Economics, and Computer and Information Sciences, the following courses of study have been developed to enable students to obtain a second major in Economics or Computer Science.

DOUBLE MAJOR IN MATHEMATICS AND **ECONOMICS**

The Mathematics major with the second major in Economics requires 76-77 units completed with a grade equivalent of 2.00 or

Required Courses (54 units)

| MATH 473 | Introductory Real Analysis (4) |
| MATH 475 | Complex Analysis (3) |
| MATH 477 | Topology (3) |

Science Requirements (12-14 units)

A sequence of two lab science courses taken from physics, biology or chemistry, which must be accepted in that major. One additional (4-unit) course or two additional (3-unit) courses from physics, biology or chemistry, also accepted in that major (except PHYS 244, 303 and 337), with the requirement that 12 units of science courses be met.

GenEd Requirement

COMM 131 (completed with a grade equivalent of 2.00 or higher). This course can count for GenEd II.B.3.

MINOR IN MATHEMATICS

The minor in Mathematics requires 23-24 units completed with a grade equivalent of 2.00 or higher. The minor requires 11-12 units of specific courses plus at least 12 upper-division units in mathematics, excluding MATH 305, MATH 321, MATH 323, MATH 324, MATH 326 and MATH 423.

Required Courses (11-12 units)

| MATH 267 | Introduction to Abstract Mathematics (4) |
|----------|--|
| | or |
| MATH 263 | Discrete Mathematics (3) |
| MATH 273 | Calculus I (4) |
| MATH 274 | Calculus II (4) |

Upper-Division Mathematics Electives (12 units)

Students must select at least 12 units of upper-division electives in mathematics, excluding MATH 305, MATH 321, MATH 323, MATH 324, MATH 326 and MATH 423.

ELEMENTARY EDUCATION MAJOR WITH A MATHEMATICS MINOR

Elementary Education majors who complete a Mathematics minor will possess the necessary concepts and skills to effectively teach both elementary and middle school mathematics. Special field-based courses are available so that students will experience teaching mathematics (specifically at the middle school level) in addition to the other elementary school subjects. Students in this program should be advised by faculty members in both the departments of Elementary Education and Mathematics. Early Childhood Education majors who wish to minor in Mathematics should consult with faculty members in both the departments of Early Childhood Education and Mathematics for appropriate course work and counseling.

The minor in Mathematics for the Elementary Education major requires 25-26 units, with each course completed with a grade equivalent of 2.00 or higher. Students must also complete requirements for their major as specified by the Department of Elementary Education. The minor requires the six courses listed below, plus at least 3 additional units of upper-division electives in mathematics.

216

6 The College of Science and Mathematics

Required Courses (22 units)

| MATH 267 | Introduction to | Abstract | Mathematics (4 |) |
|----------|-----------------|----------|----------------|---|
|----------|-----------------|----------|----------------|---|

MATH 273 Calculus I (4)

MATH 274 Calculus II (4)

MATH 301 History of Mathematics (3)

MATH 330 Introduction to Statistical Methods (4)

MATH 353 Euclidean and Non-Euclidean Geometries (3)

Upper-Division Mathematics Elective (3-4 units)

One course from the following:

MATH 305 Chance (3)

MATH 315 Applied Combinatorics (3)

MATH 326 The Mathematics of Information Science (3)

MATH 331 Probability (4)

MATH 465 Theory of Numbers (3)

COURSE PREREQUISITES

The department strictly enforces prerequisites for all mathematics courses.

POLICY ON AP MATHEMATICS

If a student majoring in Elementary or Early Childhood Education has earned a score of three (3) or higher on the High School Advanced Placement Calculus Examination (either the AB or the BC examination), or has earned official college credit for calculus (with a grade of C or better), he/she will be exempted from enrolling in MATH 204.

If a student majoring in Elementary or Early Childhood Education has earned a score of three (3) or higher on the High School Advanced Placement Statistics Examination or has earned college credit for a college-level statistics course (with a grade of C or better), he or she will be exempted from enrolling in MATH 205.

The student must still account for the remaining units in mathematics courses as required by the College of Education.

For the general policy on Advanced Placement in Mathematics, see page 35.

TRANSFER CREDIT POLICIES

Only courses approved by the Department of Mathematics may be applied to a major or minor program offered by the department. If students submit mathematics units that are more than five years old at the time of admission or readmission, the chair, after reviewing these records, may require that some courses be repeated or that a new course be completed.

Secondary Education Mathematics majors are required to take MATH 423, MATH 426, MATH 428, and at least four additional upper-division courses in their Mathematics major program at Towson University.

All other Mathematics majors are required to take MATH 490 Senior Seminar in Mathematics and at least six additional upperdivision courses of their Mathematics major program at Towson University.

Mathematics minors must take at least four courses of their Mathematics minor program at Towson University; at least two courses must be at the upper-division level.

NOTES FOR MAJORS AND MINORS

Mathematics majors with minors in Economics may satisfy their Applications requirement by completing ECON 451.

Mathematics majors or minors who receive a grade equivalent of 1.00 in a 100-level course prerequisite to calculus must repeat the course no later than concurrently with calculus. Mathematics majors or minors must attain a grade equivalent of 2.00 or higher in any 200-, 300-, or 400-level course used as a prerequisite or applied toward a major or minor. Unless otherwise noted, prerequisites must be satisfied prior to taking a course. The program of the minor should be approved by students' department advisers.

GENERAL EDUCATION REQUIREMENTS IN MATHEMATICS

Students should consult those portions of this catalog describing their major and minor programs to see whether specific mathematics courses are required or recommended.

The I.C (College Mathematics) category of the General Education requirements may be satisfied by any of the mathematics courses listed below, except as noted. Students, however, should enroll in the mathematics course for which they have the necessary high school or collegiate background and which is most relevant to their program of study. Placement tests may be used to help select the appropriate course. See the Academic Achievement Center section in Academic Resources.

MATH 105 and MATH 106 are intended as terminal mathematics courses and satisfy the GenEd I.C requirement.

MATH 111 is designed specifically for students majoring in Business, Economics, Psychology or the Social Sciences, and satisfies the GenEd I.C requirement.

MATH 115 and MATH 119 are designed specifically for students majoring in Mathematics, Computer Science, and the Physical or Biological Sciences, and either one satisfies the GenEd I.C requirement.

MATH 251 and the sequences of MATH 204-205 and MATH 206-207 are designed specifically for students majoring in Elementary or Early Childhood Education. Only the second course of each sequence (MATH 205 and MATH 207) satisfies the GenEd I.C requirement.

MATH 211, MATH 231, MATH 233, MATH 237, MATH 263, MATH 273, MATH 274, MATH 275, MATH 283 and MATH 284 are intended for students with additional previous preparation in mathematics. Each one satisfies the GenEd I.C requirement.

MATH 293 is an honors course in mathematics. It satisfies the GenEd I.C requirement.

The II.A.2 category (Science, Technology and Society) of the GenEd requirements may be satisfied by MATH 305.

MATHEMATICS COURSE NUMBERS

A note on the numbering system: the left digit of the course number indicates the level of the content. The middle digit of the course number indicates the area of the content: 0-general; 1-service; 2-mathematics education; 3-probability, statistics and numerical analysis; 5-geometry; 6-algebra; 7-analysis; 9-readings, special topics, and seminars in mathematics.

Molecular Biology, Biochemistry and Bioinformatics Program

Director: James A. Saunders (Biological Sciences/Chennstry) Affiliated Faculty: Carol Berkower (Biological Sciences), Tim Dwyer (Chemistry), Gail Gasparich (Biological Sciences), Elizabeth Goode (Mathematics), Sunchul Hong (Computer Information Sciences), L. Scott Johnson (Biological Sciences), David Larkin (Chemistry), Barry Margulies (Biological Sciences), Brian Masters (Biological Sciences), William Mechling (Biological Sciences), Richard Preisler (Chemistry), J. David Rawn (Chemistry), Roland Roberts (Biological Sciences), Lev Ryzhkov (Chemistry), Charles Schmitt (Computer and Information Sciences), Erik Scully (Biological Sciences), Colleen Sinclair (Biological Sciences), Joseph Topping (Chemistry), Goran Trajkovski (Computer and Information Sciences), Joy Watts (Biological Sciences), Larry Wimmers (Biological Sciences), Alan Wingrove (Chemistry) Administrative Assistant: Kristan Edwards

OFFICE

Smith Hall 360, 410-704-3491 www.towson.edu/mb3

THE PROGRAM

The goal of the Molecular Biology, Biochemistry and Bioinformatics Program is two-fold: to train students in the specific disciplines of molecular biology, biochemistry and bioinformatics, and to engage them in the process of scientific inquiry so that they will have the ability to grow with their chosen discipline throughout their scientific careers. The Molecular Biology, Biochemistry and Bioinformatics major provides undergraduate preparation for students interested in biochemistry, bioinformatics, biophysics, biotechnology, cell biology, genetics, immunology, microbiology or molecular biology. The curriculum is also excellent for students interested in medical or dental school.

Students complete a curriculum that includes lecture and stateof-the-art laboratory courses, as well as an independent research project that emphasizes the practical application of discipline-based knowledge. Because of the emphasis placed on providing a practical understanding of the fundamental nature of the scientific disciptine, students are assigned a faculty mentor who engages them in the process of scientific research from the outset of their undergraduate careers.

The major consists of three tracks: Molecular Biology, Biochemistry and Bioinformatics. The Molecular Biology Track examines the molecular basis of life, using molecular approaches to understand the processes of living systems, with applications in all areas of biology. The Biochemistry Track also examines the molecules of living systems, with emphasis on the chemical structure and reactivity that shape biological function. The Bioinformatics Track combines the study of the molecular basis of life with the study of computer science. All three tracks are interdisciplinary in their approach. Students choose a track after completing many of the core courses common to all three tracks.

MAJOR IN MOLECULAR BIOLOGY, BIOCHEMISTRY AND BIOINFORMATICS

All students are required to complete 31 units of core courses in the departments of Biological Sciences, Chemistry, and Computer and Information Sciences, and an additional 35-41 units within one of the three tracks.

| Common Core | Requirements (31 units) |
|---|---|
| CHEM 110-111 | General Chemistry I, II (8) |
| BIOL 201 | Cellular Biology and Genetics (4) |
| MBBB 301 | Introduction to Bioinformatics (4) |
| | |
| CHEM 351 | Biochemistry I (3) |
| BIOL 309 | Genetics (4) |
| BIOL 409 | Molecular Biology (3) |
| MBBB 493 | Seminar in Bioethics (1) |
| BIOL 485 | Seminar in Applied Biotechnology (1) |
| BIOL 491 | Independent Research in Biology (3) |
| | or |
| CHEM 491 | Introduction to Research in Chemistry (3) |
| | or |
| COSC 495 | Independent Study in Computer Science (3) |
| CO3C 173 | macpendent study in Computer science (5) |
| MOLECHIAR | BIOLOGY TRACK (35-39 units) |
| BIOL 202 | Evolution and Ecology (4) |
| PHYS 211-212 | |
| PH 15 211-212 | General Physics I, II (8) |
| | or |
| PHYS 203 | Topics in Physics for Biology Majors *(5) |
| CHEM 210 | Principles and Methods of Chemical Analysis (4) |
| CHEM 331-332 | Organic Chemistry I, II (10) |
| BIOL 408 | Cell Biology (4) |
| BIOL 410 | Molecular Biology Laboratory (2) |
| | or |
| BIOL 312 | Genetics Laboratory (2) |
| Plus 3 units of bio | ology electives |
| One of the follow | ing; |
| MATH 211 | Calculus for Applications (3) |
| MATH 237 | Elementary Biostatistics (4) |
| MATH 273 | Calculus *(4) |
| MIIII 273 | Calculus (1) |
| RIOCHEMIST | RY TRACK (39 units) |
| PHYS 211-212 | General Physics I, II (8) |
| 11113 211-212 | • |
| DLIVE 241 212 | or |
| PHYS 241-242 | General Physics I, II (8) |
| CHEM 210 | Principles and Methods of Chemical Analysis (4) |
| CHEM 331-332 | Organic Chemistry I, II (10) |
| CHEM 345 | Principles of Physical Chemistry (3) |
| CHEM 356 | Biochemistry Laboratory (2) |
| CHEM 357 | Biochemistry II (3) |
| CHEM 372 | Intermediate Laboratory I (1) |
| MATH 273-27 | Calculus 1, II (8) |
| 111111111111111111111111111111111111111 | Carculus I, II (0) |

BIOINFORMATICS TRACK (37-42 units)

| DIGINFORMATICS FRACE (57-42 units) | | |
|------------------------------------|--|--|
| COSC 236-237 | Introduction to Computer Science I, II (7) | |
| MATH 263 | Discrete Mathematics (3) | |
| MATH 273-274 | Calculus I, II (8) | |
| MATH 330 | Introduction to Statistical Methods (4) | |
| CHEM 331-332 | Organic Chemistry I, II (10) | |
| | or | |
| CHEM 330 | Essentials of Organic Chemistry * (5) | |
| COSC 336 | Data Structures and Algorithm Analysis (4) | |
| CIS 458 | Database Management Systems (3) | |
| MBBB 401 | Advanced Bioinformatics (3) | |

*Note: Many graduate and professional programs require two terms of physics, two terms of organic chemistry and/or calculus. Students who are contemplating education heyond the undergraduate level (graduate school, medical school, etc.) need to talk with an adviser.

MINOR IN MOLECULAR BIOLOGY, BIOCHEMISTRY AND BIOINFORMATICS

To fulfill the requirements for a Molecular Biology, Biochemistry and Bioinformatics minor students must complete the following course work with a 2.00 or higher. A minimum of 15 units applied toward the minor must be earned at Towson University.

Molecular Biology, Biochemistry and Bioinformatics Requirements (27-28 units)

CHEM 110 General Chemistry I (4) CHEM 111 General Chemistry II (4)

BIOL 201 Cellular Biology and Genetics (4) CHEM 330* Essentials of Organic Chemistry (5)

BIO1 309 Genetics (4)

and any two of the following three courses: BIO1, 409 Molecular Biology (3)

CHEM 351 Introductory Biochemistry (3) MBBB 301 Introduction to Bioinformatics (4)

*Note: Many graduate and professional programs require two terms of organic chemistry. Students who are contemplating education beyond the undergraduate level (graduate schools, medical school, etc.) should talk with an adviser.

Department of Physics, Astronomy and Geosciences

Professors: Harry Bates, Rachel Burks, Henry Chen, Eddie Loh, David Schaefer, Leon Ukens, David Vanko (Chair) Associate Professors: Jonathan Filer, Thomas Krause, Steven Lev, Alex Storrs

Assistant Professors: Rajeswari M. Kolagani, Laura Lising, Cody Sandifer, Vera Smolyaninova

Research Assistant Professor: Karen Schaefer

OFFICE

Smith Hall 445, 410-704-3020, 410-704-3021 Fax: 410-704-3511 www.towson.edu/physics/

PROGRAMS OF THE DEPARTMENT

The Department of Physics, Astronomy and Geosciences offers undergraduate programs leading to a Bachelor of Science or Bachelor of Arts degree in Physics, Geology or Earth-Space Science; a Physics Secondary Education Program; a Dual Degree in Engineering Program leading to a bachelor's degree in Physics from Towson University and a bachelor's degree in Engineering from either the University of Maryland, College Park or the Pennsylvania State University; and a Physics and an Astronomy minor. There is also a five-year program leading to a B.S. degree in Physics and an M.S. degree in Computer Science.

DEPARTMENTAL HONORS PROGRAM

The Department of Physics, Astronomy and Geosciences, under the direction of the University Honors Board, offers a departmental honors program for students who demonstrate exemplary abilities in their discipline. Such students will work closely with faculty mentors in an individual program of research, directed readings, independent study and seminar. The student who completes an approved program will receive a diploma with the designation of Bachelor of Arts or Bachelor of Science with Honors, and Departmental Honors will appear on the transcript.

Criteria for Admission into the Department Honors Program

1. Completion of at least 60 units of courses.

 Overall cumulative average of 3.25 or above and a 3.50 or above cumulative average in their major course requirements. Students below this threshold may appeal to the Department Honors Committee.

Contact the department for a list of detailed procedures for applying to the departmental honors program.

MAJOR IN PHYSICS

The Physics major is divided into three main tracks designed to give the student the greatest possible flexibility in preparation for graduate study in physics, astrophysics, medicine, engineering, or other allied fields, and for professional practice as a physicist in industrial, governmental or institutional laboratories.

In order to provide students a broad and solid base in physics and also to provide the flexibility which enables students to take courses in areas where physics can be applied, all Physics majors take a series of basic physics core courses. The first courses are General Physics 1, II and III (PHYS 241 [or PHYS 251], 242 [or PHYS 252] and 243). They provide an introduction to both classical and modern physics. The junior and senior core physics courses treat classical and modern physics in greater depth.

It is recommended that those who intend to pursue graduate studies in physics or astrophysics, take the General Physics Track or the Astrophysics Track, as well as additional physics electives and mathematics courses. Those who intend to participate in fundamental or applied research and development in industrial or government laboratories are encouraged to take the Applied Physics Track and other physics electives.

Students may also wish to elect a foreign language as preparation for graduate study. Students may also supplement the core program of study by participation in a guided independent study and/or ongoing research project. Up to 6 units of such courses (Independent Study, Directed Readings, Research Problems, etc.) may count toward required physics electives. A combination of well-grounded preparation in fundamentals plus the availability of an individually tailored program of study is designed to optimize students' preparation for graduate school or a professional career. In addition to physics courses, all majors are required to complete courses in computer science, mathematics and chemistry. Calculus III is highly recommended. Upper-level mathematics electives especially recommended are Differential Equations, Advanced Calculus, and Numerical Analysis I, H.

Students who intend to major in Physics should contact the department in order to be assigned a faculty adviser. The faculty adviser will assist students in planning a program that will meet their special needs. Advisers are also available for advising on career opportunities and employment. Physics majors are required to complete 16, and minors 8, of the required upper-division units in physics at Towson. Students should be aware that most advanced physics courses (300- and 400-level) may be offered in either the first term or the second term, but not in both terms. Some physics electives are only offered every other year. Advisers will have information on the courses offered and on the schedules.

Most required upper-level physics courses are taught in the late afternoon or early evening on a rotating schedule. This should enable a non-traditional student who can only attend classes at these times to complete the major, although the time required will usually exceed the normal four years. Students should contact the department office or their adviser for information about the scheduling of these courses.

Students *must* see their advisers no later than the time of their matriculation for the third term in General Physics, which is normally the beginning of the spring term of their sophomore year. Students, after consultation with their advisers, will propose a tentative plan for completing all graduation requirements, including those for the major. This selection of electives for the various concentrations must be approved by an adviser. The plan may be modified from time to time, but the modification must be approved by the major adviser. Students may also organize an individualized course of studies. This gives students the option to select a plan that reflects their interest in a special area of physics. The array of courses must have internal coherence and be *approved* by the major adviser.

REQUIREMENTS FOR THE PHYSICS MAJOR

The major in Physics requires 51-52 units in physics core and nonphysics requirements completed with a grade equivalent of 2.00 or higher, plus additional units for specific tracks. The General Education requirements must also be completed.

Required Physics Core Courses (29 units)

| PHYS 241, 242 | General Physics I, II (4, 4) |
|---------------|---------------------------------------|
| | Of |
| PHYS 251, 252 | Honors General Physics 1, II (4, 4) |
| PHYS 243 | General Physics III (3) |
| PHYS 307 | Introductory Mathematical Physics (3) |
| PHYS 311 | Modern Physics (4) |
| PHYS 341 | Intermediate Physics Laboratory I (3) |
| PHYS 351 | Mechanics 1 (4) |
| PHYS 354 | Electricity and Magnetism I (4) |
| | |

Non-physics Requirements (22-23 units)

| CHEM 110-111 | General Chemistry I, II (4, 4) |
|--------------|---|
| COSC 165 | Visual Basic or equivalent (3) |
| MATH 273-274 | Calculus I, II (4, 4) |
| MATH xxx | Upper-division Mathematics Course (3-4) |

Recommended mathematics electives are MATH 374, 379, 435-436

GENERAL PHYSICS TRACK

All required courses in this track must be completed with a grade equivalent of 2.00 or higher. The General Education requirements must be completed. The physics core courses and the non-physics requirements must be completed, as well as the following courses:

Advanced Physics Courses (18 units)

| PHYS 342 | 2 Intern | nediate Physics Laboratory II (3) |
|------------|------------|-----------------------------------|
| PHYS 45: | 5 Quani | rum Mechanics (3) |
| PHYS 483 | 8 Physic | s Seminar (1) |
| wo courses | from among | the following: |
| PHYS 3: | 52 Thern | odynamics and Kinetic Theory (3) |
| PHYS 4: | 51 Mech. | anies II (3) |
| PHYS 4: | 54 Electr | city and Magnetism II (3) |
| PHYS 4: | 57 Solid : | State Physics (3) |
| PHYS 4: | | ar Physics (3) |
| | | |

Five units of physics electives:

Recommended Physics Electives PHYS 335 Basic Electronics (4)

| PHYS 352 | Thermodynamics and Kinetic Theory (3) |
|----------|--|
| PHYS 361 | Optics Fundamentals (4) |
| ASTR 479 | Selected Topics in Contemporary Astrophysics (3) |
| PHYS 421 | Fundamental Particles (3) |
| PHYS 453 | Physical Optics (3) |
| PHYS 457 | Solid State Physics (3) |
| PHYS 459 | Nuclear Physics (3) |

APPLIED PHYSICS TRACK

All required courses in this track must be completed with a grade equivalent of 2.00 or higher. The General Education requirements must be completed. The physics core courses and the non-physics requirements must be completed, as well as the following courses:

Advanced Physics Courses (18 units)

| PHYS 342 | Intermediate Physics Laboratory II (3) |
|--------------------|--|
| PHYS 361 | Optics Fundamentals (4) |
| PHYS 485 | Physics Seminar (1) |
| One course from: | • |
| PHYS 335 | Basic Electronics (4) |
| PHYS 337 | Digital Electronics (4) |
| PHYS 437 | Introduction to Microprocessor-Based Digital Systems (3) |
| One course from: | |
| PHYS 453 | Physical Optics (3) |
| PHYS 457 | Solid State Physics (3) |
| Three or 4 units o | f upper-level physics electives |

Recommended Physics Electives

| ecommenaea | rnysics electives |
|------------|--|
| PHYS 335 | Basic Electronics (4) |
| PHYS 337 | Digital Electronics (4) |
| PHYS 352 | Thermodynamics and Kinetic Theory (3) |
| PHYS 435 | Electronics (3) |
| PHYS 437 | Introduction to Microprocessor-Based Digital Systems (3) |
| PHYS 445 | Lasers and Holography (3) |
| PHYS 453 | Physical Optics (3) |
| PHYS 455 | Quantum Mechanics (3) |
| PHYS 457 | Solid State Physics (3) |
| PHYS 459 | Nuclear Physics (3) |
| PHYS 461 | Electro-Optics (4) |
| | |

220

The College of Science and Mathematics

ASTROPHYSICS TRACK

All required courses in this track must be completed with a grade equivalent of 2.00 or higher. The General Education requirements must be completed. The physics core courses and the non-physics requirements must be completed, as well as the following courses:

Additional Physics and Astrophysics Courses (25 units)

| ASTR 161 | General Astronomy 1 (4) |
|--------------|--------------------------------------|
| ASTR 303 | Astrophysical Techniques (3) |
| ASTR 331 | Introduction to Astrophysics (3) |
| ASTR 361 | Astronomy II (3) |
| ASTR 423 | Particle Astrophysics (3) |
| ASTR 470-479 | Special Topics in Astrophysics (3) |
| ASTR 495 | Capstone Project in Astrophysics (3) |
| PHYS 455 | Quantum Mechanics (3) |

PHYSICS SECONDARY EDUCATION PROGRAM

The Department of Physics, Astronomy and Geosciences offers a Physics Secondary Education Track that leads to a Bachelor of Science or Arts degree in Physics. This program is designed for those students who plan to teach physics at the secondary level.

Physics majors in the Secondary Education Program complete a total of 91-95 units. In addition to the General Education requirements and the requirements specified by the Department of Secondary Education, students must complete 33 units in physics courses and 29-30 units in non-physics courses. For certification purposes (NSTA), students should include the course WRIT 312 History of Science. All courses required for the major must be completed with a grade equivalent of 2.00 or higher.

Physics Core Courses (29 units)

Additional Physics Courses (4 units)

PHYS 342 Intermediate Physics Laboratory (3)

PHYS 485 Physics Seminar (1)

Non-physics Requirements (29-30 units)

| BIOL 201 | Biology I (4) | | |
|---|--------------------------------|--|--|
| CHEM 110-111 | General Chemistry I, II (4, 4) | | |
| COSC 165 | Visual Basic (3) | | |
| MATH 273-274 | Calculus I, II (4, 4) | | |
| WRIT 312 | History of Science (3) | | |
| One of the following earth science courses: | | | |
| ASTR 161 | General Astronomy 1 (4) | | |
| GEOL 121 | Physical Geology (4) | | |
| GEOL 357 | Physical Oceanography (3) | | |
| | | | |

The Physics Secondary Education major also requires 44 units of education courses. For details and sequencing see the Department of Secondary Education listings in this catalog. To remain informed of current certification requirements, each student in this program must have an adviser in the Department of Secondary Education.

SUGGESTED COURSE SCHEDULES FOR PHYSICS MAJORS

By its very nature, physics is more hierarchical in its course structure than typical humanities or social science disciplines. Therefore, many courses depend heavily on prerequisite courses (such as calculus and general physics). Any time that is required to prepare for calculus, such as taking MATH 119, must be added to the four-year minimum. Normally, progress in mathematics and general physics is the pacesetter.

SUGGESTED COURSE SCHEDULE—GENERAL TRACK IN PHYSICS

FRESHMAN YEAR First Term (14 units)

| CHEM 110 | General Chemistry I (4) |
|-----------------|------------------------------------|
| ENGL 102 | Writing for a Liberal Education (3 |
| | GenEd or Electives (3) |

SUGGESTED COURSE SCHEDULE FOR THE PHYSICS SECONDARY EDUCATION MAJOR

Physics Secondary Education majors are not required to take any physics electives but are encouraged to take as many courses in physics and mathematics as possible. For a recommended course schedule, contact the Department of Physics, Astronomy and Geosciences.

MINOR IN PHYSICS

An important aspect of the overall contribution of physics is its impact on other disciplines. This program is designed to provide majors in any of the sciences, mathematics, business or humanities with a background in physics which will broaden their understanding and enhance their career opportunities. This program requires students to complete the following courses:

| Required Courses (24 | 4 units) |
|----------------------|-------------------------------------|
| PHYS 241, 242 | General Physics I, II (4, 4) |
| | or |
| PHYS 251, 252 | Honors General Physics I, II (4, 4) |
| PHYS 243 | General Physics III (3) |
| PHYS 311 | Modern Physics (4) |
| PHYS xxx | Upper-Division Physics Courses (9) |
| | |

Students interested in the Physics minor program should consult the Physics minor adviser as soon as possible in order to design a program to meet their special needs.

To provide greater flexibility in selecting electives, students may organize their course of studies to supplement their major programs and/or reflect their special interests. The array of courses should have internal coherence and must be approved by their Physics minor adviser. At least 8 upper-division units must be taken at Towson. A grade equivalent of 2.00 or higher must be earned in each course.

MINOR IN ASTRONOMY

The Astronomy minor program is directed toward students who are not physics majors but who could benefit from the scientific rigor and interdisciplinary nature of astronomy. Astronomy naturally cuts across several scientific disciplines including physics, biology, chemistry, computer science and planetary science. Students with an interdisciplinary background are increasingly in high demand. In addition to excellent preparation for a variety of technical fields, students seeking involvement in science in a public capacity, e.g., teachers, science public policy advisers, or science writers, will be well prepared by the program to relate and interpret new findings to the public.

| Required Courses (24 | 4 units) |
|----------------------|--|
| ASTR 161 | General Astronomy I (4) |
| PHYS 211, 212 | General Physics I, II Non-calculus-based(4,4) or |
| PHYS 241,242 | General Physics I, II Calculus-based (4,4) or |
| PHYS 251-252 | Honors General Physics I, II (4,4) |
| ASTR 301 | Cosmic Origins (3) |
| ASTR 302 | Honors Cosmic Origins (3) |
| ASTR 361 | General Astronomy II (3) |
| ASTR 3xx | Planetary Astronomy (3) |
| ASTR 470-479 | Special Topics in Contemporary Astrophysics (3) |

222

The College of Science and Mathematics

Students interested in pursuing the Astronomy minor should consult the Astronomy minor adviser as soon as possible in order to design an appropriate schedule. Course substitutions may be requested and must be approved by the Astronomy faculty. At least 8 upper-division units must be taken at Towson. A grade equivalent of 2.00 or higher must be earned in each course.

DUAL DEGREE ENGINEERING PROGRAM

Refer to the College of Science and Mathematics Dual Degree Programs section immediately following this departmental listing in the catalog.

BACHELOR OF SCIENCE IN PHYSICS AND MASTER OF SCIENCE IN COMPUTER SCIENCE

Refer to the College of Science and Mathematics Dual Degree Programs section immediately following this departmental listing in the catalog.

EDWARD I. RUBENDALL PHYSICS ACHIEVEMENT AWARDS

The awards were established in honor of Professor Emeritus Rubendall by friends of the department. The awards are presented annually to outstanding juniors and seniors majoring in Physics.

GEOSCIENCES PROGRAMS

Director: Jonathan Filer

Affiliated Faculty: Rachel Burks, Steven Lev, David Vanko The Geosciences programs in the Department of Physics, Astronomy and Geosciences include the major in Geology and the major in Earth-Space Science.

MAJOR IN GEOLOGY

The Geology major contains two programs: a broad-based track in General Geology and a track in Environmental Geology, Both programs in the Geology major follow current course recommendations of the American Institute of Professional Geologists. The Geology major contains a core of the fundamental earth, physical and life sciences with essential mathematics and computing sciences courses. While completing the core courses, every student selects either the General Track or the Environmental Track. The General Track is designed to prepare students for a variety of geoscientific careers or advancement to post-graduare studies in the geosciences: geology, geophysics, mineralogy, petrology, etc. In the Environmental Track, students concentrate on hydrogeological and environmental geoscience applications that emphasize both field and laboratory studies. All students in the Geology major complete their science education in their senior year with research experience in regional geological or environmental problems.

Requirements for the Major

The Geology major requires 44-45 units in geology and non-geology requirements completed with a grade equivalent of 2.00 or higher, plus 21-25 additional units for specific tracks. The General Education requirements must also be completed: Category II.A.1 (8 units) and Category I.C (4 units) are satisfied by requirements in the Geology major; category II.A.2 is waived because of 8 units in II.A.1. Geology majors are advised to take either WRIT 312 History of Science or CHEM 301 Professional Ethics for Scientists to fulfill Category I.D Advanced Composition.

Core Courses (44-45 units)

| GLO1 121 | Physical Geology (4) |
|----------|------------------------------------|
| GEOT 123 | Historical Geology (4) |
| GEO1 321 | Structural Geology (4) |
| GEOT 331 | Mineralogy (4) |
| GLOT 443 | Sedimentology and Stratigraphy (4) |
| | |

| GEOL 489 | introduction to Research (1) |
|----------------|-----------------------------------|
| GEOL 492 | Introduction to Field Methods (2) |
| GEOL 499 | Regional Geology (2) |
| CHEM 110 | General Chemistry I (4) |
| CHEM 111 | General Chemistry II (4) |
| MATH 273 | Calculus I (4) |
| MATH 274 | Calculus II (4) |
| | or |
| MATH 231 | Basic Statistics (3) |
| | or |
| COSC 165 | Visual Basic (3) |
| PHYS 211 (or . | 241) General Physics I (4) |
| | |

Introduction to Passanch (I)

GENERAL GEOLOGY TRACK (21-23 units)

The General Geology Track requires 21-23 units in addition to the Geology core. All required courses in this track must be completed with a grade equivalent of 2.00 or higher. The General Education requirements must be completed. The core courses of the Geology major must be completed, as well as the following courses:

| 13 1 | 0 | | * | |
|----------|-----------|-----|-------|---|
| Required | Courses (| 1.5 | units | ١ |

| GEOL 333 | Igneous and Metamorphic Petrology (4) |
|--------------|--|
| GEOL 441 | Optical Mineralogy and Petrography (4) |
| GEOL 451 | Petrology of Sedimentary Rocks (3) |
| PHYS 212 (or | 242) General Physics II (4) |

Electives (6-8 units)

EVENING GEOLOGY MAJOR PROGRAM

Pollution (3)

The Department of Physics, Astronomy and Geosciences offers a program that permits evening students to pursue the Geology major at 4 p.m. or later. Contact the geology director for further information and a long-range schedule of course offerings.

MINOR IN GEOLOGY

Geological sciences provide an important perspective to fields like environmental science, environmental studies, and geography and environmental planning. This program is designed to furnish majors in sciences, humanities, business or the arts with a background that will enrich their education and deepen their understanding of the earth around them, particularly its materials, processes, history and environmental challenges. Students in the Geology minor are required to complete the following courses:

Required Courses (24 units)

GEOL 121 Physical Geology (4) GEOL 123 Physical Geology (4)

Upper-Division Geology Units (16)

Students in the Geology minor should consult with a geology adviser as soon as possible to design a program to meet their particular needs and interests.

MAJOR IN EARTH-SPACE SCIENCE

The Department of Physics, Astronomy and Geosciences offers an undergraduate program leading to a Bachelor of Science in Earth-Space Science. This program is intended for students interested in secondary education, and is not appropriate for students interested in a professional career in geology. The program is designed to result in state certification to teach earth-space science at the secondary level, after the student completes the additional requirements of the Department of Secondary Education. Students must contact the Department of Secondary Education about admission to the Secondary Teacher Education Program. A total of 51-52 units are required in this major, 12 of which also satisfy General Education requirements. Within the Earth-Space Science major, 31-32 core and elective units are within the earth, atmospheric, oceanographic and space sciences. The remaining units in the major are in the supporting physical and mathematical sciences. All required courses in this track must be completed with a grade equivalent of 2.00 or higher. The additional General Education requirements must also be completed.

Dual Degree Programs

Towson University offers a Dual Degree Engineering Program with the University of Maryland, College Park (UMCP) and with the Pennsylvania State University, a Dual Degree Program in Medicinal Chemistry with the University of Maryland School of Pharmacy, and Dual Degree programs with the University of Tasmania in Biological Sciences and either Aquaculture or Antarctic and Southern Ocean Studies. In addition, Towson offers a five-year program for students interested in obtaining a B.S. degree in Physics and an M.S. degree in Computer Science. These programs are described below.

DUAL DEGREE PROGRAMS WITH THE UNIVERSITY OF TASMANIA

B.S. IN BIOLOGICAL SCIENCES AND M.S. IN EITHER AQUACULTURE OR ANTARCTIC AND SOUTHERN OCEAN STUDIES

OFFICE

Smith Hall 312, 410-704-2121

Towson University offers two dual degree programs with the University of Tasmania, Australia: one in Aquaculture and another in Antarctic and Southern Ocean Studies. Students entering either of these (3 + 2) five-year programs will study at Towson University for the first three years of the program and at the University of Tasmania for the last two years. These programs will lead to a Bachelor of Science degree from Towson University, and a Master of Science degree from the University of Tasmania.

Both of these programs require the completion of 96 units at Towson University, including 38 units of General Education requirements. To ensure that students are adequately prepared for the honors-level course work and research at the University of Tasmania, the required 58 units of biology courses, and ancillary chemistry, physics and mathematics courses have been carefully selected in consultation with faculty at the University of Tasmania. The remaining 24 units of course work will be completed at the University of Tasmania

Students interested in these programs must first meet the general requirements for undergraduate admission outlined in Towson University's *Undergraduate Catalog*. After completing three years of study at Towson, students with a cumulative GPA of 3.00 or higher will transfer to either the School of Aquaculture or the Institute of Antarctic and Southern Ocean Studies, both at the University of Tasmania. Upon the satisfactory completion of the first year at the University of Tasmania, students may apply to Towson University to receive the B.S. degree in Biological Sciences. Upon the satisfactory completion of the second year, students earn the M.S. degree from the University of Tasmania.

Advising

Upon admission ro Towson University, students interested in either of these two programs should contact the associate dean of the College of Science and Mathematics, who will assist them in planning the program, declaring a major and obtaining the necessary information.

224

The College of Science and Mathematics

Towson University Requirements (96 units)

Students in either of these dual-degree programs must complete 96 units at Towson University, which include the following required courses:

General Education Requirements (38 units)

Students must complete courses in English composition, literature, humanities or physical or social sciences in 14 General Education categories as outlined in the Towson University *Undergraduate Catalog*. Students in the Antarctic and Southern Ocean Studies Program may complete their Category II.C.3 and II.D General Education requirements during their first year at the University of Tasmania by taking HAB103 Historical Indigenous Australia, and the Social Sciences Unit course, respectively.

Required Biology Core Courses (21 units)

| BIOL 201 | Cellular Biology and Genetics (4) |
|----------|---|
| BIOL 202 | Introduction to Ecology, Evolution and Behavior (4) |
| BIOL 205 | General Zoology (4) |
| BIOL 207 | General Botany (4) |
| BIOL 309 | Principles of Genetics (4) |
| BIOL 486 | Biology Majors Seminar (1) |
| | |

Ancillary Courses Specific to the Aquaculture Program:

Chemistry (18 units)

| CHEM | 110 | 111 | Congral | Chamicter | 7.1 .1 \ |
|---------|-----|-----|---------|-----------|----------|
| CLILIVI | 110 | 111 | General | Chemistry | (4,4) |

| CHEM 330 Essentials of Organic Chemistry (|
|--|
|--|

CHEM 356 Biochemistry Laboratory (2)

Physics (minimum of 5 units)

| PHYS 203 | Topics | in Physics | for Biology | Majors (5) |
|----------|--------|------------|-------------|------------|
| | | | | |

or

PHYS 211-212 General Physics I, II (4,4)

Of

PHYS 241-242 General Physics I, II (4,4) [Calculus-based physics]

Mathematics (minimum of 3 units)

| MATH 211 | Calculus for Application (3) |
|----------|------------------------------|
| MATH 237 | Elementary Biostatistics (4) |
| MATH 273 | Calculus (4) |

PSYC 212 Behavioral Statistics (4)

BIOL 349

Required Biology Elective Courses Needed for Entry into the

| Aquaculture | Program |
|---------------|---------------------------|
| The following | two courses are required: |
| BIOL 455 | Fish Biology (4) |
| BIOL 353 | Invertebrare Zoology (4) |
| | Or |

Students may wish to, but are not required, to take one or more of the following additional recommended electives:

Marine Borany (4)

| BIOL 310 | Environmental Conservation (4) |
|----------|---|
| BIOL 315 | Medical Microbiology (4) |
| BIOL 341 | Fresh Water Algae (4) |
| BIOL 347 | Marine Biology (3) |
| BIOL 351 | Field and Systematic Vertebrate Zoology (4) |
| BIOL 355 | Animal Parasitology (4) |
| BIOL 360 | Histology (4) |
| BIOL 402 | General Ecology (4) |
| BIOL 404 | Feological Techniques (3) |
| BIOL 406 | Limnology (4) |
| BIO1 411 | Wildlife Biology (4) |
| BIOL 413 | Evolution (3) |
| | |

Ancillary Courses Specific to the Antarctic and Southern Ocean Studies Program:

Chemistry (18 units)

CHFM 110-111 General Chemistry (4,4)

CHEM 331-332 Organic Chemistry Land II (5,5)

Physics (8 units)

BIOL 309

PHYS 211-212 General Physics 1, 11 (4,4)

Ot

PHYS 241-242 General Physics I, II (4,4) [Calculus-based physics]

Mathematics (minimum of 3 units)

The mathematics requirement can be fulfilled by taking KMA153, Data Handling and Statistics, at the University of Tasmania during the first term of study or by taking one of the following.

MATH 211 Calculus for Application (3)
MATH 237 Elementary Biostatistics (4)
MATH 273 Calculus (4)
PSYC 212 Behavioral Statistics (4)

Required Biology Elective Courses Needed for Entry into the Institute of Antarctic and Southern Ocean Studies Program

BIOL 347 Marine Biology (3)

Students will take at least three electives from among the following list to equal 12 units:

| BIOL 310 | Environmental Conservation (4) |
|----------|---|
| BIOL 341 | Fresh Water Algae (4) |
| BIOL 349 | Marine Botany (4) |
| BIOL 351 | Field and Systematic Vertebrate Zoology (4) |
| BIOL 353 | Invertebrate Zoology (4) |
| BIOL 355 | Animal Parasitology (4) |
| BIOL 455 | Fish Biology (4) |
| BIOL 402 | General Ecology (4) |
| BIOL 404 | Ecological Techniques (3) |

Principles of Genetics (4)

University of Tasmania Requirements I. Dual Degree Program in Aquaculture:

First year at the University of Tasmania (24 units):

Towson University will grant 3 units for each of eight courses taken at the University of Tasmania as biology upper-level electives.

| Term 1 | Term 2 |
|---------------------------------|-----------------------------|
| Technology for Aquaculture | Intensive Crustacean and |
| Physiology of Aquatic Organisms | Zoopłankton Culture |
| Nutrition of Aquatic Organisms | Intensive Molluscan Culture |
| Intensive Algal Culture | Intensive Finfish Culture |
| | Aquatic Animal Health |

Upon the successful completion of these courses, the units will be transferred to Towson University and the B.S. degree in Biological Sciences will be conferred.

Second year at the University of Tasmania:

Students will complete a literature review (written and oral presentation), research dissertation (written and poster presentation), and specialist practical skills (eight weeks of work experience). The research project occupies most of the year, addresses a research topic in an area of interest identified by the student in Year 1, and serves as a recognized pathway either into employment or higher research via a Ph.D. program. Following the successful completion of these elements of the program, an M.S. degree in Aquaculture will be conferred by the University of Tasmania.

For more specific details about the last two years of this program, see the University of Tasmania School of Aquaculture Web site: www.scieng.utas.edu.au/aqua

II. Dual Degree in Antarctic and Southern Ocean Studies:

First year at the University of Tasmania (24 units):

Towson University will grant 3 units for each of eight courses taken at the University of Tasmania as biology upper-level electives.

Term 1 (beginning in July)

HAB103 Historical Indigenous Australia KMA153 Data Handling and Statistics

and two of the following:

KZA351 Antarctic Ecology

KZA 353 Evolutionary Biology and Biogeography

KZA 352 **Environmental Adaptation**

Term 2

Life Sciences Unit Physical Sciences Unit Social Sciences Unit Antarctic Operations

Upon the successful completion of these courses, the units will be transferred to Towson University and the B. S. degree in Biological Sciences will be conferred.

Second Year at the University of Tasmania:

This is devoted to full-time research on some topic within the student's particular specialty. The work is supervised by appropriate research staff either within the University of Tasmania's Institute of Antarctic and Southern Ocean Studies (IASOS) or within one or more of the associated federal government research agencies. Depending on the topic and circumstances of the time, it may be necessary or desirable for the student to spend some time in Antarctica.

For specific details about the last two years of this program, see the University of Tasmania's IASOS Web site: www.scieng.utas.edu.au/iasos.

DUAL DEGREE ENGINEERING PROGRAMS WITH PENNSYLVANIA STATE UNIVERSITY AND THE UNIVERSITY OF MARYLAND, COLLEGE PARK

OFFICE

Smith Hall 445, 410-704-3020 www.new.towson.edu/physics

The objective of the Dual Degree Engineering Program at Towson University is to provide an educational opportunity for students interested in both a "liberal science" and a professional education at the undergraduate level. Students choosing this program will be able to obtain a Bachelor of Science or Arts degree from Towson, and a Bachelor of Engineering degree from Pennsylvania State University or University of Maryland, College Park. In principle, students can seek a degree in any discipline offered by Towson; but in practice, Biology, Chemistry, Computer Science, Mathematics and Physics are the natural choices of students interested in the Dual Degree Program.

Requirements for Dual Degree Students While at TU

- 1. complete required courses in Dual Degree Program
- 2. complete a minimum of 90 units
- 3. complete General Education (GenEd) requirements
- 4. complete a major program (with transfers approved by department)
- 5. obtain recommendation from chair of TU major department

Requirements for Admission

In order for students to become Dual Degree candidates at Pennsylvania State University or University of Maryland, College Park, they must have satisfied Towson University requirements and, in addition, have the following:

- 1. a cumulative GPA at TU of 3.00 or better
- 2. a recommendation from the designated official at Towson

DUAL DEGREE PROGRAM WITH PENNSYLVANIA STATE UNIVERSITY

Dual Degree candidates from Towson University are eligible to seek a baccalaureate degree majoring in any one of the following areas at Penn State University:

Aerospace Engineering (AERSP)

Agricultural and Biological Engineering (ABE)

Bioengineering (BIOE)

Chemical Engineering (CHE)

Civil Engineering (CE)

Computer Engineering (CMPEN)

Electrical Engineering (EE)

Engineering Science (ESC)

Industrial Engineering (IE)

Mechanical Engineering (ME)

Nuclear Engineering (NUCE)

Environmental Systems Engineering (ENVSE)

Material Science and Engineering (MATSE)

Polymer Science and Engineering (PLMSE)

Mining Engineering (MNGE)

Petroleum and Natural Gas Engineering (PNGE)

In order to be eligible for transfer into the engineering program of their choice at Penn State University, students are required to take the following courses at Towson University:

CHEM 110 General Chemistry I (4)

MATH 273-274-275 Calculus I, II and III (12)

PHYS 241 General Physics (4) or PHYS 251 Honors General Physics (4)

Students are also strongly encouraged to take the following courses before transferring:

CHEM 111 (4)

PHYS 242 (4) or 252 (4)

COSC 236 (4)

ENGL 318 (3)

One course from HLTH, PHEA, PHEC, PHED, or KINES (3)

MATH 265 (4), MATH 374 (3)

COMM 131 or 132 (3)

ECON 201, 202, or 211 (3)

Additionally, the following courses are suggested for specific engineering majors:

| Penn State University Major | Towson University Course |
|-----------------------------|--------------------------|
| BIOE, CHE, ESC, ME, All EMS | |
| (except MNGE) | CHEM 111 |
| BIOE, CHE, MATSE (PLMSE) | CHEM 331 |
| CMPEN | COSC 237 |
| CE, PNGE, ENVSE, MNGE | GEOL 121 |
| CE, CMPEN, EE, ME | MATH 330 |
| BIOE, CHE, MATSE (PLMSE) | CHEM 332 |
| BIOE, CMPEN, EE, IE, ESC | PHYS 337 |
| AERSP, EE, ESC, PNGE, MNGE | PHYS 352 |
| ALL ENGR but ABE, CE, IE, | |
| ENVSE, PNGE, and MNGE | PHYS 361 |

6 The College of Science and Mathematics

DUAL DEGREE PROGRAM WITH UNIVERSITY OF MARYLAND, COLLEGE PARK

Dual Degree candidates from Towson University are eligible to seek a baccalaureate degree majoring in any one of the following areas at the University of Maryland, College Park:

Aerospace Engineering
Biological Resources Engineering
Chemical Engineering
Civil Engineering
Electrical Engineering
Fire Protection Engineering
Mechanical Engineering
Materials Science Engineering
B.S. in Engineering

In order to be eligible for transfer into the engineering program of their choice at University of Maryland, College Park, students must have included in their work at Towson University the following courses:

CHEM 110-111 General Chemistry I, II (8) COSC 236 Introduction to Computer Science I (4) MATH 273-274- 275 Calculus I, II and III (12) MATH 374 Differential Equations (3) PHYS 241-242-243 Physics I, II and III (11) PHYS 351 Mechanics I (4) PHYS 352 Thermodynamics and Kinetic Theory (3)

Additional required courses for Dual Degree students at TU for selected majors are listed below.

Courses at Towson University Equivalent Courses at UMCP Students interested in Biological Resources Engineering must take the following courses at TU:

BIOI. 201 Biology I: Cellular Biology and Genetics (4) BIOE 105
BIOE 315 Medical Microbiology (4) MICB 200
ECON 202 Macroeconomic Principles (3) ECON 201
BIOI. 408 Cell Biology (4) ZOOL 201
Students interested in Chemical Engineering must take the following courses at TU:

CHEM 331, 332 Organic Chemistry I, II (5, 5)
CHEM 233, 243
CHEM 345 Principles of Physical Chemistry (3)
CHEM 481
CHEM 346 Theoretical Foundations of
Physical Chemistry (3)
CHEM 483
CHEM 373, 374 Intermediate Lab I, II (1, 1)
CHEM 483
Students interested in Civil Engineering must take the following courses

CHEM 330 Essentials of Organic Chemistry (5) CHEM 237 MATH 330 Introduction to Statistical Methods (4) ENCE 302 Students interested in Electrical Engineering must take the following courses at TU:

PHYS 354, 454 Electricity and Magnetism I, II (4, 3) ENEE 380, 381 PHYS 335 Basic Electromics (4) ENEE 204 PHYS 337 Digital Electromics (4) ENEE 244, 206 PHYS 311 Modern Physics (4) PHYS 421

Students interested in Materials Engineering must take the following courses at TU:

CHEM 233
CHEM 345 Principles of Physical Chemistry (3)
CHEM 481

DUAL DEGREE PROGRAM IN MEDICINAL CHEMISTRY WITH THE UNIVERSITY OF MARYLAND SCHOOL OF PHARMACY

Program Director: Frank R. Milio

OFFICE

Smith Hall 353 or 561, 410-704-3111 or 410-704-3131 E-mail: fmilio@towson.edu

The program requires Prepharmacy students to study chemistry at Towson University for three years prior to application and acceptance into the Doctor of Pharmacy (Pharm.D.) program at the University of Maryland School of Pharmacy. The three years at Towson University, combined with successful completion of the first two years of study in the School of Pharmacy, will provide the student the units and understanding needed to meet the requirements for the B.S. or B.A. degree in Medicinal Chemistry from Towson University. This 3 + 2 Dual Degree Program between Towson University and the University of Maryland School of Pharmacy provides students the opportunity to broaden their background and allows them flexibility of career options as summarized in the following chart.

Dual Degree Program and Options

| After Completing | Decision Points (Career Options) |
|---|--|
| Three years at Towson University | Continue studies for B.S. or B.A. in Medicinal Chemistry at University of Maryland School of Pharmacy (contingent upon admission to the program). Pursue B.S. or B.A. at TU (Chemistry; Environmental Science; Molecular Biology, Biochemistry and Bioinformatics). |
| Five years (three years at TU and two years at UMD School of Pharmacy) | Earn B.S. or B.A. in Medicinal Chemistry from TU and continue in the Pharm.D. program at UMD. Earn B.S. or B.A. in Medicinal Chemistry at TU and pursue other post-baccalaureate study. Earn B.S. or B.A. in Medicinal Chemistry at TU and enter marketplace. |
| Seven years (three years at TU and four years at UMD School of Pharmacy) | Complete Pharm.D. at UMD and enter the marketplace. Complete Pharm.D. and continue Ph.D. specialization.* |

^{*}Combined Pharm.D./Ph.D. or Pharm.D./M.B.A. programs are available at University of Maryland School of Pharmacy.

Towson University Admission Requirements

Applicants must meet the requirements for undergraduate admission to Towson University. While completing the third year of study as outlined below at Towson, the student must apply and be admitted to the School of Pharmacy at University of Maryland to complete the Dual Degree Program.

Towson University Requirements (90 units) Leading to B.S. or B.A. in Medicinal Chemistry

General Education Requirements (33 units)

Courses including English composition, literature, humanities and physical and social sciences in 14 General Education (GenEd) categories:

Chemistry (25 units)

| 0110111 | 0 101 1 110 |
|----------|--------------------------|
| CHEM 110 | General Chemistry I (4) |
| CHEM 111 | General Chemistry II (4) |
| CHEM 331 | Organic Chemistry I (5) |
| CHEM 332 | Organic Chemistry II (5) |
| | |

Introduction to Analytical Chemistry (4) **CHEM 210**

CHEM 351 Biochemistry I (3)

Biology (8 units)

| BIOL 201 BIOL 315 | Cellular Biology and Genetics (4) Medical Microbiology (4) |
|----------------------|---|
| | or |
| BIOL 318 | Microbiology (4) |

| Physics (8 uni | |
|----------------|---|
| PHYS 211 | General Physics I (4) (non-calculus based) |
| | and |
| PHYS 212 | General Physics II (4) (non-calculus based) |
| | or |
| PHYS 241 | General Physics I (4) (calculus-based) |
| | and |
| PHYS 242 | General Physics II (4) (calculus-based) |

Mathematics (8 units)

| MATH 273 | Calculus I (4) |
|----------|------------------------------|
| MATH 237 | Elementary Biostatistics (4) |

Electives (7 units)

Pharm.D. Admission Requirements

To be considered for admission, applicants must:

- Submit a completed application, transcripts of all higher education institutions attended, and the Pharmacy College Admission Test (PCAT) scores.
- Have an overall minimum GPA of 2.50.

Students having average GPAs of 3.50 or better and PCAT scored in the 80th percentile, and with strong backgrounds in biology and chemistry, are competitive for admission to the program. Good written and verbal communication skills are essential in the program and in the profession of pharmacy. Students considered for admission are invited to admission interviews each spring with faculty, students and alumni.

University of Maryland School of Pharmacy (31 units)

(Currently required courses in the Pharm. D. program taken in the first two years.)

Chemistry (14 units)

| PHAR 513 | Drug Chemistry (2) |
|----------|------------------------------|
| PHAR 521 | Biochemistry II (3) |
| PHAR 526 | Physical Chemistry (2) |

BACHELOR OF SCIENCE IN PHYSICS AND MASTER OF SCIENCE IN COMPUTER SCIENCE

Smith Hall 445, 410-704-3020

The Department of Physics, Astronomy and Geosciences and the Department of Computer and Information Sciences offer a "fourone" program which will lead to the degrees B.S. in Physics and M.S. in Computer Science in five years. Students can satisfy the requirements for a Physics major and graduate with their class. By taking additional computer science courses as their free electives, they will be able to take 6 to 9 units of graduate computer science courses in their senior year. (These graduate courses will not be counted toward their undergraduate degree requirements.) The remaining courses and thesis requirements for the M.S. in Computer Science would then be completed in a fifth year.

This option is especially attractive to students who are considering dual majors in Physics and Computer Science or who are planning a career in the area of computational sciences.

Those students interested in the "four-one" program should declare their intent by the end of the second (sophomore) year and meet with Ramesh Karne, the computer science graduate coordinator, early in the fall of the third (junior) year.

Required Courses in Computer and Information Sciences and Mathematics

| MATH 263 | Discrete Mathematics (3) |
|---------------|---|
| COSC 236 | Introduction to Computer Science I (4)* |
| COSC 237 | Introduction to Computer Science II (4) |
| COSC 280 | Assembly Language and Computer Architecture (3) |
| COSC 336 | Data Structures and Algorithm Analysis (4)‡ |
| COSC 338 | Computer Organization and Architecture (4) |
| COSC 236 will | replace the physics requirement of COSC 165. |
| C . 1 | 1 DUVC 337 DUVC 437 1 (COCC 300 |

Students may take PHYS 337 and PHYS 437 in place of COSC 280 and

‡Students completing COSC 236 and COSC 237 with a grade equivalent of 3.00 or higher are exempt from taking COSC 336.

Pre-Professional Programs

The College of Science and Mathematics offers pre-professional preparation in medicine, dentistry, pharmacy, physical therapy and veterinary medicine. In addition, the college offers post-baccalaureate premedical and predental programs for students who decide to pursue medicine or dentistry after completing their bachelor's degree. The programs are described below.

PREMEDICAL AND PREDENTAL PROGRAM— UNDERGRADUATE AND POST-BACCALAUREATE

Program Director: Frank R. Milio

OFFICE

Smith Hall 353 or 561, 410-704-3111 or 410-704-3131 E-mail: fmilio@towson.edu www.towson.edu/csm/premed

Students who are interested in a career in medicine or dentistry must keep the following facts in mind during their studies:

(a) Students must have an outstanding academic record in all the courses they take—science and otherwise—to be competitive for admission to medical or dental school.

(b) Most students who are admitted to medical or dental school have a B.S. or B.A. degree. A very few exceptional students are admitted to professional school with the minimum required 90 units of university work.

(c) The B.S. or B.A. degree may be in any discipline, but most students get their degree in one of the sciences. However, all students must take the science courses that are required by the professional schools and listed under Required Courses below.

(d) Students interested in medical or dental school usually take the Medical College Admission Test (MCAT) or the Dental Aptitude Test (DAT) one to one and one-half years in advance of entering professional school. Advance application must be made to take the MCAT, which is administered in April and August. The computerized DAT is given throughout the year. Students are strongly urged to prepare for the MCAT or DAT, either on their own or by taking a commercial preparation course.

Letters of recommendation are required, and at Towson University these letters are prepared by the Premedical/Predental Committee.

(f) Careful planning and organization on the part of the student are an absolute necessity.

Information should be obtained from the Premedical and Predental Committee before or upon entering Towson University. Write to the Premedical and Predental Committee, Department of Biological Sciences, Towson University, 8000 York Rd., Towson, MD 21252-0001 or call 410-704-3042, Information may also be obtained on the Internet at www.towson.edu/csm/premed.

Requirements for Admission to Medical or Dental School

A student must have an outstanding undergraduate record to be competitive for admission to medical or dental school. Criteria used by professional schools to evaluate applicants include:

- 1. academic achievement with emphasis on performance in biology, chemistry, mathematics and physics
- 2. scores on the Medical College Admission Test (MCAT) or Dental Admission Test (DAT)
- 3. motivation to pursue a career in medicine or dentistry
- 4. clinical and/or research experience

- 5. participation in extracurricular activities
- 6. interview with members of the medical or dental school admissions committee
- 7. letter of recommendation prepared by the applicant's undergraduate Premedical/Predental Committee

Letters of recommendation written by the Towson University Premedical/Predental Committee are based upon evaluation of Items 1-6 above as well as letters of evaluation obtained by students from science faculty of their choosing and an interview with members of the committee.

Although educational philosophies and specific undergraduate course requirements differ among the nation's medical and dental schools, these institutions recognize the value of a broad-based undergraduate education including a strong foundation in the natural sciences (biology, chemistry, physics and mathematics), welldeveloped communication skills, and a solid background in the humanities and social sciences.

Required and Recommended Science Courses

Premedical and predental students, regardless of their major, must take the required courses as part of their curriculum. Students are also advised to take as many of the highly recommended courses as possible as these courses should help improve their performance on the MCAT or DAT exams.

Required Courses (34 units)*

| required Cou | ises (54 umis) |
|--------------|-----------------------------------|
| BIOL 201 | Cellular Biology and Genetics (4) |
| BIOL xxx | Elective (4) |
| CHEM 110 | General Chemistry I (4) |
| CHEM 111 | General Chemistry II (4) |
| CHEM 331 | Organic Chemistry I (5) |
| CHEM 332 | Organic Chemistry II (5) |
| PHYS 211 | General Physics I (4)** |
| PHYS 212 | General Physics II (4)** |
| × 4.11 € 1 | |

*All of the required courses should be completed before taking the MCAT or DAT exams. Some medical schools also require calculus and/or other specific courses, and students should determine the admission requirements of the schools they are especially interest-

**PHYS 241 Physics I and PHYS 242 Physics II, both of which require calculus, may be taken in place of PHYS 211, 212. PHYS 241, 242 must be taken by Physics, Chemistry, and Mathematics

Highly Recommended Courses

| riiginy Recommended Courses | | |
|-----------------------------|--|--|
| MATH 115 | Basic Mathematics for the Sciences (3) (Students are | |
| | encouraged to take other mathematics courses, such as | |
| | calculus, to meet the requirements of specific medical | |
| | schools.) | |
| BIOL 213 | Human Anatomy and Physiology I (4) | |
| BIOL 214 | Human Anatomy and Physiology II (4) | |
| BIOL 309 | Principles of Genetics (3) | |

BIOL 408 Cell Biology (4) **BIOL 409** Molecular Biology (3) **CHEM 351** Biochemistry I (3)

Undergraduate Premedical/Predental Program

Undergraduate students may obtain the B.S. or B.A. degree in any major but must take the Required Courses and should take as many of the Highly Recommended Courses as possible before applying to professional school. Most premedical and predental students major in Biology, Chemistry or Physics, and many Biology majors select the Premedicine/Predentistry Concentration offered in the Department of Biological Sciences.

To get an undergraduate degree from Towson University requires a minimum of 120 units. This includes the completion of the General Education (GenEd) requirements and the courses required for a major (approximately 36 units).

Post-baccalaureate Premedical/Predental Program

Towson University offers a Post-baccalaureate Premedical/ Predental Program for students whose career goals have shifted to medicine or dentistry after completing their bachelor's degree. This program permits them the opportunity to complete the undergraduate science and mathematics courses required for admission to medical or dental school. This program is designed for students who received their undergraduate degree in a non-science or science area but who did not take the courses required to prepare them for admission to professional school. It is not a remedial program but is designed for outstanding preprofessional candidates who have not applied for admission to medical or dental school and who have not taken the MCAT or DAT examinations. This program is designed for completion in 12-14 months, including courses during the summer sessions. Although the courses can be completed in 12-14 months and many professional schools seem to prefer this approach, the Post-baccalaureate concentrated Premedical/Predental Program at TU does offer flexibility to those students needing more time to complete the courses that are usually offered in the summer and evening and during the academic year. Students must take the Required Courses mentioned above and as many of the Highly Recommended Courses as possible. (A background and knowledge of algebra and trigonometry is assumed for the Required Courses, and students having a weak background in either one should plan to review this material before starting the program.)

Each student in the program is assigned a faculty adviser from the Premedical/Predental Committee to assist with planning their course of study, with the application process, and with course registration. In addition to formal course work, post-baccalaureate students are encouraged to obtain practical experience in a medical or dental setting before applying to professional school.

Eligibility: To be eligible for admission to the Post-baccalaureate Premedical/Predental Program, a student must have completed a bachelor's degree at an accredited college or university. Students preparing for admission to medical school should have a minimum undergraduate GPA of 3.40, and those interested in dental school, a minimum 3.00 GPA.

Application and Further Information: The deadline for application is March I, but earlier applications will be reviewed beginning September 15. An interview with a member of the Premedical/Predental Committee may be required after initial screening of the application documents. For information regarding the application process, including application forms, (a) write the Premedical/Predental Committee, Department of Biological Sciences, Towson University, 8000 York Rd., Towson, MD 21252-0001, (b) call 410-704-3042, or (c) e-mail fmilio@towson.edu.

Cost: The Towson University tuition and fees for students in the Post-baccalaureate Premedical/Predental Program are the same as those for undergraduates and depend on the student's residency—in-state or out-of-state. These costs are competitive with other schools offering the same program. Fee information will be provided along with the request for an application and additional information. Students admitted to this program are eligible to apply for certain student loans because they are classified as second-degree students.

PREPHARMACY PREPARATION

Program Director: Frank R. Milio

Smith Hall 353 or 561, 410-704-3131 or 410-704-3111

E-mail: fmilio@towson.edu

Students planning a career in pharmacy may apply to a college of pharmacy after taking or expecting to complete a total of 63 units of university credit, including the required core courses. Student averages are evaluated in the following four areas: (a) overall college work, (b) required core courses, (c) chemistry courses, and (d) mathematics and physics courses. In addition, applicants are required to satisfactorily pass the Pharmacy College Admission Test (PCAT), followed by a personal interview by the admission committee of the pharmacy school.

Required core courses include 6 units of English, 6 units of mathematics (through Calculus I), 8 units of biology, 8 units of physics, and 16-18 units of chemistry. The remaining units (18-20) include elective courses, such as sociology, economic principles and problems, public speaking, modern languages, art, music, psychology, botany, biology and computer programming.

Students interested in pharmacy as a professional career should consult with the prepharmacy adviser in the Department of Chemistry upon admission to Towson University. Students need to plan a course program, declare an academic major, and become cognizant of the specific admissions requirements of the pharmacy college that they plan to attend. The recommended course sequence is based upon the requirements of the University of Maryland and is typical of most pharmacy schools, with the exception that some also include in their core courses 6 units of biology and 3 units of economics.

PHYSICAL THERAPY PREPARATION

Contact Person; M. Lauterbach

OFFICE

Smith Hall 355, 410-704-3127

In recent years, most physical therapy programs in the United States have converted to graduate programs, and most of these will become D.P.T. granting. Entry into these programs is highly competitive, and prerequisites vary. The minimum requirements for application to most physical therapy programs include 90 units, but many are now requiring a B.S. or B.A. Because of the strong emphasis on science courses, which typically includes one year of chemistry, one year of physics, statistics and other mathematics courses, and at least four courses in biology, many students choose Biology as their major. However, any major is acceptable, as long as specific undergraduate prerequisites for individual schools are completed. A typical first-year student curriculum at Towson University might include chemistry, biology and mathematics. Towson provides advising to assist students with their undergraduate preparation for this field.

PREVETERINARY PREPARATION

Program Director: William H. Mechling

Smith Hall 341, 410-704-3027 wmechling@towson.edu

Students planning a career in veterinary medicine should be aware of the following considerations as they prepare for admission to

- a) To be admitted to these very selective schools, students must have an outstanding record, usually with a minimum of 90 undergraduate units.
- b) Most entering veterinary students have a B.S. or B.A. degree with a major in Biology or Chemistry, although other specific disciplines may be acceptable if basic courses in biology, chemistry, physics and mathematics are included.
- c) Although there are no specific tests required for admission to some veterinary schools, most request indications of aptitude as reflected in the GRE, or other standardized examinations.
- d) Veterinary schools expect applicants to have experience in aiding or assisting a veterinarian or working in adjunct fields as a volunteer or paid assistant. Varied experience, including research, is considered valuable.
- e) Advising for preveterinary students is available through the Department of Biological Sciences. It is strongly suggested that students seek these advisory services upon entering Towson University to maximize their career planning strategies.

Careful planning and early contact with veterinary schools is crucial. For further information, contact Professor William H. Mechling, Department of Biological Sciences. E-mail: mechling@towson.edu.

The College of Graduate Studies and Research

The team of administrators and staff of the College of Graduate Studies and Research is committed to providing outstanding service and premier quality education to all the students it serves.

The Graduate School prepares qualified and dedicated students for career advancement, leadership positions and turther graduate study. Its graduate programs satisfy professional and personal needs of students and fulfill the demand for advanced education in the professions. Programs are offered at times convenient to employed students, and many students also take advantage of graduate offerings without circling in degree programs. Four applied doctorates, 36 master's degree programs and 22 certificates are available in the areas of business, education, liberal arts, fine arts, health professions, math, science and technology.

The graduate faculty includes recognized scholars and practitioners in many fields who are committed to excellence in teaching in a scholarly environment. The classroom, library, clinical and faculty assets of the graduate programs are supplemented by a community rich in cultural, artistic, social, technological and scientific resources.

ADMISSION

Admission to the Graduate School at Towson University is granted to applicants whose academic and personal qualifications give promise of success in graduate study. The applicant must hold a baccalaureate degree from a regionally accredited college or university and satisfy minimum GPA requirements.

Students seeking admission to a graduate degree program, or to take courses carrying graduate credit, must apply prior to first enrollment. Applicants must file an application together with all credentials and official transcripts of all college work. Some programs have selection cut-off dates and admit students on a competitive, space-available basis. Applications are available online at http://grad.towson.edu

Graduate School Office Hours

The Graduate School office is open Monday through Thursday from 8 a.m. to 6 p.m. and Fridays from 8 a.m to 5 p.m. During registration, the office is open in the evening according to the registration schedule. Students may arrange for appointments with the Graduate School staff at other hours.

The Graduate Catalog

The Graduate Catalog contains the academic regulations governing graduate studies at Towson University. It also includes information regarding programs, course offerings and the application process. A copy may be obtained by calling or writing to the Graduate School office. It is also available online at http://grad.towson.edu. A schedule of courses for the coming term and registration information are available online at http://students.rowson.edu.

Division of Economic and Community Outreach

To further its mission as Maryland's Metropolitan University, Towson University has established a new Division of Economic and Community Outreach (DECO) to forge stronger links between the university and the community it serves,

For Towson University to fulfill the important role that it plays in the region it must be committed to addressing education, economic development and broad social issues. Several successful university centers, actively involved in community and economic outreach efforts, serve as cornerstones of the division, including the Center for Applied Information Technology, the Center for Geographic Information Sciences, the Economic and Workforce Development Group, Extended Education and Online Learning, and the Homeland Security Group.

The Division of Economic and Community Outreach works closely with the university's academic units as the primary bridge between the community and the university and works towards expanding collaborative apportunities between the two.

Future planned initiatives include expanded internship and service learning opportunities for students, a Metropolitan Leadership Studies Institute, expanded Corporate Education and Training Programs, new extended education programs including certificate programs that target specific business needs, and a program in Land Use and Real Estate Development. A new business incubator focused on International Business and Software/Information Security is also planned. The division will foster stronger links between other existing initiatives on campus such as community wellness and Towson's efforts with the public school system.

DECO's ultimate goal is to connect Towson University better to the broader community and allow the community to benefit from the expertise of our faculty, staff and students. The division's structure provides a focus for interaction with the external community. Towson University is an institution that wants to – and will – make a difference in the business community and in the community-at-large.

The Division of Economic and Community Outreach

OFFICE

Administration Building 301, 410-704-DECO *Vice President:* James P. Clements

The Division of Economic and Community Outreach (DECO) was established to strengthen links between the university and the community it serves. DECO is committed to addressing educational, economic development and broad social issues through collaborative relationships among business, government and individuals. DECO allows the community to benefit from the expertise of Towson University faculty, researchers, staff and students by serving as a bridge between them. DECO offers a variety of services including:

- Customized Geographic Information Systems (GIS) applications
- · Customized training programs
- · Economic forecasting and analysis
- GIS database development and data conversion
- Graduate IT programs
- Health care training
- · Homeland security consulting
- Internet mapping (map-enabled Web sites)
- · Leadership training

CENTER FOR APPLIED INFORMATION TECHNOLOGY

Center for Applied Information Technology (Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-4909

Ali Behforooz, Director

The Center for Applied Information Technology (CAIT) at Towson University responds to the needs of the business community in the region by providing education and training in current information technology (IT) skills and practices, as well as providing consulting services to the community in information technology issues and solutions. TU is recognized by the National Security Agency as a national Center of Academic Excellence.

The Mid-Atlantic CIO Forum

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-6228

Liz Young, Executive-In-Residence

Designed to foster excellence in business and information technology among chief information officers (CIOs) facing similar challenges and issues, the Mid-Atlantic CIO Forum provides an environment that promotes educational and networking opportunities. CIOs share information and experiences, and exchange best practices in

peer-to-peer discussion sessions. The Mid-Atlantic CIO Forum provides executive educational opportunities through targeted presentations on current issues and trends in business and information technology. CIOs in the Mid-Atlantic region, in partnership with Towson University, have created this exciting new forum for the region's prominent Information Technology executives.

CENTER FOR GEOGRAPHIC INFORMATION SCIENCES

(7800 York Road, Suite 306)

Phone: 410-704-2964

John Morgan, III, Director

The Center for Geographic Information Sciences (CGIS) has been in existence at Towson University since 1984. In affiliation with the Department of Geography and Environmental Planning, CGIS not only offers continued support to the University's GIS and related courses but for the past decade has provided geographic information systems (GIS) services in the Mid-Atlantic Region to government agencies, businesses, and non-profit organizations. CGIS' specialists develop GIS databases; perform data conversion, and remote sensing and digital image processing; and create custom maps and map-driven applications. Multimedia specialists offer Web and print graphic design, map-enabled Web site development, and Web programming.

ECONOMIC AND WORKFORCE DEVELOPMENT GROUP

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-4474

Dyan Brasington, Director

This group is host to Leadership Baltimore County and consists of several units including RESI and the Maryland Small Business Development Center.

Leadership Baltimore County at Towson University

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-3358

Elayne Hettleman, Executive Director

Through monthly day-long seminars held from September to June, LEADERSHIP-Baltimore County prepares selected talented people to take on leadership positions on the boards of community and regional non-profit organizations, and provides the foundation for personal and career growth.

RESI

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-RESI (7374)

RESI is a self-funded organization whose interdisciplinary approach to decision and operational support combines knowledge with technology. Since its inception in 1989 RESI has provided the highest level of services to decision-makers in the private, public, and non-profit sectors through its Technology Solutions Group, Management Consulting Group, Applied Economics Group, and Human Services and Policy Analysis Group.

Small Business Development Center

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-5001 Sonia Stockton, Director

Part of a national network founded in 1979, the Maryland Small Business Development Center (SBDC) helps aspiring and existing small business owners establish and expand their businesses by providing a variety of management and technical assistance programs. SBDC helps develop and refine business plans, solve problems, find sources of capital and develop strategies to support growth and profitability at no cost to its clients. The Maryland SBDC also offers a comprehensive education and training program presented by local business leaders from many professional disciplines. With offices conveniently located throughout Maryland's central region, SBDC is committed to strengthening small businesses, thereby contributing to the growth of local, state and national

EXTENDED EDUCATION AND ONLINE LEARNING

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-3742 Michael Schroder, Director

This group administers the Auburn Society, Community Outreach, off campus programs, online education and customized training.

The Auburn Society

(Terrace Dale, 7801 York Road, Suites 332 and 347)

Phone: 410-704-3437

Jacqueline Gratz, M.A., Director

The Auburn Society is Towson University's Learning in Retirement program. Founded in 1999, this self-funded membership organization offers adults ages 50 and older opportunities for continued learning along with programs and activities for social and cultural enrichment. A college education or degree is not a prerequisite for participation in the program.

Community Outreach

DECO has built stronger links between the university and the surrounding community through numerous supported outreach programs in arts, athletics, education, health, media. research, student outreach, and teacher training and education.

Off Campus Programs

Towson University offers courses and programs at numerous locations throughout the state to provide convenient access to a Towson education for Marylanders who are unable to take courses on the Towson campus. In addition, these off campus provide convenient locations for a variety of collaborative programs.

HOMELAND SECURITY GROUP

(Terrace Dale, 7801 York Road, Suite 260)

Phone: 410-704-6229

Allan Berg, Director, Information Assurance and Infrastructure

Protection Programs

This group includes Homeland Security along with Information Assurance and Infrastructure Protection Programs. In 2002 the National Security Agency designated Towson University as a National Center of Academic Excellence in Information Security and Assurance Education. In 2004 the Department of Homeland Security recognized Towson University as a Center of Academic Excellence. Quickly becoming a leader in domestic security, Towson University's Homeland Security group offers numerous services including airport security analysis, computer forensics, cultural analysis of international terrorism, economic modeling of terrorist attacks, evaluating public safety procedures incident response management, and port security. In addition, it provides training and educational programs at various levels as well as noncredit programs and certifications.

HONI BAMBERGER, Associate Professor, Mathematics [2002] B.S., M.Ed., Ph.D., University of Maryland, College Park.

BABU G. BARADWAJ, Associate Professor, Finance [2001] B.S., University of Madras, India; M.S., Iowa State University; Ph.D., Texas A&M University.

CECYLIA BARCZYK, *Professor, Music* [1983] B.M., M.M., Warsaw Conservatory; Postgraduate diploma, Moscow Conservatory; M.M., Yale University.

KENT B. BARNES, Associate Professor and Chair, Geography [1990] B.S., Lock Haven State College; M.A., Kent State University; Ph.D., Rutgers, The State University of New Jersey.

CHRISTINA B. BARRICK, Associate Professor, Nursing [1979] B.S., Towson University; M.S., University of Maryland, Baltimore; Ph.D., University of Maryland, College Park.

SUSAN BARTELS, Associate Professor, Psychology [1997] B.A., University of Michigan; M.A., Ph.D., University of Virginia.

CHRISTOPHER E. BARTLETT, *Professor, Art; Gallery Director* [1974] Art, Cert. Ed., St. Paul's College, England; B.Ed., Bristol University (England); M.F.A., Syracuse University.

BARBARA KAPLAN BASS, Associate Professor, English; Director of the Maryland Writing Project [1974] B.A., Montclair State College; M.S., Indiana State University; Ph.D., University of Maryland.

BARRY A. BASS, Professor, Psychology [1974] B.A., Rutgers University; Ph.D., University of Tennessee.

CELIA BASSICH, Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [2004] B.A., M.A., Catholic University of America; Ph.D. University of Maryland-College Park.

JOANNA S. BASURAY, Associate Professor, Nursing [1987] B.S., M.S., University of Oklahoma; Ph.D., University of Maryland, College Park.

M. TOM BASURAY, Professor, Management; Chair, Finance [1986] B. Com., University of Calcutta (India); M.B.A., Ph.D., University of Oklahoma.

HARRY E. BATES, Professor, Physics, Astronomy and [1977] B.S., Auburn University; M.S., Rollins College; Ph.D., University of Florida.

JANE K. BATES, Professor, Art [1986] B.A., University of California; M.A., Ed.D., Arizona State University.

PAULA BAUER, Lecturer, Elementary Education [2003] B.A., State University of New York, Stony Brook; M.Ed., George Washington University; M.S., Towson University.

IAN BAUM, Assistant Professor, Art [2000] B.F.A., Beaver College; M.F.A., University of Massachusetts, Dartmouth.

GEOFFREY BECKER, Assistant Professor and Director, Masters in Professional Writing, English [2000] B.A., Colby College; M.F.A., University of Iowa.

LARENCE BECKER, Assistant Professor, Psychology [2001] B.A., New York University; M.A., Ph.D., Johns Hopkins University.

ALI BEHFOROOZ, Professor, Computer and Information [1987] B.S., M.S., University of Tehran; M.S., Ph.D., Michigan State University.

CARL BEHM III, Director, Liberal and Professional Studies Graduate Program; Professor, English [1972] B.A., M.A., Ph.D., University of Maryland.

ERIC A. BELGRAD, Professor, Political Science [1966] B.A., M.A., Ph.D., Johns Hopkins University.

MARGARET L. BENNER, Instructor, English; Director, Writing Support Program [1989] B.A., Mt. St. Agnes College; M.A., Georgetown University.

DAVID BERGMAN, Professor, English [1978] B.A., Kenyon College; Ph.D., Johns Hopkins University.

TERRY R. BERKELEY, Professor and Chair, Early Childhood [1995] B.A., The Citadel; M.A., University of North Carolina, Chapel Hill; Ed.D., Harvard University.

CAROL L. BERKOWER, Assistant Professor, Biological Sciences [1998] B.A., University of Chicago; Ph.D., Johns Hopkins University School of Medicine.

LINDA BISHAI, Assistant Professor, Political Science [2000] B.A., Harvard University; LL.M., University of Stockholm; Ph.D., M.Sc., London School of Economics and Politics; J.D., Georgetown University Law Center.

KAREN BLAIR, Professor, Reading, Special Education and Instructional Technology [1992] B.A., Hood College; M.A., Towson University; Ph.D., University of Maryland.

ROBERT W. BLAKE, Associate Professor, Elementary Education [1997] B.S., State University of New York, Albany; M.A.T., Brown University; Ph.D., The University of Illinois at Chicago.

GARRY BOLAN, Lecturer, Mass Communication and Communication Studies [1999] B.S., Towson University; M.A., Ohio University.

TAMMI BORIES, Assistant Professor, Kinesiology [2004] B.A., M.S., California State University, Fullerton; Ph.D., University of North Carolina, Greensboro.

FRANCES BOTKIN, Assistant Professor, English [2000] B.A., M.A., Ph.D., University of Illinois, Chicago.

ANDREA BOUCHER, Professor, Kinesiology [1970] Diploma in Physical Education, University of Adelaide (Australia); Diploma in Early Childhood Education, Western Teachers College (Australia); M.Ed., Western Washington University; Ph.D., University of Maryland.

LAURENCE J. BOUCHER, Professor, Chemistry [1990] B.S., Michigan State University; M.S., Ph.D., University of Illinois, Urbana.

RAOUF N. BOULES, Professor and Chair, Mathematics [1990] B.Sc., M.Sc., Alexandria University (Egypt); Ph.D., The Catholic University of America.

SUZANNE S. BOURDESS, Lecturer, Reading, Special Education and Instructional Technology [1999] B.S., York College of Pennsylvania; M.S., Towson University.

NANCY BOYD, Lecturer, Secondary Education [2004] B.S., Towson State College; M.S., Johns Hopkins University.

BETHANY BRAND, Associate Professor, Psychology [1998] B.A., University of Michigan; M.A., Ph.D., University of Maryland, College Park.

NED BRITT, JR., Associate Professor, Kinesiology[1972] B.S., University of Maryland, Eastern Shore; M.Ed., Springfield College; Ed.D., Indiana University.

KATHERINE BROADWATER, Lecturer, Art [1996] B.A., Capital University; M.A., Towson University; Ph.D., Union Institute and University.

LEONIE BROOKS, Assistant Professor, Psychology [2000] B.A., State University of New York, Stony Brook; M.S., Ph.D., Virginia Commonwealth University.

CHERYL BROWN, Assistant Professor, English; Writing Program Coordinator [1998] B.A., M.A., Ph.D., University of Texas at Arlington.

DANIEL BROWN, Associate Professor, Art [1975] B.A., Towson University; M.F.A., University of Massachusetts.

SHARON BROWN, Lecturer, Reading, Special Education and Instructional Technology [1999] B.A., Towson State University; M.A., George Washington University; Ed.D., University of Maryland.

SARAH BRUCE, Lecturer, Biological Sciences [1999] B.S., Hood College; Ph.D., State University of New York, Albany.

GREGORY W. BRYANT, Associate Professor and Chair, Elementary Education [1990] B.A., Greensboro College; M.Ed., University of North Carolina-Greensboro; Ed.D., Memphis State University.

SHARON BUCHBINDER, Associate Professor. Health Science [1997] B.A., University of Connecticut; M.A., University of Hartford, Ph.D., University of Illinois.

BARRY BUCHOFF, Assistant Professor, Accounting [1972] B.S., University of Maryland; CPA, State of Maryland; M.B.A., Loyola College.

JUSTIN BUCKINGHAM, Assistant Professor, Psychology [2001] B.A., Siena College; M.A., State University of New York, Cortland; Ph.D., Ohio University.

LAWRENCE BURGEE, *Instructor, Management* [2003] B.S., Wesley College; M.B.A., Loyola College; M.S., Ph.D., A.B.D., University of Maryland.

RACHEL J. BURKS, *Professor, Physics, Astronomy and Geosciences* [1989] B.S., University of New Orleans; M.A., Ph.D., University of Texas, Austin.

BEVERLY J. BYE, Clinical Assistant Professor, Nursing [1997] B.S., Towson University; M.Ed., Loyola College, Baltimore; M.S., University of Maryland, Baltimore.

CHRISTOPHER CAIN, Assistant Professor, English [2003] B.A., University of Georgia; M.A., University of Tennessee, Knoxville; Ph.D., Indiana University, Bloomington.

KRISTIN CAMPBELL, Assistant Professor, Mass Communication and Communication Studies [2003] B.A., Canisius College; M.A., West Virginia University; Ph.D., University of Miami.

CLAUDIA CARLSON, Lecturer, Reading, Special Education and Instructional Technology [2004] B.A., M.A., Fort Hays State University.

CAROL A. CARONNA, Assistant Professor, Sociology, Anthropology and Criminal Justice [2002] B.A., University of California, Irvine; M.A., Ph.D., Stanford University.

LILLIAN C. CARTER, Associate Professor, Health Science [1988] B.A., M.A.T., University of South Carolina; Ph.D., Temple University.

THOMAS J. CASCELLA, *Professor, Theatre Arts* [1980] A.S., Housatonic College; B.F.A., University of Bridgeport; M.F.A., Yale University.

THOMAS CASCIERO, Associate Professor, Theatre Arts [1990] B.A., Towson University; C.M.A., Laban Institute; Ph.D., The Union Institute.

RYAN E. CASEY, Assistant Professor, Chemistry [2000] B.S., Virginia Polytechnic Institute of Technology; Ph.D., Clemson University.

RAYMOND J. CASTALDI, Associate Professor, Accounting [1970] B.S., Mt. St. Mary's College; CPA, State of Maryland and District of Columbia; M.B.A., George Washington University.

ISABEL CASTRO-VAZQUEZ, Assistant Professor, Modern Languages [2004] B.A., Universidade da Coruna; M.A., Ph.D., Florida State University.

CYNTHIA CATES, Associate Professor, Political Science [1993] B.S., M.S., Illinois State University; Ph.D., University of Maryland, College Park.

HANNAH CAWLEY, Lecturer, Early Childhood Education [1992] B.S., University of New England; M.Ed., University of Illinois.

MATTHEW S. CHAMBERS, Assistant Professor, Economics [2003] B.A., Wabash College; M.S., Ph.D., Florida State University.

CELLESTINE CHEEKS, Associate Professor, Reading, Special Education and Instructional Technology [1978] B.A., Jackson State University; M.L.S., University of Illinois; Ph.D., University of Pittsburgh.

HENRY L. CHEN, *Professor, Physics, Astronomy and Geosciences* [1965] B.A., Harvard University; M.A., Johns Hopkins University; Ph.D., University of Maryland.

KANG CHENG, Associate Professor, Accounting [1998] B.L., National Taiwan University; M.B.A., Ph.D., George Washington University; CPA, State of Maryland.

JOHN CHOLLET, *Professor*, *Mathematics* [1983] B.A., University of California, Berkeley; M.A., San Francisco State University; Ph.D., University of California, Santa Barbara.

ROSE ANN CHRISTIAN, Associate Professor, Philosophy and Religious Studies [1986] B.A., Wells College; Ph.D., University of Pennsylvania.

ALAN B. CLARDY, Associate Professor, Psychology [1998] B.A., University of Houston; M.A., Southern Illinois University, Carbondale; Ph.D., University of Maryland, College Park.

JAMES P. CLEMENTS, Professor, Computer and Information Sciences; Vice President for Economic and Community Outreach [1989] B.S., University of Maryland, Baltimore County; M.S., Johns Hopkins University; M.S., Ph.D., University of Maryland Graduate School, Baltimore.

ELIZABETH J. CLIFFORD, Assistant Professor, Sociology, Anthropology and Criminal Justice [2000] B.A., University of Toronto; M.A., Ph.D., Northwestern University.

TRUDY COBB DENNARD, Associate Dean, College of Fine Arts and Communication; Associate Professor, Dance [2004] B.S., Eastern Michigan University; M.F.A., University of Michigan.

MARION J. COCKEY, Assistant Professor, Sociology, Anthropology and Criminal Justice [1969] A.B., Randolph-Macon Women's College; M.A., University of Tennessee.

JEROME COHEN, Lecturer, Mathematics [1999] B.S., Towson University; M.Ed., Loyola College.

JACK COLE, Lecturer, Secondary Education [2002] B.A., The Catholic University of America; M.A.T., Wayne State University; Ph.D., University of Maryland.

LYNN COLE, Associate Professor, Elementary Education [1989] B.S., M.Ed., Ph.D., University of Maryland.

SAMUEL G. COLLINS, Assistant Professor, Sociology, Anthropology and Criminal Justice [1999] B.A., Rice University; M.A., Ph.D., American University.

PHILLIP COLLISTER, Assistant Professor, Music [2001] B.A., Marycrest College; M.M., Northwestern University; D.M.A., University of Maryland.

JOHN E. CONNOLLY, Associate Professor, English [1970] B.A., University of Scranton; M.A., Ph.D., University of Pennsylvania.

JAMES R. C. COOK, III, Associate Professor, English; Coordinator, ESOL Program [1980] A.B., Rutgers University; M.A., Ph.D., University of Texas, Austin.

DONNA COONS, Lecturer, Audiology, Speech-Language Pathology and Deaf Studies [2003] B.S., University of Tennessee; M.S., Loyola College.

SHERYL COOPER, Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [1988] B.A., University of Pennsylvania; M.A., New York University; Ph.D., Gallaudet University.

DONNA COPENHAVER, *Lecturer, Elementary Education* [2003] B.S., Towson University; M.Ed., Loyola College.

JAMES P. COUGHLIN, *Professor, Mathematics* [1979] B.S., Fordham College; M.A., Columbia University; Ph.D., University of Colorado.

STEVEN COUTINHO, Assistant Professor, Philosophy and Religious Studies [2001] B.A., M.A., University of London; Ph.D., University of Hamsile.

DONNA COX, Associate Professor, Health Science [1996] B.A., M.S., Ph.D., University of Maryland, Baltimore County.

MiERYL COZART, Lecturer, Sociology, Anthropology and Criminal Justice [2000] B.S., Morgan State University; M.A., University of Maryland, Baltimore County.

LENEIDA CRAWFORD, Associate Professor, Music [1996] B.S., Virginia Commonwealth University; M.A., California State University, Fresno; D.M.A., University of Maryland.

N. HEATHER CROWE, Assistant Professor, Kinesiology [2002] B.S., Frostburg State University; M.A., University of New Orleans; Ph.D., Ohio State University.

DONNA CULAN, Lecturer, Elementary Education [2003] B.S., University of Maryland, College Park; M.Ed., Loyola College.

WILLIAM P. DARROW, Associate Professor, Management [1984] B.S., Drexel University; M. Eng., Ph.D., Pennsylvania State University.

DARUSH DAVANI, Professor, Computer and Information Sciences [1985] B.S., University of Jundishapour; M.S., Loyola College; B.S., M.S., D.Sc., George Washington University.

JOSHUA DAVIS, Assistant Professor, Music [2002] B.A., University of New Hampshire, Durham; M.M., New England Conservatory.

DAVID DAYTON, Assistant Professor, English [2005] A.B., University of California at Santa Cruz; M.A., University of Puerto Rico, Mayaguez; Ph.D., Texas Tech University.

WENDY DEAN, Visiting Instructor, Kinesiology [2004] B.S., Virginia Commonwealth University; M.A.E., University of Alabama, Birmingham.

NORDULF W. G. DEBYE, *Professor*, *Chemistry* [1975] B.A., Rice University; Ph.D., Cornell University.

MICHAEL J. DECKER, Associate Professor, Music [1977] B.A., Millersville State College; M.M., Peabody Conservatory of Johns Hopkins University.

KATHRYN DELAHANTY, Lecturer, Business Excellence [2000] B.A., State University of New York, Albany; J.D., University of Maryland School of Law.

JANET DELANY, Associate Professor, Occupational Therapy and Occupational Science [2002] B.A., Immaculata College; Certification OT, University of Pennsylvania; M.S., University of Notre Dame.

ROXANA DELLAVECCHIA, *Professor and Assistant Dean, Elementary Education* [2000] B.S., M.Ed., Towson University; Ph.D., University of Maryland.

BARBARA DEMCHICK, Lecturer, Occupational Therapy and Occupational Science [2004] B.S., University of Pennsylvania; M.S., Towson University.

KATHERINE DENNISTON, Associate Dean, College of Science and Mathematics; Director, Center for Science and Mathematics Education; Professor, Biological Sciences [1985] B.A., Mansfield State College; Ph.D., Pennsylvania State

University.

ELIZABETH DICEMBRE, Lecturer, Reading, Special Education and Instructional Technology

[2004] B.A., Towson State University; M.S., Goucher College; Ed.D., CASE Johns Hopkins University.

CHARLES DIERBACH, Associate Professor, Computer and Information Sciences

[1991] B.A., Ithaca College; M.S., Ph.D., University of Delaware.

JAMES E. DILISIO, Professor, Geography and Environmental Planning

[1975] B.S., Salem State; M.A., Wayne State University; Ph.D., University of Oklahoma.

JILL DISCORDIA, Visiting Assistant Professor, Chemistry [1999] B.S., Alleghany College; M.Phil., Ph.D., Syracuse University.

NICOLE DOMBROWSKI, Assistant Professor, History [1998] B.A., University of Wisconsin-Madison; M.A., Ph.D., New York University.

JAMES A. DORN, *Professor, Economics* [1973] B.S., Canisius College; M.A., Ph.D., University of Virginia.

PAUL H. DOUGLAS, Professor and Director, American Studies, English

[1969] B.A., University of Connecticut; M.A., University of Oregon; M.Phil., Ph.D., George Washington University.

ALFREDA DUDLEY-SPONAUGLE, Lecturer, Computer and Information Sciences [2000] B.S., M.G.A., University of Maryland.

KAREN DUGGER, Professor and Chair, Women's Studies; Director, Institute for Teaching and Research on Women [1999] B.A., Ph.D., Kent State University.

EDWIN DUNCAN, Professor, English [1993] B.A., Texas Tech University; M.A., Ph.D., University of Texas.

MATTHEW DURINGTON, Assistant Professor, Sociology, Anthropology and Criminal Justice [2004] B.A., University of Texas-Austin; M.A., Ph.D., Temple University.

TIMOTHY DWYER, Assistant Professor, Chemistry [2000] B.S., Regis College; Ph.D., Dartmouth Medical School.

K EDGINGTON, Associate Professor, English [1976] B.A., Ph.D., American University.

JOHN B. EGGER, *Professor, Economics* [1987] B.S., M. Engr., Cornell University; MBA., M.A., Southern Methodist University; Ph.D., New York University.

SHARON B. EIFRIED, Associate Professor, Nursing [1990] Diploma, St. Vincent's Hospital, N.Y.; B.S., Radford University; M.S., Rutgers University; Ph.D., University of Maryland.

CHRISTINE A. EITH, Assistant Professor, Sociology, Anthropology and Criminal Justice [2005] B.A., Wake Forest University; M.A., Bowling Green State University; Ph.D., University of Delaware.

LAURA R. ELDRIDGE, Assistant Professor, History [1970] B.A., Wilson College; M.A., Bryn Mawr College.

BARBARA ANN ELLIS, Lecturer, Elementary Education [2002] B.S., M.Ed. Towson University.

DIANA EMANUEL, Associate Professor, Audiology, Speech-Language Pathology and Deaf Studies [1994] B.S., Towson University; M.S., Ph.D., Pennsylvania State University.

LINDA J. EMERICK, Associate Professor and Graduate Director, Elementary Education [2000] B.A., M.A., Georgia State University; Ph.D., University of Connecticut.

ANDREW ENGEL, Assistant Professor, Mathematics [2002] B.A., Hamline University; M.S., Ph.D., University of Arizona.

LUIS ENGELKE, Associate Professor, Music [1999] B.M., B.M.E., Florida State University; M.A., Ohio State University; D.M.A., Arizona State University.

KAREN GOLDRICH ESKOW, Professor and Chair, Family Studies and Human Services; Professor, Occupational Therapy and Occupational Science [1987] B.S., University of Pennsylvania; M.A., Towson University; Ph.D., University of Maryland.

DEAN R. ESSLINGER, Associate Vice President for Academic Programs; Associate Dean for Faculty Development; Professor, History

[1968] B.A., University of Kansas; M.A., Ph.D., University of Notre Dame.

DANIEL ETTINGER, Associate Professor, Theatre Arts [1996] B.F.A., Southwest Missouri State University; M.F.A., University of Hawaii.

CHRISTOS C. EVANGELIOU, Professor, Philosophy and Religious Studies [1986] B.A., University of Athens; M.A., Ph.D., Emory University.

THOMAS G. EVANS, Associate Professor, Modern Languages [1967] B.A., University of Rochester, M.A., Johns Hopkins University.

TERRY B. EWELL, *Professor and Chair, Music* [2000] B.M., M.A., Ph.D., University of Washington.

CHARLOTTE E. EXNER, Dean, College of Health
Professions; Professor, Occupational Therapy and Occupational
Science

[1982] B.S., Ohio State University; M.S., Johns Hopkins University; Ph.D., University of Maryland.

GREG S. FALLER, *Professor. Electronic Media and Film* [1986] B.S., University of Notre Dame; M.S., Syracuse University; Ph.D., Northwestern University.

BRIAN FATH, Assistant Professor, Biological Sciences [2001] B.S., Miami University; M.S., Ohio State University; Ph.D., University of Georgia.

MARGARET E. FAULKNER, Associate Professor, Kinesiology and Psychology [1970] B.S., West Chester University of Pennsylvania; M.A.,

Trenton State College; Ed.D., University of Northern Colorado.

SUSANNAH FELDMAN, Lecturer, Biological Sciences [1996] B.S., University of Chicago; M.A., Ph.D., Harvard University.

J. VAN FENSTERMAKER, *Professor, Economics* [1988] B.S., M.A., Kent State University; Ph.D., University of Illinois.

DARLENE FEWSTER, Associate Professor, Reading, Special Education and Instructional Technology [1994] B.A., University of Maryland, Baltimore County; M.A., Loyola College; Ed.D., Johns Hopkins University.

MICHAEL H. FIGLER, *Professor, Psychology* [1971] B.S., University of Wisconsin; M.A., Ph.D., Michigan State University.

JONATHAN FILER, Associate Professor, Physics, Astronomy and Geosciences [1998] B.S., Haverford College; M.S., Ph.D., University of North Carolina at Chapel Hill.

VICTOR B. FISHER, Associate Professor, Sociology, Anthropology and Criminal Justice [1961] B.A., Bucknell University; Ph.D., Union Institute and University.

CHARLES FLIPPEN, Associate Professor and Chair, Mass Communication and Communication Studies [1979] B.A., Washington and Lee University; M.A., Ph.D., University of North Carolina.

WILLIAM FORBES, Associate Professor, Kinesiology [1967] B.S., Lock Haven University; M.A., University of Pittsburgh; Ph.D., University of Maryland.

DONALD C. FORESTER, *Professor, Biological Sciences* [1974] B.S., M.S., Texas Tech University; Ph.D., North Carolina State University.

HEATHER FOX, Assistant Professor, Reading, Special Education and Instructional Technology [2000] B.A., Loyola College; M.S., Ph.D., Virginia Tech.

MARIA P. FRACASSO, Dean, Honors College; Professor, Psychology [1994] B.S., M.A., Ph.D., Fordham University.

MARTIN FREEDMAN, *Professor*, *Accounting* [2000] B.S., State University of New York, Buffalo; M.S., University of Pennsylvania; Ph.D., University of Illinois.

BARRY FRIEMAN, *Professor, Early Childhood Education* [1970] B.A., M.A., Ed.D., University of Maryland; M.S.W., University of Maryland School of Social Work.

LAWRENCE FROMAN, *Professor*, *Psychology* [1980] B.A., City College of New York; M.A., Ph.D., Wayne State University.

JACK FRUCHTMAN JR., Professor, Political Science; Director, Law and American Curlization [1985] B.A., Hobart College; M.A., University of California, Berkeley; Ph.D., Johns Hopkins University.

WOLFGANG FUCHS, *Professor, Philosophy and Religious Studies* [1969] B.A., Duquesne University; M.A., Ph.D., Pennsylvania State University.

KARL FUGELSO, Assistant Professor, Art [2000] B.A., University of Virginia; M.A., M. Phil., Ph.D., Columbia University.

M. PAZ GALUPO, Associate Professor, Psychology [1996] B.A., Miami University; M.A., Ph.D., University of Arkansas.

WHITNEY GARCIA, Senior Lecturer, Sociology, Anthropology and Criminal Justice [1996] B.S., Towson University; M.A., Ph.D., University of Maryland, Baltimore County.

DEBORAH GARTLAND, Professor, Reading, Special Education and Instructional Technology [1986] B.S.E., Westfield State College; M.Ed., North Adams State College; Ph.D., Pennsylvania State University.

GAIL GASPARICH, Associate Professor, Biological Sciences [1996] B.S., College of William and Mary; Ph.D., Pennsylvania State University.

GEORGE C. GEORGIOU, *Professor and Chair, Economics* [1980] B.A., Drew University; M.Ph., Ph.D., George Washington University.

BEVERLY GERMAN, Lecturer, Reading, Special Education and Instructional Technology [2000] B.S., Towson University; M.S., Johns Hopkins University.

CYNTHIA GHENT, Lecturer, Biological Sciences [2001] B.S., M.S., Towson University.

GERRIANNE GILLIGAN, Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [2004] B.A., Bucknell University; M.A., Temple University; Ph.D., University of Florida.

CINDY H. GISSENDANNER, *Professor and Chair, History* [1984] B.A., Vassar College; M.A., Ph.D., University of Pennsylvania.

JOHN M. GISSENDANNER, *Professor*, *English* [1975] B.A., M.S., San Francisco State University; Ph.D., University of California, San Diego.

SHARON GLENNEN, Associate Professor, Audiology, Speech-Language Pathology and Deaf Studies [1998] B.S., M.S., Purdue University; M.P.A., Ph.D., Pennsylvania State University.

DARREN GOINS, Assistant Professor, Mass Communication and Communication Studies [2003] B.A., Emory University; M.A., Florida State University, Ph.D., Louisiana State University.

JIN KANG GONG, Dean, College of Graduate Studies and Research and Associate Vice President for Research; Professor, Chemistry [2000] B.A., East China Normal University; Ph.D., Purdue

University.

T. ELIZABETH GOODE, Assistant Professor, Mathematics [2002] B.S., Excelsior College; M.A.T., State University of New York College at Cortland; Ph.D., State University of New York at Binghamton.

GEOFFREY R. GOODSON, *Professor, Mathematics* [1989] B.Sc., Hull University; M.Sc., Warwick University (United Kingdom); D.Phil., University of Sussex (United Kingdom).

JOHN M. GOVERN, *Professor, Psychology* [1989] B.S., Albright College; M.A., Ph.D., Temple University.

JOHN GRANT, Professor, Mathematics; Computer Science [1978] B.S., City College of N.Y.; Ph.D., New York University.

WILLARD GRAVES, Lecturer, Computer and Information Sciences [1971] A.B., B.S., Drury College; B.E.S., M.S., Ph.D., Johns Hopkins University.

ELIZABETH GRAY, Assistant Professor, History [2003] B.A., Bryn Mawr College; M.A., Ph.D., William and Mary College.

WILLIAM F. GRAZER, *Professor, Marketing and e-Business* [1987] B.A., Southern Benedictine College; M.B.A., D.B.A., University of Maryland.

SHEILA P. GREEN, Clinical Assistant Professor, Nursing [2002] B.S., Tuskegee Institute of Nursing; M.S., University of Maryland, Baltimore.

DEBORAH L. GREENER, Associate Professor, Nursing [1993] Diploma, Henry Ford Hospital, Detroit; B.S., Wayne State University; M.S., Ph.D., University of Utah.

SUSAN GRESENS, Associate Professor, Biological Sciences [1995] B.S., State University of New York College, Oneonta; M.S., University of Wisconsin, Madison; Ph.D., University of Chicago.

ALAN E. GRIMSHAW, *Professor, Finance* [1987] B.S., M.B.A., Northern Illinois University; D.B.A., University of Maryland; CPA, State of Maryland.

MELISSA GROVES, Assistant Professor, Economics [2000] B.A., Williams College; Ph.D., University of Massachusetts.

FRANCIS GUEVREMONT, Assistant Professor, Modern Languages [2002] B.A., M.A., Université de Montreal; Ph.D., Yale University.

MARY HACKLEY, Lecturer, Computer and Information Sciences [2001] B.S., Towson University; M.S., Johns Hopkins University.

H. GEORGE HAHN, II, Professor, English; Director, Master's in Humanities, English

[1965] B.S., Mount St. Mary's College; M.L.A., Johns Hopkins University; M.A., Ph.D., University of Maryland.

SARAH A. HAINES, Assistant Professor, Biological Sciences [1999] B.A., Bucknell University; M.S., Ph.D., University of Georgia.

BETH HALLER, Associate Professor, Mass Communication and Communication Studies [1996] B.A., Baylor University; M.A., University of Maryland, College Park; Ph.D., Temple University.

MARILYN TULS HALSTEAD, Assistant Professor, Nursing [1999] Diploma, Blodgett Memorial Hospital School of Nursing, Grand Rapids; B.S.N., Regents College, University of the State of New York; M.S., University of Delaware; Ph.D., University of Maryland.

DENNIS HAMILTON, Lecturer, Computer and Information Sciences

[1996] B.S., Lawrence Technological University; M.S., Johns Hopkins University.

ROBERT HAMMELL II, Assistant Professor, Computer and Information Sciences

[2001] B.S., Arkansas State University; M.S., Air Force Institute of Technology; Ph.D., Wright State University.

SETH HAMMER, Associate Professor, Accounting [1994] B.S., Syracuse University; M.B.A., Baruch College, City University of New York; Ph.D., University of Pittsburgh; CPA, State of Maryland.

GE HAN, Assistant Professor, Mathematics [2003] B.S., Beijing University; M.S., Zhejiang University; Ph.D., University of Pittsburgh.

SUSAN HANSON, Lecturer, Secondary Education [2003] B.S., M.Ed., Towson State College.

JAMES HARDIN, Lecturer, Political Science [1996] B.A., Towson University.

CLARINDA HARRISS, *Professor, English* [1982] B.A., Goucher College; M.A., Johns Hopkins University.

CYNTHIA HARTZLER-MILLER, Associate Professor, Secondary Education [1999] B.A., Goshen College; B.S., Virginia Commonwealth University; Ph.D., Michigan State University.

KAREN HELMUTH-DAY, Lecturer, Audiology, Speech-Language Pathology and Deaf Studies [2002] B.S., James Madison University; M.S., Purdue University.

DOUGLAS HERMAN, Assistant Professor, Geography and Environmental Planning [2000] B.A., Dartmouth College; M.A., Ph.D., University of Hawaii.

JAY HERZOG, Associate Professor and Chair, Theatre Arts [1994] B.A., Brooklyn College; M.F.A., University of Massachusetts, Amherst.

EVA J. HESTER, Associate Professor, Audiology, Speech-Language Pathology and Deaf Studies [1992] B.S., Texas Woman's University; M.A., San Francisco State University; Ph.D, University of Maryland.

MICHAEL HICKEY, Professor, Reading, Special Education and Instructional Technology [2000] B.A., M.A., Ph.D., University of Washington, Seattle.

MICHAEL HIGGINS, Assistant Professor, Kinesiology [2004] B.S., State University of New York, Buffalo; M.E., University of Virginia; Ph.D., University of Delaware.

SCOTT HILBERG, Visiting Assistant Professor, Computer and Information Sciences [1997] M.S., Johns Hopkins University.

CAROLYN HILL, *Professor, English* [1988] B.A., University of Puerto Rico; M.A., Ph.D., University of Maryland.

MARK HOFER, Assistant Professor, Reading, Special Education and Instructional Technology [2003] B.S., University of Notre Dame; M.S., Butler University;

Ph.D., University of Virginia.

NORMA C. HOLTER, *Professor, Accounting* [1985] B.S., M.S., University of Baltimore; Ph.D., George Washington University; CPA, State of Maryland; CIA, Institute of Internal Auditors; C.F.E., Association of Fraud Examiners.

SUNGCHUL HONG, Assistant Professor, Computer and Information Sciences [2002] B.S., Soong Sil University; M.S., Ph.D., University of Texas, Dallas.

MARIANNA HOREA, Assistant Professor, Kinesiology [2002] B.H.S., University of Miami; M.B.S., University of Colorado, Colorado Springs; Ph.D., Texas Women's University.

CATHERINE HORTA-HAYDEN, Assistant Professor, Dance [2000] B.A., Florida International University; M.F.A., Florida State University.

XUEZHANG HOU, Assistant Professor, Mathematics [2000] B.A., M.S., Northeast Normal University-China; Ph.D., Oakland University.

SHELLY HUGGINS, Assistant Professor, Elementary Education [2002] B.S., Salisbury State University; M.Ed., Towson University; Ed.D., Morgan State University.

MARION R. HUGHES, Assistant Professor, Sociology, Anthropology and Criminal Justice [1998] B.A., Franklin and Marshall College; M.A., Ph.D., University of North Carolina, Chapel Hill.

JAMES C. HULL, *Professor, Biological Sciences* [1976] B.A., Ph.D., University of California, Santa Barbara.

SUSAN HUNTER-SCHULZE, Clinical Assistant Professor, Health Science [2001] B.S., M.S., Ohio State.

GERALD W. INTEMANN, Dean, College of Science and Mathematics; Professor, Physics, Astronomy and Geosciences [2000] B.S., M.S., Ph.D., Stevens Institute of Technology.

J. SUSAN ISAACS, Associate Professor, Art [1993] B.A., M.A., Ph.D., University of Delaware.

JODI M. JACOBSON, Assistant Professor, Family Studies [2005] B.S., M.S.W., Ph.D., University of Maryland.

COWAN JAMES, Lecturer, Elementary Education [2003] B.A., Sactbury University; M.Ed., George Washington University.

BHARAT JAIN, *Professor, Finance* [1992] B.S., Delhi College of Engineering; M.B.A., Ph.D., Pennsylvania State University.

HAIG JANIAN, Professor, Art [1970] B.A., M.E.A., Rutgers University.

LIJUN JIN, Associate Professor, Elementary Education [1999] B.A., M.A., Shanghai Teachers University; Ed.D., Indiana University of Pennsylvania.

CRAIG T. JOHNSON, *Professor and Chair, Psychology* [1974] B.A., University of Wisconsin, Madison; M.A., Ph.D., Johns Hopkins University.

IONA JOHNSON, Clinical Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [2000] B.S., George Washington University; M.S., Loyola College.

L. SCOTT JOHNSON, Associate Professor, Biological Sciences [1994] B.A., St. Olaf College; M.S., Northern Arizona University; Ph.D., University of Calgary.

LYNN JOHNSON, Assistant Professor, History [1995] B.A., M.A., University of Alabama; Ph.D., Washington University.

QUINCEY JOHNSON, Lecturer, Business Excellence [1999] B.A., Towson University; M.A., St. Johns College; J.D., University of Maryland School of Law.

PAUL E. JONES, Professor and Chair, Reading, Special Education and Instructional Technology [1971] A.B., Pfeiffer College; M.A., Appalachian State University; Ed.D., University of Virginia.

JACQUELYN D. JORDAN, Associate Professor and Chair, Nursing [2003] B.S.N., Western Connecticut State University; M.S.N., Yale University; Ph.D., Adelphi University.

JOAN C. JORDAN, Associate Professor, Nursing [1981] Diploma, The Johns Hopkins Hospital School of Nursing, Baltimore; B.S.N., M.S., University of Maryland, Baltimore; Ed.D., Morgan State University.

NANCY JORDAN, Assistant Professor, Elementary Education [2000] B.A., Boise State University; M.A., Virginia Polytechnic Institute; Ph.D., New York University.

MICHAEL JOTHEN, *Professor, Music* [1993] B.A., St. Olaf College; M.M., Case Western Reserve; Ph.D., Ohio State University.

CYNTHIA KALODNER, *Professor, Psychology* [2002] B.A., Rutgers University; M.S., Ph.D., Pennsylvania State University.

MAYA KALYANPUR, Associate Professor, Reading, Special Education and Instructional Technology [1994] B.A., Delhi University Jawaharlal (India); M.A., Nehru University (India); Ph.D., Syracuse University.

GAIL KAPLAN, Associate Professor, Mathematics [2004] B.A., Goucher College, M.S., Ph.D., State University of New York, Stony Brook.

HOWARD S. KAPLON, Associate Professor, Mathematics [1966] B.S., Towson University; M.S., Ohio State University.

RAMESH KARNE, Professor, Computer and Information Sciences [1995] B.E., Osmania University (India); M.S., University of Wisconsin; Ph.D., George Mason University.

MARY KATSAFANAS, Lecturer, Elementary Education [2004] B.S., Towson University; M.S., Johns Hopkins University

KIMBERLY KATZ, Assistant Professor, History [2003] B.A., Emory University; M.A., Ph.D., New York University.

SHOHREH KAYNAMA, Dean, College of Business and Economics; Professor, Marketing and e-Business [1989] B.A., Towson University; M.B.A., University of Baltimore; Ph.D., George Washington University.

GARLAND KEESLING, *Professor, Marketing and e-Business* [1989] B.A., University of Georgia; M.A., Appalachian State University; Ph.D., University of Arkansas.

LYNNE J. KELLY, Assistant Professor, Finance [2001] B.S., Carnegie Mellon University; M.B.A., Ohio State University; Ph.D., George Washington University.

TODD KENREICH, Assistant Professor, Secondary Education [2001] B.A., Georgetown University; M.A., Ph.D., Ohio State University.

VICKY KENT, Assistant Professor, Nursing [1999] B.S., William Carey College; M.S., Ph.D., University of Maryland, Baltimore.

JEFFREY KENTON, Assistant Professor, Reading, Special Education and Instructional Technology [2002] B.A., University of Iowa; M.S., Ph.D., Iowa State University.

DEBORAH KIDDER, Associate Professor, Management [2002] B.A., Swarthmore College; Ph.D., University of Minnesora.

CYNTHIA E. KIELINEN, *Professor, Nursing* [1989] Diploma, Salem Hospital School of Nursing; B.S., M.S., Boston University; Ed.D., Columbia University Teachers College.

KWANGMI KIM, Assistant Professor, Mass Communication and Communication Studies [2003] B.A., M.A., EWHA Woman's University, Korea; Ph.D., Pennsylvania State University.

OHOE KIM, *Professor, Mathematics* [1972] B.A., Korea University; M.S., Ph.D., University of Rochester.

YANGGON KIM, Associate Professor, Computer and Information Sciences [1998] B.S., M.S., Seoul National University; Ph.D., Pennsylvania State University.

NECHIE R. KING, Associate Professor, Elementary Education [1991] B.A., Antioch College; M.Ed., Harvard Graduate School of Education; Ph.D., University of Wisconsin, Madison.

K. TODD KING, Assistant Professor, Health Science [2004] A.S., Clayton State College; B.S., Georgia State University; M.A., Ph.D., University of Alabama.

MUBINA H. KIRMANI, Associate Professor, Early Childhood Education [1994] B.Ed., M.Ed., University of Nairobi Kenya; C.A.S., Ed.D., Harvard University.

WILLIAM KLEINSASSER, *Professor, Music* [1992] B.A., University of Oregon; M.M., D.M., Indiana University.

JON-DAVID KNODE, Lecturer, Reading, Special Education and Instructional Technology [2002] B.S., M.B.A., Salisbury State University.

JAYE KNUTSON, Associate Professor, Dance [1989] B.S., University of Nevada, Las Vegas; M.A., University of Hawaii, Manoa; C.M.A., Laban/Barlenieff Institute of Movement Studies.

MIA J. KO, Assistant Professor, Health Science [1999] B.A., Case Western Reserve University; M.S.Ed., Temple University; Ph.D., University of Maryland, College Park.

RAJESWARI M. KOLAGANI, Assistant Professor, Physics, Astronomy and Geosciences [2001] M.S., Birla Institute of Science; Ph.D., Indian Institute of Science.

CHANG MIN KONG, *Professor, Economics* [1978] B.A., Seoul National University; M.A., Ph.D., University of Wisconsin.

DONALD J. KOPKA, JR., Assistant Professor, Management [1995] B.A., M.B.A., University of Toledo; Ph.D., George Washington University.

PEGGY KORCZAK, Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [2001] B.A., University of Vermont; M.S., Columbia University; Ph.D., City University of New York.

MICHAEL KORZI, Associate Professor, Political Science [1999] B.A., University of Pittsburgh; M.A., Pennsylvania State University; Ph.D., University of Albany.

RICHARD M. KRACH, *Professor, Mathematics* [1987] B.S., M.A., Ph.D., Ohio State University.

THOMAS O. KRAUSE, Associate Professor, Physics, Astronomy and Geosciences [1976] B.S., Massachusetts Institute of Technology; Ph.D., Ohio State University.

OLGA KRITSKAYA, Lecturer, Reading, Special Education and Instructional Technology [2004] B.S., Technological University, Petersburg, Russia; M.A., Hertzen State Pedagogical University, Russia; M.A., Ph.D., Michigan State University.

THOMAS G. KRUGGEL, Associate Professor, Psychology [1974] B.A., University of Michigan; Ph.D., Wayne State University.

KARLA A. KUBITZ, Associate Professor, Kinesiology [1997] B.A., University of West Florida; M.S., University of Texas, Dallas; Ph.D., Arizona State University.

MARTHA J. KUMAR, *Professor, Political Science* [1971] B.A., Connecticut College; M.A., Ph.D., Columbia University.

JENNIFER LACKEY, Lecturer, Electronic Media and Film [2004] B.A., Dennison University; M.S., Vanderbilt University; M.A., Emory University.

JENNIFER J. LANGDON, Lecturer, Sociology, Anthropology and Criminal Justice

[2005] B.A., Wesleyan University; M.A., University of Baltimore; A.B.D., George Mason University.

KARL G. LAREW, *Professor, History* [1966] B.A., University of Connecticut; M.A., Ph.D., Yale University.

DAVID LARKIN, *Professor, Chemistry* [1973] B. Technology, Ph.D., Loughborough University of Technology; MRSC, Royal Society of Chemistry, London.

MARY ELLEN C. LASHLEY, Associate Professor, Nursing [1986] RN; B.S., Towson University; M.S., University of Maryland, Baltimore; Ph.D., University of Maryland, College Park.

BARBARA LASTER, *Professor, Reading, Special Education and Instructional Technology* [1994] B.S., University of Florida; M.S., Ohio University: Ed.D., Virginia Polytechnic and State University.

KIMBERLY LAUFFER, Assistant Professor, Mass Communication and Communication Studies [2000] B.A., M.A., Michigan State University; Ph.D., University of Florida.

LOUISE LAURENCE, Associate Dean, College of Business and Economics; Professor, Economics [1987] B.S., Ph.D., University of Maryland.

MICHAEL LAVINE, Assistant Professor, Computer and Information Sciences [1996] B.S., Touro College; M.Sc., City University Business School, London; M.S., Johns Hopkins University.

JAMES C. LAWLOR, *Professor, Secondary Education* [1971] B.S., Towson University; M.L.A., Johns Hopkins University; Ph.D., University of Maryland.

SONIA LAWSON, Assistant Professor, Occupational Therapy and Occupational Science [1994] B.S., Towson University; M.Ed., University of Maryland.

JONATHAN LAZAR, Associate Professor, Computer and Information Sciences [1999] B.B.A., Loyola College; M.S., Ph.D., University of Maryland Graduate School, Baltimore.

DAVENIA J. LEA, Assistant Professor, Reading, Special Education and Instructional Technology [2005] B.S., M.Ed., Ph.D., University of Maryland, College Park.

BRENDA LEACH, Assistant Professor, Music [2005] B.M., Susquehanna University Pennsylvania; M.M., Eastman School of Music; M.Ed., Harvard University; D.M.A., Eastman School of Music.

DEBORAH LEATHER, Associate Provost, Academic Affairs [1992] B.A., College of St. Elizabeth; M.L.S., University of Hawaii; M.B.A., Marymount University; D.B.A., George Washington University.

JEONG-JOON LEE, Assistant Professor, Economics [2000] B.A., Yonsei University, Ph.D., Stanford University.

JUNG-SOOK LEE, Associate Professor, Mass Communication and Communication Studies

[1994] B.A., Busan National University; M.A., University of Illinois at Urbana, Champaign; Ph.D., University of Wisconsin, Madison.

KANGOH LEE, *Professor, Economics* [1990] B.A., M.A., Seoul National University; Ph.D., University of Illinois.

LENA B. LEE, Assistant Professor, Nursing [1974] B.S.N., Tuskegee Institute; M.S., University of Maryland, Baltimore.

BEVERLY C. LEETCH, Associate Professor, Modern Languages [1973] B.A., Mary Baldwin College; M.A., Ph.D., Johns Hopkins University.

JONATHAN LESHNOFF, Assistant Professor, Music [2001] B.A., Johns Hopkins University; B.M., Peabody Conservatory of Music; M.M., Peabody Conservatory of Music; D.M.A., University of Maryland.

PETER LEV, *Professor, Electronic Media and Film* [1983] B.A., Wesleyan University; M.A., Ph.D., University of California, Los Angeles.

STEVEN LEV, Associate Professor, Physics, Astronomy and Geosciences

[2000] B.S., Dickinson College; M.S., University of Cincinnati, Ph.D., State University of New York, Stony Brook.

CATHALEEN D. LEY, Assistant Professor, Nursing [2003] B.S., University of Hawaii; M.S., University of California, Los Angeles; Ph.D., University of Maryland, Baltimore.

THOM LIEB, Professor, Mass Communication and Communication Studies [1990] B.A., Point Park College; M.S., Syracuse University; Ph.D., University of Maryland.

HARVEY LILLYWHITE, *Professor*, *English* [1984] M.A., Columbia University; Ph.D., University of Utah.

CHRISTINE LIMB, Assistant Professor, Music [2003] B.M., M.M., West Virginia University; D.M.A., University of Southern California.

LAURA LISING, Assistant Professor, Physics, Astronomy and Geosciences

[2003] B.S., University of Virginia; M.A., Ph.D., University of California, Berkeley.

JOYCE CURRIE LITTLE, Professor, Computer and Information Sciences

[1981] B.S., Northeast Louisiana State University; M.S., San Diego State University; Ph.D., University of Maryland; CCP, CDP.

ELIN LOBEL, Assistant Professor, Kinesiology [2002] B.A., Connecticut College; M.S., Ph.D., University of Illinois.

EDDIE L. LOH, *Professor, Physics, Astronomy and Geosciences* [1969] B.S., Virginia Polytechnic Institute; Ph.D., Johns Hopkins University.

BOON H. LOO, *Professor and Chair, Chemistry* [2002] B.S., M.S., Victoria University of Wellington, New Zealand; Ph.D., University of Illinois, Chicago.

RAYMOND P. LORION, Dean, College of Education [2004] B.S., Tufts University; Ph.D., University of Rochester.

WENDY LOWER, Assistant Professor, History [2004] B.A., Hamilton College; M.A., Ph.D., American University.

CHAO LU, Professor and Chair, Computer and Information Sciences [1990] B.S., Shandong University; M.S., Ph.D., City University of New York.

DIANE LUCHESE, Associate Professor, Music [1999] B.M., Manhattan School of Music; M.M., New England Conservatory; Ph.D., Northwestern University.

FROMA LUSTMAN, Lecturer, Mathematics [1999] B.S., Downstate Medical, New York; M.S., Johns Hopkins University.

FRANCES D. LUTHER, Assistant Professor, Reading, Special Education and Instructional Technology [2001] B.S., University of Regina; M.S., University of Alberta; PhD., University of Saskatchewan.

JOHN L. MacKERRON, Associate Professor, Electronic Media and Film [1971] B.S., State University of New York, Fredonia; M.S., Ed.D., Syracuse University.

JUDITH MACKS, Lecturer, Mathematics [1996] B.A., Western Maryland College; M.Ed., Loyola College.

NAOKO MAESHIBA, Assistant Professor, Theatre Arts [2003] B.A., M.A., Kwansai Gakuin University; M.F.A., University of Hawaii, Manda.

BARBARA F. MAESTAS, Lecturer, Elementary Education [1999] B.A., Elmira University; M.A.T., Western New Mexico University.

CRISTINA MAGALDI. Associate Professor. Music [1998] B.A., University of Brazil; M.M., University of Reading; Ph.D., University of California, Los Angeles.

LINDA R. MAHIN, Associate Professor, English [1987] M.A., Ph.D., University of Illinois; M.S., University of Baltimore.

IRENA S.M. MAKARUSHKA, Associate Dean. College of Liberal Arts [2004] B.A., St. John's University; M.A., Ph.D., Boston University.

LALEH MALEK, Lecturer, Marketing and e-Business [1998] B.A., Washington College; M.M.S., Loyola College.

MAN C. MALOO, *Professor, Accounting* [1988] Bachelor of Commerce, College of Commerce (India); Master of Commerce, University of Rajasthan (India); M.B.A., Clark Atlanta University; D.B.A., Florida State University.

MICHELLE E. MANASSE, Instructor, Sociology, Anthropology and Criminal Justice [2005] B.A., Franklin and Marshall College; M.A., A.B.D., Emory University.

JOHN MANCINI, Lecturer, History [1987] B.S., Towson University: M.A., Ph.D., Catholic University of America.

PATRICIA MANDELL, Lecturer, Reading, Special Education and Instructional Technology [2004] B.A., Kansas State University: M.A., Our Lady of the Lake University, San Antonio, Texas; Ed.D., University of Houston.

SUSAN LESLIE MANN, Associate Professor, Dance [1989] B.A., University of Texas, Austin; M.F.A., University of

BARRY MARGULIES, Assistant Professor, Biological Sciences [2001] S.B., Massachusetts Institute of Technology; Ph.D., Johns Hopkins University School of Medicine.

North Carolina, Greensboro.

RITA D. MARINHO, *Dean*, *College of Liberal Arts* [2003] B.A., University of Massachusetts-Dartmouth; M.A., Ph.D., Brown University.

THOMAS J. MARONICK, *Professor*, *Marketing and e-Business* [1987] B.A., St. Thomas Seminary; M.S., University of Denver; D.B.A., University of Kentucky.

PRISCA A. MARTENS, Associate Professor and Assistant Chair, Elementary Education [2001] B.A., M.Ed., Valparaiso University; Ph.D., University of Arizona.

RAYMOND MARTENS, Visiting Assistant Professor, Art [2002] B.F.A., Minneapolis School of Art; M.A., Ed.D., Arizona State University.

CHARLES L. MARTIN, JR., Professor, Accounting [1988] B.S., University of Maryland; M.S., D.B.A., George Washington University; CPA, State of Maryland.

ROBERT J. MARTIN, Assistant Professor, Kinesiology [2000] B.S., Temple University: M.Ed., Ed.D., Columbia University Teachers College.

TONI MARZOTTO, *Professor, Political Science* [1975] B.A., University of California, Berkeley; M.A., Ph.D., University of Connecticut, Storrs.

BRIAN S. MASTERS, Associate Professor, Biological Sciences [1989] B.S., Ph.D., University of Florida.

SHANNON D. MATHEWS, Assistant Professor, Gerontology [2004] B.A., Pomona College; M.A., A.B.D., University of Kentucky.

JONATHAN F. MATTANAH, Associate Professor, Psychology [1999] B.A., Yale University; M.A., Ph.D., University of California, Berkeley.

TONIA MATTHEWS, Visiting Assistant Professor, Art [1993] B.F.A., Indiana University; M.F.A., Louisiana State University.

COY L. MAY, *Professor, Mathematics* [1979] B.A., University of Texas; M.A., University of California, Los Angeles; Ph.D., University of Texas.

KIM McCARRON, Clinical Assistant Professor, Nursing [1998] Diploma, Thomas Jefferson University; B.S.N., University of Pennsylvania; M.S., University of Maryland, Baltimore.

ALISON McCARTNEY, Assistant Professor, Political Science; Director, International Studies [2001] B.A., Syracuse University; M.A., Ph.D., University of Virginia.

JOAN McCARTHY, Lecturer, Reading, Special Education and Instructional Technology [2002] B.S., University of Missouri; M.Ed., University of West Florida.

GEORGE J. McCOOL, Associate Professor, Modern Languages [1990] B.A., University of Scranton; Licence es lettres, Université de Reims; M.A., Ph.D., Cornell University.

DONALD McCULLOH, Senior Lecturer, Management [1968] B.A., The Citadel; M.A., George Washington University.

MORNA McDERMOTT, Assistant Professor, Elementary Education
120021 R.A. M.A. University of Connecticut: Ph.D. University

[2002] B.A., M.A., University of Connecticut; Ph.D., University of Virginia.

MARK P. McELREATH, Professor, Mass Communication and Communication Studies

[1987] B.A., University of Houston; M.A., Ph.D., University of Wisconsin, Madison.

WAYNE McKIM, Professor, Geography [1971] B.A., M.A., Michigan State University; Ph.D., Northwestern University.

JOHN C. McLUCAS, *Professor, Modern Languages* [1984] B.A., Wesleyan University; M.A., Ph.D., Yale University.

JOAN D. McMAHON, Asistant Director, Honors College; Professor, Human Resource Development [1973] B.S., M.A., University of Maryland; Ed.D., George Washington University.

AUDRA McMULLEN, Associate Professor, Mass Communication and Communication Studies [1998] B.A., Moorhead State University; M.A., Bowling Green State University; Ph.D., Ohio University.

SANDRA HANSON McPHERSON, Assistant Professor, Economics

[2000] B.A., Bemidji State University; M.A., Ph.D., Indiana University.

WILLIAM H. MECHLING, Assistant Professor, Biological Sciences [1967] B.S., M.A., M.Ed., University of Missouri.

GABRIELE MEISELWITZ, Visiting Assistant Professor, Computer and Information Sciences [1999] B.S., Technical College of Hamburg; M.S., Towson University

JEFFREY A. MELLO, *Professor and Chair*, *Management* [2001] B.S.B.A., Boston University; M.B.A., Ph.D., Northeastern University.

EVA MENGELKOCH, Associate Professor, Music [1999] B.A., Folkwang Hochschule; M.M., Ph.D., Indiana University.

MARYBETH MERRYMAN, Associate Professor, Occupational Therapy and Occupational Science [1996] B.S., Ohio State University; M.S., Towson University; Ph.D., University of Maryland, Baltimore County.

RICHARD METZGAR, Lecturer, Elementary Education [2003] B.S., Bloomsburg State University; M.Ed., Loyola College.

JEFFREY A. MICHAEL, Assistant Professor, Economics [1999] A.B., Hamilton College; M.S., University of Maine; Ph.D., North Carolina State University.

PAUL MIERS, Associate Professor, English [1988] B.A., M.A., Texas Christian University; Ph.D., University of Missouri, Columbia.

FRANK R. MILIO, *Professor*, *Chemistry* [1965] B.S., M.S., University of Maryland.

ALLAN R. MILLER, Associate Professor, Marketing and e-Business [1989] B.A., Marietta College; M.B.A., University of Puget

[1989] B.A., Marietta College; M.B.A., University of Puget Sound; D.B.A., University of Tennessee; M.A., New School for Social Research.

JEAN M. K. MILLER, Chair, Art [2004] B.F.A., St. Cloud State University; M.F.A., California College of the Arts.

ROBERT J. MILLER, Lecturer, Business Excellence [1999] B.A., Muhlenberg College; J.D., University of Baltimore School of Law.

STEPHEN MOGGE, Assistant Professor, Reading, Special Education and Instructional Technology [2002] B.A., M.Ed., Ph.D., University of Illinois, Chicago.

BARRY W. MOORE, Associate Professor and Chair, Electronic Media and Film [1978] B.A., M.A., Pennsylvania State University; Ph.D., University of Michigan.

JOHN M. MORGAN, III, Professor, Geography and Environmental Planning; Director, Center for Geographic Information Sciences (CGIS) [1984] B.S., M.A., Towson University; Ph.D., University of Maryland.

PAMELA MORGAN, Visiting Assistant Professor, Elementary Education

[2000] B.S., Coppin State College; M.A., College of Notre Dame of Maryland.

BRUCE MORTENSON, Associate Professor, Psychology [1999] B.S., State University of New York, Plattsburgh; M.A., Psy.S., Galludet University; M.A., Ph.D., Louisiana State University.

TODD MOYER, Assistant Professor, Mathematics [2003] B.S., Shippensburg University; M.S., Millersville University; Ed.D., Temple University.

ALICIA MUELLER, Associate Professor, Music [2000] B.S., Tennessee Technological University; M.S., University of Illinois; Ed.D., Arizona State University.

CLARE N. MUHORO, Assistant Professor, Chemistry [2005] B.S., St. Lawrence University; M.S., Ph.D., Yale University.

DENNIS C. MUNIAK, Associate Professor, Political Science [1989] B.A., State University of New York, Buffalo; M.R.P., Ph.D., Syracuse University.

GEOFFREY MUNRO, Assistant Professor, Psychology [2002] B.A., Edinboro University of Pennsylvania; M.A., Ph.D., Kent State University.

PAUL MUNROE, Assistant Professor, Sociology, Anthropology and Criminal Justice [2001] B.A., San Jose State University; A.M., Ph.D., Stanford

KATHRYN MURPHY, Visiting Instructor, Occupational Therapy and Occupational Science

[2001] B.S., M.S., Towson State University.

University.

LYNNE MURPHY, Clinical Assistant Professor, Occupational Therapy and Occupational Science [1999] B.S., M.S., Towson University.

JOHN J. MURUNGI, Professor and Chair, Philosophy and Religious Studies

[1969] B.A., Beloit College; M.A., Ph.D., Pennsylvania State University; J.D., University of Maryland Law School.

DANIEL MYDLACK, Assistant Professor, Electronic Media and Film

[2003] B.F.A., Massachusetts College of Art; M.F.A., University of California, San Diego.

SIRI NADLER, Assistant Professor, Art [2000] B.F.A., M.F.A., Tyler School of Art, Temple University.

BARINDRA N. NAG, Professor, Management [1987] B.Tech., M.Tech., University of Calcutta (India); Ph.D., University of Maryland.

SHELTON NANCY, Assistant Professor, Elementary Education [2003] B.A., State University of New York, Albany, M.A., Ph.D. University of Florida.

JANE NEAPOLITAN, Associate Professor, Elementary Education

[1999] B.A., Sacred Heart University; M.S., University of Bridgeport; Ed.D., Columbia University.

JAY NELSON, Associate Professor, Biological Sciences [1993] B.A., B.S., University of Washington; M.S., Ph.D., University of Wisconsin, Madison.

BENJAMIN A. NEIL, Associate Professor, Accounting/ Business Law

[1990] B.A., University of Baltimore; M.S., Morgan State University; J.D., University of Baltimore.

H. WAYNE NELSON, JR., Associate Professor, Health Science [1998] B.A., M.A., Portland State University; M.A., California State University; M.B.A., City University; Ph.D., Oregon State University.

GLORIA A. NEUBERT, Professor, Secondary Education [1972; 1980] B.S., M.Ed., Towson University; Ph.D., University of Maryland.

FLORENCE NEWMAN, Professor, English [1987] B.A., M.A., University of Virginia; Ph.D., Cornell University.

HOWARD L. NIXON II, Professor, Sociology, Anthropology and Criminal Justice

[1995] B.A., Lehigh University; Ph.D., University of Pittsburgh.

MICHAEL O'LEARY, Associate Professor, Mathematics [1998] B.S., Benedictine University; M.S., Ph.D., Northwestern University.

MICHAEL T. O'PECKO, Professor, Modern Languages [1973] B.A., Pennsylvania State University; M.A., Ph.D., Johns Hopkins University.

LINDA M.ORAVECZ, Assistant Professor, Family Studies [2005] B.A., M.C.P., Ph.D., University of Maryland.

JACK D. OSMAN, Professor, Health Science [1971] B.S., West Chester State College; M.A., University of Maryland; Ph.D., Ohio State University; M.A.-Theology, St. Mary's Seminary.

JAMES OTTO, Associate Professor, Management [2003] B.S., United States Military Academy; M.S., Georgia Institute of Technology; Ph.D., University of Kentucky.

SETH OVADIA, Assistant Professor, Sociology, Anthropology and Criminal Justice [2003] B.A., Swarthmore College; M.A., Ph.D., University of Maryland, College Park.

STEPHEN PALLETT, Clinical Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [1991] B.A., University of Maryland; M.S., Towson University; Au.D., University of South Florida.

FREDERICK J. PARENTE, Professor, Psychology [1975] B.A., California State University; M.A., Ph.D., University of New Mexico.

GAIL P. PARR, Assistant Professor, Kinesiology [1987] B.S., Towson University; M.S., University of Delaware; Ph.D., University of Maryland, College Park.

HARVEY PAUL, Professor, Economics [1966] B.A., Brooklyn College; Ph.D., State University of New York, Buffalo.

JAMES R. PAULSEN, Professor, Art [1969] B.A., Western Illinois University; M.A., Northern Illinois University; M.F.A., University of Delaware.

OLEG PAVLOV, Assistant Professor, Mathematics [2003] M.S., Moscow State College, Russia; Ph.D., Ohio University.

MARK W. PELLOWSKI, Assistant Professor, Audiology, Speech-Language Pathology and Deaf Studies [2002] B.A., University of Maine; M.S., Syracuse University; Ph.D., Vanderbilt University.

HERBERT PETRI, Professor, Psychology [1971] A.B., Miami University; M.A., Ph.D., Johns Hopkins

GERALD PHILLIPS, Associate Professor, Music [1971] B.S., Central Michigan State University; M.A., University of Cincinnati; Ph.D., Temple University.

STEVEN PHILLIPS, Associate Professor, History [1999] B.A., George Washington University; Ph.D., Georgetown University.

WALTER DANA PHILLIPS, Assistant Professor, English [2005] B.A., Furman University; M.A., University of Georgia; Ph.D., Duke University.

[O-ANN PILARDI, Professor, Women's Studies; Professor, Philosophy and Religious Studies [1969] B.A., Duquesne University; M.A., Pennsylvania State University; Ph.D., Johns Hopkins University.

SHARMA PILLUTLA, Associate Professor, Management [1993] B.Tech., Banaras Hindu University; M.M.S, University of Bombay; Ph.D., Syracuse University.

RONN PINEO, Professor, History [1988] B.A., California State University; M.A., Ph.D., University of California, Irvine.

DEBORAH M. PIPER, Affiliate Instructor, Reading, Special Education and Instructional Technology [1999] B.A., University of Maryland, Baltimore County; M.A., University of Maryland, College Park.

CAROL PIPPEN, Instructor, English; Director, ESOL Writing Support [1980] B.A., Washington College; B.S., M.A., University of Maryland; Ph.D., University of Pennsylvania.

SHARON PITCHER, Assistant Professor, Reading, Special Education and Instructional Technology [1999] B.S., M.S., Towson University; Ph.D., University of Maryland.

ROBERT A. PITMAN, Associate Professor, Art [1972] B.S., M.Ed., Towson University; M.F.A., Maryland Institute College of Art.

AMY PLEET, Associate Professor, Reading, Special Education and Instructional Technology [2000] B.A., University of Delaware; M.S., Johns Hopkins University; Ed.D., George Washington University.

JAMES PLUTSCHAK, Lecturer, Mathematics [2001] B.S., Salisbury State University; M.Ed., Loyola College.

DARCY PLYMIRE, Assistant Professor, Kinesiology [2000] B.S., Ohio University; M.S., University of California-Davis; Ph.D., University of Iowa.

PAUL POJMAN, Assistant Professor, Philosophy and Religious [2002] M.A., University of Mississippi; M.A., Ph.D., Indiana University.

JOSEPH POMYKALA, Visiting Assistant Professor, Economics [1998] B.A., University of Maryland, College Park; Ph.D., University of Pennsylvania.

MARLANA PORTOLANO, Assistant Professor, English [2003] B.A., University of St. Thomas; M.A., Ph.D., Catholic University of America.

JOAN M. PORTS, Assistant Professor, Early Childhood [1978] B.S., M.Fd., Towson University; D.Ed., Pennsylvania State University.

KAREN W. POTTASH, Clinical Administrator of Speech Language Pathology, Audiology, Speech-Language Pathology and Deaf Studies

[1999] B.S., Towson University; M.A., Case Western Reserve University.

GARY E. POWELL, Professor, Finance [2001] B.A., University of Akron; M.A., Ph.D., Kent State University.

KATE POWER, Assistant Professor, Elementary Education [2003] B.A., Northwestern University; M.Ed., Ph.D., University of Illinois, Chicago.

RICHARD S. PREISLER, Associate Professor, Chemistry [1982] Sc.B., Brown University; Ph.D., Stanford University.

ALAN J. PRIBULA, Associate Professor, Chemistry [1976] B.S., Bucknell University; Ph.D., University of Illinois, Urbana.

DENNIS PRICE, Associate Professor and Chair, Dance [1988] B.F.A., M.F.A., Florida State University; Martha Graham Pedagogy Certification.

THOMAS D. PROFFITT, Associate Dean, College of Education; Professor, Secondary Education [1990] B.A., Towson University; M.A., Morgan State College; Ed.D., University of Maryland, College Park.

DOUGLAS W. PRYOR, Associate Professor and Acting Chair, Sociology, Anthropology and Criminal Justice [1996] B.S., M.A., Northern Arizona University; Ph.D., Indiana University.

KIMBERLY PUDANS-SMITH, Lecturer, Audiology, Speech-Language Pathology and Deaf Studies [2002] B.A., Galluadet University; M.S., Western Maryland College.

ROBYN QUICK, Associate Professor, Theatre Arts [1998] B.A., Western Maryland College; M.A., Kent State University; Ph.D., University of Michigan.

JULIE QUIMBY, Assistant Professor, Psychology [2002] B.A., Ithaca College; M.A., Ph.D., University of Maryland, College Park.

JOAN RABIN, Associate Professor, Psychology [1971] B.A., Queens College; Ph.D., State University of New York, Buffalo.

SUSAN RADIUS, Professor, Health Science [1981] A.B., Vassar College; M.Ed., Goucher College; Ph.D., Johns Hopkins University.

CINDY RALEY, Lecturer, Reading, Special Education and Instructional Technology [2002] B.A., M.Ed., Towson State University; Ph.D., University of Maryland, College Park.

LEA A. RAMSDELL, Assistant Professor, Modern Languages [1999] B.A., Clarke College; M.A., University of Iowa; M.A., University of Texas at Austin; Ph.D., University of New Mexico.

ROSEMARY RAPPA, Visiting Instructor, Reading, Special Education and Instructional Technology [2004] B.A., University of Maryland; M.S., CASE Johns Hopkins University.

PAUL RARDIN, *Professor*, *Music* [1993] B.A., Williams College; M.M., D.M.A., The University of Michigan.

DALE RAUSCHENBERG, *Professor*, *Music* [1966] B.M.E., Youngstown University; M.M., Indiana University.

BINA D. RAVAL, Assistant Professor, Psychology [1969] B.A., Bihar University; M.A., Ph.D., Catholic University of America.

J. DAVID RAWN, *Professor*, *Chemistry* [1974] B.S., Capital University; Ph.D., Ohio State University.

AKIM REINHARDT, Assistant Professor, History [2001] B.A., University of Michigan; M.A., Hunter College; Ph.D., University of Nebraska.

S. MAGGIE REITZ, Professor and Chair, Occupational Therapy and Occupational Science [1990] B.S., M.S., Towson University; Ph.D., University of Maryland, College Park.

REYNALDO REYES, *Professor*, *Music* [1967] B.M., Santo Tomas University; M.M., Peabody Conservatory.

MOON-WHOAN RHEE, Associate Professor, Finance [1989] B.A., Seoul National University; M.A., M.B.A., University of Rochester; Ph.D., University of Maryland, College Park.

THOMAS A. RHOADS, Assistant Professor, Economics [1999] B.S., Lebanon Valley College; M.A., University of Delaware; Ph.D., University of Wyoming.

MARLENE RILEY, Clinical Assistant Professor, Occupational Therapy and Occupational Science [1994] B.S., Towson University; M.M.S., Loyola College.

CECILIA RIO, Assistant Professor, Women's Studies [2001] B.S., Boston College; M.A., Ph.D., University of Massachusetts.

MARTIN ROBERGE, Assistant Professor, Geography and Environmental Planning

[1999] B.A., State University of New York, Binghamton; M.S., University of South Carolina; Ph.D., Arizona State University.

JAMES C. ROBERTS, Professor and Chair, Political Science [1989] B.A., Ohio State University; M.A., Ph.D., American University.

ROLAND ROBERTS, Assistant Professor, Biological Sciences [2002] B.E., Ed., M.S., Texas State University, San Marcos; Ph.D., Louisiana State University

KAREN ROBERTSON, Professor, Elementary Education [1999] B.S., M.A., Ohio State University; Ph.D., University of Iowa.

GERALD D. ROBINSON, *Professor, Biological Sciences* [1977] B.A., Lock Haven State College; Ph.D., Pennsylvania State University.

JUANITA ROCKWELL, *Professor, Theatre Arts* [1994] B.A., Colorado College; M.F.A., University of Connecticut.

PATRICIA ROMERO, *Professor*, *History* [1989] B.A., Central State University; M.A., Miami University; Ph.D., Ohio State University.

ROBERT E. ROOK, *Professor and Chair, History* [2005] B.A., Furman University; M.A., Bowling Green State University; Ph.D., Kansas State University.

WILLIAM R. ROSE, Assistant Professor, Mathematics [1972] B.A., Queens College; M.A., University of Illinois; M.A., University of Maryland.

RICHARD B. ROSECKY, Associate Professor, Marketing and e-Business

[1990] B.S., Drexel University; M.B.A., Wharton Graduate Division, University of Pennsylvania; Ph.D., University of Maryland.

DONALD L. ROSENBERG, *Professor, Accounting* [1984] B.S., M.B.A., University of Maryland; M.S., J.D., University of Baltimore; CPA, State of Maryland; C.M.A.; C.D.P.

DOUGLAS N. ROSS, *Professor, Management* [1990] B.A., B. Comm., University of Saskatchewan; M.B.A., University of Denver; Ph.D., University of Colorado.

MATTHEW ROTHBARD, Visiting Instructor, Kinesiology [2001] B.S., Towson University; M.S., Michigan State University.

DANA ROTHLISBERGER, *Professor, Music* [1983] B.M.Ed., M.M., East Texas State University; Ph.D., University of Maryland, College Park.

FRANCES ROTHSTEIN, Professor, Sociology, Anthropology and Criminal Justice [1974] B.A., Queens College; Ph.D., University of Pittsburgh.

JOSEPH R. RUDOLPH, JR., Professor, Political Science [1986] B.A., M.A., Ph.D., University of Virginia.

CARL A. RUNK, Assistant Professor, Kinesiology [1967] B.S., M.Ed., University of Arizona.

PATRICIA RYAN, Lecturer, Reading, Special Education and Instructional Technology [1999] B.S., M.S., Towson University.

LEV R. RYZHKOV, Associate Professor, Chemistry [1995] B.S., Stevens Institute of Technology; Ph.D., Brown University.

MARYANNE SACCO-PETERSON, Lecturer, Occupational Therapy and Occupational Science [2004] B.F.A., U.S. International University; M.A., University of Southern California.

WILLIAM SADERA, Assistant Professor, Reading, Special Education and Instructional Technology [2000] B.S., City University of New York; M.S., Ph.D., Iowa State University.

KATIA SAINSON, Assistant Professor, Modern Languages [1999] B.A., Barnard College; M.A., Ph.D., New York University.

CODY SANDIFER, Assistant Professor, Physics, Astronomy and Geosciences

[2001] B.S., California State University, Chico; M.S., Purdue University; Ph.D., University of California, San Diego, and San Diego State University (joint Ph.D. program).

DOUGLAS SANFORD, Assistant Professor, Management [2000] B.A., Colgate University; M.A., State University of New York, Buffalo; Ph.D., University of Michigan.

REZA SARHANGI, Associate Professor, Mathematics [2000] B.S., Pars College; M.S., Ph.D., Wichita State University.

STEVE SATTA, Assistant Professor, Theatre Arts [2000] B.F.A., New York University, M.F.A., York University.

JAMES A. SAUNDERS, Associate Professor, Biological Sciences; Director, Molecular Biology, Biochemistry and Bioinformatics [2004] B.A., University of South Florida, Tampa; Ph.D., Miami University.

SUSANNA SAYRE, Lecturer, Business Excellence [1999] B.S., Oregon State University; M.S., Towson University.

STEPHEN SCALES, Associate Professor, Philosophy [1995] B.A., New School for Social Research; M.A., Ph.D., University of California, San Diego.

AUBREY G. SCARBROUGH, *Professor, Biological Sciences* [1970] B.S., M.S., Arkansas State University; Ph.D., University of Illinois.

DAVID SCHAEFER, *Professor*, *Physics*, *Astronomy and Geosciences* [1995] B.S., Towson University; M.S., Ph.D., Purdue University.

ANDREW D. SCHIFF, Associate Professor, Accounting [2000] B.A., Colgate University; M.S., State University of New York, Albany; M.B.A., Ph.D., Rutgers University; CPA, State of New York.

CARL B. SCHMIDT, *Professor, Music* [1994] B.A., Stanford University; M.M., Ph.D., Harvard University.

CHARLES J. SCHMITT, Assistant Professor, Computer and Information Sciences [1973] B.E., M.S., Vanderbilt University; CDP; CCP.

CHARLES SCHMITZ, Assistant Professor, Geography and Environmental Planning [1999] B.S., M.A., Ph.D., University of California, Berkeley.

CHERYI. SCHROEDER-THOMAS, Lecturer, Computer and Information Sciences [2000] B.S., Methodist College; M.S., Johns Hopkins University.

RALPH C. SCOTT, Professor, Geography and Environmental Planning
119741 R.S. M.S. Florida State University Ph.D. University of

[1974] B.S., M.S., Florida State University; Ph.D., University of Georgia.

ERIK P. SCULLY, *Professor, Biological Sciences* [1978] B.S., Fordham University; Ph.D., University of Rhode Island.

MIRIAM SEALOCK, Assistant Professor, Sociology, Anthropology and Criminal Justice [2000] B.A., M.A., Ph.D., University of Maryland, College Park,

W. MICHAEL SEGANISH, Associate Professor, Accounting/Business Law [1970] B.S., M.B.A., University of Maryland; J.D., University of Baltimore School of Law.

RICHARD A. SEIGEL, *Professor and Chair, Biological Sciences* [2001] B.A., Rutgers University; M.S., University of Central Florida; Ph.D., University of Kansas.

DEBORAH SHALLER, Instructor, English; Director, Writing Lab; Director, Cultural Studies [1983] M.A., Ph.D., University of Maryland, College Park.

VONNIE SHIELDS, Assistant Professor, Biological Sciences [2000] B.S., Ph.D., University of Regina.

KIM SHIFREN, Associate Professor, Psychology [1998] B.A., University of Maryland, Baltimore County; M.A., Ph.D., Syracuse University.

LAWRENCE H. SHIRLEY, Associate Dean, College of Graduate Studies and Research; Professor, Mathematics [1989] B.S., California Institute of Technology; M.Ed., University of Illmois; Ph.D., Ahmadu Bello University (Nigeria).

FELICE SHORE, Assistant Professor, Mathematics [2004] B.S., M.A.T., Cornell University; Ph.D., University of Maryland, College Park.

MARTHA J. SIEGEL, *Professor*, *Mathematics* [1971] B.A., Russell Sage College; M.A., Ph.D., University of Rochester.

ERIK P. SILLDORFF, Associate Professor, Biological Sciences [1998] B.A., Ph.D., University of Delaware.

COLLEN SINCLAIR, Assistant Professor, Biological Sciences [2002] B.E., University of Dayton; M.S., Oklahoma State University; Ph.D., Mayo Clinic and Foundation.

DANIEL D. SINGER, *Professor, Finance* [1990] B.S., Rider College; M.S., State University of New York; Ph.D., University of Colorado.

JAN D. SINNOTT, Associate Professor, Psychology [1978] B.A., St. Louis University; M.A., Ph.D., Catholic University.

HEATHER SKELLEY, Lecturer, Early Childhood Education [1993] B.S., M.Ed., Towson University.

CAROL SLIZYS, Lecturer, Elementary Education [2003] B.S., M.Ed., Towson University.

ELIZABETH SKINNER, Lecturer, Mass Communication and Communication Studies [1998] B.A., University of Kansas; M.A., Southwestern Missouri

State University; A.B.D., Wayne State University.

R. JASON SLOAN, *Lecturer, Art* [2000] B.E.A., Edinboro University of Pennsylvania; M.F.A., Towson University.

LOUISE W. SMITH, *Professor, Marketing and e-Business* [1984] B.A., University of Delaware; M.E., M.B.A., Harvard University; Ph.D., University of Maryland.

WILLIAM P. SMITH, Associate Professor, Management [1988] B.S., University of Nebraska; M.S., Colorado State University; Ph.D., Arizona State University.

DIANE SMITH-SADAK, Associate Professor, Theatre Arts [1999] B.A., Union College; M.F.A., Florida State University.

VERA SMOLYANINOVA, Assistant Professor, Physics, Astronomy and Geosciences [2002] M.S., Moscow Institute of Physics and Technology, Russia; Ph.D., University of Maryland, College Park.

JOEL W. SNODGRASS, Associate Professor, Biological Sciences [1999] B.S., Guilford College; M.S., University of Central Florida; Ph.D., University of Georgia Institute of Ecology.

HOUSHANG H. SOHRAB, *Professor, Mathematics* [1984] B.S., M.A., University of Paris (France); Ph.D., University of California.

LIYAN SONG, Assistant Professor, Reading, Special Education and Instructional Technology [2005] B.A., Beijing Institute of Light; M.Ed., Ph.D., University of Georgia.

YEONG-TAE SONG, Assistant Professor, Computer and Information Sciences [2001] B.S., Hanyang University; M.S., Ph.D., University of Texas, Dallas.

CHRISTOPHER H. SPICER, Dean, College of Fine Arts and Communication; Professor, Mass Communication and Communication Studies [2003] B.A., University of Virginia; M.A., Ph.D., University of

Texas at Austin.

RAJESHWAR P. SRIVASTAVA, Professor, Computer and Information Sciences [1986] M.S., Allahabad University (India); M. Math, University of Waterloo; Ph.D., University of Idaho.

ALLAIRE STALLSMITH, Assistant Professor, History [1999] B.A., Barnard College; M.A., Columbia University; Ph.D., University of Pennsylvania.

ALLAN STARKEY, Lecturer, Secondary Education [2000] M.S., Morgan State University; M.L.A., Johns Hopkins University.

LAMONT STEEDLE, *Professor and Chair, Accounting* [1990] B.S., M.S., Ph.D., Pennsylvania State University; CMA, Institute of Management Accounting.

STUART STEIN, Associate Professor, Art [1998] B.S., Towson University; M.F.A., Maryland Institute College of Art.

LEONID STERN, *Professor, Mathematics* [1986] B.A., University of Novosibirsk (Russia); M.Sc., D.Sc., Technion-Israel Institute of Technology.

BETTE J. STEVENS, Clinical Administrator for Audiology, Speech-Language Pathology and Deaf Studies [2001] B.A., Towson State College; M.S., Galluadet University.

REGENA G. STEVENS-RATCHFORD, *Professor*, Occupational Therapy and Occupational Science [1980] B.S., M.S., Ohio State University; Ph.D., University of Maryland, College Park.

MARSHALL L. STEVENSON, Assistant Professor, Geography and Environmental Planning [1968] B.A., University of Vermont; M.A., East Carolina University.

BARBARA R. STEWART, *Professor, Accounting* [1988] B.A., Barnard College; M.A., Ph.D., Columbia University; CPA, State of Maryland.

RAYMOND STINAR, *Professor, Kinesiology*; *Associate Dean*, *College of Health Professions* [1972] B.S.E., M.S.E., Northern Illinois University; Ph.D., University of Maryland.

ALEX D. STORRS, Associate Professor, Physics, Astronomy and Geosciences [2000] B.S., Massachusetts Institute of Technology; M.S., Ph.D., University of Hawaii.

ROBERTA A. STROSNIDER, Professor, Reading, Special Education and Instructional Technology [2001] B.A., Fairmont State College; M.A., West Virginia University; Ed.D., Virginia Polytechnic Institute.

RODNEY STUMP, Associate Professor and Chair, Marketing and e-Business [2004] B.A., Temple University; B.S., York College of

NORA STURGES, Assistant Professor, Art [1999] B.A., Bowdoin College; M.F.A., Ohio University.

Pennsylvania; Ph.D., Case Western Reserve University.

BRIDGET Z. SULLIVAN, Associate Professor, Art [1998] B.F.A., Maryland Institute College of Art; M.F.A., Towson University.

TERRY SULLIVAN, Lecturer, Reading, Special Education and Instructional Technology [2002] B.A., Catholic University; M.S., Johns Hopkins University.

TIMOTHY E. SULLIVAN, Associate Professor, Economics [1989] B.A., M.A., Eastern Illinois University; M.S., Ph.D., University of Illinois.

WEI SUN, Associate Professor, Mathematics [1996] B.A., Northeast Normal University, China; M.A., M.Ed., Ed.D., Columbia University.

LISA SWANSON, Assistant Professor, Kinesiology [2000] B.A., St. Mary's College of Maryland; M.A., University of North Carolina at Greensboro; Ph.D., University of Maryland, College Park.

ZOLTAN SZABO, *Professor, Music* [1979] B.M., M.M., Peabody Conservatory; D.M., Indiana University.

FILIZ TABAK, *Professor*, *Management* [1995] B.S., Istanbul Technical University; M.B.A., Bogazici University, Istanbul; M.S., University of Istanbul; Ph.D., Oklahoma State University.

SANDRA TATMAN, Assistant Professor, Art [1999] B.A., University of Delaware; M.L.S., University of Oregon; Ph.D., University of Delaware.

BARBARA BLAIR TAYLOR, Lecturer, Computer and Information Sciences [1996] B.A., M.S., Johns Hopkins University.

DIANNE E. TAYLOR, Associate Professor, Nursing [1979] RN, Union Memorial Hospital School of Nursing; B.S., Southern Connecticut State College; M.S., Yale University; Ed.D., University of Maryland, College Park.

PRECHA THAVIKULWAT, *Professor, Management* [1988] B.S., Ph.D., University of Minnesota.

RONALD S. THOMAS, Lecturer, Reading, Special Education and Instructional Technology [2001] B.S., M.Ed., Towson University; Ph.D., University of Maryland.

VINCENT THOMAS, Assistant Professor, Dance [2002] B.M.E., University of South Carolina, Columbia; M.F.A., Florida State University.

KARLA THOMPSON, Visiting Instructor, Reading, Special Education and Instructional Technology [2004] B.A., M.S., Pennsylvania State University.

VIRGINIA THOMPSON, Associate Professor, Geography and Environmental Planning [1995] B.A., M.A., University of Missouri; Ph.D., University of Oklahoma.

BARRI TINKLER, Assistant Professor, Secondary Education [2004] B.A., Northeastern State University; M.S., Oklahoma State University; Ph.D., University of Denver.

JOHN F. TINKLER, Associate Professor, English [1994] Ph.D., Queen's University (Canada).

KEITH TISHKEN, Lecturer, Electronic Media and Film [1999] B.A., Oakland University.

JOSEPH J. TOPPING, *Professor, Chemistry* [1970] B.S., LeMoyne College; M.S., Ph.D., University of New Hampshire.

GORAN TRAJKOVSKI, Assistant Professor, Computer and Information Sciences [2002] B.S., M.S., Ph.D., Ss Cyril and Methodius University in Skopje.

APRIL TRIPP, Lecturer, Kinesiology [2004] B.S., M.S., California State University-Fullerton, Long Beach; Ph.D., Texas Women's University.

SUSAN TRUITT, Lecturer, Kinesiology [1999] B.A., Middlebury College; M.S., University of Pennsylvania.

JOHN R. TURNER, Associate Professor, Electronic Media and Film [1989] B.S., M.S., West Virginia University; Ph.D., Ohio University. LEON L. UKENS, *Professor, Physics, Astronomy and Geosciences* [1971] B.S., Fort Hays State College; M.A., University of Northern Colorado; Ph.D., New York University.

TABATHA UHRICH, *Instructor, Kinesiology* [2002] B.S., Virginia Commonwealth University; M.S., Pennsylvania State University.

DAVID A. VANKO, *Professor and Chair, Physics, Astronomy and Geosciences* [2001] B.A., M.A., Johns Hopkins University; Ph.D.,

RICHARD E. VATZ, Professor, Mass Communication and Communication Studies

[1974] B.A., M.A., Ph.D., University of Pittsburgh.

Northwestern University.

DAVID E. VOCKE, Professor and Chair, Secondary Education [1989] B.S., M.S., Miami University; Ph.D., University of Iowa.

DONNA WAGNER, Director and Professor, Gerontology [1997] B.S., M.U.S., Ph.D., Portland State University.

XIAOYIN WANG, Assistant Professor, Mathematics [2002] B.A., East China Normal University; Ph.D., University of Missouri, Columbia.

YUANQIONG WANG, Assistant Professor, Computer and Information Sciences [2004] M.S., Ph.D., New Jersey Institute of Technology.

ESTHER WANGARI, Associate Professor, Women's Studies [1996] B.A., Warren Wilson College; M.A., Ph.D., The New School for Social Research.

PATSY F. WASHINGTON, Lecturer, Early Childhood Education [1999] B.S., M.S., Albany State University.

OCIE WATSON-THOMPSON, Associate Professor, Early Childhood Education [1991] B.S., M.S., Ed.D., University of Alabama.

DONALD WATTS, Associate Professor, Music [1973] B.M., M.M., University of Kansas; Ph.D., University of Maryland, College Park.

JOY E.M. WATTS, Assistant Professor, Biological Sciences [2004] B.Sc. (Hons) Liverpool John Moores University; Ph.D., University of Warwick.

JOHN W. WEBSTER, Associate Professor, Psychology [1972] A.B., Ed.M., Ed.D., Rutgers University.

MARCIE WEINSTEIN, Associate Professor, Occupational Therapy and Occupational Science [1989] B.S., University of Kansas; M.B.A., University of Baltimore; Ph.D., University of Maryland, Baltimore County.

DEITRA WENGERT, *Professor, Health Science* [1979] B.S., Bowie State College; M.Ed., Towson State University; Ph.D., University of Maryland.

EDYTH WHEELER, Associate Professor and Graduate Director, Early Childhood Education [1996] B.A., Duke University; M.Ed., Ph.D., George Mason University. EVANGELINE A. WHEELER, Associate Professor, Psychology [1994] B.S., Howard University; Ph.D., University of California, Berkeley.

MARK WHITMAN, *Professor, History* [1967] B.A., Dartmouth College; M.A., Ph.D., Harvard University.

ALEX WIJESINHA, Associate Professor, Computer and Information Sciences [1996] B.S., University of Sri Lanka; M.S., Ph.D., University of Florida; Ph.D., University of Maryland, Baltimore County.

JACQUELINE WILKOTZ, *Professor*, *English* [1973] A.B., M.A., Ph.D., University of California, Berkeley.

JANE M. WILLIAMS, Professor, Reading, Special Education and Instructional Technology [2005] B.A., Wittenberg University; M.A., University of Iowa; Ph.D., University of Maryland, College Park.

LAURIE WILLIAMS-HOGARTH, Assistant Professor, Biological Sciences [1999] B.S., Georgetown University, Ph.D., Howard University.

NANCY W. WILTZ, Associate Professor, Early Childhood

[1999] B.S., University of Missouri; M.A., Ph.D., University of Maryland, College Park.

LARRY E. WIMMERS, Associate Professor, Biological Sciences [1995] B.S., University of Dayton; Ph.D., Cornell University.

ALAN S. WINGROVE, *Professor, Chemistry* [1973] B.S., University of California, Berkeley; Ph.D., University of California, Los Angeles.

DAVID WIZER, Associate Professor, Reading, Special Education and Instructional Technology [1997] B.A., Rider College; M.A., Ph.D., University of Maryland, College Park.

JANE L. WOLFSON, Associate Professor, Biological Sciences; Director, Environmental Science and Studies Program [1998] B.A., Cornell University; Ph.D., State University of New York, Stony Brook.

CHERYL WOOD, Lecturer, Reading, Special Education and Instructional Technology [1999] B.A., V.P.I.; M.S., Towson University.

GARY WOOD, Associate Professor, English [1971] B.A., Westminster College; M.A., Ph.D., University of Pittsburgh.

DEIRDRE WOODWARD, Lecturer, Business Excellence [1999] B.S., Towson University; M.A., Binghamton University.

DONN WORGS, Assistant Professor, Political Science; Director, Metropolitan Studies [2001] B.A., Lehigh University; M.A., University of Delaware; Ph.D., University of Maryland, College Park.

TAMARA WOROBY, *Professor, Economics* [1978] B.A., University of Regina; M.A., Ph.D., Queens University, Ontario.

PETER WRAY, Assistant Professor, Theatre Arts [2001] B.F.A., University of New Mexico; M.F.A., Pennsylvania State University.

DONG-QING YAO, Assistant Professor, Management [2001] B.S., Suzhou University, China; M.S., Shanghai Jiao Tong University, China.

MAUREEN YARNEVICH, Associate Professor, Mathematics [1994] B.S., University of Hartford; M.S., Ph.D., American University.

GEWEI YE, Assistant Professor, Marketing and e-Business [2003] B.S., East China Normal University; M.S., Ohio University; Ph.D., Tilburg University.

JENNA YEAGER, Assistant Professor, Occupational Therapy and Occupational Science [1995] B.S., M.A., Towson University; Ph.D., University of Maryland, College Park.

JUNE YUM, Associate Professor, Mass Comminication and Communication Studies [1989] B.A., Seoul National University; M.A., University of Hawaii; Ph.D., University of Southern California.

DAVID ZANG, *Professor and Chair, Kinesiology* [1995] B.A., Wittenberg University; M.S., Pennsylvania State University; Ph.D., University of Maryland.

CYNTHIA BULL ZELLER, Assistant Professor, Chemistry [2005] B.A., Hood College; Ph.D., University of Alabama, Birmingham.

H. HARRY ZHOU, Professor, Computer and Information Sciences [1989] M.S., Ph.D., Vanderbilt University.

1LIANA ZIMAND, Lecturer, Computer and Information Sciences [2000] B.S., M.S., University of Bucharest; M.S., Georgia Southwestern State University.

MARIUS ZIMAND, Associate Professor, Computer and Information Sciences [1999] M.S., Ph.D., University of Rochester; Ph.D., University of Bucharest.

JAY J. ZIMMERMAN, *Professor, Mathematics* [1989] B.A., Knox College; M.S., Ph.D., University of Illinois.

LISA BERKELHAMMER ZIV, Lecturer, Marketing and e-Business [2002] B.A., University of North Carolina; M.B.A., George Washington University.

SALVATORE M. ZUMBO, Professor and Chair, Modern Languages [1989] B.A., M.A., University of Akron; Ph.D., University of Arizona.

STANLEY ZWEBACK, Associate Professor, Psychology [1970] B.A., Trenton State College; M.Ed., Rutgers University; Ph.D., University of Maryland.

PROFESSIONAL LIBRARIANS

POLLEY A. ADAMS, Librarian II, Media Resource Services [1995] B.S., M.L.S.

DEBRA BERLANSTEIN, Librarian II, Reference [1981] B.A., M.L.S.

SARAH E. CREST, Librarian III, Reference [1988] B.A., M.L.S.

RICK DAVIS, Librarian I, Technical Services [2004] B.A., M.L.S.

MARCELLA FULTZ, Librarian II, Reference [1973] B.A., M.L.S.

SHANA GASS, Librarian I, Reference [2004] B.A., M.L.S.

MARY GILBERT, Librarian III, Technical Services [1996] B.S., M.L.S.

NANCY GONCE, Librarian II, Archives and Special Projects [1988] B.A., M.S. in L.S.

ELEANORE O. HOFSTETTER University Librarian [1966] B.S., M.S. in L.S., M.A.

CLAIRE HOLMES, Librarian I, Reference [2000] B.A., M.L.S.

MARY JO LAZUN, Librarian I, Technical Services [2003] B.A., M.L.S.

YVONNE LEV, Associate University Librarian, Technical Services [1990] B.A., M.A., M.L.S.

SARA NIXON, Librarian II, Reference [1995] B.A., M.L.S.

CARL P. OLSON, Librarian II, Reference [1995] B.A., M.L.S.

MARY RANADIVE, Librarian II, Reference [1998] B.A., M.S.L.S.

REGINA ROSE, Librarian I, Reference [2003] B.S., M.L.S.

LISA SWEENEY, Librarian II, Reference [1994] B.A., M.L.S.

MARY VOLLAND, Librarian III, Reference [1999] B.A., M.L.S.

ADA L. WOODS, Librarian II, Reference [1989] B.A., M.L.S.

Appendix A MISSION STATEMENT

Institutional Identity

The Maryland State Normal School was founded in Baltimore City in 1866. In 1915 it moved to its current location in Towson and became the Maryland State Teachers College at Towson in 1935, offering a Bachelor of Science degree in education. Expanding its mission by introducing a variety of degree programs in the arts and sciences in 1946, it began programmatic development that led to its becoming Towson State College in 1963, Towson State University in 1976, and Towson University in 1997. It is Maryland's largest comprehensive university. The quality of its programs, its educational value, and its focus on student achievement have brought it national recognition as a premier metropolitan institution. With strong baccalaureate programs in the arts and sciences, the fine arts, interdisciplinary studies, and professional practice, it similarly provides high-quality graduate programs in a variety of applied fields. Through its programs, staff and faculty, it seeks to enrich lives and to expand opportunities for all members of its community.

The university's long-standing commitment to creating a multicultural campus is advanced by policies and practices that assure the recruitment and retention of a diversified student body, staff and faculty, who accurately reflect local, regional, national and global diversity. This commitment is sustained through an extensive multicultural curriculum and by many services, activities and developmental initiatives that serve its diverse populations and prepare them to live comfortably within an increasingly multicultural society. Through its international education program, it also enrolls students from as many as 100 nations. The campus is fully accessible to all faculty members, staff and students with disabilities and has a full range of services for meeting their identified needs.

The undergraduate curriculum promotes the intellectual skills essential for effective communication, gathering and evaluating information, critical thinking, meaningful use of technology, appreciating diversity and making informed choices. These skills are grounded through the university's long-standing commitment to a strong liberal arts core that emphasizes an understanding of the arts and sciences and how their branches of knowledge gather, evaluate and apply information to reach valid conclusions. The liberal arts core also serves to develop intellectual and social skills that will guide students as contributing members of the work force and of a democratic society.

As a complex comprehensive learning community, the university currently emphasizes the systematic addition of strong undergraduate and graduate programs that represent emerging disciplines, address economic and workforce needs, and serve the metropolitan region. To date, new master's degree programs in the health professions, applied information technology, mathematics education, and a variety of interdisciplinary or applied fields, and four doctoral programs have been developed in response to pressing regional needs and extensive student demands. The new doctoral programs build on the strengths of the university in audiology, occupational therapy and instructional technology.

The certification and professional development of educators has been and will remain central to Towson University's future. The university is the largest single provider of certified teachers in Maryland and plays a leadership role in the continuing professional development of the state's educators. Its strategies for improving the quality of undergraduate teacher preparation serve as regional and national models, as do its highly regarded Professional Development School Network and the professional development programs of its different centers and projects. To meet the critical needs for more and better teachers in Maryland and the nation, the university has expanded programming in teacher education and currently plans additional specialized master's and doctoral programs responding to market demands and the Maryland State Plan.

Towson University is committed to a student-centered learning environment that uses a variety of formats to provide innovative access to information. Through academic partnerships and collaborative programs, it advances the statewide goal of attaining a cost-effective and accountable system for delivering high-quality post-secondary education. It is an active participant in four regional higher education centers and will quickly expand its current certificate and baccalaureate programming with community college partners. It works closely with profit and nonprofit organizations to provide educational opportunities, including baccalaureate and post-baccalaureate programs meeting these organizations' specific needs. It has created a technology infrastructure for providing improved access to degree programs for greater numbers of Maryland residents. It will expand the Cook Library's capacity as a center for information resources and new technologies related to teaching and research. In so doing, Towson strengthens Maryland's role as a national leader in the use of technology to enhance its economy and to improve learning and lifelong access to learning for all of its citizens.

Towson's faculty members actively pursue scholarship and creativity that complement disciplinary knowledge and superior teaching. The university values and rewards equally the scholarships of discovery, teaching, integration, and application. Faculty members also engage in a wide range of activities, which support the university's institutional outreach programs to government, health care organizations, nonprofit groups, education, business and the fine arts in its region. Its self-support centers, such as RESI, the Center for Geographic Information Sciences and the Center for Applied Information Technology, continue to link faculty scholarship with community needs and interests. Partnerships with corporations reengage the work force in higher education, both as learners and as teachers. The Maryland Arts Festival, the Children's Dance Division, and numerous faculty and student performances and exhibits throughout the year contribute to the cultural life of the community. The Wellness Center and the Speech-Language-Hearing Clinic provide clinical sites for faculty members and students and serve the well-being of the region. The Institute for Teaching and Research on Women and the National Center for Curriculum Transformation Resources on Women provide international as well as national services for a full variety of disciplines and agencies.

Institutional Capabilities

By Carnegie Classification, Towson University is a Master's (Comprehensive) University 1; within the next decade it expects to become a Doctoral/Research University-Intensive. It has achieved national prominence as a premier metropolitan comprehensive university by offering a wide range of excellent graduate and undergraduate degree programs and by increasing its regional and national reputation through its focus on student learning and its innovative programs and pedagogies, faculty creativity and scholarship, applied and sponsored research, community service, and cultural outreach to business, education and health care professions. Its commitments to the active facilitation of learning through a variety of modes as its faculty members' primary role and to developing and retaining a diverse student population will sustain its record for high overall six-year graduation rates, with noteworthy rates for women, African Americans and other minorities.

The university has a strong commitment to study in the liberal arts, both as it serves as a general intellectual resource for more specialized disciplinary work and as it enriches students' cultural and social awareness. A highly regarded general education program provides undergraduates with multiple ways of knowing and specific skills that equip them to reason in and respond to a wide range of work and life settings. Active initiatives to recruit African American, other American minority, and a range of international faculty, staff and students advance its commitment to diversity and

support strong multicultural and international studies programming. It further augments and enriches students' academic programs through extensive practice of faculty-student and student-student mentoring, cohort learning communities, undergraduate research projects, internships, practicums, clinical placements, the Honors College, departmental honors, colloquia, forums, and petformance and lecture series.

Towson University's chief role in enhancing the Maryland economy may rest in its ability to respond quickly to changing circumstances and emerging needs by revising or introducing high-quality undergraduate, master's, doctoral and certificate programs that address those circumstances and needs. Program development readily can be targeted to support economic and social development as identified by national, state, and regional government agencies. Its plans for expanding its graduate programming, increasing the number of both students and degrees offered, will lead to an increase in the number of teaching and research opportunities available to the graduate student body. This design gives Towson a strong presence in the educational growth of employees from local school districts, health care fields, the arts, government agencies, and technology and service industries, including e-business.

Faculty members value excellent teaching and give it their highest priority. Their active engagement in scholarship and service as well generates sustained originality and outstanding performance throughout their academic careers. Their frequent participation in more than one academic unit or department sustains the unusually high number of innovative multidisciplinary programs offered by the university. Their large number of refereed publications and presentations are noted for their quality and innovation, and the richness and diversity of their research and interests provide a wide array of learning and research opportunities for students, who often engage in collaborative research and creative projects with their instructors.

Institutional Objectives and Outcomes

In keeping with the Towson University Strategic Plan, the University System of Maryland Strategic Plan and the Maryland State Plan for Higher Education, the university will:

1. enhance its reputation as a premier regional university by engaging faculty strengths and identifiable resources to develop a program portfolio through the doctoral level comparable to that of its peer institutions and responsive to the specific needs of students, the work force, and the Maryland economy. It will continue as Maryland's premier institution for the initial certification and subsequent professional development of excellent educators who also lead in pre-school through baccalaureate (P-16) initiatives to improve teacher preparation, professional development and student learning at all levels. Targeted new programs, including degree programs offered in collaboration with historically black colleges and universities, and the enhancement of current programs will aid the university in recruiting and retaining students with excellent preparation and high motivation, as will increased emphasis on a student-centered learning environment that enriches their course of study through activities such as learning communities, honors programs, undergraduate research, clinical placements, internships and capstone integration of their study. Tuition, fee and scholarship planning and management will seek to provide adequate needbased aid to all qualified applicants. Enrollment management, consistent with existing space, will pace a moderate increase in undergraduate population and substantial increase in the graduate populations on campus. However, with Board of Regents' support, the university will reassess and be ready to substantially expand the rate of on-campus growth for undergraduate students in line with its ability to add new instructional facilities. Online and off-campus programming serving traditional and non-traditional students at regional centers, community colleges, and other private and public educational sites will increase undergraduate and graduate enrollments significantly and help the state provide affordable, quality

education for its increased number of college-age students and adult learners of all ages;

2. emphasize its strong commutment to diversity by intensifying its statewide, regional, national and international recruitment efforts, its diversity scholarship funding, its retention activities, and its array of services, development opportunities, and academic programs that promote the success of a highly diverse student body, faculty and staff. Vigorously addressing the needs of specific populations, such as African Americans, Hispanics and Asians, the university will also foster high achievement for all members of the community, including improved retention, graduation, and graduate school placement rates for all students, and opportunities for continuous professional development by staff and faculty. It will sustain an enriched learning environment, which instills an appreciation and understanding of international cultures and the creative potential in racial, ethnic, gender, sexual and religious differences and similarities;

3. retain and promote a superior core faculty through redefining the faculty workload and by intensifying its effort to reward excellent teaching, meritorious service, creativity and scholarship that enriches instruction, advances knowledge, or brings information to bear in meeting needs or solving problems in the public and private sectors. The university will strive to bring faculty compensation in line with that at its peer institutions and to the 85th percentile on the American Association of University Professors scale, to support ample faculty research and development opportunities, and to engender an abiding sense of community that integrates the faculty with students, staff, administration, and alumni in common endeavor and a highly active shared governance system;

4. achieve improved quality at minimum expense through updating and implementing plans to reallocate human and material resources, establishing an annual facilities audit program, implementing its 10-year facilities master plan, and creating a resource development plan and planning process that assures high-quality laboratories and instructional space, institutional flexibility and appropriate funding in support of priorities:

5. build an infrastructure that will coordinate and intensify its outreach efforts and ties to public and private communities through service and research partnerships, the activities of its applied research institutes and centers, and training and resource development programs serving specific community agencies and corporate entities. Through highly active alumni programs and a sustained marketing and public relations plan, the university will achieve and exceed the goals of its capital campaign as well as greatly amplify endowment and gift funding available to enhance its academic mission. Increased emphasis and support for faculty and staff scholarship and research leading to the award of grants or gain of external funding will further increase institutional and departmental resources;

6. fully implement and regularly update the campus technology plan to assure the material and instructional resources needed for students, faculty and staff to achieve fluency with important technologies, for the university to contribute to creating a work force with essential technological skills, for instructors to enrich and extend information access and student learning through the appropriate use of new technologies, for bringing instruction to students at remote sites, and for sustaining a fully networked academic community and system of communication. The university will also renovate and enhance Cook Library both to create an information commons and state-of-the-art study environment fully supporting all academic programs and to maintain consortial and other information partnerships that expand access to a wider range of information resources.

Submitted to the Board of Regents 28 October 2000

UNIVERSITY GOALS

- I. By far the highest priority of the university shall be to provide a sound liberal arts and sciences education for all students regardless of their major or occupational ambitions.
- II. The campus environment shall provide ideal conditions for learning learning between student and teacher, student and student, teacher and teacher, and between these and the staff, alumni, and citizens concerned with intellectual and professional pursuits.
- III. The university shall support programs leading to the development of skills and knowledge.
- IV. Excellence in student, faculty and administrative performance shall be encouraged by relevant, constructive evaluation and recognition.
- V. The university shall provide equal educational opportunity for the population it serves.
- VI. The university shall maintain its autonomy from unreasonable influence by outside governing bodies and special interest groups.

Appendix B TITLE 13B MARYLAND HIGHER EDUCATION COMMISSION

Subtitle 06 GENERAL EDUCATION AND TRANSFER
Chapter 01 Public Institutions of Higher Education
Authority: Education Article, (11-201 - 11-206, Annotated Code of Maryland)

.01 Scope and Applicability.

This chapter applies only to public institutions of higher education.

.02 Definitions.

A. In this chapter, the following terms have the meanings indicated. B. Terms Defined.

(1) "A.A. degree" means the Associate of Arts degree.

(2) "A.A.S. degree" means the Associate of Applied Sciences degree.

(3) "Arts" means courses that examine aesthetics and the development of the aesthetic form and explore the relationship between theory and practice. Courses in this area may include fine arts, performing and studio arts, appreciation of the arts, and history of the arts.

(4) "A.S. degree" means the Associate of Sciences degree.

(5) "Biological and physical sciences" means courses that examine living systems and the physical universe. They introduce students to the variety of methods used to collect, interpret, and apply scientific data, and to an understanding of the relationship between scientific theory and application.

(6) "English composition courses" means courses that provide students with communication knowledge and skills appropriate to various writing situations, including intellectual inquiry and aca-

demic research.

(7) "General education" means the foundation of the higher education curriculum providing a coherent intellectual experience for all students.

(8) "General education program" means a program that is designed to:

(a) Introduce undergraduates to the fundamental knowledge, skills, and values that are essential to the study of academic disciplines;

(b) Encourage the pursuit of lifelong learning; and

(c) Foster the development of educated members of the community and the world.

- (9) "Humanities" means courses that examine the values and cultural heritage that establish the framework for inquiry into the meaning of life. Courses in the humanities may include the language, history, literature and philosophy of Western and other cultures.
- (10) "Mathematics" means courses that provide students with numerical, analytical, statistical and problem-solving skills.
- (11) "Native student" means a student whose initial college enrollment was at a given institution of higher education and who has not transferred to another institution of higher education since that initial enrollment.
- (12) "Parallel program" means the program of study or courses at one institution of higher education which has comparable objectives as those at another higher education institution, for example, a transfer program in psychology in a community college is definable as a parallel program to a baccalaureate psychology program at a 4-year institution of higher education.
- (13) "Receiving institution" means the institution of higher education at which a transfer student currently desires to enroll.

(14) "Recommended transfer program" means a planned program of courses, both general education and courses in the major, taken at a community college, which is applicable to a baccalaureate program at a receiving institution, and ordinarily the first two years of the baccalaureate degree.

(15) "Sending institution" means the institution of higher education of most recent previous enrollment by a transfer student at

which transferable academic credit was earned.

(16) "Social and behavioral sciences" means courses that examine the psychology of individuals and the ways in which individuals, groups or segments of society behave, function and influence one another. The courses include, but are not limited to, subjects which focus on:

(a) History and cultural diversity;

(b) Concepts of groups, work and political systems;

- (c) Applications of qualitative and quantitative data to social issues; and
- (d) Interdependence of individuals, society and the physical environment.
- (17) "Transfer student" means a student entering an institution for the first time having successfully completed a minimum of 12 credits at another institution which is applicable for credit at the institution the student is entering.

.02-1 Admission of Transfer Students to Public Institutions.

A. Admission to Institutions.

- (1) A student attending a public institution who has completed an A.A., A.A.S., or A.S. degree or who has completed 56 or more credits, shall not be denied direct transfer to another public institution if the student attained a cumulative GPA of at least 2.00 on a 4.00 scale or its equivalent in parallel courses, except as provided in subsection A(4) below.
- (2) A student attending a public institution who has not completed an A.A., A.A.S., or A.S. degree or who has completed fewer than 56 credits shall be eligible to transfer to a public institution regardless of the number of credits earned if the student:

(a) Satisfied the admission criteria of that receiving public

institution as a high school senior; and

(b) Attained at least a cumulative GPA of 2.00 on a 4.00

scale or its equivalent in parallel courses.

- (3) A student attending a public institution who did not satisfy the admission criteria of a receiving public institution as a high school senior, but who has earned sufficient credits at a public institution to be classified by the receiving public institution as a sophomore, shall meet the stated admission criteria developed and published by the receiving public institution for transfer.
- (4) If the number of students seeking admission exceeds the number that can be accommodated at a receiving public institution,

admission decisions shall be:

- (a) Based on criteria developed and published by the receiving public institution; and
- (b) Made to provide fair and equal treatment for native and transfer students.

B. Admission to Programs.

- (1) A receiving public institution may require higher performance standards for admission to some programs if the standards and criteria for admission to the program:
- (a) Are developed and published by the receiving public institution; and
- (b) Maintain fair and equal treatment for native and transfer students.
- (2) If the number of students seeking admission exceeds the number that can be accommodated in a particular professional or specialized program, admission decisions shall be:

(a) Based on criteria developed and published by the receiving public institution; and

(b) Made to provide fair and equal treatment for native and transfer students.

(3) Courses taken at a public institution as part of a recommended transfer program leading toward a baccalaureate degree shall be applicable to related programs at a receiving public institution granting the baccalaureate degree.

C. Receiving Institution Program Responsibility.

- (1) The faculty of a receiving public institution shall be responsible for development and determination of the program requirements in major fields of study for a baccalaureate degree, including courses in the major field of study taken in the lower division.
- (2) A receiving public institution may set program requirements in major fields of study which simultaneously fulfill general education requirements.
- (3) A receiving public institution, in developing lower-division course work, shall exchange information with other public institutions to facilitate the transfer of credits into its programs.

.03 General Education Requirements for Public Institutions.

A. While public institutions have the autonomy to design their general education program to meet their unique needs and mission, that program shall conform to the definitions and common standards in this chapter. A public institution shall satisfy the general education requirement by:

(1) Requiring each program leading to the A.A. or A.S. degree to include not less than 30 and not more than 36 credits, and each baccalaureate degree program to include not less than 40 and not more than 46 credits of required core courses, with the core requiring, at a minimum, course work in each of the following five areas:

(a) Arts and humanities,

- (b) Social and behavioral sciences,
- (c) Biological and physical sciences,
- (d) Mathematics, and
- (e) English composition; or
- (2) Conforming with COMAR 13B.02.02.16D(2)(b)-(c).

B. Each core course used to satisfy the distribution requirements of A(1) of this regulation shall carry at least 3 credits.

- C. General education programs of public institutions shall require at least:
 - (1) One course in each of two disciplines in arts and humanities;
- (2) One course in each of two disciplines in social and behavioral sciences;
- (3) Two science courses, at least one of which shall be a laboratory course;
- (4) One course in mathematics at or above the level of college algebra; and
 - (5) One course in English composition.

D. Interdisciplinary and Emerging Issues.

- (1) In addition to the five required areas in A of this regulation, a public institution may include up to 8 credits in a sixth category that addresses emerging issues that institutions have identified as essential to a full program of general education for their students. These courses may:
- (a) Be integrated into other general education courses or may be presented as separate courses; and

(b) Include courses that:

- (i) Provide an interdisciplinary examination of issues across the five areas, or
- (ii) Address other categories of knowledge, skills, and values that lie outside of the five areas.
- (2) Public institutions may not include the courses in this section in a general education program unless they provide academic content and rigor equivalent to the areas in A(1) of this regulation.

- E. General education programs leading to the A.A.S. degree shall include at least 20 credits from the same course list designated by the sending institution for the A.A. and A.S. degrees. The A.A.S. degree shall include at least one 3-credit course from each of the five areas listed in A (1) of this regulation.
- F. A course in a discipline listed in more than one of the areas of general education may be applied only to one area of general education.
- G. A public institution may allow a speech communication or foreign language course to be part of the arts and humanities category.
- H. Composition and literature courses may be placed in the arts and humanities area if literature is included as part of the content of the course.
- I. Public institutions may not include physical education skills courses as part of the general education requirements.
- J. General education courses shall reflect current scholarship in the discipline and provide reference to theoretical frameworks and methods of inquiry appropriate to academic disciplines.
- K. Courses that are theoretical may include applications, but all applications courses shall include theoretical components if they are to be included as meeting general education requirements.
- L. Public institutions may incorporate knowledge and skills involving the use of quantitative data, effective writing, information retrieval, and information literacy when possible in the general education program.
- M. Notwithstanding A(1) of this regulation, a public 4-year institution may require 48 units of required core courses if courses upon which the institution's curriculum is based carry 4 units.
- N. Public institutions shall develop systems to ensure that courses approved for inclusion on the list of general education courses are designed and assessed to comply with the requirements of this chapter.

.04 Transfer of General Education Credit.

- A. A student transferring to one public institution from another public institution shall receive general education credit for work completed at the student's sending institution as provided by this chapter.
- B. A completed general education program shall transfer without further review or approval by the receiving institution and without the need for a course-by-course match.
- C. Courses that are defined as general education by one institution shall transfer as general education even if the receiving institution does not have that specific course or has not designated that course as general education.
- D. The receiving institution shall give lower-division general education units to a transferring student who has taken any part of the lower-division general education credits described in Regulation .03 of this chapter at a public institution for any general education courses successfully completed at the sending institution.
- E. fixcept as provided in Regulation .03M of this chapter, a receiving institution may not require a transfer student who has completed the requisite number of general education credits at any public college or university to take, as a condition of graduation, more than 10-16 additional units of general education and specific courses required of all students at the receiving institution, with the total number not to exceed 46 units. This provision does not relieve students of the obligation to complete specific academic program requirements or course prerequisites required by a receiving institution.
- F. A sending institution shall designate on or with the student transcript those courses that have met its general education requirements, as well as indicate whether the student has completed the general education program.

G. A.A.S. Degrees.

- (1) While there may be variance in the numbers of credits of general education required for A.A., A.S., and A.A.S. degrees at a given institution, the courses identified as meeting general education requirements for all degrees shall come from the same general education course list and exclude technical or career courses.
- (2) An A.A.S. student who transfers into a receiving institution with fewer than the total number of general education units designated by the receiving institution shall complete the difference in units according to the distribution as designated by the receiving institution. Except as provided in Regulation .03M of this chapter, the total general education units for baccalaureate degree-granting public receiving institutions may not exceed 46 units.

H. Student Responsibilities. A student is held:

- (1) Accountable for the loss of units that:
- (a) Result from changes in the student's selection of the major program of study,

(b) Were earned for remedial course work, or

- (c) Exceed the total course credits accepted in transfer as allowed by this chapter; and
- (2) Responsible for meeting all requirements of the academic program of the receiving institution.

.05 Transfer of Nongeneral Education Program Credit.

A. Transfer to Another Public Institution.

- (1) Credit earned at any public institution in the state is transferable to any other public institution if the:
- (a) Credit is from a college or university parallel course or program;
- (b) Grades in the block of courses transferred average 2.00 or higher; and
- (c) Acceptance of the credit is consistent with the policies of the receiving institution governing native students following the same program.
- (2) If a native student's "D" grade in a specific course is acceptable in a program, then a "D" earned by a transfer student in the same course at a sending institution is also acceptable in the program. Conversely, if a native student is required to earn a grade of "C" or better in a required course, the transfer student shall also be required to earn a grade of "C" or better to meet the same requirement.
- B. Credit earned in or transferred from a community college is limited to:
- (1) 1/2 the baccalaureate degree program requirement, but may not be more than 70 credits; and
- (2) The first two years of the undergraduate education experience.

C. Nontraditional Credit.

- (1) The assignment of credit for AP, CLEP, or other nationally recognized standardized examination scores presented by transfer students is determined according to the same standards that apply to native students in the receiving institution, and the assignment shall be consistent with the state minimum requirements.
- (2) Transfer of credit from the following areas shall be consistent with COMAR 13B.02.02, and shall be evaluated by the receiving institution on a course-by-course basis:
 - (a) Technical courses from career programs;
- (b) Course credit awarded through articulation agreements with other segments or agencies;
- (c) Credit awarded for clinical practice or cooperative education experiences; and
 - (d) Credit awarded for life and work experiences.
- (3) The basis for the awarding of the credit shall be indicated on the student's transcript by the receiving institution.

- (4) The receiving institution shall inform a transfer student of the procedures for validation of course work for which there is no clear equivalency. Examples of validation procedures include ACE recommendations, portfolio assessment, credit through challenge, examinations, and satisfactory completion of the next course in sequence in the academic area.
- (5) The receiving baccalaureate degree-granting institution shall use validation procedures when a transferring student successfully completes a course at the lower-division level that the receiving institution offers at the upper-division level. The validated units earned for the course shall be substituted for the upper-division course.

D. Program Articulation.

- (1) Recommended transfer programs shall be developed through consultation between the sending and receiving institutions. A recommended transfer program represents an agreement between the two institutions that allows students aspiring to the baccalaureate degree to plan their programs. These programs constitute freshman/sophomore-level course work to be taken at the community college in fulfillment of the receiving institution's lower-division course work requirement.
- (2) Recommended transfer programs in effect at the time that this regulation takes effect, which conform to this chapter, may be

retained.

.06 Academic Success and General Well-Being of Transfer Students.

A. Sending Institutions.

- (1) Community colleges shall encourage their students to complete the associate degree or to complete 56 credits in a recommended transfer program which includes both general education courses and courses applicable toward the program at the receiving institution.
- (2) Community college students are encouraged to choose as early as possible the institution and program into which they expect to transfer.

(3) The sending institution shall:

(a) Provide to community college students information about the specific transferability of courses at 4-year colleges;

- (b) Transmit information about transfer students who are capable of honors work or independent study to the receiving institution; and
- (c) Promptly supply the receiving institution with all the required documents if the student has met all financial and other obligations of the sending institution for transfer.

B. Receiving Institutions.

(1) Admission requirements and curriculum prerequisites shall

be stated explicitly in institutional publications.

(2) A receiving institution shall admit transfer students from newly established public colleges that are functioning with the approval of the Maryland Higher Education Commission on the same basis as applicants from regionally accredited colleges.

(3) A receiving institution shall evaluate the transcript of a degree-seeking transfer student as expeditiously as possible, and notify the student of the results not later than mid-term of the student's first term of enrollment at the receiving institution, if all official transcripts have been received at least 15 working days before mid-term. The receiving institution shall inform a student of the courses which are acceptable for transfer credit and the courses which are applicable to the student's intended program of study.

(4) A receiving institution shall give a transfer student the option of satisfying institutional graduation requirements that were in effect at the receiving institution at the time the student enrolled as a freshman at the sending institution. In the case of major requirements, a transfer student may satisfy the major requirements in effect at the time when the student was identifiable as pursuing

the recommended transfer program at the sending institution. These conditions are applicable to a student who has been continuously enrolled at the sending institution.

0.7 Programmatic Currency.

A. A receiving institution shall provide to the community college current and accurate information on recommended transfer programs and the transferability status of courses. Community college students shall have access to this information.

B. Recommended transfer programs shall be developed with each community college whenever new baccalaureate programs are

approved by the degree-granting institution.

C. When considering curricular changes, institutions shall notify each other of the proposed changes that might affect transfer students. An appropriate mechanism shall be created to ensure that both 2-year and 4-year public colleges provide input or comments to the institution proposing the change. Sufficient lead time shall be provided to effect the change with minimum disruption. Transfer students are not required to repeat equivalent course work successfully completed at a community college.

.08 Transfer Mediation Committee.

A. There is a Transfer Mediation Committee, appointed by the secretary, which is representative of the public 4-year colleges and universities and the community colleges.

- B. Sending and receiving institutions that disagree on the transferability of general education courses as defined by this chapter shall submit their disagreements to the Transfer Mediation Committee. The Transfer Mediation Committee shall address general questions regarding existing or past courses only, not individual student cases, and shall also address questions raised by institutions about the acceptability of new general education courses. As appropriate, the Committee shall consult with faculty on curricular issues.
- C. The findings of the Transfer Mediation Committee are considered binding on both parties.

.09 Appeal Process.

A. Notice of Denial of Transfer Credit by a Receiving Institution.

(1) Except as provided in A(2) of this regulation, a receiving institution shall inform a transfer student in writing of the denial of transfer credit not later than mid-term of the transfer student's first term, if all official transcripts have been received at least 15 working days before mid-term.

(2) If transcripts are submitted after 15 working days before mid-term of a student's first term, the receiving institution shall inform the student of credit denied within 20 working days of

receipt of the official transcript.

(3) A receiving institution shall include in the notice of denial of transfer credit:

(a) A statement of the student's right to appeal; and

(b) A notification that the appeal process is available in the institution's catalog.

(4) The statement of the student's right to appeal the denial shall include notice of the time limitations in B of this regulation.

- B. A student believing that the receiving institution has denied the student transfer credits in violation of this chapter may initiate an appeal by contacting the receiving institution's transfer coordinator or other responsible official of the receiving institution within 20 working days of receiving notice of the denial of credit.
 - C. Response by Receiving Institution.

(1) A receiving institution shall:

(a) Establish expeditions and simplified procedures governing the appeal of a denial of transfer of credit; and

(b) Respond to a student's appeal within 10 working days.

(2) An institution may either grant or deny an appeal. The institution's reasons for denying the appeal shall be consistent with this chapter and conveyed to the student in written form.

(3) Unless a student appeals to the sending institution, the writing decision in C(2) of this regulation constitutes the receiving institution's final decision and is not subject to appeal.

D. Appeal to Sending Institution.

(1) If a student has been denied transfer credit after an appeal to the receiving institution, the student may request the sending institution to intercede on the student's behalf by contacting the transfer coordinator of the sending institution.

(2) A student shall make an appeal to the sending institution within 10 working days of having received the decision of the

receiving institution.

E. Consultation Between Sending and Receiving Institutions.

(1) Representatives of the two institutions shall have 15 working days to resolve the issues involved in an appeal.

(2) As a result of a consultation in this section, the receiving institution may affirm, modify or reverse its earlier decision.

(3) The receiving institution shall inform a student in writing of the result of the consultation.

(4) The decision arising out of a consultation constitutes the final decision of the receiving institution and is not subject to appeal.

.10 Periodic Review.

A. Report by Receiving Institution.

(1) A receiving institution shall report annually the progress of students who transfer from 2-year and 4-year institutions within the state to each community college and to the secretary of the Maryland Higher Education Commission.

(2) An annual report shall include ongoing reports on the subsequent academic success of enrolled transfer students, including

graduation rates, by major subject areas.

(3) A receiving institution shall include in the reports compa-

rable information on the progress of native students.

B. Transfer Coordinator. A public institution of higher education shall designate a transfer coordinator, who serves as a resource person to transfer students at either the sending or receiving campus. The transfer coordinator is responsible for overseeing the application of the policies and procedures outlined in this chapter and interpreting transfer policies to the individual student and to the institution.

C. The Maryland Higher Education Commission shall establish a permanent Student Transfer Advisory Committee that meets regularly to review transfer issues and recommend policy changes as needed. The Student Transfer Advisory Committee shall address issues of interpretation and implementation of this chapter.

Administrative History

Effective date: December 4, 1995 (22:24 Md. R. 1901)

Regulations .02, .03, and .05 amended. Effective date: July I, 1996

(23:13 Md. R. 946)

Revised: February 11, 1998

Appendix C RESIDENCY POLICY

POLICY ON STUDENT CLASSIFICATION FOR ADMISSION, TUITION AND CHARGE-DIFFERENTIAL PURPOSES.

Approved by the Board of Regents August 28, 1990; Amended July 10, 1998; Amended November 27, 2000

I. POLICY

It is the policy of the Board of Regents of the University System of Maryland (USM) to recognize the categories of in-state and out-of-state students for the purpose of admission, tuition, and charge differentials at those institutions where such differentiation has been established.

A. An in-state student is a student who the university determines to be a permanent resident of the state of Maryland. For the purposes of this policy, "permanent resident" is defined as a person who satisfies all the following conditions and has done so for at least twelve (12) consecutive months immediately prior to and including the last date available to register for courses in the term/term for which the person seeks in-state status:

1. Is not residing in the state of Maryland primarily to attend an

educational institution; and

2. Owns and continuously occupies or rents and continuously occupies living quarters in Maryland. There must exist a genuine deed or lease in the individual's name reflecting payments/rents and terms typical of those in the community at the time executed. Persons not having such a lease may submit an affidavit reflecting payments/rents and terms as well as the name and address of the person to whom payments are made which may be considered as meeting this condition. As an alternative to ownership or rental of living quarters in Maryland, a student may share living quarters in Maryland which are owned or rented and occupied by a parent, legal guardian or spouse; and

3. Maintains within Maryland substantially all personal proper-

ty; and

4. Pays Maryland income tax on all earned taxable income including all taxable income earned outside the state; and

5. Registers all owned motor vehicles in Maryland in accordance

with Maryland law; and

6. Possesses a valid Maryland driver's license, if licensed, in accordance with Maryland law; and

7. Is registered in Maryland, if registered to vote; and

8. Receives no public assistance from a state other than the State of Maryland or from a city, county or municipal agency other than one in Maryland; and

9. Has a legal ability under federal and Maryland law to live per-

manently without interruption in Maryland.

- B. In addition, persons with the following status shall be accorded the benefits of in-state status for the period in which they hold such
- 1. A full-time or part-time (at least 50 percent time) regular employee of the University System of Maryland.

2. The spouse or financially dependent child of a full-time or part-time (at least 50 percent time) regular employee of the USM.

3. A full-time active member of the armed forces of the United States whose home of residency is Maryland or one who resides or is stationed in Maryland, or the spouse or a financially dependent child of such a person.

4. For UMUC, a full-time active member of the armed forces of the United States on active duty, or the spouse of a member of the

armed forces of the United States on active duty.

5. A graduate assistant appointed through the University System of Maryland for the term/term of the appointment. Except through prior arrangement, this benefit is available only for enrollment at the institution awarding the assistantship.

C. Students not entitled to in-state status under the preceding paragraphs shall be assigned out-of-state status for admission, tuition, and charge-differential purposes.

D. Assignment of in-state or out-of-state classification will be made by the university upon an assessment of the totality of facts known or presented to it. The person seeking in-state status shall have the burden of proving that he or she satisfies all requirements.

E. The following circumstances raise a presumption that the student is residing in the state of Maryland primarily for the purpose

of attending an educational institution:

1. The student was attending high school or residing outside Maryland at the time of application for admission to a USM institution.

2. The student is both (a) not financially independent and (b) is financially dependent upon a person not a resident of Maryland.

The burden shall be on the student to rebut the presumption.

II. PROCEDURES

A. An initial determination of in-state status will be made by the university at the time a student's application for admission is under consideration. The determination made at that time, and any determination made thereafter, shall prevail for each term/term until the determination is successfully challenged in a timely manner.

B. A change in status must be requested by submitting a USM "Petition for Change in Classification for Admission, Tuition and Charge Differential." A student applying for a change to in-state status must furnish all required documentation with the petition by the last published date to register for the forthcoming term/term for which the change in classification is sought.

C. The student shall notify the institution in writing within fifteen (15) days of any change in circumstances which may alter in-state

status.

D. In the event incomplete, false, or misleading information is presented, the institution may, at its discretion, revoke in-state status and take disciplinary action provided for by the institution's policy. Such action may include suspension or expulsion. If in-state status is gained due to false or misleading information, the university reserves the right to retroactively assess all out-of-state charges for each term/term affected.

E. Each institution of the University of Maryland shall develop and publish additional procedures to implement this policy. Procedures shall provide that on request the president or designee has the authority to waive any residency criterion set forth in Section I, if it is determined that the student is indeed a permanent resident and the application of the criteria creates an unjust result. These procedures shall be filed with the Office of the Chancellor.

III. DEFINITIONS

A. Financially Dependent: For the purposes of this policy, a financially dependent student is one who is claimed as a dependent for tax purposes or who receives more than one-half of his or her support from another person during the twelve (12) month period immediately prior to the last published date for registration for the term or session. If a student receives more than one-half of his or her support in the aggregate from more than one person, the student shall be considered financially dependent on the person providing the greater amount of support.

B. Financially Independent: A financially independent student is one who (I) declares himself or herself to be financially independent as defined herein; (2) does not appear as a dependent on the federal or state income tax return of any other person; (3) receives less than one-half or his or her support from any other person or persons; and (4) demonstrates that he or she provides through self-generated support one-half or more of his or her total expenses.

C. Parent: A parent may be a natural parent, or, if established by a court order recognized under the law of the state of Maryland, an adoptive parent.

D. Guardian: A guardian is a person so appointed by a court order

recognized under the law of the state of Maryland.

E. Spouse: A spouse is a partner in a legally contracted marriage. F. Child: A child is a natural child or a child legally adopted pursuant to a court order recognized under the law of Maryland.

G. Self-Generated: Self-generated describes income which is derived solely from compensation for an individual's own efforts as evidenced, for example, by federal or state W-2 forms or IRS Form 1099 where interest income is based upon finances created from one's own efforts. For the purpose of this policy, grants, stipends, awards, benefits, loans and gifts (including federal and state aid, grants and loans) may not be used as self-generated income.

H. Regular Employee: A regular employee is a person employed by USM who is assigned to a state budget line or who is otherwise eligible to enroll in a state retirement system. Examples of categories NOT considered regular employees are graduate students, contingent employees and independent contractors.

IV. IMPLEMENTATION PERIOD

This policy, as amended by the Board of Regents on November 27, 2000, shall be applied to all student residency classification decisions made on or after that date.

Appendix D THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA, a.k.a. Buckley Amendment)

The Family Educational Rights and Privacy Act of 1974, as amended, is a federal law requiring the institution to maintain the confidentiality of student educational records. This law states that a) a written institutional policy must be established and b) a statement of adopted procedures covering the privacy of students be made available. The university has taken the appropriate steps to comply with this law.

Towson University accords all the rights under the law to students who have reached the age of majority. Information may be released to parents who have established students' dependency as defined by the Internal Revenue Code of 1954, Section 152. The Judicial Affairs office will review the parent's claim of dependency and notify students of the claim prior to release of any academic information. Except as permitted under the Act, no one outside the institution will have access to any information from students' education records without their written consent. Those permitted access under the Act include personnel within the institution, officials of other institutions in which students seek to enroll, persons or organizations providing financial aid, accrediting agencies, persons in compliance with a judicial order, and persons acting in an emergency situation to protect the health or safety of others.

Within the Towson University community, only those individuals acting in students' educational interest are allowed access to student education records. These include personnel in the offices of Admissions, Academic Advising, Enrollment Services, Bursar, Financial Aid, and other academic personnel within the limitations of their need to know. The director of Enrollment Services may grant access to education records for other legitimate reasons permitted under the Act.

The university may provide Directory Information in accordance with the provisions of the Act without the written consent of students. Directory Information includes student name, address, telephone number(s), e-mail address, date and country of birth and country of citizenship, major field of study, dates of attendance, degrees and awards received, the most recent previous educational institution attended by students, participation in officially recognized activities and sports, and the weight and height of members of athletic teams. Enrollment Services will release Directory Information at its discretion and may release it over the telephone or in writing. Students may withhold Directory Information by notifying Enrollment Services in writing within two weeks after the first day of classes.

Requests for non-disclosure will be honored for only one academic year; thereafter, authorization to withhold Directory Information must be filed annually with the director of Enrollment Services.

The Act also provides students with the right to inspect and review information contained in their education records. The director of Enrollment Services at Towson University has been designated to coordinate the inspection and review of student education records. Students wishing to review their education records must make written requests to the Records Office. Records covered by the Act will be made available within 30 days of the request. Students may have copies made of their records at their expense with certain exceptions (e.g., copies of the original or source document that exists elsewhere or when students have an outstanding financial obligation to the university). Education records do not necessarily include records of instructional, administrative, or educational personnel, which are the sole possession of the makers. Health records, employment records or alumni records will not be released to students but may be reviewed by them or by physicians of their choosing.

FERPA does not allow students to inspect and review the following: financial information submitted by their parents, confidential letters and recommendations associated with admissions, employment or job placement, or honors to which they have waived their rights of inspection and review. Education records containing information about more than one student are restricted, and the institution will permit access only to that part of the records that pertains to the individual student. The institution will not permit students to inspect and review confidential letters and recommendations placed in their files prior to January 1, 1975.

The university has established an appeal mechanism in accordance with the Act. Students who believe their education records contain inaccurate, misleading or unlawful information may discuss their problems informally with the director of Enrollment Services. If the director agrees with the request, the appropriate records will be amended. If students' requests are denied, they will be notified by the director of the right to a formal hearing.

Requests for formal hearings must be made in writing to the vice president for Student Affairs and associate provost, who will inform students of the date, place and time of the hearing. Students may present evidence and may be assisted or represented at the hearings by counsel. The hearing panel that will adjudicate such challenges may include the vice president for Academic Affairs, the vice president for Student Affairs, the dean of the Graduate School, and the academic dean of students' colleges, or their designees. Decisions of the hearing panel will be final. The findings will be based solely on the evidence presented at the hearing and will consist of written statements summarizing the evidence and stating the reasons for the decisions, and will be delivered to all parties concerned. The education records will be corrected or amended in accordance with the decisions of the hearing panel. Students dissatisfied with the outcome of their hearings may prepare a written statement to be placed in the education records and maintained as part of students' records.

Students who believe the adjudications of the challenges were unfair or not in keeping with the provisions of FERPA may request that the hearing be reviewed by the president of the university. In addition, students who believe their rights have been abridged may file complaints with The Family Educational Rights and Privacy Act office (FERPA), Department of Health, Education, and Welfare, Washington, D.C. 20201, concerning the alleged failures of Towson University to comply with the Act.

Revisions and clarifications of this policy will be published as the law warrants.

Appendix E FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY

Financial aid recipients must make satisfactory academic progress toward the completion of a degree while maintaining good standing as defined in the university catalogs.

The policy measures two areas:

1. Number of units completed in relation to the number of units attempted at Towson.

2. Time frame for completion of degree.

SAP CRITERIA

Undergraduate and graduate students must successfully complete 67 percent of units attempted each academic year at Towson University.

| Undergraduates Must Earn | Graduates Must Earn |
|-----------------------------------|----------------------------|
| At least 67% of units | At least 67% of units |
| attempted at TU | attempted at TU |
| Time frame: Must complete degree | Time frame: Must complete |
| within 180 attempted units | degree within seven years. |
| (includes TU units plus transfer | |
| units accepted toward TU degree). | |

EXAMPLE: A student who attempts 60 units at Towson University will meet the SAP requirement if the student earns at least 41 of the attempted units.

ADDITIONAL INFORMATION:

- Developmental courses do not count as attempted and/or earned units and cannot exceed 24 units without permission from the Financial Aid Appeals Committee.
- All units on a student's schedule on the first day of class each term count, unless the student drops the course or completely withdraws from the university during the 100 percent refund period for that term.
- Only courses completed with an earned letter grade or passed under Pass/Fail provision count toward units completed. Course work earning the following grades will not count as units completed: AU (Audit), W (Withdraw), I (Incomplete), U (Unsatisfactory), F or FX (Failure).
- The exclusion of units attempted for one medical withdrawal term requires approval from the Financial Aid Appeals Committee.
- Students who have aid canceled because of failure to comply with the SAP criteria may appeal to the Financial Aid Appeals Committee. Appeals must be written, and must include a statement outlining the causes of poor academic performance and a formal plan for regaining compliance with the policy. If the appeals committee approves the appeal, the student will receive an aid offer of funds available at the time of approval.

Appendix F CODE OF CONDUCT

I. Student Rights and Responsibilities

A. Preamble

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility. The responsibility to secure and respect general conditions conducive to the freedom to learn is shared by all members of the community. The present code is designed to establish policies and procedures which provide and safeguard this freedom.

B. Purpose

Towson University's mission to the community at large is one of academic excellence and achievement. To that end, its campus community must be one wherein respect for the individual pursuit of academic excellence and achievement is given priority. In order to foster this environment, it is incumbent upon students to conduct themselves within the framework of the reasonable rules and regulations designed to enhance and protect the academic environment of the university. By specifying behavioral standards and by establishing fair and efficient processes for adjudicating conflict, the university seeks to protect the environment in which learning is nurtured and respect for that goal is continually afforded.

C. Individual Rights and Responsibilities

1. Access to higher education

- a. Within the limits of its facilities, the institution and its courses, programs and activities shall be open to all applicants who are qualified, according to its admission requirements.
- 1) The institution shall, in the university *Undergraduate Catalog*, make clear to the students the standards of its programs.
- 2) Admission to Towson University shall be in compliance with federal and state laws and regulations that prohibit illegal discrimination.

2. Classroom Expression

- a. Discussion and expression of all views relevant to the subject matter are permitted in the classroom, subject only to the responsibility of the instructor to maintain order and reasonable academic progress.
- 1) Faculty comportment shall be in accordance with standards set forth by the American Association of University Professors.
- Students shall not be penalized for expressing controversial views relevant to the subject matter in class.
- b. Evaluation of a student's academic performance shall be neither prejudiced nor capricious.

3. Personal Expression

- a. Discussion and expression of all views is permitted within the institution subject only to requirements for the maintenance of order. Support of any cause, by orderly means which does not disrupt the operation of the institution, is permitted.
- b. Students, groups and campus organizations may invite to hear any persons of their own choosing, subject only to the requirements of the use of institutional facilities and regulations of the university and the Board of Regents of the University System of Maryland.
- c. Students' dress and grooming, of any style, are permitted subject to legal prohibitions.

- d. Students, groups, or organizations may distribute written material on campus, providing such distribution does not disrupt the operations of the institution or deface property and adheres to the Advertising Policy and/or the Distribution and Solicitation Policy, which is available at the University Union, Information Desk (410-704-4636).
- e. The right of assembly is granted within the institutional community. The institution retains the right to assure the safety of individuals, the protection of property, and the continuity of the educational process.
- f. Orderly picketing and other forms of peaceful protest are permitted on institutional premises. Interference with entrances to institutional facilities, intentional interruption of classes or damage to property exceeds permissible limits.
- g. Orderly picketing and orderly demonstrations are permitted in public areas within institutional buildings subject to the requirements of non-interference.
- h. Every student has the option to be interviewed on campus by an organization authorized to recruit at the institution.
 - 4. Privacy
- a. Students have the same rights of privacy as any other citizens and surrender none of those rights by becoming members of the academic community.
- b. Information about student views, beliefs and political associations acquired by faculty and staff in the course of their work as instructors, advisers and counselors is confidential and is not to be disclosed to others unless under legal compulsion or with permission of the student.
- c. The privacy and confidentiality of all student records shall be preserved. Official student academic records, supporting documents and other student files shall be maintained only by full-time members of the institution's staff employed for that purpose and students employed by them who may have access in line of employment. Separate files shall be maintained for the following: academic records, supporting documents and general educational records, records of disciplinary proceedings, medical and psychiatric records, and financial aid records.
- d. No entry may be made on a student's academic record and no document may be placed in the student's file without actual notice to the student.
- e. Every student is guaranteed the right to inspect and review all information in his or her own files maintained by the Office of Judicial Affairs, subject only to reasonable regulations as to time, place and supervision. However, the student may not have copies of items in a file.
- I) A student may challenge the accuracy or presence of any item by following the standard appeal process (see Appeal Procedures below).
- 2) When a case is referred, a disciplinary file may be developed in the name of the charged student.
- 3) The file will be voided if the charges against the student are not substantiated.
- 4) The file will be retained for seven years if the charges are substantiated. Disciplinary records may be retained for longer periods of time or permanently if the sanction is suspension or expulsion from the university or university housing.
- 5) Any record, file or incident report to which the student has access and an opportunity to respond, or records of previous hearings, may be taken into consideration by the decision-maker in arriving at an appropriate decision.
- 6) Pursuant to recent changes in the Family Educational Rights and Privacy Act of 1974, as revised, the Office of Judicial Affairs reserves the right to notify parents of students under the age of 21 who are found responsible for alcohol or drug violations of the Code of Student Conduct.

- f. No record may be made in relation to any of the following matters except upon the express written request of the student: religion, political or social views, and membership in any organization other than honorary and professional organizations directly related to the educational process.
- g. Agencies of the university which keep student records must make students aware of how and to whom those records may be divulged. No information in any student file may be released to anyone except with prior written consent of the student concerned or as stated below.
- I) Administrators may have access to student records for internal educational and administrative purposes.
- 2) Members of the faculty may have access to academic records for internal educational and administrative purposes.
- 3) Non-academic records shall be routinely available only to administrators and staff charged with their maintenance. Faculty and staff may have access to all records for statistical purposes.
- 4) Directory information, as defined in Appendix F, may be released to any inquirer unless the student has specifically asked the director of Enrollment Services to withhold that information.
- 5) Unless under legal compulsion, all other information regarding students' records shall be denied to any person making an inquiry.
- h. Upon graduation or withdrawal from the institution, the records and files of former students shall continue to be subject to the provisions of this code.

D. Rights and Responsibilities of Campus Organizations

- 1. Organizations, groups and NCAA teams may be established within the institution for any legal purpose. Their recognition will be in accordance with established guidelines.
- 2. Membership in all institution-related organizations, within the limits of their facilities, shall be open to any fee-paying member of the institution community who is willing to subscribe to the stated aims and meet the stated obligations of the organization.
- 3. Individual members, as well as the organization, group or team itself, can be charged with violations of the Code of Student Conduct, including those actions defined in the "Hazing Policy" section of this document.
- 4. Use of university facilities shall be granted to recognized student organizations. Student organizations shall be given priority for use of space as outlined in procedures established by Event & Conference Services and the Student Government Association.
- 5. The authority to allocate institutional funds derived from student fees for use by organizations shall be delegated to a body in which student participation in the decision-making process is assured.
- a. Approval of requests for funds is conditional upon submission of budgets to and approval by this body.
- b. Financial accountability, in full accordance with university and state policies, regulations, procedures and practices, is required for all allocated funds, including statement of income and expenses on a regular basis.
- c. Otherwise, organizations shall have independent control over the expenditure of allocated funds.
- 6. The student press is to be free of censorship. The editors and managers shall not be arbitrarily suspended because of student, faculty, administration, alumni or community disapproval of editorial policy or content. Similar freedom is assured oral statements of views on institution-controlled and student-operated radio or television stations. This editorial freedom entails a corollary obligation under the canons of responsible journalism and applicable regulations of the Federal Communications Commission.
- 7. All student communications shall explicitly state that the opinions expressed are not necessarily those of the institution or its student body.

E. Rights of Students in Institutional Government

1. All constituents of the institutional community are free, individually and collectively, to express their views on issues of institutional policy and on matters of interest to the student body. Clearly defined means shall be provided for student expression on all institutional policies affecting academic and student affairs.

2. The role of student government and its responsibilities shall be made explicit. There should be no review of student government actions except where review procedures are agreed upon in advance, or where actions of the government are either potentially illegal or present a clear danger to either individual or insti-

tutional rights.

3. On questions of educational policy, students are entitled to a participatory function. Students shall be designated as members of standing and special committees concerned with institutional policy affecting academic and student affairs, including those concerned with curriculum, discipline, admission, academic standards, university governance and allocation of student funds.

F. Student Grievance Procedures

- 1. Any student or group may file a grievance against an administrative official or faculty member for violation of student rights as listed above.
- 2. The Office of Judicial Affairs may make a preliminary investigation to determine whether the charges can be disposed of informally by mutual consent without the initiation of official proceedings.
- 3. If the charges cannot be disposed of informally, the student or group may file an appeal to the Student Appeals Committee.

11. Code of Student Conduct

A. Rationale

The primary purpose for the imposition of discipline in the university setting is to protect the campus community. Consistent with that purpose, reasonable efforts will also be made to foster the personal, educational and social development of those students who are held accountable for violations of university regulations. However, the university must commit its policies and procedures first of all to protect and promote the academic enterprise. Consequently, it may be necessary to suspend or expel students who have been found responsible for violations of this Code, or who otherwise pose a substantial danger to the campus community. B. Definitions

1. The terms "university" and "institution" mean Towson University (TU).

- 2. The term "student" includes all persons taking courses at the university, both full-time and part-time, pursuing undergraduate, graduate, professional, certificate or continuing studies. Persons who are not officially enrolled for a particular term but who have a continuing relationship with the university are considered "students."
- 3. The terms "faculty member" and "instructor" mean any person hired by the university to conduct classroom activities.
- 4. The term "university official" includes any person employed by the university, performing assigned administrative, professional or paraprofessional responsibilities (including student resident assistants and building managers).

5. The term "member of the university community" includes any person who is a student, faculty member, university official, or any

other person employed by the university.

- 6. The term "university premises" includes all land, buildings, facilities and other property in the possession of or owned, used or controlled by the university (including adjacent streets and sidewalks).
- 7. The term "organization" means any number of persons who have complied with formal requirements for university recognition (including SGA, Greek and NCAA).
- 8. The term "group" means a number of persons who are associated with each other but who have not complied with university requirements for registration as an organization.

- 9. The term "Hearing Board" means the hearing officer and judicial aides authorized by the director of Judicial Affairs to determine whether a student has violated the Code of Student Conduct.
- 10. The director of Judicial Affairs is that person designated by the university president to be responsible for the administration of the Code of Student Conduct.
- 11. The term "policy" is defined as the written regulations of the university as found in, but not limited to, the Code of Student Conduct, the Policies for University Housing, the Faculty Handbook, the Undergraduate Catalog, the Towson University Procedures for Alcohol Events, and the Event & Conference Services Guide for Student Organizations.
- 12. The term "interim disciplinary action" means discipline which is imposed pending the outcome of a court case for off-campus behavior.
- 13. The term "banned from campus" means that a student is prohibited from coming onto university property. A student who is banned from campus may be allowed to finish current course work off campus, if appropriate, and a tuition refund may be granted. As a result of a ban, the student will not have a permanent file in the Office of Judicial Affairs. A ban will normally only be issued after the student has been offered a meeting with a representative of the Office of Judicial Affairs.
- 14. The term "non-consensual sexual intercourse" means any sexual intercourse (anal, oral or vaginal), however slight, with any object, by a man or woman upon a man or a woman, without effective consent.
- 15. The term "non-consensual physical conduct of a sexual nature" means any intentional sexual touching, however slight, with any object, by a man or a woman upon a man or a woman, without effective consent.
- 16. The term "effective consent" means consent that is informed, freely and actively given, and that uses mutually understandable words or actions which indicate a willingness to participate in mutually agreed upon sexual activity. Consent is not effective if it results from the use of physical force, threats, intimidation or coercion.
- 17. The term "incapacitated sex" means to have sex with someone who you know or should know to be incapable of making a rational, reasonable decision about a sexual situation. This includes but is not limited to someone whose incapacity results from being intoxicated or from the taking of a so-called "date-rape drug."
- 18. The USM Policy on Sexual Assault can be found at: http://www.usmd.edu/Leadership/BoardOfRegents/Bylaws/Section VI/VI130.html.
- 19. The term "stalking" means to follow or otherwise contact another person repeatedly, so as to put that person in fear for his or her life or personal safety.
- 20. The term "harassment" is defined as engaging in intentional conduct directed at a specific person or persons which seriously alarms or intimidates such persons and which serves no legitimate purpose. Such conduct may include: explicit or implicit threats, including gestures which place a person in reasonable fear of unwelcome physical contact, harm or death; following a person about in a public place or to or from his or her residence; making remarks in a public place to a specific person which are by common usage lewd, obscene, expose a person to public hatred or that can reasonably be expected to have a tendency to cause acts of violence by the person to whom the remark is addressed; or communicating anonymously by voice or graphic means or making a telephone call anonymously whether or not a conversation ensues.
- C. Scope
 1. Generally, student or group conduct subject to institutional discipline is limited to: on-campus actions; off-campus actions which affect the university community or the university's pursuit of its mission, policies or procedures; off-campus actions by officially sponsored organizations, groups, or NCAA teams; or actions on university property which is leased to, or managed by, an entity other than the university.

2. However, a student charged with a violation of federal, state, or local laws for off-campus behavior may be disciplined by the university without a judicial board hearing when: the student is found guilty by a court of law; the student pleads guilty or nolo contendere to the charges; the student is given probation before judgment; or, the case is stetted.

Additionally, interim or final disciplinary action may be taken before any court action is completed. Examples of charges that may result in action include acts of violence, drug- and alcohol-related violations, and a citation for a disorderly house. Such action will be taken only after a limited investigation by the Office of Judicial Affairs and after the student has been offered a meeting with a university official.

Any interim action shall be reviewed, and appropriate final action taken, at the student's request or at the university's discretion, when a final court decision is rendered or when the university receives additional persuasive evidence.

3. Some conduct clearly disturbs only the campus environment; when such behavior occurs, the university shall take internal action

- 4. When there is evidence that a student has committed a crime on campus, disciplinary action at the university will normally proceed independently of pending criminal charges, including when charges involving the same incident have been dismissed or dropped. The student may then be subject to civil authorities as well as internal disciplinary action.
- 5. When a student is charged with a violation of one or more provisions of this Code, a charge letter arranging a meeting with a representative of the Office of Judicial Affairs will be given or sent to the student within a reasonable amount of time. At the meeting, the student will be informed of:
 - a. Specific violation
 - b. Description of alleged incident
 - c. Hearing or informal investigation procedure
 - d. Rights of appeal

D. Prohibited Conduct

The following misconduct is subject to disciplinary action:

- 1a. Intentionally furnishing false information to the institution; this includes lying to university officials.
- 1b. Forging, altering or using institutional documents or instruments of identification with intent to defraud, or to otherwise benefit therefrom.
- 1c. Possession of false identification (e.g., a false driver's license).
- 2a. Disruption or obstruction of teaching, research, administration or disciplinary proceedings.
- 2b. Disruption or obstruction of university-sponsored activities or events.
 - 3. Lewd, obscene or indecent behavior.
 - 4. Physical abuse of any person.
- 5a. Unwanted physical contact or threat of physical contact with a university official.
- 5b. Threats of violence or placing a person in fear of imminent physical injury or danger.
- 5c. Any endangering conduct that imperils or jeopardizes the health or safety of any person or persons, including oneself.
- 5d. Stalking of any person.
- 6. Inflicting mental or emotional distress upon a person through a course of conduct involving abuse or disparagement of that person's race, religion, sex, creed, sexual orientation, age, national origin or disability.
 - 7. Acts that invade the privacy of another person.
- 8. Sexual assault, as defined by the USM Policy on Sexual Assault, including but not limited to non-consensual sexual intercourse, incapacitated sexual intercourse, and non-consensual verbal or physical conduct of a sexual nature.
- 9. Abuse of any person; this includes verbal, written, e-mail, or telephone abuse.

- 10. Intentionally or recklessly damaging, destroying, defacing or tampering with university, public or personal property of another.
- 11. Uncooperative behavior and/or failure to comply with proper instructions of officials acting in performance of their duties.
 - 12. Violation of published institutional regulations and policies.
 - 13. Violation of state, federal and local laws.
 - 14. Unauthorized presence in institutional facilities.
- 15a. The possession or use of illegal drugs or drug paraphernalia when not in accordance with established policy.
- 15b. The sale, distribution or intent to distribute, and/or manufacture of illegal drugs when not in accordance with established policy.
- 16. The possession or use of any firearms or instrument which may be construed as a weapon, without express permission of the University Police.
- 17. The possession of explosives, fireworks, or pyrotechnic paraphernalia on campus.
- 18a. The possession or use of alcoholic beverages when not in accordance with established policy.
 - 18b. Public intoxication.
- The unauthorized use of or entry into university computer systems.
- 20. Violation of the university housing policy.
- 21. Violation of any disciplinary sanction.
- 22. Charging telephone or telecommunications charges to university telephones or extension numbers without authorization.
- 23. Theft, attempted theft, possession of stolen property, conspiracy to steal or misappropriation of another's property. This includes, but is not limited to, removing, possessing, concealing, altering, tampering or otherwise appropriating goods or property without authorization.
 - 24. Violation of the Student Academic Integrity Policy
- 25. Harassment of any person.

E. Penalties

The following penalties may be imposed upon students and all student organizations for violations of the Code of Student Conduct. With only two exceptions, federal regulation prohibits disclosing the outcome of judicial proceedings to anyone other than to the accused and to appropriate university personnel. The first exception relates to allegations of sexual assault: in those cases, the university will disclose to the victim of a sexual offense the outcome of any investigation by University Police or the Office of Judicial Affairs pursuant to the victim's complaint against the alleged perpetrator of the sexual offense. The second case relates to alcohol and drug violations: the parents of students under the age of 21 may be notified when students are found responsible for violations of the university's alcohol or drug policies.

- 1. CENSURE: A written reprimand for violation of specified regulations, including a warning that continuation or repetition of prohibited conduct may be cause for additional disciplinary action. This may include a specified period of probation.
- 2. PROBATION: Notice to the student that any further disciplinary violation, during a specified period of time, may result in suspension or expulsion from the university and or university housing.
- 3. SOCIAL PROBATION: Exclusion from participation in privileged or extracurricular institutional activities, including NCAA athletic events or practice, for a specified period of time. Additional restrictions or conditions may also be imposed. Violations of the terms of social probation, or any other violation of this Code during the period of probation, will normally result in a fine, suspension or expulsion from the university.
- 4. SUSPENSION: Suspension involves separation of the student from the university for a specified period of time and usually impairs a student's ability to pursue work at other colleges and universities. Normally, the student will also be barred from university premises during the period of suspension. Any student who is suspended shall not be entitled to any tuition or fee refund.

5. EXPULSION: Expulsion constitutes permanent separation of the student from the university. Any student who is expelled shall not be entitled to any tuition or fee refund.

6. SUSPENSION OF GROUP: Suspension shall consist of the withdrawal of an organization's recognition by the university, for a stated period of time, when an organization is found to have violated regulations. Suspension shall result in complete suspension of activities of the group during the stated period of time and may also include conditions for removal of suspension.

7. ORGANIZATIONAL DISSOLUTION: Organizational dissolution is a sanction imposed only upon student organizations guilty of serious and/or repeated violations of these standards. The sanctions involve permanent withdrawal of recognition by the university, denial of the use of university facilities or funds, and official dis-

solution of the organization on the campus.

8. RESTITUTION: Restitution may be imposed on students whose violation has involved monetary loss or damage. Fines may be imposed in addition to restitution. Restitution becomes a financial obligation to the university and either full payment or an agreement for partial payment according to a schedule agreed to by the director of Judicial Affairs is required before a student may register for classes again, or in the case of seniors, before the student may graduate.

9. TERMINATION OF UNIVERSITY HOUSING CON-TRACT: Termination of a student's university housing contract may be imposed in order to safeguard the residence community if

the seriousness of the violation warrants such action.

- 10. FINES: Fines of varying amounts may be imposed for certain violations, such as alcohol- and drug-related incidents. Fines must be paid prior to the end of the current term, otherwise a student's registration privileges will be withheld or prior registration canceled.
- 11. OTHER SANCTIONS: Other sanctions may be imposed instead of or in addition to those specified above. For example, students may be subject to restrictions upon or denials of university parking privileges for violations involving the use or registration of motor vehicles on campus; sanction hours or research projects may be assigned; or the university housing contract may be placed on probation.
 - 12. DRUG PENALTIES: see Substance Abuse Policy below.

F. Standards and Procedures of Due Process

1. Students subject to suspension or expulsion from the university will be entitled to a judicial board hearing, except as described in section C.2. With the exception of allegations of academic dishonesty (see the section below: Student Academic Integrity Policy), students subject to any other sanction will be entitled to an informal investigation.

2. The purpose of a disciplinary proceeding is to provide a fair evaluation of an accused's responsibility for violating disciplinary regulations. Although formal rules of evidence need not be applied, procedures shall comport with standards of fundamental fairness. Harmless deviations from the prescribed procedures shall not necessarily invalidate a decision or proceeding unless significant preju-

dice to an accused student or the university may result.

- 3. Any person may refer students or student groups or organizations suspected of violating this Code to the Office of Judicial Affairs. Allegations of violations occurring within university housing should be referred to the Department of Housing & Residence Life. Those referring cases are normally expected to serve as a witness and to present relevant evidence in disciplinary hearings or informal investigations. The director of Judicial Affairs may appoint a member of the campus community to serve as an adviser to university witnesses. The role of the adviser shall be limited to consultation with the witnesses.
- 4. Suspensions and expulsions from the university will be made by the vice president for Student Affairs or designee. All other sanctions will be determined by the director of Judicial Affairs, or designee. In all cases, the accused will be notified in writing of any sanctions to be imposed and of his or her rights of appeal.

G. Informal Investigation and University Hearing Procedure

1. Informal Investigation: The informal investigation is designed to reduce unnecessary proceduralism and potential contentiousness in disciplinary proceedings. An informal investigation will normally begin with an informal, non-adversarial meeting between the accused and a university administrator, as designated by the director of Judicial Affairs. The university shall consider all matters that reasonable persons would accept as having probative value, including documentary evidence, written statements and hearsay. The accused will be given access to documentary evidence and written statements in advance or during the initial meeting and allowed to respond to them. Accused are also allowed to submit the names of appropriate and relevant witnesses.

The following procedural protections are provided to respon-

dents in the informal investigation:

a. Written notice of the specific charges prior to or at the initial meeting

- b. Reasonable access to the case file during the informal investigation or at the student's request
- c. An opportunity to respond to the evidence and call appro-
- priate and relevant witnesses
- 2. University Hearing: The following procedural guidelines shall be observed for all hearings held by the University Hearing Board. The University Hearing Board will be composed of the hearing officer, who shall preside and make the final decision, and one or two student judicial aides. In the absence of the judicial aides, the hearing officer may hear and decide the case alone. A case may not be heard if the hearing officer, or designated substitute, is not in attendance. The hearing officer shall be responsible for submitting the hearing panel's report to the Office of Judicial Affairs.
- a. The accused shall be given notice of the hearing date and the specific charges against him or her at least three calendar days in advance and shall be accorded reasonable access to the case file, which will be retained in the Office of Judicial Affairs. (In some cases, the accused may choose not to wait three days for a hearing

to take place.)

b. The hearing will be tape recorded. The taped records will be kept on file in the Office of Judicial Affairs for one term following

c. The accused will be present for the hearing. If more than one student is charged with the same incident, the university may hold a combined hearing. If the accused fails to appear, this will be

stated for the record and the hearing will continue.

 d. The accused and the complainant may be accompanied by a friendly observer. This party may not be or act as legal counsel, except when concurrent criminal charges have been filed. Then counsel may not participate in the hearing, but may advise the accused.

e. The hearing officer shall exercise control over the proceedings to avoid needless consumption of time and to achieve orderly completion of the hearing. Any person, including the accused, who disrupts a hearing may be excluded by the hearing officer.

- f. The accused will be found responsible if the hearing officer decides that a preponderance of evidence supports the charges. Preponderance of the evidence is that evidence which, when fairly considered, produces the stronger impression, has the greater weight, and is more convincing as to its truth when weighed against the evidence in opposition thereto.
- g. Formal rules of evidence shall not be applicable in disciplinary proceedings conducted pursuant to this Code. The hearing officer shall admit all matters into evidence that reasonable persons would accept as having probative value, including documentary evidence, written statements, and hearsay. Repetitious or irrelevant evidence may, however, be excluded. Documentary evidence and written statements shall only be admitted into evidence if available to the accused before or during the hearing.
- h. The director of Judicial Affairs may appoint a special hearing panel member in complex cases. Special panel members may question all parties, participate in hearing panel deliberations, and offer advice to the hearing officer.

i. The hearing officer's report will be presented to the Office of Judicial Affairs. The student may view the hearing officer's written report by appointment.

j. The accused will receive the decision in writing from the

vice president for Student Affairs or designee.

H. Judicial Procedures for Student Organizations, Groups and NCAA Teams

- 1. Student organizations, groups and NCAA teams (referred to here collectively as "group") may be charged with violations of the Towson University Code of Student Conduct.
- 2. When one or more members of a group are charged with a violation of the Code of Student Conduct, the university may charge the group as well. A srudent group and its officers may be held collectively and individually responsible when violations of this Code by those associated with the group have received the consent or encouragement of the group or of the group's leaders or officers.
- 3. A position of leadership in a student group entails responsibility. Student officers or leaders cannot knowingly permit, condone or acquiesce in any violation of this Code by the group. This section of the Code is designed, in part, to hold a group and its officers accountable for any act of hazing. The express or implied "consent" of the victim or participant is not a defense.
- 4. The officers, leaders or any identifiable spokesperson for a student group may be directed by the vice president for Student Affairs or designee, to take appropriate action designed to prevent or end violations of this Code by the group. Failure to make reasonable efforts to comply with the vice president for Student Affairs' directive shall be considered a violation of this Code, both by the officers, leaders or spokesperson for the group and by the group itself.
- 5. An informal investigation for student groups will be conducted in a manner similar to the procedures listed above. Conferences shall be conducted with one spokesperson representing the group, usually the president. Any sanction listed in the Code of Student Conduct may be imposed on a group and its individual members. If individual members are subject to suspension or expulsion from the university for actions of the group, those individuals will be offered a judicial board hearing.

I. Emergency Suspensions

1. When there is evidence that the continued presence of a student on the university campus poses a substantial threat to him/herself or others, or to the stability and continuance of normal university functions, the vice president for Student Affairs or designee, may immediately suspend a student from any or all university activities, including university housing, for an interim period pending a hearing or medical evaluation. Such an emergency suspension may become effective immediately without prior notice.

2. An emergency suspension may be imposed only:

- a, to ensure the safety and well-being of members of the university community;
- h, to ensure the student's own physical or emotional safety and well-being;
- c. if the student poses a definite threat of disruption of or interference with the normal operations of the university.
- 3. A student issued an emergency suspension shall be denied access, as determined appropriate by the vice president for Student Affairs or designee, to:
 - a. the entire campus, including classes;
 - b. university housing and dining facilities;
- c. all other activities or privileges for which the student might otherwise be eligible.
- 4. In these cases, a university hearing or medical evaluation will be scheduled as soon as is practicable.

J. Appeal Procedures

- 1. Any disciplinary determination resulting in expulsion or suspension from the university may be appealed to:
 - a. the Student Appeals Committee
 - b. the president of the university
- 2. Any disciplinary determination resulting in suspension from university housing may be appealed to: the Student Appeals Committee.
- Any disciplinary determination resulting in any lesser sanction except as provided below may be appealed to: the vice president for Student Affairs.

The basis for appeal of a disciplinary sanction must be one of the following:

a. a flaw in the student's right of due process

- b. evident bias in the decision of the hearing board or the individual conducting an informal investigation
 - c. inconsistent or overly severe sanction imposed
- d. new evidence or insufficient consideration of all aspects of the situation

Appeals must be submitted in writing to the Office of Judicial Affairs within five business days after receipt of the sanction letter. Failure to appeal within the allotted time will render the original decision final and conclusive. Appeals shall be decided upon the record of the original proceedings, written letters submitted by the parties, and any further information requested by the committee.

The imposition of sanctions will not be deferred during the appeal process unless the student presents a compelling reason to the vice president for Student Affairs or designee.

- 4. When a student has a dispute about a grade or substantive academic matter, the appeal process is:
 - a. instructor
 - b. department chairperson
 - c. college dean
 - d. Student Appeals Committee

In cases involving the awarding of grades, the Student Appeals Committee normally reviews whether a grade was determined in accordance with the terms set forth at the beginning of the term by the instructor, normally as outlined in the course syllabus. Disputes regarding the grading of a particular piece of work shall be assigned to the appropriate chairperson who shall establish impartial means to conduct a review of the grade.

Grade appeals must be initiated within one year.

- 5. When a student appeals a course-related sanction for academic dishonesty, the appeal process is:
 - a. instructor
 - b. department chairperson
 - c. Student Appeals Committee

Note, please see the complete Student Academic Integrity Policy below.

STUDENT ACADEMIC INTEGRITY POLICY

I. Overview

The acquisition, sharing, communication and evaluation of knowledge is at the core of a university's mission. To realize this part of irs mission, a university must be a community of trust. Because integrity is essential to the purpose of an academic community, the responsibility for maintaining standards of integrity is shared by all members of that academic community.

As instructors, faculty members are ultimately responsible for maintaining the academic standards of integrity on which trust is founded, because they set academic standards, award academic unit and confer degrees when standards are met. To carry out these responsibilities, faculty members will reasonably assess that student work submitted for academic unit is authentic as well as consistent with established academic standards. Therefore, academic evaluation includes a judgment that the student's work is free from academic dishonesty of any type.

Through example in their own academic pursuits and through the learning environment that they create for their students, faculty members preserve and transmit the values of the academic community. They are expected to instill in their students respect for integrity and a desire to behave honestly. They must also take measures to discourage student academic dishonesty. The following policies, procedures and definitions are intended to help faculty meet these responsibilities.

As responsible members of the academic community, students are obligated not to violate the basic standards of integrity. They are also expected to take an active role in encouraging other members to respect those standards. Should a student have reason to believe that a violation of academic integrity has occurred, he/she is encouraged to make the suspicion known to a member of the faculty or university administration. Students should familiarize themselves with the university's policies, procedures and definitions of types of violations.

Commitment to maintaining and encouraging high standards of academic integrity is demonstrated in many ways. One way is through the establishment of policies and procedures governing violation of the standards. The provisions of Towson University's Student Academic Integrity Policy follow. This policy applies to all enrolled students, undergraduate and graduate, regardless of teaching site (e.g., off-campus) or teaching mode (e.g., distance learning). The term "student" includes all persons taking courses at the university, both full-time and part-time, pursuing undergraduate, graduate, professional, certificate or continuing studies.

II. Procedures for Handling Cases

A faculty member responsible for assigning final grades in a course may acquire evidence, either directly or through information supplied by others, that a student violation of academic integrity may have occurred. After collecting the evidence available, the faculty member meets with the student to present the evidence of a violation and request an explanation. Once a faculty member has charged a student with academic dishonesty, the student may not withdraw from the course. Any student who withdraws from a course before the charge is made may be reregistered for the course so that appropriate action can be taken.

If the faculty member accepts the student's explanation, no further action is taken. If the faculty member determines that a violation has occurred, the faculty member informs the student, in writing, of the academic penalty and of the student's rights of appeal. The faculty member sends a copy of the letter, together with any additional information, to the department chairperson and to the Office of the Registrar. The letter should include:

- nature of the charge/evidence against the student;
- brief summary of the meeting with the student;
- faculty member's decision;
- right of appeal to the department chair.

If the student is subsequently found not responsible for the charge, the student may either:

- remain in the course without penalty, or
- withdraw from the course regardless of any published deadlines.

If the student is found responsible for violating the Student Academic Integrity Policy, the student may not withdraw from the course and will receive the sanction imposed by the instructor or other academic authority.

III. Penalties

All acts of academic dishonesty violate standards essential to the existence of an academic community. Most offenses are properly handled and remedied by the faculty member teaching the course in which they occur. The penalties that may be assessed by the faculty member are course related and may include the following:

- a revision of the work in question and/or completion of alternative work, with or without a grade reduction;
- a reduced grade (including "F" or zero) for the assignment;
- a reduced grade (including "F") for the entire course.

Whatever the penalty, the letter describing the incident and recording the decision will be kept for seven years in the Office of Judicial Affairs. The purpose of this record keeping is to ensure that students who violate the university's Student Academic Integrity Policy a second time are dealt with appropriately. A second purpose is to deter students from repeating offenses. The first-offense file is an internal record, not part of the student's disciplinary record or of the academic transcript.

A second violation will normally result in formal judicial charges being brought against the student. In addition to the sanctions listed above, sanctions for a second or subsequent violation may include:

- suspension from the university for a designated period of time;
- · expulsion from the university;
- any sanctions listed in the Code of Student Conduct.

In the determination of penalties, the following factors may be considered:

- the nature and seriousness of the offense;
- the injury or damage resulting from the misconduct;
- the student's prior disciplinary record.

IV. Appeal Procedures

A. If the student chooses to appeal, upon receipt of the faculty member's decision the student must submit within five working days, unless there is a compelling reason to extend this time period, any letter of appeal to the department chairperson. If the time is extended, the letter of appeal will be due as soon as possible after the five days. After receiving the student's appeal letter, the chairperson will:

- arrange a meeting with the student within five working days, unless there is a compelling reason to extend this time period. If the time is extended, the meeting will be held as soon as possible after the five days;
- arrange, if appropriate, a meeting with the faculty member, either separately or with the student in attendance;
- notify the student in writing of his/her decision within five working days tollowing their meeting, unless there is a compelling reason to extend this time period. If the time is extended, the student will be notified as soon as possible after the five days;
- send copies of the decision to the Office of Judicial Affairs and to the office of the dean of the college.

B. If the student is dissatisfied with the chairperson's decision, the student may appeal to the Student Appeals Committee. The student must submit a letter of appeal to the committee, in care of the Office of Judicial Affairs, within five working days of the chairperson's decision, unless there is a compelling reason to extend this time period. If the time is extended, the letter of appeal will be due as soon as possible after the five days. Once the committee has received the appeal, it will set up a meeting where both student and faculty will be invited to give testimony to the committee. The committee may let the original decision stand or may modify it. The decision of the committee is final.

 If a department chairperson is also the instructor making a charge of academic dishonesty, any appeal will be sent to the dean of the college.

- Requests for all the extensions of time above should be made to the Office of Judicial Affairs with a brief justification. The decision as to what is a compelling reason is made solely by the Office of Judicial Affairs.
- Any student charged with a second or subsequent violation of the Student Academic Integrity Policy may be suspended or expelled from the university. He or she may appeal that decision to the Student Appeals Committee as outlined in the Code of Student Conduct.

V. Definitions of Violations

The following definitions and examples are not meant to be exhaustive. The university reserves the right to determine, in a given instance, what action constitutes a violation of academic integrity.

A. Plagiarism

Presenting the work, products, ideas, words or data of another as one's own is plagiarism. Indebtedness must be acknowledged whenever:

1. one quotes another person's actual words or replicates all or part of another's product. This includes all information gleaned from any source, including the Internet.

2. one uses another person's ideas, opinions, work, data or theories, even if they are completely paraphrased in one's own words.

3. one borrows facts, statistics or other illustrative materials.

Because expectations about academic assignments vary among disciplines and instructors, students should consult with their instructors about any special requirements related to citation.

Typical examples: Submitting as one's own the work of a "ghost writer" or commercial writing service; knowingly buying or otherwise acquiring and submitting as one's own work any research paper or other writing assignment; submitting, as one's own, work in which portions were produced by someone acting as tutor or editor; collaborating with others on papers or projects without authorization of the instructor.

In addition to oral or written work, plagiarism may also involve using, without permission and or acknowledgment, computer programs or files, research designs, ideas and images, charts and graphs, photographs, creative works and other types of information that belong to another.

Verbatim statements must be enclosed by quotation marks, or set off from regular text as indented extracts, with full citation.

B. Fabrication and Falsification

Making unauthorized alterations to information or inventing any information or citation in an academic exercise. Fabrication is a matter of inventing or counterfeiting information, while falsification is a matter of altering information.

Typical Examples: Fabrication — inventing or counterfeiting data, research results, information or procedures; inventing data or fabricating research procedures to make it appear that the results of one process are actually the results of several processes; counterfeiting a record of internship or practicum experiences.

Falsification — altering the record of data or experimental procedures or results; false citation of the source of information (e.g., reproducing a quotation from a book review while indicating that the quotation was obtained from the book itself); altering the record of or reporting false information about practicum or clinical experiences; altering grade reports or other academic records; submitting a false excuse for absence or tardiness in a scheduled academic exercise; altering a returned examination paper and seeking re-grading.

C. Cheating

Using or attempting to use unauthorized materials, information, notes, study aids or other devices in any academic exercise. This includes unauthorized communication of information duting an exercise.

Typical Examples: Copying from another student's paper or receiving unauthorized assistance during a quiz, test or examination; using books, notes or other devices (e.g., calculators) when these are not authorized; procuring without authorization tests or examinations before the scheduled exercise (including discussion of the substance of examinations and tests when it is expected these will not be discussed); copying reports, laboratory work, computer programs or files and the like from other students; collaborating on laboratory or computer programs or files and the like from other students; collaborating on laboratory or computer work without authorization and without indication of the nature and extent of the collaboration; sending a substitute to take an examination.

D. Complicity in Academic Dishonesty

Helping or attempting to help another commit an act of academic dishonesty.

Typical Examples: Allowing another to copy from one's paper during an examination or test; distributing test questions or substantive information about the material to be tested without authorization before the scheduled exercise; collaborating on academic work knowing that the collaboration will not be reported; taking an examination or test for another student, or signing a false name on an academic exercise. (Note: Collaboration and sharing information are characteristics of academic communities. These become violation when they involve dishonesty. Instructors should make expectations about collaborations clear to students. Students should seek clarification when in doubt).

E. Abuse of Academic Materials

Destroying, stealing or making inaccessible library or other resource material.

Typical Examples: Stealing or destroying library or reference materials needed for common academic exercises; hiding resource materials so others may not use them; destroying computer programs or files needed in academic work; stealing or intentionally destroying another student's notes or laboratory experiments; receiving assistance in locating or using sources of information in an assignment where such assistance has been forbidden by the instructor. (Note: The offense of abuse of academic materials shall be dealt with under this policy only when the abuse violates standards of integrity in academic matters, usually in a course or experience for which academic unit is awarded).

F. Multiple Submissions

Submitting substantial portions of the same academic work (including oral reports) for unit more than once without authorization of the instructor(s). What constitutes a "substantial portion" of the same work is determined solely by the university.

Typical Examples: Submitting the same or substantially the same work for unit in more than one course without prior permission of the instructor. Building upon or reworking prior work is acceptable with permission of the instructor.

HAZING POLICY

"Hazing" in any form is against the law (Annotated Code of Maryland, Article 27, Section 268H) and is strictly prohibited at Towson University. When this policy is violated, action may be taken against all participants, including pledges. The most damaging instrument to campus organizations (social, honor, service, athletic) is the employment of a program of education, pledging, membership or induction which includes hazing. Hazing risks human lives, mistreats those involved and jeopardizes the affiliation of campus organizations at this university.

Definition

"Hazing" is defined as any action taken or situation created intentionally, whether on or off campus, to produce mental or physical discomfort, embarrassment, harassment or ridicule. Any mental or physical requirement, request or obligation placed upon any person that could cause pain, disgrace or injury, or is personally degrading or violates any federal, state, local statute or university policy is also considered hazing.

Such activities and situations include but are not limited to: paddling in any form; creation of excessive fatigue; road trips; scavenger hunts; publicly wearing apparel which is conspicuous and not normally in good taste; engaging in public stunts and humiliating games and activities; late night sessions that interfere with scholastic and occupational activities; calisthenics (push-ups, situps, runs, etc.); line-ups (lining people up and harassing them verbally); running personal errands for the members; forced consumption of alcohol, illegal substances or food; and any other activities not consistent with the academic mission of the university.

Reporting Procedures

Anyone experiencing or witnessing a violation of this hazing policy is encouraged to report the incident and may bring their concerns to the Office of Judicial Affairs at 410-704-2057, Administration Building, room 236 and/or Campus Life at 410-704-2332, University Union, room 217.

NON-DISCRIMINATION POLICY

Towson University's policies, programs, and activities comply with federal and state laws and University System of Maryland regulations prohibiting discrimination on the basis of race, color, religion, age, national origin, sex, disability and sexual orientation. Sexual harassment (see following section) is considered a form of sexual discrimination.

Procedure for Filing and Investigating Complaints of Discrimination in Education or Employment:

Students and employees may bring concerns about discrimination or unfair practices in education or employment to the Fair Practices officer for investigation (Administration Building, room 211, 410-704-2361). After a student or employee has filed a formal complaint, full information from the complainant, from university records and from university personnel involved in the incident, will be gathered, and a determination as to the merits of the complaint will be made.

The investigation will normally be completed within 30 days. If a key person is unavailable or if the complaint is complex, involves a grade dispute or other faculty matter, the investigation may take longer. Every effort will be made to complete the investigation within the term in which it is filed, unless the complaint is filed within the last two weeks of a term, in which case every effort will be made to complete the investigation by the beginning of the following term.

Students are encouraged to bring incidents that they think are discriminatory to the attention of university officials. The university cannot take appropriate action unless it is aware that a problem exists. For more information, visit www.new.towson.edu/aa.

SEXUAL OR GENDER HARASSMENT

Sexual harassment constitutes a serious threat to the free interaction and exchange necessary for educational and personal development, and it is entirely unacceptable on this campus. Definition: Sexual or gender harassment may range from offensive gender or sexual innuendos to coerced sexual relations. It can happen to both men and women, but women are more often victims.

Harassment occurs when a person in a position of control or influence uses authority and power to gain sexual advances and threats or punishes for refusal to comply. It includes suggestive remarks about clothing or physical attributes; leering or ogling; unnecessary touching; subtle or direct requests for sexual favors;

implied or overt threats of consequence; or a hostile sexual environment. Students and employees may bring concerns about sexual harassment to the Fair Practices officer for investigation (Administration Building, room 211, 410-704-2361). For more information, visit www.new.towson.edu/aa.

AIDS POLICY

In accordance with the university's Non-Discrimination Policy, no student, faculty or staff member shall be denied access to the academic, social or employment opportunities offered by Towson University solely because he/she has AIDS or is an HIV carrier. A university committee will be appointed to evaluate individual cases of HIV infection and to make recommendations as questions of risk or cases of specific exigencies require. Educational programs will be implemented for the campus and the campus community to assist in preventing further spread of the virus.

POLICY ON SUBSTANCE ABUSE FOR FACULTY, STAFF, AND STUDENTS

University System of Maryland Policy

The University System of Maryland, as an employer, strives to maintain a workplace free from the illegal use, possession or distribution of controlled substances (as defined pursuant to Controlled Substances Act, 21 U.S.C. Sections 801, et. seq.). Unlawful manufacture, distribution, dispensation, possession or use of controlled substances by university employees in the workplace is prohibited under university policy. In addition to any legal penalties under federal and state law, employees found to be in violation of this policy or the Maryland Governor's Executive Order on Substance Abuse, 01.01.1991.16, may be subject to corrective action under applicable university personnel policies. The university supports programs aimed at the prevention of substance abuse by university employees. Employees are encouraged to seek assistance for substance-dependency problems. Employee-assistance counseling and leaves of absence to attend rehabilitation programs are appropriate means of dealing with these problems.

Towson University Policy

The use of controlled substances and the abuse of alcohol presents a serious threat to individual health and everyone's safety. Moreover, the use of illegal drugs and the abuse of alcohol can result in less than complete reliability, stability and good judgment, which is inconsistent with the standards set for the faculty, staff and students of this university. Towson University, as an employer, strives to maintain a workplace free from illegal use, distribution or possession of controlled substances. Any person found to be participating in such activity will be subject to administrative disciplinary action, mandatory counseling and treatment and/or criminal proceedings.

The use, possession and/or sale of illegal drugs are considered violations of Towson University's Code of Student Conduct, the faculty contract and the terms of employment of regular and contingent (exempt/non-exempt) staff. Faculty, students and employees who use, possess or sell illegal drugs shall be subject to discipline, including mandatory counseling, suspension or dismissal from the university. The university will take disciplinary action based on reasonable available information; such action will be independent of any civil or criminal processes precipitated by the same incident and will follow the policies and procedures of the university and the University System of Maryland Board of Regents. In the workplace, use, possession and/or sale of illegal drugs and controlled substances are also violations of state and federal laws for which individuals are subject to university disciplinary processes and/or arrest and criminal prosecution.

These serious workplace situations must be handled in ways which ensure the protection of the civil rights and handicapped rights of the accused, the treatment and rehabilitation of employees, and the notification of the necessary administrative and legal authorities.

Specific procedures for reporting drug use, penalties and appeals are part of the Towson University Code of Conduct. Employee disciplinary measures and appeals for violations of this policy as well as other policies of the university are part of the Faculty Handbook, the Part-Time Faculty Handbook and the Personnel Manual.

In addition to the university policy on substance abuse, all employees of the university, including student employees, are subject to the Maryland Governor's Executive Order 01.01.1991.16 on the Drug and Alcohol Free Workplace.

In accordance with federal legislation, Towson University's substance abuse policy will be distributed annually to all students and employees through the campus or U.S. mail.

Education

In accordance with federal legislation, there will be an annual distribution in writing, to each employee and student of:

- 1. the dangers of drug abuse in the workplace (to include student employees);
- 2. the institution's policy of maintaining a drug-free workplace and drug-free campus;
- 3. standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on university property or as part of any university activities;
- description of applicable legal sanctions under local, state or federal law;
- 5. a description of health risks associated with the use of illicit drugs and abuse of alcohol;
- 6. a description of available drug or alcohol counseling, treatment, or rehabilitation and/or reentry programs;
- 7. a clear statement of the disciplinary sanctions that the university will impose on students and employees.

All supervisory faculty and staff will receive training on drug awareness and treatment. This training program shall include existing as well as new supervisory personnel. Drug awareness training will be an integral part of the university's student orientation program.

Faculty and staff orientations will include programming especially designed to focus on the university's policy toward substance abuse

Employee/Student Assistance Programs

Towson University's health and drug education programs will inform the entire university community of the physical and psychological effects of the non-medically supervised use of illegal drugs, alcohol and consciousness-expanding drugs. The education program shall make employees aware of the consequences of prosecution under local, state and federal laws and the rules for governance for university-imposed discipline.

The university recognizes the importance of individual rights and respects the privacy of employees and students. To this end, the university has an established counseling program for students and an Employee Assistance Program (EAP) for faculty and staff. These programs have been designed to provide counseling and rehabilitative services. Employees and students are encouraged to contact the appropriate program in the event they have a substance abuse problem. In this way, a student or employee can correct the problem before it jeopardizes a job, an education, family, or individual well-being.

Employees or students who need help with a problem of drug abuse shall be encouraged to call the Counseling Center, the Health Center, Human Resources or the office of the vice president for Student Affairs. The resources of the Counseling Center shall be available for supervisors who wish consultation in handling employees who may have substance abuse problems. The call will be treated with confidentiality and respect.

Voluntary participants in an assistance program will not jeopardize their continued employment or enrollment at the university provided that their job performance or behavior is consistent with established standards. However, voluntary participation in an

assistance program will not prevent disciplinary action for violation of the policy described herein, where such violation has already occurred.

Procedures for Grievances and Appeal

Towson University strongly encourages the use of drug rehabilitation programs as the keystone to a drug-free environment. For each class of employee and student category, the formal rules of procedure remain intact. These include the student judicial procedures and criminal justice procedures. Following a conviction for violation of a drug offense in the workplace, disciplinary action can be imposed, up to and including termination or disenrollment. As a condition of continued employment or education, an employee or student may be required to participate in an approved drug abuse rehabilitation program.

Suspected Drug Use, Possession or Sale

The use, possession or sale of illegal drugs are violations of state and federal laws for which all offenders are subject to arrest and criminal prosecution, as well as university administrative processes. These serious offenses must be handled in ways to ensure the guarding of evidence, the protection of civil rights of the accused and notification of the proper authorities. To this end, specific procedures outlined in this policy are to be followed in any campus situation where substances are suspected to be illegal drugs.

Any individual, student or employee, directly associated with the University System of Maryland who uses or becomes involved with illegal drugs without proper medical supervision, shall be subject to discipline, including suspension or dismissal, as appropriate.

Students, faculty and staff, in their routine activities, may observe suspected illegal drug activities. As a result, some staff members may become involved in the determination of disciplinary action that follows suspected use, possession or distribution of an illegal substance. Specific actions or responsibilities in regard to the suspicion of illegal substances have been outlined in other paragraphs of this policy.

The university reserves the right to conduct drug testing consistent with applicable federal and state laws.

Alcohol Use and Abuse

Towson University views with alarm the potential and real problems caused by alcohol abuse and alcoholism. The alcohol policy has been directed to students and employees engaged in the legal use of alcohol. The implicit as well as explicit focus for prudent drinking is with moderation rather than intoxication.

Any person using alcoholic beverages at any time and at any place while on the Towson University campus is responsible to civil and university authorities for compliance with state and county law.

It is against Maryland state law for anyone under the age of 21 to purchase, possess or consume alcoholic beverages.

It is unlawful for any minor to knowingly and willfully make any misrepresentation or false statement as to his/her age in order to obtain alcoholic beverages.

It is unlawful for any person to purchase alcoholic beverages for consumption by an individual who is known to be a minot.

It is unlawful for any person to possess open containers of any alcoholic beverages in a public place.

Policies concerning the possession and/or use of alcoholic beverages on campus and at special university/community events shall be the delegated responsibility of the vice president for Student Affairs. Procedures for Reporting Substance Abuse

The following information shall provide the basic guidelines for the reporting of student or employee drug use, possession, sale or distribution. Other procedures to be followed have been specified in other sections of this policy.

Upon observing or receiving a report of suspected use, possession or distribution of an illegal drug or the illegal use of alcohol, faculty and staff, and/ or students shall proceed in the following manner:

Step One: Report suspicions of illegal drug or alcohol use or possession to the administrator of your area or the appropriate vice president. Any faculty or staff member who observes the workplace use or possession of illegal drugs or alcohol must take appropriate action.

Students observing drug activity in the residence halls should notify a housing staff member. These administrators will notify the

appropriate authorities and take appropriate action.

Step Two: Use judicious thought and sound judgment when approaching individuals suspected of illegal drug or alcohol use, possession or distribution. It is preferable to leave drugs or alcohol in their original location until the authorities take action.

Step Three: The university administration will determine if state or federal laws may have been violated. University employees should not become involved in mediating any situation involving

illegal drug or alcohol use.

Consistent with the Governor's Executive Order 01.01.1991.16 (found at http://www.dsd.state.md.us/comar/01/01.01.1991.16.htm), any employee charged with an alcohol driving offense or a controlled dangerous substance offense must report a finding of guilty, an acceptance of a plea of nolo contendere, or a probation before judgement to the employee's appointing authority within five work days.

Employees designated "sensitive" by Towson University are subject to penalties set forth by the Governor's Executive Order.

Penalties for Substance Abuse Penalties for Faculty and Staff

Towson University strongly encourages the use of drug rehabilitation programs as an effective measure in creating a drug-free workplace program. However, additional penalties may be implemented up to and including reprimand, suspension, mandatory counseling, mandatory participation in a drug rehabilitation program and/or dismissal. Appropriate university grievance procedures shall be used for each classification of employee.

Consistent with the Governor's Executive Order 01.01.1991.16 (found at http://www.dsd.state.md.us/comar/01/01.01.1991.16.htm), any employee charged with an alcohol driving offense or a controlled dangerous substance offense must report a finding of guilty, an acceptance of a plea of nolo contendere, or a probation before judgement to the employee's appointing authority within five work days. Employees designated "sensitive" by Towson University are subject to penalties set forth by the Governor's Executive Order.

Any individual who has been convicted of a controlled dangerous substance offense on or after January 1, 1991, shall be required to disclose that fact when applying for a license renewal. The licensing authority may refuse to issue the license or impose appropriate conditions on the license, except for noncommercial driver's

licenses (Maryland Drug Enforcement Act of 1990).

Maryland law [Art. 27, 8, 286, and 287 Annotated Code of Maryland (1990)] states that persons who manufacture, distribute, dispense or possess a controlled dangerous substance may be subject to imprisonment (length of time varies) and fines (\$15,000 and up). Penalties for Students

In addition to the laws of the University System of Maryland, the state of Maryland and the nation, Towson University students shall be governed by rules referred to as the "Towson University Code of Conduct." Within these campus guidelines, students shall be subject to institutional discipline if they use, possess, distribute or sell illegal drugs and illegally use or abuse alcohol. There may be various penalties applied to the student convicted of misuse of drugs and alcohol, depending on the situation. Individuals are encouraged to use voluntary rehabilitation programs and may be required to receive mandatory counseling and treatment. If a student is suspected by the university police to have violated state and/or federal laws with regard to illegal drugs or use of alcohol, the student will be subject to arrest and criminal prosecution.

All students suspected of substance abuse violations may be referred to the director of Judicial Affairs. The student will be subject to a due process hearing in accordance with institutional disciplinary guidelines. Disciplinary action at the university will normally proceed whether or not criminal charges related to the same incident have been processed and sustained. The university encourages voluntary counseling and may require participation in an

approved treatment program.

Where there is evidence that the continued presence of a student on the university campus poses a substantial threat to self, others, or to the stability and continuance of normal university functions, the vice president for Student Affairs, or a designee, may immediately suspend, on an emergency basis, a student from any or all university activities (including university housing programs and class attendance) pending a hearing or medical evaluation. A hearing will be scheduled in a timely fashion to adjudicate the case as swiftly as possible. During the period of emergency suspension, if the student needs access to the campus, arrangements can be made for the student to come to campus, on a limited basis, to attend counseling sessions and/or conduct business, usually with an escort. Such an interim suspension can become effective immediately without prior

The following penalties described herein are in addition to those penalties listed in the section on general procedures and penalties for suspected drug use, possession or sale. The specific penalty prescribed will usually depend on the nature of the alleged violation. Penalties may be administered following a judicial hearing where the suspected offender has been found to be guilty of specific charges. Possible penalties for student violations may include, but are not limited to, the following:

PENALTY ONE: The student user may be subject to referral to a mandatory drug treatment/education program, and/or the termination of the university housing contract, denial of access to university housing halls and social functions. If suspended, permission to return to school will be considered after the period of suspension and a verified report of attendance in a drug treatment/education program. Repeat offenders may be subject to more severe actions. PENALTY TWO: The student distributor may be subject to referral to a mandatory drug treatment/education program and/or suspension from school. Permission to return to school will be considered after the period of suspension and a verified report of attendance in a drug treatment/education program. Repeat offenders may be subject to more severe actions.

PENALTY THREE: The student conspirator, who brings together the seller and the buyer, may be subject to referral to a mandatory drug treatment/education program and/or suspension. Permission to return to school after the period of suspension will be considered with verified attendance in a drug treatment/education program.

PENALTY FOUR: Greek organizations that have been found to tolerate drug use, possession, and/or sale on the part of their memhers will be subject to a drug education program for the group.

Maryland law [Art. 27, 8, 286, and 287 Annotated Code of Maryland (1990)] states that persons who manufacture, distribute, dispense, or possess a controlled dangerous substance may be subject to imprisonment (length of time varies) and fines (\$15,000 and up). Recipients of Federal Grant/Contracts/Awards

Any faculty, staff member or student applying 1) for a federal grant/contract in which an in-the-workplace drug-free policy has been required, 2) for a "Pell Grant" or any other student/faculty grant/award or fellowship in which an in-the-workplace drug-free policy has been required, and 3) for a subcontract with the Department of Defense, will be required to comply in accordance with federal regulations.

1. Each individual must certify in writing to abide by the terms of the Towson University Drug-Free Workplace Policy.

2. Each individual must notify the Office of University Research Services or the Office of Financial Aid of any criminal drug conviction occurring in the workplace, no later than 5 days after conviction.

278 Appendix F

The university will be responsible for notifying any contracting or granting agency within 10 days of employee notification, otherwise receiving actual notice, of a conviction in (2) above.

If a grant or award is directly made to an individual, rather than the institution, the individual will certify in writing to the institution to not engage in unlawful manufacture, distribution, dispensation, possession or use of any controlled substance in the workplace or while conducting any work activity with the grant/contract and will abide by the terms of this Towson University Substance Abuse Policy.

Relationship with External Contractors

The university is committed to encourage all non-state entities who do business with the university or otherwise receive funds from the university to make a "good faith" effort to eliminate illegal drug abuse from their workplace. Therefore, in accordance with Executive Order 01.01.1991.16, the university shall take whatever action necessary and appropriate to require a drug-free workplace, in accordance with applicable federal and state law, on each recipient of a state contract, grant, loan or other state funding instrument.

Biennial Review

The Towson University Substance Abuse Policy and Program will be reviewed every two years (a) to determine effectiveness and the need to implement change as necessary, and (b) to assure that sanctions developed and implemented were consistently enforced.

Responsibility

The president of Towson University will appoint a campus coordinator for all substance and alcohol abuse programs. This administrator will be responsible to the president for the implementation of this policy and the university's Drug-Free Workplace and Drug-Free Campus plans. The president shall also hold responsible all faculty, staff and students for supporting the campus coordinator, especially those who occupy positions of leadership and supervision.

"Good Faith" Efforts

Towson University will at all times make a "good faith" effort to maintain a drug-free and substance abuse-free workplace and campus through the implementation of this policy.

Course Descriptions

THE MEANING OF COURSE NUMBERS

Academic departments use specific abbreviations for each general subject area (for example, French in the Department of Modern Languages). These three- or four-letter abbreviations (discipline codes) are listed below. In the course listings below, the discipline codes are followed by a three-digit code, which signifies course level:

| Course | Significance of |
|---------|---|
| Numbers | Numbers |
| 100-299 | Lower-Level Undergraduate Courses |
| 300-499 | Upper-Level Undergraduate Courses |
| | Certain courses may be taken for undergraduate |
| | or graduate credit. These courses' |
| | graduate-level equivalents are shown in brackets. |
| 500-899 | Graduate-Level Courses |

Sequential Courses

Courses whose numbers are separated by a hyphen are to be taken in sequence. When course numbers are separated by a comma, either term may be taken independently of the other. (See Prerequisites.)

Prerequisites

Prerequisites are requirements imposed by an academic department for certain courses within its curriculum. Such requirements may include, but are not limited to, other courses, a specific GPA, or class standing (e.g., junior, senior). Prerequisites may also include successful completion of screened requirements, where applicable, or successful completion of a specific test or examination, either departmental or standardized, where applicable. Prerequisites may also include department or instructor permission in addition to, or in lieu of, specific course, testing, or class standing requirements.

Departments are responsible for enforcing prerequisites. Students are advised to read carefully course descriptions found in this catalog, and to make sure they have met any prerequisites before registering for courses. Students who remain in courses without having met prerequisites, with or without the permission of the instructor, do so at their own risk. Failure to meet prerequisites and withdraw from a course by the published deadline is not a basis for petitioning the Academic Standards Committee for an exception to academic policy.

Elective Courses

Courses that are not required toward the GenEds or a major program of study are electives. Students may complete elective courses to attain the 120 units needed to graduate. However, before attempting electives, students should consult their advisers and, for more information, the course instructors and department chairpersons.

Unit Value of Courses

The term unit value of each course is indicated in the parentheses following the title.

Time of Offering

All required courses are usually offered at least once a year. Elective courses in each department are offered on a regular rotation so that each is available at least once every three years. All courses are offered subject to sufficient enrollment.

ACCOUNTING (ACCT)

Lower Division

ACCT 201 ACCOUNTING PRINCIPLES I (3) Accounting in the decision-making process of a business, including the effects of accounting events on business financial statements; planning and decision-making tools in the operating cycle; process of recording and communicating information.

ACCT 202 ACCOUNTING PRINCIPLES II (3) Accounting in the decision-making process of a business, including analysis of the operating cycle and cash management and controls; evaluating business performance through financial statement analysis; spreadsheet applications and team learning activities. Prerequisite: ACCT 201 or ACCT 211

with a grade equivalent of 2.00 or higher.

ACCT 211 HONORS ACCOUNTING PRINCIPLES I (3) This course is similar to ACCT 201 except that it emphasizes more conceptual approaches to accounting and requires completion of a research paper, case studies and practice sets. It also requires a considerable amount of computer-based instruction. Prerequisites: SAT scores 550 or above, Verbal; 600 or above, Math.

ACCT 212 HONORS ACCOUNTING PRINCIPLES II (3) This course is similar to ACCT 202 except that it emphasizes more conceptual approaches to accounting and requires completion of a research paper, case studies and practice sets. It also requires a considerable amount of computer-based instruction. Prerequisites: SAT scores 550 or above, Verbal; 600 or above, Math, and ACCT 211 with a grade equivalent of

2.00 or higher.

Upper Division

ACCT 300 ACCOUNTING INFORMATION SYSTEMS (3) Accounting system concepts and technologies, transaction processing systems and the control of accounting information. Projects include the use of commercial accounting software. Prerequisite: ACCT 202 or ACCT 212 with a grade equivalent of 2.00 or higher.

ACCT 301 INTERMEDIATE ACCOUNTING 1 (3) GAAP accounting theory; analysis of financial statements; revenue recognition methods; accounting for changes and errors and for changes in prices; financial statement analysis. Prerequisite: ACCT 202 or ACCT 212 with a grade

equivalent of 2.00 or higher,

ACCT 302 INTERMEDIATE ACCOUNTING II (3) Analysis of assets (cash, receivables, inventories, fixed assets and intangibles) and liabilities. Concepts of present value analysis. Prerequisites: ACCT 301 with

a grade equivalent of 2.00 or higher.

ACCT 303 INTERMEDIATE ACCOUNTING III (3) Analysis of equity. Reporting of earnings per share. Accounting for investments, leases, post-employment benefits and income taxes. Prerequisite: ACCT 302 with a grade equivalent of 2.00 or higher.

ACCT 321 ADVANCED ACCOUNTING 1 (3) Partnership accounting, multinational accounting, accounting for non-business organizations and business combinations and consolidations. Prerequisites: ACCT

303 with a grade equivalent of 2.00 or higher.

ACCT 341 COST ACCOUNTING 1 (3) Components of manufacturing cost under the job order and processing cost system will be discussed. Elements of standard cost accounting, variance analysis and direct cost will be presented. Prerequisite: ACCT 202 or ACCT 212 with a grade equivalent of 2.00 or higher.

ACCT 342 COST ACCOUNTING II (3) Preparation of budgets and budgetary controls, standard costs and their application. Also covers management uses of accounting information through case analyses. Prerequisite: ACCT 341 with a grade equivalent of 2.00 or higher.

- ACCT 361 TAX ACCOUNTING I (3) Covers federal income tax laws governing gross income, deductions, calculation of taxable income tax rates. Emphasis is placed on the effect of these laws on the income of individual taxpayers. Prerequisite: ACCT 202 or ACCT 212 with a grade equivalent of 2.00 or higher.
- ACCT 362 TAX ACCOUNTING II (3) This course covers federal income tax laws dealing with partnerships, corporations, special tax areas and state of Maryland income tax laws. Prerequisite: ACCT 361 with a grade equivalent of 2.00 or higher.
- ACCT 401 AUDITING (3) Standards, controls, ethics and procedures employed by financial auditors. Prerequisites: ACCT 303, COMM 131, and upper-level writing requirements with a grade equivalent of 2.00 or higher; senior status.
- ACCT 402 AUDITING II (3) Auditing procedures, working in small groups and developing oral and written communications skills for public accounting. Prerequisite: ACCT 401 with a grade equivalent of 2.00 or higher.

ACCT 470 - 479 SPECIAL TOPICS IN ACCOUNTING (3) Course content varies with each topic. In-depth study of contemporary business issues as they affect current accounting practice. May be repeated for credit provided a different topic is covered. Prerequisite: consent of instructor.

ACCT 495 INDEPENDENT RESEARCH IN ACCOUNTING (3)
Directed research on specific problems in a functional area of accounting. May be repeated for a maximum total of 6 units. Prerequisite:

consent of instructor.

ACCT 497 ACCOUNTING INTERNSHIP (3) Students are required to work in assigned projects in actual accounting environments. Priority will be given to seniors. Open to highly qualified juniors, Graded S/U. May be repeated for a maximum of 6 units. Prerequisites: consent of department chairperson; junior status.

AFRICAN AND AFRICAN AMERICAN STUDIES (AFST) Lower Division

AFST 201 MAIN THEMES IN AFRICAN AMERICAN STUDIES (3) Interdisciplinary introduction to African American Studies. Exploring a number of themes, such as religion/spirituality, family, education, identity, literature, politics and economics. GenEd II.C.3

Upper Division

AF\$T 411 AFRICAN AMERICAN PERSPECTIVES (3) Structured around multidisciplinary and interdisciplinary approaches, focuses on the experiences of African Americans. Designed to encourage development in an otherwise emotional area. Prerequisite: a course in African American history, or African American literature or consent of instructor.

AMERICAN STUDIES (AMST)

Lower Division

AMST 201 INTRODUCTION TO AMERICAN STUDIES (3) Interdisciplinary course interpreting American culture through historical documents, literature, film, music, art and popular expression. Topic varies. GenEd Il.B.1.

Upper Division

AMST 491 DIRECTED READINGS IN AMERICAN STUDIES (3) Independent research in American Studies on a topic selected by the student in consultation with the instructor. Prerequisite: consent of American Studies coordinator.

AMST 497 INTERNSHIP IN MATERIAL CULTURE (3) Students will work with members of the curatorial staff at a local museum to learn various museum techniques, examine the collections, and understand the educational and scholarly uses of material culture. A daily log and 90 hours of participation are required. Pre requisite: consent of American Studies coordinator. Graded S/U.

ANTHROPOLOGY (ANTH)

Lower Divisior

- ANTH 207 CULTURAL ANTHROPOLOGY (3) Introduction to social and cultural anthropology; cultural theory, social structure, human ecology, language and culture, technology, religion, art and literature. GenEd II.D.
- ANTH 208 HUMAN EVOLUTION AND PREHISTORY (3) The study of humans: their biological and cultural development through time. GenEd II.D.
- ANTH 209 ANTHROPOLOGY OF AMERICAN CULTURE (3) Applies the anthropological perspective and methodology to the study of the institutions of American culture and the distinctive ways of life encompassed by it. Students will use the perspective in a fieldwork situation of their choice. GenEd II.B.2.

ANTH 210 HONORS CULTURAL ANTHROPOLOGY (3) Introduction to social and cultural anthropology. Major social institutions, such as politics, economics, religion and social structure will be viewed cross-culturally. Honors College course, Special permit only. GenEd II.D.

ANTH 211 HONORS ANTHROPOLOGY OF AMERICAN CULTURE (3) Applies the anthropological perspective and methodology to the study of the institutions of American culture and the distinctive ways of life encompassed by it. Students will use the perspective in a fieldwork situation of their choice. Honors College course. Special permit only, GenEd II.B.2.

Upper Division

ANTH 311 ARCHAEOLOGY OF MARYLAND (3) Prehistory of Maryland from initial settlement until the European contact.

Prerequisite: ANTH 208.

ANTH 321 [521] GENDER IN CROSS-CULTURAL PERSPECTIVE (3)
Materials from a variety of cultures will be used to illustrate and analyze the roles of women and men within the major institutional aspects—the family, economics, politics and religion. Particular attention will be devoted to the similarities and differences in sex role patterns within and among the cultures. Prerequisite: SOCI 101 or ANTH 207.

ANTH 331 ESKIMO ETHNOGRAPHY (3) Survey of the social and cultural worlds of the Inuit (Eskimo). Prerequisite: ANTH 207.

ANTH 341 INFORMATION AGE CULTURES (3) Anthropological study of institutions, organizations and dilemmas common to an "information age." Prerequisite: ANTH 207. GenEd II.A.2.

ANTH 346 [546] WEALTH, POWER AND POLITICS IN CROSS-CUL-TURAL PERSPECTIVE (3) Political systems and the distribution of power in egalitarian, ranked and stratified societies will be examined.

Prerequisite: SOCI 101 or ANTH 207.

- ANTH 351 DRUGS IN THE AMERICAS (3) Examines drug production and organization of supply in Latin America and the impact of the illegal economy on the peasant producers and the fabric of the economy, polity and society of those Latin American countries most directly involved. In the light of Latin American reality, the policy choices of the "War on Drugs" will be evaluated. Prerequisite: SOCI 101 or ANTH 207.
- ANTH 353 LATINAS IN THE AMERICAS (3) Anthropological perspective stressing "emic" or insider view; structural constraints of class, gender and race; women's agency is used to understand the diverse experiences of Latin American women with colonization, independence, revolution, development and structural readjustment. Prerequisite: ANTH 207, ANTH 208, or WMST 231 or consent of instructor.
- ANTH 361 CONTROVERSIES IN ANTHROPOLOGY (3) Focuses on a number of significant controversial issues in cultural anthropology. Students will read divergent assessments on each issue under study. Films will be shown which further illuminate the topics. Topics addressed will cover a diverse range of areas, including sociobiology, cannibalism, incest, family organization, sexuality, warfare, competitive feasting, and spirit possession. Prerequisite: ANTH 207.

ANTH 364 [564] RELIGION, MAGIC AND WITCHCRAFT (3) The world view, beliefs and rituals of selected non-literate peoples considered with reference to religion as a universal category of human culture.

Prerequisite: ANTH 207.

ANTH 365 [565] NORTH AMERICAN INDIANS (3) The traditional culture of native North Americans and their socio-cultural place in mod-

ern American society. Prerequisite: ANTH 207.

ANTH 366 [566] SOUTH AMERICAN INDIANS (3) Survey of the cultures of the native peoples of South America in Pre-Columbian times and the situation of contemporary tribal peoples of South America. Prerequisite: ANTH 207.

ANTH 367 [567] PEOPLES OF THE MIDDLE EAST (3) Survey of the Middle East as a cultural area with emphasis on culture change.

Prerequisite: ANTH 207.

ANTH 368 [568] GLOBALIZATION IN CROSS-CULTURAL PERSPECTIVE (3) Analyzes various approaches to globalization and examines the consequences of globalization and development among selected contemporary populations, primarily in the Southern countries of the world. Prerequisite: ANTH 207 or SOCI 101.

ANTH 369 [569] TRADITION AND REVOLUTION IN LATIN AMERICAN SOCIETY (3) An anthropological perspective will be brought to bear on contemporary Latin American culture and society. The Pre-Columbian heritage, the traditional synthesis and the struggle to modernize and develop will be examined. Prerequisite: SOCI 101, ANTH 207, or ANTH 208.

ANTH 370-379 [530-539] TOPICS IN ANTHROPOLOGY (3) An examination of current topics in anthropology designed for non-majors as

well as majors. May be repeated for a maximum of 6 units. Prerequisite: ANTH 207 or ANTH 208.

ANTH 380 ETHNOGRAPHIC FIELD METHODS (3) The history, theory and methods of ethnographic field research in anthropology. Current issues in anthropological fieldwork. Prerequisite: ANTH 207.

ANTH 381 [581] ARCHAEOLOGICAL METHODS AND THEORY (3) Methods of excavating and recording archaeological data. Investigation of problems of current research interest. Prerequisite: ANTH 207.

ANTH 383 [583] NORTH AMERICAN ARCHÁEOLOGY (3) Regional survey of the prehistory of native North American cultures. Prerequisite: ANTH 207 or ANTH 208.

- ANTH 387 [587] NATIVE AMERICAN ARCHAEOASTRONOMY (3) Examination of prehistoric roots of astronomy in the New World with an emphasis on the American Southwest. Celestial motions and the development of a calendar, related folklore, and case studies concerning solstice and equinox observations. Prerequisite: ANTH 20° or 208.
- ANTH 388 [588] PEASANT CULTURES (3) Focuses on rural agricultural population of modern states, their traditional lifeways and the changes being wrought by modernization. Prerequisite: SOCI 101 or ANTH 207.
- ANTH 391 ARCHAEOLOGICAL LAB METHODS (3) Artifact analyses from prehistoric site excavations; archaeological data analysis techniques. Prerequisite: ANTH 208.
- ANTH 393 ARCHAEOLOGICAL FIELD SCHOOL (3) Fieldwork conducted in a prehistoric archaeological site in the Maryland area. May be repeated for a maximum of 6 units. Prerequisite: ANTH 208.
- ANTH 401 [501] ANTHROPOLOGICAL THEORY (3) Survey of the theoretical contributions made by American, British and Continental anthropologists. This course also satisfies the university's second writing course requirement. Prerequisites: ENGL 102, ANTH 207, and 9 units of anthropology. GenEd I.D.

ANTH 470-479 [570-579] SPECIAL TOPICS IN ANTHROPOLOGY (I-3)
An examination of current topics in anthropology designed for junior and senior majors. May be repeated for a maximum of 6 units. Prerequisites: ANTH 207 and 6 additional units of anthropology.

- ANTH 491-492 [591-592] INTERNSHIP IN ANTHROPOLOGY I, II (3,3) Supervised experience in work setting which facilitates understanding of roles and relationships relevant to anthropological inquiry and application of anthropological knowledge. Although opportunities to do anthropologically oriented fieldwork in the community will usually be available, placement in agencies dedicated to anthropological inquiry may not always be possible. Students may elect to take one term for 3 units (491) or two terms for 3 units each (491-492), in one agency for both terms or in a different agency each term. No more than 3 units may be earned in a term without consent of the chair, which will be granted only when agency requirements and student needs make it appropriate. Pre requisites: concentration in anthropology; junior standing and consent of internship coordinator.
- ANTH 495 [595] INDEPENDENT RESEARCH (3) Supervised research and anthropological investigation leading to preparation of a research project or a supervised field experience. For senior students with a concentration in anthropology. May be repeated for a maximum of 6 units. Prerequisites: at least 12 units in ANTH and consent of department chair.
- ANTH 498 READINGS IN ANTHROPOLOGY (Honors) (4) A survey of the relevant scholarly literature under the guidance of a faculty member who will direct the student's research. Prerequisite: consent of the honors coordinator.
- ANTH 499 HONORS THESIS (4) Supervised research and anthropological investigation involving library and/or field experiences and culminating in a written report. Prerequisite: consent of the honors coordinator.

ART

Lower Division

- ART 100 USING VISUAL INFORMATION EFFECTIVELY (3) Accessing, analyzing and organizing visual information, including Internet research and Web page design. Gen.Ed. l.B.
- ART 102 DESIGN FOR NON-ART MAJORS (3) Creative process through two-dimensional art theory and concepts. Studio application, lectures, research problems. GenEd l.E.
- ART 103 DESIGN 1(3) Elements and principles of two-dimensional design: compositional problems involving various materials, tools and techniques.
- ART 104 DESIGN II (3) Elements and principles of three-dimensional design: form and space problems involving various tools, materials and techniques.
- ART 106 DRAWING FOR NON-ART MAJORS (3) Creative process through drawing. Studio application, lectures, demonstrations and research problems. GenEd I.E.
- ART 107 CÉRAMICS FOR NON-ART MAJORS (3) Creative process through studio application of ceramics. Lectures, demonstrations and research problems. GenEd I.E.
- ART 109 SCULPTURE FOR NON-ART MAJORS (3) Creative process through sculpture. Studio application, lectures, demonstrations and research problems. GenEd 1.E.
- ART 111 DRAWING AND THE APPRECIATION OF DRAWING I (3)
 Problems of expressive draftsmanship in a variety of media. Drawing from the costumed and nude figures, still life and landscape.

ART 113 PAINTING FOR NON-ART MAJORS (3) Creative process through painting. Studio application, lectures, demonstrations and research problems. GenEd I.E.

ART 115 AMERICAN TRADITIONS IN PAINTING (3) Diverse trends in American painting. Lecture, demonstration, studio experiences, museum visits, guest speakers. GenEd II.B.1.

ART 117 PRINTMAKING FOR NON-ART MAJORS (3) Creative process through printmaking, GenEd I.E.

ART 118 JEWELRY FOR NON-ART MAJORS (3) Creative process through jewelry production. GenEd I.E.

ART 126 FABRIC DESIGN FOR NON-ART MAJORS (3) Study of design elements and principles using various textile techniques, such as embroidery, applique, quilting, and dyeing. GenEd I.E.

ART 146 HONORS DRAWING FOR NON-ART MAJORS (3) Creative process and communication through drawing. Studio application, lectures, demonstrations and research problems. Prerequisite: Honors College course, Special permit only. GenEd LE.

ART 205 THE HUMAN FIGURE (3) Exploration of the human figure using two- and three-dimensional techniques: emphasis on the representational image. Prerequisite: ART 111.

ART 211 DRAWING II (3) Continued studio work in drawing: landscape, still life and figure. Prerequisite: ART 111.

ART 217 INTRODUCTION TO COMPUTER MEDIA (3) Hardware and software for image generation, image processing and design. Prerequisite: ART 103.

ART 229 PAINTING I (3) Fundamentals of painting through lecture, demonstration and studio experience. Emphasis on color theory and applications: still life and landscape, Prerequisites: ART 103, ART 111.

ART 231 CERAMICS I (3) Creative investigation of ceramic materials. Studio work, lectures and discussion on ceramic design, techniques and materials. Prerequisites: ART 103, ART 104, or consent of instructor.

ART 234 PHOTOGRAPHY I (3) Technical and aesthetic elements of the photographic process. A manually adjustable camero is required. Prerequisite: ART 103.

ART 241 SCULPTURE I (3) Lecture and studio problems in the aesthetic and technical considerations of contemporary sculpture.

ART 245 INTRODUCTION TO PRINTMAKING (3) Basic intaglio and relief processes: collograph, dry point, linocut and monoprinting, with an overview of other printmaking media. Prerequisites: ART 103 and ART 111.

Upper Division

ART 301 STAINED GLASS (3) Directed studio problems in stained glass: cutting, foiling, soldering, brass frame and patina. Prerequisite: ART 102 or ART 103 or consent of instructor.

ART 308 CERAMICS: THE RAKU PROCESS (3) The utilization of specific clays, glazes and firing techniques which relate to this both ancient, yet contemporary, ceramic process.

ART 309 CERAMICS: THE POTTER'S WHEEL (3) Studio experience in wheel throwing with emphasis on utilitarian art forms. Lectures, discussion and demonstrations, Prerequisite: ART 231.

ART 310 CERAMICS: HANDBUILDING (3) Studio experience utilizing a variety of handbuilding techniques: problems in both utilitarian and sculptural considerations.

ART 311 WOOD: CONCEPT AND PROCESS (3) Lecture and directed studio problems in the fabrication and lamination of wood. Prerequisite: ART 241.

ART 312 CERAMICS: SPECIAL PROCESS (3) An exploration of a variety of techniques including lustres, low-fire glazes and underglazes, decals, Egyptian paste, mold making and slip casting. Prerequisite: ART 231 or written consent of instructor

ART 313 ENAMELING I (3) Directed studio problems in applying and firing vitreous enamels on metal. Basic techniques of stencil and inlay work are emphasized. Cloisonne, plique-à-jour champleve will be introduced. Prerequisites: ART 103, ART 104.

ART 317 GRAPÍJIC DESIGN I (3) Fundamentals of visual conceptualization, type and image integration, creative and innovative concept development. Not available to students who successfully completed ART 317 Design for Visual Communication, Prerequisites: ART 103 and

ART.318 JEWELRY (3) Investigation into aesthetics, history, function and design of jewelry. Lecture and directed studio problems in forming, joining and finishing of metallic and non-metallic materials. Prerequisites: ART 103 and ART 104 or consent of instructor.

ART 319 [519] METALSMITHING (3) Lecture, demonstration and directed studio problems in raising, forging, joining and finishing various metals

with emphasis on design and creation of hollowware and flatware. The historic and aesthetic aspects of the media are considered. Prerequisite: ART 318.

ART 320 FIBERS: STRUCTURES I (3) Non-loom fiher construction including twining, coiling, crochet, felting, basketry. Functional and sculptural forms, historical and aesthetic considerations. Prerequisite: ART 104 or consent of instructor.

ART 321 COMPUTER GRAPHICS 1 (3) Utilizing Macintosh systems, software, and utilities for art and visual communication. Prerequisites: ART 217 and ART 234.

ART 326 FIBERS: SURFACES I (3) Design problems executed with dye and ink on fabric using resist techniques, hand painting and printing. Prerequisite: ART 103 or consent of instructor.

ART 328 FIBERS: STRUCTURES II (3) Basics of hand weaving on the loom. Aesthetic and historical aspects of the media. Prerequisite: ART 103 or consent of instructor.

ART 329 PAINTING II (3) Continued studio experience utilizing a variety of techniques and media: still life, landscape and the figure. Prerequisite: ART 229.

ART 331 WATERCOLOR I (3) Fundamentals explored through lecture, demonstration and studio experience: still life, landscape and the figure. Prerequisite: ART 236 or consent of the instructor.

ART 334 [534] PHOTOGRAPHY II (3) The aesthetic of black-and-white photography using advanced photographic processes and electronic imaging techniques. Prerequisite: ART 234.

ART 335 [535] PHOTOGRAPHY III (3) The aesthetic of color photography through the use of advanced color photographic processes, alternative media processes, and electronic imaging techniques. Prerequisite: ART 234.

ART 336 PAINTING III (3) Continued development of skills and technical expertise. Emphasis on independent problems and personal direction. Prerequisite: ART 329.

ART 337 FIBERS: SURFACES II (3) Contemporary design and color studies in piecing, applique, quilting, and embroidery by hand and machine. Aesthetic, historical and cultural considerations. Prerequisite: ART 103 or consent of instructor.

ART 339 METAL: CONCEPT AND PROCESS (3) Lecture and directed studio problems in metal fabrication and lost wax casting. Prerequisite: ART 241.

ART 340 MODELING: CONCEPT AND PROCESS (3) Lecture and directed studio problems in clay modeling emphasizing the human figure and moldmaking. Prerequisite: ART 241.

ART 342 CARVING: CONCEPT AND PROCESS (3) Lecture and directed studio problems in stone, wood and other media. Prerequisite: ART 241.

ART 345 NEW DIRECTIONS IN PRINTMAKING (3) Utilizing technology to link printmaking to digital, photo, Xerox and hand-drawn images. Prerequisites: ART 217 or consent of instructor.

ART 346 NEW DIRECTIONS IN PAINTING, EXPERIMENTAL MEDIA AND ART I (3) Development of skills and technical expertise in 2-D, 3-D, 4-D computer based and time based. Emphasis on individual expression, uniqueness and personal direction. Prerequisite: ART 329.

ART 347 SCREEN PROCESS I (3) Multicolor projects include paper, stencil, drawing fluid, filler blockout, crayon resist, direct photo emulsion using water-based inks. Prerequisites: ART 103, ART 111 or consent of instructor.

ART 349 RELIEF PROCESS I (3) Traditional and experimental techniques in printmaking: woodcut, collagraph, subtractive relief process using oil and water-based materials. Prerequisites: ART 103, ART 111 or consent of instructor.

ART 350 ETCHING AND INTAGLIO PROCESSES (3) Etching, engraving, aquatint, lift ground, wood intaglio, and beginning color printing. Prerequisites: ART 103, ART 111 or consent of instructor.

ART 351 WRITING ABOUT ART (3) Expository writing about the visual arts, including critiques, articles, press releases and other formats. Emphasis on effective writing with aesthetic insight. Prerequisites: ENGL 102 or 190; ARTH 221 or 222 or consent of instructor. GenEd I.D.

ART 353 LITHOGRAPHIC PROCESS 1 (3) Personal expression through printing from litho stones and plates. Prerequisites: ART 103, ART 111 or consent of instructor.

ART 355 TYPOGRAPHY (3) Theory, concepts and aesthetics of type. Prerequisite: ART 317.

ART 357 PHOTOGRAPHIC FORMATS (3) Field experience in photographic imaging technology. Prerequisite: ART 334 or ART 335. May be repeated for up to 6 units.

ART 3.59 DIGITAL PHOTOGRAPHY I (3) Digital photographic image capture, manipulation and production. Prerequisites: ART 234, ART 217.

- ART 360 COMPUTER ART 1(3) Introductory experience in producing art images on the computer. Includes lectures, demonstrations, Internet, gallery visits and lab work. Prerequisites: ART 217 and ART 229.
- ART 361 COMPUTER 3-D MODELING (3) Ideas and technologies for developing 3-D models and images, Prerequisite: ART 217.
- ART 363 COMPUTER MULTIMEDIA I (3) Exploration of multimedia and authoring techniques as related to interactivity on the computer using still and animated image creation. Prerequisite: ART 321 or ART 360.
- ART 365 DESIGN FOR THE WWW (3) Authoring techniques as related to interactivity, information design and digital imaging. Prerequisite: ART 321.
- ART 366 CONCEPT MODEL MAKING (3) Making 3-D material models out of a range of materials using precision fabrication techniques to depict innovative design ideas for products. Prerequisite: ART 368 or consent of instructor.
- ART 367 THEORY AND APPLICATION OF MATERIALS AND PROCESSES FOR INDUSTRIAL DESIGN (3) Theory, analysis and application of how materials and processes are chosen for the design and fabrication of products. Prerequisite: ART 368 or consent of instructor.
- ART 368 INDUSTRIAL DESIGN 1 (3) Product and furniture design; idea development, design of computer models, construction of 3-D material models and presentation. Prerequisites: ART 104, ART 111, ART 241.
- ART 370 SPECIAL TOPICS IN ART (3) In-depth study of a selected area dependent upon faculty and student interest. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisites: 18 units of art courses.
- ART 372 ADVANCED DRAWING (3) Continued studio experience in drawing for advanced students. Emphasis on independent problems and personal direction, May be repeated for a maximum of 6 units. Prerequisites: ART 211 and ART 229.
- ART 373 ILLUSTRATION 1 (3) Use of black-and-white and color media to produce images that communicate to a mass audience. Prerequisites: ART 211 and ART 229 or consent of instructor.
- ART 377 EXHIBIT DESIGN (3) Theory, concepts, planning, graphics, spatial aesthetics and model construction for various professional exhibits. Management, design and installation of art exhibits. Not open to those who successfully completed ART 220. Prerequisites: ART 103 and ART 104.
- ART 400 [500] CERAMIC RAW MATERIALS (3) Lecture and laboratory investigation of ceramic materials as they apply to glazes, clay slips and clay bodies. Tests and problems in ceramic raw materials. Prerequisites: ART 309, ART 310 or equivalent.
- ART 402 LIFE DRAWING AND ANATOMY I (3) The study of anatomical structure of the human figure for art students. Drawing from the nude and draped model. Prerequisite: ART 211.
- ART 407 [508] CERAMICS: CLAY SCULPTURE (3) Studio experience utilizing a variety of ceramic techniques. Assigned problems in sculptural directions for students experienced in handbuilding and the potter's wheel. Prerequisite: ART 310 or consent of instructor.
- ART 409 CERAMICS: THE VESSEL (3) Studio experience utilizing a variety of ceramic techniques. Problems in utilization directions based on the vessel. Prerequisite: ART 310 or consent of instructor.
- ART 412 LIFE DRAWING AND ANATOMY II (3) Continued study of anatomical structure of the human figure for art students. Emphasis on musculature. Drawing from the nude and draped model. Prerequisite: ART 402.
- ART 413 [513] ENAMELING II (3) Continued studio experience in enameling. Emphasis on advanced techniques of cloisonne, plique-á-jour, independent work and personal experience are encouraged. Taught concurrently with ART 313. Prerequisite: ART 313.
- ART 414 [514] ADVANCED STUDIO (2-3) Independent work for advanced students in field of special interest. Prerequisites: must have exhausted other courses in particular field or written consent of instructor. Student must make arrangements in advance of registration with instructor of choice. May be repeated for a maximum of 6 units provided a different topic is covered.
- ART 415 [515] ADVANCED STUDIO (2-3) Independent work for advanced students in field of special interest. Prerequisites: must have exhausted other courses in particular field or written consent of instructor. Student must make arrangements in advance of registration with instructor of choice. May be repeated for a maximum of 6 units provided a different topic is covered.
- ART 416 [516] ADVANCED STUDIO (2-3) Independent work for advanced students in field of special interest. Prerequisites: must have

- exhausted other courses in particular field or written consent of instructor. Student must make arrangements in advance of registration with instructor of choice. May be repeated for a maximum of 6 units provided a different topic is covered.
- ART 417 GRAPHIC DESIGN II (3) Communication graphics synthesizing formal, conceptual and technical skills. Emphasis on creative concept development using type and image. Prerequisite: ART 317, Design for Visual Communication II or consent of instructor.
- ART 418 [518] JEWELRY II (3) Intermediate design and studio experience. Directed problems in the techniques of metal construction, forging, stone setting and cold joinery.
- ART 419 JEWELRY III (3) Advanced design and studio experience. Directed problems, including surface treatments, die forming and casting of metals. Emphasis on independent work and personal expression. Prerequisite: ART 418.
- ART 421 COMPUTER GRAPHICS II (3) Directed studio experience using a variety of digital art software programs. Emphasizing artistic vision, professional pieces and digital design.
- ART 431 [531] WATERCOLOR II (3) Intermediate studio experience: landscape, still life, figure and photographic imagery. Prerequisite: ART 331.
- ART 435 PHOTOGRAPHY IV (3) Advanced research into the aesthetic of photographic imaging through the use of black-and-white and color photo process, alternative media processes, and electronic imaging technology. Prerequisites: ART 334, ART 335. May be repeated for up to 9 units.
- ART 436 PAINTING IV (3) Continued studio experience for advanced students with emphasis on personal direction. May be repeated for up to 9 units. Prerequisite: ART 336.
- ART 438 METALSMITHING II (3) Continued studio experiences in silver and coppersmithing: raising and forging non-ferrous metals. Prerequisite: ART 319 or consent of instructor.
- ART 441 ADVANCED SCULPTURE I (3) Lecture and directed studio problems in advanced sculpture media and concepts. Prerequisite: any 300-level sculpture course.
- ART 443 ADVANCED SCULPTURE II (3) Continued lecture and directed studio problems in advanced sculptural media and concepts. Prerequisite: ART 441 or ART 414-16.
- ART 445 EXPERIMENTAL DIRECTIONS (3) Lecture and directed studio problems: recent sculptural trends, concepts and technologies, including installation, performance, environments, computers, etc. Prerequisite: ART 241 or consent of instructor.
- ART 446 NEW DIRECTIONS IN PAINTING, EXPERIMENTAL MEDIA AND ART II (3) Continued studio experience for advanced students with emphasis on personal direction. Prerequisite: ART 346.
- ART 447 [547] SCREEN PROCESS II (3) Advanced color projects using direct photo emulsion emphasizing integration of hand drawn images with photo and computer-generated images with non-toxic inks. Prerequisite: ART 347 or consent of instructor.
- ART 449 [549] RELIEF PROCESS II (3) Traditional and experimental processes. Advanced color assignments using oil and water-based inks. Prerequisite: ART 349 or consent of instructor.
- ART 450 [550] INTAGLIO PROCESS II (3) Multiple plate color and simultaneous color/intaglio/relief techniques and collagraph using experimental materials. Prerequisite: ART 350.
- ART 453 [553] LITHOGRAPHIC PROCESS II (3) Personal expression; advanced printing including stone-plate and photo plate. Multiple color printing. Prerequisite: ART 451 or consent of instructor.
- ART 457 GRAPHIC DESIGN III (3) Problems in graphic communication on the Macintosh, emphasizing individual portfolio development. Prerequisite: ART 417.
- ART 459 DIGITAL PHOTOGRAPHY II (3) Advanced digital photographic image capture, manipulation and production. Prerequisite: ART 359.
- ART 460 COMPUTER ART II (3) Intermediate experience in producing art images on the computer. Includes lectures, demonstrations, gallery visits and lab work. Prerequisite: ART 360.
- ART 462 COMPUTER ART III (3) Advanced experience in producing art images on the computer. Includes lectures, demonstrations, gallery visits and lab work. Prerequisite: ART 460.
- ART 463 COMPUTER MULTIMEDIA II (3) Authoring techniques as related to interactivity on the computer using still and animated image creation. Prerequisite: ART 363.
- ART 468 INDUSTRIAL DESIGN II (3) Product solutions and idea development related to operation and manufacturing, including human factors and ergonomics analysis. Prerequisite: ART 368.
- ART 469 INDUSTRIAL DÉSIGN III (3) Advanced issues in product design, including experimentation—in group projects and individual designs. Prerequisites: ART 366, ART 367, ART 468.

- ART 473 [573] ILLUSTRATION II (3) Continued studio experience in illustration, developing personal approaches in various media. Emphasis on practicing professional assignments and portfolio preparation. Prerequisite: ART 373 or equivalent.
- ART 474 ILLUSTRATION III (3) Advanced studio experience utilizing a variety of contemporary and experimental media, emphasizing creative exploration and building a professional portfolio. Prerequisites: ART 373 and ART 473,
- ART 483 PACKAGE DESIGN (3) Designing packages with understanding of marketing, social, ethical and environmental impact. Prerequisites: ART 317, ART 321, and ART 360.
- ART 490 INTERNSHIP IN ART (2-3) A non-paid work experience with cooperating businesses and organizations. A daily log and 100 units of participation are required. Prerequisite: consent of instructor.
- ART 491 INTERNSHIP IN ART (2-3) A non-paid work experience with cooperating businesses and organizations. A daily log and 100 units of participation are required. Prerequisite: consent of instructor.
- ART 492 INTERNSHIP IN ART (2-3) A non-paid work experience with cooperating businesses and organizations. A daily log and 100 units of participation are required. Prerequisite: consent of instructor.
- ART 494 [594] TRAVEL AND STÜDY ABROAD (3-6) Countries and topics to be selected by the department and instructors sponsoring the program. For information, contact the Department of Art early in the term preceding the term of travel study. Prerequisites: consent of instructor and interview. May be repeated for up to six units,
- ART 497 SENIOR PROJECT (3) Directed studio. Critiques culminating in a presentation/portfolio. Prerequisite: consent of instructor.
- ART 499 SENIOR HONORS THÉSIS (4) Honors in studio art. An exhibition of work resulting from Independent Study and Honors studio courses, accompanied by a supporting paper defining the philosophy and purpose of the project, under the direction of a thesis adviser. Prerequisite: approval of adviser and admittance to department honors program.

Graduate Division

See TU Graduate Catalog for course descriptions.

ART EDUCATION (ARED)

Upper Division

- ARED 371 ART AND THE CHILD (3) Major considerations of art education appropriate to the work of the elementary teacher; experiences with art materials.
- ARED 373 ART FOR EARLY CHILDHOOD EDUCATION (2) Lectures, demonstrations and workshops based on special needs as students experience art in nursery schools, day care centers, kindergartens and the primary grades. Prerequisites: concurrent registration for Block I, ECED 341.
- ARED 381 MEDIA AND TECHNIQUES FOR ART TEACHERS: ELE-MENTARY (3) Introduction to art education. Exploration of media and processes; planning and instructional strategies. Taken concurrently with ARED 383.
- ARED 383 MEDIA AND TECHNIQUES FOR ART TEACHERS: SEC-ONDARY (3) Introduction to studio activities, planning and instructional strategies. Taken concurrently with ARED 381.
- ARED 463 [563] AUTHOR-ILLUSTRATOR: INTEGRATION OF VISU-AL AND LANGUAGE ARTS AT THE ELEMENTARY LEVEL (3) Children's fiction is examined as illustration and text to develop strategies for enhancing reading and writing skills applicable within art education programs at the elementary level. Prerequisite: minimum 2.75 overall GPA and a 3.00 GPA in major; consent of Art Education Program adviser.
- ARED 464 [564] AUTHOR-ILLUSTRATOR: INTEGRATION OF VISUAL AND LANGUAGE ARTS AT THE SECONDARY LEVEL (3) Children's non-fiction is examined as illustration and text to develop strategies for enhancing reading and writing skills in art education programs at the middle and high school levels, Prerequisite; consent of instructor
- ARED 465 ADVANCED ART EDUCATION (3) Art education problems at all levels; materials and skills in relation to classroom needs. Prerequisite: ARED 371 or equivalent.
- ARED 467 FIELD EXPERIENCES IN ART EDUCATION: ELEMENTARY (2) Analysis of instruction in selected elementary teaching situations; preparation and teaching of units in elementary schools. Taken concurrently with ARFD 468, ARFD 475 and ARFD 479.
- ARED 468 FIELD EXPERIENCES IN ART EDUCATION: SECONDARY
 (2) Analysis of instruction in selected secondary teaching situations; preparation and teaching of units in secondary schools. Taken concurrently with ARED 467, ARI D 475 and ARED 479.

- ARED 475 METHODS OF TEACHING ART: ELEMENTARY (3) Theoretical and practical aspects of teaching art: selection, design and implementation. Taken concurrently with ARED 467, ARED 468 and ARED 479.
- ARED 479 METHODS OF TEACHING ART: SECONDARY (3) Theoretical, practical, philosophical and historical aspects of art education: content and methods of planning and instruction. Taken concurrently with ARED 467, ARED 468, and ARED 475.
- ARED 481 STUDENT TEACHING IN ELEMENTARY EDUCATIONART (6) Practical experiences in observation, participation and student teaching in a public elementary school under the guidance of a cooperating teacher and a university supervisor. Prerequisites: all art foundation requirements, all ARED courses, PSYC 101, PSYC 201 and SCED 319 (or SCED 341). Taken concurrently with ARED 483 and ARED 485. Graded S/U.
- ARED 483 STUDENT TEACHING IN SECONDARY EDUCATION—ART (6) Practical experiences in observation, participation and student teaching in public secondary school under the guidance of a cooperating teacher and a university supervisor. Prerequisites: all art foundation requirements, all ARED courses, PSYC 101, PSYC 201 and SCED 319 (or SCED 341). Graded S/U.
- ARED 485 PRO-SEMINAR IN THE TEACHING OF ART (3) A professional seminar for Art Education majors. Discussion of problems in the current teaching experience. Prerequisite: permission of art education faculty. Taken concurrently with student teaching.

ART HISTORY (ARTH)

Lower Division

- ARTH 105 ART IN THE CULTURE (3) Forms of art in relation to world culture. GenEd II.D.
- ARTH 107 ART: THEMES, DREAMS AND VISIONS (3) Artists' ideas, subjects and motifs across time and place. GenEd ILD.
- ARTH 108 INTRODUCTION TO NON-WESTERN ART (3) Non-Western arts of the Americas, Africa, Oceania, Islam, India, China, Japan. GenEd Il.D.
- ARTH 109 ART AND THE HUMAN BODY (3) Depictions of the human body in western art. GenEd II.C.1.
- ARTH 113 MYTHS AND STORIES IN AMERICAN ART (3) Myths, stories, folk tales and narratives depicted through American art. GenEd II.B.1.
- ARTH 207 HONORS: SEMINAR IN ART HISTORY (3) Specific historical period/movement or artist with presentations, critiques, directed readings and research paper. GenEd II.C.1. May be repeated for a maximum of 6 units.
- ARTH 208 HONORS: SEMINAR IN NON-WESTERN ART HISTORY
 (3) Specific historical, period/movement or artist within the non-Western tradition with presentations, critiques, directed readings and research paper. GenEd II.D. May be repeated for a maximum of 6 units.
- ARTH 221 SURVEY OF WESTERN ART 1 (3) Prehistoric to Medieval art. GenEd II.C.1.
- ARTH 222 SURVEY OF WESTERN ART II (3) Renaissance to Modern art. Prerequisite: ARTH 221. GenEd II.C.1.

Upper Division

- ARTH 301 ORIGINS OF WESTERN ART (3) Historical survey concentrating in Paleolithic, Egyptian, Mesopotamian, and Aegean art and architecture. Prerequisite: ARTH 221.
- ARTH 306 ART AND ARCHITECTURE OF THE CLASSICAL WORLD
 (3) History of the art and architecture of Ancient Greece and the Roman
 Empire. Not open to those students who successfully completed ARTH
 303 and/or ARTH 305, Prerequisite: ARTH 221.
- ARTH 307 MEDIEVAL ART (3) History of the art and architecture of the Romanesque and Gothic periods. Prerequisite: ARTH 221.
- ARTH 309 ITALIAN RENAISSANCE ART AND ARCHITECTURE (3)
 History of the architecture, painting and sculpture of the Italian
 Renaissance. Prerequisite: ARTH 222.
- ARTH 311 NORTHERN RENAISSANCE ART AND ARCHITECTURE
 (3) History of the architecture, painting and sculpture of France,
 Germany and Flanders. Prerequisite: ARTH 222.
- ARTH 313 BAROQUE ART AND ARCHITECTURE (3) History of the art and architecture of the 17th century in Italy, France, Spain, Holland and Flanders. Prerequisite: ARTH 222.
- ARTH 323 MODERN ART I (3) History of the painting and sculpture of Europe from the Rococo to Post-Impressionism. ARTH 222.
- ARTH 324 MODERN ART II (3) History of 20th-century art concentrating on painting and sculpture from Europe and the United States. Prerequisite: ARTH 222.

- ARTH 325 HISTORY OF MODERN ARCHITECTURE (3) History of European and American architecture of the 20th century. Prerequisites: ARTH 221 and ARTH 222.
- ARTH 327 HISTORY OF MODERN DESIGN (3) Twentieth century graphic, furniture, industrial, product, textile and domestic design. Prerequisites: ARTH 221 and ARTH 222.
- ARTH 328 ART, CULTURE AND POLITICS (3) An examination of modern culture. Prerequisite: ARTH 222.
- ARTH 330 EAST ASIAN ART AND ARCHITECTURE (3) A cross-cultural analysis of Chinese, Japanese and Korean art and architecture. Prerequisites: ART 108 or consent of instructor.
- ARTH 331 THE ART OF CHINA (3) History of the painting, sculpture, craft and architecture of China and peripheral regions. Prerequisites: ARTH 105, ARTH 108, ARTH 221, or ARTH 222 or consent of instructor.
- ARTH 333 THE ART OF JAPAN (3) History of the painting, sculpture and architecture of Japan. Prerequisites: ARTH 105, ARTH 108, ARTH 221, or ARTH 222 or consent of the instructor.
- ARTH 335 AFRICAN-AMERICAN ART (3) African-American art and artists in the context of American art. Prerequisites: ARTH 105, ARTH 222 or consent of instructor.
- ARTH 337 ART AND ARCHITECTURE OF THE UNITED STATES I: COLONIAL TO 1900 (3) History of American architecture, art and crafts from the colonial period to 1900. Prerequisites: ARTH 105, ARTH 222 or consent of instructor.
- ARTH 338 ART AND ARCHITECTURE OF THE U.S. II: 1900 TO PRE-SENT (3) History of the architecture, art and crafts of the United States from 1900 to the present. Prerequisites: ARTH 105, ARTH 222 or consent of instructor.
- ARTH 339 LATIN AMERICAN ART: 1800 TO PRESENT (3) History of Latin American art, architecture and craft, from 1800 to present. Prerequisite: ARTH 222 or consent of instructor.
- ARTH 341 WOMEN IN ART (3) Images of women and images made by women in Western and non-Western cultures from prehistoric to the present. Prerequisites: ARTH 105 or ARTH 222 or consent of instructor.
- ARTH 351 HISTORY OF PHOTOGRAPHY (3) World photography from the early 19th century to the present. Prerequisite: ARTH 105 or ARTH 222.
- ARTH 370-379 SPECIAL TOPICS IN ART HISTORY (3) In-depth study of a selected period, theme or artist. May be repeated for a maximum of 6 units when different topics are covered. Prerequisites: ARTH 221 and ARTH 222 or consent of instructor.
- ARTH 391 RESEARCH METHODS IN ART HISTORY (3) Bibliographic research and procedures. History of scholars and writing in the field. Prerequisites: ARTH 221, ARTH 222 and two upper-division art history courses.
- ARTH 485 [585] SEMINAR IN ART HISTORY (3) Intensive analysis of a single artist, a defined historical period, or a stylistic development in art. Directed reading, discussions and museum tours. Variable content. May be repeated under a different topic for a maximum of 9 units, including attempts of ARTH 485. Prerequisites: ARTH 222 and one upper-division art history or consent of instructor.
- ARTH 494 STUDY ABROAD (3-9) Travel and study abroad. Various topics in the history of art.
- ARTH 495/96/97 INDEPENDENT STUDY IN ART HISTORY (3,3,3)
 Advanced research and examination of a topic in art history.
 Prerequisites: ARTH 221, ARTH 222 and at least one 300-level art history.
- ARTH 498 INTERNSHIP IN ART HISTORY (3) A non-paid work experience in cooperating arts organizations, institutions, and businesses. 100 units and a written assignment related to the internship. May be repeated for a maximum of 9 units. Prerequisites: consent of instructor and interview.
- ARTH 499 SENIOR HONORS THESIS (4) Thesis under the direction of an adviser. Prerequisite: admission to the Department of Art honors program.

ASTRONOMY (ASTR)

Lower Division

ASTR 161 GENERAL ASTRONOMY I (4) Science of astronomy; investigations and theories concerning the solar system, galaxies and the universe. Three lecture units and one two-hour laboratory period. High school algebra suggested. GenEd II.A.I.

Upper Division

ASTR 301 COSMIC ORIGINS (3) Origin and evolution of the universe, stars and planets; the rise of life on Earth; social, technological and eth-

- ical issues raised by the scientific search for extraterrestrial life and its possible discovery on other worlds. Prerequisite: one course in GenEd II.1. GenEd II.A.2.
- ASTR 302 HONORS COSMIC ORIGINS (3) Origin and evolution of the universe, stars and planets; the rise of life on earth; social, technological and ethical issues raised by the scientific search for extraterrestrial life and its possible discovery on other worlds. Prerequisite: one course in GenEd II.A.1 and admission to the honors program. GenEd II.A.2.
- ASTR 303 ASTROPHYSICAL TECHNIQUES (3) Observational astronomy using the department's telescope and NASA archival data, emphasizing equipment operating principles, scientific methods, signal statistics, data reduction. Includes imaging and photometry with coupled charge devices in addition to spectroscopy, space observations, radio astronomy. Prerequisites: ASTR 331, PHYS 341.
- ASTR 331 INTRODUCTION TO ASTROPHYSICS (3) Applications of physics in astronomy, spectroscopy, stellar interiors and evolution, the interstellar medium, cosmology. Prerequisite: ASTR 161; PHYS 212 or PHYS 242 may be taken concurrently.
- ASTR 361 ASTRONOMY II (3) Stars, stellar systems, galaxies and cosmology. Emphasizing determination of the distance scale and modern trends in astronomy. Prerequisite: ASTR 161 or acceptable substitute.
- ASTR 423 PARTICLE ASTRÓPHYSICS (3) Atomic, nuclear, and particle physics; presenting elements of star and galaxy formation and cosmology. Prerequisites: ASTR 161, PHYS 307, PHYS 311; ASTR 361 recommended.
- ASTR 470-479 SELECTED TOPICS IN CONTEMPORARY ASTRO-PHYSICS (3) Variable content including the origin of the elements and radio, microwave, and UV instruments and sources. Prerequisite: ASTR 331.
- ASTR 495 CAPSTONE PROJECT IN ASTROPHYSICS (3) Individual project in observational or theoretical astrophysics. Prerequisite: senior standing in Astrophysics Track or consent of instructor.

AUDIOLOGY AND SPEECH-LANGUAGE PATHOLOGY (SPPA)

Lower Division

- SPPA 101 INTRODUCTION TO HUMAN COMMUNICATIONS AND ITS VARIATIONS (3) Introduction to variations in speech, language and hearing processes. Students will learn the scope of chincal practice and related professions within the field.
- SPPA 200 ANATOMY AND PHYSIOLOGY OF THE AUDITORY AND VOCAL MECHANISM (3) Anatomical structures involved in the communication processes of speech, language and hearing. Analysis of the functioning of these structures. Lectures and laboratory sessions will be required. Prerequisite: SPPA 105 and/or consent of department.
- SPPA 205 BASIC SIGN LANGUAGE (3) Introduction to sign language with emphasis on basic vocabulary acquisition and awareness of hearing impairment. Focus on skill development in signed English, maintaining grammatical and conceptual accuracy. Participation and demonstration required. GenEd II.B.3.
- SPPA 207 HONORS BASIC SIGN LANGUAGE (3) Introduction to sign language with emphasis on basic vocabulary acquisition and awareness of hearing impairment. Focus on skill development in signed English, maintaining grammatical and conceptual accuracy. Participation and demonstration required. Prerequisite: admission to the Honors College. GenEd. II.B.3.
- SPPA 210 PHONETICS OF AMERICAN ENGLISH (3) Analysis of speech sounds of American English and the use of phonetic symbols to record them. Emphasizes ear training, phonetic transcription and language recordings. Prerequisites: consent of the department.
- SPPA 215 LANGUAGE DEVELOPMENT IN CHILDREN (3) Analysis of normal speech and language development, including the phonetic, semantic, and syntactic elements. Physiology of speech and language learning. Not open to students who successfully completed SPPA 105. Prerequisites: SPPA 101, major status, and/or consent of the department.

Upper Division

SPPA 302 SPEECH AND LANGUAGE PATHOLOGY I: PHONOLOGY (3) Theories of phonological development and clinical appreciation of current linguistic analysis techniques in description of articulation and other phonological disorders. Standardized testing procedures and treatment program development. Prerequisites: SPPA 313, major status, and/or consent of department. SPPA 303 HEARING SCIENCE (3) Introduction to study of acoustics and psychoacoustics. Utilization of models and instrumentation.

Prerequisite: SPPA 105 and/or consent of department.

SPPA 304 SPEECH AND LANGUAGE PATHOLOGY II: LANGUAGE (3) Interaction of normal language development and language disorders including psycholinguistics, semantic development, information processing and auditory memory. Prerequisites: SPPA 313, major status, and/or consent of department.

SPPA 306 SPEECH AND LANGUAGE PATHOLOGY III: ORGANIC DISORDERS (3) Etiology, differential diagnosis and therapeutic management in the area of organic and functional voice problems, cleft lip and palate, adult aphasia, cerebral palsy and mental retardation. Prerequisites: SPPA 302, SPPA 304 and/or consent of department.

SPPA 313 LANGUAGE AND SPEECH SCIENCE (3) Biological, linguistic and acoustic aspects of language and speech processes. Strategies for scientific study of language and speech including age, gender and cultural variables. Prerequisites: SPPA 210, 303, and/or consent of instructor.

SPPA 321 INTRODUCTION TO AUDIOLOGY (3) Anatomy, physiology and pathologies of the hearing mechanism. Instrumentation and techniques for the identification and management of hearing disorders inclusive of pure-tone and speech audiometrics and screening methods. Prerequisites: SPPA 303, major status and/or consent of department.

SPPA 325 [525] INTRODUCTION TO AURAL REHABILITATION (3) Information on options available for managing children and adults who are deaf or hard of hearing. Early intervention, communication strategies, amplification options and psychosocial issues. Prerequisite: SPPA 321 and/or consent of department.

SPPA 341 CLINICAL AUDIOLOGY (3) Basic audiometry; audiogram interpretation; basic principles of audiologic habilitation, including school hearing conservation. Prerequisite: SPPA 321 and/or consent of

SPPA 416 CLINICAL OBSERVATIONS AND TECHNIQUES (3) Methods and materials in clinical practice. Planning and implementation of treatment protocols. 25 units of supervised observation in a variety of clinical settings. Prerequisites: SPPA 302, 304, 321 and/or consent of department.

SPPA 417 TECHNICAL WRITING IN THE CLINICAL PROCESS (3) Develops writing skills in disciplines of speech-language pathology and audiology. Prerequisites: ENGL 102 or ENGL 190; SPPA 416 and/or consent of department. May be taken concurrently with SPPA 487. Gen Ed 1.D.

SPPA 470-479 SPECIAL TOPICS SEMINAR IN SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY (3) Investigation of particular topics in the fields of speech and language pathology and audiology. The topic will vary each term the course is offered. May be repeated for credit provided a different topic is covered. Prerequisite: varies with topic.

SPPA 487 CLINICAL INTERNSHIP (3) Clinical practice in therapeutic procedures with various types of speech, language and/or hearing disorders in the Towson University Speech/Language/Hearing Clinic. Students must attend weekly class. Prerequisites: Mimmum 3.50 GPA in prerequisite major courses, 25 documented units of observation, SPPA 416, completed communication screening, or consent of department. May be taken concurrently with SPPA 41

SPPA 496 INDEPENDENT STUDY IN SPEECH-LANGUAGE PATHOL-OGY AND AUDIOLOGY (1-4) Independent study in selected areas of speech-language pathology and audiology. May be repeated for a maximum of 6 units. Prerequisites: junior/senior status, faculty/mentor

agreement and/or consent of department.

SPPA 497 DIRECTED READINGS IN SPEECH-LANGUAGE PATHOL-OGY AND AUDIOLOGY (1-4) Directed readings in selected areas of speech pathology and audiology. May be repeated for a maximum of 6 units. Pre requisites: jumor/senior status, faculty/mentor agreement and/or consent of department.

SPPA 498 PROCTORING IN SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY (3) Students serve as teaching apprentices or proctors in a course which they have already completed in the department. May be repeated for a maximum of 6 units. Prerequisites: Grade equivalent of 3.00 GPA or higher in course for which students will proctor and/or consent of the department.

Graduate Division

See 1U Graduate Catalog for course descriptions.

BIOLOGY (BIOL)

The following courses may involve the use of vertebrate animals in class demonstrations or experiments. Such use is considered a requirement for successful completion of the courses. Students should consult instructors if they have questions or concerns about animal use in a particular course.

Lower Division

BIOL 100 HUMANISTIC BOTANY (3) Selected botanical topics of interest to the non-science major. Topics will include poisonous plants, medicinal plants, plant hallucinogens, tree-ring dating, botanical genetics, bonsai and commercial uses of major plant groups. Not for Biology major/minor credit. No credit will be given to those who successfully completed BIOL 205.

BIOL 103 HUMAN BIOLOGY (3) Basic principles of human body processes in normal and certain abnormal conditions for non-science majors. The emphasis will be on physiology with sufficient anatomy for its understanding. Not for Biology major/minor credit. Not open to those who successfully completed BIOL 213, BIOL 214 or BIOL 325.

BIOL 105 ENVIRONMENTAL BIOLOGY (3) Introduction of the relationships between humans and the environment. Fundamentals of ecology, hydrology, demography, energy and nutrient cycling will be covered, as well as the human impact on the use and management of the Earth's land, water and air resources. An emphasis is placed on five key themes: Human Population; Sustainability; Global Perspective; Urban World; and Values and Knowledge. Not for Biology major/minor cred-

BIOL 110 CONTEMPORARY GENERAL BIOLOGY (4) Biological principles common to plants and animals. Topics include cell structure and process (both physical and biochemical), mitosis, gametogenesis, aspects of embryology, genetics, evolution and ecology. Average of two laboratory units per week. Not for Biology major/minor credit. Not open to those who successfully completed BIOL 201. GenEd II.A.1.

BIOL 112 HONORS CONTEMPORARY GENERAL BIOLOGY (4) Biological principles common to plants and animals. Topics include cell structure and process (both physical and biochemical), mitosis, gametogenesis, aspects of embryology, genetics, evolution and ecology. Average of two laboratory units per week. Not for Biology major/minor credit. Not open to those who successfully completed BIOL 201. Special permit by Honors College Committee only. This course will be equated with BIOL 110 for use as a prerequisite. GenEd II.A.1.

BIOL 115 BIOLOGICAL SCIENCE I (4) Integrates concepts of modern molecular genetics, evolution and natural selection. Not for Biology

major/minor credit. GenEd II.A.1.

BIOL 116 BIOLOGICAL SCIENCE II (4) Integrates concepts of biology and chemistry of cellular metabolism and ecology. Environmental implications of human activities. Not for Biology major/minor credit. Prerequisite: BIOL 115 or consent of instructor.

BIOL 201 BIOLOGY I: CELLULAR BIOLOGY AND GENETICS (4) An introduction to biology, including biologically important molecules, cell and tissue structure, respiration, photosynthesis, mitosis, meiosis and

genetics. Average of three laboratory units per week.

BIOL 202 BIOLOGY II: INTRODUCTION TO ECOLOGY, EVOLU-TION AND BEHAVIOR (4) Population dynamics, community patterns and processes, natural selection, population genetics and behavioral ecology; emphasis on developing testable hypotheses and quantitative analyses of biological data. Prerequisite: BIOL 110 or BIOL 112 or BIOL 201 or high school General Biology, GenEd II.A.1.

BIOL 203 HONORS BIOLOGY I: CELLULAR BIOLOGY AND GENETICS (4) An introduction to biology, including biologically important molecules, cell and tissue structure, respiration, photosynthesis, mitosis, meiosis and genetics. Average of 3 laboratory units per week. Major credit not given for both BIOL 201 and BIOL 110. Honors College course, special permit required. Prerequisites: CHEM 110 (may be taken concurrently) or one year high school chemistry. GenEd II.A.1.

BIOI. 205 GENERAL BOTANY (4) Plant structure, development, reproduction, and diversity of life forms by interrelating hormones, physiological processes and environmental relationships with respect to the whole plant, Emphasis on flowering plants. Average of three laboratory or discussion units per week. Prerequisite: BIOL 201 or BIOL 110.

BIOL 207 GENERAL ZOOLOGY (4) Major animal phyla. A comparative approach to the structure, function, development and ecology of the animal kingdom. Average of three laboratory units per week.

Prerequisite: BIOL 202 or BIOL 110.

BIOL 208 BIODIVERSITY (3) Phylogenetics and the evolution of major groups of organisms; brief survey of representatives of the five kingdoms; development and the evolution of form; case studies on form and function; the biodiversity crisis. Three lecture units a week. Prerequisites: BIOL 201 and BIOL 202.

- BIOL 211 ANATOMY AND PHYSIOLOGY I: KINESIOLOGY MAJORS (4) Structure and function of the human body for needs/interests of students majoring in Athletic Training, Exercise Science, or Secondary Physical Education. Includes levels of body organization, the integumentary system, skeletal system and muscular system. Three laboratory units per week. May not be applied toward Biology major. Not open to those students who have successfully completed BIOL 213. Prerequisites: BIOL 110 or BIOL 201.
- BIOL 212 ANATOMY AND PHYSIOLOGY II: KINESIOLOGY MAJORS (4) Structure and function of the human body in Athletic Training, Exercise Science or Secondary Physical Education. Includes vital bodily fluids, the circulatory system, respiratory system, excretory system, endocrine system, digestive system, and reproductive system. Three laboratory units per week. May not be applied toward Biology major. Not open to those who have successfully completed BIOI. 214. Prerequisites: BIOL 211 or BIOL 213.

BIOL 213 HUMAN ANATOMY AND PHYSIOLOGY I (4) Cell biology, histology, skeletal, muscular and nervous systems. Average of three laboratory units per week. To receive Biology major credit, BIOL 214 must also be completed. Prerequisite: BIOL 201 or BIOL 110.

BIOL 214 HUMAN ANATOMY AND PHYSIOLOGY II (4) Cardiovascular, respiratory, digestive, excretory, endocrine and reproductive systems. Average of three laboratory units per week. To receive Biology major credit, BIOL 213 must also be completed. Students who successfully completed BIOL 325 may not take this course without departmental approval. Prerequisite: BIOL 213.

BIOL 215 FOUNDATIONS OF MICROBIOLOGY (4) Pathogenesis of bacteria and viruses, their interactions with the human body, and methods of treatment and prevention. Three units of laboratory per week. Recommended for Health Science majors. Not for Biology major credit. Prerequisite: BIOL 110.

Upper Division

BIOL 301 FIELD NATURAL SCIENCE (4) Physical and biological components of various environments and their interrelationships with each other and man. Emphasis on field observation. Average of three laboratory units per week. Not for credit toward Biology major, minor or M.S. degree in biology. Not open to students who have successfully completed ENVS 471. Prerequisite: BIOL 110 or BIOL 201.

BIOL 302 [512] INSTRUMENTAL METHODS FOR BIOLOGISTS Principles of electronics, data management, analytical techniques, radioisotope applications and physiological monitoring methods. Average of four laboratory units per week. Prerequisites: BIOL 205 or BIOL 207; PHYS 203 or PHYS 212 or PHYS 242; CHEM 111 and CHEM 210 or CHEM 211 or consent of instructor.

BIOL 303 [509] LIFE SCIENCES (3) Living organisms in the environment, emphasizing modes of scientific inquiry and the utilization of living organisms in the classroom. Prerequisite: BIOL 110. Not for credit toward Biology major, minor, or M.S. degree in Biology.

BIOL 304 LIFE SCIENCE EDUCATION IN THE INFORMAL OR OUTDOOR SETTING (3) Background and training to effectively teach science lessons to school-age children in a variety of informal settings. Not for Biology major credit. Prerequisites: 14 science units.

BIOL 305 [505] ELECTRON MICROSCOPY (4) Theory, preparation, and application of the electron microscope, including light microscopy. Average of three laboratory units per week. Prerequisites: 12 units of Biology, PHYS 211, PHYS 212 recommended, and consent of instructor.

BIOL 306 HUMAN ECOLOGY AND SUSTAINABILITY (3) Relationships and sustainability of human society and natural ecosystems. Relevant scientific, socioeconomic and ethical issues will be examined in such current events as climate change, energy policy and urban planning. Cannot be taken for Biology major credit. Prerequisite: BIOL 105 or BIOL 110 or BIOL 112 or BIOL 202 or CHEM 104. GenEd II.A.2.

BIOL 307 [507] INTRODUCTION TO PALEONTOLOGY (4) Examination of major forms of life with the emphasis on appearances, diversification and extinctions during the different geologic periods. Prerequisites: minimum 10 units in biology.

BIOL 309 PRINCIPLES OF GENETICS (4) Problem-based genetics: Mendelian genetics, genetic linkage and mapping, nucleic acid structure, replication and function, protein synthesis and the genetic code, gene expression and regulation, mutation, repair and recombination, recombinant DNA technology, and population genetics. Prerequisites: BIOL 201 and BIOL 202.

BIOL 310 [510] CONSERVATION BIOLOGY (4) Conservation practices and problems. Soil, water, forest and wildlife resources with emphasis on interrelationships. Specialists in various phases of local, state, and federal conservation work conduct or assist in numerous field trips.

Average of three laboratory units per week. Prerequisites: BIOL 110 or BIOI 201 and 10 units of biology, or a combination of 10 units from biology, geography and physical sciences.

BIOL 313 BIOLOGY OF AGING (3) Age-related changes in the human body at the cellular through organ system levels, emphasizing changes in structure and function that alter the ability to maintain homeostasis or a high quality life. Not for credit toward Biology major, minor, or M.S. program. Prerequisite: BIOL 103 or BIOL 213/214.

BIOL 315 [515] MEDICAL MICROBIOLOGY (4) Pathogenesis of bacterial, viral, rickettsial and fungal diseases with emphasis on medically important bacteria and microbiological techniques. Recommended for students pursuing a career in medical sciences. Prerequisites: BIOL 110 or BIOL 201; CHEM 111 or CHEM 106 (may be taken concurrently). Either this course or BIOL 318, but not both, may count toward Biology major or M.S. degree in Biology.

BIOL 317 [517] MICROTECHNIQUE (4) Techniques used in preparation of plant and animal tissues for histological examination. Average of three laboratory units per week. Prerequisite: BIOI 110 or BIOL 111. (CHEM 111 may be taken concurrently.)

- BIOL 318 [518] MICROBIOLOGY (4) Biology of microorganisms with emphasis on bacteria. Microbial morphology, physiology and genetics, and the role of microorganisms in natural processes and disease. Laboratory includes methods of observing, isolating and identifying bacteria. Average of three laboratory units per week. Either this course or BIOL 315, but not both, may count toward Biology major or M.S. degree in Biology. Prerequisite: CHEM 330 or CHEM 331 (may be taken concurrently).
- BIOL 321 BIOLOGY OF WOMEN (3) Anatomy and physiology, evolution of reproduction, health-related issues, gestation, lactation, and child care; the role of women in the work force and sciences, including health issues; contribution of women to global initiatives, including ecofeminism. Not for credit toward Biology major, minor or M.S. program. Prerequisite: one course fulfilling GenEd II.A.1, GenEd II.A.2.
- BIOL 322 BIOTECHNOLOGY AND SOCIETY (3) Use of biotechnology in medicine, agriculture and ecology; applications, ethics and future implications. Not for credit toward Biology major, minor or M.S. degree in Biology. Prerequisite: BIOL 110 or BIOL 112 or BIOL 201. GenEd II.A.2.
- BIOL 323 GENES, EVOLUTION AND MORALITY (3) Biological basis of morality and how those principles can be applied for a better understanding of historical events, current issues facing society, and future perspectives. Not for credit toward Biology major, minor or M.S. degree in Biology. Prerequisite: BIOL 110. GenEd II.A.2.
- BIOL 325 ANIMAL PHYSIOLOGY (4) Animal structure and function from the molecular to organismic levels. Emphasis on comparative strategies and adaptations of various animal groups in their respective environments; response of integrated systems to changes in the physical and chemical environment; environmental physiology. Will not count toward Biology major credit for those who successfully completed BIOL 213-214. Prerequisites: BIOL 207, CHEM 111.
- BIOL 327 DANGEROUS DISEASES (3) Microorganisms and their roles in diseases. Human impact on the environment relating to emerging disease; biotechnological techniques; ethical issues. Not for credit toward Biology major, minor or M.S. in Biology. Prerequisite: BIOL 110 or BIOL 201. GenEd II.A.2.
- BIOL 331 [531] PLANT MORPHOLOGY (4) A survey of the plant kingdom with emphasis on evolutionary relationships, morphology, and life histories as affected by environmental conditions. A Saturday field trip may be required. Average of three laboratory units per week. Prerequisite: BIOL 205.
- BIOL 333 HUMANS, SCIENCE AND THE CHESAPEAKE BAY (3) Conflicts between human use of the Chesapeake Bay watershed, Bay water quality and effects on Bay natural resources. Emphasis on understanding the dynamics of this ecosystem and the role science plays in political decisions affecting the Bay. Not for Biology major or minor credit. Prerequisite: BIOL 105 or BIOL 110 or BIOL 201 or BIOL 202. GenEd II.A.2.
- BIOL 335 ECONOMIC BOTANY (3) Plants and plant products which provide man with various luxuries and necessities. Emphasis will be on higher plants commercially important in North America. Prerequisite: BIOL 205.
- BIOL 341 [543] FRESH WATER ALGAE (4) Systematics, structure, ecology, physiology and life histories of fresh water algae. Laboratory will include methods of collection, culture and experimental study of selected species. Prerequisites: BIOL 205; BIOL 331 recommended.
- BIOL 345 [545] MYCOLOGY (4) Morphology, classification, life histories and economic applications of fungi. Average of three laboratory units per week. Prerequisite: BIOL 205.

BIOL 347 MARINE BIOLOGY (3) Major features of the marine environment, emphasizing biological aspects and specific adaptations of marine organisms. Prerequisites: BIOL 205, BIOL 207.

BIOL 349 [549] MARINE BOTANY (4) The ecology, physiology and identification of marine plants, emphasizing the Chesapeake Bay and coastal areas of Maryland. Prerequisites: BIOL 347; BIOL 331 strongly

recommended.

BIOL 351 [551] FIELD AND SYSTEMATIC VERTEBRATE ZOOLOGY (4) Evolution, distribution and definitive features of each class are studied comparatively. Extensive field and laboratory work deals with morphological, taxonomic, ecological and behavioral features of selected vertebrate groups and species. Average of three laboratory units per week. Prerequisite: BIOL 207.

BIOL 353 [553] INVERTEBRATE ZOOLOGY (4) Aquatic and terrestrial species of phyla from the Protozoa through the Echinodermata with special emphasis on local forms. Economic, ecological and taxonomic considerations. Average of three laboratory units per week.

Prerequisite: BIOL 207.

- BIOL 355 ANIMAL PARASITOLOGY (4) Major groups of animal parasites and their vectors. Emphasis will be placed on the more important human parasites. Prerequisite: BIOL 207 or BIOL 214 or BIOL 311.
- BIOL 360 [560] HISTOLOGY (4) Tissues of the vertebrate body. Prerequisite: BIOL 311 or BIOL 214.
- BIOL 367 [568] ENDOCRINOLOGY (3) Endocrine mechanisms regulating homeostasis and functional integrity of animals with emphasis on vertebrates. Prerequisites: BIOL 214 or BIOL 311, CHEM 102
- BIOL 371 [571] ANIMAL BEHAVIOR (4) Ethological approach to the comparative study of animal behavior. Major emphasis on the adaptive function of behavior and classification of behavioral mechanisms. Average of three laboratory units per week. Prerequisite: BIOL 207.
- BIOL 372 ANIMAL BEHAVIOR LABORATORY (1) Observational and experimental investigations of the development, control and adaptive value of animal behavior. Prerequisites: BIOL 202, 207, 371 (may be taken concurrently).
- BIOL 381 BIOLOGICAL LITERATURE (3) Familiarization with the literature of biology through the preparation of papers requiring a knowledge of techniques for exploring the literature. Three one-hour lectures per week. Not for major or minor credit or M.S. degree in Biology. Prerequisites: ENGL 102 or 190, and at least 10 units of biology. GenEd I.D.
- BIOL 389 CURRENT DEVELOPMENTS IN BIOLOGY (1-4) Current directions of research in a major area of the biological sciences. Sufficient background will be given for the appreciation of the significance of these developments. May not be repeated for major credit when offered under a different topic. Prerequisites: 15 credits of biology and consent of instructor.
- BIOL 402 GENERAL ECOLOGY (4) Effects of the abiotic environment on distribution and abundance of organisms; organization of biological communities; ecosystems; evolution of different reproductive strategies; and application of ecological principles to natural resource conservation. Several daylong trips required. Prerequisite: BIOL 202; and BIOL 205 or BIOL 207.
- BIOL 403 [503] ADVANCED GENETICS (3) Emphasis on the molecular basis of gene action. Discussion of current work and methods related to the problem of gene structure, function and mutation, including the translation and regulation of genetic information. Prerequisite: BIOL 309 or BIOL **4**01.
- BIOL 404 [504] ECOLOGICAL TECHNIQUES (3) Lectures and readings on investigative techniques employed by ecologists in the various specialty fields. An individual investigation, laboratory or field, using appropriate equipment, is required. Prerequisite: BIOL 402 or its equivalent.
- BIOL 406 [506] LIMNOLOGY (4) Physical, chemical and biological factors that affect freshwater organisms and some of the standard methods used to analyze these factors. Average of three laboratory units per week. Prerequisites: BIOL 205, BIOL 207; BIOL 402 is recommended; CHEM 111.
- BIOL 408 [508] CELL BIOLOGY (4) The molecular and morphological organization of the cell in relationship to cellular activities with emphasis on eukaryotic cells. Average of three laboratory or discussion units per week. Prerequisites: BIO1/207 or BIOI/214 or BIOL/311; CHEM 330 or CHEM 331.
- BIOL 409 MOLECULAR BIOLOGY (3) Molecular basis of genetic inheritance and gene expression. DNA and RNA structure, DNA replication, sources and mechanisms of mutation and repair. Genome structure and organization in viruses, prokaryotes and eukaryotes. Prerequisite: BIOL 309,

- BIOL 410 MOLECULAR BIOLOGY LABORATORY (2) Modern molecular genetic research techniques. The theoretical and practical considerations of the organisms and enzymes used in molecular biology, gene cloning strategies, DNA sequencing and analysis, analysis of genome structure and gene expression, gene subcloning and transgenic organisms. Prerequisite: BIOL 409 (may be taken concurrently).
- BIOL 411 [511] WILDLIFE BIOLOGY (4) Important wildlife species with emphasis on aspects of research and management. Specific techniques and problems are studied in the field. Average of three units per week in laboratory and field work. Prerequisite: BIOL 207.
- BIOL 413 [513] EVOLUTION (3) Concepts of biological evolution, the bistory of the development of these concepts, and current topics in evolutionary biology. Prerequisites: BIOL 202 and either BIOL 205 or 207.
- BIOL 415 BIOTECHNOLOGY (3) Application of molecular biology in the areas of agriculture, medicine and ecology/environmental biology. Government regulations, ethical implications and patent issues will also be addressed. Prerequisite: BIOL 309.
- BIOL 421 [521] IMMUNOLOGY (4) Cells and organs of the immune system, antibody-antigen interactions, immunoglobulin gene organization, B-cell maturation and activation, Major Histocompatibility Complex, cytokines, complement, inflammation, hypersensitivity, vaccines, autoimmunity, immunodeficiencies with recitation section for problem solving and demonstrations. Prerequisites: BIOL 315 or 309; BIOL 408 or BIOL 409 recommended.
- BIOL 422 [522] ADVANCED IMMUNOLOGY (2) An advanced study of current topics in immunology, including humoral and cell-mediated immunity, histocompatibility, hypersensitivity, autoimmunity, tumor immunology, immunologic disorders, and the use of mono-clonal antibodies as a research tool. Prerequisite: BIOL 421 or its equivalent or consent of instructor.
- BIOL 425 [525] DISSECTION OF THE UPPER EXTREMITY (2) Gross anatomical dissection of the human upper extremity, including the muscles, nerves and blood vessels which supply the appendage. Special emphasis will be placed on development of techniques which assure careful and accurate dissection. Will be offered only in the Minimester. Prerequisites: BIOL 213 or BIOL 311 and consent of instructor.
- BIOL 427 NEUROMUSCULAR MECHANISMS OF THE UPPER BODY (2) Gross anatomy of the human upper extremity and cranial nerves. Upper extremity emphasis includes muscle action, innervation and major spinal cord pathways. Olfactory, optic, auditory and vestibular functions of cranial nerves are stressed. One lecture and two laboratory periods per week. Prerequisites: BIOL 110; BIOL 311 or BIOL 213.
- BIOL 428 [528] VIROLOGY (3) Cell and molecular biology of viruses. General virology, including pathogenesis and mortality, interaction with the immune system, and more thorough analysis of some medically relevant viruses. Prerequisite: BIOL 408 or BIOL 409 or BIOL 410.
- BIOL 431 [530] HORTICULTURE (4) Plant culture and application to developing desirable plantings on home grounds or in public places with examples of appropriate types of plants for specific situations. Average of three laboratory units per week. Prerequisite: BIOL 205.
- BIOL 432 [532] VASCULAR PLANT TAXONOMY (4) A study of the history and principles of vascular plant systematics with laboratory time devoted to collection and identification of plants in the local flora. An average of three laboratory units per week. Prerequisites: BIOL 205, BIOL 331 or consent of instructor.
- BIOL 435 [535] PLANT ECOLOGY (4) Environmental factors and processes which control plant distribution, plant communities and vegetational biomes of North America. An average of three laboratory units per week with two required three-day weekend field trips and a Saturday field trip emphasizing examples from Maryland and the Mid-Atlantic states. Prerequisites: BIOL 202 and BIOL 205.
- BIOL 436 [536] PLANT PHYSIOLOGY (4) Life functions of plants as related to structure at all levels: cells, organs and the complete organism. Consideration of the interaction of environmental and genetic factors on plant metabolism. Average of three laboratory units per week. Prerequisites: BIOL 205 and CHEM 111; CHEM 330 recommended.
- BIOL 439 [539] PLANT ANATOMY (4) Origin and development of organs and tissue systems in vascular plants. Average of three laboratory units per week. Prerequisite: BIOL 205.
- BIOL 441 [541] PLANT PATHOLOGY (4) Plant diseases, their symptoms, causal agents, etiology, epidemiology, prevention and control. Average of three laboratory units per week. Prerequisite: BIOL 205.
- BIOL 455 FISH BIOLOGY (4) Evolutionary history, functional biology, ecology and conservation of fishes. Weekend field trips required. Prerequisites: BIOL 207 and CHEM 111; BIOL 325 recommended.

- BIOL 456 [556] ORNITHOLOGY (4) Evolutionary history, morphology, physiology, behavior and ecology of birds. One day-long weekend field trip and several early morning weekday field trips required. Prerequisites: BIOL 202 and BIOL 207 or consent of instructor.
- BIOL 458 [558] MAMMALOGY (4) Evolution, comparative morphology, systematics and distribution of mammals. Representative life histories are considered. Average of three laboratory units per week. Prerequisite: BIOL 207.
- BIOL 461 [561] ENTOMOLOGY (4) Laboratory and field course in insects. Identification and recognition of the more common families and orders and a study of their structure, behavior, ecology, economic importance and control. Average of three laboratory units per week. Prerequisite: BIOL 207.
- BIOL 463 [563] ANIMAL EMBRYOLOGY (4) Developmental anatomy and the underlying principles involved in development. This last area will be approached from an experimental base. Average of three laboratory units per week. Prerequisite: BIOL 207 or BIOL 214 or BIOL 311.
- BIOL 465 [565] MAMMALIAN PHYSIOLOGY (4) An advanced physiology course that draws heavily upon knowledge gained in earlier courses to understand the aspects of organismal function unique to mammals. The course attempts to integrate all levels of organismal processes, ranging from molecular phenomena to whole animal function. The laboratories emphasize hands-on learning and experiences with live animals. Minimum of three laboratory units per week. Prerequisites: BIOL 213 and 214 or BIOL 325, or BIOL 469; CHEM 111. CHEM 332 and CHEM 351 recommended.
- BIOL 467 [567] HERPETOLOGY (4) Systematic survey of the modern reptiles and amphibians. Emphasis is placed on the evolution of morphological and behavioral traits which have enabled the reptiles and amphibians to successfully exploit their individual habitats. Laboratory includes systematic classification, student seminars and field work. Average of three laboratory units per week. Prerequisite: BIOL 207.
- BIOL 469 [569] COMPARATIVE ANIMAL PHYSIOLOGY (4) Functions, interactions and regulation of organ systems in animals and their roles in sensory perception and integration, movement, oxygen utilization, energy procurement, temperature regulation and water metabolism. Prerequisites: BIOL 207, BIOL 213 and 214 or BIOL 325; and CHEM 111.
- BIOL 481 [581] DIRECTED READING IN BIOLOGY (1-3) Independent reading in an area selected by the student in consultation with the instructor. May not be applied toward the Biology major, Biology minor, or M.S. degree in Biology. May be repeated for a maximum of 3 units. Prerequisite: a minimum of 10 units in biology and written consent of instructor.
- BIOL 483 WORKSHOP IN BIOLOGY (2) Intensive study of a specific topic or technique in the biological sciences. Topic varies with instructor. May be repeated for credit once provided a different topic is covered. Prerequisites: one Biology course and consent of instructor.
- BIOL 484 SEMINAR IN ECOLOGY, EVOLUTION AND BEHAVIOR (1)
 Discussion and analysis of current research in ecology, conservation
 biology, environmental science, evolution and animal behavior.
 Prerequisites: 12 units in biology, including BIOL 202 and at least one
 of the following: BIOL 310; BIOL 347; BIOL 371; BIOL 402; BIOL
 411; BIOL 413; BIOL 435 or permission of instructor.
- BIOL 485 [585] SEMINAR IN APPLIED BIOTECHNOLOGY (1) Current research articles in cell biology and microbiology are reviewed. May be repeated for a maximum of 2 units. Prerequisites: 12 units in biology, including one of the following: BIOL 309, BIOL 315, BIOL 318, BIOL 401 or BIOL 408.
- BIOL 486 BIOLOGY MAJORS SEMINAR (1) Specific topic examined at the molecular, cellular, organismic and ecological levels of organization. Students will be required to present an oral and written report on an aspect of the topic. Prerequisites: 10 units in biology or consent of instructor, BIOL 202, BIOL 205, and BIOL 207.
- BIOL 491 INDEPENDENT RESEARCH IN BIOLOGY (1-3) Independent investigation of a problem under the supervision of a staff member culminating in a written presentation. May not be used toward Biology minor or M.S. degree in Biology. May be repeated for a maximum of 5 units. Prerequisite: prior written consent of instructor who will direct research; 15 units in biology recommended.
- BIOL 493 INTERNSHIP IN BIOLOGY (3) Practical application of biology in businesses, industries, public and private agencies. Not for major or minor credit. Prerequisites: 2.75 GPA, junior or senior standing, a minimum of 11 units in biology completed at Towson University; major in Biology, and consent of the biology internship coordinator. Special permit and co-op fee required. May be repeated once for credit. Graded S/U.

- BIOL 494 [594] TRAVEL STUDY (1-3) A detailed investigation of field oriented problems in biology away from the Towson University campus. Locations and topics to be selected by the department and instructors sponsoring the program. May be repeated for a maximum of 3 units. Prerequisites: BIOL 110 and consent of instructor.
- BIOL 495 COURSE RESEARCH (1) Research related to a specific course successfully completed by the student by invitation or with the consent of the instructor. Not for credit toward the Biology major, minor or M.S. degree in Biology. Prerequisite: BIOL 110. May be repeated once for research related to a different course successfully completed by the student.
- BIOL 498 HONORS RESEARCH IN BIOLOGY (2) Individual research of an extensive nature under the direction of a faculty member, culminating in an honors thesis. Credit for BIOL 498 not awarded until BIOL 499 is successfully completed. May not be used toward a Biology minor or M.S. degree in Biology. Prerequisites: open only to advanced honors candidates and by consent of instructor.
- BIOL 499 SENIOR THESIS IN BIOLOGY (2) Writing of an honors thesis based on individual research done under the direction of a faculty member. May not be used toward a Biology minor or M.S. degree in Biology. Prerequisites: open only to advanced honors candidates and by consent of instructor.

Graduate Division

See TU Graduate Catalog for course descriptions.

BUSINESS, COMMUNICATIONS AND LIBERAL ARTS (BCLA)

BCLA 421 INTEGRATING MANAGEMENT SKILLS (BCLA CAPSTONE) (3) Business, Communications and Liberal Arts Capstone course integrating the student's major with principles of entrepreneurship and business management, Prerequisite: all other courses in the minor.

BUSINESS EXCELLENCE (BUSX)

- BUSX 301 BUSINESS CORNERSTONE (3) Foundation course for developing knowledge, skills and attitudes (KSAs); problem-solving, self- assessment, teamwork and communication for future courses and careers. Recommended to be taken after successful completion of the Advanced Composition GenEd I.D requirement. Required of all Accounting, E-Business and Business students. Not open to students who have successfully completed CBEC 301. Prerequisites: completion of College of Business lower-level core courses with a grade equivalent of 2,00 or higher.
- BUSX 460 PROFESSIONAL EXPERIENCE (3) Application of business knowledge, skills and attitudes (KSAs) through professional responsibilities in employment, internship or comparable experience. Not open to students who have successfully completed CBEC 460. Prerequisites: Senior status, completion of 18 CBE upper-level units including BUSX/CBEC 301, MNGT 361, MKTG 341/342 and FIN 331. Special permit required.

CHEMICAL DEPENDENCY COUNSELING

EDUCATION (CDCE)

- CDCE 402 [502] HEALTH AND SOCIAL WELFARE PROMOTION: HEALTH COMMUNICATION (3) Analysis of health message design, health behavior, and communication theory emphasizing the persuasion process to improve health and other social conditions of living. Application of theoretical principles augmented with specific skills to design, implement and evaluate health messages. Prerequisite: HLTH 101 or equivalent.
- CDCE 403 [503] COGNITIVE BEHAVIORAL TREATMENT OF ADDICTIONS (3) Issues of substance abuse, referrals, clinical assessments and developing cognitive behavioral counseling strategies for successful intervention. Prerequisites: 6 lower-level units in chemical dependency counseling.
- CDCE 405 [505] PROFESSIONAL STANDARDS AND ETHICAL RESPONSIBILITIES (3) Professional and ethical standards and guidelines that underlie professional practice in chemical dependency and other related counseling fields. Prerequisites: 6 lower-level units in chemical dependency counseling.
- CDCE 470-475 [570-575] SPECIAL TOPICS IN CHEMICAL DEPEN-DENCY COUNSELING AND EDUCATION (3) Contemporary issues related to chemical dependency counseling, rehabilitation and/or education. May be repeated for a maximum of 6 units. Prerequisites: a minimum of 6 lower-level units in chemical dependency counseling or education.

- CDCE 491-492 DIRECTED READINGS IN CHEMICAL DEPENDEN-CY COUNSELING AND EDUCATION (1-3) Focused reading of literature in the chemical dependency counseling, rehabilitation and/or education/drug prevention disciplines. Prerequisites: a minimum of 12 units in chemical dependency counseling or prevention and consent of program director/department chair; must have junior or senior status.
- CDCE 493 SERVICE LEARNING IN CHEMICAL DEPENDENCY (3) Focus on a particular content area/problem/issue in the field of chemical dependency counseling and education via literature search and active participation in a agency/treatment setting. Prerequisites: a minimum of 12 units in chemical dependency counseling or prevention and consent of program director/department chair.
- CDCE 496 CHEMICAL DEPENDENCY COUNSELING AND REHA-BILITATION INTERNSHIP (6) Supervised, practical experience in a chemical dependency agency, program or other appropriate community health setting. Emphasizing counseling and rehabilitation. Graded S/U. Majors only; special permit required. Prerequisites: completion of at least 24 upper-level units in required course work with a grade of 2.00 or better, including CDCE 405.
- CDCE 497 CHEMICAL DEPENDENCY EDUCATION AND PREVEN-TION INTERNSHIP (6) Supervised, practical experience in a chemical dependency agency, program or other appropriate community health setting where students will apply knowledge and skills they have acquired via their academic experience. Graded S/U. Majors only, special permit required. Prerequisites: completion of at least 24 upper-level units in required course work with a grade of 2.00 or better, including CDCE 401 and HLTH 315.

CHEMISTRY (CHEM)

Lower Division

- CHEM 100 CHEMISTRY AND CURRENT PROBLEMS (3) Chemistry concepts and their application to current topics such as environment, energy, food and health-related chemistry. Three lecture demonstration hours. GenEd. II.A.1
- CHEM 103 FOUNDATIONS OF CHEMISTRY (3) Development of reasoning and quantitative skills for problem solving. Introduction to atomic structure, chemical reactions, chemical nomenclature, formulas, symbols and equations, basic skills for laboratory work. Three lecture units. Not for credit toward Chemistry major or minor. S/U grading.
- CHEM 104 INTRODUCTION TO ENVIRONMENTAL CHEMISTRY (4) Principles of chemistry that are relevant to environmental issues, including water quality, nutrient pollution, air pollution and specific classes of environmental contaminants. Three lecture units and 3 laboratory units. Prerequisite: Three years of high school mathematics. GenEd II.A.1.
- CHEM 105 CHEMISTRY FOR ALLIED HEALTH PROFESSIONS I (4)
 An introduction to the concepts of general chemistry, including states of matter, atomic structure and periodic table, molecular structure, chemical reactions, intermolecular forces, solutions, buffers and pH, and radioactivity. Laboratory includes data handling and chemical and instrumental techniques. This course may not be used as a prerequisite for the Chemistry major program. Three lecture units and one three-hour laboratory. Prerequisite: MATH 115 or MATH 119 (either may be taken concurrently). GenEd II.A.1.
- CHEM 106 CHEMISTRY FOR ALLIED HEALTH PROFESSIONS II (4) An introduction to organic chemistry and biochemistry using a functional group approach; physical and chemical properties and typical reactions of organic compounds; composition and properties of lipids, carbohydrates, proteins, and nucleic acids, and the role of enzymes, vitamins and hormones. The laboratory introduces students to simple techniques of synthesis and analysis, including chromatographic and chemical methods. Three lecture units and one three-hour laboratory. Prerequisite: CHEM 105. GenEd II.A.1.
- CHEM 110 GENERAL CHEMISTRY I (4) Atomic and molecular structure; theories of bonding, stoichiometry; chemical reactions; states of matter; solutions. Laboratory work involves experiments dealing with the determination of physical properties of matter, molecular weights of compounds, stoichiometry, atomic and molecular structure, and common types of reactions. Three lecture units and one three-hour laboratory period. Not open to those who successfully completed CHEM 101. Prerequisite: MATH 115 or MATH 119 (either may be taken concurrently). GenEd II.A.1. Not recommended for non-science majors.
- CHEM 111 GENERAL CHEMISTRY II (4) Chemical thermodynamics, equilibrium, kinetics, solutions; acids, bases, and their aqueous equilibria; solubility product; oxidation-reduction and electrochemistry; elements of coordination and nuclear chemistry; chemistry of some important

- metallic and nonmetallic elements. Laboratory includes preparation and quantitative analysis of a coordination compound; semimicro qualitative analysis of selected cations and anions. Three lecture units and one three-hour laboratory period. Offered each term. Not open to those who successfully completed CHEM 102. Not recommended for non-science majors. Prerequisite: CHEM 101 or CHEM 110. GenEd II.A.I.
- CHEM 112 HONORS CHEMISTRY FOR NON-SCIENTISTS (3)
 Discussion of a selected aspect of chemistry and its applications to technology, environment and society. Topics will vary. Three lecture-demonstration units. Prerequisites: high school chemistry recommended. Special permit from Honors College Committee required. GenEd 11.A.1.
- CHEM 115 HONORS CHEMISTY FOR ALLIED HEALTH PROFES-SIONALS I (4) An introduction to the concepts of general chemistry, including states of matter, atomic structure and periodic table, molecular structure, chemical reactions, intermolecular forces, solutions, buffers and pH and radio activity. Laboratory includes data handling and chemical and instrumental techniques. This course may not be used as a prerequisite for the Chemistry major program. Three lecture units and one three-hour laboratory. Prerequisite: Honors College permit and MATH 115 or MATH 119 (either may be taken concurrently). Gen Ed II.A.1.
- CHEM 210 INTRODUCTION TO ANALYTICAL CHEMISTRY (4)
 Theory and practice of chemometrics, gravimetry, titrimetry, chromatography, electrochemistry, and spectrophotometry. Three lecture units and four laboratory units. Not open to students who have successfully completed CHEM 213/215. Prerequisite: CHEM 111.

- CHEM 301 PROFESSIONAL ETHICS FOR SCIENTISTS (3) Integrity of scientific literature and the responsibilities of scientists to associates and the public. Discussion of principles and case studies emphasizing the physical sciences. Not open to those who successfully completed WRIT 335. CHEM 335 or IDNM 305. Does not count toward Chemistry major or minor. Prerequisites: three courses in ASTR, BIOL, CHEM, ENVS, GEOL, PHYS, or PHSC and at least two courses with laboratory; ENGL 102. GenEd I.D.
- CHEM 310 INSTRUMENTATION IN ANALYTICAL CHEMISTRY (3)
 Theory and practice of spectroscopic, chromatographic and electrochemical instruments, their design and modification to solve practical problems. Not open to students who have successfully completed CHEM 374 and CHEM 413. Two lecture units and four laboratory units. Prerequisites: CHEM 210 and CHEM 345.
- CHEM 323 INORGANIC CHEMISTRY (4) Atomic structure; valencebond, molecular orbital, and crystal-field theories of bonding; structure and bonding in ionic and metallic solids; chemistry of main-group and transition-metal compounds; acid-hase theories; organometallic compounds; syntheses and characterizations of main-group and transitionmetal compounds. Three lecture units and three laboratory units. Not open to students who successfully completed CHEM 321. Prerequisite: CHEM 111.
- CHEM 330 ESSENTIALS OF ORGANIC CHEMISTRY (5) A one-term course in organic chemistry for non-chemistry majors taught on a conceptual basis. Emphasis will be on principles, mechanisms and modern techniques. Laboratory will include synthesis and identification of organic compounds. Three lecture units, one recitation hour and one three-hour lab period. Prerequisite: CHEM 102 or CHEM 111.
- CHEM 331 ORGANIC CHEMISTRY 1 (5) Structure, stereochemistry, reactions and their mechanisms, preparation and properties of alkanes, alkenes, alkynes, aromatic compounds, alkyl halides and alcohols. Laboratory techniques include purification, spectroscopic (IR, NMR) and chromatographic (GLPC) methods of identification, and synthesis. Three lecture units, one hour of laboratory lecture, and one three-hour lab period. Prerequisite: CHEM 102 or CHEM 111.
- CHEM 332 ORGANIC CHEMISTRY II (5) Structure, reactions and their mechanisms, preparation and properties of alcohols, ethers, aldehydes, ketones, carboxylic acids and their derivatives, amines, carbohydrates, etc. Laboratory emphasizes synthetic techniques and modern qualitative organic analysis using chemical reactions and IR, UV and NMR. Three lecture units, one hour of laboratory lecture and one three-hour lab period. Prerequisite: CHEM 331.
- CHEM 345 PRINCIPLES OF PHYSICAL CHEMISTRY (3) Empirical derivations of the unifying physical principles of chemistry. Emphasis on applications including environmental chemistry and biochemistry. Not open to students who successfully completed CHEM 340. Prerequisites: CHEM 102 or CHEM 111, MATH 211 or MATH 273, PHYS 211 or PHYS 241.

- CHEM 346 THEORETICAL FOUNDATIONS OF PHYSICAL CHEM-ISTRY (3) Theoretical principles unifying the vast body of chemical observations. Extensive use of differential and integral calculus in developing mathematical models describing the behavior of chemical systems, Prerequisites: CHEM 345, MATH 274, PHYS 212 or PHYS 242.
- CHEM 351 BIOCHEMISTRY 1 (3) An overview of the chemistry of proteins, nucleic acids, carbohydrates and lipids. Basic enzyme catalysis and kinetics, biochemical genetics, membrane structure, bioenergetics and analytical methods. General principles of metabolism applied to several major pathways. Three lecture units. Prerequisite: CHEM 330 or CHEM 332
- CHEM 356 BIOCHEMISTRY LABORATORY (2) Physical methods in biochemistry including spectrophotometry, centrifugation and ultracentrifugation, electrophoresis and diromatography. Isolation and purification of proteins and nucleic acids. Enzyme kinetics and the binding of small molecules to macromolecules. One lecture hour and three laboratory units. Prerequisites: CHEM 210 or CHEM 213 and CHEM 215, and CHEM 351 (may be taken concurrently).

CHEM 357 BIOCHEMISTRY II (3) Carbohydrate and lipid metabolism and their regulation, overview of amino acid and nucleotide metabolism, membrane structure and function, DNA-protein interactions and regulation of gene expression, and other topics in biochemistry. Prerequisite: CHEM 351.

CHEM 361 [562] CHEMICAL AND BACTERIOLOGICAL STUDIES ON WATER POLLUTION (3) Deals mainly with water pollution: causes, effects and cures. Considers details of water. Concerns standards of water purity and variables involved. Demonstration of analytical methods to be given. Case studies and applications are viable approaches to this topic. Three lecture units. Prerequisites: BIOL 110 and CHEM 102 or CHEM 111.

CHEM 363 [564] CHEMISTRY OF DANGEROUS DRUGS (3) A study of the chemistry, methods of detection and analysis of narcotics, depressants, stimulants and hallucinogens. Also, the influence of physiochemical properties upon the pharmacological effects of drug receptor interactions. Historical, forensic and socio-economic implications associated with drug abuse will also be reviewed. Three lecture units. Prerequisites: CHEM 330 and CHEM 351 or CHEM 331 and CHEM 332; CHEM 210 or CHEM 213 and CHEM 215 recommended.

CHEM 365 [566] POLYMER CHEMISTRY (3) Course will cover the following aspects of polymers: structure, physical properties, methods of preparation, rheology, mechanical properties, degradation and stabilization, application and fabrication, and related contemporary topics. Carbon chain and heterochain polymers will be discussed, and spectroscopic methods of analysis (IR, UV and NMR) will be presented. Three lecture units, Prerequisites: CHEM 101 or CHEM 110, CHEM 102 or

CHEM 111, CHEM 331 and CHEM 332.

CHEM 367 [568] FORENSIC CHEMISTRY (3) An introduction to chemical and physical analyses used by a modern crime laboratory in the evaluation of physical evidence encountered in criminal acts. Areas of concentration will include drug analysis, toxicology, forensic serology, explosives analysis, arson examination, firearms and tool marks, and trace evidence. Emphasis will be placed on the value of such examinations as presented by the expert witness in a criminal trial. Three lecture units. Prerequisites: CHEM 101 or CHEM 110, CHEM 102 or CHEM 111, CHEM 210 or CHEM 213 and CHEM 215, CHEM 330 or CHEM 332.

CHEM 372 INTERMEDIATE LABORATORY 1 (1) Introductory experiments in physical and analytical chemistry applying spectroscopic, calorimetric and electrochemical techniques to characterize properties of materials and chemical systems. Three laboratory units. Not open to students who have completed CHEM 343. Prerequisites: CHEM 210 or CHEM 213 and CHEM 215, and CHEM 340 or CHEM 341 or CHEM 342 or CHEM 345 or CHEM 346 (either may be taken concurrently).

CHEM 373 INTERMEDIATE LABORATORY II (1) A series of experiments in physical and analytical chemistry applying mass spectrometry, NMR spectroscopy, IR spectroscopy, and molecular modeling to problems in molecular structure, chemical composition, reaction kinetics and reaction equilibrium. Three laboratory units. Prerequisites: CHEM

332 and CHEM 372.

CHEM 391-394 [501-504] SPECIAL PROBLEMS IN CHEMISTRY (1-3) A laboratory or library problem in chemistry to be selected by the student in consultation with the instructor. Students are required to submit a written report. May be repeated for a maximum of 6 units. Prerequisite: consent of instructor.

CHEM 395 INTERNSHIP IN CHEMISTRY (1-3) Students will be given credit in this cooperative education program for approved experience in chemistry. A written final report will be submitted by students. Graded S/U. May be repeated for credit as CHEM 396 for a maximum of 6 units. Prerequisites: CHEM 332 and either CHEM 213 and

CHEM 215 or CHEM 210, and consent of instructor.

CHEM 401 [500] SEMINAR IN CHEMISTRY (1) An introduction to chemical literature. Attendance at all seminars and presentation of seminars to the department on topics selected by the Chemistry faculty or selected by the student and approved by the faculty. One and one-half hour seminar period. Prerequisites: CHEM 213, CHEM 215, CHEM 332, corequisite: CHEM 340 or CHEM 341 or CHEM 345 or CHEM 346.

- CHEM 461 ADVANCED LECTURE TOPICS (1-3) Advanced studies in one of the major topics in chemistry. Content will depend on the instructor. This course may be repeated for a maximum of 9 units of study in different topics. Prerequisites: CHEM 345, CHEM 332 and consent of instructor.
- CHEM 462 ADVANCED LABORATORY TECHNIQUES (1-2) An advanced, focused laboratory in chemistry. Content will depend on the instructor. This course may be repeated for a maximum of 6 units as a laboratory experience with a different focus. Prerequisites: CHEM 332, CHEM 372 and consent of instructor.
- CHEM 480 CHEMICAL TOXICOLOGY (3) Study of the fate, effects, and mechanisms of action of toxicants; physical and biological factors affecting transport, transformation and toxicity of chemical stressors; emphasis on forensic and environmental applications. Prerequisites: CHEM 351, BIOL 201, or consent of instructor.
- CHEM 491-494 [505-508] INTRODUCTION TO RESEARCH IN CHEMISTRY (1-3) An original experimental or theoretical investigation. May be repeated for credit as CHEM 492, etc. CHEM 491 may not be taken in the student's final term. Formal written report required. Evaluation by instructor and student-selected members of faculty. Graded S/U. Prerequisite: consent of instructor.

CHINESE (CHNS)

Lower Division

- CHNS 101-102 ELEMENTARY MODERN CHINESE 1, II (3,3) An introduction to standard modern Chinese (Mandarin). Emphasis is on reading and writing of Chinese. Pin Yin, the phonetic system of pronouncing Chinese words, is introduced. Text, sound tape and vocabulary cards. GenEd II.D. CHNS 101 is a prerequisite to CHNS 102.
- CHNS 201-202 CHINESE INTERMEDIATE 1, II (3,3) Thorough review of Elementary Chinese; vocabulary building; conversational fluency and prose composition; translation; reading and discussion of selected outside reading (newspapers, magazines, Chinese literature). GenEd II.D. CHNS 102 is a prerequisite to CHNS 201; CHNS 201 is a prerequisite to CHNS 202.

Upper Division

- CHNS 301-302 CHINESE COMPOSITION AND CONVERSATION I, II (3,3) Intensive exercises in Chinese conversation and composition beyond the intermediate level. Conducted in Chinese. Prerequisite: CHNS 202 or equivalent. GenEd II.D.
- CHNS 491-492 DIRECTED READINGS IN CHINESE I-II (1-3, 1-3) Intensive reading under the supervision of a departmental adviser. Conducted in Chinese. Prerequisites: CHNS 301 or 302; consent of department chair.
- CHNS 494 CHINESE STUDY ABROAD (3-16) The study of Chinese language, culture, and/or literature at a university in China, Taiwan or Hong Kong. Available fall/spring/summer. (See department chair and Office of International Education.) Pre requisites: consent of the Department of Modern Languages program coordinator and department chair.

COMMUNICATION SCIENCES AND DISORDERS (SPPA) See under "S"

COMMUNICATION STUDIES (COMM)

Lower Division

- COMM 100 USING INFORMATION EFFECTIVELY IN PUBLIC POL-ICY DEBATE (3) Basic skills in gathering, processing and using information to critically evaluate and debate questions of public policy. Emphasizing research using print, human and electronic sources and presentation of argument through written briefs and oral advocacy. GenEd I.B.
- COMM 101 INTRODUCTION TO HUMAN COMMUNICATION (3) Foundation for theories focusing specifically in relational, group, public, and cultural communication contexts.

COMM 115 INTRODUCTION TO INTERPERSONAL COMMUNICA-TION (3) Face-to-face communication skills in various contexts.

- COMM 131 FUNDAMENTALS OF SPEECH COMMUNICATION (3)
 Perspectives of rhetoric and public speaking, investigating contemporary American experiences, delivering and critiquing speeches. GenEd II.B.3.
- COMM 132 HONORS FUNDAMENTALS OF SPEECH COMMUNICA-TION (3) Instruction in various kinds of public speaking (e.g., informative, persuasive, introductory and impromptu); doing research, developing ideas with evidence, preparing outlines, delivering and critiquing speeches with emphasis on rhetorical criticism and ethical issues in speech communication. GenEd II.B.3.

COMM 211 RHETORICAL THEORY AND CRITICISM (3) Theory and application of human communication as influence. Emphasizing contemporary works within the rhetorical tradition in the field of communication. Prerequisites: COMM 131 or COMM 132, ENGL 102 or ENGL 190.

COMM 216 GROUP DISCUSSION (3) Theory and methods of group decision-making in face-to-face and electronic contexts.

COMM 249-250 SPEECH AND DEBATE PROGRAM I, II (1.5, 1.5)
Practical skill development and participation within Towson's Speech
and Debate Program: preparation, practice and competition in debate
and/or individual speaking events; researching controversial issues,
preparing and delivering speeches, participating in on-campus and
intercollegiate events. Repeatable for a maximum of 6 units.

Upper Division

- COMM 301 NONVERBAL COMMUNICATION (3) Examination of the elements of nonverbal communication: environment, personal space, physical appearance, body movement, gestures, touching behavior, facial expression and vocal cues. Course will investigate the effects of these on interpersonal and public communication. Prerequisite: COMM 131 or consent of instructor.
- COMM 303 ADVANCED PUBLIC SPEAKING (3) Principles and application of evidence, composition, organization, analysis and criticism. Manuscript, persuasive and impromptu speaking. Prerequisite: COMM 131 or COMM 132.
- COMM 304 PERSUASION (3) Theory and practice of linguistic and symbolic persuasion; applications of rhetorical principles in social sciences and formal and informal communication; analysis of rhetoric through discussion. Prerequisite: junior/senior standing or consent of instructor.
- COMM 315 BUSINESS AND PROFESSIONAL COMMUNICATION (3) Professional interview and other dyadic encounters, curriculum vitae preparation, and exploration of communication in business structures: agendas, briefings, meetings, conferences, and strategies of attributional and communicative techniques. Prerequisite: COMM 131 or COMM 132.
- COMM 321 INTERPERSONAL COMMUNICATION (3) Examination and application of core concepts, advanced theories, and current research. Prerequisites: COMM 115 and COMM 131 or COMM 132.
- COMM 331 ADVOCACY AND ARGUMENT (3) Essentials of argumentation; research, analysis, evidence, reasoning, case construction and refutation. Applications in fact, value and public policy settings. Prerequisite: COMM 131 or consent of instructor.
- COMM 349-350 SPEECH AND DEBATE PROGRAM III, IV (1.5, 1.5)
 Practical skill development and participation within Towson's Speech and Debate Program: preparation, practice and competition in debate and/or individual speaking events, researching controversial issues, preparing and delivering speeches, participating in on-campus and intercollegiate events. Repeatable for a maximum of 6 units.
- COMM 351 SPECIAL TOPICS IN SPEECH AND DEBATE (3) In-depth study of selected areas dependent on student and faculty interest. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: COMM 249.

- COMM 378 INTERCULTURAL COMMUNICATION (3) Principles, research and applications of cross-cultural discourse. Not open to students who have successfully completed COMM 379. Prerequisites: junior/senior standing or consent of instructor. GenEd II.D.
- COMM 418 [518] COMMUNICATION TRAINING AND DEVELOP-MENT (3) Instructional strategies for implementing objectives, specifying and evaluating results. Prerequisites: COMM 115 and COMM 216 or COMM 331.
- COMM 419 [519] ORGANIZATIONAL COMMUNICATION (3) Superior-subordinate communication, message dissemination, information overload, trust levels and work group interaction. Prerequisite: COMM 131.
- COMM 420 [520] COMMUNICATION IN THE LEGAL PROCESS (3) Focus on communication questions and skills by lawyers, judges, litigants and jurors in criminal and civil justice. Survey of research related to verbal and nonverbal aspects of communication as they apply to the legal concerns of interview, negotiation and litigation. Prerequisite: junior/senior standing.

COMM 422 [522] CONFERENCE AND MEETING MANAGEMENT
(3) Communicative details in preparing for and conducting events.
Prerequisite: COMM 419 (may be taken concurrently).

COMM 470 SPECIAL TOPICS IN COMMUNICATION (3) In-depth study of a selected area dependent on student and faculty interest. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisites: 18 units of COMM or MCOM courses.

COMM 480 COMMUNICATION RESEARCH (3) Survey of research methods, data analysis, critical and ethical evaluation of communication studies. Prerequisites: 18 units of COMM or MCOM courses.

- COMM 490 INTERNSHIP IN COMMUNICATION STUDIES (1-6) Practical field experiences. Under faculty supervision, the student works as an intern with a working professional in some field of communication. Graded S/U. May be repeated for a maximum of 6 units. Prerequisite: junior/senior standing. Minimum overall GPA of 2.75 and 3.00 in the major; completion of appropriate courses determined by the department.
- COMM 495 [795] INDEPENDENT STUDY IN COMMUNICATION STUDIES (1-6) Directed study through readings, projects, papers or seminars. May be repeated for a maximum of 6 units. Prerequisites: junior/semor standing and consent of instructor.

Graduate Division

See TU Graduate Catalog for course descriptions.

COMPUTER INFORMATION SYSTEMS (CIS)

Lower Division

- CIS 211 FUNDAMENTALS OF INFORMATION SYSTEMS AND TECHNOLOGY (3) An introduction to information systems and technology in today's organizations. Topics include hardware, software and communications fundamentals, systems development, information management, work-force considerations and related societal, legal and ethical issues. Prerequisite: COSC 111.
- CIS 212 INTRODUCTIÓN TO BUSINESS PROGRAMMING (3) A study of computer programming for business applications using a language such as COBOL. Students will design, implement, test and document programs in application areas such as payroll, accounting, inventory and file maintenance. Not open to those who successfully completed COBOL programming. Prerequisite: COSC 111 or programming experience.
- CIS 239 COMPUTER SYSTEMS ARCHITECTURE (3) Internal representation of data and instruction, memory organization, microprogramming, multi-level machines, microcomputers, supercomputers and parallel computers. Prerequisites: COSC 236 and MATH 263.

- CIS 334 DATA ORGANIZATION (3) Information abstraction, representation and organization, including realization of data and the logic to manipulate it, concepts of levels of abstraction, and information organization, particularly within organization. Not open to students who successfully completed COSC 336. Prerequisite: COSC 237.
- CIS 335 ADVANCED BUSINESS PROGRAMMING (3) Advanced programming concepts for business applications. Topics covered include the report writer feature, table handling, sorting, direct access files, program segmentation and job control language. Students work on several case studies and programming projects. Not open to those who successfully completed COSC 335. Prerequisite: CIS 212 and COSC 237.

- CIS 341 ADVANCED CONCEPTS OF INFORMATION SYSTEMS (3)
 Relationships among information systems, objectives and systems structure, covering human aspects, systems models and applications.
 Prerequisites: COSC 237 and COSC 111 or CIS 115.
- CIS 377 INFORMATION SYSTEMS SECURITY (3) Information systems security threats, technologies and business requirements, emphasizing human and technological aspects of IT security problems. Not open to students who successfully completed CIS 477. Prerequisite: CIS 211.
- CIS 379 SYSTEMS ANALYSIS AND DESIGN (3) Guides students through the stages of the evolution of data processing systems, including analyses of present information flow, system specifications, equipment selection, and implementation of the system to provide an understanding of the skills and knowledge needed for effective use of data processing equipment in meeting information needs. Prerequisite: CIS 211 and COSC 237.
- CIS 397 INTERNSHIP IN CIS(3) Students work in a local computing facility under on-site and faculty supervision. May be repeated for a maximum of 6 units. Only 3 units can be applied toward the major. Graded S/U. Prerequisites: 6 units of upper-division COSC or CIS courses and consent of instructor.
- CIS 425 DECISION SUPPORT SYSTEMS (3) Computer-based information systems for managerial decision-making. Includes mathematical modeling and decision support systems, systems architecture, DDS development tools, organization issues of decision support, multiparticipant DSS, and integration with other information systems. Not open to students who successfully completed COSC 425. Prerequisites: CIS 379 and MATH 231.
- CIS 433 SPECIAL TOPICS IN COMPUTER INFORMATION SYSTEMS (1-3) Studies in selected areas of computer information systems. May be repeated for a maximum of 3 units. Prerequisites: 9 units of computer information science and consent of instructor.
- CIS 435 HUMAN-COMPUTER INTERACTION (3) Effective, productive information systems, including interactive computer systems, input and output devices, screen layouts, machine design, health issues, organizational impacts, and computers and the disabled. Not open to students who successfully completed COSC 435. Prerequisite: CIS 379.
- CIS 440 SYSTEMS DEVÉLOPMENT FOR ELECTRONIC COMMERCE (3) Developing an organization's electronic commerce technical infrastructure, hardware and software specification issues, strategic development of computer-mediated business and tools, policy and societal impact issues as well as future directions in electronic commerce. Prerequisite: CIS 379.
- CIS 458 ORGANIZATIONAL DATABASE MANAGEMENT (3) The database environment in an organization. Database development, analysis, design, implementation and administration. Applications of database programs for organizational information processing. Students cannot earn credit for both COSC 457 and CIS 458. Prerequisites: CIS 334 or CIS335.
- CIS 475 ANALYSIS AND DESIGN FOR WEB SITES (3) Conceptual design of the Web page interface, HTML, useability testing, implementation, and management. Credit cannot be earned for both COSC 484 and this course. Prerequisite: CIS 379.
- CIS 479 SOFTWARE PROJECT MANAGEMENT (3) Technical and behavioral aspects of project management: concepts, needs identification, software project manager, software teams, software project organizations, project communications, software project planning, scheduling, control, associated costs, using management software tools. Prerequisite: CIS 379.
- CIS 495 INDEPENDENT STUDY IN COMPUTER INFORMATION SYSTEMS (3) Directed study in selected areas of computer information systems for which there is no regular course offered. The use of a proposal and well-defined objectives as well as a formal paper or project report are required. Prerequisites: senior standing in CIS and consent of instructor.

COMPUTER SCIENCE (COSC)

Lower Division

- COSC 109 COMPUTERS AND CREATIVITY (3) Creative activities involving symbolic manipulation and computer graphics; animation, dynamic storytelling, computer music, visual effects, Web publishing, computer games, artwork and multimedia. Additional laboratory time required. GenEd I.E.
- COSC 111 INFORMATION AND TECHNOLOGY FOR BUSINESS (3)
 Retrieve, process, classify, sort and evaluate data and information.
 Problem-solving techniques, creative thinking skills, communication

- skills, team building, and professional ethics. Laboratories covering the Internet, spreadsheets and databases. Additional laboratory time required. Students cannot earn credit for both this course and IDNM 101. GenEd I.B.
- COSC 112 HONORS INFORMATION AND TECHNOLOGY FOR BUSINESS (3) Introduction to the use of information technology to retrieve, filter, process, classify, sort and evaluate data and information in a business environment. Problem solving, creative thinking, effective communication, team building, and professional ethics within an information systems framework. Labs covering library information systems, the Internet, word processing, presentation software, spreadsheets, and databases will be emphasized. Students cannot earn credit for both this course and IDNM 101. Prerequisite: approval of Honors College. GenEd I.B.
- COSC 119 USING INFORMATION EFFECTIVELY IN THE COMPUT-ING SCIENCES (3) Identifying, retrieving, filtering, storing, processing, classifying, sorting, evaluating and presenting data and information in a technology and computing environment. Emphasis will be placed on problem-solving techniques with the computing field. Teambased case studies will be utilized and hands-on labs will be an important component of the course. Two units lecture and one hour lecture in the lab. GenEd I.B.
- COSC 175 GENERAL COMPUTER SCIENCE (4) Computer systems overview, algorithm development, data presentation, software design and testing methodologies, and brief overview of advanced topics.
- COSC 225 HONORS INTRODUCTION TO LEGO ROBOTICS (3)
 Basic mechanical, electronics and control issues in Robotics using the
 LEGO Mindstorms platform. Design, implement and program robotic systems of interdisciplinary nature. Prerequisite: Honors students
 only. GenEd I.E.
- COSC 236 INTRODUCTION TO COMPUTER SCIENCE I (4) Introduction to structured problem solving, algorithm development and computer programming with a modern high-level structured programming language. Three lecture units and two laboratory units. Prerequisite: demonstrable programming knowledge and experience and MATH 119 or equivalent.
- COSC 237 INTRODUCTION TO COMPUTER SCIENCE II (4) Introduction to data representation, data structures and their implementations, computer systems concepts, application of data structures in sort and search algorithms, and the software development process. Prerequisite: COSC 236. Corequisite: MATH 211 or MATH 273.
- COSC 265 VISUAL BASIC (3) Concepts, tools and techniques of software developing using an event-driven language that supports a graphical user interface and an object-oriented environment. Two lecture units and two laboratory units. Prerequisites: COSC 175 or permission of the instructor.
- COSC 280 ASSEMBLY LANGUAGE AND COMPUTER ARCHITEC-TURE (3) Digital logic and digital systems, combinational and sequential logic, computer arithmetic, the central processing unit, assembly level machine organization, principles and concepts of assembly language programming. Pre requisites: COSC 236 and MATH 263. Corequisite: COSC 237.

- COSC 311 DIGITAL TECHNOLOGIES IN SOCIETY (3) Foundations and impacts of computing and digital technologies, including history, applications and societal impacts. Prerequisite: junior status and two science courses or one math course and one science course. GenEd II.A.2.
- COSC 314 [MATH 314] INTRODUCTION TO CRYPTOGRAPHY (3) A broad introduction to cryptography and its mathematical foundations, including applications to computer-network security services and mechanisms (confidentiality, integrity, authentication, electronic case and others) and to various protocols in distributed computation. Prerequisites: COSC 236, either MATH 263 or MATH 267, and junior standing or permission of the instructor.
- COSC 321 COMPUTERIZATION AND ITS IMPACTS (3) Computer technology and its social and economic impacts on organizations and individuals. Prerequisites: junior/senior status and completion of two science courses or one math course and one science course. GenEd Il.A.2.
- COSC 336 DATA STRUCTURES AND ALGORITHM ANALYSIS (4) Discussion of data and type abstractions, a number of different data structures and the tradeoffs involved in the use of such data structures, the analysis of algorithms, sort and search algorithms, and a discussion of file organization and file access methods. Prerequisite: COSC 237. Corequisite: MATH 274.

- COSC 338 COMPUTER ORGANIZATION AND ARCHITECTURE (4) Integration of functional components, including memory system organization, interfacing and communications, RISC architecture, multiprocessing, performance enhancements, network and distributed systems. Three units per week of laboratory work required. Prerequisite: COSC
- COSC 350 DATA COMMUNICATIONS AND NETWORKING (3) Networks, topologies, architectures and protocols, circuit and packet switching. TCP/IP suite, network management and security, and network programming. Prerequisites: either COSC 336 and 338 or CIS 239 and CIS 334.
- COSC 378 [MATH 378] SCIENTIFIC MODELING AND SIMULATION
 (3) Interdisciplinary introduction to scientific simulation.
 Mathematical modeling, numerical analysis, and object oriented computer programming. Not open to students who have successfully completed MATH 378. Prerequisites: MATH 274, COSC 236.
- COSC 397 INTERNSHIP IN COMPUTER SCIENCE (3) Students work in local computing facility under on-site and faculty supervision. May be repeated for a maximum of 6 units. Only 3 units can be applied to the major. Graded S/U. Prerequisites: 6 units of upper-division computer science or computer information systems courses and consent of instructor.
- COSC 412 SOFTWARE ENGINEERING (3) Methodology of designing and programming for a wide area of applications with a high degree of modifiability, efficiency, reliability and understanding. Prerequisites: CIS 334 or CIS 335 or COSC 336 and one 400-level COSC/CIS course.
- COSC 417 INTRODUCTION TO THE THEORY OF COMPUTING (3)
 A general introduction to the theory of computation, including finite automata, compatibility, formal languages and their relation to automata, algorithms and algorithmic complexity. The major emphasis will be on developing formal descriptions of computers and computational processes, and practical implications of theoretical results. Prerequisite: COSC 336.
- COSC 418 ETHICAL AND SOCIETAL CONCERNS OF COMPUTER SCIENTISTS (3) Ethical questions and societal concerns related to the widespread uses of computers and the resulting responsibilities of computer scientists. Prerequisites: two science courses or one math course and one science course. GenEd II.A.2.
- COSC 431 SELECTED TOPICS IN COMPUTER SCIENCE (1-3) Independent studies in selected areas of computer science. A maximum of 4 units may be earned in selected topics. Prerequisite: consent of instructor and 9 units of computer science.
- COSC 436 OBJECT-ORIENTED DESIGN AND PROGRAMMING (4) Introduction to object-oriented design and programming technology (OOD/OOP). Main phases in object-oriented design and techniques in object-oriented programming. Programming language design and implementation issues for object-oriented languages. Perequisite: COSC 336.
- COSC 439 OPERATING SYSTEMS (3) Operating systems as resource manager with emphasis on file processor, memory, and device management and processes. Design and implementation of a simulated multiprogramming operating system. Prerequisites: COSC 336.
- COSC 440 OPERATING SYSTEMS SECURITY (3) An in-depth discussion of security concepts in operating systems. This course examines some of the security issues in current operating systems and discusses the existing tools and technologies for setting up a secure system. Prerequisite: COSC 439.
- COSC 441 COMPUTER PERFORMANCE EVALUATION (3) Computer system performance evaluation methodologies, rechniques and tools, including different types of monitors as a measurement tool, work-load characterization, important performance indices, analytic modeling with particular emphasis on the application of the operational queuing network modeling techniques to performance analysis, and technical aspects of computer selection. Prerequisites: MATH 274 and Pre or Corequisite: COSC 439.
- COSC 450 NETWORK SECURITY (3) Network security principles and applications, including authentication applications. IP security, Web security, network management security, wireless security and system security. Prerequisites: COSC 314 or MATH 314, and COSC 350.
- COSC 455 PROGRAMMING LANGUAGES: DESIGN AND IMPLE-MENTATION (3) Underlying concepts in high-level programming languages and techniques for their implementation, a survey of a selected group of such languages along with a discussion of the interrelationship between programming and programming languages. Prerequisite: COSC 336.

- COSC 457 DATABASE MANAGEMENT SYSTEMS (3) Data models and sublanguages; security and integrity problems; functions of the database administrator; implementation and use of a database management system; a comparison of widely used DBMS packages. Prerequisite: CIS 334 or COSC 336.
- COSC 458 APPLICATION SOFTWARE SECURITY (3) A study of security concepts in developing software applications. This course discusses design principles for secure software development, and some of the security issues in current programming and scripting languages, database systems and Web servers. Prerequisite: COSC 455. Corequisite: COSC 457.
- COSC 459 COMPUTER SIMULATION AND MODELING (3) Simulation models and languages, data collection and output analysis, random number generation and Monte Carlo integration, model verification and validation, variance reduction techniques, optimization, the implementation and use of simulation techniques in problem solving. Prerequisites: COSC 336 and MATH 330 or CIS 334 and MATH 231.
- COSC 461 ARTIFICIAL INTELLIGENCE (3) A survey of the problems and techniques involved in producing or modeling intelligence in computers. Particular emphasis will be placed on representation of knowledge and basic paradigms of problem solving. Topics include game playing, theorem proving, natural language and learning systems. Prerequisite: COSC 336 or CIS 334.
- COSC 471 COMPUTER GRAPHICS (3) An introduction to the field of computer generated and/or displayed graphics data. Covers the topics of representation, transformations, curve and 3-D problems, graphics, hardware and programming considerations. Prerequisite: COSC 336 or CIS 334.
- COSC 480 SENIOR SEMINAR (1) Prepares students to deal as professionals with the social and ethical issues in the computing sciences and make them aware of the broad applications of computers and the implications of these applications. Students majoring in Computer Science must rake either this course or COSC 418, but not both. Prerequisite: senior standing in Computer Science.
- COSC 481 CASE STUDIES IN COMPUTER SECURITY (3) An in-depth study of the practical aspects of computer security, including the study of common computer security vulnerabilities in a laboratory setting. Prerequisites: COSC 440 and COSC 450.
- COSC 483 DESIGN AND ANALYSIS OF ALGORITHMS (3) Algorithm design methods, such as heuristics, backtrack programming, branch and bound, recursion, simulation, divide-and-conquer, balancing, and dynamic programming. Efficiency of algorithms—NP-complete problems. Prerequisite: COSC 336.
- COSC 484 WEB-BASED PROGRAMMING (3) Applications executing on a client-server system emphasizing client side. Technologies include HTTP protocol, dynamic HTML, common gateway interface (CGI) programming and Java applets. Prerequisite: CIS 334 or COSC 336.
- COSC 493 DIRECTED READINGS IN COMPUTER SCIENCE (HON-ORS) (3) Individual readings and background research, under the direction of a faculty member, in preparation for writing an honors thesis (restricted to students in the departmental honors program). Prerequisite: admission to the departmental honors program.
- COSC 495 INDEPENDENT STUDY IN COMPUTER SCIENCE (1-3)
 Directed study in selected areas of computer science for which there is
 no regular course offered. The use of a proposal and well-defined objectives as well as a formal paper or project report are required.
 Prerequisites: senior standing in Computer Science and consent of instructor.
- COSC 499 HONORS THESIS IN COMPUTER SCIENCE (3-6) Writing of an honors thesis based on individual research (open only to advanced honors candidates). Prerequisite: permission of Departmental Honors Committee.

CULTURAL STUDIES (CLST)

Lower Division

- CLST 201 INTRODUCTION TO CULTURAL STUDIES (3) Culture's effect on science, identity and behavior, and on what we hear, see, value and ignore. GenEd II.B.3.
- CLST 202 HONORS INTRODUCTION TO CULTURAL STUDIES (3)
 Culture's effect on science, identity and behavior, and on what we hear,
 see, value and ignore. Prerequisite: admission to honors college.

Upper Division

CLST 301 PERSPECTIVES IN GLOBAL CULTURE (3) Semiotic, linguistic, material and psychoanalytical approaches to cultural studies and criticism. Prerequisite: CLST 201.

- CLST 303 IDENTITY AND CULTURE (3) Formation and development of class, racial, gender and sexual identity. Prerequisite: CLST 201.
- CLST 305 TEXTUALITY AND CULTURE (3) Interaction of texts and culture. Topics include literacy, genres, semiotics, reader response, non-print media and textual analysis. Prerequisite: CLST 201.

CLST 307 VISUAL CULTURE (3) Explores how images are conditioned by cultural attitudes toward race, ethnicity, sex, sexual orientation and

class. Prerequisite: CLST 201.

- CLST 309 PERFORMING CULTURE (3) Various manifestations of performance and self in culture and society examined from a humanistic perspective through literature, film and other media. Prerequisite: CLST 201.
- CLST 311 SCIENCE, TECHNOLOGY AND CULTURE (3) How science and technology interact with culture. Prerequisite: CLST 201. GenEd II.A.2.
- CLST 370-375 TOPICS IN CULTURAL STUDIES (3) Topics will vary from term to term. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: CLST 201.

DANCE (DANC)

Lower Division

- DANC 101 THE ALEXANDER TECHNIQUE (3) An examination of the psychophysical pressures of contemporary American life and the application of the Alexander technique as a method to investigate the issues of mind/body disciplines and alleviate tension and stress. May be repeated for a maximum of 6 units. GenEd II.B.3.
- DANC 105 MOVEMENT SKILLS FOR MEN (3) Using movement techniques to improve athletic and movement skills. GenEd. II.B.3.
- DANC 106 FUNDAMENTALS OF DANCE MOVEMENT FOR NON-MAJORS (3) Floor and standing work to develop upper/lower connectivity, increased rotation, efficient movement patterns, and proper support for dance movement. GenEd II.B.3.

DANC 109 JAZZ DANCE I (2) American jazz dance as traced historically through movement from Afro-Caribbean and vaudeville forms to Broadway show styles from the 1920s through the 1950s. May be

repeated for a maximum of 6 units.

DANC 111 TAP DANCE I (2) A beginning study of the technical fundamentals of tap dance. Includes basic one and two sound movements performed at the barre and simple rhythmic combinations in center. Also includes time steps and simple turns. May be repeated for a maximum of 6 units.

DANC 123 INTRODUCTION TO DANCE: EUROPEAN COURT (BALLET) (3) Western concert dance as a cultural phenomenon, methods of training, evolution of dance aesthetics, and building a world view

through movement. GenEd II.C.1.

DANC 124 BALLET FOR NON-MAJORS (2) Classical ballet class with emphasis on placement and alignment of the body, turn-out, footwork, barre work, simple allegro movements, adagio, and grande allegro movements required in the establishment of a basic technical foundation. May be repeated for a maximum of 6 units. Prerequisite: DANC 123, previous ballet training, or consent of instructor.

DANCE 125 INTRODUCTION TO DANCE: OVERVIEW (3) Western concert dance as a cultural phenomenon, methods of training, evolution of dance aesthetics, and building a world view through movement.

GenEd II.C.1.

DANC 127 INTRODUCTION TO DANCE: AMERICAN EXPERIENCE (MODERN) (3) American concert modern dance as a cultural phenomenon, methods of training, evolution of dance aesthetics, and building a world view through movement. Field experiences may be required. GenEd II.B.1.

DANC 128 MODERN DANCE FOR NON-MAJORS (3) Course work in modern dance technique as derived in part from principles of American founders of modern dance. May be repeated for a maximum of 6 units. Prerequisites: DANC 125 or DANC 127 or previous modern dance

training, or consent of instructor.

DANC 133 HONORS INTRODUCTION TO DANCE: EUROPEAN COURT (BALLET)(3) European court concert dance as a cultural phenomenon, methods of training, evolution of ballet aesthetics, and building a world view through movement. Field experiences may be required. GenEd II.C.1.

DANC 200 OUR DANCE CORRIDOR: A BALTIMORE/WASHING-TON SAMPLER (3) Experiencing American culture through theatrical dance performances in Balitmore and the surrounding area. Field trips

are required. GenEd. II.B.1.

DANC 201 DEVELOPMENTAL MOVEMENT (3) Movement-based experiences in developmental stages of children; motor actions, personality development, spatial organization, and emerging literacy. Prerequisite: PSYC 201.

DANC 209 JAZZ DANCE II (2) A continuation of Broadway show from the early 1960s to the present day. Includes study of contemporary jazz technique with emphasis on rock, funky, lyric, and percussive movement. May be repeated for a maximum of 6 units. Prerequisite: DANC

109 or consent of instructor.

DANC 211 TAP II (2) A continued study of tap dance including complex rhythms, tempt, barre and center work. New movements include wings, trenches, riffs and advanced turns. May be repeated for a maximum of 6 units. Prerequisite: DANC 111.

DANC 216 SOPHOMORE CREW (1) Formal crew work, including experiential training in the set-up, operation and/or strike for the TU Dance Company mainstage production(s). Prerequisites: DANC 263.

DANC 220 USING INFORMATION EFFECTIVELY IN DANCE (3) Gathering, evaluating, and communicating information from traditional and electronic sources germane to dance. GenEd I.B.

DANC 223-224 LEVEL I BALLET (2) Elementary classical ballet technique: classical form, static and dynamic alignment, rotation, weight shift, breath support, and level change with application to classical ballet vocabulary. May be repeated for a maximum of 6 units. Prerequisite: Dance majors only, special permit required.

DANC 227-228 LEVEL 1 MODERN (2) Study of elementary modern dance technique: level change, weight shift, dynamic alignment, breath support and expression, and application of modern dance vocabulary. May be repeated for a maximum of 6 units. Prerequisite: Dance majors

only, special permit required.

DANC 235 DANCE COMPOSITION 1 (3) Introduction to the creative process through improvisation activities: self exploration, group interaction, relating musical tone and character to the development of the-

matic and abstract movement invention. GenEd I.E.

DANC 245 SCIENTIFIC BASIS FOR MOVEMENT 1 (3) Introduction to anatomical, physiological and biomechanical principles of human movement and applying these principles to body alignment and movement for dance. Majors only, special permit required. Not open to students who have successfully completed DANC 106.

DANC 251 METHODS OF TEACHING DANCE (3) A developmental approach to the teaching of creative movement and dance to children in grades K-12. Includes lesson and unit planning, observation, peerteaching, assessment and reading and writing in the content area.

Prerequisite: DANC 201.

DANC 263 DANCE DESIGN AND PRODUCTION (3) Costume, lighting, make-up, management, scenery, safety, sound and rigging techniques and practices. Not open to those who successfully completed THEA 263. Prerequisite: Dance major.

DANC 310 JAZZ DANCE III (2) A continued study of contemporary jazz technique with emphasis on performance of styles used on the concert stage, television and motion pictures. May be repeated for a maximum

of 6 units. Prerequisite: DANC 209.

DANC 316 JUNIOR CREW (1) Informal crew work, including experiential training in the set-up, operation and/or strike for non-TU Dance Company dance department production(s). Prerequisite: DANC 216.

- DANC 321 RESPONDING TO DANCE (3) Advanced writing course using a variety of dance eras, genres and cultures. Prerequisites: junior/senior standing; ENGL 102 or 190; DANC 125 and DANC 220. GenEd I.D.
- DANC 323-324 LEVEL II BALLET (3) Continued study of classical ballet technique: emphasis on exploring and embodying a particular world view, including intermediate level enchainments, shifting weight; physically and musically connecting movement sequences; sequencing combinations designed to develop both strength and flexibility. May be repeated for a maximum of 9 units. Prerequisites: dance majors only, special permit required.

DANC 327-328 LEVEL II MODERN (3) Continued study of intermediate modern dance technique: emphasis on exploring and embodying a particular world view, including expanded movement vocabulary involving sequences of greater complexity — kinesthetically, spatially and musically. May be repeated for a maximum of 9 units. Prerequisites:

Dance majors only, special permit required.

DANC 335 DANCE COMPOSITION II (3) Solo and duet choreography. Graded S/U. Prerequisites: DANC 235, Dance majors only, special permit required. DANC 336 DANCE COMPOSITION III (3) Group studies: continued exploration of thematic and abstract material; elements of dance and musical forms. Graded S/U. Prerequisites: DANC 335, Dance majors only, special permit required.

DANC 341 POINTE TECHNIQUE I (2) Basics of pointe (toe) work essential to students whose interest is in total comprehension of the elements necessary to the performance of classical ballet. Includes work to strengthen the ankles and insteps and acclimation of body weight and placement sur les pointes. May be repeated for a maximum of 6 units. Prerequisite: DANC 223-224.

DANC 342 POINTE TECHNIQUE II (2) Continuum of Pointe Technique I with emphasis on tempi, allegro combinations, enchainments au milieu, and barre supported adage. May be repeated for a maximum of

6 units. Prerequisite: DANC 341.

DANC 345 SCIENTIFIC BASIS FOR MOVEMENT II (3) Continued study of the anatomical, biomechanical, developmental and qualitative principles of human movement and applying these principles to increase movement function and expression for dance. Majors only, special permit required. Not open to students who have successfully completed DANC 421. Prerequisite: DANC 245.

DANC 351 TEACHING DANCE TECHNIQUE (3) Organization, sequencing, and teaching techniques for studio dance classes in ballet,

modern, jazz and tap dance.

- DANC 370-379 SPECIAL TOPICS IN DANCE (1-3) Workshops and courses designed for study of special topics in dance not available in existing courses. Examples: Principles and Practices of Auditioning. Dance Repertory, Seminar in Dance Education, etc. Will be offered depending on student and faculty interest and availability. May be repeated for credit provided a different topic is covered. Prerequisite: consent of department chair.
- DANC 383 MODERN DANCE REPERTORY (3) Concentrated study of historical, current, or new repertory in modern dance, culminating in (a) performance(s). May be repeated for a maximum of 9 units. Prerequisite: DANC 327-328 or consent of the instructor.
- DANC 384 BALLET REPERTORY (3) Concentrated study of historical, current or new repertory in ballet, culminating in (a) performance(s). May be repeated for a maximum of 9 units. Prerequisite: DANC 323-324 or consent of instructor.

DANC 391 STUDENT TEACHING IN ELEMENTARY SCHOOL (6) DANC 392 STUDENT TEACHING IN SECONDARY SCHOOL (6)

- DANC 423-424 LEVEL III BALLET (3) Continued study of classical ballet technique: advanced level enchainments, standard classical divertissement and style distinctions including progression of technical complexities and approaches to contemporary ballet stylization. May be repeated for a maximum of 9 units. Prerequisite: Dance majors only, special permit required.
- DANC 427-428 LEVEL III MODERN (3) Continued study of advanced modern dance technique utilizing complex movement and sequences. Focus on interpretation and performances. May be repeated for a maximum of 9 units. Prerequisites: Dance majors only, special permit

required.

DANC 436 DANCE COMPOSITION IV: FOR THE PROSCENIUM (3)
Advanced study of choreography tailored to individual student interests with applications to traditional proscenium work. Includes interdisciplinary, site-specific and/or collaborative formats, Not open to students who have successfully completed DANC 435. Graded S/U. Prerequisites: DANC 336, special permit required.

DANC 437 DANCE COMPOSITION IV: FOR THE CAMERA (3) Advanced study of choreography tailored to individual student interests with applications to dance for the camera work. Includes interdisciplinary, site-specific and/or collaborative formats. Not open to students who have successfully completed DANC 435. Graded S/U.

Prerequisites: DANC 336, special permit required.

DANC 451 DANCE EDUCATION AND PUBLIC POLICIES (3) Examination of strategies for dance arts advocacy and dance education policies in public school contexts with emphasis on project-based and field experiences. Prerequisites: DANC 251, Dance majors only, special permit required.

DANC 480 SÉNIOR PROJECT: SEMINAR (2) Preparation for producing a dance concert or lecture-demonstration: planning, programming, technical production, box office management, budgeting, publicity and documentation. Graded S/U. Prerequisites: DANC 316, DANC 263 and senior Dance major standing, special permit required.

DANC 481 DANCE COMPANY (3) Study and performance of advanced compositions including works by professional guest choreographers in ballet, modern and jazz/musical theatre style culminating in a performance. Course may be repeated for a maximum of 24 units. Prerequisite: audition,

- DANC 491 SENIOR PROJECT: CONCERT/LECTURE DEMONSTRATION (3) Student-directed concert and/or lecture-demonstration production; publicly produced in the spring term of the senior year. Graded S/U. Prerequisites: DANC 480, Dance majors only, special permit required.
- DANC 492 PRACTICUM IN DANCE TECHNIQUE (1-6) Student-directed studio course work in dance technique at a departmentally approved professional training school or program. May be repeated for a maximum of 6 units. Prerequisites: Dance majors only, special permit required.
- DANC 493 PRO-SEMINAR IN TEACHING DANCE (1) Critical analysis of curriculum, instruction and assessment procedures related to the promotion of literacy with movement and dance education in the context of the student internship. Prerequisites: taken concurrently with DANC 391 and DANC 392; Dance majors only; special permit, Graded S/U.
- DANC 495 INDEPENDENT STUDY IN DANCE (1-3) Self-directed study of an academic or creative project designed to focus on a specialized area of dance. May be repeated for a maximum of 9 units. Prerequisite: approval of plan of study by instructor and department chair.

DEAF STUDIES (DFST)

Lower Division

DFST 206 AMERICAN SIGN LANGUAGE 1 (3) Emphasizes receptive and expressive conversational skills in American Sign Language. Class will be conducted in a silent classroom (no voices allowed). Non-verbal communication skills and basic interpretive practice will be provided. Prerequisite: SPPA 205 and/or consent of instructor.

Upper Division

DF\$T 307 AMERICAN SIGN LANGUAGE II (3) Continued skill development in expressive and receptive American Sign Language begun in ASL I. Prerequisites: SPPA 205, DF\$T 206 and/or consent of department.

DFST 308 FINGERSPELLING AND NUMBER USAGE (2) Development and refinement of expressive fingerspelling skills through the use of classroom activities, videotapes and assignments. Prerequisite: DFST 307, consent of instructor or chairperson.

DFST 309 INTRODUCTION TO DEAFBLINDNESS (2) Methods for communicating, techniques for guiding, and information on assistive technology for individuals with hearing and vision loss. Prerequisites: SPPA 205, DFST 345.

DFST 310 CAREER EXPLORATION IN DEAFNESS (3) Careers using sign language and careers working with deaf people. Prerequisite: SPPA

205, and/or consent of department.

DFST 311 AUDITION, SCIENCE AND SOCIAL IMPACT (3) Acoustics, psychoacoustics, anatomy, physiology and pathologies of the hearing mechanism. Assessment of auditory function. Demographics and cultural considerations, management, and social impact of deafness and hearing loss. Prerequisite: one course fulfilling GenEd. II.A.1. Not open to students who have taken SPPA 321.

DFST 345 PSYCHOSOCIAL ASPECTS OF DEAFNESS (3) The educational, legal, philosophical and political influences that affect the lives of people who are deaf or hard of hearing. The impact of prelingual and postlingual deafness on an individual's social and psychological functioning will be discussed. Prerequisite: major status and/or consent of

department.

DFST 403 AMERICAN SIGN LANGUAGE III (3) Intermediate grammatical features of ASt., vocabulary, conversational skills, as well as information on the culture of the deaf community. Prerequisite: DFST 307 and/or consent of the department.

DEST 404 AMERICAN SIGN LANGUAGE IV (3) Advanced grammatical features of ASL, vocabulary, conversational skills and involvement with the deaf community. Prerequisite: DEST 403 and/or consent of the

department.

DEST 410 INTERNSHIP IN DEAF STUDIES (2-4) Supervised field experience with children and/or adults who are deaf or hard of hearing. One hour per week of class time and 60-120 units of field placement. Prerequisites: DEST 307, DEST 345 and DEST 310; major GPA 2.50 or higher completed communication screening; criminal background check completed within two years, and/or consent of the department.

DEVELOPMENTAL MATHEMATICS (DVMT)

DVMT 401 DEVELOPMENTAL MATHEMATICS II (4) A review of elementary and intermediate algebra including equations and inequalities, graphing linear equations, functions, polynomials and factoring, radicals, exponents, and quadratic functions. Placement based on competency test scores. No credit toward graduation. Graded S/U. Prerequisite: departmental placement.

DVMT 110 INTERMEDIATE ALGEBRA (3) A review of intermediate

algebra beginning with rational expressions, and covering systems of equations and inequalities, graphical solutions, radicals and exponents, and quadratic functions. Placement based on competency test scores. No credit toward graduation, Graded S/U. Prerequisite: department placement or DVMT 101.

DEVELOPMENTAL READING (DVRD)

DVRD 101 DEVELOPMENTAL READING II (3) Reviews the basic reading skills and stresses the development of intermediate reading skills important for effective college reading including inferential comprehension, critical reading, and varied reading rates. No credit toward graduation. Graded S/U. Prerequisite: department placement.

DEVELOPMENTAL WRITING (DVWR)

DVWR 101 PREPARATION FOR COLLEGE WRITING (3) Review of grammar and usage; instruction and practice in writing effective sentences. Prerequisite to ENGL 102 for students whose scores indicate they need additional preparation for college-level writing. Prerequisite: departmental placement, No credit toward graduation.

E-BUSINESS (EBUS)

Upper Division

EBUS 311 PRINCIPLES OF E-BUSINESS (3) Using resources on the Internet including design of Web pages and conducting husiness on the Net. Not open to those who successfully completed ECOM/MNGT

311. Prerequisites: special permit, MNGT 337/437.

EBUS 367 INTERNET TECHNOLOGY (3) Introduction to technical management of Internet business support systems. Topics include Internet protocols, bandwidth and response time issues, server configuration and requirements, maintenance and scalability issues, security and firewalls. Not open to those who successfully completed ECOM 367. Prerequisites: MNGT 337/437, EBUS/ECOM/MNGT 311.

EBUS 411 E-BUSINESS MARKETING (3) Retrieval, analysis and storage of information to support marketing decisions utilizing Internet and World Wide Web. Not open to those who successfully completed MKTG/ECOM 411. Prerequisites: MKTG 341/342, MNGT 337/437,

EBUS/ECOM/MNGT 311.

EBUS 421 FINANCIAL ASPECTS OF E-BUSINESS (3) Strategic and tactical financial issues facing business including wealth management, enterprise integration revenue models, e-procurement, payment and security systems, tax implications, e-banking and other financial services. Prerequisites: FIN 331, EBUS/ECOM/MNGT 311, and consent of

department.

EBUS 431 ADVANCED E-BUSINESS (3) This course deals with advanced issues of e-Business including conceptual aspects of various e-Business elements, applications and technological components which make e-Business possible. Topics include B2B marketplaces, workplaces, customer relationship management, supply chain management, business intelligence and product life cycle management. Not open to students who have successfully completed ECOM 341 or MNGT 411. Prerequisites: EBUS/ECOM/MNGT 311, EBUS/ECOM 367, EBUS/ECOM/MNGT 411, EBUS/ECOM 421.

EBUS 469 CURRENT DEVELOPMENT IN E-BUSINESS (3) Advanced special topics course in e-Business. The course offers solid preparation in e-Business project management, international electronic business as well as variable content in e-Business. Prerequisites: special permit; EBUS/ECOM/MNGT 311, EBUS/ECOM 367, EBUS/ECOM/MNGT

411, EBUS/ECOM 421.

EBUS 470 SPECIAL TOPICS IN E-BUSINESS (3) Course content varies with each topic. In-depth study of contemporary e-Business issues and how they affect business strategies. May be repeated with a different topic for a maximum of 6 units. Prerequisite: admission to the EBUS major.

EARLY CHILDHOOD EDUCATION (ECED)

Lower Division

ECED 103 INTRODUCTION TO EARLY CHILDHOOD EDUCATION (3) Key components and aspects of the early childhood profession;

examination of current trends and issues. Initiates professional portfolio. ECED 201 INTERVENTION AND THE YOUNG CHILD (3) Social, physiological and psychological growth of young children from birth through age eight, including extensive investigation of interventions with young children and their families. Pre requisite: ECED 103 Introduction to Early Childhood Education. Not open to students who have completed ECED 101 Young Child as a Learner.

Upper Division

ECED 301 MATERIALS AND EXPERIENCES FOR THE YOUNG CHILD (3) Stimulating the intellectual, physical, social and emotional development of young children through the use of varied instructional materials and activities. Prerequisite: ECED 201, ECED 303 or consent of chair.

ECED 303 CURRICULUM FOR YOUNG CHILDREN (3) Curriculum content and methods of teaching in programs for children under six. Emphasis on the integrated curriculum of language arts, social studies, nutrition, health and safety. Not open to students required to enroll in ECED 341 and ECED 342. Prerequisites: ECED 103 and ECED 201 or equivalents.

ECED 315 INFANT INTERVENTION (3) Psychological, social and physiological growth and development of infants and toddlers. Introduces Individual Family Service plans and early Head Start.

Prerequisite: 6 units in early childhood education.

ECED 321 FOUNDATION OF READING AND LANGUAGE ARTS (3)
Theories, processes and acquisition of reading and language arts including cognitive, linguistic, social and physiological factors involved in oral and written language development. Prerequisites: admission to major, 6 units of early childhood education course work.

ECED 341 PREPRIMARY CURRICULUM (4) Historical development and contemporary best practices in curriculum and methods of teaching children under six years of age. Includes concurrent enrollment in ECED 360, KNES 324, ARED 373, MUED 304 and SCIE 371. Extensive field placement. Pre requisites: admission to the Early Childhood Education Program, ECED 103, ECED 201, ECED 315, PSYC 201, SPED 301.

ECED 342 PRIMARY CURRICULUM (4) Emphasis is on the developmentally appropriate objectives, materials, activities and methods for teaching grades 1-3 language arts, social studies, mathematics and science. Includes concurrent enrollment ECED 361, ECED 417, ECED 429, MATH 321. Extensive field placement. Prerequisites: admission to the Early Childhood Education Program and successful completion

of the term #6 Pre-primary curriculum sequence.

ECED 351 STUDENT TEACHING INTERNSHIP: PRIMARY (6) Integration of theory and practice in public school grades 1-3 with guidance from the classroom mentor teacher and the university supervisor. Concurrent seminar session on campus to analyze, synthesize and reflect on the internship experience. Approximately seven weeks. Graded S/U. Prerequisites: meeting admission to student-teaching standards, completing student-teaching internship application with the Center for Professional Practice (CPP), consent of department chair and CPP director.

ECED 352 STUDENT TEACHING INTERNSHIP III: PREPRIMARY

(6) Integration of theory and practice in a public school preschool, prekindergarten or kindergarten setting with guidance from the classroom
mentor teacher and university supervisor. Concurrent seminar session
to analyze, synthesize and reflect on the internship experience.
Approximately seven weeks. Graded S/U. Prerequisites: meeting
admission to student-teaching internship standards, completing student-teaching internship application with the Center for Professional
Practice, consent of department chair and CPP director.

ECED 355 DIFFERENTIATED STUDENT TEACHING INTERNSHIP IN EARLY CHILDHOOD EDUCATION (1-8) Student teaching internship experiences different from those provided in ECED 351 and ECED 352 based upon the needs of individual students. [Note: This is not a substitute for ECED 351 or ECED 352.] Experiences may be in public and private settings such as day-care centers, parent-child or infant programs, hospitals, or early intervention programs for young children who are developmentally disabled or at-risk and their families. Graded S/U. May be taken for a maximum of 8 units. Prerequisite: approval of adviser, department chair and CPP director.

ECED 360 EARLY LITERACY: BEST PRACTICES AND MATERIALS (3) Study of emerging literacy process in children birth to age 5. Examination of strategies, materials and experiences for literacy development. Prerequisites: admission to the ECED major; ECED 321,

taken concurrently with ECED 341.

ECED 361 TEACHING READING IN THE PRIMARY GRADES (1-3): BEST PRACTICES AND MATERIALS (3) Best practices, research and materials emphasizing developmentally appropriate active learning related to the process for heginning reading through grade three. Prerequisites: junior standing, admittance into the major, taken with ECED 342, ECED 417, ECED 429, MATH 321.

ECED 403 THE CURRICULUM IN PRIMARY EDUCATION (3) The child, curriculum, content, methods and materials of teaching and program organization in the early primary school years. Emphasis is on the

integrated curriculum of language arts, social studies, mathematics and science. Not open to students required to enroll in ECED 341 and ECED 342. Prerequisites: ECED 103 and ECED 201 or equivalents.

ECED 407 [507] INTERACTIVE TECHNOLOGY AND THE YOUNG CHILD (3) Emerging issues on interactive technology and early childhood education. Availability and use of interactive technology in schools. Prerequisite: ISTC 201, admission to major.

ECED 411 [511] PARENTS AND TEACHERS: PARTNERS IN EARLY CHILDHOOD EDUCATION (3) The development of a rationale for improved parent-teacher relationships in early childhood education programs. The role of paraprofessionals, specialists and volunteers. Observation, participation in school work with parents and building the parent and school team are covered in the course. Prerequisite: 6 units of early childhood education or equivalent course work.

ECED 417 [517] ASSESSMENT IN EARLY CHILDHOOD EDUCATION (3) Developmentally appropriate methods of assessing young children, including methods for identifying disabilities using formal and informal assessment. Prerequisites: ECED 201; ECED 315; ECED 321; PSYC

ECED 418 TEACHING THINKING SKILLS TO YOUNG CHILDREN

(1) Focuses on current theories of teaching thinking skills with emphasis on methods, activities and questioning techniques appropriate in early childhood education. Infrequently offered. Prerequisites: ECED 341 and 342 or equivalent, concurrent with student teaching or consent of department chairperson.

ECED 421 [521] PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) Research findings used as a basis for program planning in nursery school, kindergarten and primary grades; current trends and issues are considered. Prerequisites: admission into the major, student teaching and/or teaching experience in preschool or primary grades; junior

ECED 422 WRITING TECHNIQUES FOR TEACHERS IN EARLY CHILDHOOD EDUCATION (3) Applied rechniques of written communication for classroom teachers and professional educators. Focus on developing the ability to write thoughtful, well-organized letters, reports, critiques and other professional papers. Prerequisites: ENGL 102/190, admission to major and 6 units of education course work. GenEd I.D.

ECED 429 PRINCIPLES AND PRACTICES OF READING AND LAN-GUAGE ARTS ASSESSMENT (3) Examination and practice using a range of literacy and reading assessments. Focus on relationship of assessment to instructional planning for diverse learners. Prerequisites: admission into major; taken concurrently with ECED 342 and ECED

ECED 470-489 SPECIAL TOPICS IN EARLY CHILDHOOD EDUCA-TION: (Topics to be determined) (1-3) In-depth study of a selected topic in early childhood education. The specific requirements and prerequisites will vary with each course, and this will be designated by the department each time a topic is scheduled. Graduate credit only with the approval of the department graduate director. Each topic may be taken as a separate course, repeatable for different topics for a maximum of 6 units.

ECED 494 [594] TRAVEL AND STUDY: EARLY CHILDHOOD EDUCA-TION (1-6) A field study, including cultural tours in selected foreign countries, of current early childhood education programs, facilities and trends. Academic work includes lectures, observations and personal interactions. Participation in planned educational activities and a follow-up paper are required. May be repeated for a maximum of 6 units. Prerequisite: junior standing or consent of department chair. Consent of departmental graduate director required for graduate credit.

ECED 495 INDEPENDENT STUDY IN EDUCATION; EARLY CHILD-HOOD EDUCATION (1-4) Independent study in selected areas of early childhood education. May be repeated for a maximum of 4 units. Prerequisites: ECED majors only, completed application form, permis-

sion of department chair and 3.00 GPA.

ECED 496 DIRECTED READING: EARLY CHILDHOOD EDUCATION (I-4) Independent reading in selected areas of early childhood education or related topics. May be repeated for a maximum of 4 units. Prerequisites: ECED majors only, completed application form, permission of department chair and 3.00 GPA.

Graduate Division

See TU Graduate Catalog for course descriptions.

ECONOMICS (ECON)

Lower Division

ECON 201 MICROECONOMIC PRINCIPLES (3) Economic reasoning of individual choice in household and market decisions; behavior of firms in competitive and noncompetitive markets, functioning of labor and capital markets, role of the entrepreneur and effects of government policies. GenEd II.C.2.

ECON 202 MACROECONOMIC PRINCIPLES (3) Inflation and unemployment - causes and remedies. Money and banking, government

spending and taxation, International trade, GenEd II.B.2

ECON 203 HONORS MICROECONOMIC PRINCIPLES (3) How private enterprise determines what is produced, prices, wages, profits. Supply and demand. Competition and monopoly. Labor unions, income distribution. Farm policy. The role of government in our economy. Not open to students who successfully completed ECON 201. GenEd II.C.2.

ECON 204 HONORS MACROECONOMIC PRINCIPLES (3) Analysis of the aggregate dimensions of the American economy. An investigation of American culture by the study of the American economy. Topics include national income and employment, inflation, economic development, business cycles, international trade, government spending and taxation. Not open to students who successfully completed ECON 202. GenEd II.B.2

ECON 205 STATISTICS FOR BUSINESS AND ECONOMICS 1 (3) Analysis and presentation of business and economic data; descriptive statistics and statistical inference; measures of central tendency and variability; estimation; testing of hypothesis; linear regression analysis. Not open to students who successfully completed ECON 301. GenEd

ECON 303 AMERICAN ECONOMIC DEVELOPMENT (3) Description and analysis of growth and development of U.S. economy and its institutions from colonial times to 20th century. Emphasis on "new" economic history: explicit economic models and quantitative methods to analyze historical phenomena. Pre requisites: ECON 201/203 and

ECON 202/204.

ECON 305 SURVEY OF INTERNATIONAL ECONOMICS (3) Principles of international trade and international monetary theory and finance; international economic problems and issues facing the United States within the global economy. This course does not count toward Economics major or minor requirements. Pre requisites: ECON 201/203 and ECON 202/204.

ECON 306 STATISTICS FOR BUSINESS AND ECONOMICS (3) Regression models and regression analysis, ANOVA designs; extensive use of SPSS; non-parametric statistics; constrained optimization and linear programming; decision theory; cross-sectional and time-series analysis. Not open to students who have successfully completed MNGT 263/363. Prerequisite: ECON 201, ECON 202, ECON 205 or MATH 231 or equivalent.

ECON 309 INTERMEDIATE PRICE THEORY (3) Determination of prices, output, wages, resource allocation. Theory of the firm. Theory of competition, monopolistic competition, oligopoly and monopoly.

Prerequisites: ECON 201/203 and ECON 202/204.

ECON 310 MACROECONOMIC THEORY (3) Impact of monetary and fiscal policy. The overall level of output, prices, employment, interest rates. Prerequisites: ECON 201/203 and ECON 202/204.

ECON 313 MONEY AND BANKING (3) Organization and function of the money, credit and banking system of the United States, banking institutions, Federal Reserve System; the relation of money and credit to prices; foreign exchange. Prerequisites: ECON 201/203 and ECON 202/204.

ECON 321 HISTORY OF ECONOMIC THOUGHT (3) Development of economic theory; 18th- and 19th-century classical schools. Modern economic literature on price, investment and employment.

Prerequisites: ECON 201/203 and ECON 202/204.

ECON 323 COMPARATIVE ECONOMIC SYSTEMS (3) Effects of alternative institutional arrangements on incentives and individual behavior affecting the allocation of resources. Differences between decentralized or market systems and centralized or government planning. Prerequisites: ECON 201/203 and ECON 202/204. GenEd I.D.

ECON 325 ECONOMIC DEVELOPMENT (3) Theory of economic growth. Problems and programs relating to least developed countries. Prerequisites: ECON 201/203 and ECON 202/204. GenEd LD.

- ECON 330 INDUSTRIAL ORGANIZATION (3) Competition, collusion, monopoly, and oligopoly in regulated and unregulated markets. Economics of firm management, market organization, sales practices and anti-trust laws, Prerequisites: ECON 201/203 and ECON 202/204.
- ECON 331 GOVERNMENT AND ECONOMIC LIFE (3) Economics and philosophy of markets and government and criteria for judging their

- success: end-state vs. process, utilitarian vs. individual rights. Applications focus on competition and antitrust; others include industrial policy, welfare economics and public choice. Prerequisites: ECON 201/203 and ECON 202/204.
- ECON 333 ECONOMICS OF POVERTY AND DISCRIMINATION (3) Study of the causes of poverty. How poverty and discrimination are interrelated. An analysis of existing and proposed programs to alleviate poverty and discrimination. Prerequisites: ECON 201/203 and ECON 202/204. GenEd l.D.
- ECON 337 PUBLIC FINANCE (3) Non-market provision of goods and services at all levels of government: principles of public finance, specific public spending programs and taxes, allocation of resources and income distribution. Prerequisites: ECON 201/203 and ECON 202/204.
- ECON 339 HEALTH ECONOMICS (3) Analysis of the economic organization of the health care sector of the U.S. economy; alternative health care delivery systems and methods of financing health care services; current issues in health economics. Prerequisite: one upper-level economics course or consent of instructor.
- ECON 341 [541] LABOR ECONOMICS AND LABOR RELATIONS (3) The determination of wages. Labor unions: history, structure, activities, effects. Government labor policy. Prerequisites: ECON 201/203 and ECON 202/204.
- ECON 351 URBAN ECONOMICS (3) Economic bases for the existence of metropolitan areas. The economy of the metropolitan area; its growth, income distribution, economic stability. Transportation and land use patterns. Social and other problems of metropolitan areas. Application of elementary price theory to the analysis and solution of urban issues and problems. Prerequisites: ECON 201/203 and ECON 202/204.
- ECON 374 [574] ECONOMIC ISSUES OF GENDER (3) Explores the changing role of men and women in the United States and other economies with specific emphasis on issues such as differences in occupations and wages, theories of discrimination, the economics of the household, child care, divorce, poverty, and the effect of government programs on families. Prerequisite: ECON 201/203.
- ECON 375 ENVIRONMENTAL ECONOMICS (3) Applying tools of economic theory to issues focusing on natural resources and environmental policy. Topics include market failure, valuation of non-market goods, cost-benefit analysis and pollution. Pre requisite: ECON 201/203.
- ECON 376 NATURAL RESOURCE ECONOMICS (3) Use of natural resources in the economy and related public policy issues emphasizing the role of property rights, markets, finance, and market failures. Topics may include resource scarcity, energy, forests, marine resources, water supply, biodiversity, land use, outdoor recreation, and international development. Prerequisite: ECON 201/203.
- ECON 401 INTRODUCTION TO ECONOMETRICS (3) The problem of testing economic theories against empirical data; the formulation and estimation of regression model; the use of the method of multiple regression in testing the various hypotheses of economic theories; serial correlation; the problem of identification; application of simultaneous equation models; the use and construction of econometric models for forecasting and policy making. Prerequisites: ECON 201/203, ECON 202/204 and ECON 205.
- ECON 409 MANAGERIAL ECONOMICS (3) Applications of micro-economic theory to business policies and decisions. The utilization of analytical and decision-making tools derived mainly from economic theory, quantitative methods, finance and marketing theory. Topics considered include pricing practices and market structures, investment decision-making, and estimation of demand and cost of production. Prerequisites: ECON 309 and ECON 205 or MATH 231/233.
- ECON 421 INTERNATIONAL ECONOMICS (3) International trade theory; balance of payments, problems, and adjustment mechanism; foreign exchange; foreign trade policy; theory of tariffs and other trade restrictions; international monetary system and organization; trade and economic growth. Prerequisites: ECON 201/203 and ECON 202/204.
- ECON 423 INTERNATIONAL MONETARY THEORY AND POLICY (3) International issues in money and banking. Foreign exchange markets, exchange rates and adjustment in the balance of payments. International monetary theory and its application. Prerequisites: ECON 309 and ECON 310.
- ECON 441 [540] PERSONNEL ECONOMICS (3) Use of economics to solve practical personnel problems with specific issues in training, turnover, hiring, incentives, fringe benefits, evaluation and legal constraints. Prerequisite: ECON 201/203.
- ECON 451 INTRODUCTION TO MATHEMATICAL ECONOMICS (3)
 Intended primarily for students planning a graduate education in eco-

- nomics. A study of the fundamental mathematical methods widely used in economics: calculus and linear algebra. Emphasis is on optimization theory; economic examples are used throughout. Prerequisites: ECON 309, ECON 310 and MATH 211 or MATH 274.
- ECON 470-479 TOPICS IN ECONOMICS (3) The economic development process in a particular area of the world. The region chosen will depend upon mutual faculty and student interest. Analysis of the different factors that have promoted and hindered economic growth. Various policy options will be explored. May be repeated for credit provided a different topic is covered. Prerequisites: ECON 201/203 and ECON 202/204, junior standing, and two upper-level economic courses.
- ECON 485 [585] SEMINAR ON ECONOMIC ISSUES (3) Research and writing of papers on an economic issue selected by the instructor. Prerequisites: ECON 309 and ECON 310.
- ECON 493 [593] WORKSHOP ON ECONOMIC EDUCATION (3)
 Designed to help teachers and school administrators gain a better
 understanding of the economic working of the society in which we live.
 Prerequisite: consent of the instructor.
- ECON 495 INDEPENDENT STUDY (1-3) Individual and supervised study in selected areas of economics. Prerequisites: Economics major, junior standing, 2.50 GPA, ECON 309 and consent of instructor.
- ECON 497 INTERNSHIP IN ECONOMICS (I-3) Supervised work experience designed to promote an understanding of the economic system and the practical application of economic principles. Graded S/U. Prerequisites: Economics major, junior standing, 2.50 GPA, ECON 309, ECON 310 and consent of internship coordinator.
- ECON 499 HONORS THESIS IN ECONOMICS (3) Independent research completed under the close supervision of a faculty thesis adviser. Prerequisites: ECON 495; 3.25 overall GPA; 3.50 GPA in ECON classes, and consent of faculty thesis adviser and honors coordinator.

Graduate Division

See TU Graduate Catalog for course descriptions.

EDUCATION (EDUC)

Lower Division

- EDUC 201 THE PARENTING PROCESS (3) An overview of the American parenting experience designed to give the learner information he or she will need to become an effective parent. GenEd Il.B.3.
- EDUC 203 TEACHING AND LEARNING IN A DIVERSE SOCIETY (3) Multicultural influences on education, processing self-awareness and awareness of others while exploring approaches to advocacy and social action with special attention to educational contexts. Includes field experience, GenEd II.C.3.

- EDUC 301 WRITING AND COMMUNICATION SKILLS FOR TEACH-ERS (3) Practicum on development of written and oral communication skills needed in professional teaching situations. Focus will be on preparation of written materials which are appropriate for specific classroom and professional needs. Course content will be individualized to meet interests and needs of class members. Prerequisite: ENGL 102 or ENGL 190. GenEd I.D.
- EDUC 401 FOUNDATIONS OF EDUCATION (3) Sociological, philosophical, psychological and historical foundations of Western education. Perspectives in these areas as they relate to current educational issues and practices. Prerequisite: consent of chair, Department of Secondary Education.
- EDUC 407 [507] CONTEMPORARY ISSUES IN EDUCATION (3) Seminar approach to current issues in education. Prerequisite: student teaching or senior standing with consent of instructor. (No prerequisites when offered in day.)
- EDUC 414 ASSESSMENT AND EVALUATION OF EDUCATIONAL PROGRAMS (3) Development and use of classroom assessment and evaluation techniques. Assessment: portfolios and student progress. Evaluation: formative, summative and performance based. Validity, reliability and useability of test results. Not open to those who successfully completed EDUC 414.
- EDUC 417 [517] CHILDREN'S LITERATURE AND OTHER MATERIALS FOR READING AND LANGUAGE ARTS IN ELEMENTARY SCHOOL (3) Study of literature, texts and technology of reading and language arts instruction. Attention to authors, illustrators, awards, criteria for selection and importance in curricula. Prerequisites: two English courses.

300 Course Descriptions

EDUC 419 [519] STORYTELLING (3) The selection and presentation of stories for children. A study of sources for the storyteller in folklore, myth, legend, poetry and the writings of storytellers. Development of skills in storytelling. Prerequisite: EDUC 417 or consent of instructor.

EDUC 460 [560] TEACHING IN A MULTI-CULTURAL/MULTI-ETH-NIC SOCIETY (3) Provides teacher education students with the background knowledge, understanding and techniques ro deal effectively with children from diverse cultural and ethnic backgrounds.

Prerequisite: 3 units in education or PSYC 201.

EDUC 470-471 [570-589] SPECIAL TOPICS IN EDUCATION: (Topic to be named) (1-3) In-depth study of a selected topic in education. The specific requirements and prerequisites will vary with each topic and will be designated by the department each time there is a topic scheduled. May be repeated for credit provided a different topic is covered.

EDUC 494 [594] TRAVEL AND STUDY EDUCATION: (Project to be named) (1-6) Study abroad of educational facilities, programs or practices, or selected projects in educational topics. By specific arrangement

with program chair and sponsoring instructors.

EDUC 495 [595] INDEPENDENT STUDY IN EDUCATION: (Project to be named) (1-4) An opportunity for especially qualified students to undertake research problems or study projects relevant to their interest and training under the direction of a staff member. Prerequisite:

approval of appropriate program chair.

EDUC 496 [596] DIRECTED READINGS IN EDUCATION (1-4) Independent readings in selected areas of education in order to provide for the individual a comprehensive coverage or to meet special needs. By invitation of the department to major students. Pre requisite: approval of appropriate program chair.

Graduate Division

See TU Graduate Catalog for course descriptions.

ELECTRONIC MEDIA AND FILM (EMF)

Lower Division

EMF 100 USING INFORMATION EFFECTIVELY IN ELECTRONIC MEDIA AND FILM (3) The pursuit, evaluation and selection of information in the study of electronic media and film and its effective and ethical organization and presentation. GenEd I.B.

EMF 140 INTRODUCTION TO ELECTRONIC MEDIA (3) Role of science, politics, culture and economics in the development and present status of radio, television, cable, film and satellite industries. GenEd

II.B.3

EMF 205 WOMEN AND GENDER IN FILM (3) Treatment of women and gender issues in film from silent movies to present, GenEd II.C.3.

EMF 221 PRINCIPLES OF FILM AND MEDIA PRODUCTION (3) Basic techniques and principles of film, video and audio.

EMF 265 AUDIO PRODUCTION 1 (3) Theory and practice of audio production and its relationship to other aspects of media production. Prerequisites: EMF 140 and EMF 221.

EMF 267 FILMMAKING 1: BASIC 16MM PRODUCTION (3)
Techniques and theories of motion picture production. Students plan,

film and edit their projects. Prerequisite: EMF 221.

EMF 271 TELEVISION STUDIO PRODUCTION (3) Basic principles, procedures, techniques and terminology of television studio production.

Prerequisite: EMF 221.

EMF 275 PRINCIPLES OF FILM AND VIDEO EDITING (3) Theory, history and practice of post-production methods and aesthetics, emphasizing narrative continuity techniques. Prerequisite: EMF 267 or EMF 271 or EMF 373.

- EMF 311 HISTORY OF ELECTRONIC MEDIA (3) Economic, social, technical and artistic factors in the development of radio, television and other media from 1900 to the present. Prerequisites: EMF 140 and ENGL 102.
- EMF 331 BROADCAST/CABLE PROGRAMMING (3) Programming principles, strategies and practices for the radio, television and cable industries. Analysis and evaluation of programs and program formats. Prerequisites: EMF 265 or EMF 271.
- EMF 351 TELEVISION STATION OPERATIONS (3) Theory and practice of station operations. Work is required at WMJF-TV, the university's television station. Prerequisite: EMF 271 and consent of instructor.
- EMF 355 ELECTRONIC MEDIA AND FILM LAW AND REGULATION (3) Examination of the laws and rules that affect the film and electronic media industries and the regulatory framework through which they are applied. Prerequisite: EMF 140.

- EMF 360 AUDIO DOCUMENTARY (3) Research, scriptwriting and audio technology to communicate contemporary and historical ideas to broad audiences. Prerequisite: EMF 265.
- EMF 361 DOCUMENTARY FILM AND VIDEO (3) History, theory and criticism of documentaries. Production required. Prerequisite: EMF 267 or EMF 271.
- EMF 362 EXPERIMENTAL FILM AND VIDEO (3) History, theory and criticism of avant-garde works. Production required. Prerequisite: EMF 267 or EMF 271.
- EMF 363 HISTORY OF FILM (3) Exploration of the social, artistic, economic and technical factors in the development of the motion picture from 1900 to the present. Prerequisites: EMF 221 and ENGL 102.
- EMF 364 AESTHETICS OF FILM AND ELECTRONIC MEDIA (3) Theory and aesthetics of film, radio, television and related media. Prerequisite: EMF 221.
- EMF 365 AUDIO PRODUCTION II (3) Multi-track studio recording and mixing; digital recording and editing. Prerequisite: EMF 265.
- EMF 367 FILMMAKING II: SYNC SOUND 16MM TECHNIQUES (3) Intermediate 16mm filmmaking production methods and aesthetics. Group film exercises and projects. Prerequisites: EMF 267 and EMF 275. May be taken concurrently with EMF 275.
- EMF 368 GENRE THEORY AND CRITICISM (3) Principles and aesthetics of different film genres. Prerequisite: EMF 363/MCOM 363.
- EMF 370 ELECTRONIC MEDIA NEWS PRODUCTION (3) Theory and practice of gathering, writing and producing news for television, radio, the Internet and other media using audio/video technology. Prerequisites: EMF 265 and EMF 271.
- EMF 373 ELECTRONIC FIELD PRODUCTION (3) Basic principles of electronic field production, introducing field camera operation, video editing and basic video producing techniques for commercial and non-commercial arenas. Not open to students who have successfully completed EMF 273. Prerequisites: EMF 140, EMF 271 and EMF 275, or consent of instructor. May be taken concurrently with EMF 275.
- EMF 375 BROADCAST PERFORMANCE (3) The process of communication through broadcast performance. The principles of broadcast communication will be applied to such functions as television and radio news announcing, commercial announcing, sports announcing and music announcing. Laboratory experiences provided. Prerequisite: EMF 265.
- EMF 377 BROADCAST/FILM WRITING (3) Training and practice in writing non-fiction, fiction and commercial/PSA scripts for the broadcast media and film. Prerequisites: ENGL 102 and EMF 221.
- EMF 379 SEMINAR IN TELEVISION (3) Intensive study of one aspect of television, such as genre, producer, director or writer. Prerequisite: FMF 140
- EMF 387 CORPORATE VIDEO (3) Application of video production practices to a client situation; production of a corporate video required. Prerequisite: EMF 373.
- EMF 403 SPORTSCASTING (3) Theory and practical application of sportswriting, interviewing and play-by-play description. Prerequisite: junior/senior standing, EMF 265 and EMF 271. May be taken concurrently with EMF 271.
- EMF 405 SCREENWRITING (3) Narrative structure and mechanics; creation of a complete feature-length screenplay. Prerequisite: EMF 377.
- EMF 421 RADIO STATION OPERATIONS (3) Lecture and practice in the advanced study of the internal workings of radio stations and the radio industry. Prerequisite: EMF 365 or consent of instructor.
- EMF 430 THE MEDIA PRODUCER (3) Management and administration of film and video projects. Prerequisites: EMF 271, EMF 373 or EMF 273, OR EMF 267.
- EMF 435 REMOTE VIDEO PRODUCTION (3) Exploration of the theory and practice of multi-camera field production and directing. Prerequisites: EMF 271 and EMF 373.
- EMF 455 DIRECTING FOR FILM AND VIDEO (3) Fundamentals of screen directing, which includes script breakdown, scene blocking, communication with cast and crew, and the logistics of production. Prerequisite: EMF 367 or EMF 373.
- EMF 460 INTERNSHIP IN ELECTRONIC MEDIA AND FILM (1-6) Practical field experiences. Under faculty and Career Center supervision, a student works as an intern with a professional in the field of electronic media and film. Graded S/U. May be repeated for a maximum of 12 units, but only 6 units will apply to the major; the other 6 units may be used as general electives. Prerequisites: junior/senior standing, cumulative GPA of 2.75 and 3.00 in the major; completion of appropriate courses determined by the department. Please check with the Career Center for specifics.

- EMF 471 PRODUCING FOR TELEVISION (3) Managerial, technical and creative responsibilities of the producer and aesthetic, interpretive, stylistic concerns of the director. Prerequisites: EMF 271 and EMF 373.
- EMF 473 FILMMAKING III: ADVANCED 16MM TECHNIQUES (3) Seminar in professional filmmaking techniques leading to completion of an original narrative film. Prerequisite: EMF 367.
- EMF 475 FILM ANALYSIS (3) Style of a director, studio or filmmaking method in terms of thematic and formal properties and their influences upon the art of film. May be repeated for a maximum of 6 units when a different topic is covered. Prerequisite: EMF 221.
- EMF 476 SPECIAL TOPICS IN ELECTRONIC MEDIA AND FILM (3) In-depth study of a selected area dependent upon faculty and student interest. May be repeated for a maximum of 6 units when a different area is covered. Prerequisites: EMF 140 or EMF 221 and junior/senior standing.
- EMF 481 TELEVISION NEWS (3) Advanced broadcast journalism, focusing on television news reporting, editing and production. Prerequisite: MCOM 381.
- EMF 485 SEMINAR IN DIGITAL STUDIES (3) History, theory and practice of digital media and culture, current technological trends and their origins. Prerequisite: EMF 311 or consent of instructor.
- EMF 486 DANCE FOR THE CAMERA (3) An interdisciplinary class between EMF and DANC combining advanced media production skills and choreography to collaboratively produce a movement piece for the camera. Prerequisites: EMF 275; EMF 373 or EMF 367.
- EMF 487 SEMINÁR IN DIGITAL POST-PRODUCTION (3) Non-linear editing skills and techniques including audio and multimedia applications. Prerequisite: EMF 275.
- EMF 495 DIRECTED STUDY IN ELECTRONIC MEDIA AND FILM (1-6) Directed research or project in a specific area of joint faculty/student interest. May be repeated for a maximum of 12 units, but only 6 can apply to the major; the other 6 units may be used as general electives. Prerequisites: junior or senior standing, and approval of planned project by the instructor. Special permit required.
- EMF 499 HONORS THESIS (3) Research and writing of a thesis or creative media project chosen by the student in consultation with the thesis adviser. Restricted to candidates for Honors in EMF, May be repeated for a maximum of 6 units. Prerequisites: consent of thesis adviser and admission to Departmental Honors Program.

ELEMENTARY EDUCATION (ELED)

Lower Division

- ELED 201 SCHOOL AND AMERICAN SOCIETY (3) Philosophical, historical, and contemporary issues of education as they relate to American schools and schooling. Critical analysis of the functions of schools through field-based observation and inquiry. GenEd II.B.3.
- ELED 311 CHILD AND THE ELEMENTARY SCHOOL CURRICU-LUM AND ASSESSMENT (3) Curriculum methods and assessment strategies for the elementary school classroom. Prerequisite: successful completion of Level I and Level II of Elementary Education Professional Internships sequence. Corequisite: ELED 312.
- ELED 312 PROFESSIONAL DEVELOPMENT SCHOOL INTERNSHIP (3)
 Completion of an internship in an elementary school classroom for a
 minimum of 120 units, Prerequisite: successful completion of Level I
 and Level II of the Elementary Education Professional Sequence,
 Corequisite: ELED 311.
- ELED 320 FOUNDATIONS OF WRITING AND OTHER LANGUAGE ARTS (3) Language skills for children with emphasis on writing instruction, the reading-writing connection and integration of the other language arts in the acquisition of effective written communication skills. Prerequisites: ENGL 102 and PSYC 201.
- ELED 322 FOUNDATIONS OF READING AND OTHER LANGUAGE ARTS (3) Examination of theories, processes, and acquisition of reading and language arts, including cognitive, linguistic, social, and physiological factors involved in oral and written language development. Prerequisites: ENGL 102, PSYC 201 and sophomore status.
- ELED 323 PRINCIPLES AND PRACTICES OF INSTRUCTION IN READING AND LANGUAGE ARTS (3) Principles for developing reading and language arts programs in the elementary classroom. Examination of current approaches, methodologies and strategies for instruction. Prerequisites: PSYC 201.
- ELED 324 INTEGRATING LITERACY IN K-12 CONTENT AREAS (3)

 Overview of process and acquisition of literacy, informal strategies for assessing literacy, and the range of instructional strategies and materials for integrating literacy into K-12 content area classrooms. Restricted to Music Education, Art Education, Dance Education or Physical Education majors. Prerequisite: special permit.

- ELED 363 LANGUAGE AND LITERACY INTERNSHIP (3) Initial experiences in teaching and learning in specified settings. Focus on observing and analyzing teaching and learning within the context of the school and community. Prerequisites: PSYC 201 and acceptance into ELED or EESE major.
- ELED 365 TEACHING SOCIAL STUDIES IN THE ELEMENTARY SCHOOL (3) Methods and materials for elementary school social studies instruction. Attention given to multicultural and global perspectives
- ELED 399 DIFFERENTIATED STUDENT TEACHING ELEMENTARY (1-8) Student teaching experience in addition to those in ELEM 468 or student teaching in special subject areas, according to needs and interests of the student. May be repeated for a maximum of 8 units. Graded S/U.
- ELED 429 [529] PRINCIPLES AND PRACTICES OF ASSESSMENT IN READING AND LANGUAGE ARTS (3) Examination of and practice using a range of assessments for reading and language arts development, focusing on the relationship of assessment to instructional planning for diverse learners. Prerequisites: ELED 322, ELED 323.
- ELED 457 [557] ENGLISH FOR THE NON-ENGLISH SPEAKING CHILD (3) Methods of teaching English to elementary school children whose native tongue is another language. Prerequisites: elementary language arts methods course or elementary teaching experiences or consent of instructor.
- ELED 458 [558] PRACTICUM: ENGLISH FOR THE NON-ENGLISH SPEAKING CHILD (1-4) Supervised practical experience in teaching English to elementary school children whose native tongue is another language. May be repeated for a maximum of 4 units. Prerequisites: ELED 457 and student teaching or teaching experience.
- ELED 468 PROFESSIONAL DEVELOPMENT SCHOOL INTERNSHIP II (12) Fourteen- to 1.5-week, full-time field experience in public school classrooms under guidance of master teachers and university supervisor. Graded S/U. Prerequisite: successful completion of Level III of Elementary Education Professional sequence.
- ELED 469 PROFESSIONAL DEVELOPMENT SCHOOL INTERNSHIP II SEMINAR (3) Readings, action research and discussion on school environments, instructional delivery, diagnosis/evaluation, classroom management policies. Active inquiry within context of classrooms and agencies that influence schooling practices. Prerequisite: successful completion of Level III of Elementary Education Professional sequence. Corequisite: ELED 468.
- ELED 470-489 [570-589] SPECIAL TOPICS IN ELEMENTARY EDU-CATION: (Topic to be named) (1-3) In-depth study of a selected topic in elementary education. The specific requirements and prerequisites will vary with each topic and will be designated by the department each time a topic is scheduled. Each topic may be taken as a separate course. May be repeated for a maximum of 9 units provided different topics are covered.
- ELED 494 [594] TRAVEL AND STUDY: ELEMENTARY EDUCATION (1-6) Study abroad of educational facilities, programs or practices, or selected projects in elementary education topics. By special arrangement with program chairperson and sponsoring instructors. May be repeated for a maximum of 6 units.
- ELED 495 [595] INDEPENDENT STUDY IN EDUCATION: ELEMENTARY (1-4) An opportunity for especially qualified students to undertake research problems or study projects relevant to their interest and training under the direction of a staff member. May be repeated for a maximum of 4 units. Prerequisite: approval of appropriate program chair.
- ELED 496 [596] DIRECTED READING: ELEMENTARY EDUCATION (1-4) Independent reading in selected areas of elementary education in order to provide for the individual a comprehensive coverage or to meet special needs. By invitation of the department to major students. May be repeated for a maximum of 4 units. Prerequisite: approval of appropriate program chair.

Graduate Division

See TU Graduate Catalog for course descriptions.

ELEMENTARY EDUCATION/SPECIAL EDUCATION (EESE)

EESE 475 ELEMENTARY EDUCATION/SPECIAL EDUCATION INTERNSHIP I (3) Supervised clinical experience in elementary/middle general and special education settings. Pre requisite: consent of Internship Coordinator.

EESE 476 ELEMENTARY EDUCATION/SPECIAL EDUCATION INTERNSHIP II (12) Interns demonstrate the knowledge, skills and disposition necessary for successful teaching in general and special education settings at the elementary/middle school level. Prerequisite: successful completion of EESE 475.

ENGLISH (ENGL)

English Course Level and Numbering

Lower-division English courses (100-200-level) are designed as introductions to the subject. Upper-division English courses (300-400-level) are more particularly focused and assume students have the background specified by the course prerequisites. There is no difference in degree of difficulty or specialization between 300-level and 400-level courses; students should not assume, therefore, that a 400-level course is more advanced than one at the 300 level.

Lower Division

- ENGL 102 WRITING FOR A LIBERAL EDUCATION (3) Learning the critical methods of liberal education by writing college-level prose about significant books in four areas: the natural sciences, the humanities, the social sciences, and the fine arts. GenEd I.A.
- ENGL 152 SOLVING LITERARY PROBLEMS (3) Using information effectively to solve textual, cultural and interpretive problems in literature. Includes multimedia and interdisciplinary approaches. Content varies. GenEd LB.
- ENGL 153 HONORS SOLVING LITERARY PROBLEMS (3) Using information effectively to solve textual, cultural and interpretive problems in literature. Includes multimedia and interdisciplinary approaches. Content varies. Prerequisites: admission to Honors College. Special permit required. GenEd I.B.
- ENGL 190 HONORS WRITING SEMINAR (3) Exploration of issues and critical methods vital to a liberal education. Development of strategies for effective writing. Emphasis on student essays and reports. Prerequisites: admission to Honors College. Special permit required. GenEd I.A.
- ENGL 200 INTRODUCTION TO THE STUDY OF ENGLISH (3) Concepts, terms, and skills developed through reading in the basic genres. Students are to take this course in the first two semesters after declaring the English major.
- ENGL 205 SHAKESPEARE FOR NON-MAJORS (3) Shakespeare's major plays and poetry in their cultural context. Emphasis on plot, interpretation and performance. GenEd II.C.1.
- ENGL 221 BRITISH LITERATURE TO 1798 (3) Survey of poetry, prose and drama from the Middle Ages through the 18th century; emphasis on works by such writers as Chaucer, Shakespeare, Milton, Pope and Swift, GenEd II.C.1.
- ENGL 222 BRITISH LITERATURE SINCE 1798 (3) Survey of poetry and prose of the 19th and early 20th centuries, such as works by Wordsworth, Keats, Dickens, Browning, Lawrence and Woolf. GenEd
- ENGL 228 FUTURE WORLDS (3) Novels and short stories presenting alternative visions of the future. Writers include Huxley, Bradbury, Orwell, Rand, Vonnegut, Berger, LeGuin and Atwood. Prerequisite: two English courses
- ENGL 229 MODERN IRISH LITERATURE (3) 19th- and 20th-century prose, poetry and drama.
- ENGL 230 MAIN CURRENTS IN AMERICAN LITERATURE (3) Historical and thematic approach to literature that has helped define the national voice. Works by such anthors as Hawthorne, Twam, Dickinson, Faulkner, Morrison and Plath. GenFd II.B.1.
- ENGL 231 AMERICAN LITERATURE TO 1865 (3) Major writers and literary movements from the Colonial Period to the Civil War, such as works by Taylor, Emerson, Poe, Hawthorne, Melville, and Whitman. Prerequisite: FNGI 102,
- ENGL 232 AMERICAN LITERATURE SINCE 1865 (3) Literary movements and major writers since the Civil War, such as Dickinson, Twain, James, Frost, Hemingway, Fitzgerald, and Faulkner. Prerequisite: LNGL 102
- ENGL 233 SURVEY OF AFRICAN-AMERICAN LITERATURE (3) Slave narratives, post-Civil War and 20th-century developments and such writers as Wheatley, Douglass, Hughes and King, GenEd ILC.3
- ENGL 234 MAJOR WRITERS IN AFRICAN-AMERICAN LITERATURE (3) I iterature of slavery, the Reconstruction, the Harlem Renaissance, the Depression and after, with emphasis on Chesnutt, Hughes, Wright and Alice Walker. Prerequisite: FNGI 102; FNGI 233 is recommended but not required as a prerequisite to FNGI 234. GenFd ILC.3.

- ENGL 235 ETHNIC-AMERICAN LITERATURE (3) Comparative survey of Asian, European, Black, Jewish and other immigrant American literature, with emphasis on literary, historical and sociological approaches. GenEd II.C.3.
- ENGL 236 AMERICAN INDIAN LITERATURE, 1772-PRESENT (3) Emphasis on the contributions of American Indian writers to American literature. Study of the genres in which American Indians have written, the influences of both Indian and non-Indian world views, themes and techniques represented in these works. GenEd II.B. I.
- ENGL 239 19TH AND 20TH CENTURY JEWISH LITERATURE (3) Jewish literature from Eastern Europe, the United States and Israel. Writers vary, GenEd II,C.3.
- ENGL 240 CLASSICS OF THE WESTERN HERITAGE (3) Selections from the most influential literature of the Western tradition. Authors will vary but will be of the stature of Homer, Dante, Shakespeare, Voltaire, George Eliot and Dostoevsky. GenEd Il.C.1.
- ENGL 243 INTRODUCTION TO CLASSICAL MYTHOLOGY (3) The study of myth in selected works from Greek and Roman literature. GenEd II.C. I.
- ENGL 244 WORLD FOLKLORE (3) Study of folk expression throughout the world. Focus on such folk narratives as fairy tale (marchen) and legend from a variety of cultures. Characteristics of folklore, folk groups and methodology. Children's folklore, jokes, folk architecture and arts. Prerequisite: ENGL 102. GenEd II.D.
- ENGL 248 LITERATURE OF GLOBAL EXPERIENCE (3) A study of modern literature in its cultural diversity from six continents. GenEd II,D.
- ENGL 249 HONORS JEWISH LITERATURE (3) Jewish literature from Eastern Europe, the United States and Israel. Prerequisite: admission to Honors College. Special permit required. GenEd II.C.3.
- ENGL 251 APPLIED GRAMMAR (3) Grammar, syntax and usage for improvement of writing style. No credit toward major requirements. Prerequisite: ENGL 102.
- ENGL 253 THE BIBLE AND LITERATURE (3) Introduction to the Bible and to its profound influence on secular literature. Texts will vary. Biblical background is not required.
- ENGL 261 TRADITION AND FORM IN WESTERN POETRY (3) Elements and types of poetry in the Western tradition through readings of American, English and European works. Emphasis on imagery, diction, sound patterns, stanzaic form, major modes and genres. GenEd II.C.1.
- ENGL 263 TRADITION AND FORM IN WESTERN FICTION (3) Elements and types of fiction in the Western tradition through close readings of American, English and European works, especially short stories. Emphasis on point of view, plot, character, setting, design and theme. GenEd II.C.1.
- ENGL 265 TRADITION AND FORM IN WESTERN DRAMA (3) Elements and types of drama in the Western tradition through close readings of American, English and European works. Emphasis on structure, plot, character, setting, conventions, stage history.
- ENGL 270 IDEAS IN LITERATURE (3) Thematic approach to works of American, British and world literature. Content varies. May be repeated for a maximum of 6 units.
- ENGL 283 INTRODUCTION TO CREATIVE WRITING (3) Theories and technical considerations pertinent to writing poetry and fiction, with discussion of student writing. Prerequisite: ENGL 102. GenEd I.E.
- ENGL 290 HONORS SEMINAR IN LITERATURE (3) Small group discussion and analysis of selected works from the Western tradition. Content varies. May be repeated for a maximum of 6 units. Prerequisite: admission to the Honors College or consent of instructor. Special permit required. GenEd II.C.I.

- ENGL 301 RHETORIC AND SCIENCE (3) A study of the role language plays in the making and unmaking of facts in the contemporary world of science and technology. GenEd II.A.2.
- ENGL 310 WRITING ARGUMENT (3) Establishing, defending and arguing an opinion, focusing on structure, claims, evidence and warrants. Prerequisite: ENGL 102. GenEd I.D.
- ENGL 311 WRITING POETRY (3) Nature of the creative process and art of imaginative expression in writing poetry. Prerequisite: ENGL 102. GenEd LE.
- ENGL 312 WRITING FICTION (3) Nature of the creative process and art of imaginative expression in writing short fiction. Prerquisite: ENGL 102. GenEd I.E.
- ENGL 313 ACADEMIC ESSAY (3) Emphasizes expository writing within an academic setting. Priorities include organizational support for claims, correct usage and effective style, using conventional academic models. Prerequisite: two ENGL courses. GenEd LD.

- ENGL 315 THE LITERARY ESSAY (3) Emphasizes the creative use of language, using the traditional literary essay as the model for personal expression and exploration of the human experience. Prerequisite: two ENGL courses. GenEd I.D.
- ENGL 316 WRITING ABOUT LITERATURE (3) Composition of the literary essay, its structure and style. Emphasis on explication, character, plot and thematic analysis of poetry, fiction and drama. Prerequisite: ENGL 102. GenEd II.D.
- ENGL 317 WRITING FOR BUSINESS AND INDUSTRY (3) Standard written formats used in business and industry, including correspondence, memoranda and reports. Projects individualized to meet student needs and career interests. Prerequisite: ENGL 102. GenEd I.D.

ENGL 318 ADVANCED INFORMATIONAL WRITING (3) Researching and writing professional documents, including reports, manuals and technical publications. Projects individualized to meet student needs and interests. Prerequisite: ENGL 102. GenEd I.D.

ENGL 319 ORGANIZATIONAL COMMUNICATIONS (3) Study of factors influencing communication in organizations such as business, industry and government, including the nature of communication, organizational structure, downward and upward communication, conflict, groups, interactions and communication channels. Emphasis will be on detailed analysis of communications, particularly written communications. Prerequisites: ENGL 102 or ENGL 190 and one lower-level English course.

ENGL 321 [511] MEDIEVAL BRITISH LITERATURE (3) Emphasis on the mystical writers, Piers Plowman, the Gawain-poet and Arthurian

literature. Prerequisite: two ENGL courses.

ENGL 322 [512] BRITISH MEDIEVAL AND RENAISSANCE DRAMA (3) Development of the drama, excluding Shakespeare, with emphasis on plays by Marlowe, Kyd, Jonson, Ford and Webster. Prerequisite: two ENGL courses.

ENGL 323 [513] BRITISH RENAISSANCE LITERATURE (3) Cultural and political backgrounds with emphasis on Skelton, Wyatt, Surrey, Spenser, Sidney, Raleigh and Lodge. Prerequisite: two ENGL courses.

- ENGL 324 [514] BRITISH LITERATURE OF THE LATER RENAIS-SANCE (3) Major intellectual and literary currents of 1600-1660 in the poetry of Donne, Herbert, Marvell, Jonson and Milton, and the prose of Bacon, Browne, Burton and Hobbes. Prerequisite: two ENGL courses.
- ENGL 325 18TH-CENTURY BRITISH LITERATURE (3) Social and intellectual backgrounds, literary trends and significant authors, such as Swift, Pope, Fielding, Johnson and Boswell, with emphasis on satire. Prerequisite: two ENGL courses.
- ENGL 326 [516] LITERATURE OF THE BRITISH ROMANTIC PERI-OD (3) Major writers from 1790 to 1830 such as Blake, Wordsworth, Coleridge, Byron, Shelley and Keats with emphasis on the philosophical and social backgrounds. Prerequisite: two ENGL courses.
- ENGL 327 THE VICTORIAN AGE (3) Main currents of British literature and society, 1830-1901, with emphasis on Tennyson, Browning, Arnold, Carlyle, Ruskin, Dickens and Eliot. Prerequisite: two ENGL courses.

- ENGL 435 [535] DEVELOPMENT OF THE AMERICAN NOVEL: 19TH CENTURY (3) Major novelists, such as Cooper, Melville, Hawthorne, Twain, Howells, Iames and Crane, Prerequisite: two ENGL courses.
- ENGL 436 [536] DEVELOPMENT OF THE AMERICAN NOVEL: 20TH CENTURY (3) Major novelists, such as Wharton, Fitzgerald, Faulkner and Ellison. Prerequisite: two ENGL courses.
- ENGL 437 [537] AMERICAN POETRY THROUGH FROST (3) Puritan beginnings through the early 20th century, with emphasis on Emerson, Poe, Whitman, Dickinson and Frost. Prerequisite: two ENGL courses.
- ENGL 438 [538] MODERN AMERICAN POETRY (3) Poetic movements from the 1920s to present, and major poets, such as Eliot, Stevens, Williams, Lowell, Plath and Rich. Prerequisite: two ENGL courses.
- ENGL 439 MODERN WORLD POETRY (3) International poets of the 20th century, such as Ranier Maria Rilke, Eugenio Montale and Octavio Paz, and related literary movements. Prerequisite: two ENGL courses.
- ENGL 441 [541] MODERN FICTION TO WORLD WAR II (3) Work of the modern masters of fiction, with emphasis on Proust, Mann and Joyce. Prerequisite: two ENGL courses.
- ENGL 442 [542] MODERN FICTION SINCE WORLD WAR II (3) Works of the significant writers English, American and Continental of the past 50 years, including such figures as Grass, Robbe-Grillet, Solzhenitsyn and Burgess. Prerequisite: two ENGL courses.
- ENGL 451 [551] HISTORY OF THE ENGLISH LANGUAGE (3) Changes and reasons for the changes in grammar, sound and vocabulary of the language from Old English to modern times. Prerequisite: two ENGL courses.
- ENGL 452 [552] STRUCTURE OF THE ENGLISH LANGUAGE (3) A linguistic approach to sounds, forms, syntax and usage. Prerequisite: two ENGL courses.
- ENGL 461 [561] HISTORY OF LITERARY CRITICISM (3) Major statements, literary theory from Aristotle to the present, including Horace, Sidney, Johnson, Coleridge, Eliot and Frye. Prerequisite: two ENGL courses.
- ENGL 462 MODERN LITERARY THEORY (3) Intensive study of modern literary models, including formalism, structuralism, deconstruction, hermeneutics and feminism. Prerequisite: two ENGL courses.
- ENGL 463 SEMIOTICS: THE STUDY OF SIGNS (3) Study of the theory of semiotics, the study of signs, and its application to both print and non-print texts including photography, film, book illustration. The relationship between written and visual languages. Prerequisite: two ENGL courses.
- ENGL 465 [565] BRITISH AND AMERICAN PROSE (3) Nonfiction prose, with emphasis on form and style. Prerequisite: two ENGL courses.
- ENGL 469 STUDIES IN ONE OR TWO AUTHORS (3) Intensive examination of significant writer or comparative treatment of two. Frequently studied writers include D.H. Lawrence, Virginia Woolf, William Faulkner and Emily Dickinson. May be repeated for a maximum of 6 units under different topics.
- ENGL 471 [571] TOPICS IN WORLD LITERATURE (3) Authors, periods, genres or conventions. Content varies. May be repeated for a maximum of 6 units. Prerequisite: two ENGL courses.
- ENGL 472 [572] TOPICS IN BRITISH LITERATURE (3) Authors, periods, genres or conventions. Content varies. May be repeated for a maximum of 6 units. Prerequisite: two ENGL courses.
- ENGL 473 [573] TOPICS IN AMERICAN LITERATURE (3) Authors, periods, genres or conventions. Content varies. May be repeated for a maximum of 6 units. Prerequisite: two ENGL courses.
- ENGL 475 [575] TOPICS IN LINGUISTICS (3) Topics and issues in contemporary linguistics theory, with particular attention to recent interdisciplinary subspecialty developments: psycholinguistics, sociolinguistics, etc. Topics vary. Prerequisite: one linguistics course or consent of the instructor. May be repeated for a maximum of 6 units.
- ENGL 476 [576] TOPICS IN MULTI-ETHNIC AMERICAN LITERA-TURE (3) Possible topics include women in ethnic literature, Jewish writers, the Catholic novel. Content varies. May be repeated for a maximum of 6 units. Prerequisite: two ENGL courses.
- ENGL 477 TOPICS IN BLACK AMERICAN LITERATURE (3) Authors, periods, genres or conventions. Content varies. May be repeated for a maximum of 6 units. Prerequisites: two ENGL courses.
- ENGL 485-486 [585-586] SÉMINAR IN LITERARY STUDIES (3) Intensive study of one area of British, American or world literature, e.g., a specific author, period, school or genre. Content varies. May be repeated for a maximum of 6 umts. Prerequisite: junior standing.
- ENGI. 490 [590] DIRECTED STUDIES IN ENGLISH (3) Independent reading of a specific author, period, topic, problem or school of literature. Topic selected by student in consultation with professor. May be

- repeated for a maximum of 6 units. Prerequisites: 18 units in English, or 12 units in English and 6 in a related discipline; minimum 3.00 GPA in English and the related discipline; consent of department chair and instructor.
- ENGL 494 [594] TRAVEL AND STUDY (3-6) Places and topics to be selected by student in consultation with instructor. Prerequisite: two ENGL courses.
- ENGL 497 ENGLISH INTERNSHIP (3) On the job experience in research, editing and writing in government, public relations, journalism, industry and other professional positions. May be repeated for a maximum of 6 units. Graded S/U. Prerequisite: consent of ENGL internship coordinator.
- ENGL 498 ENGLISH INTERNSHIP (3) On-the-job experience in research, editing and writing in government, public relations, journalism, industry and other professional positions. ENGL 497 and 498 may be repeated or taken in combination for a maximum of 6 units. Graded S/U, Prerequisite: consent of English Internship/Practicum coordinator.
- ENGL 499 HONORS THESIS (4) Intensive treatment of a topic in such areas as literary criticism, creative writing and expository writing chosen by the student in consultation with the thesis adviser. Restricted to candidates for Honors in English.

Graduate Division

See TU Graduate Catalog for course descriptions.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)

- ESOL 105 ENGLISH FOR SPEAKERS OF OTHER LANGUAGES: INTERMEDIATE (3) Advanced grammar review with emphasis on sentence and short-paragraph construction.
- ESOL 106 ENGLISH FOR SPEAKERS OF OTHER LANGUAGES: ADVANCED (3) Introduction to English style; emphasis on reading and writing skills. Prerequisite: ESOL 105 or permission of ESOL coordinator.
- ESOL 107 LISTENING AND SPEAKING FOR ADVANCED ESOL STU-DENTS (3) Intensive listening and speaking practice for high intermediate and advanced students of ESOL; formal oral presentation pronunciation and conversation practice. Prerequisite: examination or consent of professor.

ENVIRONMENTAL SCIENCE/STUDIES (ENVS) Upper Division

- ENVS 301 PEOPLE AND PESTS (3) Impact of select pest species (insects, weeds or microbes) on humans and human affairs; why some organisms become pests; approaches to controlling pest organisms. Not for credit toward ENVS major or minor, Prerequisites: GenEd 1.B. and at least one biology course fulfilling GenEd II.A.1, GenEd II.A.2.
- ENVS 482 ENVIRONMENTAL RESEARCH (3) Independent investigation of an environmental problem/question. This course cannot be taken for credit for the Environmental Science and Studies (ESS) major if ENVS 485 has been taken. Paper and public presentation required. Prerequisites: ESS major, junior or senior standing and consent of instructor. Special permit required.
- ENVS 485 ENVIRONMENTAL INTERNSHIP (3) Supervised work experience; practical application of environmental science and studies in business, industry, public or private agencies. Cannot be taken for credit for the Environmental Science and Studies major if ENVS 482 has been taken. Paper and public presentation required. Prerequisites: ESS major, junior or senior standing, 2.50 GPA in ESS required courses and consent of internship coordinator. Graded S/U. Special permit required.
- ENVS 491 SENIOR SEMINAR (3) Capstone course for the major in Environmental Science and Studies. Synthesis and analysis of information from a broad range of perspectives. Prerequisites: ESS major, ENGI 318 and senior standing. Special permit required.

FAMILY STUDIES (FMST)

Lower Division

- EMST 101 INTRODUCTION TO FAMILY STUDIES (3) An interdisciplinary look at family studies. Prerequisite: none. GenEd II.B.2.
- FMST 201 FAMILY RESOURCES (3) Individual and family decision-making related to the development and allocation of resources such as time, money, material assets, energy, space and support networks. Includes the exploration and application of managing resources for families at risk and field observation of family resource professionals. GenEd ILB.3.

Upper Division

FMST 301 FAMILY RELATIONSHIPS (3) Family dynamics along the continuum of family development and across generations. Focusing on family communication, conflict management and education. Prerequisites: FMST 101 and PSYC 101 or SOCI 101.

FMST 302 THEORIES OF FAMILY FUNCTIONING (3) An overview of family functioning theory, including behavioral, cognitive, experiential, structural and strategic theories. Prerequisites: FMST 101 and PSYC

101 or SOCI 101.

FMST 303 TRENDS IN CONTEMPORARY FAMILY LIFE (3) Patterns and changes in family structure and processes in their social and his-

torical context. Prerequisites: FMST 101 and SOCI 101.

FMST 340 THE HOSPITALIZED CHILD AND FAMILY (3) Psychosocial and developmental needs of infants, children, adolescents and families in a health care context, with a focus on the roles and interventions of the child life specialist. Prerequisites: PSYC 101, SOCI 101 and PSYC 203.

FMST 370-379 [570-579] SPECIAL TOPICS IN FAMILY STUDIES (3) In-depth study of a selected topic in family studies. May be repeated

for a maximum of 9 units. Prerequisite: FMST 101.

- FMST 380 FAMILY LAW (3) Legal and public policy framework for the analysis and application of family law issues facing families across the lifespan in American society. Prerequisite: FMST 101, PSYC 101 or SOCI 101.
- FMST 387 COMMUNITY SERVICES FOR FAMILIES (3) Application of conceptual knowledge within community support and service program including needs assessment, program planning and direct or indirect intervention with families. Prerequisites: FMST 101, PSYC 101 and SOCI 101.
- FMST 397 INTERNSHIP IN FAMILY STUDIES (3) Supervised experience in family studies. May be repeated for a maximum of 9 units. Prerequisites: 15 units in family studies, including FMST 101 and consent of Family Studies adviser.

FMST 485 RESEARCH METHODS IN FAMILY STUDIES (3) Analyzing and writing about research in Family Studies. Prerequisites: FMST 101,

PSYC 212, ENGL 102 or ENGL 190. GenEd I.D.

FMST 490 SENIOR SEMINAR IN FAMILY STUDIES (3) Professional issues in family studies and family life education. Prerequisites: FMST 101 and consent of program director.

FINANCE (FIN)

Upper Division

- FIN 331 PRINCIPLES OF FINANCIAL MANAGEMENT (3) Introductory course designed to provide students with the fundamental concepts underlying the theory of finance. Financial markets, security valuation, analysis of financial condition, forecasting, working capital management, capital budgeting, cost of capital, leverage, optimal capital structure, dividend policy. Prerequisites: junior/major standing; MATH 231/233 or ECON 205, ACCT 201/211, ACCT 202/212, ECON 201/203, ECON 202/204.
- FIN 332 ADVANCED FINANCIAL MANAGEMENT (3) In-depth financial theory and analysis in selected areas. Topic includes CAPM, cost of capital, optimal capital structure, dividend policy, capital budgeting, mergers and acquisitions, working capital management. Prerequisites: FIN 331; major standing.
- FIN 333 INVESTMENTS AND SECURITIES ANALYSIS I (3) Analysis of financial assets, including equities and fixed income instruments. Topics include securities valuation, use of fundamental and technical analysis, and portfolio management. Valuation of government and corporate securities, institutional factors, security analysis, portfolio management. Prerequisites: FIN 331; major standing.

FIN 423 INVESTMENTS AND SECURITIES ANALYSIS II (3) An indepth analysis of fixed-income securities, swaps, options, futures and forward contracts. Analyzing financial securities, determining their values and use of specific financial goals, emphasizing non-traditional

securities. Prerequisites: FIN 333; major standing.

FIN 430 FINANCIAL INSTITUTIONS AND MARKETS (3) U.S. financial system, including the Federal Reserve System, term structure of interest rates, financial markets, financial instruments, financial institutions and regulation of commercial banks. Prerequisites: FIN 332 and FIN 333; major standing.

FIN 435 INTERNATIONAL FINANCE (3) Framework of international finance, including balance of payments, foreign exchange, foreign money and capital markets, and financial management of the multinational corporation. Prerequisites: FIN 331; major standing. FIN 439 FINANCIAL POLICY (3) Case approach to qualitative and quantitative issues in finance. Analysis of financial condition, forecasting, asset and liabilities management, leasing, hedging, business combinations, reorganization and bankruptcy. Prerequisites: FIN 332, FIN 333, FIN 430, senior status, major standing.

FIN 470 TOPICS IN FINANCE (3) In-depth study of contemporary issues in finance. Course content varies with each topic. May be repeated for credit provided a different topic is covered. Prerequisite: FIN 332.

FIN 491 SEMINAR IN FINANCE (3) Selected areas of interest in the field of finance. Course content varies. Prerequisite: FIN 332.

FIN 495 INDEPENDENT RESEARCH IN FINANCE (1-3) Directed indepth academic research in finance in a specific area of joint faculty member/student interest. May be repeated for a maximum of 6 units. Prerequisites: FIN 332; minimum 2.50 cumulative GPA, consent of instructor and chair. Special permit.

FIN 496 PRACTICUM IN CORPORATE FINANCE (3) Capstone application of knowledge, skills and attitudes through professional experi-

ence. Prerequisites: FIN 332 and FIN 423.

FIN 497 INTERNSHIP IN FINANCE (1-3) Students are required to work in assigned projects in business environments. Graded S/U. May be repeated for a maximum of 6 units. Prerequisites: FIN 331, declared CBE major with Finance, Minimum of 2.50 cumulative GPA. Consent of instructor and chair. Special permit.

FINANCIAL PLANNING (FPLN)

FPLN 341 FUNDAMENTALS OF FINANCIAL PLANNING (3) Introductory courses designed to provide students with an overview of the financial planning process. Topics include setting client goals and objectives, investment planning, insurance and risk management, and estate planning. Overview of personal financial planning.

FPLN 343 INSURANCE AND RISK MANAGEMENT (3) The role of insurance as a risk management tool. Topics include the use of life insurance, health insurance and disabilities insurance to reduce a

client's overall exposure to risks. Prerequisite: FPLN 341.

FPLN 441 RETIREMENT PLANNING AND EMPLOYEE BENEFITS (3)
Designed to provide students with the background necessary to assist clients in planning for their returement. Provides students with an understanding of the contributions employee benefits plans make toward achieving financial independence. Developing a systematic approach to estimating contribution plans, IRA, 401K, tax-sheltered annuities and government programs. Prerequisite: FPLN 341.

FPLN 443 ESTATE PLANNING (3) Effects of federal tax system and other factors impacting estate planning. Prerequisite: FPLN 341.

FRENCH

Lower Division

- FREN 101 FRENCH ELEMENTS 1 (3) Principles of French grammar; drills in pronunciation; elementary conversation; composition; readings. GenEd II.C.1.
- FREN 102 FRENCH ELEMENTS II (3) Review and further study of grammar principles; pronunciation; conversation composition; readings. Prerequisite: FREN 101. GenEd II.C.1.
- FREN 201 FRENCH INTERMEDIATE 1 (3) Review of grammar and pronunciation; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in French. Prerequisite: FREN 102 or equivalent. GenEd II.C.3.
- FREN 202 FRENCH INTERMEDIATE II (3) Advanced grammar structures; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in French. Prerequisite: FREN 201 or equivalent. GenEd II.C.3.

- FRÊN 301 ADVANCED CONVERSATION (3) Spoken French beyond the intermediate level with focus on pronunciation, phonetics, oral presentations, listening comprehension and conversation. Prerequisite: FREN 201-202 or equivalent. GenEd. II.C.3.
- FREN 302 ADVANCED COMPOSITION (3) Development of written French beyond the intermediate level. Introduction to different forms of textual analysis with readings from both literary and non-literary sources. Prerequisite: FREN 201-202 or equivalent. GenEd.II.C.3.
- FREN 305 CONVERSATION IN FRENCH (3) Open to non-native speakers of French who have a basic knowledge of French but need to develop oral fluency. Prerequisite: at least three years of high school French, or two years of college French, or equivalent, or consent of instructor.

- FREN 325 EARLY FRENCH LITERATURE AND CIVILIZATION: MIDDLE AGES TO 17TH CENTURY (3) Survey of literature of France from the Middle Ages to the end of the 17th century in its cultural context. Conducted in French. Prerequisite: FREN 301-302 or equivalent.
- FREN 326 18TH-CENTURY LITERATURE AND CIVILIZATION (3) Survey of 18th-century French literature in its cultural context. Conducted in French. Prerequisite: FREN 301-302 or equivalent.
- FREN 327 19TH-CENTURY LITERATURE AND CIVILIZATION (3)
 Survey of 19th-century French literature in its cultural context.
 Conducted in French. Prerequisite: FREN 301-302 or equivalent.
- FREN 328 20TH-CENTURY LITERATURE AND CIVILIZATION (3)
 Survey of the literature of the first half of the 20th century in its cultural
 context. Conducted in French. Prerequisite: FREN 301-302 or equivalent.
- FREN 329 CONTEMPORARY FRENCH LITERATURE AND CIVILIZATION: 1945 TO PRESENT (3) Survey of literature of the second half of the 20th century and its cultural context with an emphasis on works dealing with issues in contemporary France and the Francophone world. Conducted in French. Prerequisite: FREN 301-302 or equivalent.
- FREN 331 FRENCH FOR BUSINESS (3) Introduction to French business and economy, with practice in functional spoken and written transactions in French. Prerequisites: FREN 201-202 or equivalent or consent of instructor.
- FREN 351 INTRODUCTION TO TRANSLATION: FRENCH TO ENGLISH (3) Training in translation, principally French to English, from magazines and books from a wide variety of disciplines. Prerequisites: FREN 301-302 or equivalent.
- FREN 370-379 SPECIAL TOPICS IN FRENCH (3-6) Specialized topics in language and culture. Content varies. May be repeated once for credit provided a different topic is covered. Prerequisite: FREN 202 or equivalent.
- FREN 391 ADVANCED FRENCH GRAMMAR (3) French syntax, idiomatic construction, word formation. Conversation, oral and written drill. Conducted in French. Prerequisites: FREN 301-302.
- FREN 401 [501] FRENCH PHONETICS (3) Correction of French pronunciation and analysis of spoken French based on phonological theory. Prerequisites: FREN 301-302.
- FREN 402 [502] APPLIED FRENCH LINGUISTICS (3) Phonetics, morphology, syntax, points of interference. Linguistic study relating to methodology for French teachers. Prerequisites: FREN 301-302 or equivalent
- FREN 410 WRITING ABOUT FRENCH LITERATURE (3) Expository writing about French literature, read in translation, with emphasis on textual analysis and literary theory. Course conducted in English. Prerequisite: ENGL 102. GenEd l.D.
- FREN 411 [511] THE FRENCH NOVEL (3) Study of the French novel and narrative techniques from the 17th century to the present. Conducted in French. Prerequisites: any two French courses at the 325-329 levels.
- FREN 421 [521] FRENCH LITERATURE OF THE 17TH CENTURY I

 (3) Selected works from France's major classical writers. Conducted in
 French. Prerequisites: any two French courses at the 325-329 levels.
- FREN 425 [525] FRENCH LITERATURE OF THE 18TH CENTURY (3)
 Principal works of the major writers presented in their literary, sociological and philosophical context. Conducted in French. Prerequisites: any two French courses at the 325-329 levels.
- FREN 441 [541] FRENCH LITERATURE OF THE 20TH CENTURY (3)
 The evolution from fin de siecle to the present day of the novel, the theatre and poetry as reflections of the artistic and philosophical developments leading to the modern age. Shifting emphasis from term to term.
 Conducted in French. Prerequisites: any two French courses at the 325-329 levels.
- FREN 470-479 [570-579] SPECIAL TOPICS IN FRENCH (3) Discussion of a central topic with changing emphasis from year to year. May be repeated for credit provided a different topic is covered. Prerequisites: any two French courses at the 325-329 levels.
- FREN 491 [591] DIRECTED READINGS IN FRENCH LITERATURE (1-3)
 Reserved for superior students under the guidance of a departmental
 adviser. May be repeated for a maximum of 9 utils. Conducted in
 French. Prerequisites: at least 3 units of literature study at the 400 level,
 consent of department chair.
- FREN 492 [592] DIRECTED READINGS IN FRENCH (1-3) Similar to FRLN 491 with concentration on a different subject matter. Conducted in French. Prerequisites: at least 3 units of literature study at the 400 level, consent of department chair.
- FREN 493 HONORS DIRECTED READINGS (3) Individual readings and background research under direction of a faculty member in preparation for writing an honors thesis. Prerequisite: admission to the departmental Honors Program, (UG)

- FREN 494 TRAVEL AND STUDY ABROAD (3) French language, culture, civilization and literature at approved study abroad sites in France. Prerequisite: approval of department chair.
- FREN 495 INTERNSHIP FOR PROFICIENCY IN FRENCH (3) Supervised experience in a work setting providing students the opportunity to apply classroom learning and skills outside the academic world. Students receive 3 units for 8 units of work per week. Junior or senior undergraduate students in good academic standing and who meet the requirements established for Proficiency in French should apply for membership during the month of November for the spring term and during the month of April for the fall term. Prerequisites: open only to students who are enrolled in the Proficiency in French program and who have complied with the program regulations; written consent of the program coordinator.
- FREN 497 INTERNSHIP IN FRENCH (3) Designed to give training and experience using French in working with government, business and industry in Maryland or Washington, D.C., under professional supervision. Prerequisites: junior or senior standing French majors (professional track) only, and completion of at least 27 units above 300-level courses. Written consent of program coordinator.
- FREN 499 HONORS THESIS IN FRENCH (3-6) Writing of an honors thesis based on individual research. Open only to advanced honors candidates. Prerequisite: FREN 493.

GENERAL STUDIES (GENL)

Lower Division

- GENI, 121 PERSONAL LIFE AND CAREER PLANNING (2) To enable students to understand their role in the world of work, develop a sense of career directionality and maturity, explore concepts related to successful career choice, begin to take action toward achieving satisfactory life planning, in the context of a decision-making format.
- Upper Division
 GENL 401 [501] TOPICS IN SOCIAL SCIENCE (3) Issues and problems
 to be selected by the instructor and studied from the multiple approaches of various social sciences. Prerequisite: 15 units in the social sciences.

GEOGRAPHY (GEOG)

Lower Division

- GEOG 101 PHYSICAL GEOGRAPHY (3) Introductory spatial analysis of fundamental terrestrial natural phenomena, including their impact on humanity. Emphasis on Earth planetary motions, weather and climate, landforms, soils and vegetation. GenEd II.A.1,
- GEOG 102 WORLD REGIONAL GEOGRAPHY (3) Survey of world regions' identifying geographical features and area and their significance. GenEd II.D.
- GEOG 105 GEOGRAPHY OF INTERNATIONAL AFFAIRS (3) An introductory survey of the changing political map of the world with special emphasis on a geographical comprehension of the major regions of international cooperation and conflict. GenEd II.D.
- GEOG 109 INTRODUCTION TO HUMAN GEOGRAPHY (3) Uses the analytical approach of social sciences in the study of institutions of human society to reveal spatial patterns in the responses of people to basic problems and needs. GenEd II.C.2.
- GEOG 110 HONORS INTRODUCTION TO HUMAN GEOGRAPHY
 (3) Uses the analytical approach of social sciences in the study of institutions of human society to reveal spatial patterns in the responses of people to basic problems and needs. Emphasis on discussion and analyses of problems. Prerequisite: Honors status. GenEd Il.C.2.
- GEOG 221 INTERPRETATION OF MAPS (3) Introduction to map elements and map interpretation; study of various types of maps, index systems and general application of maps in geography.
- GEOG 223 PHYSICAL GEOGRAPHY APPLICATIONS (3) Fundamental concepts explored through laboratory exercises, including Earth-sun relationships, weather and climate systems, and landform characteristics. Prerequisites: GEOG 101 and GEOG 221.
- GEOG 230 UNDERSTANDING AND COMMUNICATING THROUGH MAPS (3) Maps and graphs as effective media for visual presentation and analysis of geographic data. GenEd LB.
- GEOG 251 INTRODUCTION TO PLANNING (3) The sequential origins of planning and urban design, a study of contemporary planning practice, and an analysis of the social, economic and political context of plan formulation and implementation.
- GEOG 270-279 TOPICS IN PLANNING AND GEOGRAPHY (3) Investigation of various geographic and planning issues. Emphasis on analytical skills through readings and research design. Topics to be announced. May be repeated for credit provided a different topic is covered.

Upper Division

Systematic Courses

GEOG 315 GEOMORPHOLOGY (4) Detailed analysis of the formation, surficial characteristics, and global distributions of the Earth's landforms. Labs emphasize interpretation of landform assemblages through use of topographic maps and aerial photographs. Cannot be taken for credit by students who have received credit for PHSC 222 or GEOG 371. Prerequisite: 6 units of geography and/or geology, including either GEOG 101 or PHSC 121.

GEOG 317 [502] ENERGY RESOURCES (3) Spatial patterns of traditional and alternative forms of energy will be analyzed. The many facets of the energy problem will be analyzed, including physical deposits, economic variables, public policy implication and geographical patterns.

Prerequisite: 6 units of geography or consent of instructor.

GEOG 319 [503] SOILS AND VEGETATION (3) A resource study of the world's soils and plant formations with emphasis placed upon their genesis and spatial differentiations. Prerequisites: Geography 101 and one of the following: CHEM 101, BIOL 110, BIOL 201, or 205.

- GEOG 329 MEDICAL GEOGRAPHY (3) A study of health problems viewed as imbalances in the interrelationships between humans and elements of their environment, both the physical and cultural. Emphasis is placed on gaining an overview of the field through a comprehension of the application of geographic principles and techniques to the study of human health problems. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 355 [510] HISTORICAL GEOGRAPHY OF URBANIZATION (3) Spatial and temporal development of urbanization and urban morphology from the rise of civilization in the ancient Near East to the contemporary post-industrial city. The entire scope of urban functions is surveyed, with the emphasis on the city as a human-made environment. Prerequisite: 6 units of geography or consent of instructor.

GEOG 356 GEOGRAPHY OF CRIME (3) Application of geographical methods and procedures to the study of environmental criminology. Explores socio-spatial and environmental data pertaining to crime, victimization and offenders at the neighborhood, metropolitan, state and national levels. Prerequisite: GEOG 102, GEOG 105 or GEOG 109.

GEOG 357 [511] CULTURAL GEOGRAPHY (3) Study of origins and diffusion of cultures and the resulting impact in creating the world's contrasting cultural landscapes. Prerequisite: 6 units of geography or con-

sent of instructor.

GEOG 359 [512] ECONOMIC GEOGRAPHY (3) Designed to explain the location of economic activities through a series of principles and theories. Emphasis is on the various sectors of the economy, transportation and economic development. Prerequisite: 6 units of geography or consent of instructor.

GEOG 373 [515] CLIMATOLOGY (3) Analysis of the character, causes and global distribution of climatic types, chiefly employing the Koppen classification system. Prerequisite: 6 units of geography or consent of

instructor.

GEOG 375 [516] QUANTITATIVE METHODS IN GEOGRAPHY (3) Focus on statistical problems associated with the analysis of geographic data. Emphasis on the unique spatial problems of point pattern analysis, area association and regionalization. Prerequisite: 6 units of geography or consent of instructor.

GEOG 377 [517] DESCRIPTIVE METEOROLOGY (3) An introduction to the study of weather. Emphasis on the interaction of solar energy, air pressure, wind and moisture in creating global weather patterns. Field work may be required. Prerequisite: 6 units of natural science or geography or the equivalent.

GEOG 381 [519] POLITICAL GEOGRAPHY (3) Effect of political groupings upon human use of the world, and the influence of the geographic base upon political power. Prerequisite: 6 units of geography or consent

of instructor.

GEOG 383 NATURAL RESOURCES AND SOCIETY: A GEOGRAPHIC PERSPECTIVE (3) Social and environmental dimensions of natural resources, their management, and misuse from a geographic perspective. Prerequisites: ENGL 102, 6 units of geography. GenEd 1.D.

GEOG 385 [520] POPULATION GEOGRAPHY (3) General population theory, data sources for population geographers, and the processes of fertility, mortality and migration. Patterns of population growth and change viewed from both temporal and geographical perspectives. Prerequisite: 6 units of geography or consent of instructor.

GEOG 391 [522] URBAN SYSTEMS (3) Survey of the structure, functions, forms and development of urban units. Emphasis upon the locational features of social, economic and cultural phenomena. Field work.

Prerequisite: 6 units of geography or consent of instructor.

GEOG 393 TRANSPORTATION AND INFRASTRUCTURE PLAN-NING (3) Transportation, water supply, wastewater treatment and solid waste management systems, their role in the growth and development of urban areas. Policies, programs and infrastructure planning. Prerequisite: GEOG 391 or consent of instructor.

GEOG 401 [551] GROWTH OF GEOGRAPHIC THOUGHT (3) History, nature and methodology of geography as a discipline. Analysis of schools of geographic thought: critical evaluation of important geo-

- graphic work. Prerequisite: 6 units of geography or consent of instructor. GEOG 405 [553] COMPREHENSIVE PLANNING (3) The integration of separate urban systems into the comprehensive design of an urban region. Special emphasis will be placed on neighborhood, community and town planning. Field work may be required. Prerequisites: GEOG 391 or equivalent and consent of instructor.
- GEOG 407 THE GEOGRAPHY OF THE AGED (3) The aged have emerged in contemporary society as a significant minority group. Elements responsible for the increase in the number of older Americans will be examined as well as the forces affecting the distribution of the aged. Particular emphasis will be given to the locational problems of older people in urban areas. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 409 APPLIED CLIMATOLOGY (3) The effects of world climatic patterns on the human and physical environment are analyzed. Special emphasis is devoted to the interactions between climate and the urban environment. Prerequisites: GEOG 373, GEOG 377 or consent of instructor.
- GEOG 410 ENVIRONMENTAL GEOGRAPHY (3) Energy, water and mass budgets at the surface of the earth. Prerequisites: GEOG 101 and 3 units from one of the following disciplines: BIOL, CHEM, PHYS, PHSC or GEOL.
- GEOG 411 [557] STUDIES IN NATURAL HAZARDS (3) The nature, frequency of occurrences, and distribution of environmental hazards and their impacts on humans. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 415 [559] GEOGRAPHICAL ASPECTS OF POLLUTION (3) A systematic study of the spatial aspects of air and water pollution, with special emphasis on pollution in the Greater Baltimore area. Field trips will be conducted to pollution sites and pollution control agencies within the local area. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 417 OUTDOOR RECREATION AND PLANNING MANAGEMENT (3) A study of outdoor recreation in terms of relationships of people, land and leisure. Emphasis on the principles of planning, designing and maintaining outdoor recreation areas and facilities. Prerequisite: 6 units of geography or consent of instructor.

GEOG 481 ENVIRONMENTAL IMPACT ANALYSIS (3) The collection, collation, analysis and incorporation of physical, social, biological and economic information for the review and the preparation of environmental impact statement (EIS) reports. Prerequisite: 6 units of geography or consent of instructor.

GEOG 484 LAND USE PLANNING (3) Contemporary land use planning emphasizing the problematic nature of land development, the environmental land use planning process, and related growth management, issues and techniques. Prerequisite: GEOG 251 or consent of instructor.

Technique Courses

GEOG 321 [504] INTERPRETATION OF AERIAL PHOTOGRAPHS (3) Reading and interpretation of aerial photographs. The application of the aerial photograph in the fields of geography, geology and photogrammetry.

GEOG 323 [505] CARTOGRAPHY AND GRAPHICS 1 (3) Study in design, construction and effective application of maps and charts for analysis and publications; practical exercises in the use of cartographic tools, materials and techniques.

- GEOG 324 [506] CARTOGRAPHY AND GRAPHICS II (3) Continued exercises in map graphics and aerial distribution maps. New techniques in presentation of graphic data and spatial relationships. Prerequisite: GEOG 323.
- GEOG 341 [508] TECHNIQUES AND MATERIALS FOR GEOGRA-PHY TEACHERS (3) A systematic review of geographic concepts in relation to interdisciplinary studies in the physical and social sciences. Examination of the content of geography and problems of presentation.
- GEOG 412 [518] INTRODUCTION TO GEOGRAPHIC INFORMA-TION SYSTEMS (3) Hardware and software for the storage, retrieval, manipulation, analysis and display of data, emphasizing raster-based geographic information systems. Prerequisite: 6 units of geography or consent of instructor.

308 Course Descriptions

- GEOG 414 [523] GIS APPLICATIONS (3) Vector-based GIS software for solving real world problems. Prerequisite: GFOG 412 or consent of instructor
- GEOG 416 PRINCIPLES OF REMOTE SENSING AND DIGITAL IMAGE PROCESSING (3) Obtaining quantitative information from remotely sensed images; visual and automated techniques in study of spatial and environmental relationships. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 418 [507] COMPUTER MAPPING (3) Computer hardware and software for preparation of general-purpose and thematic maps; application of computer mapping for decision-making purposes. Prerequisites: 6 units of geography or consent of instructor; prior computer experience is strongly recommended.

Regional Courses

- GEOG 420 [560] GEOGRAPHY OF ANGLO AMERICA (3) Physical and cultural landscapes of the United States and Canada including patterns of economic development of each region and their relationship to their environmental setting. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 423 [561] GEOGRAPHY OF MARYLAND (3) Physical and human geographical elements of the Maryland landscape which explain current patterns and environmental problems. Particular emphasis on historical geographical background of the present landscape. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 424 HISTORICAL GEOGRAPHY OF ATLANTIC CANADA (3) The development of the Atlantic Provinces is followed through to the period of Confederation in 1867 with an emphasis on the pivotal role the area played in the geopolitical interests of France and Britain in North America. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 427 THE GLOBAL ECONOMY (3) Geographical patterns of spatial interactions in the global economy; roles of the state, transnational corporations, and intergovernmental organization. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 431 [562] GEOGRAPHY OF AFRICA (3) A systematic and regional approach to the study of people and environment of Africa, south of the Sahara. Special focus is placed on the distribution of natural resources and the historical-political development of each country as important background for the understanding of current African affairs. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 443 [564] GEOGRAPHY OF EAST ASIA (3) Regional studies of the physical and cultural foundations in China, Japan and Korea. Emphasis upon human and economic resources and role in world affairs. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 445 GEOGRAPHY OF SOUTH AND SOUTHEAST ASIA (3)
 Regional studies of the physical and cultural foundations of India,
 Pakistan, Sri Lanka, Philippines and Indonesia. Principal human and
 economic resources, problems of development, and role in world
 affairs. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 447 [565] GEOGRAPHY OF THE MIDDLE EAST (3) Analysis of Southwest Asia and North Africa, including major natural and cultural resources, related patterns of spatial organization, economic and political development and associated problems. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 448 CONFLICT IN IRELAND (3) An analysis of attempted and proposed solutions to the Irish conflict based on physical and cultural elements of the island's historical geography. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 451 [566] GEOGRAPHY OF EUROPE (3) Regional analysis and appraisal of the human geography and natural resources of Europe. Problems of nationality, economic development and cultural conflicts. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 452 GEOGRAPHY OF THE EUROPEAN UNION (3) Spatial distribution of physical and cultural features of the European Union. Historical development of the EU. Geographical aspects of major issues facing the EU: security, enlargement, foreign policy, structure, identities. Prerequisite: GFOG 102 or 105, or consent of instructor.
- GEOG 453 [567] GEOGRAPHY OF THE FORMER USSR (3) Physical and cultural patterns and their bearing on the former Soviet Union as a world power. Regional distribution and use of natural and human resources in agriculture and industry. Problems in economic development and production. Prerequisite: 6 units of geography or consent of instructor.
- GEOG 461 [568] GEOGRAPHY OF LATIN AMERICA (3) Analysis of Latin America focuses on the interrelationships between physical and cultural elements which provide a diversity of human habitats throughout the region. May be repeated for a maximum of 6 units. Prerequisite: 6 units of geography or consent of instructor.

Seminars, Special and Honors Courses

GEOG 470-479 [570-579] SEMINAR: SELECTED TOPICS IN GEOG-RAPHY (3) Reading and research in selected topics in the field of geography. Seminar topics will be announced. May be repeated for credit provided a different topic is covered. Prerequisite: 6 units of geography or consent of instructor.

GEOG 491 [582] GEOGRAPHY/ENVIRONMENTAL PLANNING INTERNSHIP (1-6) Supervised placement and research in selected public and private agencies at appropriate institutions. May be repeated for a maximum of 6 units. Prerequisite: consent of chair and 6 units of geography.

GEOG 493 [583] FIELD GEOGRAPHY (2-6) Practical laboratory experience in techniques in the collection and analysis of data by observations, measurements, mapping and photographic records. Such techniques are to be applied to selected geographic problems. Prerequisite: 6 units of geography or consent of instructor.

GEOG 494 [584] TRAVEL AND STUDY (3-6) Countries and topics to be selected by departments and instructors sponsoring the program. For complete information contact the chair of the department. May be repeated for a maximum of 6 units. Prerequisite: consent of instructor.

GEOG 495 [585] DIRECTED READING 1N GEOGRAPHY (3) Independent reading in selected areas of geography. Open by invitation of the department to students taking a major or minor in Geography. May be repeated for a maximum of 6 units. Prerequisites: 15 units in geography and a minimum 3.00 GPA in geography.

GEOG 496 [586] INDEPENDENT STUDY IN GEOGRAPHY (1-6) Independent research, study or field experience under supervision of a member of the geography faculty. Designed for advanced students who wish to conduct independent investigations on aspects of geography which are of special interest or not covered in other courses. Registration arranged with department chairperson. May be repeated for a maximum of 6 units. Prerequisite: advanced undergraduate standing with at least 18 units of geography or graduate standing.

GEOG 498 HONORS DIRECTED READINGS (3) Independent reading in Geography and related disciplines on a topic selected by the student in consultation with the instructor. May be repeated for a maximum of 6 units. Prerequisite: admission to the Departmental Honors Program.

GEOG 499 HONORS THESIS (1-6) Researching and writing of a thesis, to be directed by a faculty member in a chosen area of specialization. May be repeated for a maximum of 6 units. Prerequisite: admission to the Departmental Honors Program.

Graduate Division

See TU Graduate Catalog for course descriptions.

GEOLOGY (GEOL)

Lower Division

- GEOL 121 PHYSICAL GEOLOGY (4) Composition and structure of the earth, the internal and external forces acting upon it and the surface features resulting. Laboratory studies of common rocks and minerals, geologic and topographic maps and aerial photographs. Field trips required. Three lecture units and two laboratory units per week. GenEd II A. 1
- GEOL 122 HONORS PHYSICAL GEOLOGY (3) Composition and structure of the earth, the internal and external forces acting upon it and the surface features resulting. Laboratory studies of common rocks and minerals, geologic and topographic maps and aerial photographs. Field trips required. Three lecture units and two laboratory units per week. Not open to students who successfully completed PHSC 121. Prerequisite: Honors College.
- GEOL 123 HISTORICAL GEOLOGY (4) The history and development of the continents and ocean basins and the evolution of life on earth will be discussed based upon information obtained from the sedimentary rock record. Field trips required. Three lecture units and two laboratory units per week. Prerequisite: GEOL 121. GenEd II.A.1.

- GEOL 305 [505] ENVIRONMENTAL GEOLOGY (4) Earth's natural surface systems (hydrologic, atmospheric and climatic): causes and extent of human modifications; potential solutions to resulting problems. Prerequisite: GEOL 121.
- GEOL 321 [521] STRUCTURAL GEOLOGY (4) The identification and analysis of tectonic forms to determine the physical conditions of formation and the context of historical geological events in which they occur. Prerequisites: GEOL 121 and PHYS 211 or equivalent.

- GEOL 323 GEOMORPHOLOGY (4) Detailed analysis of the formation, surficial characteristics and global distribution of the earth's landforms. Labs emphasize interpretation of landform assemblages through use of topographic maps and aerial photographs. Cannot be taken for credit by students who have received credit for GEOG 315. Prerequisites: 6 units of geography and/or geology courses, including either GEOG 101 or GEOL 121.
- GEOL 331 [531] MINERALOGY (4) The study of minerals with emphasis on crystallography, crystal chemistry and chemical-structural classification. Laboratory identification of minerals both in hand specimen and thin section by application of principles of optical mineralogy. Three lecture units and two units laboratory. Prerequisites: GEOL 121; CHFM 110.
- GEOL 333 [533] PETROLOGY OF IGNEOUS AND METAMORPHIC ROCKS (4) Study of the properties and genesis of two major rock groups. Megascopic and microscopic techniques in rock classification. Environments of formation. Three lecture units and two units laboratory. Prerequisite: GEOL 331.
- GEOL 357 [557] PHYSICAL OCEANOGRAPHY (3) Physical, chemical and geologic characteristics of ocean basins, boundaries and sea water, including origin and behavior of waves and currents. Prerequisites: PHYS 211 or 241 and CHEM 110, or consent of instructor.
- GEOL 415 [515] HYDROGEOLOGY (4) Geologic aspects of groundwater: origin, occurrence and movement. Prerequisites: CHEM 111; PHYS 212 or PHYS 242. Recommended: GEOL 321 and GEOL 443.
- GEOL 441 [541] OPTICAL MINERALOGY AND PETROGRAPHY (3)
 The theory and application of polarized light and elements of crystallography in the analysis of rock-forming minerals by use of a petrographic microscope. Prerequisite: GEOL 333.
- GEÒL 443 [543] SEDIMENTOLOGY AND STRATIGRAPHY (4) Production, transport and deposition of sediments and sedimentary bodies for the development of facies models useful in interpretation of the stratigraphic record. Prerequisites: GEOL 121, CHEM 110.
- GEOL 451 [551] PETROLOGY OF SEDIMENTARY ROCKS (3) Macroand microscopic analyses of sedimentary rocks. Classifications and diagenetic processes. Offered spring term, alternate years. Prerequisite: GEOL 443.
- GEOL 470-479 SPECIAL TOPICS IN GEOLOGY (1-4) The study of special topics in the geosciences. Special topics will be determined by their need for study and relevance to existing courses. May be repeated with a different topic for a maximum of 6 units.
- GEOL 489 INTRODUCTION TO RESEARCH (1) Development of a research question, designing research projects, writing a proposal, scientific report writing and oral presentation. As a final project, students develop a research proposal. Graded S/U. Prerequisites: GEOL 121, GEOL 123, and 8 additional GEOL units; permission of instructor.
- GEOL 490 INDEPENDENT STUDY IN GEOLOGY (1-4) Individual and supervised research in selected areas of geosciences. Topics may be laboratory or field based. May be repeated for a maximum of 6 units. Prerequisites: junior status, GEOL 121-123, and at least one additional GEOL course.
- GEOL 491 DIRECTED READINGS (1-4) Independent reading in an area selected by the student in consultation with the instructor. May be repeated for a maximum of 6 units. Prerequisites: junior status, GEOL 121, GEOL 123 and one additional GEOL course.
- GEOL 492 INTRODUCTION TO FIELD METHODS (2) Surveying techniques, description of geological materials, geological mapping, and environmental investigations. Field trips required. Prerequisites: GEOL 121, GEOL 123, and 8 additional GEOL units; permission of instructor.
- GEOL 494 TRAVEL STUDY (1-3) Investigation of field problems and phenomena. May be repeated for a maximum of 3 units. Prerequisite: special permit required.
- GEOL 499 [599] REGIONAL GEOLOGY (2) Design and successful completion of a geological research project based on a problem of regional significance. Project results will be presented in a public forum. Field trips required. Prerequisites: GEOL 121, GEOL 123, GEOL 489, and two additional upper-level GEOL courses.

GERMAN (GERM)

Lower Division

- GERM 101 GERMAN ELEMENTS 1 (3) Principles of German grammar; drills in pronunciation; elementary conversation; composition; readings. GenEd Il.C.1.
- GERM 102 GERMAN ELEMENTS II (3) Review and further study of grammar principles; pronunciation; conversation; composition; readings. Prerequisite: GERM 101. GenEd II.C.1.

- GERM 201 GERMAN INTERMEDIATE 1 (3) Review of grammar and pronunciation; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in German. Prerequisite: GERM 102 or equivalent. GenEd II.C.3.
- GERM 202 GERMAN INTERMÉDIATE II (3) Advanced grammar structures; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in German. Prerequisite: GERM 102 or equivalent. GenEd II.C.3.

- GERM 301 GERMAN COMPOSITION AND CONVERSATION 1 (3) Reading, conversation, and composition on topics of cultural and literary interest; grammar and syntax. Prerequisite: GERM 202 or equivalent. GenEd II.C.3.
- GERM 302 GERMAN COMPOSITION AND CONVERSATION II (3) Reading, conversation, and composition on topics of cultural and literary interest; grammar and syntax. Prerequisite: GERM 202 or equivalent. GenEd II.C.3.
- GERM 303 GERMAN TRANSLATION (3) Translation of texts of increasing difficulty from and to German. Prerequisites: GERM 201-202 or equivalent.
- GERM 311 CULTURE AND CIVILIZATION (3) A brief survey of the history, geography and institutions of Germany. Conducted in German. Prerequisites: GERM 201-202 or equivalent.
- GERM 341 READINGS IN CONTEMPORARY GERMAN (3) Reading and comprehension of non-literary texts. Prerequisites: GERM 201-202 or consent of instructor.
- GERM 370-379 SPECIAL TOPICS IN GERMAN (3-6) Specialized topics in language and culture. Content varies. May be repeated once for credit provided a different topic is covered. Prerequisite: GERM 202 or equivalent.
- GERM 391 ADVANCED GERMAN GRAMMAR (3) German syntax, idiomatic construction, word formation, original composition. Conversation and oral drill. Conducted in German. Prerequisites: GERM 301-302.
- GERM 392 ADVANCED GERMAN (3) Integrated approach to improving speaking, listening, writing and reading. Conducted in German. Prerequisites: GERM 301, consent of instructor.
- GERM 401 GERMAN PHONETICS (3) Pronunciation and drills in contemporary German, conducted in German. Not open to native speakers of German. Prerequisites: GERM 301-302 or equivalent.
- GERM 427 [527] GERMAN CLASSICISM (3) Goethe, Schiller, Lessing and others. Conducted in German. Prerequisite: GERM 311 or 341 or equivalent.
- GERM 441 [541] MODERN GERMAN LITERATURE (3) The modern masters: Kafka, Mann, Hess, Rilke, Brecht. Conducted in German. Prerequisite: GERM 311 or 341 or equivalent.
- GERM 465 [565] GOETHE'S FAUST (3) A study of the background, themes and structures of this masterpiece. Conducted in German. Prerequisite: GERM 311 or 341 or equivalent.
- GERM 470-479 [570-579] SPECIAL TOPICS IN GERMAN (3)
 Discussion of a central topic with changing emphasis from year to year.
 Conducted in German. May be repeated for credit provided a different topic is covered. Prerequisite: GERM 311 or 341 or equivalent.
- GERM 481 [581] THE GERMAN NOVELLE (3) The theory and development of the *novelle* in German literature from Goethe to the present. Conducted in German. Prerequisite: GERM 311 or 341 or equivalent.
- GERM 491-492 [591-592] DIRECTED READINGS IN GERMAN (1-3) Reserved for superior students under the guidance of a departmental adviser. Content related to students' previous programs. Prerequisites: at least 3 units of study at the 400 level, consent of department chair.
- GERM 494 TRAVEL STUDY ABROAD (3-16) Study at Oldenburg University in Germany. Must be approved by department chair. Prerequisite: German 202 or equivalent.
- GERM 495 INTERNSHIP FOR THE PROFICIENCY IN GERMAN (3) Supervised experience in a work setting providing students the opportunity to apply their classroom learning and skills outside the academic world. Students receive 3 units for eight units of work per week. Junior or senior undergraduate students in good academic standing who meet the requirements established for the Proficiency in German program should apply for the internship during the month of November for the spring term and during the month of April for the fall term. Prerequisites: open only to students who are enrolled in the Proficiency in German program and who have complied with the program regulations. Written consent of program coordinator.

GERM 497 INTERNSHIP IN GERMAN (3) Training and experience using German in working with government, business and industry in Maryland or Washington, D.C., under professional supervision. Prerequisites: junior or senior standing German majors (professional track) only, and completion of at least 27 units above 300-level courses. Written consent of coordinator of program.

GERONTOLOGY (GERO)

Lower Division

GERO 101 INTRODUCTION TO GERONTOLOGY (3) Study of human aging from a variety of perspectives including sociological, psychological and biological. Provides a background in social and political public policy issues related to the aging of America. GenEd II.B.3.

Upper Division

- GÉRO 310 [510] SOCIAL ISSUES IN HUMAN LIFE SPAN (3) Technologies that provide a longer and better quality of life; social, financial, ethical and legal implications. Prerequisites: BIOL 110, GERO 101.
- GERO 330 [530] COMMUNITY PLANNING FOR AN AGING SOCIETY
 (3) Multidisciplinary approach to the urban environment as a physical and social context for the diverse lifestyles of its older residents. Theoretical approaches to aging and the environment are examined with emphasis on how planned and built environments impact the quality of life of older persons. Prerequisite: junior standing.

GERÓ 370-374 SPECIAL TOPICS (3) Topics of contemporary interest and emerging issues in gerontology. Prerequisites: GERO 101 and permission of gerontology adviser.

GERO 397 GÉRONTÓLOGY INTERNSHIP (3) Supervised experience in gerontology. May be repeated for a maximum of 9 units with gerontology adviser's permission. Prerequisite: 15 units in gerontology, including GERO 101.

GERO 450 [550] DIRECTED READINGS IN GERONTOLOGY (3) Systematic inquiry into a topic of the student's choice in consultation with faculty. Prerequisite: graduate standing or 25 term units of GERO courses.

GERO 485 GERONTOLOGY SENIOR SEMINAR (3) Programmatic, ethical and public policy issues of aging. Prerequisite: completion of gerontology core course requirements.

GREEK (GRK)

Lower Division

GRK 101-102 ELEMENTS OF MODERN GREEK I, II (3, 3) A thorough foundation in grammar; drills in pronunciation; elementary conversation and composition; introduction to Greek culture. GenEd II.C.1. GRK 101 is a prerequisite to GRK 102.

HEALTH CARE MANAGEMENT (HCMN)

Upper Division

- HCMN 305 COMMUNITY HEALTH ADMINISTRATION (3) A survey of current approaches to the theories, practices and organization of community health services administration. Prerequisites: HCMN major or consent of instructor.
- HCMN 413 SERVICES AND HOUSING FOR THE LONG-TERM CARE CONSUMER (3) Financing and regulatory structure for services and housing options for chronically ill, dependent populations in the United States; market trends, reimbursement structures and regulatory policies. Prerequisite: HLTH 207 or consent of instructor. Not open to students who have successfully completed HLTH 413.

HCMN 415 FINANCING AND ORGANIZATION OF HEALTH CARE SERVICES IN THE U.S. (3) Financing and organization of health care services, emphasizing managed care philosophies in context of organizational and economic theories. Prerequisite: HLTH 207. Offered fall only

HCMN 417 [517] LONG-TERM CARE ETHICAL PROBLEMS (3)
Applying long-term care law, rules, theory and clinical and administrative best practice to the solution of practical ethical problems common in long-term care. Prerequisite: HETH 207 or consent of instructor.

HCMN 419 [519] LONG-TERM CARE ADMINISTRATION (3) An introduction to institutional and community-based long-term care facility administration. Examines laws, rules, and nationally established domains of nursing home and residential care managerial practice withm an ethically based philosophy of care. Prerequisites: HETH 207, 1H FH 305 and HCMN 413 or consent of instructor.

HCMN 441 [541] LEGAL AND ETHICAL ISSUES IN HEALTH ADMIN-ISTRATION (3) Examination of legal and ethical issues in the administration of health programs. Emphasis is placed on the impact of costcontainment efforts, quality and malpractice concerns, profit-seeking in health, biomedical advances, and the new delivery mechanisms. Prerequisite: consent of instructor. Offered spring only.

HCMN 495 HEALTH CARE MANAGEMENT INTERNSHIP (12)
Supervised, educational experience in health management.
Prerequisites: completion of all required courses with 2.00 or higher grade equivalent and permission of department chair. Graded S/U.

HEALTH SCIENCE (HLTH)

Lower Division

- HLTH 101 WELLNESS FOR A DIVERSE SOCIETY (3) Health promotion, disease prevention and healthy lifestyles; analysis of personal attitudes and behaviors. GenEd II.B.3.
- HLTH 102 HONORS WELLNESS FOR A DIVERSE SOCIETY (3) Health promotion, disease prevention and healthy lifestyles; analysis of personal attitudes and behavior. Prerequisites: Honors College course, special permit only. GenEd II.B.3.
- HLTH 103 EMC, FIRST AID AND SAFETY (3) Emergency intervention designed for people who may have to give first aid, advanced life support, or cardiopulmonary resuscitation in the course of their daily lives. Standard certification will be by the American Heart Association. Safety awareness will be explained.

HLTH 201 INTERNATIONAL HEALTH (3) An overview of international health issues and problems, methods of health care delivery, health infrastructure, and epidemiology on a global scale. GenEd II.D.

HLTH 204 NUTRITION AND WEIGHT CONTROL FOR THE CON-SUMER (3) Using consumer models, this course contains elements of nutrition, weight control and fitness. Prerequisite: HLTH 101.

- HLTH 207 HEALTH CARE IN THE U.S. (3) Analysis of health care demands, cost, supply and recipients. Analysis of different health care settings and factors such as professionalism, the professional education system, authority structures, ethical responsibilities and referrals. Emerging policy debate and role of managed care are also explored. GenEd It.B.3.
- HLTH 208 MENTAL HEALTH, STRESS MANAGEMENT AND CRISIS INTERVENTION (3) Emphasis on helping relationships, constructive communication, stress and stressful life events, various approaches to handling crisis situations, and an overview of the mental health services system. Prerequisite: HLTH 101.
- HLTH 217 HONORS HEALTH CARE IN THE U.S. (3) An analysis of health care demand and supply, issues of professionalism, authority structures and organizational forms; emphasis on student research and discussion of issues as appropriate to the Honors College. Special permit only. GenEd II.B.3.
- HLTH 218 WOMEN'S HEALTH (3) Critical analysis of gender as a social construct of health. Exploration of physiological, psychological, behavioral and technical aspects of women's health care needs and barriers. Enables students to become informed consumers of health care services. Prerequisite: consent of instructor. GenEd II.A.2.
- HLTH 220 SEXUALITY IN A DIVERSE SOCIETY (3) Covers the multifaceted components of human sexuality, including historical influences, religious influences, moral development and values, sexual practices and alternate behaviors, health behaviors, and sex-related diseases. Not open to students who have successfully completed HLTH 221. GenEd II.C.3.

HLTH 222 FOUNDATIONS OF HEALTH EDUCATION AND HEALTH BEHAVIOR (3) Social, cultural and historical foundations examined in light of planning and implementing health education programs. Prerequisite: HLTH 101.

HLTH 225 WEIGHT CONTROL: THEORY AND PRACTICE (3) The theoretical and practical aspects of losing, gaining or maintaining weight. Recent medical and behavioral literature are reviewed. Opportunities exist in class to make application of the theories. Prerequisite: HLTH 101 or consent of instructor.

- HLTH 311 CHRONIC AND COMMUNICABLE DISEASE (3) A factual, non-clinical approach to the major chronic and communicable diseases that are health problems in the U.S. population today. Patient education methods and the role of the health educator in relation to these diseases are stressed. Prerequisites: FILTH 101, BIOL 110 (BIOL 315 strongly recommended).
- HLTH 315 CURRICULUM AND PLANNING (3) In-depth analysis of the planning process for both community and school settings. Prerequisite: HLTH 222. GenEd I.D.

- HLTH 331 NUTRITION FOR HEALTH PROFESSIONALS (3) An indepth study of the chemical nature and utilization of nutrients; the composition, digestion, absorption of foods, and the normal nutritional requirements of the human body. Focus on nutrition and health, and nutrition and disease. Prerequisites: CHEM 105, BIOI. 110 or consent of instructor.
- HLTH 333 FOOD SAFETY SCIENCE (3) Principles of the spread of foodborne illness as applied to maintaining safe supplies in food and food service establishments. Field trips required. Prerequisite: BIOL 201 or BIOL 110.
- HLTH 387 STUDENT TEACHING IN SECONDARY EDUCATION—SCHOOL HEALTH (6)
- HLTH 388 STUDENT TEACHING IN SECONDARY EDUCATION—SCHOOL HEALTH (12)
- HLTH 401 [501] TEACHING ABOUT DRUGS AND SEX (3) Content, procedures and methods for presenting sensitive subjects, including human sexuality and drugs. Not open to law enforcement majors. Prerequisites: HLTH 101 or HLTH 221, HLTH 325, PSYC 101, BIOL 110.
- HLTH 402 [502] HEALTH AND SOCIAL WELFARE PROMOTION: HEALTH COMMUNICATION (3) Analysis of health message design, health behavior and communication theory emphasizing the persuasion process to improve health and other social conditions of living. Application of theoretical principles augmented with specific skills to design, implement and evaluate health messages. Not open to students who have successfully completed CDCE 401 or CDCE 402. Prerequisite: HLTH 101 or equivalent.

HLTH 405 [505] DRUGS IN OUR CULTURE (3) An in-depth review of harmless, harmful, useless and useful substances that may affect behavior or mood; the interaction of psychological, sociological and physiological components are included. Prerequisite: HLTH 101.

- HLTH 407 VIOLENCE PREVENTION FOR HEALTH EDUCATORS (3)
 Development of effective violence prevention programs for future school and community health educators. Prerequisite: SOCI 358 or consent of instructor.
- HLTH 411 [511] HEALTH AND LATER MATURITY—THE AGING PROCESS (3) An approach to the conservation of human resources with emphasis on understanding attitudes and practices related to health in later maturity. Designed for students with a personal or professional interest in the field. Prerequisite: 6 units of health and/or behavioral science or consent of instructor.
- HLTH 421 FIELD WORK IN COMMUNITY HEALTH (1-6) Practical experience by participating in community health situations. May be repeated for a maximum of 6 units. Designed for dual concentration. Graded S/U. Prerequisites: HLTH 315 and 425; upper-division health elective.
- HLTH 422 FIELD WORK IN COMMUNITY HEALTH (1-12) Practical experience by participating in community health situations. May be repeated for a maximum of 12 units. Designed for community health concentration. Graded S/U. Prerequisites: HLTH 315 and 425; upperdivision health elective.
- HLTH 425 INSTRUCTIONAL METHODS IN HEALTH EDUCATION (3) Focuses on methods used in community and school settings, emphasizing instructional techniques used for adolescents and adults. Prerequisite: HLTH 315.
- HLTH 426 METHODS IN ELEMENTARY SCHOOL HEALTH EDUCATION (2) Focuses on instructional methods used in the delivery of health education in elementary schools. Prerequisite: SCED 341.
- HLTH 430 ORGANIZATION, IMPLEMENTATION AND MANAGE-MENT OF HEALTH EDUCATION PROGRAMS (3) Focuses on techniques for managing health programs in school and community settings. Prerequisite: HLTH 315.
- HLTH 432 MEASUREMENT AND EVALUATION IN HEALTH EDU-CATION (3) Focuses on the elements of courses and program evaluation design in health education, including data collection; instrument and test development; techniques for analyzing health courses/program data; and writing evaluation reports. Prerequisites: passed functional reading and writing test; HLTH 315.
- HITH 435 EPIDEMIOLOGICAL BASIS OF DISEASE AND ENVIRON-MENTAL HEALTH (3) An examination of epidemiological investigation principles, chronic and communicable diseases; pollution, housing sanitation, and their interrelationships. Prerequisites: BIOL 110 or BIOL 201 or BIOL 202.
- HITH 451 [551] ECOLOGICAL ASPECTS OF HEALTH (3) An examination of the interrelationship between humans and their environment. Emphasis is placed upon health aspects of pollution, housing, sanitation, radiation, behavioral disorders and epidemiology. Prerequisite: BIOL 110 or BIOL 201 or BIOL 202.

- HLTH 470-479 [570-579] HEALTH WORKSHOPS (3) For teachers, administrators and individuals concerned about health related fields. Contemporary health aspects are considered with emphasis on implementation of positive behavior aimed at improving the health of the individual and the community. Enrollment is limited to 25. May be repeated for credit provided a different topic is covered. Prerequisite: HLTH 101 or consent of instructor.
- HLTH 491 [591] HEALTH DIRECTED READINGS (1-3) Independent reading in health or health-related disciplines. Prerequisites: a minimum of 12 units in health and consent of department chair.
- HLTH 494 [594] TRAVEL AND STUDY (3) An examination of various types of health care delivery in the countries and cities visited in comparison with that of the United States. For complete information, contact chair of the department. Prerequisite: HLTH 101 or consent of instructor.
- HLTH 495 [595] INDEPENDENT STUDY (3) Directed study on specific problems in health and related fields. Prerequisites: consent of department chair and 12 units in health.
- HLTH 497 PROFESSIONAL DEVELOPMENT IN HEALTH EDUCA-TION (1) Provides students with the opportunity to select and work with faculty members in their areas of teaching and research expertise. Students select a faculty member whom they will assist in conducting projects. Students will complete a written summary of their professional development experience. Prerequisite: consent of instructor.

Graduate Division

See TU Graduate Catalog for course descriptions.

HEBREW (HEBR)

Lower Division

- HEBR 101-102 ELEMENTS OF HEBREW I, II (3, 3) An introduction to Hebrew. Speaking, reading, and writing, the development of conversational ability, free composition, and translation from English to Hebrew. GenEd II.D. HEBR 101 is a prerequisite to HBR 102.
- HEBR 201-202 HEBREW INTERMEDIATE I, II (3, 3) A continued review of grammatical structure with emphasis on conversational and reading fluency. Vocabulary building, composition and reading and discussion of selected outside readings. HEBR 102 is a prerequisite to HEBR 201 and HEBR 201 is a prerequisite to HEBR 202. GenEd II.D.
- HEBR 205 CONTEMPORARY HEBRÉW LITERATURE (3) Survey of selected short stories in English translation from the time of the czars in Russia to Israel today.

Upper Division

- HEBR 301-302 HEBREW COMPOSITION AND CONVERSATION I, II (3, 3) Intensive exercises in Hebrew composition and conversation beyond the intermediate level. Conducted in Hebrew. Prerequisites: HEBR 201-202 or equivalent or consent of instructor. GenEd II.D.
- HEBR 391 READINGS IN MODERN HEBREW LITERATURE (3) The reading and literature analysis of selected short stories by the major writers of Hebrew literature in Israel today. Conducted in Hebrew. Prerequisites: HEBR 201-202 or equivalent or consent of instructor.

HISTORY (HIST)

Lower Division

- HIST 100 USING INFORMATION EFFECTIVELY IN HISTORY (3) Introduction to gathering, evaluating and communicating historical information using a collaborative approach to research. GenEd I.B.
- HIST 101 INTRODUCTION TO ANCIENT CIVILIZATION (3) Political, social, economic and intellectual forces which shaped the pattern of Near Eastern and European life from the Stone Age through the decline of the Roman Empire. GenEd II.C.1.

 Military institutions of the Interwar Period, build-up to World War II,
 the European War in the context of diplomatic, political and socioeconomic history. Not open to students who successfully completed HIST
 413. Prerequisite: HIST 103 or HIST 108 or consent of the instructor.
- HIST 431 [58] FRANCE: 1763-1871 (3) Old Regime and the impact of successive revolutions on French society, emphasis on France's role in the growth of European liberalism and nationalism. Prerequisite: HIST 103 or HIST 108.
- HIST 441 [582] GERMANY: 1871-1945 (3) Analysis of the Bismarckian Empire, Weimar Republic and the Third Reich, emphasizing the interrelationships between internal developments and Germany's role in Europe and the world. Prerequisite: HIST 103 or HIST 108.
- HIST 452 [584] RUSSIA/SOVIET UNION: 1894-1953 (3) Political, ideological, economic and cultural factors influencing the fall of the monarchy, the Bolshevik Revolution, Leninism and Stalinism. Prerequisite: HIST 231 or HIST 103 or HIST 108 or consent of instructor.
- HIST 453 [585] HISTORY OF SOVIET RUSSIA FROM KRUSCHEV TO GORBACHEV (3) Topical analysis of political history and theory, economic development, foreign affairs, social changes, and cultural and literary trends. Prerequisite: HIST 151 or 231 or 103 or HIST 108 or consent of instructor.
- HIST 475 PUBLIC HISTORY: THEORY AND PRACTICE (3) Approach, theoretical understanding and methodology of professional historians in representing history to the broader public. Prerequisites: HIST 300 and 6 additional history units.
- HIST 477 [586] EUROPE IN THE THIRD WORLD: THE AGE OF HIGH IMPERIALISM (3) Impact of modern European Colonialism on the societies of the Third World, chiefly Africa and Asia. Primary emphasis on the 19th and 20th centuries. Prerequisite: HIST 103 or HIST 108 or consent of instructor.
- HIST 482 [590] INTERPRETIVE PROBLEMS IN HISTORY (3) In-depth study of historical interpretations of selected topics. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: 12 units in history appropriate to topic.
- HIST 483 [591] BIOGRAPHICAL STUDIES IN HISTORY (3) Study of selected historical figures who have shaped or reflected the past. Figures to be selected by the instructor. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: 6 units in history appropriate to topic.
- HIST 484 [592] HISTORICAL THEMES (3) Study through lectures and discussions of a historical topic selected by the instructor. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: 6 units in history appropriate to topic.
- HIST 486 HISTORY SEMINAR (3) Research and writing in a specific period and area of history to be selected by the instructor. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisites: consent of instructor and 15 units in history, including HIST 300.
- HIST 487 [596] COLLOQUIUM (3) Group discussion of reading in history or related disciplines approached from a viewpoint that is primarily historical and dealing with broad periods, topics, problems or comparative developments selected by the instructor(s). May be repeated for a

maximum of 6 units provided a different topic is covered. Prerequisites: consent of instructor and 15 units in history or 9 units in history and 6 units in the related discipline.

- HIST 493 INTERNSHIP (3-6) Experience designed to combine the research and content of history with work in historical libraries, museums, archival depositories and similar agencies. No more than 6 units to be earned with any one agency. May be repeated for a maximum of 6 units. Graded S/U. Prerequisites: 27 units in history and consent of department chair. (Not for graduate credit.)
- HIST 494 [594] TRAVEL AND STUDY (3-6) Countries and topics to be selected by the departments and instructors sponsoring the program. For complete information, write the chair of the department early in the fall of the academic year preceding the term of intended study. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisites: junior/senior status and consent of instructor.
- HIST 496 [593] DIRECTED INDIVIDUAL RESEARCH (2-4) Research and reading dealing with a historical topic to be selected by the instructor and student; considerable attention to methodology. May be repeated for a maximum of 6 units. Prerequisites: 15 units in history and a minimum average of 3.00 in history, and consent of instructor and department chair.
- HIST 497 [597] DIRECTED READING (2-4) Independent reading in history or related disciplines approached from a viewpoint that is primarily historical and dealing with specific periods, topics, problems or comparative developments selected by the student in consultation with the instructor(s). May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisites: 15 units in history or 9 units in history and 6 units in the related discipline and a minimum GPA of 3.00 in history and the related discipline and consent of department chair.
- HIST 498 HONORS DIRECTED READINGS (2-4) Independent reading in history or related disciplines on a topic selected by the student in consultation with the instructor(s). May be repeated for a maximum of 6 units. Prerequisite: admission to the Departmental Honors Program.
- HIST 499 HONORS THESIS (4-8) Research and the writing of a thesis, to be directed by a faculty member in a chosen area of specialization. Prerequisite: admission to Departmental Honors Program. (Not for graduate credit.)

Graduate Division

See TU Graduate Catalog for course descriptions.

HONORS COLLEGE (HONR)

Lower Division

- HONR 170-179 HONORS SPECIAL FRESHMAN-YEAR TOPICS (1-3) Course content varies with topic. Designed to enhance the Honors College experience. May be repeated provided a different topic is covered. Prerequisites: entry into Honors College; consent of instructor.
- HONR 270-279 HONORS SPECIAL SOPHOMORE-YEAR TOPICS (1-3)
 Course content varies with topic. Designed to enhance the Honors
 College experience. May be repeated provided a different topic is covered.
 Prerequisites: entry into Honors College; consent of instructor.

- HONR 370-379 HONORS SPECIAL JUNIOR-YEAR TOPICS (1-6)
 Course content varies with topic. Designed to enhance the Honors
 College experience. May be repeated provided a different topic is covered. Prerequisites: entry into Honors College; consent of instructor.
- HONR 470-479 HONORS SPECIAL SENIOR-YEAR TOPICS (1-6) Course content varies with topic or instructor or team instructors. Designed to enhance the Honors College experience. May be repeated provided a different topic is covered. Prerequisites: entry into Honors College; consent of instructor.
- HONR 495 HONORS DIRECTED READINGS (3) A survey of the relevant scholarly literature under the guidance of a faculty member—who will direct the student's research. Prerequisite: member in good standing in the Honors College.
- HONR 499 HONORS THESIS (3) Supervised research and writing of thesis directed by a faculty member in a chosen area of specialization. Prerequisite: member in good standing in the Honors College.

INTERDISCIPLINARY STUDIES (IDFA, IDHP, IDHS, IDIS, IDLA and IDNM)

Lower Division

IDFA 201 AMERICAN VISION: BALTIMORE VISUAL AND PER-FORMING ARTS (3) American culture through experiencing visual and performing arts of Baltimore. Includes field trips. GenEd II.B.1.

IDFA 202 HONORS AMERICAN VISION: BALTIMORE VISUAL AND PERFORMING ARTS (3) American culture through experiencing visual and performing arts of Baltimore. Includes field trips. Prerequisites: Honors College course. Special permit only. GenEd II.B.1.

IDFA 203 CREATIVITY IN THE FINE ARTS (3) An application of the

creative process through the arts. GenEd I.E.

IDFA 207 APPLIED ETHICS AND AESTHETICS IN FINE ARTS AND COMMUNICATIONS (3) Issues and dilemmas encountered by practituoners (compared to viewers and patrons) of fine arts and communication. Prerequisite: one course in MUSC, THEA, ART, DANC, MCOM, COMM or EMF.

IDFA 401 MOTION DESIGN (3) Directed lab experience on the computer in concept and application of design for broadcast design, motion graphics and multimedia. Prerequisites: ART 217 or EMF 275.

IDHP 100 USING INFORMATION EFFECTIVELY: WELLNESS (3) Introduction to research techniques, problem solving, critical thinking, communication skills, ethical issues and technology application using the interdisciplinary theme of wellness. GenEd. I.B.

IDHP 110 INFORMATION UTILIZATION IN THE HEALTH PROFES-SIONS (3) Introduction to how information is identified, stored, accessed, verified, utilized and conveved. Not open to those who have

successfully completed IDHS 110. GenEd I.B.

IDHP 111 HONORS INFORMATION UTILIZATION IN HEALTH PROFESSIONS (3) Introduction to how information is identified, stored, accessed, verified, utilized and conveyed. Not open to those who have successfully completed IDHP 110. Prerequisite: Honors College admission. GenEd I.B.

IDHP 301 [501] HIV/AIDS; TESTING AND CONFIDENTIALITY IN THE 21ST CENTURY (3) Explores societal factors, resources, policies, health care delivery, legal ethical issues and counseling. Students will be prepared for Maryland State Certification as HIV Testing Counselors. Prerequisites: HLTH 101 or NURS 406, PSYC 101, SOCI 101 and one of the following: BIOL 213, BIOL 215, HLTH 20⁻⁷ or NURS 204 or consent of instructor.

IDNM 101 USING INFORMATION EFFECTIVELY IN SCIENCE (4) Introduction to information processing, problem-solving techniques, cteative thinking skills, communication skills, team building and professional ethics in a scientific environment. Emphasis will be placed on the use of information technology and primary research literature to retrieve, filter, process and evaluate data and information. This course is intended for freshmen CSM students, GenEd I.B.

Upper Division

IDFA 470-471 INTERDISCIPLINARY FINE ARTS SPECIAL TOPICS SEMINAR (3) An in-depth study in a selected area dependent upon faculty and student interest. May be repeated for a total of 9 units. Prerequisite; consent of instructor.

IDFA 493 INTERDISCIPLINARY FINE ARTS INDEPENDENT STUDY (1-6) Directed study through readings, projects, papers and/or seminars. May be repeated for a total of no more than 12 units. Graded S/U.

Prerequisite: consent of instructor.

IDIS 470-479 SPECIAL TOPICS (3) Survey of literature and practical application of interdisciplinary issues. Field work may be required. Topics will vary. May be repeated for a maximum of 9 units provided

a different topic is covered. Graded S/U.

IDIS 495 INTÉRNSHIP IN INTERDISCIPLINARY STUDIES (3) Supervised experience in work setting to facilitate students' understanding of their concentration. May be repeated for a maximum of 6 units. Can be applied toward major requirements only with approval of concentration's coordinator. Graded S/U.

IDLA 301 CITIES AND SUBURBS AS HUMAN HABITATS (3) Impact of cities and suburbs on environmental consequences of human habitation. Emphasis on historic and contemporary population densities, modes of transit, energy uses, consumption of resources, and urban and suburban planning. Prerequisites: one course from GenEd II.A.1, GenEd II.D., and one course from GenEd II.B.1 or GenEd II.C.1. GenEd II.A.2.

IDNM 305 ETHICS, SCIENCE AND SOCIETY (3) Integrity of scientific information, responsibilities of scientists and citizens for the conduct and use of science and technology, limits of technological solutions. Principles and case studies. Not open to those who successfully completed WRIT 335, CHEM 301, or CHEM 335. Prerequisites: two courses in BIOL, CHEM, GEOL, PHYS or PHSC, at least one with laboratory: ENGL 102; one course in Gen1 d ILB. GenEd ILA.2.

IDNM 307 WOMEN, GENDER AND SCIENCE (3) Understanding women in the context of the natural sciences, including historical and contemporary contributions by women scientists; critique of science education and research design; professional and educational discrimination; career challenges and options; guidelines for non-sexist research design. Prerequisites: one course from GenEd II.A.1 and one from GenEd I.C. GenEd II.A.2.

IDNM 309 WOMEN, SOCIETY AND RADIATION SCIENCE (3) Gender has in contemporary physical science using the feminist critique; impact of research in radiation science on society and women's lives. Three lecture units, Prerequisites: two science courses (fulfillment of GenEd II.A.1) and one mathematics course (fulfillment of GenEd I.C), or consent of instructor, GenEd II.A.2.

IDNM 311 HUMAN GENETICS (3) Information flow, cell division and gamete formation, transmission of genes, molecular genetics, mutations, biotechnology, genetic basis of behavior, genetic basis of disease, nature vs. nurture debate and social implication of human genetic studies on society. Prerequisite: BIOL 110, BIOL 112 or BIOL 201. GenEd II.A.2.

IDNM 312 HONORS HUMAN GENETICS (3) Topics include: information flow, cell division and gamete formation, transmission of genes, molecular genetics, mutations, biotechnology, genetic basis of behavior, genetic basis of disease, nature vs. nurture debate and social implication of human genetic studies on society. Prerequisites: BIOL 110/112; admission to Honors College, GenEd II.A.2.

IDNM 313 PLAGUES AND PEOPLE (3) Biological basis of infectious disease and how those principles can be applied for a better understanding of historical events, current issues facing society and future

perspectives. Prerequisite: BIOL 110. GenEd II.A.2.

IDNM 314 COMPARATIVE SOCIAL BEHAVIOR OF HUMANS & NONHUMAN PRIMATES: ETHICS & ISSUES (3) Human and nonhuman primate behavior from a psychological, anthropological, and zoological perspective. Topics to be discussed include: kinship, food sharing, altruism & reciprocity, aggression and dominance, reconciliation, culture, personality, sexuality, parenting, tool use, conservation and ethics. Prerequisite: students must have completed GenEd II.A.1 category, GenEd II.A.2.

IDNM 315 NETWORKS: THE SCIENCE OF CONNECTIONS (3) Understanding networks in diverse areas such as the Internet, cancer, infectious diseases, ecosystems, management practices and economics. Prerequisite: one course for GenEd II.A.1 and fulfillment of GenEd

I.C., or consent of instructor. GenEd ILA.2.

INTERNATIONAL STUDIES (INST)

INST 100 THE WORLD TODAY (3) Effectively access, evaluate and use the best sources of information available from the Internet, the library and other resources. GenEd LB.

INST 493 INTERNSHIP IN INTERNATIONAL STUDIES (1-6) Experiential learning through working with government, nonprofit or business private organizations involved with international affairs. No more than 6 units can be counted toward the International Studies Major.

INST 494 INTERNATIONAL STUDIES ABROAD (3) Independent study of the culture, history, economy and society of the country students intend to visit. Taught in three segments over three terms (including one term abroad). Fulfills one requirement for the International Credential. Prerequisites: Students must be registered in an approved study abroad program, experiential learning abroad program or international internship: COMM 379 and permission of coordinator of International Studies.

INST 496 INTERNATIONAL RESEARCH (3) Independent research, taught over two terms with one term abroad. Prerequisites: Students must be registered in an approved study abroad program, experiential learning abroad program or international internship: COMM 3⁻⁹ and permission of coordinator of International Studies.

INSTRUCTIONAL TECHNOLOGY (ISTC)

Lower Division 1STC 201 USING INFORMATION EFFECTIVELY IN EDUCATION (3)

An introduction to gathering, evaluating and communicating information. Emphasis will be on using team collaboration and problem solving to examine current issues in education. GenEd LB.

6 Course Descriptions

ISTC 202 HONORS USING INFORMATION EFFECTIVELY IN EDU-CATION (3) An introduction to gathering, evaluating and communicating information. Emphasis will be on using team collaboration and problem solving to examine current issues in education. GenEd. l.B.

Upper Division

ISTC 301 [501] UTILIZATION OF INSTRUCTIONAL MEDIA (3) Materials, devices, techniques and settings are presented in an overview of the field of instructional technology. Laboratory experiences are provided in the operation of instructional hardware. Prerequisite: junior/senior standing or departmental approval.

ISTC 441 [541] FOUNDATIONS OF INSTRUCTIONAL TECHNOLOGY (3) Exploratory course concerned with the rationale for and use of computers in learning and related administrative matters. Techniques are examined for the organization, storage, processing and retrieval of data. Applications include the computer for instruction, the management of instruction, simulation, generation of graphics, and accounting for software and hardware. (Note: The course will not prepare students for occupations in computer science.) Prerequisite: junior/senior standing.

ISTC 453 [553] INTRODUCTION TO INSTRUCTIONAL PHOTOG-RAPHY (3) Basic planning and darkroom methods for preparing photographic materials. Although the thrust of the course is the black-andwhite mode, color slides and other special topics are treated. Principles of visual literacy are stressed. Students are required to demonstrate competencies in darkroom utilization and print critiquing as well as print production. Prerequisite: consent of department chair.

ISTC 495 INDEPENDENT STUDY IN INSTRUCTIONAL TECHNOL-OGY (1-3) Individual and supervised study of research problems and special projects in specific areas of instructional technology. Prerequisites: junior/senior standing and special permit.

Graduate Division

See TU Graduate Catalog for course descriptions.

IRISH STUDIES (IRST)

IRST 465-467 TOPICS IN IRISH STUDIES (3) Variable topics. May be repeated for a maximum of 9 units. Prerequisite: 3 units of Irish studies or consent of instructor.

ITALIAN (ITAL)

Lower Division

ITAL 101 ITALIAN ELEMENTS I (3) Principles of Italian grammar; drills in pronunciation; elementary conversation; composition; readings. GenEd H.C.I.

ITAL 102 ITALIAN ELEMENTS II (3) Review of further study of grammar principles; pronunciation; conversation; composition; readings.

Prerequisite: ITAL 101. GenEd II.C.1.

ITAL 201 ITALIAN INTERMEDIATE I (3) Review of grammar and pronunciation; conversation; reading of cultural texts; oral and written exercises in language lab. Conducted in Italian. Prerequisite: ITAL 102 or equivalent. GenEd II.C.3.

ITAL 202 ITALIAN INTERMEDIATE II (3) Advanced grammar structures; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in Italian. Prerequisite: ITAL 201 or equivalent. GenEd II.C.3.

Upper Division

1TAL 301 ITALIAN COMPOSITION AND CONVERSATION I (3) Reading, conversation and composition on topics of cultural and literary interest; grammar and syntax. Prerequisites: ITAL 202 or equivalent. GenEd II.C.3.

ITAL 302 ITALIAN COMPOSITION AND CONVERSATION II (3) Reading, conversation and composition on topics of cultural and literary interest; review of grammar, and syntax as needed. Prerequisite: ITAL 202 or equivalent. GenEd II.C.3.

ITAL 321-322 SURVEY OF ITALIAN LITERATURE I, II (3,3) A thorough examination of Italian literature from the 13th century to the present.

Conducted in Italian. Prerequisites: ITAL 201-202.

ITAL 370-379 SPECIAL TOPICS IN ITALIAN (3-6) Specialized topics in language and culture. Content varies. May be repeated once for credit provided a different topic is covered. Prerequisite: ITAL 202 or equivalent.

ITAL 494 TRAVEL STUDY ABROAD (3-16) Italian language, culture, civilization and literature at approved study abroad sites in Italy. Prerequisite: approval of department chair.

IAPANESE (IPNS)

Lower Division

JPNS 101-102 JAPANESE ELEMENTS I, II (3,3) Development of elementary vocabulary and sentences, forms of written language, conversation, composition and translation. Uses the techniques of programmed instruction, GenEd II.D. JPNS 101 is a prerequisite to JPNS 102,

JPNS 201-202 JAPANESE INTERMEDIATE I, II (3,3) Review of elementary Japanese; intermediate kanji; conversation and prose composition; translations; outside readings commensurate with the ability of individual student. Uses the techniques of programmed instruction. JPNS 102 is a prerequisite to JPNS 201; JPNS 201 is a prerequisite to JPNS 202.

Upper Division

JPNS 301-302 JAPANESE COMPOSITION AND CONVERSATION I, II (3-3) Composition and conversation beyond the intermediate level. Conducted in Japanese. Prerequisites: JPNS 201-202 or equivalent. GenEd II.D.

JPNS 492 DIRECTED READINGS IN JAPANESE (1-3) Independent reading in sources written in Japanese. Prerequisites: JPNS 301-302 or

equivalent, consent of department chair.

JPNS 494 JAPANESE TRAVEL AND STUDY ABROAD (3-16) Study of language, literature and/or culture at a Japanese university. Contact department chair and Office of International Education. Prerequisites: consent of Japanese Study Abroad Program and department chair.

KINESIOLOGY (KNES)

Lower Division

Kinesiology courses numbered 111-284 include a variety of professional lab skills for majors, as well as team sports for both majors and non-majors. For specific titles, units, descriptions and pre requisites, consult the Department of Kinesiology.

KNES 140 TRACK AND FIELD (1) Basic instruction of all track and field events and their application across the K-12 curriculum.

KNES 150 PERSONAL DEFENSE/WRESTLING (1) Skills, strategies and developmentally appropriate activities for personal defense and

KNES 182 FIELD/COURT I (1) Skills, strategies and developmentally appropriate activities for the sports of soccer, basketball and team handball.

KNES 184 FIELD/COURT II (1) Skills, strategies and developmentally appropriate activities for the sports of hockey (field and floor), lacrosse and ultimate Frisbee.

KNES 196, 296, 396, 496 INDEPENDENT STUDY (.5-3) Designed to permit students to take courses which they cannot arrange within the regular term schedule. All work will be under the direct supervision of an assigned faculty member. May be repeated for a maximum of 6 units. Prerequisite: consent of department chair.

KNES 202 NET/WALL GAMES (1) Skills, strategies and developmentally appropriate activities for the sports of tennis, hadminton and volleyball.

KNES 210 LIFETIME SPORTS (1) Skills, strategies and developmentally appropriate activities for the lifetime sports of golf, archery, softball and bowling.

KNES 235 INDIVIDUALIZED FITNESS (3) Individual fitness and lifestyle will be examined. Fitness components (cardio-respiratory, muscular, flexibility, weight control and psychosocial) will be assessed and evaluated, and exercise prescriptions will be formulated for each individual. GenEd II.B.3.

KNES 239 PHYSICAL FITNESS ACTIVITIES (1) Development, administration and evaluation of fitness activities for selected populations. Prerequisite: Physical Education major.

KNES 247 OFFICIATING I (2) A study of the art of officiating through lectures, films, discussions and practical application. Covers swimming, volleyball, wrestling, football, basketball and field hockey. Open to majors and non-majors.

KNES 248 OFFICIATING II (2) A study of the art of officiating through lectures, films, discussions and practical application. Covers track, softball, lacrosse, baseball, tennis and gymnastics. Open to majors and non-

majors. KNES 255 ADVANCED INDIVIDUALIZED FITNESS (3) Structure and function of the physiological components of large muscle activity and their relationship to the development and maintenance of fitness. Prerequisites: one beginning-level fitness course.

KNES 269 LIFEGUARD TRAINING (2) An advanced course in lifeguarding techniques for swimming pools and open-water beach areas. Prerequisites: KNES 165 and HLTH 103 or equivalent.

- KNES 270-275 SPECIAL TOPICS IN PHYSICAL EDUCATION (1-3) Designed for study of special topics of current interest in physical education, athletics and their related fields. Objectives and content for each topic are reviewed and approved by the physical education faculty. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: consent of instructor.
- KNES 279 TECHNIQUES OF TEACHING CREATIVE MOVEMENT (1) A student-directed approach to the teaching of creative movement to all age levels, pre-school to senior citizen. Includes learning and utilization of basic rhythmic concepts.
- KNES 281-282 PHYSICAL EDUCATION FOR ELEMENTARY EDUCA-TION STUDENTS I, II (1, 1) Designed for the teacher of elementary school children to gain an understanding of and develop a basic ability in the basic skills of children's activities. Provides opportunity to become familiar with methods of learning skills and to appreciate the needs of the individuals in motor learning and analysis of group behavior.
- KNES 283 PHYSICAL EDUCATION ACTIVITIES FOR THE YOUNG CHILD (1) Provides Physical Education majors with practical knowledge of appropriate movement experiences for use in a developmental program of physical education for children in grades K-3.
- KNES 284 ADVENTURE BASED EDUCATION ACTIVITIES (1) Adventure curriculum approach to experiential education including initiatives, problem-solving activities, and low- and high-ropes course elements.
- KNES 285 SPORT: CROSS-CULTURAL PERSPECTIVE (3) Systematic study of sport from an anthropological perspective. GenEd II.D.
- KNES 290 INTRODUCTION TO TEACHING PHYSICAL EDUCA-TION (2) An introduction to the field of teaching in physical education; the student program of study; the profession of physical education; the school physical education program and evaluation.
- KNES 291 INTRODUCTION TO ATHLETIC TRAINING (1) The athletic trainer as an allied health care professional; manual skills required in the profession. Prerequisite: Athletic Training major.
- KNES 298 HISTORY AND PHILOSOPHY OF PHYSICAL EDUCATION (3) Foundations of physical education.

- KNES 301 INTRODUCTION TO RECREATION AND LEISURE (3)
 Recreation and leisure related to individuals, special populations and
 society. The impact of recreation and leisure concepts and theories on
 time and work. Out-of-class experiences required.
- KNES 305 OUTDOOR EDUCATION: PHILOSOPHY AND METHODS (3) Examination of the rationale and basic structure of outdoor education programs. An investigation of effective teaching techniques and procedures for outdoor education. Field experiences are required (students may have to provide their own transportation and equipment). Utilizes an interdisciplinary approach and is team taught. Prerequisites: junior or senior standing and one of the following: KNES 324, KNES 325, or Education Methods courses.
- KNES 307 TEACHING APPRENTICESHIP (.5-1) Students with a high degree of competency may request to be assigned to assist a faculty master teacher in class instruction and evaluation. May be repeated for a maximum of 1 unit. Prerequisites: junior/senior status; advanced skill level; approval of chair of kinesiology, director of major program and faculty member concerned.
- KNES 309 TESTS AND MEASUREMENT IN PHYSICAL EDUCATION (3) Background for development of measurement programs in physical education; elementary statistical procedures; interpretation of data; selection and administration of tests measuring fitness, motor ability and sports skills applicable to various grade and age levels.
- KNES 311 BIOMECHANICS(3) Mechanical and anatomical analysis of movement in relation to human performance. Three lecture units and two units of laboratory experience. Prerequisites: PHYS 202 or CHEM 105, BIOL 211-212.
- KNES 313 PHYSIOLOGY OF EXERCISE (3) Application of principles of physiology to large muscle activity, with special emphasis on the interrelations of muscular, nervous, circulatory and respiratory functions during exercise. Prerequisites: BIOL 211-212.
- KNES 315 CARE AND PREVENTION OF ATHLETIC INJURIES (3) Lecture and practical experiences in the study of modern theories and principles of athletic training mechanisms, nature and causes of the most common sports-related injuries. Prerequisite: BIOL 211.
- KNES 321 THE SCIENCE OF SPORTS SUCCESS: CONTRIBUTIONS OF GENETICS AND PRACTICE (3) Study of elite athletic performance within broad scientific and societal contexts; ethics of identifying, classifying and training athletes; approaches to the problems inherent in

- evaluating decisions emerging from scientific study of sport. Prerequisite: BIOL 110. GenEd II.A.2.
- KNES 324 TEACHING PHYSICAL EDUCATION IN ELEMENTARY SCHOOL (2-3) Responsibilities of the elementary school physical education teacher, including class organizational procedures, a variety of teaching methods, lesson and unit plan development, and content appropriate for the elementary school child. Includes observation and teaching experiences with elementary school children at various ages. Prerequisites: KNES 298, KNES 283, KNES 284 for physical education majors, and KNES 281, KNES 282 for elementary education majors.
- KNES 325 TEACHING PHYSICAL EDUCATION IN SECONDARY SCHOOL (3) Responsibilities of the secondary school physical education teacher, including class organizational procedures, variety of teaching methods, lesson and unit planning, and topics resulting from the observation/participation experience in a secondary school. Prerequisites: KNES 298, laboratory skills in team and individual sports.
- KNES 327 TEACHING CULTURAL DANCE FORMS AND CREATIVE MOVEMENT FOR PHYSICAL EDUCATION (3) Study and performances of basic skills required in various dance styles and creative movement using different teaching methodologies. Prerequisite: KNES 283.
- KNES 331 PRINCIPLES OF COACHING (3) Develops within each student an educationally sound philosophy of coaching. Emphasis on learning and understanding the principles and guidelines of good coaching and the application of human psychology as it relates to the coach and athlete in their unique relationship. Prerequisite: PSYC 101 or consent of instructor.
- KNES 333 SPORT MANAGEMENT (3) Managing an organization providing sport/fitness activities products or services. Prerequisite: ACCT 201.
- KNES 337 ADVANCED TECHNIQUES AND ANALYSIS OF COACH-ING IN SELECTED TOPICS (3) Theoretical and practical application of principles and techniques of coaching offensive and defensive techniques; strategy, scouting, organizing practice and utilizing staff. Prerequisite: KNES 331.
- KNES 341 CONCEPTS OF MOTOR LEARNING (3) Study of effects of sensation and perception, reaction time, knowledge of results, retention, transfer, physical and mental practice, and motivation on learning and performing motor skills. Prerequisite: PSYC 101 or consent of instructor.
- KNES 349 THE MODERN OLYMPIC GAMES (3) A socio-historically based interpretation of the modern Olympic Games as athletic festival, social construction, cultural symbol, philosophic movement and world-stage phenomenon.
- KNES 351 PHILOSOPHY: THE SPORT EXPERIENCE (3) Philosophy of sport and the body, including the major philosophical schools of thought and their implications on physical education. Prerequisite: PHIL 101 or PHIL 111 or consent of instructor. GenEd I.D.
- KNES 353 SPORT AND SOCIETY (3) Explores relationships between sport and social institutions. Prerequisite: SOCI 101. GenEd I.D.
- KNES 354 HONORS SPORT AND SOCIETY (3) Explores relationships between sport and social institutions. Prerequisite: Honors College admission.
- KNES 355 PSYCHOLOGY OF SPORT (3) Designed to study the psychological correlates of sport. The approach will be one of understanding and application of the literature and research design of sport psychology publications. Prerequisite: PSYC 101.
- KNES 357 SPORT IN FILM (3) Meaning of sport in 20th-century Western culture through film. Prerequisite: ENGL 102/190. GenEd I.D.
- KNES 359 PSYCHOLOGY OF SPORT INJURY (3) Application of psychological research and theory to sport injury and sport injury rehabilitation. Prerequisite: PSYC 101.
- KNES 361 EXERCISE PSYCHOLOGY (3) Contemporary research and theory, including exercise and fitness motives, psychological effects, theoretical models of exercise behavior, motivating behavior, cognitive and behavioral change strategies. Prerequisite: PSYC 101.
- KNES 363 NUTRITION FOR EXERCISE AND SPORT (3) Critical and practical aspects of nutrition related to exercise and sport. Prerequisites: BIOL 211-212.
- KNES 365 EXERCISE TESTING AND PRESCRIPTION (3) Theoretical concepts and application skills; includes assessment of components of fitness, exercise prescription for apparently healthy and special-concerns populations. Prerequisites: BIOL 212, KNES 235, KNES 313.
- KNES 369 PRACTICUM IN EXERCISE SCIENCE (3) Supervised clinical experience in the Towson University Wellness Center assisting fitness instructors. Prerequisite: KNES 365.

- KNES 381 BASIC CLINICAL ATHLETIC TRAINING I (1) Observe and perform professional skills under the supervision of a certified athletic trainer. Prerequisite: Athletic Training major-sophomore status; concurrent with KNES 315. Graded S/U.
- KNES 382 BASIC CLINICAL ATHLETIC TRAINING II (1) Observe and perform professional skills under the supervision of a certified athletic trainer; focuses on manual skills required in injury evaluation. Prerequisite: Athletic Training major-sophomore status: concurrent with KNES 429. Graded S/U.
- KNES 385 INTERMEDIATE CLINICAL ATHLETIC TRAINING I (1) Observe and perform professional skills under the supervision of a certified athletic trainer; focuses on selected manual skills. Prerequisite: Athletic Training major-junior status; concurrent with KNES 428. Graded S/U.
- KNES 386 INTERMEDIATE CLINICAL ATHLETIC TRAINING II (1) Observe and perform professional skills under the supervision of a certified athletic trainer; focuses on manual skills related to therapeutic exercise. Prerequisite: Athletic Training major-junior status, concurrent with KNES 427. Graded S/U.
- KNES 388 ADVANCED CLINICAL ATHLETIC TRAINING 1 (1) Observe and perform professional skills under the supervision of a certified athletic trainer; focuses on assessment techniques for cranial injury, spinal cord injury, and injury to the thorax and visceral region. Prerequisite: Athletic Training major-senior status. Graded S/U.
- KNES 389 ADVANCED CLINICAL ATHLETIC TRAINING II (1) Observe and perform professional skills under the supervision of a certified athletic trainer; focuses on selected manual techniques. Prerequisite: Athletic Training major-senior status; concurrent with KNES 431. Graded S/U.
- KNES 392 ELEMENTARY STUDENT TEACHING (6) Practical experiences in observation, participation and student teaching in elementary public schools under the guidance of master teachers and a university supervisor. Not open to those who successfully completed ELED 392. Prerequisite: approval of coordinator, KNES Student Teaching and Internships, and director of Center for Professional Practice.
- KNES 393 A WORLD HISTORY OF SPORT TO 1900 (3) Explores sport and physical education in context of social, economic and political influences. Focuses upon Greece, Rome, Western Europe to circa 1900. Prerequisite: KNES 298 or one history course.
- KNES 394 SECONDARY STUDENT TEACHING (6) Practical experience in observation, participation and student teaching in secondary public schools under the guidance of master teachers and a university supervisor. Not open to those who successfully completed SCED 392. Prerequisite: approval of coordinator, KNES Student Teaching and Internships, and director of Center for Professional Practice.
- KNES 395 KINESIOLOGY INTERNSHIP (3) Internship in Sport Studies, Sport Management or Exercise Science. May be repeated for a maximum of 6 units. Graded S/U, Prerequisites; junior/senior standing; special permit required; Exercise Science majors must have completed KNES 369.
- KNES 396 INDEPENDENT STUDY (1-3) Designed to permit students to take courses which they cannot arrange within the regular term schedule. All work will be under the direct supervision of an assigned faculty member. May be repeated for a maximum of 6 units. Prerequisite: consent of department chair.
- KNES 397 INTERNSHIP IN CAMPING OR OUTDOOR EDUCATION (3) Allows academic and practical experience for students in the camp program or outdoor education area of their choice. Students will participate as a volunteer, aide or staff member. Seminars will be held to discuss experiences. Students should expect to pay for their transportation, meals and lodging during the practicum experience. The course will be offered primarily during the minimester and summer sessions. May be repeated for a maximum of 6 units. Prerequisite: KNES 245 or KNTS 305 or consent of instructor.
- KNES 399 DIFFERENTIATED STUDENT TEACHING IN PHYSICAL EDUCATION (I-6) An experience in student teaching in addition to the regular student teaching experience. May be repeated for a maxi-
- KNES 403 ORGANIZATION AND ADMINISTRATION OF INTRA-MURALS (3) Permits students to acquire the skills of administration necessary in the development and organization of intramural programs in schools and colleges
- KNES 405 [505] BEHAVIOR MANAGEMENT TECHNIQUES IN THE CLASSROOM (3) Causes of misbehavior in pre-schools, elementary and secondary schools; crisis prevention; preventative, supportive and directive strategies and their practical application. Class rules, reinforcers, assessment and legal issues. Not available for credit if student successfully completed SPFD 429. Prerequisite: PSYC 201 or equivalent.

- KNES 409 [509] STRESS MANAGEMENT, TENSION CONTROL AND HUMAN PERFORMANCE (3) Presents information about the manifestation of stress and systematic programs for tension control. The correlates surrounding progressive muscle relaxation and biofeedback are explored in detail, as well as the neurological responses that produce tension responses. Lectures are combined with laboratory experiences in an effort to understand and practice relaxation techniques. Prerequisite: one psychology and/or biological sciences course.
- KNES 412 THEORY AND ANALYSIS OF GYMNASTICS MOVEMENT (3) Theoretical and practical application of mechanical analysis of movement concepts as related to proper execution of skills in gymnastics. The techniques and methods used in this course are designed to provide the teacher a logical system for presenting gymnastic skills to facilitate learning for the student; to demonstrate that gymnastic skills are logically founded on basic physics or terrestrial mechanics; to present aiding and spotting techniques.
- KNES 415 [515] ADVANCED CARE AND PREVENTION OF ATHLETIC INJURIES (3) Advanced principles of athletic training, including etiology, indications, evaluation and immediate management of selected complex injuries. Prerequisite: KNES 315 or consent of instructor.
- KNES 417 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3) Analysis and application of organizational skills and administrative structure of the athletic training profession, including record keeping, budgeting and a history of athletic training. Prerequisite: KNES 315. GenEd LD.
- KNES 418 SPORT FACILITY MANAGEMENT AND OPERATIONS (3) Indoor and outdoor facilities; budget, design, maintenance, operations, planning, renovations, scheduling and staffing.
- KNES 419 SWIMMING AND POOL MANAGEMENT (3) Teaching methods for all levels of swimming and diving. Modern methods of training the competitive swimmer with emphasis on technique and conditioning of the individual. The organization and administration of swimming pools and clubs with regard to staff, recreation and pool filtration. This is a certifiable course for pool management, approved by the Department of Health, Baltimore County, Prerequisites: KNES 261 and KNES 262.
- KNES 421 PHYSICAL EDUCATION PROGRAM IN THE ELEMEN-TARY SCHOOLS (3) Current trends and issues in curriculum development, methods and materials and research concerned with elementary school physical education programs. Prerequisite: KNES 324.
- KNES 423 [523] ADAPTIVE PHYSICAL EDUCATION (3) Recognition of pupils with physical deviations and use of special or modified physical education activities. Prerequisites: KNES 311, KNES 324 or KNES 325; BIOL 211-212.
- KNES 425 ADAPTED PHYSICAL EDUCATION FOR SPECIAL EDU-CATION MAJORS (3) Preparation, implementation and evaluation of developmentally appropriate activities and lessons for students with disabilities, pre-school through 21 years. Prerequisite: KNES 281.
- KNES 426 [526] MOTOR DEVELOPMENT: INFANTS TO ADULTS (3) Research of literature in motor development and performance of the individual from infancy through adulthood. Impact of motor development on cognitive, affective and psychomotor development.
- KNES 427 THERAPEUTIC EXERCISE IN ATHLETIC TRAINING (3) Analysis and application of comprehensive therapeutic exercise techniques and the development of rehabilitation programs for physically active individuals. Prerequisite: KNES 415.
- KNES 428 THERAPEUTIC MODALITIES IN ATHLETIC TRAINING (3) Analysis and application of modalities in the treatment and rehabilitation of injuries. Prerequisites: KNES 315, KNES 415.
- KNES 429 PHYSICAL ASSESSMENT FOR ATHLETIC TRAINING (3) Analysis and performance of comprehensive evaluation of injuries commonly sustained in athletics. Prerequisites: KNES 315, KNES 415.
- KNES 430 [530] MOVEMENT EDUCATION IN THE ELEMENTARY SCHOOL (3) Application of problem solving and individualized methods of teaching of movement for the elementary school child. Development of programs and materials for teaching creative dance, games and sports. Survey of current literature.
- KNES 431 SEMINAR IN ATHLETIC TRAINING (2) Roles, responsibilities of medical and paramedical personnel comprising the sports medicine team. Prerequisites: KNES 428 and KNES 429.
- KNES 432 GENERAL MEDICAL CONDITIONS IN ATHLETIC TRAINING (3) Prevention, recognition, evaluation, management and referral of medical conditions affecting physically active individuals. Emphasis on differentiating specific medical conditions and learning and applying appropriate history, physical examination, indications for referral, and treatment. Prerequisite: KNFS 415.

KNES 433 APPLIED SPORT AND EXERCISE PSYCHOLOGY (3) Applications of sport and exercise psychology theory to sport and exer-

cise settings. Prerequisite: KNES 355 or KNES 361.

KNES 435 [535] PROGRAMS IN OUTDOOR EDUCATION (3) Examines the varied programs in outdoor education offered within the state, nation and selected foreign countries. Traditional and innovative programs will be reviewed. Concepts revealed will be contrasted with meeting educational objectives. Several field trips are required. Open to Education majors. Prerequisite: 6 units of physical education, recreation or education.

KNES 437 SPORT AND THE MEDIA (3) Symbiotic relationship between

sport and electronic/print media. Prerequisite: KNES 353.

KNES 439 SPORT CULTURE AND COUNTERCULTURE (3) Culture ideologies and practices of sport and physical activity; counterculture critiques and alternative constructions of the body and physical culture. Prerequisite: jumor/senior standing.

KNES 441 [541] THE AMERICAN WOMAN IN SPORT (3) Historical, physiological, psychological, sociological and philosophical perspectives and societal attitudes toward women who participate in sport.

Prerequisite: PSYC 101 or SOCI 101 or WMST 231.

KNES 449 LEADERSHIP FOR SPORT PROFESSIONALS (3)
Development of effective, personal leadership skills for coaches, athletic directors, managers and others in the sport industry. Prerequisite: PSYC 101 or SOCI 101.

KNES 451 [551] HISTORY OF AMERICAN SPORT (3) Explores sport in American society from a historical perspective, emphasizing content and methods in sport history. Prerequisite: KNES 298 or HIST 145 or HIST 146 or HIST 148.

KNES 452 SPORT MARKETING (3) Fundamental marketing theories and principles applied to the selling of sports: focusing on the concepts and practices forming the knowledge base for effective marketing

strategies in sports. Prerequisite: MKTG 341.

- KNES 453 SPORT ADMINISTRATION (3) Designed to aid persons responsible for organizing and administering intramural and interschool athletic programs. Topics such as organizational patterns, objectives of the programs, controls, game management, records, conduct of tournaments, officials, awards and means of promoting the programs will be considered. Study will be made of competitive as well as informal recreation programs on all educational levels, with special emphasis on the secondary schools. Prerequisite: junior/senior standing in kinesiology.
- KNES 454 SPORT SALES AND SPONSORSHIP (3) Selling and negotiating within the sport-business climate. Development, implementation and evaluation of a sport sponsorship deal. Prerequisite: KNES 333 or KNES 452.
- KNES 455 [555] PHYSICAL ACTIVITY PROGRAMMING FOR THE OLDER ADULT (3) Application of physiological, psychological, sociological and motor learning principles to the development of physical activity programs for older adults. Prerequisite: PSYC 203 or consent of instructor.

KNES 457 PHYSIOLOGY OF AGING (3) Interaction of physical, psychological, social and environmental systems in the aging process from the late-middle to old age. Prerequisites: PSYC 101, KNES 313.

KNES 469 RESEARCH METHODS IN EXERCISE SCIENCE (3) Prepares students to read and interpret research in exercise science. Topics include scientific process, research questions and theories, literature review, research methods and measurement, data analysis and reporting. Prerequisites: ENGL 102/190, KNES 309. GenEd I.D.

KNES 470-479 [570-579] SELECTED TOPICS IN PHYSICAL EDUCA-TION (1-3) Workshop designed for study of special topics of current interest in physical education and athletics. Content varies and will focus on substantive material or operational problems. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: consent of workshop director and/or graduate program director.

KNES 480 SEMINAR IN TEACHING PHYSICAL EDUCATION (1)
Discussion and analysis of selected topics during the student teaching

KNES 494 [594] TRAVEL STUDY (3) Study of selected physical education programs, practices or facilities. Study group will be accompanied by TU Department of Kinesiology faculty member. Prerequisites: as specified in course outline and consent of instructor.

KNES 496 [596] INDEPENDENT STUDY (1-3) Designed to permit students to take courses which they cannot arrange within the regular term schedule. All work will be under the direct supervision of an assigned faculty member. No more than 3 units may be earned in Independent Study unless permission of department chair is obtained.

Graduate Division

See TU Graduate Catalog for course descriptions.

LATIN (LATN)

Lower Division

LATN 101 LATIN ELEMENTS 1 (3) Principles of Latin grammar and syntax; drills in morphology and translation; introduction to Roman culture as appropriate; elementary composition; readings. GenEd II.C.1.

LATN 102 LATIN ELEMENTS II (3) Review and further study of grammar and syntax; drills in morphology and translation; discussion of Roman culture as appropriate; composition; readings. Prerequisite: LATN 101. GenEd II.C.1.

LATN 201 LATIN INTERMEDIATE I (3) Review of elementary grammar and syntax, continuing to advanced structures; composition; study of Roman culture as appropriate. Prerequisite: LATN 102 or equivalent. GenEd ILC. L.

LATN 202 LATIN INTERMEDIATE II (3) Review of elementary grammar and syntax and introduction to most advanced structures; composition; study of Roman culture as appropriate; introduction to Latin stylistics through study of longer passages from ancient authors. Prerequisite: LATN 201 or equivalent. GenEd II.C.1.

Upper Division

- LATN 301 ADVANCED READINGS IN LATIN (3) Study and translation of selected texts from Latin authors with special attention to review of grammar, syntax and vocabulary. Prerequisite: LATN 202 or equivalent. GenEd II.C.1.
- LATN 302 ADVANCED READINGS IN LATIN (3) Study and translation of selected texts from Latin authors with special attention to Roman history and culture. Discussion of varying approaches to translation. Prerequisite: LATN 301 or equivalent. GenEd II.C.I.

LATIN AMERICAN STUDIES (LAST)

Lower Division

LAST 100 LATIN AMERICA: ISSUES AND APPROACHES (3) Multiple disciplinary approaches to leading issues in recent Latin America. Access, evaluate and use information. GenEd I.B.

Upper Division

LÂST 484 SPECIAL TOPICS IN LATIN AMERICAN STUDIES (3) Study through lectures and discussions of interdisciplinary topics selected by the instructor. Prerequisite: consent of instructor.

LAST 491-492 DIRECTED READINGS IN LATIN AMERICAN STUDIES
(3) Independent reading in Latin American Studies in a topic selected by the student in consultation with the instructor(s). May be repeated for a maximum of 6 units. Prerequisites: advanced undergraduate standing and consent of instructor.

LAST 497 INTERNSHIP IN LATIN AMERICAN STUDIES (3-6) Training and experience with public and private organizations. May be repeated for a maximum of 6 units. Graded S/U. Prerequisites: 27

upper-division units and consent of instructor.

LAW AND AMERICAN CIVILIZATION (LWAC)

Upper Division

LWAC 491 THESIS SEMINAR IN LAW AND AMERICAN CIVILIZA-TION (3) Using Internet technology and traditional classroom instruction, students will research and write on some aspect of law in American society and civilization. Prerequisites: open only to majors who have completed at least 24 units in the major; consent of instructor.

LWAC 497 PRACTICUM IN LAW AND AMERICAN CIVILIZATION (3) Practicum in a law firm, in a court or in business. Prerequisite: open only to students majoring in Law and American Civilization who have earned a cumulative GPA of 3.00.

LWAC 498 HONORS THESIS I: DIRECTED READINGS IN LAW AND AMERICAN CIVILIZATION (3) Readings and research in preparation for the writing of an honors thesis under the supervision of the director or one member of one of the participating departments. Prerequisites: open only to majors who have completed at least 30 units in the major and have earned a cumulative GPA of 3.25 and a GPA of 3.50 in the major, consent of instructor.

EWAC 499 HONORS THESIS II: THESIS IN LAW AND AMERICAN CIVILIZATION (3) Research and writing of an honors thesis guided by the director or a member of one of the participating departments. Prerequisites: open only to majors who have completed at least 33 units in the major and have earned a cumulative GPA of 3.25 and a GPA of 3.50 in the major, consent of instructor.

LEGAL STUDIES (LEGL)

Lower Division

LEGL 225 LEGAL ENVIRONMENT OF BUSINESS (3) Sources of law and our legal system, emphasis on court jurisdiction, procedure, tort and criminal law, contracts, sales, anti-trust law, and workers compensation and consumer, environmental and international law. Not open to those who successfully completed BULA 225.

LEGL 226 BUSINESS LAW (3) Law of agency, partnership, corporations, real and personal property, estates, bankruptcy, commercial paper and secured transactions. Not open to those who successfully completed

BULA 226. Prerequisite: BULA 225 or LEGL 225.

Upper Division

LEGL 325 SPORTS LAW (3) Review of legal background of sports and recreation, analyzing torts, contracts, anti-trust issues, constitutional and labor law. Prerequisite: BULA 225 or LEGL 225.

LEGL 326 ELDER LAW (3) Court systems, guardianships, estates and trusts, asset planning, and Medicare/Medicaid implications.

Prerequisite: junior standing.

- LEGL 328 CYBER LAW: THE LAW OF THE INTERNET (3) An introduction to the law of the Internet including security, online transactions, rights in electronic information, regulating information content and regulating online conduct. Not open to students who successfully complete EBUS 328.
- LEGL 470-479 SPECIAL TOPICS IN LEGAL STUDIES (3) Course content varies with each topic. In-depth study of contemporary business issues as they affect current business law practice. May be repeated for credit provided a different topic is covered. Prerequisite: consent of instruc-

LESBIAN, GAY, BISEXUAL AND TRANSGENDER STUDIES (LGBT)

- LGBT 101 INTRODUCTION TO LESBIAN, GAY, BISEXUAL AND TRANSGENDER STUDIES (3) Interdisciplinary and cross-cultural examination of sexual orientation. Course topics include institutionalized heterosexism and homophobia, Lesbian, Gay, Bisexual and Transgender (LGBT) identities, communities, culture and political activism. Not open to students who have successfully completed IDIS 101 or LGBT 101.
- LGBT 381 [581] READINGS IN LGBT STUDIES (3) Research on relevant literature under the guidance of a faculty staff member. May be repeated for a maximum of 6 units. Prerequisite: 6 units of course work in LGBT minor or consent of instructor.
- LGBT 470-479 [570-579] SPECIAL TOPICS IN LGBT STUDIES (3) Survey and critical examination of current research and literature in LGBT studies. May be repeated for a maximum of 9 units with a different topic. Prerequisite: 6 units in the LGBT minor or consent of instructor.
- LGBT 491 [591] INDEPENDENT INVESTIGATIONS IN LGBT STUD-IES (3) Research problems under the direction of a faculty member. May be repeated for a maximum of 6 units. Prerequisite: 6 units in the LGBT minor or consent of instructor.

MANAGEMENT (MNGT)

Upper Division

MNGT 337 INFORMATION TECHNOLOGY (3) Strategic, tactical and operational applications of information technology including management information systems, decision support systems, intelligent systems, strategic information systems and electronic commerce. Topics include data and knowledge management and networking computing. Not open to those who successfully completed MNGT 437. Prerequisites: COSC 111 or equivalent course; major standing.

MNGT 361 PRINCIPLES OF MANAGEMENT (3) Nature, development and future prospects of management and organization theory. Management functions and processes in terms of planning, organizing, leading, controlling and communications. Exploration of social responsibility of business and international management, Prerequisite: junior

major standing.

MNGT 365 PRINCIPLES OF OPERATIONS MANAGEMENT (3) Strategies and techniques for service and manufacturing operations. Prerequisites: junior major standing, and ECON 205 or MATH 231/233.

MNGT 375 (3) INTERNATIONAL BUSINESS: THEORY AND PRAC-FICE (3) Global dimensions and interdependencies of business; international firms' strategies and structures, global strategy and market entry. Flements of international finance include international monetary

systems, foreign exchange and global trade theory. Global operations, marketing and HRM. Prerequisites: junior major standing, BUSX 301 as corequisite or prerequisite. Not open to those who successfully completed MNGT 355.

- MNGT 381 HUMAN RESOURCE MANAGEMENT (3) Techniques and issues in acquiring, developing, motivating and maintaining a competent work force. Topics include equal employment opportunity, human resource planning, recruitment and selection, training and development, performance evaluations, motivation, compensation and benefits, labor relations, and safety and health. Prerequisites: junior major standing, MNGT 361.
- MNGT 419 SUPPLY-CHAIN MANAGEMENT (3) Materials management and materials support service and product delivery; technical support, materials handling, distribution/transportation strategies, impact on scheduling and inventory; international supply-chain management. Prerequisites: senior major standing, MNGT 365.

MNGT 421 MANAGEMENT OF ORGANIZATIONAL BEHAVIOR (3) Performance management, jobs and design of work, work teams, power/politics, stress/well-being at work, career management, quality management. Prerequisites: MNGT 381 and major standing.

MNGT 423 SERVICE OPERATIONS MANAGEMENT (3) Concepts and techniques of service operations management, emphasizing problemsolving methods and exercises. Prerequisite: MNGT 263/363 or ECON

MNGT 425 ORGANIZATION THEORY AND DEVELOPMENT (3) Design of complex organizations focusing on organizational structure, process, technology, growth, change and change agents, and culture. Prerequisites: senior major standing, MNGT 361.

MNGT 433 COMPENSATION AND BENEFITS (3) Analysis and management of compensation systems, job evaluation, wage levels, structures, and planning for the public and private sectors. Prerequisites: senior major standing, MNGT 263/363, or ECON 306, MNGT 381.

- MNGT 438 MULTINATIONAL MANAGEMENT AND CULTURE (3) Global strategy, management and organization of multinational corporations; cultural differences and their influence on business interactions, modes of entry and ethics. Prerequisites: MNGT 361, MNGT 355 or MNGT 375; major standing.
- MNGT 443 PROJECT MANAGEMENT (3) Systematic approach to planning, scheduling and controlling organizational activities; timelines, budgets and quality criteria. Prerequisites: MNGT 365, major standing.
- MNGT 451 INDUSTRIAL RELATIONS (3) Nature, development and process of labor-management relationships. Labor laws, organizing, contract negotiations, grievances and arbitration, and future issues for unions. Prerequisites: senior major standing, MNGT 381.
- MNGT 453 CONFLICT RESOLUTION IN BUSINESS (3) Resolving disputes in business operations through negotiations, mediation and arbitration, as alternatives to litigation. Dispute areas include buyer/seller, management salaries, service contractor, real estate and other situations common to business. Prerequisites: senior major standing, MNGT 361.
- MNGT 455 ENTREPRENEURSHIP AND SMALL BUSINESS (3) The research and planning process needed to start a small business is emphasized. Entrepreneurial management strategies for marketing, finance and operations are studied. The preparation of a business plan is required. Prerequisites: FIN 331, MKTG 341/342, MNGT 365, senior major standing.

MNGT 461 TOTAL QUALITY MANAGEMENT (3) Understanding and implementing quality management in organizations. Topics include philosophy of quality, behavioral tools, statistical process control and implementation issues. Prerequisites: senior major standing, MNGT

263/363 or ECON 306, MNGT 365.

MNGT 463 ORGANIZATIONAL LEADERSHIP (3) Students experience various ways of thinking about and responding to the concept and processes of leadership and leadership behavior related to the management of human organizations. Prerequisites: senior major standing, MNGT 361.

MNGT 470-479 SPECIAL TOPICS IN MANAGEMENT (3) Course content varies with each topic. In-depth study of contemporary business issues as they affect current management practices. May be repeated for credit provided a different topic is covered. Prerequisite: consent of

instructor. Special permit only.

MNGT 481 BUSINESS STRATEGY AND POLICY (3) A capstone course integrating operational skills and theories and emphasizing managerial decision-making as it relates to strategic management and business policy in domestic and international operations. Not open to those who successfully completed Business Policy. Prerequisites: senior standing, completion of FIN 331, MKTG 341/342, MNGT 361, MNGT 365 and BUSX/CBEC 301.

- MNGT 482 BUSINESS ETHICS AND SOCIETY (3) Interaction between business and its non-economic environments: ethical reasoning, stakeholder analysis, corporate responsibility, crisis management and business in the political process. Prerequisites: senior major standing, MNGT 361.
- MNGT 491 DIRECTED READINGS (1-3) Assigned readings in selected areas of management. A total of 6 units for any combination of Directed Readings, independent study and internship is allowed in the management area of study. Prerequisites: consent of the instructor, a minimum of 3.00 cumulative GPA, completion of all 200- and 300-level management core requirements, and a special permit.

MNGT 495 INDEPENDENT RESEARCH (1-3) Directed research in specific areas of management. A total of 6 units for any combination of Directed Readings, independent study and internship is allowed in the management area of study. Prerequisites: consent of the instructor, a minimum of 3.00 cumulative GPA, completion of all 200- and 300-level management core requirements, and a special permit.

MNGT 497 MANAGEMENT INTERNSHIP (3) Students are required to work in government or industry for a minimum of 120 units to gain practical experience in the application of management concepts. All positions have been reviewed and approved by management faculty. A total of 6 units for any combination of Directed Readings, independent study, and internship is allowed in the management area of study. Prerequisites: consent of the instructor, a minimum 3.00 cumulative GPA, completion of MKTG 341/342, MNGT 361 and FIN 331, and special permit.

MNGT 498 PRACTICUM IN MANAGEMENT (3) Synthesis of management knowledge, skills and attitudes through professional responsibilities in employment, internship or comparable experience. Prerequisite: senior standing.

MARKETING (MKTG)

Upper Division

- MKTG 341 PRINCIPLES OF MARKETING (3) Design, distribution pricing and promotion of goods, services, places, people and causes of both national and international markets. Included is an introduction to strategic and tactical applications of marketing. Prerequisite: junior standing.
- MKTG 342 DEPARTMENT HONORS PRINCIPLES OF MARKETING (3) National and international concepts of the design, distribution, and promotion of goods and services, places, people and causes. Strategic and tactical applications of marketing. Students should expect to participate in corporate visits. Not open to students who successfully completed MKTG 341. Prerequisites: junior standing, cumulative GPA of 3.25 or higher.
- MKTG 345 ADVERTISING MANAGEMENT (3) Promotional strategies for different classifications of products and services. Planning, preparing and scheduling advertisements. Media selection and determination of ad effectiveness. Advertising research. Prerequisite: junior major standing, MKTG 341/342.
- MKTG 347 SERVICES MARKETING (3) Examines the marketing of services. The uniqueness of services marketing will be analyzed along with the similarities to product marketing. Selected topics among the following services will be examined: health care, museums, government services, travel, transportation, food, education, banking and legal services. The service aspects of product marketing will also be analyzed. Prerequisites: MKTG 341/342 and junior major standing.
- MKTG 349 PRODUCT DEVELOPMENT AND PLANNING (3)
 Development of new goods and services, including idea generation,
 concept evaluation, test marketing and product launch. Prerequisites:
 MKTG 341/342 and junior major standing.

MKTG 351 SALES MANAGEMENT (3) Principles of successful selling, presenting, negotiating and managing a sales force. Prerequisites: MKTG 341/342 and major standing.

MKTG 355 RETAIL MANAGEMENT (3) Provides students with an indepth knowledge of marketing activities at the retail level in the business environment. Different types of retail institutions are examined as to the types of strategies employed in the performance of major functions, such as buying, merchandising, selling, advertising and physical operation. Key issues, such as market segmentation, geographical location and internal organization, are analyzed. Prerequisites: MKTG 341/342 and junior major standing.

MKTG 357 MARKETING CHANNELS (3) Processes and interdependent institutions for transfer of product ownership from seller to buyer; structure, functions and activities of traditional and contemporary channels. Prerequisites: MKTG 341/342 and junior major standing.

- MKTG 361 MARKETING FOR NONPROFIT ORGANIZATIONS (3) Analyzing marketing management approaches and techniques for non-profit sector; market-driven organizations; developing resources; designing and implementing the marketing mix. Prerequisites: MKTG 341/342 and junior major standing.
- MKTG 371 PRINCIPLES OF TRANSPORTATION (3) Economic and political factors affecting transportation and transportation systems. Development problems and government regulations. Study of freight and passenger carrier modes. Prerequisites: MKTG 341/342 and junior major standing.
- MKTG 425 BUYER BAHAVIOR ANALYSIS (3) An examination of the buying behavior of individual and organizational buyers with regards to the decision process utilized when purchasing goods and services and the resulting consequences in the development of marketing strategies by business firms and other organizations. Prerequisites: major standing; MKTG 341/342 (PSYC 209 recommended). Concurrent enrollment in MKTG is recommended.
- MKTG 441 MARKETING RESEARCH AND FORECASTING (3) Message formulation, advertising testing and product development by examining the behavior and psychological disposition of market participants as related to marketing decision making. Prerequisite: ECON 306, MKTG 341/342.
- MKTG 442 MARKETING HONORS SEMINAR (3) Decision-making skills and the formulation of strategies and policy. Market segmentation, consumer behavior, pricing, product line strategy and promotion. Prerequisites: senior standing and consent of instructor.
- MKTG 445 INTERNATIONAL MARKETING (3) Impact of international marketing environments on pricing, product, channels of distribution, advertising and promotion. Problems and obstacles related to market surveys and development of policies. Regional studies. Prerequisites: MKTG 341/342; major standing.
- MKTG 470-479 SPECIAL TOPICS IN MARKETING (3) Course content varies with each topic. In-depth study of contemporary business issues and how they affect current marketing practices. May be repeated for credit provided a different topic is covered. Prerequisite: consent of instructor. Special permit only.
- MKTG 485 STRATEGIC MARKETING (3) Capstone course emphasizing management of marketing activities and the development and implementation of product, pricing, promotion and distribution strategies within an interdisciplinary context. Prerequisites: MKTG 341/342, major standing and 6 additional units in marketing courses.
- MKTG 491 DIRECTED READINGS (1-3) Readings in selected functional or conceptual areas of marketing. Prerequisites: consent of instructor, special permit.
- MKTG 495 INDEPENDENT RESEARCH (1-3) Directed research on specific problems in a functional area of marketing. May be repeated for a maximum of 6 units. Prerequisites: consent of instructor, special permit.
- MKTG 497 MARKETING INTERNSHIP (3) Students are required to work a minimum of 120 units in an actual business environment to gain practical application of marketing concepts. Upon completion, a formal written and oral presentation of the internship experience is required. Prerequisites: consent of instructor, minimum 3.00 GPA, special permit and completion of MKTG 341/342, MNGT 361, FIN 331.

MASS COMMUNICATION (MCOM)

Lower Division

- MCOM 100 USING INFORMATION EFFECTIVELY IN MASS COM-MUNICATION (3) Effective and ethical gathering, evaluation, application and presentation of information in the study of mass communication. GenEd 1.B.
- MCOM 101 INTRODUCTION TO MASS COMMUNICATION (3) Issues, theories and structures of mass communication and careers in the mass media.
- MCOM 102 HONORS: INTRODUCTION TO MASS COMMUNICA-TION (3) Issues, theories and structures of mass communication and careers in the mass media. Prerequisite: consent of instructor.
- MCOM 214 PRINCIPLES OF ADVERTISING (3) Review of contribution made by advertising to the U.S. economy and of the principles and practices as applied to mass media. Prerequisites: COMM 131 and MCOM 101.
- MCOM 253 PRINCIPLES OF STRATEGIC PUBLIC RELATIONS AND INTEGRATED COMMUNICATION (3) Research, theory, techniques: strategy, planning and management of public relations programs. Law, ethics and professionalism are covered. Prerequisites: COMM 131 and MCOM 101.

MCOM 255 NEWSWRITING (3) Newswriting from the standpoint of style, structure and readability. Prerequisites: MCOM 101 and one English composition course.

Upper Division

- MCOM 323 ADVERTISING MEDIA PLANNING (3) Strategic media decision making and the impact on marketing. Prerequisite: MCOM 214.
- MCOM 325 ADVERTISING COPYWRITING (3) Creative process and production of copy for various media: print, broadcasting, direct mail and billboards. Prerequisite: MCOM 214.
- MCOM 341 DIGITAL PUBLISHING (3) Computer technology to create publications for delivery in print and online. Prerequisites: MCOM 101 and sophomore standing.
- MCOM 350 MEDIA LAW (3) Examination of libel, slander, invasion of privacy and copyright. Legal considerations in reporting on judicial and governmental activities. Prerequisites: MCOM 101 or EMF 140; junior/senior standing.
- MCOM 352 MEDIA CRITICISM (3) Theory and practice of media criticism intended for various audiences, including consumer-oriented criticism, social criticism and scholarly criticism. Prerequisite: MCOM 101 or EMF 140.
- MCOM 356 FEATURE WRITING (3) Researching and writing journalistic articles for publication in newspapers, magazines and other media. Prerequisite: MCOM 255, GenEd 1.D.
- MCOM 357 PUBLIC RELATIONS WRITING (3) Composing, editing and producing media materials for both internal and external audiences. Prerequisite: MCOM 253. GenEd 1.D.
- MCOM 358 NEWS EDITING (3) Practice in editing and headline writing for print and online media. Prerequisite: MCOM 255.
- MCOM 359 MAGAZINE PUBLISHING (3) Examination of the principles, practices, problems and trends in magazine publishing through tracing the process of a magazine from copy to bindery. Steps in periodical production stressing emphasis on layout factors. Intensive analysis of magazine markets and case studies of magazine publishing problems. Prerequisite: MCOM 255.
- MCOM 381 BROADCAST JOURNALISM (3) Theory and practice of broadcast journalism. The gathering, writing and presentation of news for audio-only and audio-visual media. Ethical standards for broadcast journalism will be analyzed. Prerequisites: EMF 140 and MCOM 255; iunior/senior standing
- MCOM 383 NEWS REPORTING (3) Experience in reporting. Coverage of specific news beats on- and off-campus and general assignment work. Consideration of news-gathering techniques, including direct and participant observation, use of survey research data and use of official records. Prerequisite: MCOM 255.
- MCOM 385 MASS MEDIA AND SOCIETY (3) Seminar on current issues and effects of mass communication, Prerequisite: MCOM 101 or EMF 140.
- MCOM 388 CYBERSPACE AND COMMUNICATION (3) Seminar of the social, cultural, technical and behavioral effects and implications of new media and online communication. Prerequisite: MCOM 101 or EMF 140.
- MCOM 391 PHOTOJOURNALISM 1 (3) Photography for the mass media. History, aesthetics and ethics are covered. Prerequisites: MCOM 255, ART 234, or consent of instructor.
- MCOM 407 (507) WRITING FOR NEW MEDIA (3) Research and create multimedia news and feature articles incorporating hypertext, graphics, photographics, audio and video elements. Prerequisites: MCOM 356, MCOM 357, or MCOM 381 and consent of instructor.
- MCOM 409 LITERARY JOURNALISM (3) Literary technique and dramatic structure for print and online journalistic media. Prerequisite: MCOM 356.
- MCOM 411 COMMUNICATION PROCESS (3) Prominent theories and research on mass media and human communication. Prerequisites: 9 units of MCOM/COMM including COMM 131 and junior standing.
- MCOM 415 MASS MEDIA GRAPHICS (3) Communication potential of design elements in a variety of graphics using computer technology. Prerequisite: MCOM 341 or MCOM 391 or consent of instructor.
- MCOM 431 [550] PUBLIC OPINION AND THE PRESS (3) Journalistic aspects of public opinion and propaganda; the impact of mass communication media on the formation of public opinion. Techniques of polling and testing public opinion. Prerequisites: at least 15 units of COMM or MCOM courses including MCOM 101.
- MCOM 433 MEDIA ETHICS (3) Ethical principles, issues, dilemnias in mass communication; professional codes; personal, interpersonal, small group, organizational and societal factors affecting ethical mediated communication. Prerequisites: MCOM 101 and/or EMF 140, and junior/senior standing.

- MCOM 440 ADVERTISING MEDIA SALES (3) Procedures for selling media space and time: strategy, training and preparation. Prerequisites: At least 15 units of COMM or MCOM courses including MCOM 214.
- MCOM 443 INTERNATIONAL ADVERTISING AND PUBLIC RELA-TIONS (3) Role of advertising and public relations in the world marketplace. Consideration of global and local perspectives, key decisions in agency operations, creative aspects and media. Prerequisites: at least 15 units of COMM or MCOM classes including MCOM 214
- MCOM 445 CORPORATE OR INSTITUTIONAL ADVERTISING (3) Techniques used by corporations to develop institutional messages for public presentations. Prerequisites: MCOM 214 and MCOM 253.
- MCOM 447 [547] ADVERTISING CAMPAIGNS (3) Application of advertising principles and practices to the development of campaigns and the preparation of a plan book. Not open to those who successfully completed MCOM 360. Prerequisites: MCOM 323 and MCOM 325
- MCOM 451 [551] PUBLIC RELATIONS FOR NONPROFIT ORGANI-ZATIONS (3) Fund raising and development, implementing and evaluating public relations campaigns for nonprofit organizations. Practical experience lab sessions. Prerequisite: MCOM 357
- MCOM 453 [553] STRATEGIC PUBLIC RELATIONS AND INTE-GRATED COMMUNICATION CAMPAIGNS (3) Research, planning, implementing and evaluating programs and campaigns. Prerequisites: MCOM 253 and MCOM 357
- MCOM 457 PHOTOJOURNALISM II (3) Color photography for the mass media, including electronic imaging. Prerequisite: MCOM 391.
- MCOM 459 [559] PROFESSIONAL ISSUES IN STRATEGIC PUBLIC RELATIONS AND INTEGRATED COMMUNICATION (3) Technical, managerial, legal, ethical and accreditation issues and concerns involved in the practice of public relations and integrated communications. Prerequisite: COMM 419 or MCOM 453 or MCOM 447.
- MCOM 460 INTERNSHIP IN MASS COMMUNICATION (1-6) Under faculty supervision, students work as interns with a professional in the field of mass communication. Graded S/U. May be repeated for a maximum of 9 units, but only 6 units will apply to the major. Prerequisites: junior/senior standing; cumulative GPA of 2.75 and 3.00 in the major; completion of appropriate courses determined by the department.
- MCOM 479 SPECIAL TOPICS IN MASS COMMUNICATION (3) Indepth study of a selected area dependent upon faculty and student interest. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisite: junior/senior standing or consent of instructor.
- MCOM 483 COMPUTER-ASSISTED REPORTING (3) Gathering, analyzing and writing about data for the news. Prerequisites: MCOM 255 and MCOM 383
- MCOM 490 MASS COMMUNICATION RESEARCH (3) Survey of methods and uses of research in mass media fields. Prerequisite: 18 units of COMM or MCOM; junior/senior standing; major in MCOM or COMM; consent of instructor.
- MCOM 496 INDEPENDENT STUDY IN MASS COMMUNICATION (1-6) Directed study through readings, projects, and papers in a specific area of joint faculty/student interest. May be repeated for a maximum of 6 units. Prerequisite: junior/senior standing and approval of planned project by the instructor.
- MCOM 499 HONORS THESIS IN MCOM (3) Intensive research paper or media production project in the areas of newspaper/magazine journalism, photojournalism, public relations, advertising or new media as chosen by the student in consultation with the thesis adviser. Restricted to candidates for Departmental Honors in Mass Communication. Prerequisites: 3.50 GPA in major, 3.20 GPA overall and junior standing.

Graduate Division

See TU Graduate Catalog for course descriptions.

MATHEMATICS (MATH)

Lower Division

MATH 105 MATHEMATICAL IDEAS (3) Basic concepts and ideas in mathematics are selected to explore the aesthetics and utility of mathematics. Topics are chosen from sets, counting methods, mathematical systems, basic rules of probability, statistics, logic, finance, geometry, numeration systems and modeling. Not counted toward nor required for Early Childhood Education or Elementary Education majors. Not open to those who successfully completed MATH 101 or MATH 106. Prerequisites: two years of algebra or DVMT 110, and one year plane geometry. GenEd I.C.

- MATH 106 INTRODUCTION TO CONTEMPORARY MATHEMATICS (3) Contemporary applications are explored to illustrate the nature of mathematics, its role in society, and its practical and abstract aspects. Topics are chosen from networks and graphs, the traveling salesman problem, scheduling problems, collecting and describing data, coding information, voting systems, fair division, fractal geometry, and growth and symmetry. Not open to students who successfully completed MATH 105. Prerequisites: two years of algebra or DVMT 110, and one year plane geometry. GenEd I.C.
- MATH 109 TRANSITION TO ALGEBRA FOR APPLICATIONS (3) Intended primarily for students in business, economics, psychology and the social sciences, this course has two parts. Part I is a review of intermediate algebra-rational expressions, systems of equations and inequalities, graphical solutions, radicals and exponents, and quadratic functions. Successful completion of part 1 is required for entry to part 2. Part 2 includes applications of finite mathematics -- linear equations, matrices, linear programming using graphical methods and the simplex algorithms, sets, counting and elementary probability. Prerequisite: Placement based on competency test. GenEd. I.C.

MATH 111 ALGEBRA FOR APPLICATIONS (3) Intended primarily for students in business, economics, psychology and the social sciences. Applications of finite mathematics: linear equations, matrices, linear programming using graphical methods and the simplex algorithms, sets and counting, elementary probability. Not open to those who successfully completed MATH 115 or MATH 119. Prerequisites: two years of algebra or DVMT 110, and one year plane geometry. GenEd l.C.

MATH 115 BASIC MATHEMATICS FOR THE SCIENCES (3) Intended primarily for students in biology, natural sciences, environmental studies, medical technology and nursing. Functions and equations: linear, quadratic, exponential, trigonometric. Applications of concepts and skills to the life and physical sciences are stressed. Not open to those who successfully completed MATH 119. Prerequisites: two years of algebra or DVMT 110, and one year plane geometry. GenEd 1.C.

MATH 119 PRE-CALCULUS (4) The concept of function, exponential, logarithmic, circular and trigonometric functions, systems of linear equations, vectors in two space, lines, conic sections and polar coordinates. Prerequisites: two years algebra or DVMT 110, one year plane geometry, one-half year trigonometry. GenEd I.C.

MATH 204 MATHEMATICAL CONCEPTS AND STRUCTURES I (4) Problem solving, sets, systems of numeration, development of numeration system through rational numbers, arithmetic operations and algorithms, number theory and use of appropriate technology. (Required of all Early Childhood and Elementary Education major.) Prerequisites: two years of high school algebra or DVMT 110 and one year of plane geometry.

MATH 205 MATHEMATICAL CONCEPTS AND STRUCTURES II (4)
Real numbers, functions and graphs, statistical concepts and their
applications, analysis and display of one variable and bivariate data,
hypothesis testing, probability in single and multistage experiments,
and use of appropriate technology. (Required of all Early Childhood
and Elementary Education majors.) Prerequisite: MATH 204. GenEd I.C.

MATH 206 NUMBER SYSTEMS AND FUNCTIONS (4) Number theory including systems of numeration, functions, problem solving with technology and basic concepts of calculus from an intuitive standpoint. Intended primarily for students interested in teaching mathematics in grades 4-8. Prerequisites: two years algebra or DVMT 110, one year plane geometry, one year trigonometry.

MATH 207 QUANTITATIVE AND GEOMETRIC REASONING (4)
Advanced treatment and applications of concepts in geometry, measurement, trigonometry, probability and statistics. Appropriate use of current technology, such as LOGO, will be emphasized. Intended primarily for students interested in teaching mathematics in grades 4-8. Prerequisite: MATH 206. GenEd 1.C.

MATH 211 CALCULUS FOR APPLICATIONS (3) Intended primarily for students in biology, business, economics, psychology and the social sciences. Elements of differential and integral calculus from an intuitive standpoint with emphasis on the use of calculus in the above fields. Exponential and logarithmic functions, partial derivatives included. Not open to mathematics majors or minors. Prerequisite: MATH 111 or MATH 119. GenEd 1.C.

MATH 230 COMPUTER LAB FOR BEGINNING STATISTICS (1) A statistical package is used to do computer lab assignments on data manipulation, descriptive statistics, one and two sample inference and linear regression. Intended only for students who transfer basic statistics course without a computer lab component. Prerequisite: beginning statistics course without a computer component. Graded S/U.

MATH 231 BASIC STATISTICS (3) Frequency distributions and graphical methods, percentiles, measures of central tendency and variability,

probability emphasizing binomial and normal distributions, sampling distributions, point and interval estimation, one and two sample hypothesis tests, simple linear regression. MINITAB or an equivalent computer package is introduced as a computational tool. Practical applications of statistics. Prerequisite: MATH 111 or MATH 115 or equivalent. GenEd 1.C.

MATH 233 HONORS BASIC STATISTICS (3) Frequency distributions and graphical methods, percentiles, measures of central tendency and variability, probability, emphasizing binomial and normal distributions, sampling distributions, point and interval estimation, one- and two-sample hypothesis tests, simple linear regression. MfNfTAB or an equivalent computer package is introduced as a computational tool. Practical applications of statistics. Prerequisite: MATH 111 or MATH 115 or equivalent. GenEd I.C.

MATH 237 ELEMENTARY BIOSTATISTICS (4) Elementary statistical concepts and their application to the biological and health sciences. Descriptive statistics, estimation techniques, hypothesis testing, analysis of enumerative data, and one-way analysis of variance and simple linear regression and correlation analysis. A statistical package such as MINITAB is introduced as a computational tool. Not open to those who successfully completed MATH 231 or MATH 330 or to mathematics majors. Prerequisite: two years high school algebra or DVMT 110. GenEd f.C.

MATH 251 ELEMENTS OF GEOMETRY (4) Geometric vocabulary, relationships, concepts and skills in two and three dimensions using techniques of synthetic, coordinate and transformational geometries, measurement and use of appropriate technology. Required of all Early Childhood and Elementary Education majors. Not open to mathematics majors. Prerequisite: MATH 205.

MATH 263 DISCRETE MATHEMATICS (3) Sets, logic, induction, functions, relations, sequences, recursion, combinatorics, graphs and trees, matrices with an emphasis on applications in computer science. Prerequisite: four years of high school mathematics or MATH 119. GenEd I.C.

MATH 265 ELEMENTARY LINEAR ALGEBRA (4) Matrix calculations and determinants, vector spaces over the real numbers, linear transformations, eigenvalues, eigenvectors, and inner products with emphasis on applications. Not open to those who successfully completed MATH 365 or MATH 463. Prerequisite: MATH 211 or MATH 273.

MATH 267 INTRODUCTION TO ABSTRACT MATHEMATICS (4) Sets, mappings, relations, logic, mathematical induction, properties of the integers, Fundamental Theorem of Arithmetic, polynomials and elementary analytic concepts. Prerequisite: MATH 273.

MATH 273 CALCULUS 1 (4) Functions, limits and continuity, differentiation of algebraic and trigonometric functions; mean value theorem; differentials; introduction to integration; applications. Four lecture units and one laboratory hour per week. Prerequisite: MATH 119 or calculus course in high school or adequate score on placement test. GenEd 1.C.

MATH 274 CALCULUS II (4) Differentiation and integration of exponential logarithmic and inverse trigonometric functions; techniques of integration and applications; indeterminate forms; improper integrals; sequences and series of numbers; power series. Prerequisite: MATH 273. GenEd I.C.

MATH 275 CALCULUS III (4) Vectors in two and three dimensions, differential and integral calculus of functions of several variables. GenEd 1.C. Prerequisite: MATH 274.

MATH 283 HONORS CALCULUS I (4) Functions, limits and continuity; differentiation of algebraic and trigonometric functions; mean value theorem; differentials; introduction to integration; applications. Prerequisite: MATH 119 or calculus course in high school or adequate score on placement test. GenEd 1.C.

MATH 284 HONORS CALCULUS II (4) Differentiation and integration of exponential, logarithmic and inverse trigonometric functions; techniques of integration and applications; indeterminate forms; improper integrals; sequences and series of numbers; power series. Prerequisite: MATH 273 or MATH 283. Topics will be covered in more depth and detail than in Calculus II. Several extended projects on related material will be given. GenEd. I.C.

MATH 293 HONORS SEMINAR IN MATHEMATICS (3) A problemsolving seminar designed for students who have shown talent in mathematics but have not yet been exposed to advanced mathematics courses. Techniques of problem solving and the solution of challenging problems involving elementary mathematics, such as probability, number theory, graph theory and counting. Qualified students will usually take this course during their freshman or sophomore year. Honors College Course. Prerequisite: special permit only by Departmental Honors Committee. GenEd f.C. Upper Division

- MATH 301 [501] HISTORY OF MATHEMATICS (3) Development of mathematics emphasizing mathematical concepts and contributions of individuals and societies. Major credit only toward Secondary Education Concentration. Prerequisites: MATH 263 or MATH 267, and MATH 274.
- MATH 305 CHANCE (3) Role of chance in a variety of contemporary scientific, social and ethical issues. No credit toward a mathematics major. Prerequisites: one college level mathematics course and one college-level science course; junior standing or by permission. GenEd II.A.2.
- MATH 312 THEORY OF INTEREST (3) Application of calculus to compound interest and insurance functions, interest compounded discretely and continuously, force of interest function, annuities payable discretely and continuously, bonds and yield rate, and reserves. Prerequisite: MATH 274.
- MATH 314 [COSC 314] INTRODUCTION TO CRYPTOGRAPHY (3) A broad introduction to cryptography and its mathematical foundations. The course will also cover applications to computer-network security services and mechanisms (confidentiality, integrity, authentication, electronic cash, and others), and to various protocols in distributed computation. Prerequisites: COSC 236, and either MATH 263 or MATH 267, and junior standing or permission of instructor.

MATH 315 APPLIED COMBINATORICS (3) General counting methods, pigeon-hole principle, generating functions, partitions, recurrence relations, inclusion-exclusion principle, Polya's enumeration, introduction to graph theory. Prerequisite: MATH 263 or MATH 265 or MATH 267.

MATH 321 TEACHING MATHEMATICS IN EARLY CHILDHOOD EDUCATION (3) Materials of instruction and methods of presentation with emphasis on the discovery approach. No credit toward a Mathematics major or minor. Prerequisites: MATH 204 (or MATH 206) and MATH 205 (or MATH 207).

MATH 323 TEACHING MATHEMATICS IN ELEMENTARY SCHOOL (3) Nature of instruction, organization of units of instruction, provisions for developing understandings, new programs and research findings, and techniques and evaluation. Required of all elementary education majors. No credit toward a Mathematics major or minor. Prerequisites: MATH 204 (or MATH 206), MATH 205 (or MATH 207), and MATH 251.

MATH 324 SUPERVISED OBSERVATION/PARTICIPATION IN ELE-MENTARY SCHOOL MATHEMATICS (2) Application of methodology for developing and conducting classroom activities in mathematical concepts and skills at local elementary schools. Co-requisite: MATH 323. Graded S/U.

MATH 326 THE MATHEMATICS OF INFORMATION SCIENCE (3) Encoding information introducing metrics, isometries, equivalence relations, modular arithmetic, base 2 arithmetic, matrix algebra, probability and combinatories, including binary codes, bar codes, check digits, internal computer representations of information, and logic gates. Students cannot earn credit for both COSC 326 and MATH 326. No credit toward a Computer Science major or minor.

MATH 330 INTRODUCTION TO STATISTICAL METHODS (4) An introductory course for students with mathematics and computing backgrounds emphasizing statistical ideas and techniques. Descriptive statistics, probability, estimation and sampling, hypothesis testing, regression and correlation, and analysis of variance. A statistical package such as MINITAB is introduced as a computational tool. Prerequisite: MATH 274.

MATH 331 [531] PROBABILITY (4) Probability in sample spaces, discrete and continuous random variables, distribution theory, Chebyshev's Theorem, Central Limit Theorem, expected values and moments. Prerequisite: MATH 274.

MATH 332 [532] MATHEMATICAL STATISTICS (3) Sample theory and distributions, point estimation, confidence intervals, tests of hypothesis, regression, correlation and analysis of variance (Offered only in the spring term). Prerequisite: MATH 331.

MATH 333 [533] APPLIED REGRESSION AND CORRELATION ANALYSIS (3) Relationships among variables emphasizing linear regression with one or more independent variables, methods of estimating parameters and testing hypotheses, selection of independent variables and other topics. Prerequisite: one course in elementary statistics.

MATH 334 [534] NONPARAMETRIC STATISTICAL METHODS (3) Applied study of popular nonparametric tests, procedures utilizing data from a single sample and two or more independent and related samples, Chi-square tests of independence, homogeneity and goodness-of-fit; rank correlation and other measures of association. Prerequisite: one course in elementary statistics.

MATH 335 [545] SAMPLING TECHNIQUES (3) Simple random, stratified, systematic cluster and double sampling. Sampling for proportions, averages and totals, and sample size determination. Prerequisite: one course in elementary statistics.

MATH 336 [546] STATISTICAL METHODS IN QUALITY CONTROL (3) Statistical process control including principles of control charts, control charts for attributes and variables, and special control charts. Methods for quality improvement. Acceptance sampling including single, double, multiple and sequential attribute sampling, and acceptance sampling by variable. Prerequisite: one course in elementary statistics.

MATH 353 EUCLIDEAN AND NON-EUCLIDEAN GEOMETRIES (3) Review of synthetic Euclidean geometry, non-Euclidean geometries, finite geometries and systems of axioms, classical theorems and elementary transformations. Prerequisites: MATH 263 or MATH 267, and MATH 273

MATH 363 MATHEMATICAL STRUCTURES FOR COMPUTER SCIENCE (4) Basic mathematical concepts utilized in computer science: proof techniques, prepositional and predicate logic, elements of combinatorics, discrete probability, basic number theory, sequences and series, elements, elements of the theory of computation. No credit toward mathematics major. Course restricted to COSC graduate students. Prerequisite: special permit.

MATH 369 INTRODUCTION TO ABSTRACT ALGEBRA (3) Elementary number theory, congruencies, groups up to and including the isomorphism theorems, commutative rings, polynomials, unique factorization, irreducibility, finite fields. Prerequisites: MATH 265, MATH 267 and MATH 274.

MATH 374 [574] DIFFERENTIAL EQUATIONS (3) Theory and applica-

tion of linear ordinary differential equations. Solutions of non-linear ordinary differential equations of the first order. Prerequisite: MATH

MATH 377 [575] MATHEMATICAL MODELS (3) Developing appropriate mathematical models and techniques to solve mathematical problems in sociology, psychology, economics, management science and ecology. Prerequisites: MATH 265, MATH 274, COSC 236 and at least junior standing.

MATH 378 [COSC 378] SCIENTIFIC MODELING AND SIMULATION (3) Interdisciplinary introduction to scientific simulation. Mathematical modeling, numerical analysis and object-oriented computer programming. Not open to students who have successfully completed COSC 378. Prerequisites: MATH 274, COSC 236.

MATH 379 [579] ADVANCED CALCULUS (3) Vector, integral and differential calculus including the divergence and Stoke's theorems. Fourier series, orthogonal functions and applications. Prerequisite: MATH 275.

MATH 390 INTRODUCTION TO ACTUARIAL MATHEMATICS (3) Problem-oriented review of discrete mathematics, calculus of one and several variables, linear algebra, and introductory complex functions with discussions of ongoing professional actuarial projects. Prerequisites: MATH 265 and MATH 275.

MATH 397 INTERNSHIP IN MATHEMATICS (3) Students will be assigned to work on a mathematics project for a local business or industry under the direction of the industry supervisor and a member of the mathematics faculty. May be repeated for a maximum of 6 units, No credit toward a Mathematics major or minor. Prerequisites: junior standing and 6 units of upper-division mathematics courses. Graded S/U.

MATH 420 APPLICATIONS OF TECHNOLOGY FOR SECONDARY SCHOOL TEACHERS (3) Utilization of instructional technology, including graphing calculators and their accessories, The Geometer's Sketchpad, the CBL and CBR, the Internet, Fathom, and Equation Editor or Math Type, in topics from the areas of algebra, geometry, trigonometry, and calculus. Prerequisites: MATH 330 and MATH 353.

MATH 421 [521] APPLICATIONS OF MATHEMATICS FOR SEC-ONDARY SCHOOL TEACHERS (3) Examines a series of applications of mathematics that may be used to enrich the secondary mathematics curriculum. No credit toward a mathematics major. Prerequisite: teaching experience in mathematics or science or consent of instructor.

MATH 423 TEACHING MATHEMATICS IN THE SECONDARY SCHOOLS (3) Examination of courses of study and textbooks, study of methods of teaching. Open only to students in the student teaching block. This course will be offered only in the spring term to be followed by MATH 426 during the fall. Prerequisites: MATH 267 and MATH 353, or consent of instructor.

MATH 426 STUDENT TEACHING IN SECONDARY EDUCATION-MATHEMATICS (12) Field experience in public school classrooms under the guidance of master teachers and a university supervisor. Prerequisites: PSYC 201, SCED 319 or SCED 341, SCED 460, SPED 301, MATH 423, and written permission from the Center for Professional Practice. Graded S/U.

MATH 427 [527] READINGS IN MATHEMATICS EDUCATION FOR THE ELEMENTARY SCHOOL TEACHER (1-3) Directed study for the teacher of elementary school mathematics. No credit toward a Mathematics major. Prerequisites: MATH 321 or MATH 323 and approval of instructor.

MATH 428 SENIOR SEMINAR MATHEMATICS EDUCATION (2) Integration of mathematical knowledge and pedagogical issues in secondary schools. Prerequisites: senior standing and MATH 423, which

may be taken concurrently. Graded S/U.

MATH 429 [529] READINGS IN MATHEMATICS EDUCATION FOR THE SECONDARY SCHOOL TEACHER (1-3) Directed study for the teacher of secondary school mathematics. No credit toward a Mathematics major. Prerequisite: consent of instructor.

- MATH 433 [543] APPLIED ANALYSIS OF VARIANCE (3) Single and multifactor models, inference for factor level means, multiple comparison methods for factor level means, test of additivity, tests of homogeneity, regression approach to analysis of variance. Prerequisite: MATH 333.
- MATH 435 [535] NUMERICAL ANALYSIS I (3) Error analysis, interpolation, numerical differentiation and integration, numerical solution of algebraic equations, direct and interactive techniques for solving linear systems of algebraic equations. Mathematical and comparable computer algebra systems will be used. Prerequisites: MATH 265, MATH 274 and COSC 236.
- MATH 436 [536] NUMERICAL ANALYSIS II (3) Numerical solution of differential equations. Least squares and its applications, linear programming and extension of the concepts of MATH 435. Mathematical and comparable computer algebra systems will be used (Offered only in the spring term). Prerequisite: MATH 435.
- MATH 437 [537] OPERATIONS RESEARCH (3) Introduction to linear and integer programming, the simplex method and duality theory; dynamical formulation of deterministic decision process problems, applications to problems of equipment replacement, resource allocation and scheduling, Poisson processes, and birth and death processes. Prerequisites: MATH 265 and MATH 331.

MATH 438 [538] ACTUARIAL MODELS (3) Theory and applications of contingency mathematics in the areas of life and health insurance, annuities and pensions from both the probabilistic and deterministic

approaches. Prerequisite: MATH 331.

MATH 439 COMPUTATIONAL PROBABILITY MODELS (3) Markov chains, exponential distribution, Poisson process, continuous time Markov chains, Brownian motion, and stationary processes. Prerequisite: MATH 331.

- MATH 451 [551] GRAPH THEORY (3) Hamiltonian and Eulerian graphs, coloring graphs, planar and non-planar graphs, connectivity problems; isomorphic graphs and advanced topics. Prerequisite: MATH 263 or MATH 267.
- MATH 457 [557] DIFFERENTIAL GEOMETRY (3) Curvatures of curves and surfaces in three-dimensional Euclidean space, geodesics, invariants, mappings and special surfaces. Prerequisite: MATH 275 and MATH 265.
- MATH 463 [563] LINEAR ALGEBRA (3) Vector spaces over arbitrary fields, linear transformations, eigenvalues, eigenvectors, inner products, bilinear forms, direct sum decompositions and the Jordan form. Not open to those who successfully completed MATH 365. Prerequisites: MATH 265 and MATH 267.
- MATH 465 [565] THEORY OF NUMBERS (3) Topics include congruences, polynomial congruences, primitive roots, residues and multiplicative functions. Prerequisite: MATH 369.
- MATH 467 [568] ALGEBRAIC STRUCTURES (3) Topics include groups; solvability and insolvability of polynomials, principal ideal, Euclidean, and unique factorization domains. Prerequisite: MATH 369.
- MATH 473 [576] INTRODUCTORY REAL ANALYSIS (4) An introduction to mathematical analysis. Sequences, series, continuity, differentiation, integration and uniform convergence. Prerequisites: MATH 267 and MATH 275.
- MATH 475 [577] COMPLEX ANALYSIS (3) Complex number system, analytic functions, Cauchy's integral theorem and integral formula, Taylor and Laurent series, isolated singularities, Cauchy's residue theorem and applications. Prerequisite: MATH 275.
- MATH 477 [578] TOPOLOGY (3) Basic concepts of point set topology, separation axioms, compact and connected spaces, product and quotient spaces, convergence, continuity and homeomorphisms. Prerequisites: MATH 267 and MATH 275.
- Prerequisites: MATH 267 and MATH 275.

 MATH 480-489 [580-589] SELECTED TOPICS IN MATHEMATICS AND STATISTICS (1-4) Topics will be chosen from different areas in mathematics and statistics. Content will be determined so as to complement course offerings as well as the needs and desires of students.

MATH 480 through MATH 483 may not be counted toward a Mathematics major. May be repeated for a maximum of 9 units provided a different topic is covered. Prerequisites will vary from topic to topic.

- MATH 485 [585] MATHEMATICAL FINANCE (3) Mathematical theory, computation, and practical application of derivatives in managing financial risk. Fundamental derivative calculations for single period models such as forwards, futures and options. Binomial trees will be explored along with an introduction to the Black-Scholes continuous time model. Not open to students who have successfully completed MATH 429. Computer laboratory activities throughout. Prerequisites: MATH 331, FIN 331.
- MATH 486 [586] RISK MANAGEMENT AND FINANCIAL ENGINEERING (3) Overview of risk management process and use of Greek functions. Mathematical theory and applications of value at risk, estimating volatilities and correlations, volatility smiles, credit risk and engineering of new risk management products. Computer laboratory activities throughout. Prerequisite: MATH 485.
- MATH 490 SENIOR SEMINAR IN MATHEMATICS (3) Selected mathematical topics and their applications. Prerequisite: senior standing.
- MATH 491 [591] READINGS IN MATHEMATICS (1-3) Independent reading in selected areas of mathematics. May be repeated for a maximum of 6 units. Prerequisites: consent of instructor and senior status.
- MATH 492 RESEARCH IN MATHEMATICS (1-3) Supervised original work in pure or applied mathematics. Formal written report required. May be repeated for 6 units. Graded S/U. Prerequisite: consent of instructor.
- MATH 493 DIRECTED READINGS IN MATHEMATICS (HONORS)
 (3) Individual reading and background research under direction of a faculty member in preparation for writing an honors thesis. Prerequisite: admission to department honors program.
- MATH 494 INDEPENDENT STUDY: RESEARCH IN MATHEMATICS EDUCATION (1-3) Supervised original work in mathematics education. May be repeated once for up to 6 units. Graded S/U. Prerequisite: consent of instructor.
- MATH 495-496 APPLIED MATHEMATICS LABORATORY I, II (3,3) Investigation by a team of students under faculty direction of a problem of mathematical and/or computational nature, chosen from proposals submitted by clients in the university or local industry. Team involvement may include literature searches, model definition, collection and analysis of data and model verification. Restricted to invited students. Prerequisites: 9 units of mathematics and/or computer science, at least junior standing, and consent of instructor.
- MATH 499 HONORS THESIS IN MATHEMATICS (3-6) Writing of an honors thesis based on individual research. May be repeated for a maximum of 6 units. Open only to advanced honors candidates. Prerequisite: permission of department Honors Committee.

Graduate Division

See TU Graduate Catalog for course descriptions.

MEDIEVAL AND RENAISSANCE STUDIES (MRST)

Upper Division

MRST 491 DIRECTED READINGS IN MEDIEVAL AND RENAIS-SANCE STUDIES (3) Independent readings and research in Medieval and Renaissance Studies. Senior capstone course. Prerequisites: consent of instructor.

METROPOLITAN STUDIES (MTRO)

Upper Division

MTRO 497 METROPOLITAN STUDIES INTERNSHIP (3) Placement in positions in the public, nonprofit and private sectors related to urban planning, metropolitan growth, economic development, community development, or the formation and implementation of policies aimed at addressing key challenges facing metropolitan areas. May be repeated for a maximum of 6 units. Prerequisite: open to juniors or seniors with 3.00 cumulative GPA or higher.

MOLECULAR BIOLOGY, BIOCHEMISTRY AND BIOINFORMATICS (MBBB)

MBBB 301 INTRODUCTION TO BIOINFORMATICS (4) Fundamental principles of bioinformatics, including searching genomic and protein databases, sequence alignment, multiple sequence alignment, protein structural analysis, graphical tools for studying protein structures, RNA databases and RNA structure prediction, functional genomics, including analysis of DNA microarrays. Prerequisite: BIOL 309 or CHEM 351.

Course Descriptions

MBBB 401 ADVANCED BIOINFORMATICS (4) Advanced topics in bioinformatics, and the use of computational tools in simulation, animation, modeling and visualization of biological data. Techniques such as statistical analysis, data mining, databases, and data warehousing are covered. Prerequisite: MBBB 301 and COSC 237.

MBBB 490 HONORS RESEARCH IN MBBB (2) Individual research under the direction of a faculty member, culminating in an honors thesis. Credit for MBBB 490 not awarded until MBBB 491 is successfully completed. Prerequisites: open only to advanced honors candidates and

by consent of MBBB program director.

MBBB 491 SENIOR THESIS IN MBBB (2) Writing of an honors thesis based on individual research done under the direction of a faculty member. Prerequisites: open to advanced honors candidates and by consent of MBBB program director.

MBBB 493 SEMINAR IN BIOETHICS (1) Ethical and legal issues associated with current trends in molecular biological, biochemical and bioinformatics research. Prerequisite: BIOL 309.

MUSIC APPLIED (MUSA)

Lower Division (100 and 200 level) and Upper Division (300 and 400 level)

PRIVATE COMPOSITION LESSONS (1-2)

Instruction in composition: individual lesson (1/2 hour for 1 unit, 1 hour for 2 units) and one-hour group composition seminar. The Department of Music Applied Music Handbook lists criteria for acceptance and standards for each level. Successful completion of an upper-division jury is required before registering at the 300-level. By department consent only, Fees: additional fees apply. Contact the department for fee policy, 410-704-2836.

PRÍVATE VOCAL OR INSTRUMENTAL LESSONS (1-2)

Instruction in vocal or instrumental technique and performance: individual lesson (1/2 hour for 1 unit, 1 hour for 2 units) and one-hour group master class. The Department of Music Applied Music Handbook lists criteria for auditions and performance standards for each level. Successful completion of a jury examination is required at the end of each term. An upper-division jury is required before registering at the 300-level. May be repeated for credit depending on concentration. Prerequisites: audition and by department consent. Fees: additional fees apply. Contact the department for fee policy, 410-704-2836.

applied lesson requirements and consent of instructor. Must be concurrently enrolled in upper-level applied lessons. Graded S/U.

and

MUSA 498 Senior Recital for Music Education Majors

Preparation and performance of the senior recital. Prerequisites: successful completion of 300-level applied lesson requirements for the B.S. in Music Education and permission of instructor. Must be concurrently enrolled in 400-level applied lessons.

Graded S/U.

MUSA 499 Senior Recital for Bachelor of Music Degree Preparation and performance of the senior recital.

Prerequisites: successful completion of 300-level applied lesson requirements and permission of instructor. Must be concurrently enrolled in 400-level applied lessons. Creded SAL

level applied lessons. Graded S/U.

MUSIC (MUSC)

Lower Division

MUSC 100 USING INFORMATION EFFECTIVELY IN MUSIC (3) Traditional and electronic information, sources, methods and technology to retrieve, critically assess and integrate information. GenEd I.B.

MUSC 101 INTRODUCTION TO MUSIC OF THE WESTERN HER-ITAGE (3) Masterworks of European and American art music from the perspective of contemporary society through lecture, listening and discussion. Open to non-music majors; does not satisfy major requirement. GenEd II.C.1.

MUSC 105 MUSIC THEORY FOR NON-MAJORS (3) Theoretical concepts through practical experiences with notation, meter, scales, intervals and chord structures. Open to non-majors and music minors. GenEd II.C.1.

MUSC 106 HONORS INTRODUCTION TO MUSIC OF THE WEST-ERN HERITAGE (3) Masterworks of European and American art music from the perspective of contemporary society. Open to nonmusic majors; does not satisfy major requirement. Prerequisite: Honors College course, special permit only. GenEd II.C.I.

MUSC 110 HONORS INTRODUCTION TO WORLD MUSIC (3)
Musical traditions of the world, including understanding of musical
languages and development of listening skills for appreciation of diverse
musical cultures. Prerequisites: Honors College course. Special permit
only. GenEd II.D.

MUSC 111 INTRODUCTION TO MUSIC IN THE U.S. (3) Traditional, popular, and classical music in the U.S. from the colonial period to the present. GenEd II.B.I.

MUSC 112 WORLD MUSIC: THE AMERICAS, AFRICA AND WEST EUROPE (3) Traditional and popular music in the Americas, Africa and West Europe. Different functions and meanings of music in various societies. GenEd. II.D.

MUSC 113 WORLD MUSIC: EAST EUROPE, ASIA AND THE MIDDLE EAST (3) Traditional and popular music in East Europe, Asia and the Middle East. Different functions and meanings of music in various societies. GenEd. II.D.

MUSC 114 MUSIC TECHNOLOGY IN AMERICAN SOCIETY (3) The role of technology in helping to shape the development of contemporary American music. GenEd II.B.3.

MUSC 120 MUSIC FUNDAMENTALS FOR DANCE MAJORS (3) Basic musical skills, concepts, and repertoire appropriate for dance performance and dance education. Prerequisite: Dance majors only. Special permit required.

MUSC 123 JAZZ HISTORY FOR NON-MAJORS (3) Stylistic survey of major currents in the history of jazz. Explores importance of this musical tradition in American culture. GenEd 11.B.1.

MUSC 125 HONORS JAZZ HISTORY FOR NON-MAJORS (3) An examination of major currents in the history of jazz. Explores the importance of this musical tradition in American culture through discussion, analysis, listening and independent study. Prerequisite: Honors College Course. Special permit only. GenEd II.B.1.

MUSC 127 ELEMENTS AND HISTORY OF ROCK MUSIC (3)
Contributions to rock music through basic musical elements, GenEd

MUSC 131 MUSIC THEORY I (2) Concepts and elements of musical design, including a study of timbre, rhythm, pitch, texture, and principles of form. Special permit required. Taken concurrently with MUSC 133

MUSC 132 MUSIC THEORY II (2) A concentrated study of diatonic harmony, conventional voice leading practice, and basic reductive analytic techniques. Prerequisites: MUSC 131 and MUSC 133. Taken concurrently with MUSC 134.

MUSC 133 MUSICIANSHIP I (2) Mastery of pitch and rhythm in combination with the development of aural skills through sight singing, dictation, improvisation and keyboard applications. Special permit required. Taken concurrently with MUSC 131.

MUSC 134 MUSICIANSHIP II (2) Development of aural skills through sight singing, dictation, improvisation, and keyboarding applications. Taken concurrently with MUSC 132. Prerequisites: MUSC 133 and MUSC 131.

MUSC 135 COMPUTER APPLICATIONS IN MUSIC (3) Introduction to the concepts, terms and skills needed for creative use of computer applications in music. The Musical Instrument Digital Interface (MIDI) protocol will be explored with a focus on the design and creative use of computer music systems. Prerequisite: MUSC 131.

MUSC 201 MUSIC IN THE UNITED STATES: ANALYTIC EMPHASIS (3) Analysis of traditional, popular and art music of the United States. Prerequisite: ability to read music required. GenEd II.B.1.

MUSC 205 WOMEN IN WESTERN MUSIC (3) Roles and contributions of women composers and performers from ancient Greece to contemporary American society. GenEd II.C.3.

MUSC 231 MUSIC THEORY III (2) Analysis of form and chromatic harmony, including tonicization, modulation, and Neapolitan chords. Prerequisite: MUSC 132.

MUSC 232 MUSIC THEORY IV (2) Capstone study of chromatic harmony and large-scale traditional forms. Prerequisite: MUSC 231.

MUSC 233 MUSICIANSHIP III (2) Aural skills through sight singing, dictation, improvisation, ear training software, and keyboard applications. Correlated with MUSC 231. Normally taken concurrently with MUSC 231. Prerequisite: MUSC 134.

MUSC 234 MUSICIANSHIP IV (2) Aural skills through sight singing, dictation, improvisation, use of computer programs, and keyboard applications. Correlated with MUSC 232. Normally taken concurrently with MUSC 232. Prerequisite: MUSC 233.

MUSC 245 DICTION FOR SINGERS 1 (ENGLISH AND ITALIAN) (2)
Using the International Phoenetic Alphabet as a basis for pronunciation, this course introduces singers to the fundamentals of English and
Italian diction. Prerequisite: voice major or consent of instructor.

MUSC 246 DICTION FOR SINGERS II (FRENCH AND GERMAN) (2)
Using the International Phonetic Alphabet as a basis for pronunciation, this course introduces singers to the fundamentals of French and German diction. Prerequisites: voice concentration and MUSC 245 or consent of instructor.

MUSC 281 RECORDING TECHNIQUES I (3) A course in recording techniques involving the history, concepts and mechanics of the recording process. Designed to train students for the recording of live concerts, this course acquaints students with acoustical principles, recording hardware and recording procedures. Includes laboratory work assisting in the recording studio during concerts. Prerequisites: MUSC 101, MUSC 201 or MUSC 106, and consent of instructor.

Upper Division

MUSC 301 WESTERN MUSIC TO 1750 (3) Development of Western music from ancient Greece to the end of the Baroque period. Emphasis is placed on stylistic analysis of the music. Prerequisites: MUSC 201 and MUSC 231.

MUSC 302 WESTERN MUSIC FROM 1750-1914 (3) Development of Western music from the classical era to 1914, emphasizing stylistic analysis of the music and principles of scholarly writing. Prerequisites: MUSC 100 (recommended), MUSC 201, MUSC 231 and ENGL 102 or ENGL 190. GenEd I.D.

MUSC 305 SURVEY OF THE MUSIC INDUSTRY (3) Publishing, copyright law, licensing, managers and agents, arts administration, concert promotion, music merchandising, recording and selling.

MUSC 313 KEYBOARD HARMONY AND SIGHT READING I (2)
Beginning aural, reading, and practical keyboard harmony skills, including ensemble experiences. Prerequisite: consent of instructor.

MUSC 314 KEYBOARD HARMONY AND SIGHT READING II (2) Advanced aural, reading and practical keyboard harmony skills, including ensemble experiences. Prerequisite: MUSC 313.

MUSC 320 JAZZ THEORY AND IMPROVISATION I (3) Fundamental theoretical study of rhythm, harmony, melody, repertoire, performers, improvisational techniques, and historical styles of jazz; practical application through improvisational performance and aural dictation. Prerequisites: MUSC 231 and MUSC 233 or consent of the instructor.

MUSC 322 JAZZ THEORY AND IMPROVISATION II (3) Advanced theoretical study of rhythm, harmony, melody, repertoire, improvisational techniques, and historical styles of jazz; practical application through improvisational performance and aural dictation. Prerequisite: MUSC 320 or consent of instructor. MUSC 327 CHORAL CONDUCTING (3) Group instruction in basic conducting techniques and interpretation with relation to choral organizations. Prerequisite: MUSC 132 or consent of instructor.

MUSC 329 INSTRUMENTAL CONDUCTING (3) Group instruction in basic conducting techniques and interpretation with relation to instrumental organizations. Prerequisite: MUSC 132 or consent of instructor.

MUSC 335 CHORAL AND INSTRUMENTAL ARRANGING (3) Composition and arranging techniques for voices and/or instruments. Prerequisite: MUSC 232 or consent of instructor.

MUSC 402 [502] MUSIC OF THE BAROQUE PERIOD (3) Study of the development of musical styles, forms and compositional techniques from 1600 to about 1750. Prerequisite: MUSC 232 or consent of instructor.

MUSC 403 [503] MUSIC OF THE CLASSICAL PERIOD (3) Styles, forms and techniques from 1750-1820. Particular emphasis is placed on such instrumental categories as the string quartet, sonata, symphony and concerto as illustrated in the works of Haydn, Mozart and Beethoven. Attention is given to operatic and sacred compositions masters. Prerequisite: MUSC 232 or consent of instructor.

MUSC 404 [504] MUSIC OF THE ROMANTIC PERIOD (3) Musical styles, forms and techniques of the 19th century with special attention to the intellectual foundations of the Romantic movement. Prerequisite:

MUSC 232 or consent of instructor.

MUSC 405 WESTERN MUSIC FROM 1914 TO PRESENT (3) Styles, forms and techniques of Western music since 1914. Prerequisites: MUSC 201, MUSC 231 and MUSC 302.

MUSC 406 [506] SURVEY OF SOLO VOICE LITERATURE (3) A musical survey of the art-song from circa 1750 to the present. Prerequisites: MUSC 232 or consent of instructor.

MUSC 409 [509] HISTORY AND LITERATURE OF GUITAR, LUTE AND VIHUELA (3) A survey of the history of and literature written for or readily adaptable to the guitar. Includes study of tablatures and transcriptions to modern notation. Prerequisite: MUSC 232 or consent of

MUSC 411 [511] SURVEY OF OPERA (3) Study of opera literature of various periods and styles. Prerequisite: junior/senior standing or consent

of instructor.

- MUSC 413 [513] SYMPHONIC LITERATURE (3) Survey of orchestral music from the Classical Period to the present. Includes symphony, overture and symphonic poem. Prerequisite: MUSC 232 or consent of instructor.
- MUSC 414 [514] COUNTERPOINT (3) Principles of species counterpoint, using examples from all style periods and writing of counterpoint in all five species. Prerequisite: completion of music theory sequence or consent of instructor,
- MUSC 419 [519] KEYBOARD LITERATURE (3) Literature for keyboard instruments from 1450 to present. Prerequisite: junior/senior standing or consent of instructor.
- MUSC 421 [521] MUSIC IN THE U.S. (3) Music from the Colonial Period to the present. Prerequisite: junior/senior standing or consent of instructor.
- MUSC 425 [525] JAZZ REPERTOIRE (3) Study and performance of standard jazz literature for small, varied instrumental groups or vocalists. Prerequisite: MUSC 232 or consent of instructor.

MUSC 426 [526] JAZZ HISTORY (3) Survey of jazz from its origins to the present day. Prerequisite: MUSC 232.

- MUSC 427-428 [527-528] JAZZ ARRANGING I, II (3,3) Study and practice of arranging of standard material for jazz ensembles. Prerequisite: MUSC 232 or consent of instructor.
- MUSC 431 [531] ADVANCED CHORAL AND INSTRUMENTAL ARRANGING (3) Advanced arranging techniques including the scoring of works for various combinations of instruments and/or voices. Prerequisite: MUSC 335 or consent of instructor.
- MUSC 437 ADVANCED COMPUTER APPLICATIONS (3) Creative use of computer applications; sequencing, notation, synthesis applications, digital audio recording, editing, synchronization with film/music. Prerequisite: MUSC 135.
- MUSC 442 [542] VOCAL PEDAGOGY (3) Theory and practice of the teaching of singing by national styles, historical approaches and the physiology of the voice. Prerequisites: MUSA 203 or consent of instructor, MUSC 245 and MUSC 246.

MUSC 443 [543] INSTRUMENTAL PEDAGOGY (1) The art and science of teaching musical instruments in the applied setting. Prerequisite: upper-division status or instructor approval.

MUSC 460 [560] PIANO PEDAGOGY (3) Teaches the goals and steps in the art of teaching beginner, elementary and intermediate piano.

MUSC 462 [562] GUITAR PEDAGOGY (3) Art and science of teaching guitar, historical and current practices; observations. Private studio organization and administration. Prerequisite: 200-level guitar private lessons or consent of instructor.

MUSC 471-479 [571-579] SPECIAL TOPICS IN MUSIC (3) Consideration of a central topic in music with a different topic each term. May be repeated for unit provided a different topic is covered.

Prerequisites: MUSC 232 or consent of instructor.

MUSC 482 [582] RECORDING TECHNIQUES II (3) Advanced subjects in audio engineering: ProTools, recording, and mixing in surround sound; advanced MIDI applications and professional mastering techniques. Includes regular studio work. Prerequisites: MUSC 281; junior/senior status or consent of instructor.

MUSC 493 [593] INDEPENDENT RESEARCH IN MUSIC (1-3) Supervised research in a selected topic in music culminating in an extended paper. May be repeated for unit provided a different topic is covered. Prerequisite: MUSC 302 or consent of instructor.

MUSC 497 INTERNSHIP IN MUSIC (1-6) Field experience with working professionals. Prerequisite: consent of Music internship coordinator. S/U grading.

Graduate Division

See TU Graduate Catalog for course descriptions.

MUSIC EDUCATION (MUED) METHODS CLASSES

Class instruction for music education majors on the designated instrument or voice. All classes are 1 unit unless otherwise designated.

MUED 201 Brass Class I

MUED 202 Brass Class II (Prerequisite: MUED 201, Brass Class 1)

MUED 203 Lower String Class MUED 204 Upper String Class

MUED 205 Woodwind Class I

MUED 206 Woodwind Class II (Prerequisite: MUED 205, Woodwind Class I)

MUED 207 Percussion Class I **MUED 208**

Percussion Class II **MUED 209** Teaching Guitar in the Classroom (2)

MUED 210 Voice Class (may be repeated for a maximum of 2 units)

Lower Division

MUED 220 Percussion Workshop (1) Performance and teaching concepts on all percussion instruments; class-type lessons on auxiliary percussion; learning to maintain and repair mallets and instruments; learning to "custom make" beaters, holders, etc.; learning to write for percussion; rehearsing and conducting percussion solo and ensemble literature. Prerequisite: open to percussion students only.

Upper Division

MUED 301 MARCHING BAND TECHNIQUES (0.5) Organization and administration of marching bands; show design, music programming, field preparation and rehearsal techniques.

MUED 304 METHODS OF TEACHING MUSIC IN EARLY CHILD-HOOD EDUCATION (2) Methods and materials in music education for children ages three through eight in a laboratory setting. Early Childhood Education majors only. Concurrent Pre-primary curriculum ECED 341. Not open to those who successfully completed MUED 307. Prerequisite: MUSC 101.

MUED 305 METHODS OF TEACHING MUSIC IN ELEMENTARY EDUCATION (2) Methods and materials for teaching music in elementary school presented in a laboratory setting. Elementary education majors only. Not open to those who successfully completed MUED 307, Prerequisite: MUSC 101.

MUED 306 METHODS OF TEACHING INSTRUMENTAL MUSIC IN ELEMENTARY SCHOOLS (4) Role of instrumental music in elementary school: Normally taken fall term prior to student teaching. Prerequisites: music major, junior standing; successful completion of Keyboard Proficiency Exam.

MUED 307 METHODS OF TEACHING VOCAL-GENERAL MUSIC IN THE ELEMENTARY SCHOOL (4) Vocal-general programs in elementary schools: Orff, Kodaly and Dalcroze techniques and principles with children in a laboratory setting. Normally taken in term prior to student teaching. Prerequisites: Music major, junior standing; successful completion of Keyboard Proficiency Exam.

- MUED 308 METHODS OF TEACHING INSTRUMENTAL MUSIC IN SECONDARY SCHOOLS (2) Methods and materials for the instruction of instrumental music. Concurrent with student teaching. Prerequisite: MUED 306.
- MUED 309 METHODS OF TEACHING VOCAL-GENERAL MUSIC IN SECONDARY SCHOOLS (2) Methods and materials for instruction of vocal-general music. Concurrent with student teaching. Prerequisites: MUED 307; MUED 337.
- MUED 310 INTRODUCTION TO MUSIC IN SPECIAL EDUCATION (3) Curriculum materials and activities addressing the needs of disabled students; development and adaptation of lesson plans and individual education programs are emphasized. Music Education majors only. Prerequisites: normal admission to Teacher Education Program and PSYC 201.
- MUED 337 TEACHING CHORAL MUSIC IN THE ELEMENTARY AND THE SECONDARY SCHOOL (2) Examination of materials, methods and procedures in organizing school choral groups and in teaching choral music to elementary and secondary students. Prerequisite: MUSC 327.
- MUED 391 STUDENT TEACHING IN ELEMENTARY SCHOOL MUSIC (6) Prerequisites: MUED 306 and 310, (Instrumental); MUED 209, 307, 310, 337 (Vocal-General); Keyboard Proficiency Exam; successful completion of Praxis I Academic Skills Assessments, speech and hearing screening, and criminal background check. Graded S/U.
- MUED 392 STUDENT TEACHING IN SECONDARY SCHOOL MUSIC (6) Prerequisites: MUED 306 and 310, (Instrumental); MUED 209, 307, 310, 337 (Vocal-General); Keyboard Proficiency Exam; successful completion of Praxis I Academic Skills Assessments, speech and hearing screening, and criminal background check. Graded S/U.
- MUED 401 ENHANCING LITERACY IN THE MUSIC CLASSROOM
 (3) Children's literature, content area reference materials, music performance, and reading/writing strategies combine to integrate literacy into k-12 music education classrooms. Prerequisite: ELED 324.

NURSING (NURS)

- NURS 323 [523] CRISIS AND STRESS MANAGEMENT (3) Integrated, comprehensive, multicomponent approach to crisis intervention in a variety of individuals, groups and settings. Prerequisite: PSYC 101 or HLTH 101.
- NURS 330 PROFESSIONAL NURSING: BRIDGE (3) Conceptual framework of Department of Nursing, including health, health promotion and maintenance for clients throughout the life span. Prerequisite: admission to Nursing major, RN in the state of Maryland.
- NURS 331 PROFESSIONAL NURSING I: INTRODUCTION (2) Introduces students to the professional role of nursing. Encompasses conceptual framework of the Department of Nursing. Prerequisite: admission to the Nursing major.
- NURS 341 ALTERATIONS IN HEALTH (3) Pathophysiologic processes of human illness across the lifespan. Adaptive and maladaptive responses to stress are examined. Prerequisites: admission to the Nursing major; NURS 331 (can be taken concurrently).
- NURS 343 PHARMACOTHERAPEUTIC AGENTS (2) Pharmacologic agents commonly used in treatment of disease states and the nursing responsibilities involved. Prerequisites: admission to the Nursing major; NURS 331 and NURS 341 (can be taken concurrently).
- NURS 345 TECHNOLOGY AND THERAPEUTIC INTERVENTIONS
 (2) Technological, psychomotor and psychosocial skills used by the nurse in the provider of care role. Prerequisites: admission to the Nursing major; NURS 331, NURS 341, NURS 343, NURS 347 (can be taken concurrently).
- NURS 347 HEALTH ASSESSMENT ACROSS THE LIFE SPAN (3)
 Acquisition of skills for physical and psychosocial health assessment
 across the lifespan. Prerequisites: admission to the Nursing major;
 NURS 331, NURS 341, NURS 343 and NURS 345 (can be taken concurrently).
- NURS 351 NURSING PRACTICE I: HEALTH PROMOTION ACROSS THE LIFE SPAN (4) Major concepts of health, health promotion and maintenance for clients throughout the lifespan. Initial experience in the provider role of the professional nurse. Prerequisites: admission to the nursing major; NURS 331, NURS 341, NURS 343, NURS 345, and NURS 347 (can be taken concurrently).
- NURS 353 NURSING PRACTICE II: ADULT HEALTH (5) Nursing care of adults experiencing alterations in health. Application of critical thinking skills and therapeutic nursing interventions in a variety of community-based environments. Prerequisite: completion of all courses in junior year, first term.

- NURS 355 NURSING PRACTICE III: CHILDBEARING FAMILIES (5)
 Nursing care of childbearing families. Application of critical thinking
 skills and therapeutic nursing interventions in a variety of communitybased environments. Prerequisite: completion of all courses in junior
 year, first term.
- NURS 404 HEALTH CARE: AN INTERDISCIPLINARY APPROACH (3) Health care in America, exploring societal factors, resources, social policy, health care delivery, legal and ethical issues. Prerequisite: junior/senior status.
- NURS 410 [510] SPIRITUALITY, HEALTH, AND NURSING PRACTICE (3) Application of theory and research in spiritual care of diverse client populations across the lifespan and development of spiritual self-care plan of the provider. Prerequisites: one clinical course in nursing, RN status, or consent of instructor.
- NURS 416 MULTICULTURAL HEALTH CARE (3) Transcultural health care principles, focusing on cultural influences on biological, psychological, sociological, intellectual and spiritual dimensions of individuals. Historical perspective to contemporary cultural health care. GenEd II.C.3.
- NURS 431 PROFESSIONAL NURSING II: RESEARCH (2) Nursing research through preparation of a proposal; qualitative and quantitative approaches and ethical issues. Prerequisites: completion of all courses in the junior level; MATH 231 or MATH 237 or PSYC 212.
- NURS 433 PROFESSIONAL NURSING III: ISSUES (3) Transition from student to registered nurse; contemporary issues and challenges of professional nursing. Prerequisite: completion of all courses in the senior year, first term. GenEd I.D.
- NURS 451 NURSING PRACTICE IV: PSYCHIATRIC AND MENTAL HEALTH (5) Nursing care of adults experiencing alterations in psychological and/or social behaviors. Application of critical thinking skills and therapeutic nursing interventions in a variety of community-based environments. Prerequisite: completion of all courses in the junior level.
- NURS 453 NURSING PRACTICE V: CHILD HEALTH (5) Nursing care of children experiencing alterations in health. Application of critical thinking skills and therapeutic nursing interventions in a variety of community-based environments. Prerequisite: completion of all courses in the junior level.
- NURS 455 NURSING PRACTICE VI: COMMUNITY HEALTH (5) Role of the professional nurse as provider and coordinator of care for complex families, aggregates and communities. Prerequisite: completion of all courses in the senior year, first rerm.
- NURS 457 NURSING PRACTICE VII: CLINICAL PRACTICUM (2)
 Provider role of the nurse in a selected clinical environment.
 Application of critical thinking and therapeutic nursing interventions.
 Graded S/U. Prerequisite: completion of all courses in the senior year, first term.
- NURS 459 NURSING PRACTICE VIII: LEADERSHIP AND MANAGE-MENT (4) Leadership roles and management functions of the nurse as coordinator of care for clients across the lifespan in a variety of health care environments. Prerequisite: completion of all courses senior year, first term; NURS 433, NURS 455, NURS 457 (can be taken concurrently).
- NURS 491 DIRECTED READINGS (1-3) Independent reading designed to explore topics and/or issues of special interest to the practice of nursing. Prerequisites: completion of all 300-level nursing courses and permission of chair of the department.
- NURS 493 INDEPENDENT STUDY (1-3) Directed study designed to provide an in-depth educational experience in nursing. Topics related to theory and practice of nursing. Prerequisites: completion of all 300-level nursing courses or equivalent and permission of chair of department.
- NURS 494 [594] TRAVEL STUDY IN NURSING (3-9) Historical and contemporary socio-political factors that guide the delivery of health care to various population groups in other countries. May be repeated for a maximum of 9 units. Prerequisite: consent of instructor.

OCCUPATIONAL THERAPY (OCTH)

Lower Division

- OCTH 103 LEISURE AND HEALTH ISSUES IN CONTEMPORARY SOCIETY (3) The history and meaning of leisure activity, contemporary issues, and the importance of leisure to health maintenance. Strategies for personally healthy activity. GenEd II.B.3.
- OCTH 205 ALTERNATIVE AND COMPLEMENTARY HEALTH CARE
 (3) Comparison of Western and non-Western health practices. Cultural
 and ethical issues impacting health care. Legislative and reimbursement
 influence. GenEd II.D.

- OCTH 211 PHILOSOPHY OF OCCUPATIONAL THERAPY (3) The relation of occupation to health, concentrating on a variety of types of occupation, and illustrating the effects of health and ill health on occupational behavior. GenEd I.B.
- OCTH 213 SMALL GROUP DYNAMICS (3) A study of small groups used in therapeutic or health education settings. Lectures will examine group members' and leaders' roles, stages of a group's life, theory of developmental groups, and the structure and function of a variety of small groups used in therapy, education and community settings. Participatory experiences will supplement lectures to promote personal communication and effectiveness in groups. Prerequisites: SOCI 101,
- OCTH 216 LIFE SPAN ADAPTATION AND OCCUPATIONS (4) Interactions of biological, sensorimotor, and psychosocial aspects of development with environmental and cultural factors; occupational roles and processes of change. Prerequisites: BIOL 110, PSYC 101, SOCI 101, ENGI, 102.

OCTH 217 ANALYSIS OF OCCUPATIONAL PERFORMANCE I (4) Beginning development of occupational performance skills necessary for clinical practice. Corequisites: OCTH 213 and OCTH 216.

- OCTH 218 ANALYSIS OF OCCUPATIONAL PERFORMANCE II (3) Laboratory experience to develop students' knowledge of the skills necessary in therapentic media, technology application, job analysis and health maintenance. Prerequisites: OCTH 213, OCTH 216, OCTH
- OCTH 221 CLINICAL KINESIOLOGY (3) Principles of biomechanics, muscle physiology, joint structure and muscle function, emphasizing palpation of anatomical structures and analysis of movement. Prerequisites: PHYS 202, BIOL 213, and to be taken concurrently with OCTH 217.

Upper Division

- OCTH 301 GENETICS, HEALTH AND SOCIETY (3) Sociopolitical, economic, and ethical issues of the Human Genome Project and genetic research. Health effects of genetic disorders and impact on lifestyles and occupation, Prerequisite: BIOL 110. GenEd II.A.2.
- OCTH 313 PHYSICAL FUNCTION: NEUROLOGICAL CONDITIONS (3) Etiology, clinical course, management and prognosis of neurological conditions. Theory and practice applied to clients. Prerequisites: OCTH 211, OCTH 218, OCTH 221; BIOL 214, BIOL 427; to be taken concurrently with OCTH 319 and OCTH 317
- OCTH 314 PSYCHOSOCIAL DYSFUNCTION (5) Identification of the etiology, clinical course, management, and prognosis of psychiatric disorders. Fundamentals of occupational therapy theory, assessment and intervention for psychosocial dysfunction. Prerequisites: OCTH 211, OCTH 213, OCTH 218, PSYC 361, and to be taken concurrently with OCTH 320.
- OCTH 317 PHYSICAL FUNCTION: MUSCULOSKELETAL CONDI-TIONS (3) Etiology, clinical course, management and prognosis of musculoskeletal conditions. Theory and practice applied to clients. Prerequisites: OCTH 211, OCTH 218, OCTH 221; BIOL 214, BIOL 427; to be taken concurrently with OCTH 313 and OCTH 319.
- OCTH 318 INDEPENDENT STUDY (1-6) Directed independent study designed to provide students with an in-depth investigation of an area or problem specific to occupational therapy. Consultation and supervision with designated faculty members and/or chinical practitioners. May be repeated for a maximum of 6 units. Prerequisites: undergraduate major in Occupational Therapy, permission of department.
- OCTH 319 PHYSICAL DYSFUNCTION CLINICAL (3) Laboratory and clinical practice in specific evaluation and treatment techniques in physical disabilities. Prerequisites: OCTH 211, OCTH 218, OCTH 221, BIOL 214, BIOL 427; to be taken concurrently with OCTH 313 and
- OCTH 320 PSYCHOSOCIAL FUNCTION CLINICAL (3) Laboratory and clinical practice in specific evaluation and treatment techniques in psychosocial occupational therapy. Prerequisites: OCTH 211, OCTH 218, OCTH 213, PSYC 361; to be taken concurrently with OCTH 314.
- OCTH 323 GERONTOLOGICAL OCCUPATIONAL THERAPY (3) Interventions addressing the aging process and pathology in older adults. Prerequisites: OCTH 211, OCTH 216, OCTH 218.
- OCTH 325 PEDIATRIC OCCUPATIONAL THERAPY (4) Etiology, clinical course, management and prognosis of developmental and learning disabilities. Theory and practice applied to children and adolescents. Prerequisites: OCIH 313, OCIH 314, OCIH 315, OCTH 319, OCTH 320; to be taken concurrently with OCTH 326,

- OCTH 326 PEDIATRIC CLINICAL (2) Laboratory and clinical practice in specific evaluation and treatment techniques in pediatric occupational therapy. Co-requisite: OCTH 325.
- OCTH 412 O.T. HEALTH PROMOTION INITIATIVES IN THE COM-MUNITY: CLINICAL (3) Theory, practice and clinical experience to foster healthy development of individuals, families and communities. Prerequisites: OCTH 313, OCTH 314, OCTH 319, OCTH 320,
- OCTH 428 OCCUPATIONAL THERAPY ORGANIZATIONS IN MOD-ERN SOCIETY (4) Administration of programs within service delivery systems, considering technological, societal and economic trends. Prerequisites: OCTH 213, HLTH 207
- OCTH 430 RESEARCH METHODS IN OCCUPATIONAL THERAPY (3) Guided independent research in topics related to occupational therapy theory and practice. Presentation of introductory materials on research methods. Prerequisites: MATH 237, OCTH 313, OCTH 319, OCTH 314, OCTH 320. GenEd I.D.
- OCTH 435 OCCUPATIONAL THERAPY INTERNSHIP I (6) Fieldwork experience (470 units) in service delivery and management. Focus on professionalism and entry-level competency. Prerequisites: OCTH 313, 314, 317, 319, 320, 323 and permission of department. Permit required.
- OCTH 436 OCCUPATIONAL THERAPY INTERNSHIP II (6) Culminating fieldwork experience (470 units) in delivery and management with differing populations and service delivery models. Prerequisites: OCTH 435 and permission of department. Permit required.
- OCTH 437 SPECIALTY INTERNSHIP (4-6) Fieldwork experience to meet the student's special interests. Graded S/U. May be repeated for a maximum of 6 units. Prerequisites: OCTH 436 and permission of department. Permit required.
- OCTH 470-479 [570-579] SPECIAL TOPICS IN OCCUPATIONAL THERAPY (1-3) Designed to explore topics of special interest in the theory and practice of occupational therapy. May be repeated for a maximum of 3 units provided a different topic is covered. Prerequisite: permission of department.

Graduate Division

See TU Graduate Catalog for course descriptions.

PHILOSOPHY (PHIL)

Lower Division

- PHIL 101 INTRODUCTION TO PHILOSOPHY (3) Fundamental problems of philosophy and various proposals for the solution of these problems. GenEd II.C.1.
- PHIL 102 USING INFORMATION EFFECTIVELY IN PHILOSOPHY (3) Information gathering, evaluation and communication. Develops critical thinking and problem-solving techniques, communication and teambuilding skills. GenEd I.B.
- PHIL 103 INTRODUCTION TO ETHICS (3) Introduction to the history and theory of ethics. GenEd II.C.1.
- PHIL 111 LOGIC (3) Study of and practice in inductive and deductive reasoning, the composition of argument and demonstration, and the detection of formal and informal fallacies as developed in the Western tradition. GenEd II.C.1.
- PHIL 112 HONORS LOGIC (3) Study of and practice in inductive and deductive reasoning, the composition of argument and demonstration, and the detection of formal and informal fallacies as developed in the Western tradition. Prerequisite: Honors College admission. GenEd
- PHIL 201 SOCIAL AND POLITICAL PHILOSOPHY (3) A consideration of social and political doctrines from both Western and non-Western philosophical perspectives. The approach will be both historical and thematic. Themes will include the individual and the state, the malefemale dialectic and attitudes toward property.
- PHIL 204 RACE, CLASS AND GENDER (3) Social and political philosophy; contemporary American ideas of race, class and gender, with a focus on their interrelatedness. GenEd II.C.3.
- PHIL 212 HONORS COURSE: SPECIAL STUDIES IN PHILOSOPHY (3) Small group discussions and philosophical analysis of selected works not generally available in other electives. May be repeated for unit provided a different topic is covered. Prerequisite: admission to Honors College.
- PHIL 219 INTRODUCTION TO ASIAN PHILOSOPHY (3) Examination of the nature of Asian thought through a study of English translations of traditional sources of Indian, Tibetan, Chinese and Japanese philosophy. GenEd ILD.

- PHIL 221 ANCIENT GREEK PHILOSOPHY (3) The origins of Western philosophical thought will be studied in the works of the Presocratics, Socrates, Plato and Aristotle, GenEd II.C.1.
- PHIL 230 PHILOSOPHY OF LITERATURE (3) Philosophical analysis of literature. A consideration of philosophical orientations in these works will be undertaken.
- PHIL 251 AFRICAN AMERICAN PHILOSOPHY (3) A philosophical examination of the current issues in African American thought in such fields as religion, politics, education, economics and aesthetics. An effort will be made to determine the place and the role of the contemporary African American in history. GenEd II.C.3.
- PHIL 253 CONTEMPORARY ETHICAL PROBLEMS (3) The meaning of moral experience and the moral problems which arise in connection with human sexual integrity, ownership of property, welfare, violence, civil disobedience, punishment, war and truth telling in social relations and government. GenEd II.B.3.
- PHIL 255 ENVIRONMENTAL ETHICS (3) Philosophical views on rights of non-human animals, intervaluation of environment and economics, "deep" vs. "shallow" ecological ethics, duties to future generations and other issues. GenEd II.B.3.
- PHIL 270-279 PHILOSOPHICAL PERSPECTIVES (3) Considers contemporary issues from the uniquely philosophical perspective to stimulate independent reflection. May be repeated for unit provided a different topic is covered.

- PHIL 301 [501] PHILOSOPHIES OF INDIA (3) Examination of major ideas in the Vedic, Epic, Classical darsana, and modern periods. Prerequisite: one lower-level course in philosophy or consent of instructor.
- PHIL 302 [502] PHILOSOPHIES OF CHINA AND JAPAN (3)
 Examination of some major philosophical systems through selected writings in translation. Prerequisite: one lower-level course in philosophy or consent of instructor.
- PHIL 311 SYMBOLIC LOGIC (3) An introduction to the concepts and methods of symbolic logic. Translation of arguments from English into symbolic notation; methods of establishing the validity of arguments by means of symbolic logic. Discussion of logical notions, such as consistency and inconsistency, logical truth and the philosophy of logic. Prerequisite: PHIL 111 or consent of instructor.
- PHIL 319 SCIENCE, TECHNOLOGY AND VALUES (3) Impact of modern science on various philosophical issues: science and religion, mind and computers, time travel, Einstein's relativity, human freedom, the ethical limits of technology. Prerequisites: one course in philosophy and two courses in science, or consent of instructor. GenEd II.A.2.
- PHIL 320 PHILOSOPHY OF SCIENCE (3) Concepts, method and nature of science including induction and theory confirmation, probability, explanation, natural laws, space and time and the objectivity of science. Prerequisite: one course in either philosophy or science.
- PHIL 321 PHILOSOPHY OF LAW (3) An examination of the nature and theories of law, the relationship between law and morality, the nature of legal obligation and the notion of justice. Prerequisite: one lower-level course in philosophy or consent of the instructor.
- PHIL 322 [522] HELLENISTIC AND MEDIEVAL PHILOSOPHY (3) The philosophical schools of the Hellenistic and Roman periods, viz. Stoicism, Epicureanism, Scepticism and Neo-Platonism, and the two main Christian philosophies of the Middle Ages, viz., Augustinianism and Thomism. Prerequisite: one lower-level course in philosophy.
- PHIL 324 [524] MODERN PHILOSOPHY (3) The history of philosophy beginning with Descartes through the 19th century. Prerequisite: one lower-level course in philosophy.
- PHIL 325 [525] SCHOOLS OF CONTEMPORARY PHILOSOPHY (3) A survey with varying emphasis on a number of such contemporary philosophical positions as pragmatism, phenomenology, logical positivism, the analysts, neo-Aristotelianism, the philosophers of science and the existentialists. Prerequisite: one lower-level course in philosophy.
- PHIL 326 [526] AMERICAN PHILOSOPHY (3) The history of the main currents of American philosophical thought as exemplified in such writers as Edwards, Emerson, Pierce, James, Royce, Dewey and Whitehead. Prerequisite: one lower-level course in philosophy.
- PHIL 327 AFRICAN PHILOSOPHY (3) Examination of major ideas and issues in African systems of thought. Prerequisite: one lower-level philosophy course or consent of instructor.
- PHIL 331 [531] CONCEPTS OF WOMAN: AN HISTORICAL APPROACH (3) Various concepts which philosophers have used to define woman. An historical survey approach, with readings from Plato, Aquinas and others, and ending with Beauvoir. Prerequisite: one lower-level course in philosophy.

- PHIL 332 FEMINIST PHILOSOPHY (3) Contemporary methods and problems, including redefinition of traditional areas of philosophy and creation of new issues for investigation. Prerequisite: one lower-level philosophy course or consent of instructor.
- PHIL 339 [539] THEORIES OF KNOWLEDGE (3) An historical and systematic approach to the truth value and elements of the forms of human knowledge. The theories of major philosophers will be studied. Prerequisite: one lower-level course in philosophy.
- PHIL 341 [511] ETHICS (3) Analysis of readings from the principle classical and contemporary ethical sources, study of the basic moral concepts as found in these sources; applications to contemporary moral concerns. Prerequisite: one lower-level course in philosophy.
- PHIL 343 [509] AESTHETICS (3) An analytical and historical examination of concepts of the nature of art, beauty, aesthetic value, aesthetic perception, and of the modes of existence of artifacts. Prerequisite: one lower-level course in philosophy.
- PHIL 353 [551] PHILOSOPHY OF RELIGION (3) Exposition of various approaches to the philosophy of religion with an analysis of the major issues on which they differ and agree. Not open to those who have successfully completed PHIL 451. Prerequisites: two courses in philosophy or religion.
- PHIL 361 [561] BIOMEDICAL ETHICS (3) A search for guidelines in such moral problems as abortion, the care of the dying, organ transplants, informed consent in therapy and experimentation, adequate health care and its just distribution, control of human behavior by drugs, surgery, etc., test-tube reproduction, population control, genetic engineering and counseling. Prerequisite: one lower-level course in philosophy or consent of instructor.
- PHIL 371 [563] BUSINESS ETHICS (3) Economics is one of the "moral sciences" insofar as it deals with an important sphere of human activity which intends a good. This course will institute a philosophical reflection on economic ideas as they appear in the three main categories of opinion, viz., conservative, liberal and radical. Attention will be drawn to the epistemological, ethical and metaphysical presuppositions of these traditions. Prerequisite: one lower-level course in philosophy or consent of instructor.
- PHIL 380-389 [580-589] PHILOSOPHICAL TOPICS (3) Courses offered under this title will be of variable content. Topics of traditional philosophical interest or of philosophical problems in other areas of knowledge or of contemporary interest will be offered. May be repeated for unit provided a different topic is covered. Prerequisite: one lower-level course in philosophy.
- PHIL 413 [513] PHÉNOMENOLOGY (3) An examination of phenomenology as both a philosophical method and philosophical position. Themes to be considered include consciousness, the body, time and the experience of others. Primary course readings in the works of Husseri, Heidegger, Sartre, Merleau-Ponty. Prerequisite: two courses in philosophic
- PHIL 417 [517] EXISTENTIALISM (3) Some of the major existentialist philosophers will be studied, e.g., Kierkegaard, Nietzsche, Heidegger, Sartre, Beauvoir. The philosophical themes of transcendence, the absurd, estrangement and anxiety will be considered. Prerequisites: two courses in philosophy.
- PHIL 427 KANT (3) Study of Kant's most important writings. Prerequisites: two courses in philosophy.
- PHIL 440-449 [540-549] PHILOSOPHICAL SYSTEMS (3) The study of a major philosophical system or position, classical or modern, and of its important proponents. May be repeated for unit provided a different topic is covered. Prerequisites: two courses in philosophy.
- PHIL 460-469 WRITING SEMINAR IN PHILOSOPHICAL STUDIES (3)

 The course concentrates on a specific issue or thinker within the philosophical tradition and on developing the skills necessary to do quality written work in the discipline. Possible topics include Plato, Aristotle, Hegel, concepts of space and time, dimensions of freedom. May be repeated for unit provided a different topic is covered. Prerequisites: ENGL 102 and two courses in philosophy. GenEd I.D.
- PHIL 470-479 [570-579] PHILOSOPHICAL PROBLEMS (3) A consideration of one of the perennial interests of philosophy. May be repeated for unit provided a different topic is covered. Prerequisite: two courses in philosophy.
- PHIL 495 RESEARCH TUTORIAL IN PHILOSOPHY (3) Directed readings and research leading to a thesis paper under one or more members of the department. Prerequisites: senior majors in philosophy or senior non-major, submission in advance of an outline of proposed research; permission of proposed director and department chair.
- PHIL 497 PHILOSOPHY INTERNSHIP (3-6) Supervised experience in work settings using the analytic, organizational, comprehension, and

communication skills and content knowledge available through the study of philosophy. Positions may be in government agencies, public or private foundations, industry, journalism, law firms, among others. May be repeated for a maximum of 6 units. No unit toward the Philosophy major. Prerequisite: approval of the philosophy internship coordinator. Graded S/U.

PHYSICAL EDUCATION (PHEA)

Lower Division

PHEA 110-239 These courses include a variety of sport skills for nonmajors. For specific titles, units, descriptions and prerequisites, consult the Department of Kinesiology.

PHYSICAL SCIENCE (PHSC)

Lower Division

- PHSC 101 PHYSICAL SCIENCE I (4) Fundamental principles of selected topics from physics and chemistry, emphasizing construction of concepts from experimental evidence. May not be used for the Natural Science major. GenEd II.A.1.
- PHSC 103 PHYSICAL SCIENCE II (4) Fundamental concepts of atoms, molecules, energy, states of matter and processes involved in phase transitions integrating chemistry, earth science and physics through application to interdisciplinary environmentally oriented topics. One hour lecture, four units lecture-lab. Prerequisite: PHSC 101 or permission of instructor.
- PHSC 151 ENERGY AND POLLUTION (3) Basic forms of energy: thermal, electrical, nuclear, solar. The relationship between energy and pollution. The problems of energy and pollution. Two units of lecture and two units of laboratory per week. High school algebra is suggested.
- PHSC 195 COURSE RESEARCH IN 100-LEVEL COURSES (1) Individual projects in any branch of physical science. Students can choose either to work on projects or in areas suggested by physical science faculty. At the completion of a project, students must write a formal research paper on the work done. Repeatable for unit at different levels. Prerequisite: permission of the instructor who will direct the proposed work.
- PHSC 234 STILL PHOTOGRAPHY (3) Emphasis will be on the production of photographs, rather than the mastery of many techniques. Camera operation, developing, printing and other topics according to student interest.
- PHSC 295 COURSE RESEARCH IN 200-LEVEL COURSES (1) Individual projects in any branch of physical science. Students can choose either to work on projects or in areas suggested by physical science faculty. At the completion of a project, students must write a formal research paper on the work done. Repeatable for unit at different levels. Prerequisite: permission of the instructor who will direct the proposed work.

Upper Division

PHSC 303 [503] EARTH-SPACE SCIENCE (3) Physical science principles applied in the study of earth and space. Emphasis on experimental and

discovery approaches. Prerequisite: PHSC 101.

PHSC 360 INTERNSHIP IN PHYSICAL SCIENCE (2-3) Practical experience in Physical Science in industry or public or private agencies through the university's Internship/Cooperative Education Program. Special permit and fee required. May be repeated for a maximum of 6 units. Prerequisites: major in Natural Science, junior or senior standing; 2.70 GPA; consent of major adviser.

PHSC 401 [501] ADVANCED LABORATORY IN PHYSICAL SCIENCE (2) Exacting laboratory work of an advanced nature under the guidance of the Physical Sciences staff. Students will present and defend their work at seminar. May be repeated for a maximum of 6 units.

Prerequisite: consent of instructor.

PHSC 405 [505] FUNDAMENTAL CONCEPTS IN THE EARTH SCI-ENCES (3) Principles of astronomy, geology and related earth sciences. Methods of investigation employed by earth scientists. Observations in the planetarium and field studies in the Baltimore area. Two lecture units and one two-hour laboratory period. No unit if student has taken ASTR 161 and/or GEOL 121. Prerequisite; PHSC 101 or equivalent.

PHSC 411 [511] PHYSICAL SCIENCE FOR TEACHERS (3) An in-service course for teachers in the elementary and/or junior high school designed to develop physical science concepts. Emphasis will be placed on developing these concepts through laboratory work. Prerequisite: teaching experience.

PHSC 470-479 [570-579] SPECIAL TOPICS IN PHYSICAL SCIENCE (1-4) The study of special topics in the areas of physical science. Special

- topics will be determined by their need for study and relevance to existing courses. May be repeated for unit provided a different topic is covered.
- PHSC 490 INDEPENDENT STUDY IN PHYSICAL SCIENCE (1-4) Individual and supervised research in selected areas of the physical sciences. Topics may be either theoretically or experimentally oriented. May be repeated for a maximum of 6 units. Prerequisites: junior status and one course in PHSC.
- PHSC 491 DIRECTED READINGS (1-4) Independent reading in an area selected by the student in consultation with the instructor. May be repeated for a maximum of 6 units. Prerequisites: junior status and one course in PHSC.
- PHSC 494 TRAVEL STUDY (1-3) Investigation of field problems and phenomena. May be repeated for a maximum of 3 units.
- PHSC 495 [595] COURSE RESEARCH IN 400-LEVEL COURSES (1) Individual projects in any branch of physical science. Students can choose either to work on projects or in areas suggested by physical science faculty. At the completion of a project, students must write a formal research paper on the work done. Repeatable for unit at different levels. Prerequisite: permission of the instructor who will direct the proposed work.

PHYSICS (PHYS)

Lower Division

- PHYS 100 UNDERSTANDING PHYSICS (3) Designed for non-science majors. An inquiry into intuitive, philosophical, historical, and scientific understanding of principal concepts of classical and modern physics. Elementary algebra is used in this course, but emphasis is placed on physical understanding. Demonstrations and short illustrative experiments will be a part of the course. Three lecture units. GenEd II.A.1.
- PHYS 102 INTRODUCTION TO PHYSICS (3) Designed for students unprepared to take General Physics for Majors (PHYS 241), concentrating on mathematical expression of physical concepts as developed logically and through experimentation. This course begins meeting approximately one month into the term and is scheduled to coincide with the lecture time for PHYS 241.
- PHYS 103 HOW THINGS WORK (3) For non-science majors: a practical introduction to physics and science in everyday life. Examines the workings of everyday things from toys to next-generation computers. Introduces fundamental science concepts underpinning ordinary to high-tech objects, their principles of operation, the histories of their development. Emphasizes critical thinking and communication skills. GenEd II.A.1.
- PHYS 131 LIGHT AND COLOR (4) Some aspects of light and color and of vision will be examined on a factual and descriptive basis. Predominantly qualitative explorations will be made of the origin of light, of its wave and particular behavior, of the polarization of light, of lasers and holography, of the origin and physical basis of color, and of the physics of vision. This course in liberal arts physics is offered for curious inquirers who have had minimal contact with physics. Three lecture units and two laboratory units per week. GenEd II.A.1.

PHYS 135 INTRODUCTION TO HOLOGRAPHY (4) Creative use of the holographic medium along with study of appropriate scientific principles and aesthetic values. Behavior of waves, including water, sound and electromagnetic. Optics of lenses and mirrors. Lasers, holography and experimental techniques of making holograms. Three lecture units, two laboratory units. Gen Ed II.A.1.

- PHYS 143 PHYSICS OF SOUND AND MUSIC (LAB) (4) Study of sound and its production by various instruments, including the human voice. Physical interpretations of concepts, such as noise, pitch, mechanical and acoustic waves and oscillations, loudness, harmonics and timbre, scales and temperament, etc. Three lecture units, two laboratory units. Not open to students who have successfully completed PHYS 141. GenEd II.A.1.
- PHYS 185 INTRODUCTORY HONORS SEMINAR IN PHYSICS (1) This seminar is intended for freshmen and sophomores who have demonstrated exceptional ability in the sciences, and it will involve them directly with current ideas and research in physics. Classical physics, quantum physics, relativity and the new astronomy will be covered. Prerequisite: permission of the department.

PHYS 202 GENERAL PHYSICS FOR THE HEALTH SCIENCES (5) Special emphasis on motion, including kinetics and dynamics of linear and angular motion. Not intended for pre-medical, pre-dental or prephysical therapy programs. Prerequisite: three years of high school mathematics. GenEd II.A.1.

- PHYS 203 TOPICS IN PHYSICS FOR BIOLOGY MAJORS (5) Topics may include mechanical and thermal properties of matter; forms of energy and conversion; optics; waves; electromagnetics. Students who wish to seek advanced degrees in biology, dentistry, medicine or related fields should enroll in PHYS 211-212 or 241, 242, 243. Prerequisite: MATH 115.
- PHYS 211-212 GENERAL PHYSICS I, II NON-CALCULUS-BASED (4, 4) For Arts and Sciences, Biology, and Geosciences majors: mechanics, heat, light, electricity, magnetism and a brief introduction to modern physics. Three lecture units and one three-hour laboratory period. Prerequisite: MATH 115 or good standing in high school algebra and trigonometry. GenEd II.A.1.

PHYS 241 GENERAL PHYSICS I CALCULUS-BASED (4) Calculus-based physics for science and engineering majors. Mechanics and the conservation laws, gravitation, simple harmonic motion. Prerequisite: MATH 273 (may be taken concurrently). GenEd II.A.I.

PHYS 242 GENERAL PHYSICS II CALCULUS-BASED (4) Continuation of PHYS 241. Electricity, magnetism, DC and AC currents, geometric optics. Prerequisites: PHYS 241, MATH 274 (may be taken concurrently). GenEd II.A.1.

PHYS 243 GENERAL PHYSICS III (3) Fluid kinematics and dynamics, waves, thermodynamics, physical optics, introduction to modern physics. Prerequisite: PHYS 242.

PHYS 244 MICROCOMPUTER APPLICATIONS IN THE PHYSICAL SCIENCES (3) Assembling your own personal computer and using it for data acquisition and analysis, numerical solutions, simulations and special projects. Prerequisites: PHYS 211 or PHYS 241; COSC 165, or consent of instructor.

PHYS 251 HONORS GENERAL PHYSICS I CALCULUS-BASED (4)
Calculus-based study of motion, including kinematics and dynamics of
linear and rotational motion, conservation laws, gravitation, and simple harmonic motion. Prerequisite: MATH 273 (may be taken concurrently). Open to Honors College students or by permission of the
Honors College director and professor of the course. GenEd. II.A. I.

PHYS 252 HONORS GENERAL PHYSICS II CALCULUS-BASED (4) Continuation of PHYS 251. Electricity, magnetism, DC and AC circuits, geometric optics. Prerequisites: admission to the Honors College, PHYS 252, MATH 274 (may be taken concurrently). GenEd II.A.1.

PHYS 295-296 RESEARCH PROBLEMS IN PHYSICS (1-3) Individual project in any branch of physics. Students can choose either to work on projects or in areas suggested by physics faculty. At the completion of a project, students must write a formal research paper on the work done. Repeatable for unit at different levels. Prerequisite: permission of the instructor who will direct the proposed work.

Upper Division

PHYS 307 [507] INTRODUCTORY MATHEMATICAL PHYSICS (3) Mathematical expressions for selected topics, such as forces and potentials, vector analysis, applications of Fourier series and complex variables, and solutions of the harmonic oscillator and wave equations. Prerequisites: PHYS 212 or PHYS 242; MATH 274.

PHYS 311 [511] MODERN PHYSICS (4) Special relativity, the quantum theory, atomic structure and spectra, and nuclear structure and reactions are the main topics covered by the course. Other topics which may be covered involve molecular, solid state and high energy physics. Four lecture units. Prerequisites: MATH 274, PHYS 212 or PHYS 242.

PHYS 335 [533] BASIC ELECTRONICS (4) Circuit components, characteristics of semi-conductors, electrical measurements, method of circuit analysis, electronic devices. Three lecture units and one three-hour laboratory period. Prerequisite: PHYS 212 or PHYS 242 or consent of instructor.

PHYS 337 [534] DIGITAL ELECTRONICS (4) Subjects covered will be basic concepts of digital electronics such as gates, logic modules, truth tables, digital codes, sequential systems, semi-conductor memories, decade counters. The laboratory program is designed to give students first-hand experience on the material covered in lecture using integrated circuits and LED display systems. Two units lecture, three units laboratory, Prerequisite: MATH 115 or equivalent.

PHYS 341-342 {541-542} INTERMEDIATE PHYSICS LABORATORY I, II (3, 3) First term: The measurement of several fundamental physical constants. Exploration of classical and modern research methods: lasers, holography, optical and nuclear spectroscopy. Second term: Several advanced experiments and a research project. Familiarization with machine shop procedure, vacuum and other experimental techniques. Five laboratory units. Prerequisite: PHYS 311 or concurrently. (Lah II: Prerequisite: PHYS 341)

PHYS 351 [550] MECHANICS (4) Systems of coordinates, kinematics and transformations; Newtonian dynamics of particles and systems of par-

ticles; linear systems, oscillations and series techniques; calculus of variations and the Lagrangian and Hamiltonian formulations; application of Lagrangians to gravitation/central force motion. Optional: non-linear oscillations. Prerequisites: PHYS 242; PHYS 307 or consent of instructor.

- PHYS 352 [552] THERMODYNAMICS AND KINETIC THEORY (3)
 Principles and laws of classical thermodynamics applied to simple irreversible processes, including chemical, elastic, electric and magnetic phenomena; thermodynamic functions and Maxwell's relations: the conservation equations in elementary kinetic theory; fluctuations; and irreversible transfer effects. May be taken concurrently with PHYS 243 or by permission. Three lecture units. Prerequisites: PHYS 212 or PHYS 243, MATH 274.
- PHYS 354 [554] ELECTRICITY AND MAGNETISM (4) Electrostatics, magnetostatics and electromagnetic radiation, including Divergence Theorem and Stokes' Theorem, electrostatics in free space and dielectric materials, the Biot-Savart Law, the magnetic vector potential, inductance and electromotance, magnetic materials, Maxwell's Equations in free space and in materials, boundary value problems (Snell's and Fresnel's Laws). Prerequisites: PHYS 243; PHYS 307 or consent of instructor.
- PHYS 361 OPTICS FUNDAMENTALS (4) Geometric, wave and quantum optics: lenses and mirrors, lens aberrations and design, optical instruments, interference diffraction, polarization, absorption and scattering, lasers, holography and the dual nature of light. Three lecture units and one three-hour laboratory each week. Prerequisites: PHYS 243, COSC 165, and PHYS 341 or consent of the instructor.
- PHYS 391 INTERNSHIP IN PHYSICS (2-3) Practical experience in industry, public and private agencies. Not for major or minor unit. Special permit and fee required. May be repeated for a maximum of 6 units. Prerequisites: 2.70 GPA, junior or senior standing, major in Physics, consent of department. Graded S/U.
- PHYS 395-396 [595-596] RESEARCH PROBLEMS IN PHYSICS (1-3) Individual project in any branch of physics. Students can choose either to work on projects or in areas suggested by physics faculty. At the completion of a project, students must write a formal research paper on the work done. Repeatable for a maximum of 6 units. Prerequisite: permission of the faculty member who will direct the proposed work.
- PHYS 411 GRAVITATION, RELATIVITY AND COSMOLOGY (3) Development of Einstein's general theory of relativity and its relevance to astrophysics: theory of gravity, relativistic effects of massive stars, black holes, gravity waves, cosmology. Offered in alternate years.
- PHYS 421 FUNDAMENTAL PARTICLES (3) Experimental and theoretical physics of particles and fields: particle production and detection, relativistic kinematics, symmetry, conservation laws, fundamental interactions, phenomenology and contemporary models. Prerequisites: PHYS 307 and PHYS 311.
- PHYS 435 [535] ELECTRONICS (3) Principles of transistors with emphasis on their design and construction and an introduction to logic circuits. Two lecture units and one two-hour laboratory. Prerequisite: PHYS 335.
- PHYS 437 [537] INTRODUCTION TO MICROPROCESSOR-BASED DIGITAL SYSTEMS (3) An introductory course on basic microcomputer concepts. Topics covered include basic structure and organization of microcomputers, digital logic design, assembly language programming, memory elements and applications. Hardware- oriented experiments will be conducted providing practical experience in interfacing the microcomputer to a variety of instruments and input-output devices. Two units lecture and two units laboratory. Prerequisite: PHYS 307
- PHYS 445 [545] LASERS AND HOLOGRAPHY (3) The wave front reconstructions, laser, theory, the properties and making of holograms, and the applications of lasers and holography will be covered. Special projects will be assigned to students depending upon their individual theoretical and experimental background. Prerequisite: PHYS 243 or consent of instructor.
- PHYS 451 [551] MECHANICS II (3) Continuation of PHYS 351. Rotation transformations; pertubation and Green's function techniques in solution of oscillating systems; collision; rotating frames of reference and dynamics of rigid bodies (including Euler's angles, precession, nutation); theory of coupled small oscillations. Optional: special relativity; continuum mechanics. Prerequisite: PHYS 351.
- PHYS 453 [553] PHYSICAL OPTICS (3) Electromagnetic theory of light, wave solutions, interference, diffraction, scattering, radiation from coherent and incoherent sources, elementary theory of masers and lasers. Three lecture units. Prerequisite: PHYS 354 or consent of instructor.

PHYS 454 ELECTRICITY AND MAGNETISM II (3) Continuation of PHYS 354. Wave guides, retarded potentials, dipole radiation, rela-

tivistic electrodynamics. Prerequisite: PHYS 354.

PHYS 455 [555] INTRODUCTORY QUANTUM MECHANICS (3) Schrödinger equation, states of one particle in one dimension, potential barrier problems in one dimension, the harmonic oscillator, system of particles in one dimension, motion in three dimensions, angular momentum, spin, application to atomic physics. Prerequisites: PHYS 311, PHYS 351 (may be taken concurrently).

PHYS 456 [556] INTRODUCTION TO STATISTICAL MECHANICS (3) Distribution functions, microcanonical, canonical and grand canonical ensembles, the partition function and thermodynamics relations. Fermi-Dirac and Bose-Einstein statistics, some simple models and applications, the Maxwell-Boltzmann transport equation and the hydrodynamic equation, transport coefficients. Three lecture units. Prerequisite: PHYS 455.

PHYS 457 SOLID STATE PHYSICS (3) Crystal structure, wave propagation in periodic structures, the Fermi gas, energy bands, magnetism are presented as a central theoretical core for the study of the solid state. Some of the basic models, concepts and manifest properties of solids are also included. Prerequisites: PHYS 311, PHYS 351 and PHYS 354.

- PHYS 459 [559] NUCLEAR PHYSICS (3) A lecture and problem course dealing at the introductory level with experimental and theoretical methods for the study of nuclear structure. Topics to be covered include properties of nuclei, electromagnetic transition and beta decay; nuclear models, nuclear reactions and two body interactions. Offered in alternate years. Prerequisites: PHYS 311; PHYS 307 or consent of instruc-
- PHYS 461 ELECTRO-OPTICS (4) Optical sources and detectors, electronics, controls and modulators. Radiant energy and power measurements, laser instrumentation, fiber optics, photo-active devices. Three lecture units and one three-hour laboratory each week. Prerequisites: PHYS 361, PHYS 335 and PHYS 341-342, or consent of instructor.

PHYS 470-479 SPECIAL TOPICS IN PHYSICS (3) Special topics in the area of physics. Special topics will be determined by current interests of the faculty and the needs of the curriculum. Special permit of the

department is required.

- PHYS 485-486 [585-586] PHYSICS SEMINAR I, II (1, 1) Students participate in colloquia on topics of current interest in physics research under guidance of instructor. One lecture hour, Prerequisite: senior standing or consent of instructor.
- PHYS 490 [590] INDEPENDENT STUDY IN PHYSICS (1-4) May be repeated for a maximum of 6 units. Prerequisite: at least junior status and one course in the Department of Physics.
- PHYS 491 [591] DIRECTED READINGS (1-4) May be repeated for a maximum of 6 units. Prerequisites: At least junior status and one course in the department.
- PHYS 495-496 RESEARCH PROBLEMS IN PHYSICS (1-3) Individual projects in any branch of physics. Students can choose either to work on projects or in areas suggested by physics faculty. At the completion of a project, students must write a formal research paper on the work done. Repeatable for unit at different levels. Prerequisite: permission of the instructor who will direct the proposed work.
- PHYS 499 HONORS THESIS IN PHYSICS (1-4) Writing of an honors thesis based on independent research done under the direction of a staff member. May be repeated for a maximum of 6 units. Prerequisites: consent of instructor and open only to advanced honors candidates.

POLITICAL SCIENCE (POSC)

Lower Division

- POSC 100 USING INFORMATION EFFECTIVELY: UNDERSTAND-ING POLITICAL SYSTEMS (3) The nature of political systems and the skills necessary for systems thinking; methods and technologies for gathering, evaluating and presenting information. Not open to those who successfully completed IDLA 103. GenEd I.B.
- POSC 101 INTRODUCTION TO POLITICAL SCIENCE (3) The origins of modern governments. The nature of constitutions and constitutionalism. A definition and interpretation of politics. GenEd II.C.2
- POSC 102 HONORS INTRODUCTION TO POLITICAL SCIENCE (3) The origins of modern government. The nature of constitutions and constitutionalism. A definition and interpretation of politics. Prerequisite: admission to Honors College, GenFd II.C. 2.
- POSC 103 AMERICAN NATIONAL GOVERNMENT (3) Structure and functions of the government of the United States and the problems involved in the extension of the scope of democratic government in our contemporary life. GenFd II.B.2.

- POSC 105 GOVERNMENTS OF THE WORLD (3) Comparative survey of governments and political systems in a number of major countries in the world today. Attention given to political behavior, structures, processes and policies. Not open to those who successfully completed POSC 137. GenEd II.D.
- POSC 107 INTRODUCTION TO INTERNATIONAL RELATIONS (3) An introductory examination of principles of legal, political and social relations among nations; coordination and conflict in the international system; global issues, such as trade, security, war and peace, power and formation of foreign policy. GenEd 11.D.
- POSC 108 HONORS INTERNATIONAL RELATIONS (3) An introductory examination of principles of legal, political and social relations among nations; coordination and conflict in the international system; global issues, such as trade, security, war and peace, power and formation of foreign policy. Prerequisite: admission to Honors College. GenEd II.D.
- POSC 207 STATE GOVERNMENT (3) Historical background, state constitutions and the legislative, executive and judicial branches of government. Problems of state administration and federal-state relations. GenEd 11.B.2.
- POSC 209 INTRODUCTION TO LAW (3) The legal process in the United States for the liberal arts student. Prerequisite: POSC 103. GenEd II.B.2.
- POSC 212 HONORS IN POLITICAL SCIENCE (3) Supreme Court as a political institution, including personal policy preferences of justices in regard to civil rights and liberties. Prerequisites: special permit and admission to Honors College. GenEd II.B.2.

- POSC 301 POLITICAL RESEARCH 1 (3) Multi-method introduction to political research. Discusses how to frame and answer questions about politics. Covers quantitative and qualitative methods. Prerequisite: one POSC course.
- POSC 303 [503] THEORY OF INTERNATIONAL POLITICS (3) The theories of mutual relations of states. Elements of national power; international politics as a struggle for power. Restraints upon the struggle for power. Prerequisite: HIST 103 or POSC 107 or consent of instruc-
- POSC 305 [505] URBAN GOVERNMENT AND POLITICS (3) The political history of American cities from the 18th century through the recent reform movement. City charters, home rule, types of executives, political machines, the metropolitan area. Prerequisite: POSC 103.
- POSC 307 [507] CONTEMPORARY INTERNATIONAL POLITICS (3) Computer simulation (conducted jointly with colleges and universities throughout the world) used to study the formulation and implementation of contemporary international politics. Prerequisite: POSC 107 or POSC 303 or consent of instructor.
- POSC 337 [508] COMPARATIVE GOVERNMENT OF FOREIGN POWERS: THE WESTERN WORLD (3) An examination of the problems of modernization and stable constitutional rule in England, France, Italy and Germany. Prerequisite: POSC 101 or POSC 105 or consent of instructor.
- POSC 339 [509] COMPARATIVE POLITICAL SYSTEMS (3) Attempt to bring together the analytical concepts and methodological techniques that may be applied to the study of political systems in a comparative sense. Prerequisite: POSC 103 or POSC 105 or consent of instructor.
- POSC 340 COMPARATIVE PUBLIC POLICY (3) Comparative study of the policy problems and processes of the United States, Canada and western European countries, focusing on the growing convergence of public policy making in the states of the developed world. Prerequisites: POSC 101, POSC 103, POSC 105 or consent of instructor.
- POSC 351 [551] THE GOVERNMENT AND POLITICS OF LATIN AMERICA (3) An examination of the informal and formal rules of the political "game" in Latin America with an emphasis on four types of political systems found in contemporary Latin America: democratic reformst, revolutionary, populist and military authoritarian. Prerequisite: POSC 101 or POSC 105 or consent of instructor.
- POSC 355 [512] THE LATIN AMERICAN POLICY OF THE UNITED STATES (3) An analysis of the Latin American policy of the United States from the Monroe Doctrine to the present. Emphasis will be on historical, political, economic and security factors in the ebh and flow of inter-American relations. Prerequisite: POSC 101 or POSC 105 or consent of instructor.
- POSC 375 [514] PUBLIC ADMINISTRATION (3) Administration as a central element of contemporary society, with special reference to the problems of government organization, control, personnel, finance and public relations, Prerequisite: POSC 103.

- POSC 381 [515] THE PRESIDENCY (3) A discussion of the origin of the office, the selection of the president and policymaking in the executive branch. Prerequisite: POSC 103.
- POSC 383 [516] CONGRESS (3) An investigation of the relations of Congress with the other branches of government and with the political parties and interest groups. Also examines the relationships between members of Congress and their constituency as well as the internal dynamics of Congress. Prerequisite: POSC 103.
- POSC 384 THE JUDICIAL SYSTEM (3) Roles, functions and operations of the American judicial system. Examining ideology of law and justice and consequences of legal decisions. Prerequisites: POSC 103 or consent of instructor.
- POSC 385 MODEL ORGANIZATION OF AMERICAN STATES (3-6) Structure and function of OAS, the inter-American system, and U.S. Latin American policy. Students represent member states of the OAS in a mock General Assembly in Washington, D.C. May be repeated for a maximum of 6 units. Prerequisites: sophomore standing and written consent of instructor.
- POSC 401 POLITICAL RESEARCH II (3) Statistical methods to explore political phenomena. Polling, comparative research, legislative voting analysis and multivariate statistics. Prerequisite: POSC 301 and one other upper-division POSC course, or consent of instructor.
- POSC 417 [517] AMERICAN POLITICAL PARTIES (3) Origin and development of the American two-party system. The activities of pressure groups and organizations, and their effects upon the party system. Prerequisite: POSC 103 or consent of instructor.
- POSC 418 CONSTITUTIONAL LAW AND POLITICS (3) The nature and origins of the Constitution: judicial review, separation of powers, federalism, and the Commerce Clause. Prerequisite: POSC 101 or POSC 103.
- POSC 419 CIVIL RIGHTS AND CIVIL LIBERTIES: THE FIRST AND FOURTEENTH AMENDMENTS (3) The constitutional guarantees of freedom of speech, religious liberty, free assembly and equal protection. Prerequisite: POSC 101 or POSC 103.
- POSC 420 CONSTITUTION PROTECTIONS: PERSONAL LIBERTY AND RIGHTS OF THE ACCUSED (3) Personal liberty in the home, and the person in regard to individual decision-making and criminal justice. Prerequisite: POSC 101 or POSC 103,
- POSC 421 POLITICS AND ENVIRONMENTAL POLICY (3) Analysis and investigation of U.S. environmental problems from a political perspective. Prerequisite: POSC 103 or consent of instructor.
- POSC 422 THE SUPREME COURT (3) Roles, behavior, structure and operations of the U.S. Supreme Court. History, politics, decision making, and impact of cases. Prerequisite: POSC 103 or consent of instructor.
- POSC 424 LAW ONLINE (3) Using information technologies for communication and research purposes, students work collaboratively with students from at least one other major university. Prerequisite: POSC 103 or consent of instructor.
- POSC 425 LEGAL THEORY (3) Focuses on the salient arguments for and against the major legal issues of our time. Readings, drawn from time-honored writers of the past, are designed to evoke continuous discussion and debate on contemporary problems in the law. Prerequisites: junior standing and 9 units of political science or consent of instructor.
- POSC 427 [527] POLITICAL THEORY I (3) Political thought in the West from the Greeks to the end of the 16th century. Prerequisite: POSC 101 or consent of instructor.
- POSC 428 [528] POLITICAL THEORY II (3) Political philosophers and their writings since the I6th century. Attention given to the conflict of ideologies in the 20th century. Prerequisite: POSC 101 or consent of instructor.
- POSC 432 [532] UNITED STATES-RUSSIAN RELATIONS (3) Relations between the United States and Russia. Emphasis on Soviet and post-Soviet periods, nationalities, democratization and creation of market economics. Prerequisite: any 100-level political science course or consent of instructor.
- POSC 434 COMPARATIVE FOREIGN POLICIES (3) The foreign policy and foreign decision-making in countries around the world using a thematic approach. Comprehensive study of the ideas behind foreign policy-making. Prerequisites: POSC 107 or POSC 303, or consent of instructor.
- POSC 437 [537] CASTRO AND THE CUBAN REVOLUTION (3) A discussion of the factors that led up to the Castro Revolution in 1959 and the subsequent impact of the creation of the first socialist state on the Western Hemisphere, Prerequisite: POSC 355 or POSC 351 or consent of instructor.

- POSC 441 [541] CONTEMPORARY UNITED STATES-WESTERN EUROPEAN RELATIONS (3) Emphasis will be on NATO, the European Economic Community and the Anglo-American efforts to create an Atlantic partnership between Europe and the United States. Prerequisite: POSC 103 or POSC 105 or consent of instructor.
- POSC 450 [550] INTEREST GROUPS AND PUBLIC POLICY (3) The structure, organization, objectives and activities of interest groups and their impact on public policy and campaign financing. Prerequisite: POSC 103 or consent of instructor.
- POSC 455-456 [555-556] SEMINAR: INTERNATIONAL LAW AND ORGANIZATION I, II (3, 3) An examination of the theories and the development of international law up to the present. The character of the modern state system, the role of international organizations, and international law and resort to force. Prerequisites: 15 units in POSC, including POSC 303, or consent of instructor.
- POSC 457 [557] SEMINAR: USE OF FORCE IN INTERNATIONAL LAW (3) The course will examine the use of force as an instrument of foreign policy by various states and survey the legal restraints on its use. Prerequisites: 15 units in POSC including POSC 301 and POSC 303, or consent of instructor.
- POSC 459 SIMULATION AND GAMES IN POLITICAL SCIENCE (3)
 Political decisions using rational choice and game theory. Discussing
 voting methods, public goods, and paradoxes of collective choice using
 computer simulation. Prerequisite: one upper-level (300/400) political
 science course or consent of instructor.
- POSC 465 EDITORIAL WORK TOWSON JOURNAL OF INTERNATIONAL AFFAIRS (1) One to three per term three term limit. Members of the Editorial Board of The Towson Journal of International Affairs prepare the issues of that journal under the supervision of faculty advisers. Admission by consent of the instructor. Graded S/U.
- POSC 467 [567] POLITICS AND THE BUDGETARY PROCESS (3) Analysis of the budgetary process. Not open to students who successfully completed this course as a special topic (POSC 470-479) course. Prerequisite: POSC 375 or consent of instructor.
- POSC 470-479 [570-579] SPECIAL TOPICS IN POLITICAL SCIENCE (3) An examination of current topics in political science. The content of the course will depend upon mutual faculty and student interest. May be repeated for unit provided a different topic is covered. Prerequisite: Any 100-level POSC course or consent of instructor.
- POSC 481 SEMINAR: PUBLIC POLICY ANALYSIS (3) Theoretical and practical approaches in the analysis of policy formulation, implementation and evaluation. Prerequisite: 15 units in POSC including POSC 301, and one upper-division course or consent of instructor.
- POSC 482 [582] SEMINAR IN POLITICAL SCIENCE (3) Various methods and techniques of research in political science, culminating in the preparation of a seminar paper. Prerequisite: 15 units in political science including POSC 301, and one upper-level course or consent of instructor.
- POSC 483 [583] SEMINAR POLITICS AND THE NEWS MEDIA (3) Focuses on the relationship between the government and the news media. Considers such topics as White House operations, the First Amendment, government efforts to control the news, and efforts by the media at self-regulation. Prerequisites: 15 units in POSC including POSC 301, and at least one upper-level course or consent of instructor.
- POSC 485 [585] SEMINAR: DEMOCRATIC THEORY (3) Traces democratic theory from its 16th-century origins and analyzes variants which have been proposed since that time. Prerequisites: 15 units in POSC including POSC 301, and at least one upper-level course or consent of instructor.
- POSC 486 [586] SEMINAR: JUSTICE AND THE LAW (3) Central legal, political and moral questions concerning justice and the law, discussion on justice as an achievable goal in human society, particularly in the modern democratic state. Prerequisites: 15 units in POSC including POSC 301 and either POSC 418 or POSC 419, or consent of instructor.
- POSC 488 [588] SEMINAR: TOPICS IN PUBLIC POLICY (3) A senior-level seminar in the field of public policy, focusing on policy areas of contemporary interest and significance. Prerequisite: 15 units in POSC including POSC 301 and at least one upper-level course or consent of instructor.
- POSC 490 [590] INDEPENDENT STUDY (1-3) Individual and supervised study in selected areas of political science. May be repeated for a maximum of 6 units. Admission by consent of instructor.
- POSC 491 [591] SEMINAR: CONTEMPORARY U.S. FOREIGN POLICY (3) An examination of the contemporary nature, basis and instruments of American foreign policy. Formulation and implementation of American foreign policy will also be examined. Prerequisites: 15 units in POSC including POSC 107 or POSC 303, or consent of instructor.

- POSC 493 [593] INTERNSHIP (3-9) Familiarizes students with the practical working of government institutions. The flexibility in time and unit arrangements will allow a variety of political experiences in which students combine theory and practice. No more than 3 units may be earned in any one term. Prerequisites: junior/senior standing and consent of instructor.
- POSC 498 DIRECTED READINGS IN POLITICAL SCIENCE (1-3) Readings and research in preparation for the writing of a thesis or other research paper in political science under the supervision of one member of the political science faculty. Must be taken in advance of the Honors Thesis course. Prerequisites: 15 units in political science, minimum average of 3.50 in POSC, and an overall GPA of 3.25. Consent of instructor.
- POSC 499 HONORS THESIS (3) Research and writing of thesis directed by a faculty member in a chosen area of specialization. Prerequisites: 18 units in political science, directed readings in political science, 3.50 average in political science and an overall GPA of 3.25, and consent of instructor.

PSYCHOLOGY (PSYC)

Lower Division

- PSYC 100 USING INFORMATION EFFECTIVELY IN THE BEHAV-IORAL AND SOCIAL SCIENCES (3) Obtaining, evaluating and presenting social science information; critical thinking, problems of inference, search and analysis skills using computerized databases, Internet, statistical software and communication skills. Recommended for those who major in the social or behavioral sciences. Not open to those who successfully completed IDLA 101. GenEd I.B.
- PSYC 101 INTRODUCTION TO PSYCHOLOGY (3) Psychological theories, principles and methods, with focus on measurement and experimentation, biopsychology, sensation and perception, learning and memory, motivation and emotion, personality and adjustment, abnormality and psychotherapy, development and individual differences. GenEd II.C.2
- PSYC 102 HONORS INTRODUCTION TO PSYCHOLOGY (3) An indepth study of psychological theories, principles and methods, with focus on measurement and experimentation, biopsychology, sensation and perception, learning and memory, motivation and emotion, personahty and adjustment, abnormality and psychotherapy, development and individual differences. Prerequisite: Honors College course. Special permit only. GenEd II.C.2,
- PSYC 201 EDUCATIONAL PSYCHOLOGY (3) The learning process and related concepts; human development; individual differences; measurement and evaluation; personality and adjustment. Prerequisite: PSYC 101 or PSYC 102.
- PSYC 203 HUMAN DEVELOPMENT (3) Study of research and theories related to the overall development of the human throughout the life span with an emphasis on physical, cognitive, social and emotional dimensions. Prerequisite: PSYC 101 or PSYC 102. GenEd II.B.2.
- PSYC 204 HONORS HUMAN DEVELOPMENT (3) An in-depth study of research and theories related to the overall development of the human throughout the life span, with an emphasis on physical, cognitive, social and emotional dimensions. Honors College course, Prerequisite: PSYC 101 or PSYC 102, GenEd II.B.2.
- PSYC 205 INTRODUCTION TO THE HELPING RELATIONSHIP (3) Current concepts of the helping relationship and an exploration of the conditions that facilitate its effectiveness. Prerequisites: PSYC 101 or PSYC 102 and Psychology major or minor planning to enter one of the helping professions, or consent of the instructor.
- PSYC 212 BEHAVIORAL STATISTICS (4) Distributions and graphs, notation, levels of measurement, percentiles, measures of central tendency and variability, principles of probability, the normal curve, standard scores, sampling theory, hypothesis testing, significance of differences, correlation and prediction, computation on computer terminals, Chi square, non-parametrics, one-way analysis of variance. Prerequisite: MATH 111 or higher except MATH 204 or MATH 205. GenEd.l.C.
- PSYC 213 RESEARCH DESIGN AND STATISTICAL ANALYSIS IN PSY-CHOLOGY I (4) Methodologies for gathering observational and selfreport data, analysis of data using descriptive statistics and correlation/ regression procedures. Ethics and feasibility of different research designs. Successful completion of the course is required for matriculation into PSYC 313. To receive major credit, PSYC 313 must be completed. This course is not open to students who have successfully completed PSYC 212 or PSYC 314. Prerequisites: PSYC 101 or 102, and MATH 111 or higher except for MATH 204 or MATH 205.

- PSYC 301 SCIENCE, PSEUDOSCIENCE AND SUPERSTITION (3) Differentiating between scientific and pseudo-scientific claims, focusing on psychological factors that influence human judgment and decisionmaking. Possible topics include: astrology, alternative medicine, New Ageism, alien abductions, parapsychology. Prerequisite: PSYC 101. GenEd.II.A.2.
- PSYC 305 PSYCHOLOGY OF LEARNING (3) Analysis of selected problems in both human and animal learning including reinforcement, punishment, verbal learning and verbal behavior. Prerequisite: 9 units of PSYC or consent of instructor.
- PSYC 309 [512] PSYCHOPHARMACOLOGY (3) Mechanisms of drugs, their effects on behavior and related topics. Prerequisites: 9 units of PSYC or consent of instructor; BIOL 110.
- PSYC 311 [513] BEHAVIOR MODIFICATION (3) Examination and application of the basic principles of the experimental analysis of behavior, with an emphasis on the applied aspects of this modern discipline to schools, jobs, interpersonal relations and self-control. Prerequisite: 9 units of PSYC or consent of instructor.
- PSYC 313 RESEARCH DESIGN AND STATISTICAL ANALYSIS IN PSY-CHOLOGY II (4) Analysis of research studies, using descriptive and inferential statistics. Gathering and evaluating data using mathematical procedures and statistical software programs (SPSS), and presenting results in oral and written formats according to professional guidelines. To receive major credit, PSYC 213 must be completed. This course is not open to students who have successfully completed PSYC 212 or PSYC 314. Prerequisites: PSYC 213; PHIL 101 or 111; ENGL 102 or 190.
- PSYC 314 RESEARCH METHODS IN PSYCHOLOGY (4) The experimental method and its application to recent problems in psychological research; introduction to experimental design and inference. Three units lecture, two units of laboratory per week. Prerequisites: PSYC 101 or PSYC 102, PHIL 101 or PHIL 111, ENGL 102 or ENGL 190, PSYC 212. GenEd I.D.
- PSYC 315 [515] MOTIVATION (3) Interaction between physiological, neurological and pharmacological aspects of motivation with environmental influences, such as culture, learning and social dynamics. Issues in human motivation and emotion which will be emphasized are aggression, sex, achievement (competence) and cognitive-social influences. Prerequisite: 6 units of PSYC.
- PSYC 317 [517] SENSATION AND PERCEPTION (3) A systematic investigation on the basic senses such as vision, audition, taste, smell and touch will be undertaken. The organization of sensory input will also be emphasized. Both human and non-human data will be presented. Prerequisites: 9 units of PSYC or consent of instructor; BIOL 110.
- PSYC 325 [524] SOCIAL PSYCHOLOGY (3) An introduction to the theory and research of how people think about, influence and relate to each other. Topics include social cognition, attitudes, aggression and helping, Prerequisite: 6 units of PSYC.
- PSYC 327 INDUSTRIAL PSYCHOLOGY (3) Theories, psychological concepts and research applied to industrial and organizational settings. Prerequisite: PSYC 101 or PSYC 102.
- PSYC 341 [540] ENVIRONMENTAL PSYCHOLOGY (3) The relationship between the physical and social environment and behavior, i.e., places, spaces and people. How man/woman construes, interprets, comprehends, feels about the environment, and how the environment functions as a reflection of human needs and values. Topics include environmental design, crowding, privacy, human territoriality, personal space, Prerequisite: PSYC 101 or PSYC 102,
- PSYC 350 [550] PERSONALITY (3) Introduction to the theoretical perspectives and research aimed at understanding personality processes and individual differences in thought, emotion and behavior. Perspectives may include psychoanalytic, dispositional, biological, learning and humanistic. Prerequisite: 6 units of PSYC.
- PSYC 361 [542] ABNORMAL PSYCHOLOGY (3) Disordered personal reactions to life. Organic and functional phenomena plus therapeutic techniques. Prerequisites: 9 units of PSYC or consent of instructor.
- PSYC 381 [581] READINGS IN PSYCHOLOGY (1-2) A survey of relevant research literature under the guidance of a staff member who will direct the students' research. May be repeated for a maximum of 4 units. Prerequisite: 9 units of PSYC and consent of instructor.
- PSYC 383 PROCTORING IN PSYCHOLOGY (3-6) Students serve as teaching apprentices or proctors in a course which they have already completed (such as Introduction to Psychology), and which they must relearn to 100 percent mastery. Students will manage the learning and evaluate individual progress of the members of the class assigned to

- them. The experience includes guidance, support and motivation of the assigned students, all in a supervised situation. Only 3 units may be earned in one term. May be repeated for a maximum of 6 units. For 6 units, students must serve as a proctor for two separate courses. Graded S/U, Prerequisites: successful completion of five or more psychology courses or: introductory, educational and child, or adolescent psychology, and principles of education and be a jumor or a senior plus permission of instructor. NOTE: Psychology majors and minors will not receive psychology elective unit for this course.
- PSYC 403 [503] INFANT AND CHILD DEVELOPMENT (3) An advanced course reviewing historical and current changes in the areas of infancy and childhood. Physical, cognitive and social emotional development will be covered in depth. Emphasis is placed on critical analysis of research theory construction and methods. Not open to those who successfully completed ECED 413. Prerequisite: PSYC 203 or PSYC 204.
- PSYC 404 [504] ADOLESCENT PSYCHOLOGY (3) Physical, emotional, intellectual development during adolescence; social development and heterosexuality; adolescent personality; problems of adjustment; juvenile delinquency. Prerequisite: PSYC 203 or PSYC 204.
- PSYC 405 THE PSYCHOLOGY OF AGING (3) The changes in learning, emotions, personality and social hehavior, and the impact of culture and attitude on the aging process. Prerequisite: PSYC 203 or PSYC 204.
- PSYC 411 [511] TESTS AND MEASUREMENTS (3) Psychological and educational testing and evaluation. The construction, administration, interpretation and use of the various evaluative devices of aptitude and achievement. Prerequisites: PSYC 101 or PSYC 102, and PSYC 212.
- PSYC 419 [519] HUMANISTIC PSYCHOLOGY (3) Explores the third force in modern psychology, considering the whole person-in-society, focusing on existential, transpersonal and mind-hody psychology. Prerequisites: 6 units of PSYC.
- PSYC 429 MULTICULTURAL COUNSELING (3) This course will provide a conceptual, theoretical and practical overview of multicultural counseling. It will integrate the knowledge of the various techniques and methods of helping to work with clients from diverse cultural backgrounds in a counseling setting. Prerequisites: PSYC 101 or PSYC 102 and PSYC 205.
- PSYC 430 SYSTEMS AND TECHNIQUES OF PSYCHOTHERAPY (3) Review and application of current theoretical approaches to the helping relationship. Prerequisites: PSYC 205 and PSYC 361.
- PSYC 431 GROUP DYNAMICS (3) Intensive study of group interactions with emphasis upon reciprocal group influence of behavior. Prerequisites: 6 units of PSYC.
- PSYC 432 [532] CROSS-CULTURAL PSYCHOLOGY (3) Comparison of psychological behavior and theory in Western and non-Western cultures. Prerequisites: 6 units of PSYC.
- PSYC 433 GROUP PSYCHOTHERAPY INTERNSHIP (3) Supervised experience in use of group intervention techniques. Students will counsel groups of troubled adolescents. Supervision will focus on both group and individual dynamics. Prerequisites: PSYC 431, admission to Honors Clinical Track.
- PSYC 435 INTERNSHIP IN PSYCHOLOGY (3-6) Placement in a community service agency to familiarize students with its current practices. Supervised client contact will be provided. May be repeated for a maximum of 12 units, but only 6 units can apply to the major; the other 6 units will be used as general electives. Prerequisites: 23 units of psychology, minimum PSYC GPA 3.00 and consent of instructor.
- PSYC 439 [539] THE INITIAL INTERVIEW (3) Clinical observation and practicum experience. Focus on interviewer and interviewee dimensions and relationship with patients. Use of tapes, seminars and individual supervision. Prerequisites: PSYC 205, and admission to Honors Clinical Track.
- PSYC 447 [547] SEX DIFFERENCES: PSYCHOLOGICAL PERSPECTIVES (3) Sex role/personality development is examined from various perspectives: social, cultural, evolutionary and biological. Changing conceptions with regard to women, their roles and self-concepts, are emphasized within the overall context of sex differences and similarities in behavior. Prerequisite: PSYC 203 or PSYC 204.
- PSYC 449 [549] PSYCHOLOGY OF LESBIAN CULTURE (3) Impact of culture on development of a lesbian identity within a psychological framework. Prerequisites: 6 units in PSYC or WMST or consent of instructor.
- PSYC 451 [551] INTRODUCTION TO THE EXCEPTIONAL CHILD (3) Children with atypical physical, mental, social and emotional development, including physically handicapped, mentally retarded, gifted, and emotionally disturbed children. Prerequisite: PSYC 203 or PSYC 204.

- PSYC 453 [553] ISSUES IN MENTAL HEALTH INTERVENTION (1-2) Readings, lectures and seminars relating to psychological emergencies and the modes of intervention during psychological crises. May be repeated for a maximum of 4 units. Graded S/U. Prerequisites: PSYC 205, PSYC 454 concurrent, admission to Honors Chinical Track.
- PSYC 454 INTERNSHIP IN PSYCHOTHERAPY (4) Techniques of psychotherapeutic intervention. Students will see patients in psychotherapy under intensive supervision. Seminars and individualized readings. May be repeated for a maximum of 12 units. Prerequisites: PSYC 453 concurrent and admission to Honors Chincal Track.
- PSYC 457 GENDER IDENTITY IN TRANSITION (3) Psychological consequences of changing definitions of feminity, masculinity and person-hood will be examined using recent theories of gender identity formation. Concepts such as androgyny, sex-role transcendence and future shock will be related to psychological adaptation to social change. Prerequisite: PSYC 447 or consent of instructor.
- PSYC 460 [560] ETHOLOGY AND COMPARATIVE PSYCHOLOGY (3) A survey of the major behavioral adaptations in non-human and human species within the framework of evolutionary theory, ethology and experimental psychology. Three units of lecture a week. Prerequisites: 9 units of PSYC or consent of instructor; BIOL 110.
- PSYC 461 [561] COGNITIVE PSYCHOLOGY (3) The nature of the cognitive processes, an analysis of the organization of cognitive abilities, and problems in cognition. Theoretical viewpoints will be explored, including those of Piaget, J. P. Guilford, Ausubel, Lewin, Skinner. A comparison among theories will be made as they relate to the thinking processes. Prerequisites: 9 units of PSYC or consent of instructor; BiOL 110.
- PSYC 465 [565] PHYSIOLOGICAL PSYCHOLOGY (3) An introduction to the physiological bases of behavior. The topics to be considered are basic neuroanatomy and neurophysiology, sensory and motor systems, motivational systems, and "higher order" behavioral systems. Three units of lecture per week. Prerequisites: 9 units of PSYC or consent of instructor; BIOL 110.
- PSYC 467 [567] MIDLIFE DEVELOPMENT (3) A study of adult behavior between the ages of 18 and 60. The developmental stages of young adulthood, adulthood and middle age will be discussed along with topics pertinent to each of the levels such as leaving and becoming emancipated from the family; the transition and adjustment to marriage and work; and bridging the gap between ideals and actual fulfillment. Prerequisite: PSYC 203 or PSYC 204.
- PSYC 470-479 [570-579] SPECIAL TOPICS (1-3) Survey and critical evaluation of modern literature pertaining to selected problems in psychology. May be repeated for a maximum of 12 units provided a different topic is covered. Prerequisite: consent of instructor.
- PSYC 486 [587] ADVANCED EXPERIMENTAL DESIGN (3) Analysis of variance, multiple comparisons, nonparametrics, general problems related to sampling, experimenter effects, SPSS analysis, reading of the experimental literature. Honors approval or consent of instructor. Prerequisites: PSYC 212 and PSYC 314.
- PSYC 491 [591] INDEPENDENT INVESTIGATION IN PSYCHOLOGY
 (3) An opportunity for especially qualified students to undertake research problems according to their interest and training under the direction of a staff member. May be repeated for a maximum of 12 units, but only 6 units can apply to the major; the other 6 units will be used as general electives. Prerequisites: PSYC 314 and consent of instructor.
- PSYC 494 [594] TRAVEL AND STUDY ABROAD IN PSYCHOLOGY (1-3) Selected topics, issues, programs, projects and/or facilities related to the field of psychology. Locations and topics to be selected by department and instructor sponsoring the program. Prerequisite: consent of instructor. There is no foreign language skill requirement.
- PSYC 497 HONORS SEMINAR IN PSYCHOLOGY (3) Issues of current and historical interest in psychology, examined from clinical, developmental, experimental and other relevant points of view. Seminar format, including discussions, based on readings from primary sources and group projects. Prerequisites: completion of the first year of Departmental Honors in Psychology (Junior Year) and special permit.
- PSYC 499 SENIOR THESIS IN PSYCHOLOGY (4) Independent research on special problems in psychology or closely related fields. Prerequisites: PSYC 314, PSYC 486, Honors approval.

Graduate Division

See TU Graduate Catalog for course descriptions.

READING EDUCATION (REED)

Upper Division

REED 365 READING AND WRITING IN THE CONTENT AREAS K-12 (3) Strategies for teaching reading and writing in K-12 certification programs within the content disciplines. Prerequisite: ELED 324.

REED 370-389 SPECIAL TOPICS IN READING EDUCATION (3) Studies of selected topics in literacy education. Specific requirements and prerequisites will vary and will be designated by the department each time a topic is scheduled. May be repeated with a different topic for a maximum of 6 units. Prerequisite: consent of the director of the REED program.

RELIGIOUS STUDIES (RLST)

RLST 105 INTRODUCTION TO THE STUDY OF RELIGION (3) Survey of world religious traditions informed by comparative, historical and phenomenological methodologies. Not open to students who have successfully completed PHIL 105. GenEd ILD.

REST 205 WOMEN IN WORLD RELIGIONS (3) Role of women, both human and divine, in the major Asian and Western religions. Not open to students who have successfully completed PHIL 205. GenEd II.D.

- REST 206 JUDAISM, CHRISTIANITY AND ISLAM (3) History, scriptures, doctrines, practices and interactions of three monotheistic religions. Not open to students who have successfully completed PHIL 206. GenEd II.C.3.
- RLST 355 [555] INTRODUCTION TO THE NEW TESTAMENT (3) Study of the literature, history, sociology and theology of the early Christian movement focusing on canonical and noncanonical materials. Not open to students who have successfully completed PHIL 355. Prerequisite: one lower-level course in philosophy or religious studies.
- RLST 357 [557] TOPICS IN COMPARATIVE RELIGION (3) Exploration of culturally diverse religious traditions in terms of a specified theme, topic or problem. May be repeated with a different topic for a maximum of 6 units. Prerequisite: one lower-level course in philosophy, religious studies or history.

RUSSIAN (RUSS)

Lower Division

- RUSS 101-102 RUSSIAN ELEMENTS I, II (3, 3) A thorough foundation in grammar; drills in pronunciation, elementary conversation; composition and translation. GenEd II.C.1. RUSS 101 is a prerequisite to RUSS
- RUSS 201-202 RUSSIAN INTERMEDIATE I, II, (3, 3) Review of grammar; conversation and prose composition; translation of texts of cultural value; outside readings. Prerequisites: RUSS 102 is a prerequisite to RUSS 201 and RUSS 201 is a prerequisite to RUSS 202.

SECONDARY EDUCATION (SCED)

Upper Division

- SCED 301 FIELD EXPERIENCES IN SECONDARY EDUCATION (3) Experiences in observing and studying school activities directly related to classroom instruction and pupil learning; observing and analyzing teacher roles, student roles and instructional environment. Emphasis is placed on direct experience in a variety of school settings. Prerequisite: PSYC 201.
- SCED 319 SURVEY OF EDUCATIONAL PROGRAMS (3) Combines theoretical aspects of ELED 311, The Child in the Elementary School Curriculum, and SCED 341, Principles of Secondary Education. A field experience to schools is required. Open only to those students in art, dance, music, physical education, health, or media specialists whose majors lead directly to certification in elementary and secondary education. Prerequisites: PSYC 201 or concurrently, and written permission of chair, Department of Secondary Education.
- SCED 341 PRINCIPLES OF SECONDARY EDUCATION (4) Philosophy and purposes of secondary education; nature of secondary education programs; principles of teaching and learning; basic techniques in instruction. A field experience to schools is required and will necessitate travel time before and after class. To be taken the term prior to the methods course, Prerequisites: junior standing, PSYC 201 (or taken concurrently), taken concurrently w/SCED 460, and written permission of the chair of secondary education. (Methods courses in each subject are not necessarily offered every term. It is the responsibility of students to meet with their secondary education adviser to determine when they will take the teaching methods course,)

- SCED 353 TEACHING MODERN FOREIGN LANGUAGE IN THE SECONDARY SCHOOL (3) Aims and purposes of foreign language instruction; current curricular trends, including the importance of modern language teaching practices. Open only to seniors who plan to teach foreign language, with consent of instructor. Prerequisites: 2.50 GPA in major field, SCED 341, SCED 460, and written permission from chair, secondary education.
- SCED 355 TEACHING SOCIAL STUDIES IN THE SECONDARY SCHOOL (3) Objectives, curriculum, materials and instructional procedures in the teaching of social studies. Open only to seniors immediately prior to student teaching and to others with equivalent backgrounds and objectives. Prerequisites: 2.50 GPA in major field; SCED 341, SCED 460, and written permission from chair, secondary educa-
- SCED 357 TEACHING ENGLISH IN THE SECONDARY SCHOOL (3) Language arts as taught in secondary schools. Open only to seniors immediately prior to student teaching and to others with equivalent backgrounds and objectives with consent of instructor. Prerequisites: 2.50 GPA in major field; SCED 341, SCED 460, and written permission from chair, secondary education.

Student Teaching

The following student teaching courses provide practical experiences in observation, participation and student teaching in public school classrooms under the guidance of master teachers and a university supervisor. Prerequisites: PSYC 201, EDUC 401 or SCED 341, SCED 460, ISTC 301, SPED 301 and SCED 499, an appropriate methods course, satisfactory completion of the Praxis I tests, completion of the Speech and Hearing screening, completion of GPA requirements, written permission from students' major department and the Center for Professional Practice. All secondary education students and postbaccalaureate students will student teach at both the middle school and high school levels the same term. SCED 461 is to he taken concurrently with student teaching. All student teaching experiences in secondary education are graded S/U.

SCED 383 STUDENT TEACHING IN SECONDARY EDUCATION — ENGLISH (12)

- SCED 384 STUDENT TEACHING IN SECONDARY EDUCATION FRENCH (12)
- SCED 385 STUDENT TEACHING IN SECONDARY EDUCATION GEOGRAPHY (12)
- SCED 386 STUDENT TEACHING IN SECONDARY EDUCATION GERMAN (12)
- SCED 389 STUDENT TEACHING IN SECONDARY EDUCATION -HISTORY (12)
- SCED 394 STUDENT TEACHING IN SECONDARY EDUCATION SPANISH (12)
- SCED 396 STUDENT TEACHING IN SECONDARY EDUCATION SOCIAL SCIENCE (12)
- SCED 399 DIFFERENTIATED STUDENT TEACHING SECONDARY (1-8) Student teaching experiences in addition to those listed above or student teaching in special subject areas, according to needs and interests of the student. Prerequisites: consent of chair, secondary education; written permission from Center for Professional Practice.
- SCED 401 ANALYZING STUDENT TEACHING (3) Analysis of and development of solutions for problems in pupil behavior, curriculum, evaluation and instructional procedures. Secondary teaching philosophies and strategies based upon identified needs determined as a result of the student teaching experience will be explored in depth. Open to students concurrent with or following student teaching.
- SCED 419 [518] YOUNG ADULT LITERATURE (3) Examination of literature as an expression of basic needs and ideas of youth through wide independent reading; studying criteria and aids for selection of books and other media; evaluating in terms of forces affecting society and the adolescent.
- SCED 460 [560] USING READING AND WRITING IN THE SEC-ONDARY SCHOOLS (4) Developmental reading and writing assessment; vocabulary building, comprehension; special needs adaptations; clinical practice. Prerequisites: SCED 341 or concurrently.
- SCED 461 [561] TEACHING READING IN THE SECONDARY CON-TENT AREAS (3) Application and assessment of reading strategies and instructional frameworks in secondary content classrooms. Prerequisites: SCED 460 and currently teaching or student teaching.
- SCED 470-489 [570-589] SPECIAL TOPICS IN SECONDARY EDUCA-TION: (Topic to be named) (1-3) In-depth study of a selected topic in secondary or adult education. The specific requirements and prerequisites will vary with each topic and will be designated by the department each time a topic is scheduled. May be repeated for unit provided a different topic is covered.

SCED 494 [594] TRAVEL AND STUDY IN SECONDARY EDUCATION (1-6) Study abroad of educational facilities, programs or practices, or selected projects in education topics. By special arrangement with program chair and sponsoring instructors.

SCED 495 [595] INDEPENDENT STUDY IN EDUCATION: SEC-ONDARY (1-4) An opportunity for especially qualified students to undertake research problems or study projects relevant to their interest and training under the direction of a staff member. Prerequisite: consent

of chair of secondary education.

SCED 496 [596] DIRECTED READINGS IN SECONDARY EDUCA-TION (1-4) Independent reading in selected areas of Secondary Education in order to provide for the individual a comprehensive coverage or to meet special needs. By invitation of the department to qualified students. Prerequisite: consent of chair of secondary education.

SCED 499 INTERNSHIP IN SECONDARY EDUCATION (6) Clinical experience in a professional development school the term immediately prior to student teaching; focus on classroom management and discipline, technology utilization and reflective practices. Prerequisite: written permission of chair of secondary education. Graded S/U.

Graduate Division

See TU Graduate Catalog for course descriptions.

SCIENCE EDUCATION (SCIE)

SCIE 371 [551] TEACHING SCIENCE IN EARLY CHILDHOOD (2) Familiarizes students with appropriate methods and materials in science for the young child. Emphasis will be on interdisciplinary approach. Prerequisite: ECED 341 or concurrently.

SCIE 376 [576] TEACHING SCIENCE IN THE ELEMENTARY SCHOOL (3) Application, analysis and integration of science teaching skills in the elementary classroom. Field experience in local schools.

Taken concurrently with BIOL 303 and PHSC 303.

SCIE 380 [580] TEACHING SCIENCE IN THE SECONDARY SCHOOL (3) Selection of appropriate content, methods and evaluation techniques, analysis of textbooks and resource materials for teaching science in the middle and high schools. Must be taken the term prior to student teaching.

SCIE 393 STUDENT TEACHING IN SECONDARY EDUCATION- SCI-

ENCE (12)

SCIE 421 FIELD COURSE IN SECONDARY SCIENCE TEACHING METHODS (2) Analysis and evaluation of current materials and techniques in secondary science teaching. To be taken concurrently with student teaching at off-campus center. Prerequisite: SCIE 380; students

must be student teaching.

SCIE 470-475 [570-575] SEQUENTIAL SCIENCE MODULES FOR THE ELEMENTARY SCHOOL TEACHER I-VI (1, 2, or 3) Three different modules of science instruction will be offered each term for teachers of primary and intermediate grades. Emphasizes instructional strategies in both the processes and content of the science. Students may elect to take 1, 2 or all 3 modules for 1, 2 or 3 units, respectively. All students must attend the first class meeting for course orientation. Thereafter, each module will meet once a week for four weeks. Each meeting will consist of approximately four units laboratory work. Prerequisite: teaching experience in the elementary schools.

SOCIAL SCIENCE (SOSC)

SOSC 401 [501] TOPICS IN SOCIAL SCIENCE (3) Issues and problems to be selected by the instructor and studied from the multiple approaches of various social sciences. Prerequisites: 15 units in the social sciences.

SOCIOLOGY (SOCI)

Lower Division

- SOCI 100 USING INFORMATION EFFECTIVELY IN THE SOCIAL SCI-ENCES (3) Obtaining, evaluating and presenting social science data with emphasis on critical thinking, search and analysis skills using computerized databases, statistical software and communication skills. Recommended for students majoring in social or behavioral sciences. Not open to those who successfully completed IDLA 101. GenEd I.B.
- SOCI 101 INTRODUCTION TO SOCIOLOGY (3) Sociological concepts, theories, methods; a study of society and culture; the influence of the social environment on individual behavior. GenEd II.B.2.
- SOCI 102 HONORS INTRODUCTION TO SOCIOLOGY (3) Sociological concepts, theories, methods; a study of society and culture; the influence of the social environment on individual behavior. Honors College course. Special permit only. GenEd II.B.2.

- SOCI 210 SOCIOLOGY OF SPORT (3) Critical examination of the role of sport in society. Course material will transcend prevalent stereotypes and myths of sport and analyze significant realities of the culture, social and corporate organization, major social processes, and relations of class, race and gender in contemporary society. GenEd II.B.3.
- SOCI 241 BLACKS IN AMERICA: MYTHS AND REALITY (3) Prevailing myths regarding black society, development of such myths, and the reality which contradicts them. GenEd II.C.3.
- SOCI 243 SOCIOLOGY OF RACE, CLASS AND GENDER (3) Traditional and contemporary sociological approaches to the nature and interrelationship of race, class and gender inequalities. Prerequisite: SOCI 101 or consent of instructor. GenEd II.C.3.
- SOCI 249 SOCIAL PROBLEMS (3) Theoretical and empirical understanding of the sociological approach to contemporary social problems, such as alcoholism, drug abuse, rape, homophobia, sexism, racism, poverty, family disorganization, violence. Not open to students who have successfully completed SOCI 349. Prerequisite: SOCI 101,
- SOCI 254 INTRODUCTION TO CRIMINAL JUSTICE (3) The history, the present structure, the functions, and the contemporary problems of the police, prosecution, courts, corrections, probation and parole. A brief introduction to law as an element of social control will be given. Not open to students who have successfully completed SOCI 354 or WRIT 354. Prerequisite: SOCI 101.

- SOCI 300 SOCIOLOGICAL ANALYSIS (3) Sociological perspectives, data and techniques needed to identify and interpret social and cultural patterns. Develops computer and writing skills. Prerequisites: SOCI 101, ENGL 102 or ENGL 190, or consent of instructor. GenEd. I.D.
- SOCI 301 THE FAMILY (3) The family as the basic group in human societies; its development; its relation to other social institutions; the family in modern industrial societies. Prerequisite: SOCI 101.
- SOCÍ 307 ISSUES IN DOMESTIC VIOLENCE (3) Identification, treatment and prevention of home-based abuse or violence focusing on children, spouses/partners and elders. Prerequisite: SOCI 101.
- SOCI 309 ISSUES IN CAMPUS VIOLENCE (3) Micro-level examination of issues of crime and violence, including prevention, treatment and punishment on the college campus. Prerequisite: SOCI 101.
- SOCI 311 [511] INDIVIDUAL AND SOCIETY (3) A social psychological approach to the inter-relationships of the individual and his/her social and cultural environment; behavioral characteristics resulting from social experience. Prerequisite: SOCI 101.
- SOCI 313 INTRODUCTION TO SOCIAL PSYCHOLOGY (3) A general introduction to the inter-relationships between social organization and individual human behavior. Examination of social factors in the emergence of consciousness, self, personality and interpersonal relations. Prerequisite: SOCI 101.
- SOC1 323 [523] SOCIAL CHANGE (3) A sociological analysis of the sources, processes and consequences of social change. Prerequisite: SOCI 101.
- SOCI 327 [527] URBAN SOCIOLOGY (3) Survey of the theoretical and sociological conceptualizations of modern Western industrial cities. Prerequisite: SOCI 101.
- SOCI 329 [529] DEMOGRAPHY (3) Social, economic and political problems related to changes, distribution and movement of population; analysis of contemporary population trends in the United States and the world. Prerequisite: SOCI 101.
- SOCI 333 [533] POLITICAL SOCIOLOGY (3) Contemporary relevance of the fundamental ideas regarding the relationship of the social and political systems; the significance of social and political democratization; class struggles and revolution; the influence of government bureaucracy. Prerequisite: SOCI 101.
- SOCI 335 [535] MEDICAL SOCIOLOGY (3) A study of social and cultural perspectives on illness; demographic trends; the health professions; institutions for the delivery of health care services. Prerequisite: SOCI 101.
- SOCI 336 SOCIOLOGY OF MENTAL ILLNESS (3) Social structure of mental illness and mental health services, mental illness as social construction, life within total institutions, mental illness as social stigma, and social policy of mental illness. Prerequisites: SOCI 101 and PSYC 101.
- SOCI 341 [541] CLASS, STATUS AND POWER (3) An examination of major theories and significant research on socially structured inequality in modern and traditional societies. Prerequisite: SOCI 101.
- SOCI 343 [543] MINORITY GROUPS (3) An examination of inter-group life as an aspect of society; conflicts between races, ethnic groups and minorities; prejudice, segregation and integration. Prerequisite: SOCI 101.

- SOCI 345 RACE AND CRIME (3) Structural and cultural dimensions of race-specific patterns of criminal offending and victimization. Focus on urban development, social construction of race, and the political-economy of crime and social control in America. Prerequisite: SOCI 101.
- SOCI 348 WOMEN AND CRIME (3) Women as offenders, victims and workers in the criminal justice system. Theories of female criminality. Discrimination and sexism in juvenile and adult systems. Prerequisite:
- SOCI 351 [551] DEVIANT BEHAVIOR (3) Deviance as a process in society. Understanding conformity and deviance; identification and labeling of deviants; society's response to deviant behavior. Prerequisite: SOCI
- SOCI 352 COMMUNITY CORRECTIONS (3) Probation and intermediate sanctions of boot camp, electronic monitoring, house arrest/detention. Casework management and sentencing. Parole and diversion programs. Prerequisite: SOCI 101.
- SOCI 353 [553] THEORIES OF CRIME (3) Evolution of criminological theory; crime rates and trends; social profile of criminal offenders and victims; societal responses. Prerequisite: SOCI 101.
- SOCI 355 [555] DELINQUENCY AND JUVENILE JUSTICE (3) Nature, distribution and causes of youth crime; youth gangs; the juvenile justice system. Prerequisite: SOCI 101.
- SOCI 356 [556] PRISONS IN AMERICA (3) Purposes of punishment, incarceration and death penalty; inmate subculture; administration and staff issues. Prerequisites: SOCI 101, SOCI 254, SOCI 353 or SOCI 355.
- SOCI 357 [557] SOCIAL WELFARE (3) Sociological analysis of social welfare institutions and the functions they perform within modern societies. Prerequisite: SOCI 101.
- SOCI 358 INTERPERSONAL VIOLENCE (3) Face-to-face violent crime: perpetrators and victims; strategies for response. Prerequisites: SOCI 101; SOCI 351 or 353.
- SOCI 359 [559] SOCIAL GERONTOLOGY (3) Examination of social factors in aging in later life and responses to aging; evaluation of research in social gerontology. Prerequisite: SOCI 101.
- SOCI 367 [558] SOCIOLOGY OF DEATH, DYING AND BEREAVE-MENT (3) Examination of present social considerations of death, including demographic, attitudinal and ritualistic variables; death education through the life cycle; structure of the grief process; impact of terminal illness on the patient and the family; ethical issues surrounding euthanasia; and suicide. Prerequisite: SOCI 101.
- SOCI 370-379 [560-569] TOPICS IN SOCIOLOGY (3) Current topics in sociology designed for non-majors as well as majors. May be repeated for credit provided a different topic is covered. Prerequisite: SOCI 101.
- SOCI 381 [581] SOCIOLOGICAL THEORY (3) Major systems of sociological theory; the works, assumptions and implications of major European and American schools. Prerequisites: junior standing; SOCI 101; 9 additional units of sociology.
- SOCI 383 SOCIOLOGY OF LAW (3) Legal norms and institutions in relation to society; role of law in social processes, such as conflict and coopcration. Prerequisite: SOCI 101.
- SOCI 385 POLICE ADMINISTRATION (3) Law enforcement and organization structure; management of departments, including deployment, recruitment, training, specialization, budget and research. Prerequisite:
- SOCI 387 ISSUES IN POLICING (3) Individual and system-related problems facing police personnel. Prerequisite: SOCI 101.
- SOCI 391 [582] RESEARCH METHODS (3) A consideration of methodology of sociological research; the various steps in conducting research projects, from statement of the problem to final analysis of data. Prerequisites: SOCI 101; 9 additional units of SOCI; either PSYC 212
- SOCI 470-479 [570-579] SPECIAL TOPICS IN SOCIOLOGY (1-3) An examination of current topics in sociology designed for junior and senior majors. May be repeated for credit provided a different topic is covered. Prerequisites: SOCI 101 and 6 additional units of sociology.
- SOCI 485 [585] SEMINAR IN SOCIOLOGY (3) Capstone application of ideas, methods and facts learned in previous sociology courses. Prerequisites: SOCI 101, three upper-level SOCI courses, and senior standing or permission of instructor.
- SOCI 491-492 [591-592] INTERNSHIP IN SOCIOLOGY I, II (3, 3) Supervised experience in work setting which facilitates understanding of roles and relationships relevant to sociological inquiry and application of sociological knowledge. Students may elect to take one term for 3 units (491) or two terms for 3 units each (491-492), in one agency both terms or in a different agency each term. No more than 3 units may be earned in a term without consent of the chair, which will be

- granted only when agency requirements and student needs make it appropriate. Prerequisites: SOCI major; junior standing and consent of internship coordinator.
- SOCI 495 [595] INDEPENDENT RESEARCH (3) Supervised research and sociological investigation involving library and/or field experiences, and culminating in a written report. May be repeated for a maximum of 6 units. Prerequisites: SOCI 381 and SOCI 391 and consent of instructor.
- SOCI 497 SEMINAR IN SOCIOLOGY (Honors) (3) Exploring and analyzing major areas of sociology. Prerequisite: consent of the Honors coordinator.
- SOCI 498 READINGS IN SOCIOLOGY (Honors) (4) A survey of the relevant scholarly literature under the guidance of a faculty member who will direct the student's research. Prerequisite: consent of the Honors coordinator.
- SOCI 499 HONORS THESIS (4) Supervised research and sociological investigation involving library and/or field experience and culminating in a written report. Prerequisite: consent of the Honors coordinator.

SPANISH (SPAN)

Lower Division

- SPAN 101 SPANISH ELEMENTS I (3) Principles of Spanish grammar; drills in pronunciations; elementary conversation; composition; readings. GenEd II.C.1.
- SPAN 102 SPANISH ELEMENTS II (3) Review and further study of grammar principles; pronunciation; conversation; composition; readings. Prerequisite: SPAN 101. GenEd Il.C.1.
- SPAN 201 SPANISH INTERMEDIATE I (3) Review of grammar and pronunciation; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in Spanish, Prerequisite: SPAN 102 or equivalent. GenEd II.C.3.
- SPAN 202 SPANISH INTERMEDIATE II (3) Advanced grammar structures; conversation; composition; reading of cultural texts; oral and written exercises in language lab. Conducted in Spanish. Prerequisite: SPAN 201 or equivalent. GenEd II.C.3.

- SPAN 301 COMPOSITION AND CONVERSATION 1 (3) Reading, conversation and composition on topics of cultural and literary interest; grammar and syntax. Prerequisite: SPAN 202 or equivalent. GenEd II.C.3.
- SPAN 302 COMPOSITION AND CONVERSATION II (3) Reading, conversation and composition on topics of cultural and literary interest; review of grammar and syntax as needed. Prerequisite: SPAN 301 or equivalent. GenEd II.C.3.
- SPAN 305 READINGS IN SPANISH (3) Improves reading and comprehension skills in Spanish, while exposing students to introductory Spanish literature. Prerequisite: SPAN 202 or equivalent or consent of instructor.
- SPAN 306 SPANISH PHONETICS (3) Analysis and laboratory drills of standard Latin-American pronunciation with some attention to Castilian. Conducted in Spanish. Not open to native speakers of Spanish. Prerequisites: SPAN 301-302 or equivalent.
- SPAN 311 CULTURE AND CIVILIZATION OF THE SPANISH-SPEAK-ING PEOPLES 1 (3) Value-system and way of life as embodied in the language, history, arts and customs of Spain. Conducted in Spanish. Prerequisites: SPAN 301-302 or equivalent.
- SPAN 312 CULTURE AND CIVILIZATION OF THE SPANISH-SPEAK-ING PEOPLES II (3) Value-system and way of life as embodied in the language, history, arts and customs of Ibero-America. Prerequisites: SPAN 301-302 or equivalent.
- SPAN 321-322 SURVEY OF SPANISH LITERATURE I, II (3,3) Spanish and Spanish-American literature, with collateral readings. Conducted in Spanish, Prerequisites: SPAN 301-302 or equivalent.
- SPAN 331 SPANISH FOR BUSINESS (3) The fundamentals of commercial correspondence in Spanish. Focuses on the form and style of Spanish currently used in a business environment. Intensive practice in speaking, writing and translating. Prerequisites: SPAN 301-302 or equivalent or consent of instructor.
- SPAN 370-379 SPECIAL TOPICS IN SPANISH (3-6) Specialized topics in language and culture. Content varies. May be repeated once for unit provided a different topic is covered. Prerequisite: SPAN 202 or equiv-
- SPAN 391 ADVANCED SPANISH GRAMMAR (3) Spanish syntax, idiomatic construction, word formation, original composition. Conversation and oral drill. Conducted in Spanish. Prerequisites: SPAN 301-302.

SPAN 402 [502] SPANISH LINGUISTICS (3) The linguistic structure of the Spanish language with an introduction to transformational grammar. Prerequisites: SPAN 301-302 or equivalent.

SPAN 407 ADVANCED SPANISH COMPOSITION (3) Development of composition skills through writing. Conducted in Spanish.

Prerequisites: SPAN 301 and SPAN 302 or equivalent.

SPAN 408 ADVANCED SPANISH CONVERSATION (3) Development of advanced skills to participate in both formal and informal conversation, social and abstract topics. Conducted in Spanish. Prerequisites: SPAN 301-302 or equivalent.

SPAN 409 TRANSLATION (3) Translation theory and practice English to Spanish and Spanish to English. Prerequisite: SPAN 301 or SPAN 302.

SPAN 411 [511] 19TH-CENTURY NOVEL (3) Development of the Spanish novel in the second half of the 19th century with emphasis on authors and works representative of the period in Spanish letters from realism to naturalism. Conducted in Spanish. Prerequisite: SPAN 321 or SPAN 322 or equivalent.

SPAN 412 CONTEMPORARY SPANISH NOVEL (3) Emphasis on such writers as Cela, Sender, Delibes and Goytisolo. Conducted in Spanish.

Prerequisite: SPAN 321 or SPAN 322 or equivalent.

SPAN 417 [517] THE GOLDEN AGE IN SPANISH LITERATURE I (3)
Principal attention to Cervantes, Tirso de Molina, Lope de Vega and
Ruiz de Alarcon. Conducted in Spanish. Prerequisite: SPAN 321 or
SPAN 322 or equivalent.

SPAN 431 [531] 19TH-CENTURY SPANISH LITERATURE (3) The main literary movement of the century: neoclassicism, romanticism, realism, naturalism and special emphasis on "costumbrismo." Conducted in Spanish. Prerequisite: SPAN 321 or SPAN 322 or equivalent.

SPAN 439 LITERARY MOVEMENTS IN SPANISH-AMERICAN LITER-ATURE (3) Characteristics of the literary movements in Spanish America through the most representative short stories of every period. Conducted in Spanish. Prerequisite: SPAN 321 or SPAN 322 or equivalent.

SPAN 444 [544] 20TH-CENTURY SPANISH-AMERICAN LITERATURE II (3) The contemporary period. Conducted in Spanish.

Prerequisite: SPAN 321 or SPAN 322 or equivalent.

SPAN 455 HISPANIC POPULAR CULTURES (3) Analysis of a topic concerned with Hispanic folklore and popular cultures. May be repeated for a maximum of 6 units. Prerequisites: SPAN 301 and SPAN 302 or consent of department.

SPAN 462 CONTEMPORARY SPANISH DRAMA (3) Emphasis on playwrights such as Casona, Sastre and Buero Vallejo. Conducted in Spanish. Prerequisite: SPAN 321 or SPAN 322 or equivalent.

SPAN 470-479 [570-579] SPECIAL TOPICS IN SPANISH (3) Discussion of a central topic with changing emphasis from year to year. May be repeated for unit provided a different topic is covered. Prerequisite: SPAN 321 or SPAN 322 or the equivalent.

SPAN 481 SPANISH SHORT STORIES (3) Short stories from Spain with emphasis on 20th-century authors. Conducted in Spanish. Prerequisite:

SPAN 321 or SPAN 322 or equivalent.

SPAN 491 [591] DIRECTED RÉADINGS IN SPANISH LITERATURE (1-3) Reserved for superior students under the guidance of a departmental adviser. For junior or senior majors only. Conducted in Spanish. Prerequisites: at least three units of literature study at the 400 level, consent of department chair.

SPAN 492 [592] DIRECTED READINGS IN SPANISH (1-3) Similar to Spanish 491 with concentration on a different subject matter. Conducted in Spanish. Junior or senior majors only. Prerequisites: at least three units of literature study at the 400 level, consent of depart-

ment chair.

SPAN 494 TRAVEL STUDY ABROAD (3-16) A study of the main features of Hispanic culture and civilization. Cities and topics to be selected. For complete information contact the chair of the department. Prerequisite:

consent of instructor.

SPAN 495 INTERNSHIP FOR PROFICIENCY IN SPANISH (3) Supervised experience in a work setting providing students the opportunity to apply their classroom learning and skills outside the academic world. Students receive 3 units for eight units of work per week. Junior or senior undergraduate students in good academic standing who meet the requirements established for the Proficiency in Spanish (completion of 9 units of required courses) can apply for the internship during the month of November for the spring term and during the month of April for the fall term. Prerequisites: open only to students who are enrolled in the Proficiency Program in Spanish who have complied with the program regulations. Written consent of coordinator of the program.

SPAN 497 INTERNSHIP IN SPANISH (3) Gives training and experience using Spanish in working with government, business, and industry in Maryland or Washington, D.C., under professional supervision. Prerequisites: junior or senior standing Spanish majors (professional track) only, and completion of at least 27 units above 300-level courses. Written consent of coordinator of program.

SPECIAL EDUCATION (SPED)

Upper Division

SPÉD 301 INTRODUCTION TO SPECIAL EDUCATION: K-12 (3) Historical, philosophical, legal foundations of special education as related to current issues and practices in educational settings. Field experience required.

SPED 401 [502] CURRICULUM/METHODS OF INCLUSION (3)
Designing and implementing inclusive programs. Prerequisite: SPED

301.

SPED 413 [613] ASSISTIVE TECHNOLOGY FOR STUDENTS WITH DISABILITIES K-12 (3) Designing instruction for students with disabilities using assistive and instructional technology. Prerequisites: SPED 301 and ISTC 201 or equivalent.

SPED 415 [515] ASSESSMENT OF INFANT/PRIMARY STUDENTS WITH DISABILITIES (3) Comprehensive assessment of young children, linking evaluative information to inclusive programming.

SPED 417 [517] COLLABORATIVE PLANNING FOR INFANT/ PRIMARY PROGRAMS (3) Methods and models of interdisciplinary collaborative planning for young children with disabilities. Prerequisite: SPED 301.

SPED 425 [525] FORMAL TESTS AND MEASUREMENTS FOR STU-DENTS WITH DISABILITIES (K-12) (3) Assessment techniques; philosophical rationale; current research; intervention strategies. Prerequisites: 6 units PSYC; 9 units SPED or consent of instructor.

SPED 427 [527] CURRICULUM/METHODS OF SOCIAL EMOTION-AL AND MOTOR DEVELOPMENT FOR STUDENTS WITH DIS-ABILITIES K-12 (3) Curriculum theory: research, instructional techniques for students with disabilities. Prerequisites: 6 units SPED or consent of instructor.

SPED 428 [605] WORKING WITH FAMILIES OF STUDENTS WITH DISABILITIES (3) Communication skills, human relations; parent counseling and conferencing. Prerequisites: SPED 301 and consent of SPED instructor.

SPED 429 [607] CURRICULUM/METHODS OF CLASSROOM MAN-AGEMENT FOR STUDENTS WITH DISABILITIES (3) Theoretical foundations; development of practical interventions. Prerequisites: SPED 301 and consent of SPED instructor.

SPED 430 [603] INFORMAL TESTS AND MEASUREMENTS FOR STUDENTS WITH DISABILITIES (K-12) (3) Assessment, diagnosis, prescriptive techniques; procedures, administration, interpretation, programming. Prerequisites: SPED 301 and consent of SPED instructor.

SPED 431 [531] CURRICULUM AND METHODS OF READING FOR PRIMARY STUDENTS WITH DISABILITIES (3) Reading practices, context, procedures, materials and assessment for primary students with disabilities. Prerequisite: SPED 301.

SPED 441 [541] CURRICULUM/METHODS OF INSTRUCTION FOR STUDENTS WITH DISABILITIES (K-12) (3) Characteristics affecting learning, designing educational programs. (Observations in appropriate settings and guest lecturers in specialty area.) Prerequisites: 6 units in PSYC and 6 units in education.

SPED 451 [503] PSYCHOEDUCATIONAL ASSESSMENT OF STU-DENTS WITH DISABILITIES (ELEMENTARY/MIDDLE SCHOOL) (3) Assessment and interventions for cognitive, educational, emotional and social behaviors of students with disabilities. Special permit required. Prerequisites: SPED 301, SPED 425, SPED 430.

SPED 453 [601] CURRICULUM AND METHODS OF SECONDARY SPECIAL EDUCATION (3) Issues and trends, including transitionalrelated instruction, postsecondary programs, and adaptability in secondary classrooms. Prerequisites: SPED 301 or consent of the instructor.

SPED 455 [555] ASSESSMENT OF MIDDLE AND HIGH SCHOOL STUDENTS WITH DISABILITIES (3) Diagnosis and prescriptive techniques used by secondary-level special education professionals. Prerequisite: SPED 301.

SPED 470-479 SPECIAL TOPICS IN SPECIAL EDUCATION (1-3) Indepth study of a selected topic in special education. The specific requirements and prerequisites will vary with each topic and will be designated by the department each time a topic is scheduled. May be repeated for a maximum of 6 units.

SPED 491 INTERNSHIP: STUDENTS WITH DISABILITIES IN ELE-MENTARY/MIDDLE GRADES (3) Supervised clinical field experience with elementary/middle school students with disabilities. Prerequisites: 12 units SPED and consent of the program director.

SPED 493 SEMINAR IN STUDENT TEACHING (3) This seminar is taken during the student teaching term. Topics include: special education; critical issues and topics; making special education professional.

(Taken with SPED 498.)

SPED 496 INTERNSHIP: STUDENTS WITH DISABILITIES (SEC-ONDARY/ADULT PROGRAMS) (3) Supervised clinical field experience with students with disabilities at the middle and high school levels prior to student teaching. Prerequisites: 12 units of SPED and consent of coordinator of secondary special education.

SPED 497 INTERNSHIP: STUDENTS WITH DISABILITIES IN INFANT/PRIMARY PROGRAMS (3) Supervised clinical field experience with young children with disabilities. Prerequisites: 12 units SPED

and consent of the program director.

SPED 498 STUDENT TEACHING: SPECIAL EDUCATION (3-12) Placement in special education classroom either public or private at the age/grade appropriate for students' programs. Prerequisites: 18 units SPED and consent of the program director.

Graduate Division

Special TU Graduate Catalog for course descriptions.

THEATRE ARTS (THEA)

Lower Division

THEA 101 ACTING I (3) Development of imagination through improvisation, exercises and simple scenes. GenEd I.E.

THEA 102 HONORS ACTING I (3) Development of imagination through impovisation, exercises and simple scenes. Prerequisite: admission to

the Honors College. GenEd I.E.

- THEA 103 INTRODUCTION TO AMERICAN THEATRE (3) Theatrical experience through study of the various types, styles and production processes of the theatre. Theatre as a public art and its relationship to our culture. GenEd II.B.1.
- THEA 105 MOVEMENT FOR THE ACTOR (3) Tension, release, alignment and physical characterization utilizing movement theories. Prerequisite: THEA 110 and consent of instructor.
- THEA 107 PROPERTY DESIGN AND CONSTRUCTION (3) Materials, tools and techniques for executing property design. Prerequisite: consent of instructor.
- THEA 110 ACTING I FOR MAJORS (3) Introduction to acting skills. Basic performance vocabulary and fundamentals grounded in the language of Stanislavsky. Includes text work, improvisation and performance exercises. Major standing.
- THEA 111 VOICE FOR THE ACTOR 1 (3) Theory and practice in vocal production, application to the freeing, development, and strengthening of the voice. Prerequisites: THEA 110 and consent of instructor.
- THEA 125 SCRIPT ANALYSIS (3) Interpretation and analysis of playscripts as the basis for public performance, from the viewpoints of audience members and practitioners. Introduction to research methods for contemporary performance. GenEd LB.
- THEA 126 HONORS SCRIPT ANALYSIS (3) Interpretation and analysis of playscripts as the basis for public performance, from the viewpoint of audience members and practitioners. Introduction to research methods for contemporary performance. Prerequisites: admission to the Honors College, GenEd I.B.
- THEA 142 INTRODUCTION TO THEATRE DESIGN (3) Creative aspects of theatrical design from concept to realization. GenFd I.E.
- THEA 201 SCENIC DESIGN I (3) Influence of acting, directing, audience and aesthetics on the development of scenic design.
- THEA 202 ACTING II (3) Technique and practice of scene study: analyzing a script, rehearsing a scene and playing an action. May be repeated for a maximum of 6 units. Prerequisites: THEA 110, THEA 105 and THEA 111 and consent of instructor.
- THEA 205 THEATRE GAMES (3) Exercises in "game structures" to develop creativity, encourage work on personal acting techniques, and free the actor from mechanical stage behavior. Prerequisite: THEA 101.

THEA 209 SOUND DESIGN (3) Electronic and acoustic information and their relationship to theatre spaces and artistic applications.

- THEA 210 AUDITION TECHNIQUE (3) Selection, preparation, and presentation of audition pieces for stage, television, film and other media. Prerequisites: THEA 110, THEA 111, THEA 105, and/or consent of instructor.
- THEA 211 HISTORY OF THEATRE AND DRAMA 1 (3) Relationship of theatre and drama to other fine arts and humanistic studies from their origins to 1600. Prerequisite: THEA 125.

- THEA 212 HISTORY OF THEATRE AND DRAMA II (3) Relationship of theatre and drama to other fine arts and humanistic studies from 1600 to 1850. Prerequisite: THEA 125.
- THEA 213 HISTORY OF THEATRE AND DRAMA III (3) Relationship of theatre and drama to other fine arts and humanistic studies from 1850 to present. Prerequisite: THEA 125.
- THEA 231 MIME AND PHYSICAL THEATRE TECHNIQUES (3) Ensemble exercises and performance projects utilizing gestures, illusions and walks. GenEd I.E.
- THEA 241 COSTUME, DRESS AND SOCIETY: EGYPTIAN TO ELIZA-BETHAN (3) Study of clothing, costume design and construction. Lab Required. GenEd II.C.1.
- THEA 242 COSTUME, DRESS AND SOCIETY: ELIZABETHAN TO 1950 (3) Study of clothing, costume design and construction. Lab Required. GenEd II.C.1.
- THEA 243 HONORS COSTUME DRESS AND SOCIETY: EGYPTIAN TO ELIZABETHAN (3) Study of clothing, costume design and construction. Lab required. Prerequisite: admission to the Honors College. GenEd ILC. L.
- THEA 244 HONORS COSTUME DRESS AND SOCIETY: ELIZA-BETHAN TO 1950 (3) Study of clothing, costume design and construction. Lab required. Prerequisite: admission to the Honors College. GenEd.II.C.1
- THEA 245 MAKEUP DESIGN 1 (3) Theories and techniques of designing stage makeup for a variety of characters and roles.
- THEA 246 MAKEUP DESIGN II (3) Special effects in character makeup using advanced techniques. Prerequisite: THEA 245.
- THEA 251 STAGECRAFT I (3) Production techniques, construction procedures, painting, props and lighting. Lab required.
- THEA 255 LIGHTING DESIGN 1 (3) Developing awareness of light and its application as a form of aesthetic expression. Lab required.
- THEA 257 STAGE MANAGEMENT (3) Theatrical production focusing on the duties and responsibilites of stage managers.
- THEA 261 ACTING FOR MUSICAL THEATRE I (3) An introduction to the acting problems inherent in musical theatre performance. Theory and practice. Prerequisite: consent of instructor.
- THEA 271 SPECIAL TOPICS (1-3) In-depth study of a selected area dependent upon faculty and student interest. May be repeated for a maximum of 6 units provided a different topic is covered. Prerequisites: department approval
- THEA 280 EXPERIMENTAL LABORATORY THEATRE ENSEMBLE (3) Experimental techniques, style and performance.

- THEA 301 TECHNIQUES OF COMEDY (3) An introduction to the theories and uses of comedy. Varied practice in comic performance with an emphasis on material emanating from students' experiences. Prerequisites: THEA 110 and one other acting or mime course or consent of instructor.
- THEA 302 INTERMEDIATE SCENE STUDY (3) A continuation of the work of THEA 202, focusing on scene study, script analysis and character development. Modern realism through contemporary non-realism. Prerequisites: THEA 202, THEA 322, THEA 335 and permission of instructor.
- THEA 303 CULTURAL DIVERSITY IN CONTEMPORARY THEATRE (3) An examination of both the construction of cultural identity and issues of cultural conflict as they are expressed in contemporary theatre.
- THEA 304 HONORS CULTURAL DIVERSITY IN CONTEMPORARY THEATRE (3) An examination of both the construction of cultural identity and issues of cultural conflict as they are expressed in contemporary theatre. Admission to Honors College. GenEd II.C.3.
- THEA 307 THEORIES OF THEATRE (3) Theories in acting, directing, design and dramaturgy from the classical through the modern period. Prerequisites: ENGL 102; THEA 211, THEA 212, THEA 213, or consent of instructor. GenEd LD,
- THEA 308 VOICE AND MOVEMENT INTEGRATION (3) Flexibility, responsiveness and integration of vocal and physical expression. Prerequisites: THEA 322, THEA 335 and consent of instructor.
- THEA 309 ACTING III (6) Character development, approaching a script, structuring a scene, relating to environment, ensemble work and audition techniques. Prerequisite; consent of instructor.
- THEA 310 CATAINST THEATRE I (3) Examination, development, rehearsal and performance of social issues occurring on college and high school campuses. Prerequisites: THEA 110 or THEA 102, and consent of instructor.

- THEA 312 SHAKESPEARE (3) Shakespeare reading facility, text analysis, contemporary vocabulary in scenes and monologues. Prerequisite: consent of instructor.
- THEA 315 ADVANCED SCENE STUDY (1-6) Understanding scenes with specific motivational, analytical, character or other acting problems. May be repeated for a maximum of 6 units. Prerequisite: consent of instructor.
- **THEA 318** TOPICS IN STAGE COMBAT (3) Creating the illusion of violence for live theatrical performance. The specific weapons or techniques covered will be determined by the course instructor. May be repeated for a maximum of 9 credits with different weapons or techniques.
- THEA 322 VOICE FOR THE ACTOR II (3) Theory and practice of vocal production applied to period, contemporary and original texts. May be repeated for a maximum of 6 units. Prerequisites: THEA 202 and consent of instructor.
- THEA 327 ACTING FOR THE CAMERA (3) Development of camera acting skills and taped/directed scene study. Prerequisites: THEA 202 or consent of instructor.
- THEA 331 DIRECTING I (3) Fundamentals of play directing through exercises, directorial play analysis and projects in directing short scenes. Prerequisites: THEA 110, THEA 125 and one of either: THEA 211 or THEA 212 or THEA 213, or consent of instructor.
- THEA 332 MIME AND PHYSICAL THEATRE STYLES (3) Advanced mime technique, ensemble exercises and performances in the Italian, Oriental, French and American styles, including community service performances. Prerequisite: THEA 231 or consent of instructor.
- THEA 335 IMPULSÉ IMPROVISATION (3) Listening and responding to impulses within oneself and the ensemble. Prerequisites: THEA 202 and consent of instructor.
- THEA 351 STAGECRAFT II (3) Application of new technological approaches to stage construction, rigging and organization. Prerequisite: THEA 251 or consent of instructor.
- THEA 353 COSTUME DESIGN I (3) Research techniques and relationship of color, texture and historical period to the script and production style. GenEd I.E.
- **THEA 355 LIGHTING DESIGN II** (3) Color, organization and approaches to lighting design. Lab required. Prerequisite: THEA 255.
- THEA 361 SCENIC DESIGN II (3) Relationship of concept, script, aesthetics and research to a production's design and style. Prerequisite: THEA 201.
- **THEA 365 THEATRE STUDY ABROAD** (1-9) One term exchange program in acting, design or theatre management at universities abroad. **Prerequisites:** junior/senior standing and consent of department.
- THEA 380 TOPICS IN DIVERSITY (3) Racial, ethnic, class, gender or sexual identity through the theatre as created by and about members of that group. Prerequisite: completion of GenEd I.B and ENGL 102 or 190. GenEd II.C.3.
- THEA 410 CATALYST THEATRE II (3) Examination of social issues occurring on college and high school campuses and the creation, development and performance of original scripts. Prerequisites: THEA 202 or THEA 310 and consent of instructor.
- THEA 421 DIRECTING II: THE CONTEMPORARY PLAY (3)
 Preparation techniques and directorial approaches to contemporary
 drama. Individual directing projects of scenes from representative contemporary dramas. Prerequisite: THEA 331 or consent of instructor.
- THEA 423 ADVANCED STUDY IN MOVEMENT THEATRE (3) Develop, prepare and perform a solo or ensemble piece. May be repeated for a maximum of 9 units. Prerequisites: THEA 332 and THEA 335.
- THEA 425 ADVANCED STUDY IN ACTING STYLE (1-9) Advanced work in the problems of acting plays from poetic and historic theatre. May be repeated for a maximum of 9 units, with no more than 3 units to be taken in any term, Prerequisite: consent of instructor.
- THEA 427 ADVANCED STUDY IN DIRECTING (1-9) Independent study in preparation, rehearsal and production of special directing projects. May be repeated for a maximum of 9 units. Prerequisites: THEA 331 and consent of instructor.
- THEA 429 ADVANCED STUDY IN THEATRE PRODUCTION (1-9) Independent study in theatre production. May be repeated for a maximum of 9 units. Prerequisite: consent of instructor.
- THEA 433 ADVANCED STUDY IN STAGE MANAGEMENT (1-9) Independent study in stage management. May be repeated for a maximum of 9 units. Prerequisites: THEA 257, THEA 331 and consent of instructor.
- THEA 443 STRUCTURAL DESIGN AND SAFETY (3) Stress analysis, safety practices and construction techniques. Prerequisites: MATH 115, THEA 251 or consent of instructor.

- THEA 445 SCENE PAINTING (3) Techniques for painting scenery. Lab required. Prerequisites: ITHEA 201, ART 201 or consent of instructor.
- THEA 453 COSTUME DESIGN II (3) Fabric selection, budget preparation, pattern choices, resumés and portfolios. Prerequisite: THEA 353. THEA 463 PERIOD STYLE FOR DESIGN (3) Historical periods and
 - FHEA 463 PERIOD STYLE FOR DESIGN (3) Historical periods and styles and their relationship to the visual arts, literature and society. Prerequisite: consent of instructor.
- THEA 480 [580] ADVANCED STUDY IN THEATRE DESIGN (1-9) Independent study in costume, scenery or lighting design. May be repeated for a maximum of 9 units. Prerequisite: consent of instructor.
- THEA 487 PROFESSIONAL THEATRE SEMINAR (1-12) A term-long internship in a resident theatre company. For majors only. Prerequisite: consent of department.
- THEA 488 THÉATRE VISITATION AND ANALYSIS ABROAD (3)
 Analysis and critique of theatre productions. Prerequisites: junior/
 senior standing and consent of department.
- THEA 489 SENIOR ACTING SEMINAR (3) Auditioning techniques, unions, agents, resumes, the transition from student to professional and the realities of professional theatre. Prerequisite: consent of instructor.
- THEA 490 PERFORMANCE PRACTICUM (1-3) Performance in a theatre production sponsored by the Towson University Theatre Arts Department. Eligible productions determined by the department. Repeatable for a maximum of 9 units. Prerequisites: audition and approval of instructor.
- THEA 491 PRODUCTION DRAMATURGY (1-3) Practical experience in production dramaturgy, which will include a combination of research, text analysis and education outreach. This is a project course related to specific theatrical productions and therefore assignments will be determined by the instructor, student and director. May be repeated for a maximum of 9 units. Prerequisites: THEA 125 and at least one of either THEA 211, THEA 212, or THEA 213; permission of instructor.
- THEA 493 [593] ADVANCED STUDY IN THEATRE (1-9) Independent study of an academic or creative nature. May be repeated for a maximum of 9 units. Prerequisite: approval of plan of study by instructor and department chair.
- THEA 494 THEATRE PRODUCTION: SCENIC ELEMENTS (1) Experience involving major responsibility in props, scenic construction and painting on a departmental production. May be repeated for up to 3 units.
- THEA 495 THEATRE PRODUCTION: LIGHTING AND SOUND (1) Experience involving major responsibility in lighting or sound on a departmental production. May be repeated for up to 3 units.
- THEA 496 THEATRE PRODUCTION: CONCENTRATION IN COSTUME (1) Experience involving major responsibility in costuming for a departmental production. May be repeated for up to 3 units.
- THEA 497 THEATRE PRODUCTION: RUNNING CREW (1) Experience involving major responsibility in running a show. May be repeated for up to 3 units.
- THEA 499 SPECIAL PROJECT IN THEATRE RESEARCH (3) Seminar to demonstrate students' proficiency in an area agreed upon by students and their adviser. Prerequisite: Theatre major with senior standing or consent of instructor.

Graduate Division

See TU Graduate Catalog for course descriptions.

WOMEN'S STUDIES (WMST)

Lower Division

- WMST 231 WOMEN IN PERSPECTIVE (3) An examination of the status of women and women's attempts to achieve economic, legal and social equality and physical integrity in the past and today with an emphasis on U.S. women. The focus is on both the commonalities and the diversity of women's experience. Topics covered include marriage, mother-hood, education, jobs and sexuality, with attention to race and class. GenEd ILC.3.
- WMST 232 HONORS SEMINAR: WOMEN IN PERSPECTIVE (3) An examination of the status of women and women's attempts to achieve economic, legal and social equality and physical integrity, in the past and today with an emphasis on U.S. women. The focus is on both the commonalities and the diversity of women's experience. Topics covered include marriage, motherhood, education, jobs and sexuality, with attention to race and class. Emphasis on student research into and analysis of women's political, autobiographical and fictional writings. Honors College. Special permit only. GenEd II.C.3.

344 Course Descriptions

- WMST 233 INTERNATIONAL PERSPECTIVES OF WOMEN (3) Interdisciplinary examination of women's status and activism worldwide, including regional and local comparisons. Roles of governments and international organizations in shaping women's experiences. GenEd Jl.D.
- WMST 234 HONORS SEMINAR: INTERNATIONAL PERSPECTIVES ON WOMEN (3) Interdisciplinary examination of women's status and activism worldwide, including regional and local comparisons. Roles of governments and international organizations in shaping women's experiences. Women's rights and movements to implement them, including grassroots activism. Emphasis on student research into and analysis of analytic essays, news, reportage, fiction and testimonial writings. Special permit only. GenEd II.D.

WMST 235 AMERICAN WOMEN AND POPULAR CULTURE (3) Interdisciplinary examination of representations of women, femininity, and masculinity in contemporary American popular culture, using gender to apply critical analysis to film, literature, television, and music, including the diverse responses of feminist artists and alternative media.

WMST 240 THEMES AND ISSUES IN WOMEN'S STUDIES (3) Study of a theme or current issue from the perspective of Women's Studies. May be repeated for a maximum of 9 units provided that a different topic is covered each time.

Upper Division

- WMST 332 [532] WOMEN'S CULTURE AND CREATIVITY (3) Study of the historical conditions influencing women's creativity, the nature of women's aesthetic achievements, and the emergence of new female cultural and artistic traditions. Prerequisite: WMST 231 or WMST 232 or consent of instructor.
- WMST 333 WOMEN'S WORDS, WOMEN'S LIVES (3) Practice in and study of expository writing about women. Readings include fiction, biographies, autobiographies, letters and journals; student writing will focus on such topics as women's roles, relationships and actions. Prerequisites: ENGL 102; one course in women's studies or one additional English course. GenEd I.D.
- WMST 335 [535] WOMEN, WORK AND FAMILY (3) Women's work examined historically and cross-culturally from an interdisciplinary perspective. Women's work in traditional societies, effects of industrialization on women's work, and women's paid and unpaid work in contemporary societies. Prerequisite: 3 lower-division units in women's studies or consent of instructor.
- WMST 336 [536] WOMEN AND MEDICINE (3) How gender has influenced the structure, content and practice of medicine in the 19th and 20th centuries, with emphasis on disease theory and treatment, physicians' involvement in social policy and women's challenges to medical authority. Special focus on the history of nursing, women's entry into medical practice and women's health movements past and present. Prerequisite: 3 units in women's studies or social sciences.

WMST 337 [537] FEMINIST THEORY (3) An examination of the variety of perspectives, theories, debates, and controversies within feminist thought and practice including global activist movements. Prerequisites: 3 units in women's studies or consent of instructor.

WMST 338 [538] WOMEN AND SEXUALITY (3) Examination of the politics of sexuality: the interaction between cultural definitions and evaluations of women's sexualities and women's social and legal states; and women's attempts to achieve sexual autonomy. Emphasis on how the meaning of sexuality changes over time and how women respond to these changes, and their effect on women. Prerequisites: 3 units in women's studies or social sciences.

- WMST 339 [539] REPRODUCTIVE TECHNOLOGIES AND THE FUTURE OF MOTHERHOOD (3) Reproductive science and contraceptive technologies affecting contemporary society, focusing on ethical and legal issues, and changing definitions of motherhood. Prerequisites: two science courses or one math and one science course. GenEd II.A.2.
- WMST 341 [533] WOMEN AND AGING (3) American society's view of older women and the impact of stereotypes and images on their self-concepts, Prerequisites: 3 units in women's studies or social sciences.
- WMST 370 [570] TOPICS IN WOMEN'S STUDIES (3) An interdisciplinary examination of selected issues, themes or topics in women's studies. Variation in content in different terms. May be repeated for unit provided a different topic is covered. Prerequisite: one women's studies course or consent of instructor.
- WMST 481 DIRECTED READINGS FOR HONORS IN WOMEN'S STUDIES (3-4) Reading and research in preparation for the writing of an Honors thesis. Prerequisite: consent of the departmental Honors coordinator. Special permit only.

WMST 485 SEMINAR IN WOMEN'S STUDIES (3) Advanced study in a specialized area of women's studies. May be repeated for a maximum of 6 units. Prerequisites: WMST 231 or WMST 232 and WMST 337 or equivalent. Special permit only.

WMST 491 [591]DIRECTED READING IN WOMEN'S STUDIES (1-4) Independent reading in women's studies with emphasis on interdisciplinary relationships. Topics selected by student in consultation with the instructor. May be repeated for a maximum of 6 units. Prerequisites: 15 units in interdisciplinary or departmental women's studies courses; minimum 3.00 GPA average in women's studies. Special permit only.

WMST 496 INTERNSHIP IN WOMEN'S STUDIES (3-6) Field placement for students in agencies or organizations working on projects that serve women. May be repeated for a maximum of 9 units. Prerequisites: 3.20 GPA in women's studies courses; 3.00 overall GPA; WMST 231, 232, 233 or 234, and 21 upper-level units; no "I" grades on transcript; consent of the women's studies internship coordinator or department chair in advance of term in which student intends to do the internship. Special permit only. Graded S/U.

WMST 499 HONORS THESIS (3) Thesis preparation in a chosen area of specialization. Prerequisite: consent of the departmental Honors coor-

dinator. Special permit only.

Graduate Division

See TU Graduate Catalog for course descriptions.

WRITING (WRIT)

- WRIT 312 HISTORY OF SCIENCE (3) A general overview of the development of scientific knowledge from ancient to modern times. How our modern scientific worldview has been shaped by major periods of scientific development, particularly in the 16th and 17th centuries, involving primarily astronomy and physics, and in the 19th and 20th, including geology, hiology and psychology. Attention will be given to the relations between science and culture, religion, technology and public policy. Prerequisite: ENGL 102 or ENGL 190; successful completion of GenEd. Categories I.B., I.C., and II.A.1.
- WRIT 354 WRITING FOR CRIMINAL JUSTICE (3) The components of criminal justice system: police, courts, corrections. Theories of criminal justice applied to operations. Does not fulfill GenEd l.D. when completed as SOCI 354. Prerequisites: SOCI 101, ENGL 102 or ENGL 190. GenEd l.D.
- WRIT 375 PUBLIC ADMINISTRATION (3) The theory and practice of managing the public's b usiness with special emphasis on organizational change, personnel and budget. Writing for public administration and the use of computer-based data sources. Prerequisite: POSC 103 and ENGL 102 or ENGL 190. GenEd LD.
